Case #: 15BPC-40032
November 12, 2015*

Staff Report

Agent	Tierra West, LLC
Applicant	W & M Company
Request	Amendment to Site Development Plan for Subdivision
Legal Description	Tract A-1 Redivision of Tract A (now comprising Tracts A1 & A2), the southwesterly portion of Tract A-1, all of Tract 1 excluding the northerly portion & excluding those portions adjacent to the south & east out to right-of-way
Location	On Wyoming Blvd. NE, between Montgomery Blvd. NE and Osuna Rd. NE
Size	Approximately 6.75 acres
Existing Zoning	C-2 (SC)
Proposed Zoning	No change

Staff Recommendation
APPROVAL of Case # 15BPC-40032 based on the Findings beginning on Page #10, and subject to the Conditions of Approval beginning on Page #12.

Staff Planner
Vicente M. Quevedo, Planner

Summary of Analysis
 The request is for a site development plan for subdivision (SDPS) amendment with design standards for an approximately 6.75 acre site. The request would subdivide the undeveloped portions of the subject site into 5 separate pad sites. The applicant envisions additional commercial uses on the subject site.

The subject site is in the Established Urban area of the Comprehensive Plan. Overall, Staff finds that the request generally furthers applicable Goals and policies. Neighbors and property owners were notified as required. Staff received comments from the property owner to the north of the subject site.

The applicant requests that future site development plans for building permit for each tract be delegated to DRB for review and final sign-off. Staff is recommending approval of the requested amendment subject to conditions.

City Departments and other interested agencies reviewed this application from 08/03/15 to 08/14/15
 Agency comments used in the preparation of this report begin on Page #16.

I. AREA CHARACTERISTICS AND ZONING HISTORY

Surrounding zoning, plan designations, and land uses:

	Zoning	Comprehensive Plan Area; Applicable Rank II & III Plans	Land Use
Site	C-2 (SC)	Established Urban	Retail / Commercial Service, Vacant
North	SU-1 for Church and Related Facilities	Established Urban	Public / Institutional
South	C-2 (SC)	Established Urban	Commercial Retail
East	C-2	Established Urban	Commercial Retail
West	R-1	Established Urban	Single Family Residential

II. INTRODUCTION

Proposal

This is a request for an amendment to the Los Pastores Shopping Center site development plan for subdivision. The subject site is zoned C-2 (SC). The proposed amendments will subdivide the undeveloped portions of the subject site into five separate pad sites and establish necessary access and utility easements. Updated design standards are also proposed that would apply to the entire 6.75 acre shopping center site.

EPC Role

The request is a quasi-judicial matter. The Shopping Center (SC) Regulations Section §14-16-3-2(C) require the same approval process as an SU-1 zoned site. This request is being heard by the EPC because of the stated provision in the SC regulations. The SC Regulations do not allow the EPC to have discretion over building height or parking requirements which are regulated by the underlying C-2 zoning and any approved Site Development Plans. Free standing signage is regulated by the SC requirements of the Zoning Code, and wall mounted signage by the C-2 requirements of the Zoning Code.

In cases where an applicant has requested DRB delegation of future site development plans for building permit but has not specified whether an advertised or unadvertised hearing is required, the advertised public hearing schedule shall be used if delegation is granted by the EPC.

History/Background

A subdivision plan was originally approved in December 1962 and subdivided the subject site into three separate tracts (S-1214). The existing C-2 zoning was established for the subject site

in November 1977 (Z-77-165). In January 1980 the Los Pastores Shopping Center development plan was approved by the EPC with conditions. The only portions of the approved development plan that have been constructed are an existing fast food restaurant building on the southwesterly portion of Tract A-1 and a bank building on the southeasterly portion of Tract A-1.

Context

The subject site is bound on the north by an adjacent unpaved public alley and an existing church, on the east by Wyoming Blvd., on the south by Montgomery Blvd. and on the west by an adjacent unpaved public alley and a residential subdivision.

Transportation System

The 2013 Interim Long Range Roadway System (ILRRS) map, produced by the Mid-Region Council of Governments (MRCOG), identifies the functional classifications of roadways.

The ILRRS designates Wyoming Blvd. & Montgomery Blvd. as Principal Arterials.

The ILRRS designates Gutierrez Rd. as a Local street.

Comprehensive Plan Corridor Designation

Montgomery Blvd. is designated a Major Transit Corridor with the goal to optimize public transit and move large numbers of people in a very timely and efficient manner.

Wyoming Blvd. is designated an Enhanced Transit Corridor with the goal to improve transit and pedestrian opportunities for residents, businesses and other users nearby.

Trails/Bikeways

The nearest existing bicycle lanes are located along Pennsylvania St. approximately .40 of a mile west of the subject site, and along Osuna Rd. approximately .30 of a mile north of the subject site. Bear Canyon Trail is located north of the subject site and north of Osuna Rd. approximately .36 of a mile from the subject site.

Transit

Route #31, Wyoming route, and Route #98, Alameda-Wyoming-KAFB commuter route, pass the site on Wyoming. Refer to Transit Agency comments for additional information.

Public Facilities/Community Services

There are four schools, a police station, and several developed City parks within a mile of the subject site. See the Public Facilities Map preceding this report for more details.

III. ANALYSIS - APPLICABLE ORDINANCES, PLANS AND POLICIES

Albuquerque Comprehensive Zoning Code

Definitions (Zoning Code §14-16-1-5)

SHOPPING CENTER SITE. A premises containing five or more acres; zoned P, C-1, C-2, C-3, M-1, M-2, or a combination thereof; or a large retail facility; but excluding premises used and

proposed to be used only for manufacturing, assembling, treating, repairing, rebuilding, wholesaling, and warehousing. Shopping center sites are subject to the shopping center regulations of the Zoning Code, § 14-16-3-2.

SITE DEVELOPMENT PLAN FOR SUBDIVISION. An accurate plan at a scale of at least 1 inch to 100 feet which covers at least one lot and specifies the site, proposed use, pedestrian and vehicular ingress and egress, any internal circulation requirements and, for each lot, maximum building height, minimum building setback, and maximum total dwelling units and/or nonresidential uses' maximum floor area ratio.

Zoning

The existing zoning for the subject site is C-2 (SC). The C-2 zone provides suitable sites for offices, for most service and commercial activities, and for certain specified institutional uses. SC refers to Shopping Center regulations, which are found in Section 14-16-3-2 of the Zoning Code. The subject site must meet all of the Shopping Center regulations.

Albuquerque / Bernalillo County Comprehensive Plan

Policy Citations are in Regular Text; Staff Analysis is in ***Bold Italics***

The subject site is located in an area that the Albuquerque/Bernalillo County Comprehensive Plan has designated Established Urban. The Goal of Developing and Established Urban Areas is "to create a quality urban environment which perpetuates the tradition of identifiable, individual but integrated communities within the metropolitan area and which offers variety and maximum choice in housing, transportation, work areas and life styles, while creating a visually pleasing built environment." Applicable policies include:

Policy II.B.5.d.: The location, intensity, and design of new development shall respect existing neighborhood values, natural environmental conditions and carrying capacities, scenic resources, and resources of other social, cultural, recreational concern.

The requested action is appropriately located adjacent to and nearby a cluster of other C-2 zoned lots, the intensity of which will not negatively impact existing residential development in the area. Carrying capacities are also appropriate for the area. Therefore, the request furthers Policy II.B.5.d.

Policy II.B.5.e.: New growth shall be accommodated through development in areas where vacant land is contiguous to existing or programmed urban facilities and services and where the integrity of existing neighborhoods can be ensured.

The portion of the site that is proposed to be subdivided into 5 new pad sites is vacant and is contiguous to existing urban facilities and services and the integrity of existing neighborhoods will be ensured. The request furthers Policy II.B.5.e.

Policy II.B.5.i.: Employment and service uses shall be located to complement residential areas and shall be sited to minimize adverse effects of noise, lighting, pollution, and traffic on residential environments.

The applicant envisions additional commercial uses for the subject site. The subject site is located near adjacent to and nearby a cluster of other C-2 zoned lots which are configured to complement nearby residential areas. The proposed design standards proposed by the applicant generally meet the requirements of the Zoning Code and will serve to minimize any potential adverse impacts on residential environments. Therefore, the request furthers Policy II.B.5.i.

Policy II.B.5.j.: Where new commercial development occurs, it should generally be located in existing commercially zoned areas as follows:

- In larger area-wide shopping centers located at intersections of arterial streets and provided with access via mass transit; more than one shopping center should be allowed at an intersection only when transportation problems do not result.

New commercial development that results from the proposed subdivision action will be located within an existing commercially zoned area, within a larger area-wide shopping center site at the intersection of Wyoming and Montgomery Blvd. which are designated minor arterial streets. Route #31, Wyoming route, and Route #98, Alameda-Wyoming-KAFB commuter route, pass the site on Wyoming Blvd. Therefore, the request furthers Policy II.B.5.j.

Policy II.B.5.k.: Land adjacent to arterial streets shall be planned to minimize harmful effects of traffic; livability and safety of established residential neighborhoods shall be protected in transportation planning and operation.

The subject site is adjacent to two minor arterials and will be designed to minimize any harmful effects of traffic on nearby established residential neighborhoods. Transportation Staff provided comments that, when addressed, would help minimize harmful effects of traffic. The TIS form indicates that a traffic study is not required. The request furthers Policy II.B.5k.

Policy II.B.5l: Quality and innovation in design shall be encouraged in all new development; design shall be encouraged which is appropriate to the plan area.

The proposed design standards would require quality building materials and articulation, and would result in "modern" style buildings that would generally create quality. The request furthers Policy II.B.5l-quality design/new development.

IV. SITE DEVELOPMENT PLAN FOR SUBDIVISION AMENDMENT

Request

This is a request for an amendment to the Los Pastores Shopping Center site development plan for subdivision. The subject site is zoned C-2 (SC). The proposed amendments will subdivide the undeveloped portions of the subject site and establish necessary access and utility easements. Updated design standards are also proposed that would apply to the entire shopping center site. Once the current requested plan set receives final DRB sign-off, the new plan requirements will supersede the original 1980 EPC approved development plan requirements.

Section 14-16-3-11 of the Zoning Code states, "...Site Development Plans are expected to meet the requirements of adopted city policies and procedures." As such, staff has reviewed the attached site development plan for conformance with applicable goals and policies in the Comprehensive Plan and the Zoning Code.

Site Plan Layout / Configuration

The site development plan for subdivision proposes the creation of five new lots. Lots 1, 2 and 3 would have frontage along Wyoming Blvd.. Lots 4 and 5 would not as they comprise the western half of the site which is adjacent to residential lots to the west and an SU-1 site to the north. There is an existing access easement off of Montgomery Blvd. and a second one off of Wyoming Blvd. An additional access easement off of Wyoming is proposed along with a new access easement off of the existing 20' public alley way at the north end of the subject site which bisects the new proposed lots 1 through 5.

Zoning Code §14-16-1-5 defines a site development plan for subdivision as follows:

"An accurate plan at a scale of at least 1 inch to 100 feet which covers at least one lot and specifies the site, proposed use, pedestrian and vehicular ingress and egress, any internal circulation requirements and, for each lot, maximum building height, minimum building setback, and maximum total dwelling units and/or nonresidential uses' maximum floor area ratio."

The proposed site development plan for subdivision complies with this definition because the abovementioned categories are listed and adequately addressed.

Proposed Design Standards

Intent and Purpose (Section I.)

The stated purpose and intent of the proposed design standards are to create an aesthetically pleasing, pedestrian friendly, mixed use development that adds office, retail and restaurant amenities to the NW corner of Montgomery and Wyoming.

Setbacks & Building Height Limitations (Section II.)

The applicant states that there is no building height limitation for a lot in a C-2 zone, however, the Zoning Code states that building height is regulated by the O-1 zone which allows a maximum building height of 26', however, any structure over 26' must fall within 45 degree angle planes drawn from the horizontal at the mean grade along each internal boundary of the premises and each adjacent public right-of-way centerline. Additionally, structures shall not exceed 26' within 85' of a lot zoned specifically for houses. Therefore, the current statement regarding no building height limitation shall be stricken and revised to add a reference to the height limitations of the Zoning Code Section 14-16-2-15(C)(1) (Office and Institution Zone) shall be added to Section II of the proposed design standards.

The applicant also outlines adequate maximum 90' building setback requirements for lots along Wyoming Blvd. Landscape setbacks are proposed to conform to the General Landscaping Requirements of the Zoning Code except for parking areas along Wyoming Blvd. where a 15' setback from the public right-of-way for appropriate screening is proposed. Finally, the applicant proposes to allow building overhangs, patio walls and patio/plazas within building setback areas to allow for public and/or private gathering spaces.

Parking (Section III.)

The goal of the proposed parking design standards is to lessen their visual impact by breaking up parking areas into a series of smaller areas. To accomplish this goal, the applicant has stated that all off-street parking areas shall comply with Section 14-16-3-1 (General Off-Street Parking Regulations) of Zoning Code including 6 ft wide pedestrian connections to buildings and requiring parking to be placed behind buildings. Bicycle, motorcycle parking shall comply with off-street parking regulations and grading and drainage design of parking areas shall comply with Chapter 22 of the city's Development Process Manual (Drainage, Flood Control and Erosion Control). However, the SDPS will need to be revised to include a note stating that all off-street parking areas shall comply with all First Flush Drainage Ordinance requirements as well as a section outlining conformance with Designated Disabled Parking Space requirements.

Pedestrian Connections & Amenities (Section IV.)

These design standards are intended to help meet the applicant's goal of creating a pedestrian friendly atmosphere. All pedestrian connections are required to conform to Section H of the General Off-Street Parking Regulations of the Zoning Code the intent of which is to safely and conveniently accommodate the inter-related movement of vehicles, bicycles and pedestrians within a proposed development. This section of the Zoning Code also requires a minimum 6' pedestrian walkway width, that these walkways be provided from all street sidewalks to the main building entrance and that all buildings within a site be connected to each other with pedestrian walkways.

A minimum 200 sf of public space shall also be provided at each restaurant establishment for outdoor seating or gathering. The design standards also encourage shaded areas and spaces designated for public space/seating. Section IV.(a)(ii) identifies the site as a 5 acre site and will need to be revised to reference the correct 6.75 total acreage.

Landscaping (Section V.)

The intent of the landscaping design standards are to provide year round color and interest and reflect the natural environment of the New Mexico landscape. The applicant proposes to meet this intent by ensuring that drought tolerant plant species are used within landscaping areas selected from a specified palette and ensuring that all landscaping activities conform to the requirements of the Street Tree Ordinance and General Landscaping Regulations.

Walls & Fences (Section VI.)

Less attractive areas such as parking, refuse, utility items, mechanical equipment, loading docks, and substantial changes in grade shall be screened through the use of walls, fences, berms, or

dense evergreen foliage and must be designed to be integrated as part of the overall aesthetic. All screening elements must conform to the DPM Clear Site Triangle requirements and General Building and Site Design Regulations for Non-Residential Uses.

Staff recommends that the title of this section be revised to read "Walls, Fences & Screening", that more detail be provided regarding specific materials to be used for trash enclosures and that item 1. be revised to cite the specific city Drainage Ordinance number.

Utilities (Section VII.)

The goal of these design standards are to minimize the visual impact of utilities and equipment in order to ensure the overall aesthetic quality of future development. To achieve this goal, new electrical distribution lines shall be placed underground. Appropriate screening of items such as transformers, utility pads and telephone boxes shall be implemented. A Conceptual Utility Plan (Sheet MU-1) has also been provided by the applicant outlining all proposed utilities on the subject site. PNM commented that the applicant adequately addressed their concerns regarding screening and clearances, and that it is the applicant's obligation to abide by any conditions or terms of all existing easements.

Architecture (Section VIII.)

High quality aesthetic character of the buildings on the subject site is the goal of the stated architectural design standards. A "modern" architectural style is proposed for the future buildings on the subject site and generic franchise architecture is prohibited. All buildings are required to have adequate articulation and continuous wall planes of over 100' and must include architectural treatment elements such as an offset, or fenestration. Massing in the form of color variation or material distinction is also required. Quality materials appropriate to the New Mexico climate are required and prohibited external building materials such as engineered wood paneling and vinyl or plastic siding is prohibited. The Zoning Code requires that all SDPS include information regarding maximum FAR (Floor Area Ratio) yet no information has been included to address this requirement. The SDPS must be revised to include information outlining the proposed maximum FAR for the subject site.

Lighting (Section IX.)

The primary design objective of the lighting design standards is to maximize public safety without impacting adjacent properties, buildings, or roadways with unnecessary glare or reflection. All site lighting shall comply with Section 14-16-3-9 (Area Lighting Regulations) of the Zoning Code as well as all New Mexico Sky Lighting Protection Act requirements. Lighting Plans are required for all Site Development Plans for Building Permit.

Signage (Section X.)

The subject site is greater than 5 acres in size and is zoned C-2, so it is a shopping center (SC) site by definition. Pursuant to 14-16-3-2(B)(4), a shopping center site is allowed one free-standing sign for every 300 linear feet of frontage along an arterial and the maximum signable area shall be 150 sf. The EPC does not have discretion over signage.

Wyoming Blvd. is an arterial and the site frontage measures approximately 804 linear feet so two signs are allowed. Additionally Montgomery Blvd. is an arterial and the site frontage measures approximately 417 feet so a total of one sign is allowed. However, there are currently two off-premise signs and two free standing signs along Wyoming Blvd. There are two free standing signs along Montgomery Blvd. which exceeds the maximum allowed per the Zoning Code.

The applicant has proposed that all signage shall comply with Zoning Code Section 14-16-3-5 (General Sign Regulations) and has stated that all signage shall also comply with Zoning Code Section 14-16-3-2(B)(4) (Shopping Center Regulations). However, there is a conflict with the additional proposed language which stating that "*one monument sign.....is permissible at multiple points of entry from Wyoming Blvd. when distances from each sign is greater than 300 ft*". This is due to the fact that the Zoning Code clearly states that "*one free-standing sign for every 300 linear feet of frontage along an arterial*" meaning that the two existing free standing signs along Wyoming Blvd. already meet the maximum allowed signage, and the EPC does not have discretion to modify this requirement of the Shopping Center Regulations. Therefore, letter f. under section X. Signage must be stricken from the proposed design standards and a note added to reflect exact language of the Zoning Code requirements of Section 14-16-3-2(B)(4).

Drainage

An updated drainage plan has been provided for the subject site however, the plan does not show any drainage detail for the two southern most parcels on the subject site and will need to be revised to address these parcels. Surface runoff from the site generally flows from the northeast corner of the subject site toward an existing pond on the southwest portion of the undeveloped area. Offsite flows draining onto the subject site from the north surface flow over the southwestern parcel and drain through a curb cut into an existing pond. No offsite flows drain on the site from Wyoming Blvd. Drainage patterns are proposed to be maintained and the existing drainage pond will be enlarged and maintained in the same location with discharge rates matching historic, pre-development flows. Each new pad site will also contain privately maintained ponds or underground drainage storage structure.

V. AGENCY & NEIGHBORHOOD CONCERNS

Reviewing Agencies

The most significant comments received were from the Transit Department requesting that the applicant install a Type C bus shelter as per the COA Design standard COA 2355, and associated bench and trash can at the existing bus stop located adjacent to the property on Menaul. Planning Staff forwarded the comments to the applicant but to date has not received any additional comments from the applicant as to whether this request is agreed to.

Neighborhood/Public

The Loma Del Rey Neighborhood Association and District 7 Coalition of Neighborhood Associations as well as property owners within 100 ft of the subject were notified of this request. A facilitated meeting was not recommended or held.

Planning Staff received written public comments from the property owner directly north of the subject site stating that they were not in agreement with the proposed request for a site development plan for subdivision amendment.

Following discussions with the applicant and the Traffic Engineering Department, it appears that there is some disagreement regarding future improvements to the existing 20' public alley that will be required by the Traffic Engineering Department as well as the potential for alcohol sales to take place on the subject site. The applicant and the Traffic Engineering Department have attempted to meet with the property owner to the north. Additionally, the sale of on-premise alcohol sale and consumption is a permissive use under the existing C-2 zoning designation.

VI. CONCLUSION

This is a request for an amendment to the Los Pastores Shopping Center site development plan for subdivision. The subject site is zoned C-2 (SC). The proposed amendments will subdivide the undeveloped portions of the subject site into five separate pad sites and establish necessary access and utility easements. Updated design standards are also proposed that would apply to the entire shopping center site.

The proposed site development plan for subdivision would create 5 new lots. The applicant envisions various commercial uses and an office use in the future. Lots 1, 2 and 3 would have frontage along Wyoming Blvd. Lots 4 and 5 would not as they comprise the western half of the site which is adjacent to residential lots to the west and an SU-1 site to the north. A Traffic Impact Study (TIS) was not required.

The subject site is in the Established Urban area of the Comprehensive Plan. Overall, Staff finds that the request generally furthers applicable Goals and policies. Neighborhood organizations were notified as required. There is known opposition to this request from the property owner to the north of the subject site, however, the items that have been raised (disagreement with city required improvements to the 20' public alley & alcohol sales on the subject site) are not items that the EPC can take action on because the required improvements are per the DPM which the EPC does not have discretion over, and the sale of alcoholic beverages on the subject site is already a permissive use per Section 14-16-2-17(A)(13) (Community Commercial Zone).

The applicant requests that future site development plans for building permit for each tract be delegated to DRB for review and final sign-off. Therefore, it is important that the design standards be clear and provides sufficient direction. The EPC has complete discretion over whether DRB delegation will be approved.

Staff has provided a list of recommended conditions to help clarify elements of the stated design standards, however the proposed design guidelines do not warrant delegation to DRB at this time. The current design standard language is not specific or detailed enough in Planning Staff's opinion to provide sufficient design and layout direction in order to bypass the EPC process with regard to future review of Site Development Plan for Building Permit requests.

FINDINGS - 15EPC-40032 – November 12, 2015 - Site Development Plan for Building Subdivision Amendment

1. This is a request for a Site Development Plan for Subdivision Amendment for Tract A-1, Re-division of Tract A (now comprising Tracts A1 & A2), the southwesterly portion of Tract A-1, all of Tract 1 excluding the northerly portion & excluding those portions adjacent to the south & east out to right-of-way located on Wyoming Blvd. NE, between Montgomery Blvd. NE and Osuna Rd. NE and containing approximately 6.75 acres.
2. The subject site is zoned C-2 (SC). The proposed amendments will subdivide the undeveloped portions of the subject site into five separate pad sites and establish necessary access and utility easements. Updated design standards are also proposed that would apply to the entire 6.75 acre shopping center site. This is a quasi-judicial matter.
3. A subdivision plan was originally approved in December 1962 and subdivided the subject site into three separate tracts (S-1214). The existing C-2 zoning was established for the subject site in November 1977 (Z-77-165). In January 1980 the Los Pastores Shopping Center development plan was approved by the EPC with conditions.
4. The Albuquerque/Bernalillo County Comprehensive Plan and the City of Albuquerque Zoning Code are incorporated herein by reference and made part of the record for all purposes.
5. The Site Development Plan for Subdivision Amendment furthers the following relevant Comprehensive Plan policies:
 - A. Policy II.B.5.d.: The location, intensity, and design of new development shall respect existing neighborhood values, natural environmental conditions and carrying capacities, scenic resources, and resources of other social, cultural, recreational concern.

The requested action is appropriately located adjacent to and nearby a cluster of other C-2 zoned lots, the intensity of which will not negatively impact existing residential development in the area. Carrying capacities are also appropriate for the area. Therefore, the request furthers Policy II.B.5.d.
 - B. Policy II.B.5.e.: New growth shall be accommodated through development in areas where vacant land is contiguous to existing or programmed urban facilities and services and where the integrity of existing neighborhoods can be ensured.

The portion of the site that is proposed to be subdivided into 5 new pad sites is vacant and is contiguous to existing urban facilities and services and the integrity of existing neighborhoods will be ensured. The request furthers Policy II.B.5.e.

- C. Policy II.B.5.i.: Employment and service uses shall be located to complement residential areas and shall be sited to minimize adverse effects of noise, lighting, pollution, and traffic on residential environments.

The applicant envisions additional commercial uses for the subject site. The subject site is located near adjacent to and nearby a cluster of other C-2 zoned lots which are configured to complement nearby residential areas. The proposed design standards proposed by the applicant generally meet the requirements of the Zoning Code and will serve to minimize any potential adverse impacts on residential environments. Therefore, the request furthers Policy II.B.5.i.

- D. Policy II.B.5.j.: Where new commercial development occurs, it should generally be located in existing commercially zoned areas as follows:

- In larger area-wide shopping centers located at intersections of arterial streets and provided with access via mass transit; more than one shopping center should be allowed at an intersection only when transportation problems do not result.

New commercial development that results from the proposed subdivision action will be located within an existing commercially zoned area, within a larger area-wide shopping center site at the intersection of Wyoming and Montgomery Blvd. which are designated minor arterial streets. Route #31, Wyoming route, and Route #98, Alameda-Wyoming-KAFB commuter route, pass the site on Wyoming Blvd. Therefore, the request furthers Policy II.B.5.j.

- E. Policy II.B.5.k.: Land adjacent to arterial streets shall be planned to minimize harmful effects of traffic; livability and safety of established residential neighborhoods shall be protected in transportation planning and operation.

The subject site is adjacent to two minor arterials and will be designed to minimize any harmful effects of traffic on nearby established residential neighborhoods. Transportation Staff provided comments that, when addressed, would help minimize harmful effects of traffic. The TIS form indicates that a traffic study is not required. The request furthers Policy II.B.5k.

- F. Policy II.B.5l: Quality and innovation in design shall be encouraged in all new development; design shall be encouraged which is appropriate to the plan area.

The proposed design standards would require quality building materials and articulation, and would result in "modern" style buildings that would generally create quality. The request furthers Policy II.B.5l-quality design/new development.

6. The applicant requests that future site development plans for building permit for each tract be delegated to DRB for review and final sign-off.

7. The EPC has complete discretion over whether DRB delegation will be approved.
8. Design standards must be clear and provide sufficient direction with regard to the design and pad site layout direction for future requests for Site Development Plans for Building Permit.
9. The proposed design guidelines do not warrant delegation to DRB as they do not provide sufficient design and pad site layout direction for future requests for Site Development Plans for Building Permit.
10. The Loma Del Rey Neighborhood Association and District 7 Coalition of Neighborhood Associations as well as property owners within 100' of the subject were notified of this request. A facilitated meeting was not recommended or held.
11. Staff received written public comments from the property owner directly north of the subject site stating that they were not in agreement with the proposed request for a site development plan for subdivision amendment.

RECOMMENDATION – 15EPC-40032 – November 12, 2015

APPROVAL of 15EPC-40032, a request for Site Development Plan for Subdivision Amendment, for Tract A-1 Re-division of Tract A (now comprising Tracts A1 & A2), the southwesterly portion of Tract A-1, all of Tract 1 excluding the northerly portion & excluding those portions adjacent to the south & east out to right-of-way, based on the preceding Findings and subject to the following Conditions of Approval.

CONDITIONS OF APPROVAL – 15EPC-40032 – November 12, 2015 - Site Development Plan for Subdivision Amendment

1. The EPC delegates final sign-off authority of this site development plan to the Development Review Board (DRB). The DRB is responsible for ensuring that all EPC Conditions have been satisfied and that other applicable City requirements have been met. A letter shall accompany the submittal, specifying all modifications that have been made to the site plan since the EPC hearing, including how the site plan has been modified to meet each of the

EPC conditions. Unauthorized changes to this site plan, including before or after DRB final sign-off, may result in forfeiture of approvals.

2. Prior to application submittal to the DRB, the applicant shall meet with the staff planner to ensure that all conditions of approval are met.

3. Conditions of Approval for Design Standards Section:
 - a. All references made within the site development plan for subdivision to applicable sections of the City of Albuquerque Comprehensive Zoning Code shall list/identify the full corresponding name of that section of the Zoning Code within the design standards section.

 - b. Section II. – Setbacks & Building Height Limitations shall be revised to state that building heights are regulated by Section 14-16-2-15(C)(1) – Office & Institution Zone which allows a maximum building height of 26’, however, any structure over 26’ must fall within 45 degree angle planes drawn from the horizontal at the mean grade along each internal boundary of the premises and each adjacent public right-of-way centerline. Additionally, structures shall not exceed 26’ within 85’ of a lot zoned specifically for houses.

 - c. Section III. – Parking shall be revised to include a note stating that all off-street parking areas shall comply with all First Flush Drainage Ordinance requirements as well as a section outlining conformance with Designated Disabled Parking Space requirements.

 - d. Section IV.(a)(ii) – Pedestrian Connections & Amenities shall be revised to reference the correct 6.75 total site acreage. It currently reads that the site contains a total of 5 acres.

 - e. The title for Section VI. – Walls & Fences shall be revised to read “Walls, Fences & Screening”, provide more detail regarding specific materials to be used for trash enclosures, and item l. be revised to cite the specific city Drainage Ordinance number.

 - f. Section VIII. – Architecture shall be revised to include information outlining the proposed FAR for the subject site as required by the Zoning Code.

 - g. Section X.(f) – Signage shall be revised to reflect the Zoning Code requirements of Section 14-16-3-2(B)(4) which states that only one free-standing sign for every 300 linear feet of frontage along an arterial is allowed.

 - h. The Conceptual Drainage Plan shall be revised to include drainage details for the southwesterly portion of Tract A-1 and the southeasterly portion of Tract A-1.

4. The subdivision of the site shall comply with the purpose, intent, and regulations of the Subdivision Ordinance (14-14-1-3).”

5. The Site Development Plan shall comply with the General Regulations of the Zoning Code, the Subdivision Ordinance, and all other applicable design regulations, except as specifically approved by the EPC.

6. Conditions of Approval – Water Utility Authority, Utility Services:
 - An availability statement is required and can be made at the following link: http://www.abcwua.org/Availability_Statements.aspx. Requests shall include fire flow requirements from the fire marshal.

 - The Utility Plan indicates public sanitary sewer onsite. This will not be acceptable.

7. Conditions of Approval – City Engineer, Transportation Development:
 - Developer is responsible for permanent improvements to the transportation facilities adjacent to the proposed development site plan, as required by the Development Review Board (DRB).

 - Developer shall follow requirements as per the approved Traffic Impact Study. As part of the Traffic Impact Study, it was requested to investigate possibility of improvements at the Wyoming/Montgomery intersection. It was also requested to investigate moving the southern access way from Wyoming Boulevard to the north such that it will possibly line up with the driveway access into Quarters. Cross-access agreement with the neighboring church to the north is required for the proposed plan.

 - Developer must coordinate with the property located to the north regarding the entrance along the existing alley. A shared access to Wyoming must be built with this development.

 - The access located on the south edge along Wyoming needs to be modified to be perpendicular to the roadway.

 - Developer is responsible for permanent improvements to the transportation facilities adjacent to the proposed development, as required by the Development Review Board (DRB)

8. Conditions of Approval – City Engineer, Hydrology Development:

- EPC project # 1010550; A full G&D plan review meeting the following criteria and other criteria stated in the Development Process Manual Chapter 22 and the design guidelines given in Standard Specifications will be required before grading can commence.

9. Conditions for Approval for Project – Public Service Company of New Mexico:

- As individual pad sites develop, coordination with PNM will be necessary regarding proposed tree species, the height at maturity and tree placement along the western boundary of the property in order to ensure sufficient safety clearances and to avoid interference between trees and the existing distribution facilities.

CITY ENGINEER

Transportation Development

Project # 1010550 Los Pastores Shopping Center

15EPC-40032 Sight Development for Subdivision

City Engineer/Transportation Development:

- Developer is responsible for permanent improvements to the transportation facilities adjacent to the proposed development site plan, as required by the Development Review Board (DRB).
- Developer shall follow requirements as per the approved Traffic Impact Study. As part of the Traffic Impact Study, it was requested to investigate possibility of improvements at the Wyoming/Montgomery intersection. It was also requested to investigate moving the southern access way from Wyoming Boulevard to the north such that it will possibly line up with the driveway access into Quarters. Cross-access agreement with the neighboring church to the north is required for the proposed plan.

Developer must coordinate with the property located to the north regarding the entrance along the existing alley. A shared access to Wyoming must be built with this development.

The access located on the south edge along Wyoming needs to be modified to be perpendicular to the roadway.

Developer is responsible for permanent improvements to the transportation facilities adjacent to the proposed development, as required by the Development Review Board (DRB).

DMD Transportation Planning:

- Per MRCOG's 2040 Long Range Roadway System Map, Wyoming Blvd. and Montgomery Blvd. are both Regional Principal Arterials.

Hydrology Development

EPC project # 1010550; A full G&D plan review meeting the following criteria and other criteria stated in the Development Process Manual Chapter 22 and the design guidelines given in Standard Specifications will be required before grading can commence.

GENERAL HYDROLOGY CRITERIA:

- Beyond 10' of a structure, all landscape beds to be depressed below grade. Within 10', runoff shall be directed away from the structure.
- All new development projects shall manage the runoff from precipitation which occurs during the 90th Percentile Storm Events, referred to as the "first flush." The Site Plan/Drainage Plan must indicate all areas and mechanisms intended to capture the first flush. For volume calculations, the 90th Percentile storm event is 0.44 inches. For Land Treatment D the initial abstraction is 0.1", therefore the first flush volume should be based on $0.44'' - 0.1'' = 0.34''$ and only consider the impervious areas.
 - State how the first flush will be managed and supporting calculations
 - State the area of Land Treatment D on the plan
- The applicant may request a pre-design meeting with the Hydrology Section. First submit a Conceptual Grading and Drainage plan, and indicate on the DTIS sheet (in large bold letters at the top) that a pre-design conference is requested (DTIS sheet is the information sheet required for all Hydrology and Transportation submittals). The reviewer will contact the applicant to set up a meeting.
- The engineer should research the Master Drainage Plan and/or adjacent sites – essentially practice due diligence prior to meeting. Conceptual Grading and Drainage plans should reference the master drainage plan or other sources that
 - Indicate the intended drainage for that area. The applicant should provide excerpts from the supporting documents and/or grading plans.
 - Final Drainage Reports should have an appendix with all supporting documentation

- When determining allowable discharge from a site
 - If a Master Drainage Report planned an allowable discharge for a site, determine if the basis for that discharge is still valid or if conditions have since changed.
 - If discharging to the street, determine if the street has capacity. Also determine if the storm drain has capacity.
 - If discharging to the back of inlets, determine if doing so will still provide capacity for the discharge from the street
 - When determining inlet capacity using the orifice equation, the area for a single grate should be 3.84 sq. ft.

Project #1010550

The applicant has identified supporting the Albuquerque/Bernalillo County Comprehensive Plan goal of providing a quality urban environment. In order to further this goal, MRMPO recommends that concrete sidewalks be provided along 98th Street where currently none exist. Ideally, these sidewalks should be 6' wide with a 6' landscaped buffer between the roadway and

the sidewalk. In addition, pedestrian and bicycle access from the property to 98th Street should be provided with at least one formal break in the wall midway between the current access points.

PUBLIC SERVICE COMPANY OF NEW MEXICO

Conditions for Approval for Project #1010550 Site Development Plan for Subdivision (Los Pastores Shopping Center at NW corner of Wyoming and Montgomery NE) 15EPC-40032

1. The applicant has adequately addressed PNM's concerns regarding screening and clearances. An existing overhead electric distribution line is located along the western boundary of the site and it is the applicant's obligation to abide by any conditions or terms of those easements.

2. As individual pad sites develop, coordination with PNM will be necessary regarding proposed tree species, the height at maturity and tree placement along the western boundary of the property in order to ensure sufficient safety clearances and to avoid interference between trees and the existing distribution facilities.

December 6, 1962

Jack M. Clifford
9000 Menaul N.E.
Albuquerque, New Mexico

Dear Mr. Clifford:

The City Planning Commission at its regular meeting of December 3, 1962, considered your proposed subdivision, S-1214, Los Pastores Shopping Center and zone change request, 2-1238, R-1 to C-2, P-1 and O-1 for approximately 12.3 acres, the C-2 and P-1 to be regulated by the Shopping Center and Retail Service Use requirements of Commission Ordinance No. 1493 governing neighborhood shopping facilities, and the following action was taken:

BE IT RESOLVED THAT 2-1238 be recommended to City Commission for approval excepting therefrom the O-1 portion of the request, this being denied. The O-1 portion may be reconsidered within one year waiting period should an amendment be made to the zoning ordinance text allowing Church and similar uses in SU-1. BE IT FURTHER RESOLVED THAT S-1214 be given preliminary approval.

If we may be of further assistance, please do not hesitate to call.

Sincerely,

Clifford Brew

OFFICIAL NOTICE

CITY OF ALBUQUERQUE
PLANNING DEPARTMENT

Box 1293, Albuquerque, NM 87103

Date November 21, 1977

NOTIFICATION OF DECISION

M-M Company
300 San Mateo, N.E., Suite 500
Albuquerque, New Mexico 87108

Attention: Vance Mauney

File: 7-77-165, V-77-41

Location: Tract 2, Los Pastores Shopping Center and a parcel of land in the NE/4 SE/4 SE/4, Sec. 31, T11N, R4E; and the vacation of the east-west alley immediately north of Los Pastores Shopping Center

At their meeting of November 17, 1977, the Environmental Planning Commission approved the above mentioned requests, thereby changing the zoning to C-2 and vacating the alley subject to the following conditions: 1. Submittal of a summary plat which combines the northerly portion with the balance of the parcel; 2. Relocation of the alley in accordance with the Traffic Engineer's requirements.

If you wish to appeal this decision, you may do so by 12-2-77 in the manner described below. A non-refundable filing fee of \$25 is required at the time of application.

- A. Appeal to Planning Commission. Any person aggrieved with any determination of the City staff acting under the Subdivision Ordinance may appeal to the Planning Commission by submitting written application on the Planning Department form to the Planning Department within 15 days after the date of the staff's decision. The date the determination in question is issued is not included in the 15 day period for filing an appeal, and if the fifteenth day falls on a Saturday, Sunday or holiday as listed in the Merit System Ordinance, the next working day is considered as the deadline for filing the appeal. Such appeal shall be heard and decided by the Planning Commission within 60 days of its filing.
- B. Appeal to City Council. Any person aggrieved with any determination of the Planning Commission acting under this ordinance may file an appeal to the City Council by submitting written application on the Planning Department form to the Planning Department within 15 days of the Planning Commission's decision (such 15 day period to be determined as in A. above). The City Council may decline to hear the appeal if it finds that all City plans, policies and ordinance have been properly followed. If it decides that all City plans, policies and ordinances have not been properly followed, it shall hear the appeal. Such appeal, if heard, shall be heard within 60 days of its filing.

You will receive notice if another person files an appeal. If there is no appeal you can receive building permits any time after the appeal deadline quoted above provided all conditions imposed at the time of approval have been met. Successful applicants are reminded that other regulations of the City must be complied with, even after approval of the referenced application(s).

Sincerely,

Bea Gutierrez
Board Secretary

CERTIFICATION OF ZONING

File Z- 77-165

Date of Final Action: 11-17-77

Location: Portions of Tract A, Los Pastores
Shopping Center Addition (SP-78-297)
(Formerly Tract 2, Los Pastores Shopping Center
Addition and an unplatted parcel in NE/4 SE/4
SE/4, Sec. 31, T11N, R4E)

Attention: Vance Mauney

The Environmental Planning Commission ruled favorably on your request to amend the zone map as it applies to the above cited property.

- The possible appeal period having expired, the zoning on the above cited property is now changed to C-2 for those portions of the above-mentioned property formerly zoned P-1.
- The possible appeal period has expired, but the zoning on the above cited property is NOT CHANGED to
until the following requirements are met, as specified in the decision of the Commission:

If such requirements are not met within six months after the date final City approval is voted, the approval is void; however, the Planning Director or his designated representative may extend this time limit up to an additional six months.

Successful applicants are reminded that other regulations of the City must be complied with, even after approval of the zoning is secured. Approval of this case does not constitute approval of plans for a building permit. You should take two copies of your plans to the Building & Inspection Division of the City to initiate a building permit.

Sincerely,

Phil Garcia
Principal Planner

OFFICIAL NOTICE

CITY OF ALBUQUERQUE
MUNICIPAL DEVELOPMENT DEPARTMENT
PLANNING DIVISION
P.O. Box 1293, Albuquerque, New Mexico 87103

Vance Mauney
300 San Mateo NE
Suite 800
Albuquerque, New Mexico 87108

DATE: January 22, 1980

NOTIFICATION OF DECISION

File: Z-1238 (development plan)
Location: Tract A, Los Pastores
Shopping Center

On January 17, 1980, the Environmental Planning Commission approved the above-mentioned development plan subject to the following conditions:

1. A pipe rail fence shall be constructed along the northern boundary of the property in addition to the proposed 8 inch concrete curb.
2. The planting area west of McDonalds shall be enlarged as was intended.
3. A traffic lane shall be designed to allow continuous flow of traffic through the shopping center; no parking areas shall be allowed to back into said traffic lane.
4. Refuse-Bins --
 - a. the refuse bin location for McDonalds is acceptable;
 - b. The refuse bins proposed to be located along the alley shall be relocated, satisfactory to staff; possibly near the northeast corner of the ponding area;
 - c. The refuse bins on the north side of the property shall be relocated as far as is practicable from the residential area to the west, and shall be satisfactory to staff.
5. Alley paving, deceleration lanes and median modifications shall be at the developer's expense prior to occupancy.
6. A drainage plan satisfactory to AMAFCA and the City Engineer is required prior to plan sign-off.
7. A landscaping and irrigation plan is required satisfactory to staff.
8. Additional landscaping shall be provided in the southern portion of the shopping center parking lot, satisfactory to staff.

If you wish to appeal this decision, you must do so by 2-1-80 in the manner described below. A non-refundable filing fee of \$40 is required at the time the appeal is filed.

Appeal to the City Council. Any person aggrieved with any determination of the Environmental Planning Commission acting under this ordinance may file an appeal to the City Council by submitting written application on the Planning Division form to the Planning Division within 15 days of the Planning Commission's decision. The date the determination in question is issued is not included in the 15-day period for filing an appeal, and if the fifteenth day falls on a Saturday, Sunday or holiday as listed in the Merit System Ordinance, the next working day is considered as the deadline for filing the appeal. The City Council may decline to hear the appeal if it finds that all City plans, policies and ordinances have been properly followed. If it decides that all City plans, policies and ordinances have not been properly followed, it shall hear the appeal. Such appeal, if heard, shall be heard within 60 days of its filing.

You will receive notice if any other person files an appeal. If there is no appeal you can receive building permits any time after the appeal deadline quoted above provided all conditions imposed at the time of approval have been met. Successful applicants are reminded that other regulations of the City must be complied with, even after approval of the referenced application(s).

IF YOU RECEIVE APPROVAL FOR ANY REQUEST WHICH REQUIRES A SITE DEVELOPMENT PLAN, SEE ATTACHED SHEET FOR FURTHER INFORMATION.

Sincerely,

Jill Danforth
Board Secretary

FORM P(1): SITE DEVELOPMENT PLAN REVIEW – E.P.C. PUBLIC HEARING

- SITE DEVELOPMENT PLAN FOR SUBDIVISION (EPC16) Maximum Size: 24" x 36"**
- IP MASTER DEVELOPMENT PLAN (EPC11)**
 - 5 Acres or more & zoned SU-1, IP, SU-2, PC, or Shopping Center: Certificate of No Effect or Approval
 - Scaled Site Plan and related drawings (folded to fit into an 8.5" by 14" pocket) 20 copies.
For IP master development plans, include general building and parking locations, and design requirements for buildings, landscaping, lighting, and signage.
 - Site plans and related drawings reduced to 8.5" x 11" format (1 copy)
 - Zone Atlas map with the entire property(ies) clearly outlined
 - Letter briefly describing, explaining, and justifying the request
 - Letter of authorization from the property owner if application is submitted by an agent
 - Office of Community & Neighborhood Coordination inquiry response, notifying letter, certified mail receipts
 - Completed Site Plan for Subdivision and/or Building Permit Checklist
 - Sign Posting Agreement
 - Traffic Impact Study (TIS) form with required signature
 - Fee (see schedule)
 - List any original and/or related file numbers on the cover application

EPC hearings are approximately 7 weeks after the filing deadline. Your attendance is required.

- SITE DEVELOPMENT PLAN FOR BUILDING PERMIT (EPC15) Maximum Size: 24" x 36"**
- SITE DEVELOPMENT PLAN and/or WAIVER OF STANDARDS FOR WIRELESS TELECOM FACILITY (WTF) (EPC17)**

- 5 Acres or more & zoned SU-1, IP, SU-2, PC, or Shopping Center: Certificate of No Effect or Approval
- Site Plan and related drawings (folded to fit into an 8.5" by 14" pocket) 20 copies.
- Site Plan for Subdivision, if applicable, previously approved or simultaneously submitted.
(Folded to fit into an 8.5" by 14" pocket.) 20 copies
- Site Plans and related drawings reduced to 8.5" x 11" format (1 copy)
- Zone Atlas map with the entire property(ies) precisely and clearly outlined and crosshatched (to be photocopied)
- Letter briefly describing, explaining, and justifying the request
- Letter of authorization from the property owner if application is submitted by an agent
- Office of Community & Neighborhood Coordination inquiry response, notifying letter, certified mail receipts
- Sign Posting Agreement
- Completed Site Plan for Subdivision and/or Building Permit Checklist
- Traffic Impact Study (TIS) form with required signature
- Fee (see schedule)
- List any original and/or related file numbers on the cover application

NOTE: For wireless telecom facilities, requests for waivers of requirements, the following materials are required in addition to those listed above for application submittal:

- Collocation evidence as described in Zoning Code §14-16-3-17(A)(6)
- Notarized statement declaring number of antennas accommodated. Refer to §14-16-3-17(A)(13)(d)(2)
- Letter of intent regarding shared use. Refer to §14-16-3-17(A)(13)(e)
- Affidavit explaining factual basis of engineering requirements. Refer to §14-16-3-17(A)(13)(d)(3)
- Distance to nearest existing free standing tower and its owner's name if the proposed facility is also a free standing tower §14-16-3-17(A)(17)
- Registered engineer or architect's stamp on the Site Development Plans
- Office of Community & Neighborhood Coordination inquiry response as above based on ¼ mile radius

EPC hearings are approximately 7 weeks after the filing deadline. Your attendance is required.

- AMENDED SITE DEVELOPMENT PLAN FOR BUILDING PERMIT (EPC01) Maximum Size: 24" x 36"**
- AMENDED SITE DEVELOPMENT PLAN FOR SUBDIVISION (EPC02)**

- Proposed amended Site Plan (folded to fit into an 8.5" by 14" pocket) 20 copies
- DRB signed Site Plan being amended (folded to fit into an 8.5" by 14" pocket) 20 copies
- DRB signed Site Plan for Subdivision, if applicable (required when amending SDP for Building Permit) 20 copies
- Site plans and related drawings reduced to 8.5" x 11" format (1 copy)
- Zone Atlas map with the entire property(ies) clearly outlined
- Letter briefly describing, explaining, and justifying the request
- Letter of authorization from the property owner if application is submitted by an agent
- Office of Community & Neighborhood Coordination inquiry response, notifying letter, certified mail receipts
- Sign Posting Agreement
- Completed Site Plan for Building Permit Checklist (not required for amendment of SDP for Subdivision)
- Traffic Impact Study (TIS) form with required signature
- Fee (see schedule)
- List any original and/or related file numbers on the cover application

EPC hearings are approximately 7 weeks after the filing deadline. Your attendance is required.

I, the applicant, acknowledge that any information required but not submitted with this application will likely result in deferral of actions.

Mr. Bohannan: I will forward to you by email (immediately after this email) four of the approval forms you and I had discussed. These are (1) from Paul and Judith Matteucci (Trustees) as owners of W & M Co., and portions of both the Corner and the Strip; (2) Marc Mauney (Trustee) as owners of W & M Co., and a portion of the Strip; (3) Raymond and Elizabeth Matteucci as owners of a portion of the Corner; and (4) Harold Field (Trustee) as owner of a portion of the Strip.

I believe these cover all of the approvals you were expecting from me. Thanks.

Ron: This is a draft of what I would send to the various owners of abutting land/ and owners of interests in W&MCo - I would hope each of them would "Reply" to my email address simply stating "I approve."

Would this be adequate for your purpose? I was unclear as to exactly what language or form the City would be looking for --- is the language "changes ... to the existing site development plan" adequate?

Thanks. Tom

City of Albuquerque
P.O. Box 1293
Albuquerque, NM 87103

**RE: LOS PASTORES SHOPPING CENTER
TRACT A-1 REDIVISION OF TR A
(NOW COMPROMISING TRS A1 & A2)
THE SWLY PORTION OF TR A-1
ALL OF TRACT 1 EXC THE NLY PORT &
EXC THOSE PORTIONS ADJ TO THE
SOUTH & EAST OUT TO R/W
PROJECT# 1010550, CASE# 15EPC-40032**

Dear Chairman Nichols:

Tierra West, LLC, on behalf of W & M Company, requests approval the Site Development Plan for Subdivision for the above-referenced project. The zoning designation for the site is C-2 for Shopping Center commercial uses. The reason for this request is to allow for the development of the Los Pastores Shopping Center with individual pad users in a coordinated manner, providing for consistency in design across the entire property. Delegation of the Site Development Plans for Building Permit to the Development Review Board is also requested.

The 6.75-acre site is located on the northwest corner of Montgomery Boulevard NE and Wyoming Boulevard NE and encompasses Tract A-1, Redivision of Tract "A", Los Pastores Shopping Center. The southerly portion of Tract 1 was developed according to the Los Pastores Shopping Center Site Development plan approved in 1980 (corner parcel containing a Wells Fargo Bank building and the existing McDonalds Restaurant); however, no changes to this area are proposed and not a part of this request. The property is bound on the north by an adjacent unpaved public alley and an existing church; on the east by Wyoming Boulevard; on the south by Montgomery Boulevard; and on the west by an adjacent unpaved public alley and a residential subdivision.

The Site Plan for Subdivision proposes to subdivide this undeveloped parcel into five separate parcels for individual pad users and establishing the necessary access and utility easements in a manner consistent with the existing surrounding development and infrastructure. Design Standards are proposed and included with this submittal which will meet or exceed the requirements of the City of Albuquerque's Code of Ordinances, including building, parking, landscaping, lighting, and signage.

Should you have any questions or require additional information regarding this matter, please feel free to contact Vinny Perea or me at (505) 858-3100.

Sincerely,

Joel D. Hernandez, PE

Stephani Winklepleck

Stephani Winklepleck
Neighborhood Liaison
OFFICE OF NEIGHBORHOOD COORDINATION
Planning Department

LETTERS MUST BE SENT TO BOTH CONTACTS OF EACH NA/HOA FOR THIS PLANNING SUBMITTAL.

!!!Notice to Applicants!!!

SUGGESTED INFORMATION FOR NEIGHBORHOOD NOTIFICATION LETTERS

Applicants for Zone Change, Site Plan, Sector Development Plan approval or an amendment to a Sector Development Plan by the EPC, DRB, etc. are required under Council Bill O-92 to notify all affected neighborhood and/or homeowner associations **PRIOR TO FILING THE APPLICATION TO THE PLANNING DEPARTMENT**. Because the purpose of the notification is to ensure communication as a means of identifying and resolving problems early, it is essential that the notification be fully informative.

WE RECOMMEND THAT THE NOTIFICATION LETTER INCLUDE THE FOLLOWING INFORMATION:

1. The street address of the subject property.
2. The legal description of the property, including lot or tract number (if any), block number (if any), and name of the subdivision.
3. A physical description of the location, referenced to streets and existing land uses.
4. A complete description of the actions requested of the EPC:
 - a) If a **ZONE CHANGE OR ANNEXATION**, the name of the existing zone category and primary uses and the name of the proposed category and primary uses (i.e., "from the R-T Townhouse zone, to the C-2 Community Commercial zone").
 - b) If a **SITE DEVELOPMENT OR MASTER DEVELOPMENT PLAN** approval or amendment describes the physical nature of the proposal (i.e., "an amendment to the approved plan to allow a drive-through restaurant to be located just east of the main shopping center entrance off Montgomery Blvd.").
 - c) If a **SECTOR DEVELOPMENT PLAN OR PLAN AMENDMENT** a general description of the plan area, plan concept, the mix of zoning and land use categories proposed and description of major features such as location of significant shopping centers, employment centers, parks and other public facilities.
 - d) The name, address and telephone number of the applicant and of the agent (if any). In particular the name of an individual contact person will be helpful so that neighborhood associations may contact someone with questions or comments.

Information from the Office of Neighborhood Coordination

The following information should always be in each application packet that you submit for an EPC or DRB application. Listed below is a "Checklist" of the items needed.

- ONC's "Official" Letter to the applicant (if there are associations). A copy must be submitted with application packet -OR-**
- The ONC "Official" Letter (if there are no associations). A copy must be submitted with application packet.
- Copies of Letters to Neighborhood and/or Homeowners Associations (if there are associations). A copy must be submitted with application packet.**
- Copies of the certified receipts to Neighborhood and/or Homeowners Associations (if there are associations). A copy must be submitted with application packet.**

Just a reminder - Our ONC "Official" Letter is only valid for a one (1) month period and if you haven't submitted your application by this date, you will need to get an updated letter from our office.

Any questions, please feel free to contact Stephani at 924-3902 or via an e-mail message at swinklepleck@cabq.gov.

Thank you for your cooperation on this matter.

RE: EPC Project 1010550 EPC-40032

Dear Mr. Nicholls,

As one of the adjoining property owners we would like to file comment about this proposed project.

We have met with the owner and the owner's agent and we are not in agreement with what they want to do with our property.

I do not know how they can proceed if they are not allowed access to our property.

It is also important to us, as a religious institution, that alcohol is not sold at the new establishments. Our school and youth organizations use our gymnasium during the week.

We are not sure how the owners/owner's agent can present a plan to the commission using someone else's property.

Thank you for your time.

Sincerely,

A handwritten signature in black ink, appearing to read "Steve Smothermon", written over a light gray background.

Steve Smothermon
Senior Pastor

44 SITE PLAN

DESIGN STANDARDS (continued)

view by materials of the same nature as the adjacent building.

1. Walls and fences shall comply with Section 14-16-3-19 of the City of Albuquerque's Comprehensive Zoning Code.
2. Perimeter walls shall include openings at all pedestrian connections to ensure convenient access to adjacent streets.
3. The use of razor ribbon, razor wire, barbed wire, chain link fencing with or without slats, cyclone fencing or unframed solid CMU is prohibited.
4. Acceptable wall & fence materials include but are not limited to:
 - a. stucco over concrete masonry units (CMU)
 - b. split face block
 - c. brick
 - d. stone
 - e. curved railroad blocks
 - f. tubular steel, wrought iron bars, or other grill work
5. The finish of walls & fences shall be attractive and compatible with the building materials of adjacent buildings on the site.
6. The site slopes slightly from Wyoming Street to the west to provide a fairly level site.
 1. Retaining walls are permitted, but they must be shown and approved on the Site Development Plan for Building Permit.
 2. Retaining walls, neat walls, or elements intended to compensate for a slope in the site, shall extend long unarticulated expanses of wall. Walls shall have varied sections of at least one foot with planes not running in the same direction more than one foot without a change in height or setback.
 3. Pedestrian sidewalks and landscape shall be integrated into these locations where applicable to allow for pedestrian access through elevation changes within the site.
7. Grading and Drainage plans must comply with the City of Albuquerque's Drainage Ordinance.
 1. All measures shall be taken to provide public safety at pond locations.

REFUSE CONTAINERS - shall be screened by a 6 foot tall enclosure and plant materials.

VI UTILITIES

- To ensure the overall aesthetic quality of the property and natural resources, the location and support of utilities and equipment should be minimized by the following:
- a. All new electrical distribution lines shall be planned underground.
 - b. Transformers, utility poles, and telephone boxes shall be appropriately screened with walls and/or vegetation when viewed from the public right-of-way.
 - c. When an above-ground below grade pedestrian device is required, the finished enclosure shall be constructed of materials compatible with the architectural materials used on the adjacent buildings. If prefabricated enclosures are used, they shall be appropriately screened from view with walls and/or landscaping.

DC LIGHTING

To enhance safety, security and visual aesthetics, daytime and nighttime appearance of lighting design and fixtures shall be considered. The primary design objective of site lighting shall be to maximize public safety without impacting the adjacent properties, buildings, or roadways with unnecessary glare or reflection.

1. All lighting shall comply with Section 14-16-3-9, Area Lighting Regulations of the City of Albuquerque's Comprehensive Zoning Code.
2. Lighting fixtures shall conform to the requirements of the State of New Mexico Night Sky Protection Act.
3. All free-standing lights shall be of minimalist design throughout the site.
4. High pressure sodium & cobra-head type lighting fixtures are not permitted.
5. Light fixtures shall be located on Site Development Plans for Building Permit.
6. The height of street lights and off-street parking areas lights shall not exceed 26 feet.
7. All lights shall be a shielded source to prevent spillage into adjoining properties or the public right-of-way.
8. Tree canopy lighting may be used to accent and enhance pedestrian connections.
9. Exterior elevations of buildings facing the public right-of-way may be feature lighted to enhance the identity of the building.

X SIGNAGE

- Signage and graphics should create a sense of arrival to the development and provide visual continuity between the various lots and their uses.
1. Signage shall comply with the Section 14-16-3-6 General Sign Regulations of the City of Albuquerque's Code of Ordinances.
 2. Free-standing signs shall be designed so as not to require any central bracing, single supports, guy wires or similar devices for support.
 3. No signage is allowed that uses moving parts, makes audible sounds, or has flashing or rotating lights.
 4. Signs shall not overhang into the public right-of-way or extend above the building roof line.
 5. Off-premise signs and portable signs are prohibited.
 6. Monument signs shall comply with Section 14-16-3-20(a). One monument sign is permissible for 300 feet of street frontage and permissible at multiple points of entry from Wyoming when the sign is 300 feet or more from the street. These signs shall be constructed to have the same color (height, sign, color, material, sign height, style etc.) at all locations.
 7. Building mounted signs shall have contrasting colors from the background and sign height and font not obscure visibility.
 8. No building mounted sign shall intrude upon architectural features including windows, columns, or canopies or decorative features.

VIII ARCHITECTURE

Architectural design of buildings and site features shall demonstrate a high quality aesthetic character throughout the property and shall respond to climate, view, solar access, and aesthetic considerations.

1. All development shall comply with General Building & Site Design Regulations for Non-Residential Uses of the City Zoning Code (14-16-3-10).
2. Architectural Style
 1. The development shall provide a cohesive material and color palette among all buildings.
 2. All buildings shall be "modern" in design.
 3. Historical references to traditional New Mexico styles shall be a modern interpretation of those styles.
 4. Generic frontier architecture is prohibited.
3. Articulation
 1. Buildings shall have a variety of structural forms to create visual character and interest.
 2. Long unarticulated facades shall be avoided. Facades shall have varied light setbacks, with wall planes not running in one continuous direction for more than 100 feet without a change in architectural treatment such as offset, recessed, or transoms.
 3. Missing elements shall be reworked with color variation or material distinctions.
4. Materials
 1. The architectural expression of all buildings shall reflect modern design with the use of materials appropriate to the New Mexico climate.
 2. Individual building elements shall be of excellent design and quality materials such as:
 1. Metal wall panels
 2. Peruvian tile
 3. Natural stone panels
 4. Concrete
 5. Rammed earth
 6. Glass
 7. Stucco or Exterior Insulation & Finish System
 8. Brick or decorative concrete masonry units
 3. The following exterior building materials shall be prohibited:
 1. Engineered wood paneling
 2. Vinyl or plastic siding
 3. Plain concrete masonry units
5. All glazing shall be clear and sealed in color. Substances, deep colors, and tinted glazing is prohibited.
6. Canopies, trellises and awnings shall be of durable materials such as metal, corrugated metal, or steel.
7. Colors shall include light to medium earth tones with accents in muted colors.
 1. No more than one accent color shall be used per building.
 2. The use of contrasting colors for shade elements or

XI PROCESS

Site Development Plans for Building Permit shall be submitted to the Development Review Board and shall be consistent with the Design Standards established by the Site Development Plan for Subdivision.

Signage - should be coordinated with building and forms.
