PROJECT I BEACH PROPERTY
METROPOLITAN REDEVELOPMENT PLAN

P r e f a c e

This Plan for Project I redevelopment of the Tingley Beach Metropolitan Redevelopment Area has been prepared pursuant to the Metropolitan Redevelopment Code of the State of New Mexico, Section 3-60A-1 to 3-60A-48 NMSA (1978 Comp.) and applicable Albuquerque City Council Resolutions.

The Plan complements and conforms with the policies established for the project area by the Albuquerque/Bernalillo County Comprehensive Plan and the Huning Castle and Reynolds Addition Neighborhood Sector Development Plan.

The purpose of the Plan is to identify the project area, to present a plan for the elimination of the blighting conditions found to exist within the project area as set forth in City Council Resolution and to indicate the means by which redevelopment will be carried out.

This Plan is an important step in the improvement and revitalization process. Drawn to meet the requirements of New Mexico state statutes, the Plan provides a basis for a continuation and coordination of a variety of public and private actions which will lead to substantial environmental improvements and produce an attractive area which will be a benefit to the City of Albuquerque and the Tingley Beach Metropolitan Redevelopment Area.

This Plan may be amended in accordance with the provisions of the New Mexico Metropolitan Redevelopment Code.

I. THE PROJECT AREA

The general location of the project will be the Beach Property at the southeast corner of the intersection of Central Avenue and the Rio Grande.

A. Legal Description

Tract A Beach Motel Property (SP-83-50) and the adjacent portion of the Alameda Drain.

B. Prevailing Conditions

The site now contains the last portions of the Beach Motel. Five kitchenette units and an office remain.

The entire project area is contained within the Tingley Beach Metropolitan Redevelopment Area.

II. THE PLAN

A. Objective

The objective of the Plan is to show the improvements to be made by the private sector with the assistance of Metropolitan Redevelopment Bond financing in Project I.

Project I will help to eliminate economic and physical blight through economic development by increasing the amount of quality residential development available in the Tingley Beach Metropolitan Redevelopment Area thereby providing essential support for downtown commercial activities, strengthening the neighborhood character, and providing quality close-in housing.

Project I will enhance the City's stated intent to promote economic activity in the Tingley Beach Metropolitan Redevelopment Area by inducing corporations and commercial or business enterprises to locate, expand or remain in the Area in order to mitigate unemployment in the Area, to eliminate blighted conditions in the Area and to maintain a balanced, stable economy in the Area.

It is also the objective of the Plan and City to establish Project I as a Metropolitan Redevelopment Bond Project in order to induce the developer to develop the site by providing the developer with favorable financing for construction of the Project. Making the Project financially feasible through Metropolitan Redevelopment Bond financing will provide quality housing near the Downtown and eliminate a blighted building. Project I will not only complement the present development within and surrounding the area but will also ultimately yield a substantial increase in the ad valorem tax yield.

B. Assessed Values and Bond Amount**1. ASSESSED VALUE**

The present assessed value of the Project land and improvements is \$200,303. It is estimated that the cost of the improvements will be approximately \$4,000,000. The assessed value after development will be well in excess of a 50% increase in the present assessed value.

2. BOND AMOUNT

It is anticipated that Metropolitan Redevelopment Bonds may be issued to finance the Project up to a total amount of \$5,000,000.

C. Project Activity**1. ZONING**

The present zoning is R-3 and C-2. The R-3 zone permits a planned residential development. The C-2 zone permits office and commercial development.

2. LAND USE

The developers propose to construct approximately 80 apartment units and 3,000 square feet of office space.

3. LAND ACQUISITION

The developers have already acquired the land.

4. DEMOLITION AND REMOVAL OF STRUCTURES

The remaining buildings of the Beach Motel will be demolished.

5. SCOPE OF CONSTRUCTION WORK

New residential and office buildings will be constructed with approximately 66,000 square feet of residential (80 units) and 3,000 square feet of office space. The Alameda Drain will be fenced and pedestrian connections established to the Country Club land.

6. UTILITIES

The cost of changes to the utilities will be borne by the private redeveloper. The City has no plans at this time to do public improvements in this area.

7. PROVISION FOR OCCUPANTS OF RESIDENTIAL DWELLINGS

Four households (6 individuals) will be displaced as a result of the demolition of the Beach Motel. To mitigate the relocation process for these households, the City will require the developer to give a minimum of sixty days written notice to all tenants within the project area. The developers have agreed to use their best efforts to relocate individuals to the new apartment complex.

All of the units are efficiencies renting for \$180 per month including utilities.

The City Relocation Officer will provide current and continuous information on the availability of comparable rental housing. A file of relocation housing resources will be maintained, utilizing the following source materials:

1. Multiple Listing Service of the City of Albuquerque.
2. Albuquerque Housing Authority for public housing vacancies.
3. Ad listings in the local newspapers.

This material will be available at 600 Second St. NW, Suite 120, until all renter households are relocated. City Redevelopment staff conducted a survey of the above listings at the time this plan was prepared which showed that comparable housing for the displaced households was available.

The City will provide information concerning assisted housing administered by the City to persons relocating. The City Housing Authority will give priority for available public housing to persons eligible for assisted housing.

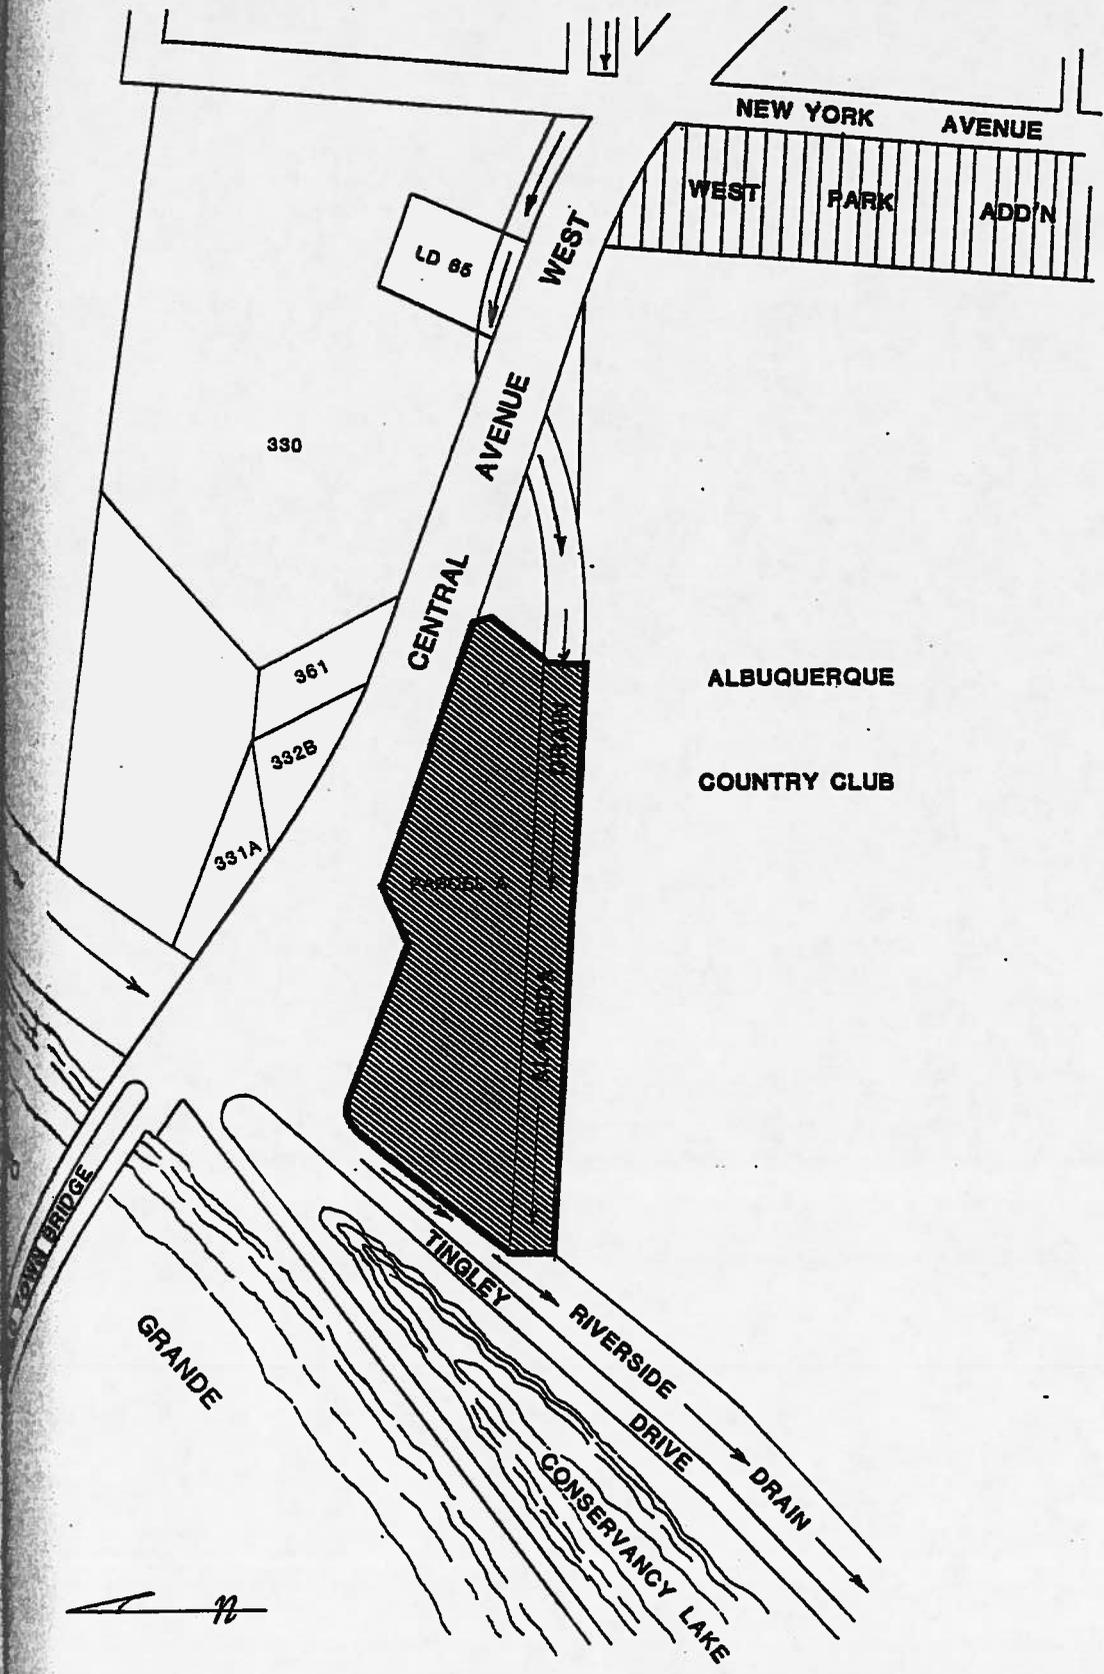

8. DEVELOPMENT SCHEDULE

It is anticipated that construction on Project I could begin as early as September 1983. Project completion is estimated to be one year from the date that construction is begun.

9. SUNSET DATE

The developer requests that the termination date for the inducement resolution for issuance of the Metropolitan Redevelopment Bonds be set at June 1, 1984.

TINGLEY BEACH
DESIGNATION REPORT

The existing conditions of the site proposed to become the Tingley Beach Metropolitan Redevelopment Area meet the following criteria listed in the State Metropolitan Redevelopment Code:

1. Deteriorated Structures.

The existing structures on the site are the remaining units of the Beach Motel. The structures are in a deteriorated condition and do not meet City Code requirements. The northern portion of the Motel was torn down recently due to its deteriorated structural condition.

2. Deterioration of Site or Other Improvements.

The site is bounded on two sides by drains which are not lined or fenced. North Tingley Drive lacks sidewalks along the West Central Area.

3. Unsafe Conditions

The unfenced drains with their steep banks are a hazard.

4. Low Level of Commercial Activities or Redevelopment

The one business located on the property has reduced its business by half due to the demolition of Motel structures. No structures have yet been replaced.

The above factors, taken in combination, have impaired the growth and economic health of the area. The designation of the area will encourage development to eliminate the blighting conditions cited above.

REF. NO. _____

TO: Bob White, President, City Council

SUBJECT: Designation of the Tingley Beach Metropolitan Redevelopment Area

The attached resolution will designate a new Metropolitan Redevelopment Area, Tingley Beach (see attached map).

Metropolitan Redevelopment Area designation will encourage development of this blighted parcel of land, now the site of the deteriorated Beach Motel, along Central Avenue.

The attached report on designation finds that the area meets four criteria: deteriorated structures, deterioration of site or other improvements, unsafe conditions, and a low level of commercial activities or redevelopments. The entire area is under a single ownership and the owners are in agreement with designation.

The Metropolitan Redevelopment Commission recommended this designation. I recommend approval of this resolution.
