RE: Letter Briefly describing and justifying request: T-Mobile Proposed Concealed Wireless Antenna Facility
Address: 6521 Paradise Blvd. NW, Albuquerque, New Mexico 87114.
Legal : Tract G-2-A of the Plat of Tracts G-1-A, G-2-A, G-2-B, G-2-C, & G-4A Ventana Square at Ventana Ranch.
Zoning: C-2, Parcel ID: 1 010 065 083 1373 0701

Planning/Zoning Enforcement:

The applicant, T-Mobile, proposes to construct a 65' concealed wireless telecommunications facility at the above described location for the purposes of operating and improving their wireless communications network.

The proposal is to replace an existing light pole on the property. The proposed facility will comply with the criteria for a Wireless Telecommunications Facilities as outlined in Section 14-16-2-16(B). The concealed wireless facility will be built to be colocateable, should another carrier wish to colocate on the site.

There are no suitable vertical structures within the area that could accommodate T-Mobiles equipment.

The proposed facility is on a property now being used for Commercial and Institution uses.

T-Mobile does not have good service in this area, and this facility at this location will solve the cell void in the area which will benefit it's customers in the neighborhood, and in surrounding communities.

Should you have any questions, please contact me at (505) 480-8757.

RE: Letter of Intent per Section 14-16-3-17-A5 of the Zoning Ordinance
T-Mobile Proposed Wireless Antenna Facility

Address: 6521 Paradise Blvd. NW, Albuquerque, New Mexico 87114.
Legal : Tract G-2-A of the Plat of Tracts G-1-A, G-2-A, G-2-B, G-2-C, &
G-4A Ventana Square at Ventana Ranch.
Zoning: C-2

Planning/Zoning Enforcement:

The applicant, T-Mobile, proposes to construct a 65' concealed wireless facility at the above described location for the purposes of operating a wireless telecommunications facility. This will be a light pole replacement utilizing an existing light fixture and replacing the pole to allow for the concealed antennas within the pole. The following items apply to the proposed installation, and should respond to additional information requirements in the application for concealed sites subject to site development plan review.

1. Two existing concealed facilities are located within 1/4 of a mile from T-Mobile's proposed site location but cannot accommodate T-Mobile's equipment requirements. The facilities are located approximately 1500 feet to the South at the Ventana Ranch Self Storage facility, however because both sites are in the Northwest Mesa Escarpment Sector Plan and are limited to a height of only 40 feet, collocation on these poles does not meet minimum engineering height requirements and will not provide the coverage needed to fill the coverage gap now experienced by T-Mobile residential customers in this Community. The closest concealed site located on the north end of the Ventana Self Storage facility is an AT&T Wireless site, previously a Cingular site, and the facility on the south end of the Ventana Self Storage facility is a Sprint wireless facility.
2. There are no public utility structures in the area that can accommodate T-Mobile's height and design requirements located within 1/4 mile radius from our proposed site location. There are no power transmission lines in the area, and distribution lines are all underground, and therefore none available for collocation.

3. No properties with existing towers are located less than 1000 feet away from the property line. (See item no.1 above).

4. The 65' pole will be structurally engineered to allow a minimum of 2 users at the facility. Assuming an additional user meets reasonable terms and conditions pertaining to a future shared use, T-Mobile will grant shared use of the facility.

Should you have any questions, please contact me at 505-480-8757.

Sincerely,

Dan Varela
Agent for T-Mobile
