### Staff Report

**Agent**  
Arch + Plan Land Use Consultants

**Applicant**  
Ed Anlian and Paula Dal Santo

**Request**  
Zone Map Amendment (zone change)

**Legal Description**  
Lots 17-A, 18-A and 19-A, Block 11, Timoteo Chavez Addition

**Location**  
just south of Menaul Blvd. NE,  
between Carlisle Blvd. NE and  
Washington St. NE  
(2517 Sierra Dr. NE)

**Size**  
Approximately 0.5 acre

**Existing Zoning**  
C-2

**Proposed Zoning**  
C-3

### Summary of Analysis

The request is for a zone map amendment for an approx. 0.5 acre site, zoned C-2, and located just south of Menaul Blvd. NE. The mobile home park on the subject site, which consists of six homes (eight spaces) and has existed for many years, is being phased out. The residents have been notified as required by Zoning Code §14-16-3-21.

The applicant wants to construct a new warehouse building. The warehousing use is first allowed permissively in the C-3 zone.

The subject site is in an Area of Consistency as designated by the Comprehensive Plan. No sector development plans apply. The request generally furthers applicable Goals and policies. The zone map amendment has been adequately justified pursuant to R-270-1980.

The affected neighborhood organization is the District 7 Coalition, which was notified, as required. Property owners within 100 feet of the subject site were also notified, as required. A facilitated meeting was not requested. There is no known opposition. Staff recommends approval.

### Staff Recommendation

**APPROVAL of 17EPC-40050, based on the Findings beginning on Page 14.**

Request

The request is for a zone map amendment (zone change) for an approximately (=) 0.5 acre site located on Sierra Dr. NE, a cul-de-sac just south of Menaul Blvd. NE (the “subject site”), zoned C-2 (Community Commercial). A mobile home park, consisting of eight spaces and six homes, has existed on the subject site for many years. It is being phased out by the applicant, who is also the property owner. The applicant wants to re-develop the property.

The applicant is requesting a zone change to the C-3 (Heavy Commercial) zone in order to develop a warehouse on the subject site. Warehousing is first permissive in the C-3 zone. Since the request is to a “straight zone” (not an SU-1 zone), a site development plan is not required at this time.

EPC Role

The EPC is hearing this case because the EPC is required to hear all zone change cases, regardless of site size, in the City. The EPC is the final decision-making body unless the EPC decision is appealed [Ref: §14-16-2-22(A)(1)]. If so, the Land Use Hearing Officer (LUHO) would hear the appeal and make a recommendation to the City Council. The City Council would make the final administrative decision. The request is a quasi-judicial matter.

Context

The subject site is located ≈250 feet south of Menaul Blvd. NE and is surrounded by various commercial uses. To the north is a small strip commercial center with four retail tenants. To the NE is a thrift store fronting Menaul Blvd. South of the subject site is a large Post Office. To the west, across Sierra Dr. NE, is an auto accessories store. East of the subject site is the thrift store.

The subject site is not located in a designated Activity Center. The American Square Community Activity Center is ≈830 feet west of the subject site. No sector development plan applies.
History
The subject site is part of the Timoteo Chavez addition, which spans from Menaul Blvd. on the north, Cutler Ave. on the south, Jefferson St. on the east, and roughly Morningside Ave. on the West.

Upon annexation, which was prior to 1954, the area was zoned R-1 with the exception of a commercial strip along Menaul Blvd. that was three lots deep and zoned C-2. In November 1954, the City Planning Commission (CPC) approved a request for a zone map amendment from R-1 to C-2 for several lots in the area (Z-181, see attachment).

There are no other records in the File Room. However, a Zone Atlas from 1964 shows that the entire Timoteo Chavez subdivision is zoned C-2 and C-3. The subject site is shown as C-2, so the zoning was changed sometime in the late 50s or early 60s.

It is unknown exactly when the existing mobile home park was built. The applicant states that the mobile home park used to be part of a much larger mobile home park. Over time, portions of it transitioned into non-residential uses. There used to be a public pool where the post office exists now, just south of the subject site. The mobile home on the subject site is a “pocket” that is left, much like the mobile home pocket that exists at the NW corner of Prospect Ave. and Morningside St. This is evident because the mobile homes are all from the same area and look similar.

The applicants owned the subject site since 1995; it was foreclosed upon. As of 1983, the mobile homes and the pool were still there. Apparently, the post office was built sometime in the 1980s on several lots that had been consolidated.

Transportation System
The Long Range Roadway System (LRRS) map, produced by the Mid-Region Council of Governments (MRCOG), identifies the functional classifications of roadways. Menaul Blvd. is a Principal Arterial. Sierra Dr. NE is a local street.

Comprehensive Plan Corridor Designation
The subject site is approximately 250 feet south of Menaul Blvd., which the Comprehensive Plan designates as a Multi-Modal Corridor. Multi-Modal Corridors are intended to encourage the re-development of aging, auto-oriented, commercial strip development to a more mixed-use, pedestrian-oriented environment that focuses heavily on providing safe, multi-modal transportation options (p. 5-17).

Trails/Bikeways
There are no bike lanes or bike routes along Menaul Blvd. Washington St., just east of the subject site, has a bike lane.

Transit
ABQ Ride Route #8-Menaul passes by the subject site on Menaul Blvd. and offers frequent service from morning to evening, and on the weekends.
Public Facilities/Community Services

Please refer to the Public Facilities Map (see attachment), which shows public facilities and community services located within one mile of the subject site.

II. ANALYSIS of APPLICABLE ORDINANCES, PLANS, AND POLICIES

Albuquerque Comprehensive Zoning Code

The subject site is currently zoned C-2 (Community Commercial). The request proposes to change the zoning to C-3 Heavy Commercial. The C-3 (Heavy Commercial) zone “provides suitable sites for C-2 uses, wholesale commercial uses, and some light industrial uses which cause no vibration discernible beyond the premises” (see Zoning Code §14-16-2-18). The proposed use, warehousing, is found in subsection (A)(2)(k).

The subject site has been zoned C-2 (Community Commercial) zone for many years (see History section of this report). The C-2 zone “provides suitable sites for offices, for most service and commercial activities, and for certain specified institutional uses” (see Zoning Code §14-16-2-17). The C-2 zone, and other commercial zones, were amended in 2012 to allow residential uses permissive in the R-3 zone provided certain requirements were met—such as location within 660 feet of a designated transit corridor and a minimum site size of 0.5 acre.

However, the mobile home use existed prior to this amendment and may pre-date the subject site’s zoning. The applicant states that, in 1995, the Zoning Enforcement Manager determined that the mobile home park is non-conforming with respect to use and lot size.

Mobile Home Resident Notification Ordinance

Section 14-16-3-21 of the Zoning Code contains special notification requirements for mobile home park residents when a mobile home is planned to be phased out. Known as the Mobile Home Resident Notification Ordinance, this provision aims to minimize the hardship and disruption associated with displacing mobile home residents. Subsection D requires that owners provide written notice, not less than 18 months, prior to changing the use of the land and residents losing their homes.

In October 2016, the applicant sent a certified letter to the remaining mobile home tenants (6 total, see attachments). The 18 month notice requirements will be achieved in April 2018.

Albuquerque / Bernalillo County Comprehensive Plan

The subject site is located in an area that the 2017 Albuquerque/Bernalillo County Comprehensive Plan has designated an Area of Consistency. A site development plan is not proposed at this time, so it is not possible to evaluate the form, scale, and character of the future development.

Few Goals and policies apply; applicable Goals and policies are listed below. Staff analysis follows in bold italics.
Chapter 4: Community Identity

Goal 4.1 Character: Enhance, protect, and preserve distinct communities.

Policy 4.1.1 Distinct Communities: Encourage quality development that is consistent with the distinct character of communities.

**Goal 4.1 does not apply to the request. The subject site is south of Menaul Blvd., an area characterized by a wide variety of commercial Uses (service and retail), public, warehouse, and manufacturing uses. Though there are some mobile homes and apartments nearby, this area is not identified as a distinct community (there are neighborhood associations north and south of the area). Also, the mobile home park, which once included the post-office site, has become smaller over the last few decades.**

**Policy 4.1.1 does not apply to the request. The request does not include a site development plan, so it’s not possible to evaluate the future development’s quality at this time.**

Chapter 5 - Land Use

Goal 5.1 - Centers and Corridors: Grow as a community of strong Centers connected by a multi-modal network of Corridors.

Policy 5.1.1- Desired Growth: Capture regional growth in Centers and Corridors to help shape the built environment into a sustainable development pattern.

c) Encourage employment density, compact development, redevelopment, and infill in Centers and Corridors as the most appropriate areas to accommodate growth over time and discourage the need for development at the urban edge.

**In general, locating commercial growth along a designated Major Transit Corridor supports the idea of Centers and Corridors. Though the development planned at this time is local growth (not regional growth), the C-3 zone may attract regional growth if it is redeveloped again in the future. The proposed use at this time, a warehouse, would generally not support a multi-modal transportation network. The request partially furthers Goal 5.1-Centers and Corridors and Policy 5.1.1- Desired Growth.**

Goal 5.2 - Complete Communities, and Policy 5.2.1 - Healthy, Sustainable, and Distinct Communities, do not apply to the request. A warehouse is generally not the type of use that contributes to fostering complete communities in the sense that residents can live, work, learn, shop and play together. The warehouse is intended to address the storage needs of existing businesses and does not promote community, mixed-use development, or accessibility from surrounding neighborhoods.

Goal 5.3 Efficient Development Patterns: Promote development patterns that maximize the utility of existing infrastructure and public facilities and the efficient use of land to support the public good.

Policy 5.3.1 Infill Development: Support additional growth in areas with existing infrastructure and public facilities.
The request would allow redevelopment of a site that is already served by existing infrastructure and public facilities. Doing so is a more efficient use of land in the public interest, in contrast to greenfield development or fringe development. The request further Goal 5.3-Efficient Development Patterns.

The request would support additional growth in an area served by existing infrastructure and public facilities, and therefore further Policy 5.3.1-Infill Development.

Goal 5.6 City Development Areas: Encourage and direct growth to Areas of Change where it is expected and desired and ensure that development in and near Areas of Consistency reinforces the character and intensity of the surrounding area.

The subject site is in an Area of Consistency. The request would facilitate development of a warehouse in an area that is characterized by a wide variety of commercial uses (retail and service), an institutional use (Post Office), warehousing, and single-family residential (existing mobile home parks on the subject site and south of it). Future development would generally reinforce the character and intensity of development in the surrounding area, and would be generally compatible with it—though the area is labeled an Area of Consistency and not an Area of Change. The request further Goal 5.6-City Development Areas.

Policy 5.6.3- Areas of Consistency: Protect and enhance the character of existing single-family neighborhoods, areas outside of Centers and Corridors, parks, and Major Public Open Space.

The subject site contains an existing single-family use, a mobile home park, and is not in a designated Activity Center. Generally, single-family uses are desired in Areas of Consistency and outside of Activity Centers. The request would add a warehouse use (commercial service), which is generally desired in Activity Centers and in Areas of Change. The request would not protect the character of the existing single-family use (the mobile home park). However, the character of this area, outside of an activity center, is based on a wide variety of commercial uses that developed based on zoning established (most likely) in the early 1960s and pre-dates the Comprehensive Plan. The request does not further Policy 5.6.2-Areas of Consistency.

Goal 7.3- Sense of Place, and Policy 7.3.4, regarding urban design and infill development, do not apply to the request. A site development plan is not proposed at this time, so it’s not possible to consider the future structure’s compatibility with the surrounding built environment.

Goal 7.5- Context Sensitive Site Design, does not apply. A site development plan is not proposed at this time, so it’s not possible to consider site design.

Goal 8.2- Entrepreneurship: Foster a culture of creativity and entrepreneurship and encourage private businesses to grow.

Policy 8.2.1- Local Business: Emphasize local business development.

The request would facilitate development of a local business that would be owned and operated by the applicant, who is a local resident. It would also foster entrepreneurship by
the applicant and encourage a private business to develop and grow. The request furthers Goal 8.2-Entrepreneurship, and Policy 8.2.1- Local Business.

Resolution 270-1980- Policies for Zone Map Amendments

Requirements
Resolution 270-1980 outlines policies and requirements for deciding zone map change applications. The applicant must provide sound justification for the proposed change and demonstrate that several tests have been met. The burden is on the applicant to show why a change should be made.

The applicant must demonstrate that the existing zoning is inappropriate because of one of three findings: 1) there was an error when the existing zone map pattern was created; or 2) changed neighborhood or community conditions justify the change; or 3) a different land use category is more advantageous to the community, as articulated in the Comprehensive Plan or other City master plan.

Justification & Analysis
The zone change justification letter analyzed here, received on October 23, 2017, is a response to Staff’s request for a revised justification (see attachment). The subject site is currently zoned P. The requested zoning is C-2. The reason for the request is to allow re-development of the site with a building, parking, and storage uses that would encroach upon the P zoned area.

The applicant believes that the proposed zone map amendment (zone change) conforms to R270-1980 as elaborated in the justification letter. Staff analysis is in bold text. The citation in quotes is from R270-1980.

A. “A proposed zone change must be found to be consistent with the health, safety, morals and general welfare of the City.”

Applicant (summarized): The proposed zone map amendment is consistent with the health, safety, morals and general welfare of the City because the request will further the outlined goals and policies of the Comprehensive Plan as demonstrated in Sections C and D. The allowed uses in C-3 will not be harmful to adjacent property, the neighborhood, or community as demonstrated in Section E. The rezone will allow for new infill development and the new land use exists within the immediate area.

Staff: Consistency with the City’s health, safety, morals and general welfare is shown by demonstrating that a request furthers applicable Goals and policies from the Comprehensive Plan (and other plans if applicable), which the applicant has done as demonstrated in the response to Section C and is re-stated in Section D. The response to Section A is sufficient.

B. “Stability of land use and zoning is desirable; therefore, the applicant must provide a sound justification for the change. The burden is on the applicant to show why the change should be made, not on the City to show why the change should not be made.”
Applicant (summarized): The zone change will provide for stability of land use and zoning because it will allow for development of an appropriate use for this location. Approval will allow for redevelopment of a struggling mobile home park in an area where such a use is no longer appropriate. Surrounding land uses and the proposed warehouse will contribute to stabilization of zoning and land use. The warehouse will offer more of an opportunity to stabilize land use and zoning than the existing use, a partially vacant mobile home park.

Staff: The applicant has adequately demonstrated that the proposed zone change would not adversely affect stability of land use or zoning in the area because the future warehouse use would be compatible with other, existing uses in the area (such as commercial services, commercial retail, warehousing). Also, the request is justified based on responses to Sections C and D, because it furthers applicable Goals and policies of the Comprehensive Plan. The response to Section B is sufficient.

C: “A proposed change shall not be in significant conflict with adopted elements of the Comprehensive Plan or other City master plans and amendments thereto including privately developed area plans which have been adopted by the City.”

Applicant (summarized): The applicant believes that the request will further the Comprehensive Plan Goals, policies, and actions as described in the policy analysis.

Applicable citations: Goal 5.1-Centers and Corridors and Policy 5.1.1-Desired Growth; Goal 5.3-Efficient Development Patterns, and Policy 5.3.1- Infill Development; Goal 5.6- City Development Areas and Policy 5.6.2-Areas of Change and action b; Goal 8.2-Entrepreneurship and Policy 8.2.1- Local Business.

Non-applicable citations: Goal 4.1- Character and Policy 4.1.4- Distinct Communities; Goal 5.2- Complete Communities and Policy 5.2.1-Healthy, Sustainable, and Distinct Communities; Goal 7.3-Sense of Place and Policy 7.3.4- Infill, built environment and building materials; Goal 7.5- Context-Sensitive Design and Policy 7.5.1-Landscape Design.

Some of the applicant’s citations do not apply. A warehouse is generally not a use that promotes community. Also, since a site development plan is not proposed at this time, issues such as site design, building design, materials, and compatibility with surroundings cannot be evaluated except for as it pertains to uses.

*standard practice for a change to a straight zone. Only changes to an SU-1 zone require an associated site development plan pursuant to 14-16-2-22(A)(1).

Overall, Staff finds the policy citations and responses adequate. Please refer to this report for Staff’s policy analysis. No sector development plans apply in the area. The response to Section C is sufficient.

D. “The applicant must demonstrate that the existing zoning is in appropriate because:

1) there was an error when the existing zone map pattern was created, or

2) changed neighborhood or community conditions justify the change, or
3) a different use category is more advantageous to the community, as articulated in the comprehensive Plan or other City master plan, even though (1) and (2) above do not apply."

Applicant (summarized): The existing zoning is inappropriate because a different use category is more advantageous to the community as articulated in the Comprehensive Plan as further explained in Section C. The new zoning would support small, locally owned businesses in an area that already reflects compatible uses and zoning. The subject site can support a different land use that is more advantageous to the community because it would fit with the context and contribute to the stability of the area.

Staff: The applicant has adequately demonstrated that the request would be more advantageous to the community because it would facilitate a use that is compatible with nearby uses and would further applicable Goals and policies in the Comprehensive Plan, as shown in the policy-based discussion in Section C. The response to Section D is sufficient.

E. “A change of zone shall not be approved where some of the permissive uses in the zone would be harmful to adjacent property, the neighborhood or the community.”

Applicant (summarized): The rezone from C-2 to C-3 will not be harmful to adjacent properties or the community because the permissive uses of the requested zone already exist in the area, and it will not introduce a new activity or change the character of the area. Existing C-3 zoned lots in the area include uses such as a warehouse for liquor distribution, jewelry distribution, a home design center, and a plumber.

The C-3 zone allows warehousing with associated manufacturing, assembling, treating, repairing, or rebuilding of products. The subject site is small, which will eliminate potential heavy commercial uses.

Staff: The applicant intends to re-develop the subject site with a warehouse use for businesses that need storage and may do some manufacturing, assembling, treating, repairing, or rebuilding of products. The request would not be harmful to adjacent property, the neighborhood or the community because the area is already characterized by a mixture of C-2 and C-3 uses and has been for a long time. The residential use on the subject site is being phased out as the area continues to transition, as it has been for decades, to commercial uses. The response to Section E is sufficient.

F. “A proposed zone change which, to be utilized through land development, requires major and unprogrammed capital expenditures by the City may be:

1) denied due to lack of capital funds, or

2) granted with the implicit understanding that the City is not bound to provide the capital improvements on any special schedule.”
Applicant (summarized): The proposed zone change will not require any un-programmed capital expenditures by the City. This is an infill/redevelopment property with adequate existing infrastructure.

Staff: The request would not require major or unprogrammed capital expenditures by the City and the subject site is already served by existing infrastructure. The response to Section F is sufficient.

G. “The cost of land or other economic considerations pertaining to the applicant shall not be the determining factor for a change of zone.”

Applicant: The cost of land or other economic considerations are not the determining factor for the request. The request will address the non-conforming history of the property with a use that is appropriate at this location, and at the cost of the property owner.

Staff: Economic considerations are a factor, but they are not the determining factor for the request. The response to Section G is sufficient.

H: “Location on a collector or major street is not in itself sufficient justification of apartment, office or commercial zoning.”

Applicant: The justification for the request is not based on location near a major street. Access to the site is from Sierra Drive, a local street, which is off of Menaul Bld. Menaul Blvd. is a Community Principal Arterial. Justification for the request is property improvement, redevelopment, and infill.

Staff: The subject site is not located on a major street; it is located in a local street that is approximately 250 feet south of Menaul Blvd. Therefore, location of a major street cannot be used as justification for the request. The response to Section H is sufficient.

I: “A zone change request which would give a zone different from surrounding zoning to one small area, especially when only premise is involved, is generally called a ‘spot zone’. Such a change of zone may be approved only when:

1) the change will clearly facilitate realization of the Comprehensive Plan and any applicable adopted sector development plan or area development plan, or

2) the area of the proposed zone change is different from surrounding land because it could function as a transition between adjacent zones, because the site is not suitable for the uses allowed in any adjacent zone due to topography, traffic or special adverse land uses nearby, or because the nature of structures already on the premises makes the site unsuitable for the uses allowed in any adjacent zone.”

Applicant (summarized): The request would create a “spot zone” because the subject site would be completely surrounded by C-2 zoned properties. The C-3 zone is justified at this location because it will clearly facilitate realization of the Comprehensive Plan through its Goals and policies regarding community identity, land use, urban design, and economic.
development as articulated in Section C. The proposed use is more in character with the area than the existing use.

Staff: The request would result in a spot zone because it would give a zone different (C-3) from surrounding zoning (C-2) to one small area, and one premises is involved. However, the applicant has demonstrated that the request will clearly facilitate realization of the Comprehensive Plan (see the response to Section C). The response to Section I is sufficient.

J: “A zone change request which would give a zone different from surrounding zoning to a strip of land along a street is generally called ‘strip zoning’. Strip commercial zoning will be approved only where:

1) the change will clearly facilitate realization of the Comprehensive Plan and any applicable adopted sector development plan or area development plan, and

2) the area of the proposed zone change is different from surrounding land because it could function as a transition between adjacent zones or because the site is not suitable for the uses allowed in any adjacent zone due to traffic or special adverse land uses nearby.”

Applicant (summarized): The request does not meet the definition of strip zoning as defined in this section. The proposed zone change clearly facilitates realization of the Comprehensive Plan and would not adversely affect the character of the area.

Staff: The subject site does not constitute a “strip of land along a street” because it is approximately 0.5 acres in size and is square shaped, and therefore wouldn’t be suitable for strip commercial development. The response to Section J is sufficient.

Staff Conclusion
Staff finds that the applicant has adequately justified the zone map amendment (zone change) pursuant to R270-1980. The policy-based response to Section C demonstrates that the request would further applicable Goals and policies in the Comprehensive Plan and that there is no significant conflict. Though the request would create a spot zone, it is justifiable because it would clearly facilitate realization of the Comprehensive Plan (Section I). The future warehouse use would operate in an area that has been characterized by C-2 and C-3 zoning for many years, and it would not be harmful to adjacent property, the neighborhood, or the community (Section E). The remaining sections (A, B, D, F, G, H and J) are adequately addressed. For these reasons, Staff recommends approval of the zone map amendment (zone change) request.

III. AGENCY & NEIGHBORHOOD CONCERNS

Reviewing Agencies
City departments and other interested agencies reviewed this application from 10/2/2017 to 10/19/2017. Few agency comments were received. Long Range Planning Staff note that Zoning Code section 14-16-3-21 requires 18 months notification to any mobile home park resident (when a mobile home park is being phased out). Water Utility Authority Staff note that the subject site has received service since 1981. PNM provided standard comments regarding distribution lines, new service, and screening of ground equipment. Agency comments begin on p.18 of this report.
Neighborhood/Public
The District 7 Coalition was required to be notified, which the applicant did (see attachments). Property owners within 100 feet of the subject site were also notified, as required (see attachments). A facilitated meeting was not requested. As of this writing, Staff has not received any inquiries or correspondence regarding the request. There is no known opposition.

IV. CONCLUSION
The request is for a zone map amendment for an \( \approx 0.5 \) acre site located on Sierra Dr. NE, a cul-de-sac just south of Menaul Blvd. NE, zoned C-2 (Community Commercial). A small mobile home park has existed on the subject site for many years. The applicant, who is also the property owner, is phasing it out and wants to re-develop the property with a warehouse. Warehousing is first permissive in the C-3 zone. The mobile home residents have been notified in writing regarding the phasing out of the mobile home park, as required by Zoning Code §14-16-3-21.

The applicant has adequately justified the zone map amendment (zone change) pursuant to R270-1980. The policy-based response to Section C demonstrates that the request would further Goals and policies in the Comprehensive Plan. Though it would create a spot zone, it would be a justifiable spot zone because the request would clearly facilitate applicable Goals and policies. The remaining sections of R270-1980 are sufficiently addressed.

The District 7 Coalition was notified as required, as were property owners within 100 feet of the subject site. A facilitated meeting was not requested. Staff has not received any inquiries or written comments. There is no known opposition. Staff recommends approval.
FINDINGS - 17EPC-40050, November 09, 2017- Zone Map Amendment (Zone Change)

1. The request is for a zone map amendment (zone change) for an approximately (≈) 0.5 acre site located on Sierra Dr. NE, a cul-de-sac just south of Menaul Blvd. NE (the “subject site”), zoned C-2 (Community Commercial).

2. The applicant is requesting a zone change to the C-3 (Heavy Commercial) zone in order to redevelop the subject site with a warehouse. The warehousing use is first permissive in the C-3 zone. The existing mobile home park is being phased out by the applicant, who is also the property owner.

3. The subject site is in an area that the Comprehensive Plan has designated an Area of Change. No area of sector development plans apply.

4. The Albuquerque/Bernalillo County Comprehensive Plan and the City of Albuquerque Zoning Code are incorporated herein by reference and made part of the record for all purposes.

5. The request furthers the following Land Use Goal and policy of the Comprehensive Plan:

   Goal 5.3 Efficient Development Patterns: Promote development patterns that maximize the utility of existing infrastructure and public facilities and the efficient use of land to support the public good.

   Policy 5.3.1 Infill Development: Support additional growth in areas with existing infrastructure and public facilities.

   The request would allow redevelopment of a site that is already served by existing infrastructure and public facilities. Doing so is a more efficient use of land in the public interest, in contrast to greenfield development or fringe development (Goal 5.3). The request would support additional growth in an area served by existing infrastructure and public facilities (Policy 5.3.1).

6. The request generally furthers Comprehensive Plan Goal 5.6-City Development Areas, which states: “Encourage and direct growth to Areas of Change where it is expected and desired and ensure that development in and near Areas of Consistency reinforces the character and intensity of the surrounding area.”

   The subject site is in an Area of Consistency. The request would facilitate development of a warehouse in an area that is characterized by a wide variety of commercial uses (retail and service), an institutional use (Post Office), warehousing, and single-family residential (existing mobile home parks on the subject site and south of it). Future development would generally reinforce the character and intensity of development in the surrounding area, and would be generally compatible with it-though the area is labeled an Area of Consistency and not an Area of Change.
7. The request furthers the following Goal and policy regarding economic development:

   Goal 8.2- Entrepreneurship: Foster a culture of creativity and entrepreneurship and encourage private businesses to grow.

   Policy 8.2.1- Local Business: Emphasize local business development.

   The request would facilitate development of a local business that would be owned and operated by the applicant, who is a local resident. It would also foster entrepreneurship by the applicant and encourage a private business to develop and grow. The request furthers Goal 8.2-Entrepreneurship, and Policy 8.2.1- Local Business.

8. The request partially furthers the following Land Use Goal and policy of the Comprehensive Plan:

   Goal 5.1- Centers and Corridors: Grow as a community of strong Centers connected by a multi-modal network of Corridors.

   Policy 5.1.1-Desired Growth: Capture regional growth in Centers and Corridors to help shape the built environment into a sustainable development pattern.

   c) Encourage employment density, compact development, redevelopment, and infill in Centers and Corridors as the most appropriate areas to accommodate growth over time and discourage the need for development at the urban edge.

   In general, locating commercial growth along a designated Major Transit Corridor supports the idea of Centers and Corridors. Though the development planned at this time is local growth (not regional growth), the C-3 zone may attract regional growth if it is redeveloped again in the future. The proposed use at this time, a warehouse, would generally not support a multi-modal transportation network.

9. The applicant has adequately justified the zone map amendment (zone change) request pursuant to Resolution 270-1980 as follows:

   A. **Section A:** Consistency with the City’s health, safety, morals and general welfare is shown by demonstrating that a request furthers applicable Goals and policies from the Comprehensive Plan (and other plans if applicable), which the applicant has done as demonstrated in the response to Section C and is re-stated in Section D.

   B. **Section B:** The applicant has adequately demonstrated that the proposed zone change would not adversely affect stability of land use or zoning in the area because the future warehouse use would be compatible with other, existing uses in the area (such as commercial services, commercial retail, warehousing). Also, the request is justified based on responses to Sections C and D, because it furthers applicable Goals and policies of the Comprehensive Plan.
C. **Section C:** The applicant’s policy-based discussion demonstrates that the request furthers applicable Comprehensive Plan Goals and policies, and do not significantly conflict with it. The citations are sufficient.

D. **Section D:** The applicant has adequately demonstrated that the request would be more advantageous to the community because it would facilitate a use that is compatible with nearby uses and would further applicable Goals and policies in the Comprehensive Plan, as shown in the policy-based discussion in Section C.

E. **Section E:** The applicant intends to re-develop the subject site with a warehouse use for businesses that need storage and may do some manufacturing, assembling, treating, repairing, or rebuilding of products. The request would not be harmful to adjacent property, the neighborhood or the community because the area is already characterized by a mixture of C-2 and C-3 uses and has been for a long time. The residential use on the subject site is being phased out as the area continues to transition, as it has been for decades, to commercial uses.

F. **Section F:** The request would not require major or unprogrammed capital expenditures by the City and the subject site is already served by existing infrastructure.

G. **Section G:** Economic considerations are a factor, but they are not the determining factor for the request. The request will address the non-conforming history of the property with a use that is appropriate at this location, and at the cost of the property owner.

H. **Section H:** The subject site is not located on a major street; it is located in a local street that is approximately 250 feet south of Menaul Blvd. Therefore, location of a major street cannot be used as justification for the request.

I. **Section I:** The request would result in a spot zone because it would give a zone different (C-3) from surrounding zoning (C-2) to one small area, and one premises is involved. However, the applicant has demonstrated that the request will clearly facilitate realization of the Comprehensive Plan.

J. **Section J:** The subject site does not constitute a “strip of land along a street” because it is approximately 0.5 acres in size and is square shaped, and therefore wouldn’t be suitable for strip commercial development.

10. The applicant has adequately justified the zone map amendment (zone change) pursuant to R270-1980. The policy-based response to Section C demonstrates that the request would further applicable Goals and policies in the Comprehensive Plan. Though the request would create a spot zone, it is justifiable because it would clearly facilitate realization of the Comprehensive Plan (Section I). The future warehouse use would operate in an area that has been characterized by C-2 and C-3 zoning for many years, and it would not be harmful to adjacent property, the neighborhood, or the community (Section E). The remaining sections (A, B, D, F, G, H and J) are adequately addressed.
11. The Mobile Home Resident Notification Ordinance, Zoning Code §14-16-3-21, requires that property owners notify mobile home park residents in writing when they plan on phasing out a mobile home park. The tenants must have at least 18 months to make different living arrangements. In October 2016, the applicant sent a certified letter to the remaining six mobile home tenants. The 18 month notice requirements will be achieved in April 2018.

12. The District 7 Coalition was required to be notified, which the applicant did (see attachments). Property owners within 100 feet of the subject site were also notified, as required (see attachments). A facilitated meeting was not requested. As of this writing, Staff has not received any inquiries or correspondence regarding the request. There is no known opposition.

RECOMMENDATION - 17EPC-40050, November 09, 2017

APPROVAL of 17EPC-40050, a zone change from C-2 to C-3, for Lots 17-A, 18-A and 19-A, Block 11, Timoteo Chavez Addition, an approximately 0.5 acre site located at 2517 Sierra Dr. NE, just south of Menaul Blvd. NE, between Carlisle Blvd NE and Washington St. NE, based on the preceding Findings.

Re: 2517 SIERRA DR. N.E.

Dear Mr. Brewer:

This is to certify that according to the map on file in this office as of this date, Lots 17A, 18A, and 19A, Block 11, Timeteo Chavez Addition, Albuquerque, Bernalillo County, New Mexico are zoned C-2, Community Commercial.

The C-2 zone allows a mobile home park as a conditional use provided the lot area is at least three acres. In this case, the park is not three acres in size and is not approved as a conditional use. Therefore, the park is non-conforming as to lot size and also non-conforming as to use, but only until such time that a conditional use is approved. The park as it exists has until January 1, 2026 to apply for the conditional use.

If you should have any questions regarding this matter, please feel free to call me at 764-1664.

Sincerely,

Robert E. Romero
Zoning Enforcement Manager

- Unadvertised

SDP PHASE II - EPC FINAL REVIEW & APPROVAL (EPC14)
- Public Hearing
- Unadvertised

SDP PHASE II - DRB FINAL SIGN-OFF (DRBPH2)
- Copy of findings from required pre-application meeting (needed for the DRB conceptual plan review only)
- Proposed Sector Plan (30 copies for EPC, 6 copies for DRB)
- Zone Atlas map with the entire plan area clearly outlined and indicated
- Letter describing, explaining, and justifying the request
- Office of Neighborhood Coordination (ONC) inquiry response form, notification letter(s), certified mail receipts
- Fee (see schedule)
- List any original and/or related file numbers on the cover application

Refer to the schedules for the dates, times and places of DRB and EPC hearings. Your attendance is required.

AMENDMENT TO ZONE MAP - ESTABLISHMENT OF ZONING OR ZONE CHANGE (EPC05)
- Zone Atlas map with the entire property clearly outlined and indicated
- Letter describing, explaining, and justifying the request pursuant to Resolution 270-1980.
- Letter of authorization from the property owner if application is submitted by an agent
- Office of Neighborhood Coordination (ONC) inquiry response form, notification letter(s), certified mail receipts
- Traffic Impact Study (TIS) form
- Fee (see schedule)
- List any original and/or related file numbers on the cover application

EPC hearings are approximately 7 weeks after the filing deadline. Your attendance is required.

AMENDED TO SECTOR DEVELOPMENT MAP (EPC03)
- Proposed Amendment referenced to the materials in the Plan being amended (text and/or map)
- Plan to be amended with materials to be changed noted and marked
- Zone Atlas map with the entire plan amendment area clearly outlined
- Letter of authorization from the property owner if application is submitted by an agent (map change only)
- Letter describing, explaining, and justifying the request pursuant to Resolution 270-1980 (Sector Plan map change only)
- Letter briefly describing, explaining, and justifying the request
- Office of Neighborhood Coordination (ONC) inquiry response form, notification letter(s), certified mail receipts
- Traffic Impact Study (TIS) form
- Sign Posting Agreement
- Fee (see schedule)
- List any original and/or related file numbers on the cover application

EPC hearings are approximately 7 weeks after the filing deadline. Your attendance is required.

AMENDMENT TO ZONING CODE OR SUBDIVISION REGULATORY TEXT (EPC07)
- Amendment referenced to the sections of the Zone Code/Subdivision Regulations being amended
- Sections of the Zone Code/Subdivision Regulations to be amended with text to be changed noted and marked
- Letter describing, explaining, and justifying the request
- Fee (see schedule)
- List any original and/or related file numbers on the cover application

EPC hearings are approximately 7 weeks after the filing deadline. Your attendance is required.

I, the applicant, acknowledge that any information required but not submitted with this application will likely result in deferral of actions.

RE: ZONE MAP AMENDMENT FROM C-2 TO C-3, ZONE ATLAS PAGE H-17-Z

Ms. Hudson and members of the Environmental Planning Commission:

ARCH+PLAN Land Use Consultants, agent for Ed Anlian and Paula Dal Santo, in accordance with City Resolution 270-1980, respectfully request your review and approval of a Zone Map Amendment, allowing a change of zoning from C-2 (Community Commercial) to C-3 (Heavy Commercial) for the property described as Lots 17-A, 18-A and 19-A, Block 11, Timoteo Chávez Addition, consisting of 0.48± acres located at 2517 Sierra Drive NE.

The property is located at the end of a cul-de-sac on Sierra Drive, between Menaul Boulevard and Prospect Avenue. The surrounding area is mix of commercial uses including retail, service and wholesale/warehousing including public/institutional.

The applicant proposes to construct a 6,648 square foot building on the property. The intent of the building is geared towards small businesses that may include some level of light manufacturing, assembling, treating, repairing or rebuilding of products only allowed in the requested zone with warehousing options. The design will accommodate 4 to 5 units ranging from 1,200 to 1,500 square feet. The site will include 3,128 square feet of landscaping and 27 parking spaces. The zone change is needed to support the proposed use. Manufacturing, assembling, treating, repairing or rebuilding of products with warehousing is not allowed in the existing C-2 zone. Expressed interest has come from local businesses such as dental labs, medical equipment repair and jewelry assembly which would benefit from those options. The zone change is needed to allow for these uses as permissive to prospective businesses not needing large spaces.

The existing land use is a mobile home park, which has proven over time no longer to be appropriate at this location. In 1995, the City Zoning Enforcement Manager determined the park as "non-conforming" to both lot size and land use. The property is subject to the Mobile Home Resident Notification ordinance §14-16-3-21(D) Termination of mobile home park tenancy from change of use, which states that "...the landlord shall first give the resident of each mobile home subject to such eviction a written notice of his intent to evict not less than 18
months prior to such change of use of the land, notice to be mailed to each resident.” The applicant sent a letter to remaining tenants in October 2016 and the 18 month requirement will be achieved in April 2018.

If granted, the requested Zone Map Amendment would create a more favorable zoning designation for the subject property. The existing land use has proven a challenge to maintain as a result of changed conditions over time. Existing land uses of the general area do not compliment the mobile homes currently on the property. The requested C-3 zone which allows for proposed uses, will facilitate the redevelopment of the site in a manner that provides new economic investment in the immediate area and will allow for needed services and employment opportunities.

Justification and Policy Analysis

Below is the Resolution 270-1980 analysis to show how the requested Zone Map Amendment for this property with further goals set in the Albuquerque/Bernalillo County Comprehensive Plan. The responses provided below show how the requested zone is consistent with the growth and development patterns desired by the City.

A. A proposed zone change must be found consistent with the health, safety, morals and general welfare of the city.

_The proposed zone map amendment is consistent with the health, safety, morals and general welfare of the City because the request will further the outlined goals and policies of the Comprehensive Plan as demonstrated in Sections C and D of this request. The allowed uses under C-3 will not be harmful to adjacent property, the neighborhood or community as demonstrated in Section E. The rezone will allow for new infill development in a location no longer appropriate for a mobile home park with a new land use that exists within the immediate area and proven to support the health, safety, morals and general welfare of the City._

B. Stability in land use and zoning is desirable; therefore the applicant must provide a sound justification for the change. The burden is on the applicant to show why the change must be made, not on the city to show why the change should not be made. _The zone change will provide for stability of both land use and zoning of the property because it will allow for the development of an appropriate use for this location. Approval of the zone change will allow for the redevelopment of a struggling mobile home park site in an area no longer appropriate for this type of land use._

_The site has struggled with the historical use for many years as the area transitioned to more C-2 and C-3 uses and away from mobile home uses. Many of the spaces have been vacant for several years and the property owner has struggled to replace many of the spaces left vacant which resulted in the interest to request the subject rezone. The applicant purchased the property in 1995 and for twenty one years attempted to maintain the mobile home park with little success due to existing surrounding conditions._

_Surrounding land uses and the proposed warehouse will contribute to the stabilization of zoning and land use. Adjacent uses include a car and accessory business to the west,
which have placed the garage bays and employee parking next to the subject property. The property to the south is a post office, the subject site is adjacent to their parking lot. The property to the east is the St. Vincent de Paul Society, which has their warehouse next to the subject property. To the north of the site are commercial uses known as Sierra Square Offices. The subject site is to the rear of the offices adjacent to their parking lot.

Following the Goals of the Comprehensive Plan, the property owner would like to focus on reflecting an appropriate commercial use on the site. The proposed warehouse on the site adjacent to existing surrounding uses offer more of an opportunity to stabilize land use and zoning rather than the existing land use, a partially vacant mobile home park.

C. A proposed change shall not be in significant conflict with adopted elements of the Comprehensive Plan or other city master plans and amendments thereto, including privately developed area plans which have been adopted by the city.

ALBUQUERQUE/BERNALILLO COUNTY COMPREHENSIVE PLAN

This request will further the Comprehensive Plan goals, policies and actions as described in the following policy analysis.

CHAPTER 4 – COMMUNITY IDENTITY
GOAL 4.1 CHARACTER: Enhance, protect, and preserve distinct communities.
Policy 4.1.1: “Distinct Communities: Encourage quality development that is consistent with the distinct character of communities.”
b) See Land Use Policy 5.2.1 for desired land uses
- The proposed request will allow development on the property in a manner that furthers the Policy of creating a quality urban environment. The requested zone offers an opportunity to remove the existing “non-conforming” use to a redevelopment/infill project on a site that has been deteriorating for several years. The site is in need of new investment and revitalization. Construction of a warehouse is an extension of longstanding and compatible uses in the area. The site will support small local businesses. The proposed use will not generate activity that is not compatible with existing land uses and will contribute to the existing character of the area.

CHAPTER 5 – LAND USE
GOAL 5.1 CENTERS & CORRIDORS: Grow as a community of strong Centers connected by a multi-modal network of corridors.
Policy 5.1.1: “Desired Growth: Capture regional growth in Centers and Corridors to help shape the built environment into a sustainable development pattern.”
c) Encourage employment density, compact development, redevelopment and infill in Centers and Corridors as the most appropriate areas to accommodate growth over time and discourage the need for development at the urban edge
- The site appears to be within the American Square Activity Center accessed from a multi-modal corridor Menaul Boulevard, which encourages redevelopment and infill on the subject property at this appropriate location. By April of 2018, the site
will be vacant and the applicant is proposing to support this Policy through new employment opportunities with local businesses offering 4 to 5 spaces within the proposed building.

GOAL 5.2 COMPLETE COMMUNITIES: Foster communities where residents can live, work, learn, shop and play together.
Policy 5.2.1: “Land Uses: Create healthy, sustainable, and distinct communities with a mix of uses that are conveniently accessible from surrounding neighborhoods.”
h) Encourage infill development that adds complimentary uses and is compatible in form and scale to the immediately surrounding development
- Commercial land uses would be introduced to the subject property after several decades of serving as a mobile home park. Proposed zone of C-3 uses are found throughout the immediate area. The proposed change will allow the applicant to redevelop the property in a manner appropriate to the existing conditions in the vicinity.

GOAL 5.3 EFFICIENT DEVELOPMENT PATTERNS: Promote development patterns that maximize the utility of existing infrastructure and public facilities and the efficient use of land to support the public good.
Policy 5.3.1: “Infill Development: Support additional growth in areas with existing infrastructure and public facilities.”
- Approval of the zone change will make way for the redevelopment of a soon to be vacant property within the Established Urban Area. The requested C-3 zoning will allow for the ability to maximize existing infrastructure and public facilities. The subject site promotes efficient use of land to serve the public good with infill and support of local economic development.

GOAL 5.6 CITY DEVELOPMENT AREAS: Encourage and direct growth in Areas of Change where it is expected and desired and ensure that development in and near Areas of Consistency reinforces the character and intensity of surrounding area.
Policy 5.6.2: “Areas of Change: Direct growth and more intense development to Centers, Corridors, industrial and business parks, and Metropolitan Redevelopment Areas where change is encouraged.”
b) Encourage development that expands employment opportunities
- The proposed warehouse will encourage redevelopment on the subject property with opportunities for employment with the addition of 4 to 5 businesses to move into the proposed building.

f) Minimize potential negative impacts of development on existing residential uses with respect to noise, stormwater runoff, contaminants, lighting, air quality and traffic.
- The existing land use is currently dealing with the negative impacts of being surrounded by incompatible land uses which reflect the 21 year struggle of the property owner to maintain the mobile home park. Completely surrounded by commercial land uses likely create issues in respect to noise, lighting, air quality and traffic as a result of being an isolated residential land use.

CHAPTER 7 – URBAN DESIGN
GOAL 7.3 SENSE OF PLACE: Reinforce sense of place through context-sensitive design of development and streetscapes.
Policy 7.3.4: “Infill: Promote infill that enhances the built environment or blends style and building materials with surrounding structures and the streetscape of the block in which it is located.”

d) See Land Use Goals 5.5 and 5.6.
e) See Land Use Policies 5.1.2 and 5.3.1

- As part of promoting infill, the proposed structure will be compatible with the character of immediate area. Adjacent structures are larger than the proposed warehouse. The auto and truck accessory building to the west houses 5 garage bays, the post office to the south is one massive building and the St. Vincent de Paul Society warehouse used for storage is also larger than the proposed warehouse on the subject property. The warehouse will enhance the existing built environment with surrounding structures and the streetscape.

GOAL 7.5 CONTEXT-SENSITIVE SITE DESIGN: Design sites, buildings and landscape elements to respond to the high desert environment

Policy 7.5.1: “Landscape design: Encourage landscape treatments that are consistent with the high desert climate to enhance our sense of place”
a) Design the landscape and site improvements to compliment the individual site, the overall appearance of the corridor and surrounding land uses

- The project proposes 3,128 square feet of landscaping to the 0.48 acre site. Subject to landscaping requirements of the Albuquerque City Code, the plan is to incorporate xeric design principles to the individual site. The site plan will extend landscaping to the southern end of Sierra Drive not in place with the current land use and compliment existing landscaping of surrounding land uses along the corridor.

CHAPTER 8 – ECONOMIC DEVELOPMENT

GOAL 8.2 ENTREPRENEURSHIP: Foster a culture of creativity and entrepreneurship and encourage private business to grow.

Policy 8.2.1: “Local business: Emphasize local business development”

- New local employment opportunities will be provided on the subject site as the proposed zone change will transition from a soon to be vacant parcel of land to a warehouse. The proposed land use will provide employment opportunities in the immediate area, as well as within the City of Albuquerque. This will work in conjunction with revenue generation along with gross receipt taxes and the ability to support locally owned businesses.

D. The applicant must demonstrate that the existing zoning is inappropriate because;

1. There was an error when the existing zone map pattern was created, or
2. Changed neighborhood or community conditions justify the change, or
3. A different use category is more advantageous to the community, as articulated in the Comprehensive Plan or other city master plan, even though (D)(1) or (D)(2) do not apply.

The existing zoning is inappropriate because a different use category is more advantageous to the community as articulated in the Comprehensive Plan as further explained in Section C. The existing C-2 does not allow manufacturing, assembling, treating, repairing or rebuilding of products only allowed in the requested zone with warehousing options as a permissive use. At this particular location existing
surrounding land uses, and the proposed zone would be more advantageous. Parking lots (both public and employee), garage bays for automobile work, and a warehouse as adjacent uses reflect this. The St. Vincent de Paul Society constructed its warehouse towards the rear of their site. The auto and truck accessory business placed its employee parking and garage bays towards the rear of their property as well. The subject property's view to the north is the rear of a commercial office complex. To the south is the view of the parking lot for the post office.

A manufacturing, assembling, treating, repairing or rebuilding of products only allowed in the requested zone with warehousing options as a permissive use at this particular location is more advantageous to the community because it would support small, locally owned businesses to locate in an area already reflecting compatible uses and zoning. A 6,388 square foot building at this location would not have an invasive impact on the neighborhood, as it would be located next to an 8,000 square foot warehouse used for storage adjacent east to the subject property. The proposed zoning will allow a use that is advantageous and appropriate to the surrounding area and overall community by encouraging and supporting both redevelopment and local economic development.

As far back as 1995, reflected in the letter from the Zoning Enforcement Manager, the mobile homes have been defined as "non-conforming" which reflect and support a different land use category as being more advantageous to the community. The existing mobile home park has been at this location for several decades pre-dating many of the existing and permissive land uses including the post office adjacent to the south. As land uses changed, several residents started to relocate and spaces were left vacant. The area has been in transition for many decades with the C-3 zone starting to appear more regularly over time on properties formally zoned R-1 and C-2. Recognition of this property as one within the area that can support a different land use category as advantageous to the community is important when evaluating the context of this site and the stability of the surrounding neighborhood as a whole. The requested C-3 is compatible with the area's character due to its proximity to other C-3 zone properties and land uses that reflect the proposed zone, which are articulated in the Comprehensive Plan.

E. A change of zone shall not be approved where some of the permissive uses in the zone would be harmful to adjacent property, the neighborhood or the community. The rezone from C-2 to C-3 will not be harmful to any adjacent properties or the community as a whole because permissive uses of the requested zone area already exist in the general area and will not introduce a new activity nor change the character of the area. The property is a relatively small lot and will eliminate potential heavy commercial uses. In addition, the building will include 4 to 5 individual spaces aimed at lower end heavy commercial and will influence the type of businesses attracted to the spaces.

The interest in the C-3 zone revolves around the permissive use of warehousing with associated manufacturing, assembling, treating, repairing or rebuilding of products. The overall site is approximately .48 acres, which likely eliminates higher end heavy commercial uses. Existing C-3 zoned properties on similar lot sizes in the immediate
area reflect a warehouse for liquor distribution, jewelry distributor, home design center and plumber. As previously stated, the intent is to offer these options at a smaller scale to local businesses who need storage and may possibly have some level of manufacturing, assembling, treating, repairing or rebuilding of products.

The change will support the elimination of a non-conforming use no longer appropriate at this location due to changed conditions. Over time, the mobile homes on this particular site became isolated from what was once a large mobile home park. As new uses and zones changed, the once cohesive park was divided, leaving the subject site isolated. The existing post office site connected the subject property to the greater mobile home park to the south. Its construction in the 1980’s, cut off Sierra Drive, eliminated many mobile homes including a City swimming pool once a gathering place for area residents. This development permanently isolated the subject property to dependent access solely off of Menaul Boulevard.

The proposed warehouse is a permissive use in the requested zone and a redevelopment opportunity. Both the land use and the proposed zone exist in the immediate and general area supporting that a warehouse and proposed uses would not be harmful to adjacent properties, the neighborhood or the community.

F. A proposed zone change which, to be utilized through land development, requires major and un-programmed capital expenditures by the city may be;
(1) Denied due to lack of capital funds, or
(2) Granted with the implicit understanding that the city is not bound to provide the capital improvements in any special schedule.

The proposed zone change will not require any un-programmed capital expenditures to be made by the City. This is an infill/redevelopment property with adequate existing infrastructure. Extension of any services required will be the responsibility of the property owner.

G. The cost of the land or other economic consideration pertaining to the applicant shall not be the determining factor for a change of zone.

The cost of the land or other economic considerations are not the determining factor for this zone change request. The request will allow the subject site to address the “non-conforming” history of the property with a proposed land use appropriate at this location at the sole cost of the property owner.

H. Location on a collector or major street is not in itself sufficient justification of apartment, office or commercial zoning.

The justification for this zone change request is not based primarily on its location near a major street. Access to the site is off of Sierra Drive, a local street where it ends as a cul-de-sac. It serves as primary access to the subject site but also as secondary access for the car and truck accessory business adjacent west and to the commercial businesses adjacent north. Sierra Drive is off of Menaul Boulevard which is a Community Principal Arterial. Primary justification for the zone change request is property improvement, redevelopment and infill.
I. A zone change request which would give a zone different from surrounding zoning to one small area, especially when only one premise is involved is general called a “spot zone.” Such a change of zone may be approved only when;

(1) The change will clearly facilitate realization of the Comprehensive Plan and any applicable sector development plan or area development, or

(2) The area of the proposed zone change is different from surrounding land because it could function as a transition between adjacent zones; because the site is not suitable for uses allowed in any adjacent zone due to topography, traffic, or special adverse land uses nearby; or because the nature of structures already on the premises make the site unsuitable for the uses allowed in any one adjacent zone.

The zone change request to C-3 would create a “spot zone” because it will be surrounded completely by C-2 zoned properties. The C-3 zone is justifiable at this specific location because it will clearly facilitate realization of the Comprehensive Plan through its Goals and Policies of Community Identity, Land Use, Urban Design and Economic Development as articulated in Section C.

Goals and Policies within the Comprehensive Plan support the character of an area as it relates to Community Identity. The rezone will offer opportunities for redevelopment/infill of a soon to be vacant parcel of land that has struggled to support residential land uses. The proposed use is more in character with the immediate area. Redevelopment and infill opportunities of the site continue to support Land Use Goals and Policies the rezone with appropriate commercial uses that benefit from existing infrastructure and public facilities that also include complimentary land uses of the American Square Activity Center and site access from Menaul Boulevard, a multi-modal corridor. Urban Design Goals and Policies emphasize the importance of compatibility of new infill development in addition to site design that incorporate sensitive site design including that of landscaping which reflect the subject property and its intent and effort to enhance the existing built environment. Support of local business as Economic Development Goals and Policies applied to this request reflect the opportunities for 4 to 5 local small businesses to locate on the subject site meeting expressed interest to the applicant from those needing smaller spaces in a convenient location. Specific Goals and Policies are identified and discussed in Section C that support the “spot zone” and illustrate the facilitation and realization of the Comprehensive Plan.

J. A zone change request which would give a zone different from surrounding zoning to a strip of land along a street is generally called “strip zoning.” Strip commercial zoning will be approved only where;

(1) The change will clearly facilitate realization of the Comprehensive Plan and any adopted sector development plan or area development plan.

(2) The area of the proposed zone change is different from surrounding land because it could function as a transition between adjacent zone or because the site is not suitable for the uses allowed in any adjacent zone due to traffic or special adverse land uses nearby.

The request does not meet the definition of “strip zoning” as defined in this section. The area of the proposed zone change clearly facilitates the realization of the Comprehensive Plan. If approved, the request would result in an approved commercial
... zoning designation which does not significantly differ or change the character of existing and allowed uses on adjacent properties or those of the immediate area.

CONCLUSION
The requested Zone Map Amendment will allow this soon to be vacant and underutilized property to be transformed into a land use appropriate at this location, furthering the goals and policies of the Albuquerque/Bernalillo County Comprehensive Plan. Given changed community conditions over time on adjacent properties, the mobile home park struggled to survive as it became isolated.

This project represents an opportunity to redevelop a deteriorating site with a quality commercial use at an appropriate location. To our knowledge there has not been neighborhood opposition to the request.

We respectfully request that the Environmental Planning Commission approve this request for a Zone Map Amendment. Thank you for your consideration.

Sincerely,

Derrick Archuleta, MCRP
Principal

§ 14-16-3-21 MOBILE HOME RESIDENT NOTIFICATION.

(A) **Short title.** This section may be cited as the "Mobile Home Resident Notification Ordinance".

(B) **Findings and public policy.** The City Council finds that one of the Albuquerque/Bernalillo County Comprehensive Plan’s goals is to increase the city’s supply of affordable housing, ameliorate the problems of homelessness and displacement, and ensure that residents have safe, decent and affordably priced housing in stable neighborhoods. The Council further finds that mobile home developments play a vital role in meeting the city’s affordable housing needs through the furnishing of low cost, stable housing environments. Therefore, it is the city’s policy to minimize the hardships and disruptions associated with displacing mobile home residents.

(C) **Definitions.** For the purpose of this section, the following definitions shall apply unless the context clearly indicates or requires a different meaning.

**LANDLORD.** The owner or any person responsible for operating and managing a mobile home development or an agent, employee or representative authorized to act on the landlord’s behalf in connection with matters relating to tenancy in the development.

**MOBILE HOME.** A movable or portable housing structure larger than 40 feet in body length, 8 feet in width, or 11 feet in overall height, designed for and occupied by no more than one family for living and sleeping purposes; it does not include structures built to the standards of the Building Code and other technical codes adopted in § 14-1-3 ROA 1994, as of the date of the unit’s construction.

**MOBILE HOME DEVELOPMENT or PARK.** An area developed or intended to be developed for occupancy by two or more mobile homes which are used for dwelling purposes. It includes areas known as mobile home parks, where lots or spaces are rented individually to residents; mobile home subdivisions, where lots are sold individually, usually to residents of the lots; or other forms of ownership.

**MOBILE HOME DEVELOPMENT OWNER or PARK OWNER or OWNER.** The person or legal entity holding title to the mobile home development.

**RESIDENT.** A person who resides in a mobile home in a mobile home development.

**TENANCY.** The right of a resident to use a space or lot within a mobile home development on which to locate, maintain or occupy a mobile home, lot improvements and accessory structures, including the use of services and facilities of the mobile home development.

(D) **Termination of mobile home park tenancy resulting from change of use.** In those cases where the owner intends to change the use of his land, and where such change of use would result in eviction of inhabited mobile homes, the landlord shall first give the resident of each mobile home subject to such eviction a written notice of his intent to evict not less than 18 months prior to such change of use of the land, notice to be mailed to each resident.

(E) **Civil enforcement.** Any mobile home development resident whose rights under this section have been violated may bring a civil action in a court of competent jurisdiction and, upon prevailing, shall recover actual damages. A plaintiff prevailing in an action to enforce this section shall be entitled to recover his or her costs and expenses of suit and reasonable attorney’s fees. This provision does not preclude any other remedy that may be available at law or in equity.

(F) **New Mexico Mobile Home Park Act.** The provisions of the New Mexico Mobile Home Park Act (Chapter 47, Article 10, NMSA 1978) shall apply as applicable to mobile home developments in
Albuquerque with the exception of the length of time required for resident notification in the event of a change in land use. This section increases the length of time for required notification from six months to 18 months.

RE:    18 Month Notice to Terminate Tenancy

Dear Ms. Perea,

Pursuant to City of Albuquerque Ordinance 14-16-3-21 Mobile Home Resident Notification, this letter is to provide you with eighteen (18) months’ notice that we will be terminating your month-to-month lease and tenancy as of April 1, 2018.

Until that date, you will be responsible to make your monthly rent payment and will be held accountable if you do not and subject to court ordered eviction. As a Month-To-Month tenant, you may terminate your lease any time with 30-day’s notice. You, as owner, are responsible for the removal of your mobile home and all other items from the space you lease.

We will be closing the mobile home park at that time and plan on redeveloping the property.

If you require a reference letter for future properties, please let me know and I will be happy to provide one.

If you have any questions, please feel free to call me at 505-250-9661 or email me at edanlian@aol.com.

Sincerely,

Ms. Lynne Martin
1531 Espejo NE
Albuquerque NM 87112

RE: Zone Map Amendment from C-2 to C-3

Dear Ms. Martin:

We are writing to you and the District 7 Coalition that ARCH+PLAN Land Use Consultants has submitted a Zone Map Amendment application on behalf of Ed Anlian and Paula Dal Santo. The parcels proposed for rezoning are located at 2517 Sierra Drive NE between Menaul Boulevard and Prospect Avenue. They include Lots 17-A, 18-A and 19-A, Block 11, Timoteo Chávez Addition on 0.48± acres.

The site is currently located with a mobile home park that has been identified by the City as a “non-conforming” use in both lot size and existing use. The property owners would like to construct a warehouse on the property, which is a permissive use with the proposed C-3 zone.

This request will be presented to the Environmental Planning Commission on Thursday, November 9, 2017 at Plaza del Sol located at 600 Second Street NW. The hearing commences at 8:30 a.m.

Affected Neighborhood Associations and Homeowner Associations may request a Facilitated Meeting regarding this project by contacting Alternative Dispute Resolution (ADR) Program by email at striplett@cabq.gov, or by phone at (505) 768-4712 or (505) 768-4660.

A facilitated meeting request must be received by ADR by: October 9, 2017.

You may also contact me directly at (505) 980-8365 with any questions.

Sincerely,

Derrick Archuleta, MCRP
