Summary of Analysis
The request is for a zone map amendment for an approximately 23 16 acre vacant site, zoned MX-L. The applicant wants to change the subject site’s zoning to MX-M to facilitate future development pursuant to the MX-M zone.

The subject site is in an Area of Change, but is not in the Volcano Heights Urban Center, the area’s designated activity center. Paseo del Norte Blvd. is currently a Commuter Corridor. The zone map amendment has not been adequately justified pursuant to the IDO zone change criteria, primarily due to significant conflicts with the Comprehensive Plan’s activity center Goals and policies.

The affected neighborhood organizations are the Westside Coalition and the Paradise Hills Civic Association, which were notified as required. Property owners within 100 feet of the subject site were also notified as required. A pre-application meeting was held. Concerns include scope of future uses, appropriateness and affect upon area, future building height, and views. Staff recommends denial.

Staff Recommendation
That a recommendation of DENIAL of RZ-2019-00043, based on the Findings beginning on Page 20, be forwarded to the City Council.

The request is for a zone map amendment (zone change) for an approximately 23.16 acre site known as the northerly 436.01 feet of Lot 1, Block 2, and Lot 1A-1, Block 3, of Volcano Cliffs Unit 26 (the “subject site”). The subject site consists of two lots. Both lots are between Paseo del Norte Blvd. NW and Rosa Parks Rd. NW.

Lot 1, approximately 45.7 16 acres, is on the western side of Kimmick Dr. NW and Lot 1A-1, approximately 7.3 acres, is on the eastern side of Kimmick Dr. NW. The applicant states that the zone change is intended for an approximately 8.7 acre portion of Lot 1. However, there is no recorded lot line to separate Lot 1 into northern and southern portions. The vacated street, Valiente Rd. NW, is not a lot line and has not been platted or recorded. Therefore, the request includes all of Lot 1 as shown in the City’s GIS system and reflected in the legal records.

The subject site is zoned MX-L. The applicant is requesting a zone change to MX-M (Mixed Use-Medium zone) to facilitate sale of the subject site for future development.

EPC Role

The Environmental Planning Commission (EPC) is hearing this case because the EPC is required to hear all zone change cases, regardless of site size, in the City. Pursuant to IDO 6-7(G)(1), the request is required to be forwarded to the City Council because it exceeds 20 acres in size and is located wholly in an Area of Change. The EPC is a recommending body and the City Council will make the final decision. Appeals of City Council decisions are heard by the District Court. The request is a quasi-judicial matter.

Context

The subject site is in the Volcano Heights area and within the boundaries of CPO-12, the Volcano Mesa character protection overlay. Much of the land is undeveloped, though development of some single-family homes has occurred. The larger area is characterized by Piedras Marcadas Canyon,
which is Major Public Open Space located east of the subject site. Further to the west are some developing subdivisions and Volcano Vista High School.

Immediately north, south, east and west of the subject is undeveloped land with a variety of zoning designations. Land west of the subject site is zoned R-ML. East of the subject site is R-ML and MX-L zoning, and then some R-1D zoning and MPOS. A portion of the subject site is in VPO-2, the Northwest Mesa Escarpment view protection overlay.

R-1B zoning and R-ML zoning lie south of the subject site. To the north, across Paseo del Norte Blvd. NW, is land zoned NR-BP and MX-M.

**Activity Center**

The subject site is located outside of a designated Activity Center. The Volcano Heights Urban Center is north of the subject site, across Paseo del Norte Blvd. NW, and is one of two Urban Centers designated by the Comprehensive Plan. Uptown is the other. Urban Centers are intended to be mixed-use districts that are important for economic growth, and offer employment opportunities and a range of housing options (Comprehensive Plan, p. 5-14).

The Volcano Heights Urban Center is zoned NR-BP, MX-M, and MX-H to accommodate a variety of future development to serve the area and region. MX-T zoning serves as a buffer for the R-1D subdivision south of the Paseo del Norte/Unser Blvd. intersection. A wide variety of commercial development, economic base jobs, and higher density housing can develop here and support the entire Westside.

**History**

The subject site is located in Unit 26 of the Volcano Cliffs Subdivisions, which were originally platted mostly in the late 1960s and early 1970s. Unit 26 was platted and recorded in 1971.

The subject site was part of a much larger annexation, of Volcano Cliffs Units 2 through 27, which began in 1980 and was finalized in 1981. The annexation, of approximately 2,404 acres, was heard by the Environmental Planning Commission (EPC) at its February 21, 1980 meeting (AX-80-4/Z-80-10). City Staff recommended withholding approval until a service agreement, replatting, and addressing agency comments had occurred, and that these items were too large to condition in the absence of any clear procedures. However, the EPC voted 5-3 to forward a recommendation of approval to the City Council.

The proposed annexation was introduced at City Council on October 13, 1980. The City Council heard the case at its October 27, 1980 meeting. It’s unclear if there were multiple meetings about the case, but the legislation (O-92, Enactment No. 1-1981, see attachment) was adopted on December 11, 1980 and became effective on January 2, 1981.

In more recent history, the subject site was included in the Volcano Cliffs Sector Development Plan (VCSDP), adopted by the City Council, signed by the Mayor in 2011, and amended in 2014. The subject site was zoned SU-2/VCMX, which approximated the Zoning Code’s C-1 and R-2 zones with some exceptions. Upon adoption of the Integrated Development Ordinance (IDO) in
May 2017, the subject site’s zoning converted to its current zoning of MX-L, Mixed-Use Low Intensity zone.

**Transportation System**

The Long Range Roadway System (LRRS) map, produced by the Mid-Region Metropolitan Region Planning Organization (MRMPO), identifies the functional classifications of roadways. Paseo del Norte Blvd. NW is a Regional Principal Arterial. Kimmick Dr. NW is a proposed Minor Collector as it bisects the subject site.

**Comprehensive Plan Corridor Designation**

Paseo del Norte Blvd. NW is currently designated a Commuter Corridor. Commuter Corridors are intended for long-distance trips across town by automobile, including limited access streets. Paseo del Norte Blvd. NW is also designated a Premium Transit Corridor as it passes the subject site. Premium Transit Corridors are intended to have high-quality, high-capacity, and high-frequency public transit, intended for mixed-use and transit-oriented development.

The Premium Transit designation acts as an overlay on other corridor designations. Until premium transit projects have identified transit station locations and funding has been secured, development policies for the underlying corridor apply. Once stations and funding have been identified, Premium Transit Corridor policies kick in (Comp Plan, p. 5-16). Therefore, the request is being evaluated using the Commuter Corridor designation.

**Trails/Bikeways**

A bicycle lane is proposed along Kimmick Dr. NW. Along Paseo del Norte Blvd. NW, a bicycle lane and a paved trail, the Paseo del Norte Trail, are proposed.

**Transit**

The subject site is not currently served by Transit. The nearest transit stop is approximately 1 mile east, at the intersection of Paseo del Norte Blvd. NW and Unser Blvd. NW. Albuquerque Ride Route #92-Taylor Ranch Express, runs along Unser Blvd. NW twice in the AM and twice in the PM, weekdays only.

**Public Facilities/Community Services**

Please refer to the Public Facilities Map (see attachment), which shows public facilities and community services located within one mile of the subject site.

**II. ANALYSIS of APPLICABLE ORDINANCES, PLANS, AND POLICIES**

**Integrated Development Ordinance (IDO)**

**Definitions**

Adjacent: Those properties that are abutting or separated only by a street, alley, trail, or utility easement, whether public or private. See also Alley, Multi-use Trail, Private Way, Public Right-of-Way, and Street.
General Retail: An establishment providing for the retail sale of general merchandise or food to the general public for direct use and not for wholesale; including but not limited to sale of general merchandise, clothing and other apparel, flowers and household plants that are not grown on-site, dry goods, convenience and specialty foods, hardware and similar consumer goods, or other retail sales not listed as a separate use in Table 4-2-1. See also Adult Retail, Building and Home Improvement Materials Store, Large Retail Facility, Liquor Retail, and Grocery Store.

General retail is divided into 3 categories based on the size of the establishment or use (not the size of the structure):

1. General Retail, Small: An establishment with no more than 10,000 square feet of gross floor area.
2. General Retail, Medium: An establishment of more than 10,000 square feet of gross floor area and no more than 50,000 square feet of gross floor area.
3. General Retail, Large: An establishment of more than 50,000 square feet of gross floor area. See also Large Retail Facility.

Infill Development: An area of platted or unplatted land that includes no more than 20 acres of land and where at least 75 percent of the parcels adjacent to the proposed development have been developed and contain existing primary buildings.

Liquor Retail: A retail sales establishment licensed by the state selling packaged alcoholic liquors (including beer, wine, and spirituous liquors) for consumption off-site. Establishments that operate under a Small Brewer's, Winegrower's, or Craft Distiller's license are not considered Liquor Retail.

Zoning
The subject site is currently zoned MX-L [Mixed-Use Low Intensity Zone District, IDO 14-16-2-4(B)], which was assigned upon adoption of the IDO. Primary land uses are non-destination retail and commercial uses, townhouses, low-density multi-family residential dwellings, and civic and institutional uses to serve the surrounding area. Specific permissive uses are listed in Table 4-2: Allowable Uses, IDO p. 130.

The request proposes to change the subject site’s zoning to MX-M (Mixed Use, Medium Intensity Zone District, IDO 14-16-2-4(C)). The purpose of the MX-M zone is to provide a wide array of moderate-intensity retail, commercial, institutional, and moderate-density residential uses. Specific permissive uses are listed in Table 4-2 of the IDO.

Comparison of MX-L and MX-M
A couple of key differences between the MX-L and the MX-M zones are general retail and grocery stores. The IDO defines three types of general retail: General Retail, Small; General Retail, Medium; and General Retail, Large (IDO, p. 464 and see above). In the MX-L zone, only General Retail, Small is allowed. In the MX-M zone, General Retail, Small and General Retail, Medium are allowed permissively. General Retail, Large is a conditional use and would require a hearing before the Zoning Hearing Examiner (ZHE).
Other notable differences between the MX-L and the MX-M zones include:

- Bar, light vehicle fueling station, light vehicle sales and rental, mortuary, pawn shop, and transit facility are conditional uses in the MX-L zone (and require a hearing before the ZHE), but become permissive uses in the MX-M zone.
- Hospital, catering service, and nightclub are not allowed in MX-L, but are permissive in MX-M.
- Liquor retail is an accessory use in MX-L and a permissive use in MX-M.
- Drive-through is a conditional use in MX-L and an accessory use in MX-M.

The existing MX-L zone allows General Retail, Small (up to 10,000 sf), but does not allow General Retail, Medium (up to 50,000 sf). New permissive uses in the MX-M zone are general retail-medium, hospital, catering service, nightclub, liquor retail, and drive-through. In the nearby Volcano Heights Urban Center, drive-throughs are prohibited pursuant to IDO Section 14-16-4-3(F).

Use-Specific Standards

Noteworthy Use Specific Standards include those for liquor retail and light vehicle fueling station. The use-specific standards for Liquor Retail [see 4-3(D)(36)(a through h), p. 159] specify in Standard (c) that a conditional use is required when a proposed liquor retail use is within 500 feet of any residential or NR-PO zone district or any group home use.

Due to the R-ML and R-1B zoning adjacent to the subject site, it’s likely that a conditional use would be required for liquor retail. A conditional use is subject to a hearing before the Zoning Hearing Examiner (ZHE). If the conditional use is obtained, the next step would be a hearing before the State liquor board.

The IDO’s use-specific standards for Light Vehicle Fueling Station [see 4-3(D)(17)(a through n), p. 147] regulate items such as access points, canopies, and screening. (D)(17)(i) and state that a conditional use is required when this use is located adjacent to any residential zone district. Therefore, due to the adjacent R-ML and R-1B zoning, it’s likely that a conditional use would be required.

Albuquerque / Bernalillo County Comprehensive Plan

The subject site is located in an area that the 2017 Albuquerque/Bernalillo County Comprehensive Plan designates an Area of Change. Applicable Goals and policies are listed below. The Goals and policies listed below are cited by the applicant in the zone change justification letter dated August 23, 2019 (see attachment).

Staff does not provide analysis or additional citations other than what the applicant provided because, pursuant to the IDO Subsection 14-16-6-4(F)(2), the applicant bears the burden of providing a sound justification for the request, based on substantial evidence.
Chapter 4: Community Identity

Integrated Development Ordinance (IDO) 6-7(F)(3)-Review and Decision Criteria for Zone Map Amendments

Requirements
The review and decision criteria outline requirements for deciding zone change applications. The applicant must provide sound justification for the proposed change and demonstrate that several tests have been met. The burden is on the applicant to show why a change should be made.

The applicant must demonstrate that the existing zoning is inappropriate because of one of three findings: 1) there was an error when the existing zone district was applied to the property; or 2) there has been a significant change in neighborhood or community conditions affecting the site; or 3) a different zone district is more advantageous to the community as articulated by the Comprehensive Plan or other, applicable City plans.

Justification & Analysis
The zone change justification letter analyzed here, received on August 23, 2019, is a response to Staff’s request for a revised justification (see attachment). The subject site is currently zoned MX-L (Mixed-Use Low Intensity Zone. The requested zoning is MX-M (Mixed Use, Medium Intensity Zone). The reason for the request is to facilitate sale of the subject site for future development.
The applicant believes that the proposed zone map amendment (zone change) meets the IDO’s zone change decision criteria [14-16-6-7(F)(3)] as elaborated in the justification letter. Citations are from the IDO. The applicant’s arguments are in *italics*. Staff analysis follows.

A. A proposed zone change must be found to be consistent with the health, safety, and general welfare of the City as shown by furthering (and not being in conflict with) a preponderance of applicable Goals and Policies in the ABC Comp Plan, as amended, and other applicable plans adopted by the City.

*Applicant:* The proposed zone change is consistent with the health, safety, and general welfare of the City as shown by furthering a preponderance of Comprehensive Plan policies related to Centers and Corridors, Development Areas, Complete Communities, and Land Use.

*Staff:* Consistency with the City’s health, safety, morals and general welfare is shown by demonstrating that a request further a preponderance of applicable Comprehensive Plan Goals and policies (and other plans if applicable) and does not significantly conflict with them. The Goals and policies listed here as applicable are relevant to the request; note that relevancy does not automatically mean that the Goal or policy is furthered. In several instances, the request presents a significant conflict with an applicable Goal and/or policy.

*Applicable citations:* Policy 4.1.2-Identity and Design; Goal 5.1-Centers & Corridors; Policy 5.1.2-Development Areas; Policy 5.1.8-Premium Transit Corridors Subpolicy d; Policy 5.1.12-Commuter Corridors and Subpolicies a and b; Goal 5.2-Complete Communities; Policy 5.2.1-Land Uses; Policy 5.2.1-Land Uses Subpolicies a, e, and g; Goal 5.3- Efficient Development Patterns; Goal 5.4-Jobs Housing balance; Policy 5.4.2-West Side Jobs and subpolicy a; Goal 5.6-City Development Areas; Policy 5.6.2-Areas of Change and Subpolicies b, c, d, e, and g; Policy 7.6.2-Transportation Infrastructure; Policy 8.1.1-Diverse Places and Subpolicy a; Policy 8.1.2-Resilient Economy.

*Non-applicable citations:* Policy 5.1.1-Desired Growth; Policy 5.1.2-Development Areas; Policy 5.1.8-Premium Transit Corridors; Policy 5.1.12-Commuter Corridors Subpolicy c; Policy 5.2.1-Land Uses Subpolicies b and n; Policy 5.3.1-Infill Development;

*Relevant Goals and Policies not cited:* Policy 5.1.4-Urban Centers; Policy 5.1.6-Activity Centers; Policy 5.2.1-Land Uses Subpolicy j; Policy 5.4.2-West Side Jobs subpolicy b; Policy 5.6.4-Appropriate Transitions; Policy 8.1.1-Diverse Places Subpolicy b

*Staff:* The applicant has provided the required policy-based response, but has not adequately demonstrated that the request would further a preponderance of applicable Goals and policies and not be in significant conflict with them.

*Staff finds:* that the request conflicts with a preponderance of applicable Comprehensive Plan Goals and policies. The subject site is not in a designated Activity Center so activity center goals and policies (such as Goal 5.1 and Policy 5.1.1) cannot be used to justify the request. The
Volcano Heights Urban Center is located north of the subject site, across Paseo del Norte Blvd. and spans westward to include a large area around the intersection of Paseo del Norte and Unser Blvds.

Activity center Goals and policies are relevant, however, because the request conflicts with them. For instance, one of the applicant’s main arguments is that upzoning the subject site would lead to continued infill and development of the adjacent Center. Staff disagrees and finds that fostering more intense development outside of designated Activity Centers directly contravenes the intent of the Comprehensive Plan. A community of strong centers cannot be created by upzoning land outside of designated activity centers, and driving development desired for activity centers away from them and closer to residential uses and open spaces where the more intense uses are not generally desired.

The request would serve to undermine the Volcano Heights Urban Center in favor of more intense development in a location that is not beneficial to the community as a whole, and is the opposite of the intention of the Comprehensive Plan. The request conflicts with Policy 5.1.4-Urban Centers regarding creation of Urban Centers that provide a range of employment opportunities and housing, and Policy 5.1.6-Activity Centers regarding fostering mixed-use centers of activity that meet the needs of residents and businesses.

The request also conflicts with Policy 5.2.1-Land Uses, and would not support the healthy, sustainable, and distinct community that would result from development of a mix of appropriate uses in the Volcano Heights Urban Center, based upon the IDO-established zoning that supports the Comprehensive Plan vision. Subpolicy g states that commercial development should be located in existing commercial zones and designated centers and corridors, and Subpolicy j states that zone changes outside of designated activity centers are discouraged.

The applicant’s other main argument is that, because the subject site is located along a designated Corridor, that more intense development should be directed to it. Staff does not agree. More intense development is clearly intended to be in designated activity centers, especially Urban Centers. Centers and Corridors work together as a mutually reinforcing framework that forms the backbone of the Comprehensive Plan; a major conflict with activity center policies means a major conflict with the Comprehensive Plan.

The Comprehensive Plan states that center policies generally take precedence over corridor policies (p. 5-13), so the conflict with applicable Activity Center policies is primary. Though corridor policies are secondary, it’s worth noting the conflicts with them as well because they are intended to support centers. Paseo del Norte Blvd.’s future Premium Transit designation is intended to support the Volcano Heights Activity Center. However, premium Transit policies only apply after station locations have been identified and funding allocated, which has not occurred yet. Staff is not convinced by the applicant’s argument that the zone change is a good idea because it would support more intense mixed-use development along this designated Commuter Corridor that would be desirable in the future along a Premium Transit Corridor. A wide-variety of auto-oriented, commuter corridor type uses can develop without the proposed
zone change, and intensification of allowable uses on the subject site would detract from the Activity Center that the future Premium Transit Corridor is intended to serve.

Also, there is a conflict with the applicant’s argument that the request protects the identity and cohesiveness of nearby neighborhoods because the request would leave a buffer of MX-L zoned land on its southern side that is at least 500 feet wide. This argument is incorrect because Lot 1, on the western side of Kimmick Dr., has not been platted into northern and southern portions. The vacated western portion of Valiente Rd. NW is not a lot line, so the request includes all of Lot 1 and R-1B zoning lies to the south and there would be no buffer. The existing MX-L zoning is purposefully north of the residentially-zoned parcels, and acts to buffer them from Paseo del Norte Blvd. NW.

Therefore, because the applicant has not demonstrated that the request furthers a preponderance of applicable Comprehensive Plan Goals and policies and does not significantly conflict with the, there is no demonstration that the request is consistent with the City’s health, safety, morals and general welfare. The response to Criterion A is insufficient.

B. If the proposed amendment is located wholly or partially in an Area of Consistency (as shown in the ABC Comp Plan, as amended), the applicant has demonstrated that the new zone would clearly reinforce or strengthen the established character of the surrounding Area of Consistency and would not permit development that is significantly different from that character. The applicant must also demonstrate that the existing zoning is inappropriate because it meets any of the following criteria:

1. There was typographical or clerical error when the existing zone district was applied to the property.
2. There has been a significant change in neighborhood or community conditions affecting the site.
3. A different zone district is more advantageous to the community as articulated by the ABC Com Plan, as amended (including implementation of patterns of land use, development density and intensity, and connectivity), and other applicable adopted City plan(s).

Applicant: The subject site is located wholly in an Area of Change, so this criterion does not apply.

Staff: The subject site is located wholly in an Area of Change, so this criterion does not apply. The response to Criterion B is sufficient.

C. If the proposed amendment is located wholly in an Area of Change (as shown in the ABC Comp Plan, as amended) and the applicant has demonstrated that the existing zoning is inappropriate because it meets at least one of the following criteria:

1. There was typographical or clerical error when the existing zone district was applied to the property.
2. There has been a significant change in neighborhood or community conditions affecting the site that justifies this request.

3. A different zone district is more advantageous to the community as articulated by the ABC Comp Plan, as amended (including implementation of patterns of land use, development density and intensity, and connectivity), and other applicable adopted City plan(s).

Applicant (summarized): The proposed amendment is located wholly in an Area of Change, and the existing zoning is inappropriate because a different zone district is more advantageous to the community as articulated by the ABC Comp Plan. As described in this justification letter, the requested MX-M zone furthers numerous goals and policies of the Comprehensive Plan, including locating larger retail along automobile-oriented Commuter Corridors, infill development and land use patterns, supporting future transit along Paseo del Norte, and helping shift the jobs-housing balance on the west side of the Rio Grande.

The Northwest Mesa has several locations of vacant MX-L zoned property, but nothing that allows more intense, even moderately intense, development outside of the Volcano Heights Urban Center, which lacks utilities and other infrastructure. Approving a change to the MX-M zone in the proposed location will implement the appropriate pattern of land use, development density, intensity, and connectivity as desired by the community and described by the Comprehensive Plan.

MX-M is more advantageous than MX-L because the existing zoning includes a variety of use restrictions that are not appropriate for a property located next to a Commuter Corridor, future Premium Transit Corridor, and Urban Center. It is unrealistic to assume that a site this large will successfully develop with all 10,000 square-foot or less individual businesses or without many of the other uses allowed by the MX-M zone, especially considering the Comprehensive Plan policies to allow automobile-oriented uses along Corridors like Paseo del Norte and promoting additional job opportunities for the West Side. When these uses develop, they will be conveniently accessible to the surrounding neighborhoods, as well as others driving on Paseo del Norte without requiring them to travel farther distances for the same goods and services.

Staff: A different zone district (MX-M) on the subject site would generally not be more advantageous to the community as a whole than the existing zoning (MX-L). The additional uses allowed by the MX-M zone would take away from the Comprehensive Plan’s intended development intensity for the nearby Volcano Heights Urban Center, which already has MX-M zoning.

The applicant has not demonstrated that the request furthers a preponderance of applicable Goals and policies and does not conflict with them. The policy analysis fails to address significant conflicts with Comprehensive Plan Goals and policies that support Activity Centers such as the Volcano Heights Urban Center, which was zoned MX-H, MX-M, and NR-BP specifically so that more intense uses can concentrate in the designated activity center and not
outside of it. The Comprehensive Plan’s primary purpose is to benefit the community as a whole by directing and encouraging more intense development to designated Centers in order to preserve and protect the lower-intensity uses outside of designated centers. The request conflicts directly with this purpose.

Though automobile-oriented uses are generally appropriate along Commuter Corridors, Paseo del Norte Blvd. NW passes the subject site for a short portion of its length as it leads into the designated Activity Center, where more intense uses can concentrate without disrupting the lower-intensity uses that characterize the area. In this area and context, it is inappropriate for the medium-intensity uses allowed by the MX-M zone to be located near low-density residential areas and Major Public Open Space; the MX-L zoning already in place south of Paseo del Norte Blvd. NW is a much better fit for the context that surrounds the 23 16 acre subject site than the proposed zoning.

The MX-H and NR-BP zoning in the Volcano Heights Urban Center allow a wide variety of commercial, office, and industrial uses that can result in economic base jobs that have a multiplier effect throughout the local economy. The proposed zone change from MX-L to MX-M may result in a few more service jobs than keeping the MX-L zone, though the effect of undermining the designated activity center could be detrimental to the area overall in the long run. The response to Criterion C is insufficient.

D. The zone change does not include permissive uses that would be harmful to adjacent property, the neighborhood, or the community, unless the Use-specific Standards in Section 16-16-4-3 associated with that use will adequately mitigate those harmful impacts.

Applicant: None of the permissive uses in the MX-M zone will be harmful to the adjacent property, neighborhood, or community. The table provides a comparison of the MX-L and MX-M zones, limited to uses permissive in the MX-M zone that are not already permissive in the MX-L zone. Many are already allowed conditionally in the MX-L zone, including light vehicle fueling station, tap room or tasting room, and drive-through or drive-up facility. Many also have use-specific standards that mitigate their impact, including separation requirements between residential uses. The distance separation between the subject site and the nearest low-density residential use is approximately 540 feet.

Some uses that are of concern to neighbors include "big box" stores, home improvement stores, hospitals, warehouses, a temporary circus, drive-in theater, and group homes. Other than hospitals, most of these uses are Conditional and would require additional hearings with the Zoning Hearing Examiner. Part of that hearing process would be a determination that the use would not be harmful to the neighbors.

Regarding "big box" stores, the IDO includes Use-specific Standards that adequately mitigate the impacts. Such facilities are also typically larger than the area proposed for this request. Sites 12 to 20 acres are typical, which would require a site 50% larger than either of the areas proposed to become MX-M. The location of Kimmick splitting the subject site in half and leaving the MX-L to the south limits the possibility of this site becoming a large retail facility.
Other Use-specific standards will ensure these uses are not harmful to adjacent neighbors. Hospitals in the MX-M zone are limited to 20 overnight beds and prohibit ambulance traffic, so size and noise concerns are minimized. Light vehicle fueling stations become a Conditional Use if proposed adjacent to residential, and light vehicle sales and rental includes extra screening requirements.

Liquor retail also becomes a Conditional Use if it is within 500 feet of any surrounding residential zone. Pawn shops have a minimum separation requirement from other pawn shops. Lastly, drive-through facilities include a significant number of design standards. In addition, drive-throughs are Conditional Uses within 330 feet of Major Public Open Space and prohibited when adjacent to Major Public Open Space.

Staff: The requested zone (MX-M) includes a wider variety of non-residential uses than the existing MX-L zone. Permissive residential uses are the same. The zones differ mostly with respect to permissive commercial uses. The table shows uses that would become permissive in the MX-M zone.

In MX-L, which is roughly equivalent to the former C-1 zone, only General Retail, Small is allowed. In MX-M, General Retail, Small and General Retail, Medium are allowed. General Retail, Large is a conditional use in MX-M. The approximately 15.7 16 acre Lot 1, on the western side of Kimmick Dr. NW, contains enough area for a large, single-user store to develop
provided a conditional use is obtained. 12 to 20 acres is the typical size lot for a big box store, as stated by the applicant.

Other notable differences between the two zones (mixed-use low intensity and mixed-use medium intensity) are: bar, light vehicle fueling station, and light vehicle sales and rental, mortuary, pawn shop, and transit facility are conditional uses in the MX-L zone that become permissive uses in the MX-M zone. Hospital, catering service, and nightclub are not allowed in MX-L, but are permissive in MX-M. Liquor retail is an accessory use in MX-L and a permissive use in MX-M. A drive-through is a conditional use in MX-L and an accessory use in MX-M.

The following uses, proposed to be permissive, are often considered harmful to adjacent property, the neighborhood, or the community: bar, light vehicle fueling station, light vehicle sales and rental, pawn shop, nightclub, liquor retail, and drive through.

IDO regulations could help mitigate some impacts to nearby lower-intensity uses. Future development would be required to comply with applicable IDO regulations, such as the 5-5(I)(1)- Drive Through Facility Design and Section 14-16-5-9: Neighborhood Edges, due to the single-family homes to the south. These requirements for buffering and screening would apply to future development. State regulations pertaining to alcohol licensing would also apply to future uses on the subject site, just as they apply City-wide.

Though many of these uses would be subject to the IDO’s use-specific standards, the distance separation between the subject site (the northerly 436.01 feet of Lot 1) and the nearest low-density residential use (R-1B zoned lots) is approximately 75 feet, not 540 feet as stated. Therefore, even with use-specific standards, however, there could still be a potential for harmful effects on adjacent property and the neighborhood because of the moderate-intensity uses in this context could be more than originally represented.

The greater harm that could result from the request, however, would be to the community in the area and the City as a whole. Upzoning approximately 23 16 acres to MX-M, outside of the designated Volcano Heights Urban Center that already contains MX-M zoning, would adversely affect the area because it would facilitate development of medium-intensity uses outside of the designated activity center and affect its potential to develop with the desired mix and intensity of uses intended by the Comprehensive Plan.

The Volcano Heights Urban Center is one of two designated urban centers in the City, and is the only urban center on the City’s Westside. Allowing a zone change that would facilitate development of more intense uses than intended, outside of the activity center and south of Paseo del Norte, would harm the community because it would be contrary to the Comprehensive Plan’s establishment or designated activity centers that absorb more intense development so that the areas characterized by lower-intensity development can be protected and quality of life supported. The response to Criterion D is insufficient.
E. The City's existing infrastructure and public improvements, including but not limited to its street, trail, and sidewalk systems meet 1 of the following requirements:

1. Have adequate capacity to serve the development made possible by the change of zone.

2. Will have adequate capacity based on improvements for which the City has already approved and budgeted capital funds during the next calendar year.

3. Will have adequate capacity when the applicant fulfills its obligations under the IDO, the DPM, and/or an Infrastructure Improvements Agreement.

4. Will have adequate capacity when the City and the applicant have fulfilled their respective obligations under a City-approved Development Agreement between the City and the applicant.

Applicant: The proposed zone change will not require major and unprogrammed capital expenditures by the City. The Applicant has already helped pay for and install the infrastructure necessary for development of this site through Special Assessment District 228. It has access to adequate roadways, water, sewer, and storm water facilities. Additionally, any additional required extensions of these services for any specific development proposal will be the sole responsibility of the developer.

Staff: The applicant did not respond directly to the question, but uses language found in the former R270-1980 in lieu of choosing option 1, 2, 3, or 4. The applicant states that infrastructure necessary for the subject site's development has been put in place, but did not address the issue of capacity.

Staff points out that infrastructure in the area continues to develop. In October 2018, the City Council passed legislation that prioritizes the intersection of Paseo del Norte and Unser Blvds., which is at the heart of the Volcano Heights Urban Center. Bill No. R-18-84 was enacted in November 2018 and includes roadway infrastructure in the City’s capital implementation program (CIP). The response to Criterion E is sufficient.

F. The applicant's justification for the requested zone change is not completely based on the property's location on a major street.

Applicant: While the property is located adjacent to Paseo del Norte, a regional principal arterial, it is not the only reason for providing justification for the zone change to MX-M. As described earlier in this letter, the request is based on being more advantageous to the community as it furthers a preponderance of applicable Comprehensive Plan policies for Commuter Corridors, land use, infill development, jobs-housing balance, and economic development.

Staff: Though not completely based on the subject site’s location on a major street, the applicant’s justification relies on location next to Paseo del Norte Blvd. NW, a commuter corridor, to support the claim that moderate-intensity commercial uses should develop on the subject site due. Because the applicant has not adequately demonstrated that the request
furthers a preponderance of applicable Comprehensive Plan Goals and policies, and that is would be more advantageous to the community than the subject site’s current zoning, the street location argument becomes more important. The response to Criterion F is insufficient.

G. The applicant’s justification is not based completely or predominantly on the cost of land or economic considerations.

Applicant: While economic considerations of the owner related to marketability of the property are a consideration in this request, the justification is not completely or predominantly based on such considerations. The determining factor for this request is support for Comprehensive Plan policies making the request more advantageous to the community. The requested zone change will allow additional moderate-intensity commercial uses to develop that will provide additional needed services closer to residents in the northwest part of the City.

Staff: The applicant’s justification is based predominantly on economic considerations. Staff does not agree that the determining factor for the request is support for Comprehensive Plan policies because of the significant conflicts with activity center policies, and the request cannot be demonstrated to be more advantageous to the community. The applicant’s desire to sell the subject site with a more-intense zoning descriptor is predominantly economic. The response to Criterion G is insufficient.

H. The zone change does not apply a zone district different from surrounding zone districts to one small area or one premises (i.e. create a "spot zone") or to a strip of land along a street (i.e. create a "strip zone") unless the change will clearly facilitate implementation of the ABC Comp Plan, as amended, and at least one of the following applies:

1. The area of the zone change is different from surrounding land because it can function as a transition between adjacent zone districts.
2. The site is not suitable for the uses allowed in any adjacent zone district due to topography, traffic, or special adverse land uses nearby.
3. The nature of structures already on the premises makes it unsuitable for the uses allowed in any adjacent zone district.

Applicant: The zone change does not apply a zone district to one small area or one premise, or to a strip of land along a street. The subject site is nearly 16 acres, so it is not a small area. Additionally, while not immediately adjacent to the subject site, there is a significant amount of MX-M zoned property in the area also along the Paseo del Norte and Unser Boulevard Commuter Corridors. Based on these two factors, the request does not constitute a spot zone.

The request is also not considered a strip zone because while running parallel to Paseo del Norte, the two properties that constitute the subject site are over 400 feet deep. Oriented toward the signalized intersection of Kimmick with Paseo del Norte, they create a relatively large development node of higher intensity uses in an appropriate location with adequate transitions before getting to low-density residential uses.
Staff: The request would not apply a zone district different from surrounding zone districts to one small area. The subject site is approximately 23.16 acres in size and does not constitute a strip of land along a street. The existing MX-M zoning in the area is with the Volcano Heights Urban Center, which is the appropriate location for development of more intense uses. The response to Criterion H is sufficient.

III. AGENCY & NEIGHBORHOOD CONCERNS

Reviewing Agencies

City departments and other interested agencies reviewed this application from 8/7/2019 to 8/21/2019. Long Range Planning Staff notes that the subject site is adjacent to the Volcano Heights Urban Center designated in the Comprehensive Plan, and suggests that the EPC carefully consider whether an upzone is appropriate in this area south of Paseo del Norte Blvd., which was designated to be lower-intensity mixed-use to be compatible with the single-family zoning to the south. The discrepancy between the applicant’s analysis and the legal ad, which covers all of Lot 1, was noted.

The Open Space Division provided a letter (see attachment) expressing concern that the request for MX-M zoning may have adverse effects on the Major Public Open Space property nearby, La Cuentista. The City is in the process of purchasing more land in this area for open space and is concerned about future development near sensitive lands.

The National Park Service submitted a letter (see attachment) stating concern that the proposed zone change could have an adverse effect on the Petroglyph National Monument, and that the MX-M zone would allow additional uses that would be incompatible to the sensitivity of the culturally significant resources nearby. They prefer to see larger commercial development further from the monument to avoid such impacts.

Albuquerque Public Schools (APS) notes that all three schools that serve the area, Sunset View Elementary School, Tony Hillerman Middle School, and Volcano Vista High School, are currently over capacity for enrollment and future development would be a strain on the school system.

The Mid-Region Metropolitan Planning Organization (MRMPO) notes that Paseo del Norte Blvd. is a Regional Principal Arterial and that it’s a limited access facility. PNM commented regarding easements and coordination in the future when construction occurs. Agency comments begin on p.27.

Neighborhood/Public

The Paradise Hills Civic Association and the Westside Coalition were required to be notified, which the applicant did (see attachments). Property owners within 100 feet of the subject site were also notified, as required (see attachments). Though the applicant’s letter refers to the portion of Lot 1 north of the vacated ROW of Valiente Rd. NW, because there is no platted lot line, all of Lot 1 is required to be buffered for notification purposes. The corrected buffer resulted in three more parties required to be notified, which the applicant did more than 15 days before the public hearing, as required (see attachments).
A pre-application facilitated meeting was held on July 17, 2019 (see attachment). Representatives from the Westside Coalition and Petroglyph Estates subdivision attended. Neighbors, who are opposed to the request, expressed several concerns that include consequences of the proposed zone change and overall effect on the area, range of uses the proposed zone would allow, possibility of big box stores developing, increased building height becoming allowable and affecting views, loss of character, and diminished property values. The applicant stated that the lots are not large enough for big-box stores and that the applicants are not developers, but want to sell the land.

Staff received a letter of opposition from three neighbors (see attachment), who share the same concerns. They believe that many uses allowed under the MX-M designation are incompatible with the area’s culturally sensitive nature and character protected by CPO-12. They believe that the existing zoning can provide for neighborhood-serving needs and that the zoning established by the IDO shouldn’t be readily discarded.

**IV. CONCLUSION**

The request is for a zone map amendment (zone change) for an approximately 23.16 acre site, consisting of two lots and located on the western and eastern sides of Kimmick Dr. NW, south of Paseo del Norte Blvd. NW. The area is largely undeveloped.

The subject site is zoned MX-L. The applicant is requesting the MX-M (Mixed Use-Medium Intensity) zone in order to develop the subject site pursuant to the MX-M zone.

The zone map amendment is not justified because the applicant has not adequately shown that the request would further a preponderance of applicable Goals and policies and not be in conflict with them (Criterion A). There are significant conflicts with Activity Center policies. Lacking the required support from the Comprehensive Plan, the proposed zoning would also not be more advantageous to the community than the current zoning (Criterion C) and the justification relies predominantly on economic factors (Criterion G).

The affected neighborhood organizations are the Paradise Hills Civic Association the Westside Coalition, which were notified as required. Property owners within 100 feet of the subject site were also notified as required. A pre-application facilitated meeting was held. Neighborhood attendees are opposed to the request, citing concerns about the proposed zone change’s effect on the area, range of uses, big box stores, higher buildings and views, loss of character, and diminished property values.

Staff received letters of opposition from the National Park Service, the Open Space Division, and three neighbors as of this writing.

Staff recommends denial.
FINDINGS - RZ-2019-00043, September 12, 2019- Zone Map Amendment (Zone Change)

1. The request is for a zone map amendment (zone change) for an approximately 23.16 acre site known as the northerly 436.01 feet of Lot 1, Block 2, and Lot 1A-1, Block 3, Volcano Cliffs Unit 26 (the “subject site”). The subject site is located at the southwestern corner and the southeastern corner of the intersection of Paseo del Norte Blvd. NW and Kimmick Dr. NW.

2. The Environmental Planning Commission (EPC) is hearing this case as a recommending body. Pursuant to Section 6-7(G)(1) of the Integrated Development Ordinance (IDO), the request is required to be forwarded to the City Council because it exceeds 20 acres in size and is located wholly in an Area of Change. The request is a quasi-judicial matter.

3. The subject site is an area that the Comprehensive Plan designated an Area of Change. Paseo del Norte Blvd. is designated as a Commuter Corridor with a Premium Transit Overlay. Because no premium transit projects have identified station locations or have been funded in this location yet, only the policies for the underlying corridor designation (Commuter Corridor) apply.

4. The subject site is not in a designated activity center. The Volcano Heights Urban Center, one of only two urban centers in the City designated by the Comprehensive Plan, is located north and west of the subject site.

5. The subject site is zoned MX-L (Mixed-Use Low Intensity Zone). The applicant is requesting the MX-M zone (Mixed Use-Medium Intensity Zone) in order to sell the land for future development under a more intense zoning designation. The IDO purpose of the MX-M zone is to provide a wide array of moderate-intensity retail, commercial, institutional, and moderate-density residential uses.

6. There is existing MX-M zoning already in the area within the Volcano Heights Urban Center, which is the appropriate location for development of more intense uses. MX-L zoning is found on the southern side of Paseo del Norte Blvd. to provide neighborhood scale goods and services while supporting the development of more intense uses in the designated activity center where MX-M zoning is already in place.

7. The Albuquerque/Bernalillo County Comprehensive Plan and the City of Albuquerque Integrated Development Ordinance (IDO) are incorporated herein by reference and made part of the record for all purposes.

8. The request conflicts with the following, applicable Comprehensive Plan Goal and policies regarding growth, as follows:
   Goal 5.1-Centers & Corridors: Grow as a community of strong Centers connected by a multi-modal network of Corridors.
Policy 5.1.1- Desired Growth: Capture regional growth in Centers and Corridors to help shape the built environment into a sustainable development pattern.

Policy 5.1.2-Development Areas: Direct more intense growth to Centers and Corridors and use Development Areas to establish and maintain appropriate density and scale of development within areas that should be more stable.

The request would not lead to continued infill and development of the adjacent Volcano Heights Urban Center. First, the subject site does not meet the IDO definition of infill development; the area is almost entirely undeveloped. Second, fostering more intense development outside of designated Activity Centers directly contravenes the intentions of the Comprehensive Plan.

The City cannot grow as a community of strong centers and corridors if land outside the designated activity centers is upzoned to compete with them (Goal 5.1), which would drive development out of the activity centers where it is desirable and closer to residential uses and open spaces that are intended to be more stable and maintain a lower-intensity and scale of development (Policy 5.1.2). The more intense uses and regional growth are intended to develop in the designated activity centers (especially the Urban Centers), which would help shape the built environment into a sustainable development pattern that benefits the City as a whole (Policy 5.1.1).

9. The request conflicts with the following, additional applicable Comprehensive Plan policies, as follows:

A. Policy 5.1.4-Urban Centers: Create highly accessible and walkable Urban Centers that provide a range of employment opportunities and higher-density housing options.

Policy 5.1.6-Activity Centers: Foster mixed-use centers of activity with a range of services and amenities that support healthy lifestyles and meet the needs of nearby residents and businesses.

The Volcano Heights Urban Center, one of the two Urban Centers established by the Comprehensive Plan, is intended to provide a range of employment and higher-density housing options and has the zoning to do so. The request would make it more difficult to provide a range of employment opportunities and higher-density housing options in the Urban Center because it would draw future development away and undermine the Comp Plan’s intent of establishing it (Policy 5.1.4). Similarly, the request would not foster mixed-use centers with a range of services and amenities that support healthy lifestyles and meet the needs of nearby residents and businesses because it would promote more intense development outside of the designated center nearby and would promote more intense development outside the center in a location that would not benefit the community as a whole.

B. Policy 5.2.1-Land Uses: Create healthy, sustainable, and distinct communities with a mix of uses that are conveniently accessible from surrounding neighborhoods.
g) Locate quality commercial development and redevelopment in existing commercial zones and designated Centers and Corridors as follows:
  i. In Activity Centers with development to serve adjacent neighborhoods with an emphasis on pedestrian and bicycle connections to nearby residential areas;
j) Discourage zone changes to commercial, industrial, or office uses outside of Centers and Corridors.

The request also conflicts with Policy 5.2.1 - Land Uses, and would not support the healthy, sustainable, and distinct community that would result from development of a mix of appropriate uses in the Volcano Heights Urban Center, based upon the IDO-established zoning that supports the Comprehensive Plan’s vision. Commercial development should be located in existing commercial zones and designated centers and corridors; the Volcano Heights Urban Center is a designated center, along a designated corridor, in which the zones to achieve this purpose already exist (Subpolicy g). Zone changes, such as the request, that are outside of designated activity centers are discouraged by the Comprehensive Plan (Subpolicy j).

10. Center policies take precedence over corridor policies (Comprehensive Plan, p. 5-13), so the conflict with applicable Activity Center policies is primary. Though secondary, corridor policies are intended to support the designated activity centers. Paseo del Norte Blvd.’s future Premium Transit designation is intended to support the Volcano Heights Activity Center. However, premium Transit policies only apply after station locations have been identified and funding allocated, which has not occurred yet. Paseo del Norte Blvd. NW is a designated Commuter Corridor. A wide-variety of auto-oriented, appropriate uses can develop along the corridor without the proposed zone change; intensification of allowable uses on the subject site would detract from the Activity Center that the future Premium Transit Corridor is intended to serve.

11. Though automobile-oriented uses are generally appropriate along Commuter Corridors, Paseo del Norte Blvd. NW passes the subject site for a short portion of its length as it leads into the designated Activity Center, where more intense uses can concentrate without disrupting the lower-intensity uses that characterize the area. It is inappropriate for the medium-intensity uses allowed by the MX-M zone to be located near low-density residential areas and Major Public Open Space; the MX-L zoning already in place south of Paseo del Norte Blvd. NW is a much better fit for the context that surrounds the 23 16 acre subject site than the proposed zoning. See also Finding 16.

12. The zone map amendment is not adequately justified pursuant to the IDO Review and Decision criteria for zone changes 6-7(F)(3). The responses to Criteria A, C, D, and G are insufficient. The policy analysis does not sufficiently demonstrate that the request furthers a preponderance of applicable Goals and policies and does not conflict with them (Sections A), so it is not possible to conclude that the request would be more advantageous to the community than the current zoning (Criterion C). The applicant did not adequately address the issue of potential harm to adjacent property, the neighborhood, or the community (Criterion D). The response to
Criteria G demonstrates that the justification is completely or predominantly based on economic considerations pertaining to the applicant.

13. The applicant has not adequately justified the request pursuant to the Integrated Development Ordinance (IDO) Section 6-7(F)(3)-Review and Decision Criteria for Zone Map Amendments, as follows:

A. **Criterion A:** Consistency with the City’s health, safety, morals and general welfare is shown by demonstrating that a request furthers applicable Comprehensive Plan Goals and policies (and other plans if applicable) and does not significantly conflict with them. The applicant has not adequately demonstrated that the request would further a preponderance of applicable Goals and policies and not be in significant conflict with them.

The request presents significant conflicts with applicable Comprehensive Plan Goals and policies regarding Activity Centers. The request to upzone approximately 23 acres outside of the designated Volcano Heights Urban Center would directly contravene the intent of the Comprehensive Plan to foster more intense development inside of the designated centers, in order to support development of less intense uses closer to residential areas and open spaces. A network of strong centers and corridors, which benefits the community as a whole, cannot be created by undermining the designated urban center.

B. **Criterion B:** The subject site is located wholly in an Area of Change, so this criterion does not apply.

C. **Criterion C:** A different zone district (MX-M) would generally not be more advantageous to the community as a whole than the existing zoning (MX-L). The additional uses allowed by the MX-M zone would take away from the Comprehensive Plan’s intended development intensity for the nearby Volcano Heights Urban Center, which also has MX-M zoning.

The applicant has not demonstrated that the request furthers a preponderance of applicable Goals and policies because the policy analysis fails to address significant conflicts with Comprehensive Plan Goals and policies that support Activity Centers. The Comprehensive Plan’s primary purpose is to benefit the community as a whole; one way it does so is to direct and encourage more intense development to designated Centers in order to preserve and protect the lower-intensity uses outside of designated centers. The request conflicts directly with this purpose.

D. **Criterion D:** The requested zone (MX-M) includes a greater variety of non-residential uses than the existing MX-L zone. In MX-L, only General Retail, Small is allowed. In MX-M, General Retail, Small and General Retail, Medium are allowed. General Retail, Large is a conditional use in MX-M.

Other notable differences between the two zones (mixed-use low intensity and mixed-use medium intensity) are: a bar, light vehicle fueling station, and light vehicle sales and rental, mortuary, pawn shop, and transit facility are conditional uses in the MX-L zone but become permissive uses in the MX-M zone. Hospital, catering service, and nightclub are not allowed in MX-L, but are permissive in MX-M. Liquor retail is an accessory use in MX-L.
and a permissive use in MX-M. A drive-through is a conditional use in MX-L and an accessory use in MX-M.

The following uses, proposed to be permissive, are often considered harmful to adjacent property, the neighborhood, or the community: bar, light vehicle fueling station, light vehicle sales and rental, pawn shop, nightclub, liquor retail, and drive through. The distance separation between the subject site (the northerly 436.01 feet of Lot 1) and the nearest low-density residential use (R-1B zoned lots) is approximately 75 feet, not 540 feet. Even with use-specific standards, the potential for harmful effects on adjacent property and the neighborhood could be more than originally represented. Therefore, even with use-specific standards, however, there could still be a potential for harmful effects on adjacent property and the neighborhood because of the moderate-intensity uses in this context that would become permissive could be more than originally represented.

The greater harm, however, would be to the community in the area and the City as a whole. Upzoning approximately 23.16 acres to MX-M, outside of the designated Volcano Heights Urban Center that already contains MX-M zoning, would facilitate development of medium-intensity uses outside of the designated activity center. This would be contrary to the Comprehensive Plan’s establishment of designated activity centers to absorb more intense development so that the areas characterized by lower-intensity development can be protected and quality of life supported.

E. Criterion E: Infrastructure necessary for the subject site’s development is in place, and infrastructure in the area continues to develop. The City Council passed legislation that prioritizes the intersection of Paseo del Norte and Unser Blvds., which is at the heart of the Volcano Heights Urban Center. Bill No. R-18-84 was enacted in November 2018 and includes roadway infrastructure in the City’s capital implementation program (CIP).

F. Criterion F: The applicant’s justification relies on location next to Paseo del Norte Blvd. NW, a commuter corridor, to support the claim that moderate-intensity commercial uses should develop on the subject site. However, the applicant has not adequately demonstrated that the request furthers a preponderance of applicable Comprehensive Plan Goals and policies, and that is would be more advantageous to the community than the subject site’s current zoning.

G. Criterion G: The applicant’s justification is based predominantly on the economic consideration of wanting to sell the subject site with a more-intense zoning descriptor. The request conflicts significantly with activity center policies and is not more advantageous to the community as a whole than the current zoning.

H. Criterion H: The request would not apply a zone district different from surrounding zone districts to one small area. The subject site is approximately 23.16 acres in size and does not constitute a strip of land along a street.

14. The affected neighborhood organizations are the Paradise Hills Civic Association and the Westside Coalition were required to be notified, which the applicant did. Property owners
within 100 feet of the subject site were also notified, as required. Though the applicant’s letter refers to the portion of Lot 1 north of the vacated ROW of Valiente Rd. NW, because there is no platted lot line, all of Lot 1 is required to be buffered for notification purposes. The corrected buffer resulted in three more parties required to be notified, which the applicant did more than 15 days before the public hearing, as required.

15. A pre-application facilitated meeting was held on July 17, 2019. Neighbors are opposed to the request and expressed several concerns that include consequences of the proposed zone change and overall effect on the area, range of uses that would be allowed, possibility of big box stores, increased building height affecting views, loss of character, and diminished property values. The applicant stated that the lots are not large enough for big-box stores and that the applicants are not developers, but want to sell the land.

16. Staff received letters of opposition from the Open Space Division and the National Park Service. The Open Space Division is concerned that the request may have adverse effects on the Major Public Open Space nearby and about future development near sensitive lands. The National Park Service is concerned that the request could have an adverse effect on the Petroglyph National Monument, and that the MX-M zone would allow additional uses that would be incompatible with the sensitivity of the cultural resources nearby. They prefer commercial development further from the monument to avoid such impacts.

17. Three neighbors, who share the same concerns, submitted letters of opposition. They believe that many uses allowed under the MX-M designation are incompatible with the area’s culturally sensitive nature and character protected by CPO-12. They believe that the existing zoning can provide for neighborhood-serving needs and that the zoning established by the IDO shouldn’t be readily discarded.

RECOMMENDATION - RZ-2019-00043, September 12, 2019

That a recommendation of DENIAL of Project #: 2019-002663, Case #: 2019-00043, a zone change from MX-L to MX-M, for the northerly 436.01 feet of Lot 1, Block 2, and Lot 1A-1, Block 3, Volcano Cliffs Unit 26, an approximately 23.16 acre site located at the southwestern corner and the southeastern corner of the intersection of Paseo del Norte Blvd. NW and Kimmick Dr. NW, be forwarded to the City Council based on the preceding Findings.

CITY OF ALBUQUERQUE AGENCY COMMENTS

PLANNING DEPARTMENT

Zoning Enforcement

Long Range Planning
The request is for a Zone Map Amendment from MX-L to MX-M to allow for a light vehicle fueling station and a convenience store with liquor sales, which would be considered small general retail and liquor retail uses under the IDO. This site is adjacent to the Urban Center designated for Volcano Heights in the Comprehensive Plan. The zoning pattern north of Paseo del Norte includes NR-BP and MX-M, appropriate for the more intense uses expected in the Urban Center. Zoning south of Paseo del Norte was designated to be lower-intensity mixed-use to be compatible with the single-family zoning to the south. The Environmental Planning Commission will need to carefully consider whether an upzone in this area is appropriate south of Paseo del Norte or whether such a zone change might compete with the more intense zoning to the north where the City has designated the Urban Center as the more appropriate place for more intense uses.

The Environmental Planning Commission considerations should also address the discrepancy in the application between the applicant’s analysis, which only covers the northern portion of Tract 1, and the legal description of the zone map amendment request, which includes the entire tract.

Should the zone map amendment be approved, this site would require an amendment to the existing site plan, which only allows office and townhouse uses. The site would also require a minor subdivision to establish a zone boundary for the northern half of Tract 1, Block 2.

COMMENTS FROM OTHER AGENCIES

BERNALILLO COUNTY

ALBUQUERQUE METROPOLITAN ARROYO FLOOD CONTROL AUTHORITY

AMAFCA has no objections to the EPC case being heard in September.
ALBUQUERQUE PUBLIC SCHOOLS

APS Case Comments: A zone change from MX-L (Mixed Use Low Intensity) to MX-M (Mixed Use Moderate Intensity) creates a potential of residential development until property is developed for probable uses. In the future, should there be on-site residential development on this property, at Kimmick Drive between Paseo del Norte NW and Rosa Parks NW, the following APS schools will be impacted: Sunset View Elementary School, Tony Hillerman Middle School, and Volcano Vista High School. Currently, all three of these schools are operating at enrollments above capacity and development will be a strain on the schools.

School Capacity and Enrollment

<table>
<thead>
<tr>
<th>School</th>
<th>2018-2019 40th Day Enrollment</th>
<th>Facility Capacity</th>
<th>Space Available</th>

</tr>
<tr>
<td>Volcano Vista High School</td>
<td>2223</td>
<td>2202</td>
<td>-21</td>
</tr>
</tbody>
</table>

To address overcrowding at schools, APS will explore various alternatives. A combination or all of the following options may be utilized to relieve overcrowded schools.

- Provide new capacity (long term solution)
  - Construct new schools or additions
  - Add portables
  - Use of non-classroom spaces for temporary classrooms
  - Lease facilities
  - Use other public facilities

- Improve facility efficiency (short term solution)
  - Schedule Changes
    - Double sessions
    - Multi-track year-round
  - Other
    - Float teachers (flex schedule)

- Shift students to Schools with Capacity (short term solution)
  - Boundary Adjustments / Busing
  - Grade reconfiguration

- Combination of above strategies

All planned additions to existing educational facilities are contingent upon taxpayer approval.

MID-REGION COUNCIL OF GOVERNMENTS

MRMPO has no adverse comments. For informational purposes:

- The Long Range Roadway System indicates Paseo del Norte is to be a Regional Principal Arterial, Kimmick Drive is a proposed Minor Collector, and Rosa Parks Road is proposed to be a Major Collector.
• The Long Range Bikeway System indicates a proposed Paved Trail and Bike Lane along Paseo del Norte, and a proposed Bike Lane on Kimmick Drive and Rosa Parks Road.

• Paseo del Norte is a limited access facility. Please contact Dave Pennella at 724-3621 or dpennella@mrcog-nm.gov with any questions about access control.

• Paseo del Norte is an Intelligent Transportation System (ITS) Priority Corridor. Please consult the reviewing agency's Traffic Engineering and/or ITS Department with any questions regarding ITS infrastructure.

MIDDLE RIO GRANDE CONSERVANCY DISTRICT

PUBLIC SERVICE COMPANY OF NEW MEXICO

1. There is an existing PNM underground distribution line along the east side of the subject property with associated above ground equipment at Kimmick NW and Valiente NW. It is the applicant’s obligation to determine if existing utility easements or rights-of-way are located on or adjacent to the property and to abide by any conditions or terms of those easements.

2. When construction occurs, it will be necessary for the applicant to coordinate with PNM to ensure that compliance with the National Electrical Safety Code for both horizontal and vertical clearances are met between the existing distribution line and the proposed building footprint. The customer must also ensure applicable OSHA safe working clearance requirements for employees and equipment with respect to PNM’s lines are met during and after construction of the building.

3. It will be necessary for the developer to contact the PNM New Service Delivery Department when the site is to be developed in order to coordinate electric service. Contact:

ZONING

Please refer to the Integrated Development Ordinance (IDO) for specifics regarding the MX-L and MX-M zones.
HISTORY
ORDINANCE

ANNEXING ALL OF UNITS 2 THROUGH 27, VOLCANO CLIFFS
SUBDIVISIONS NOT PRESENTLY WITHIN THE BOUNDARIES OF THE
CITY OF ALBUQUERQUE; AND AMENDING THE ZONE MAP OF
THE CITY OF ALBUQUERQUE AS ADOPTED IN ORDINANCE NO.
80-1975, AS AMENDED.

BE IT ORDAINED BY THE COUNCIL, THE GOVERNING BODY OF
THE CITY OF ALBUQUERQUE:

Section 1. Area. Since this annexation, submitted as a petition
by the property owners, can meet the policies set out by Council
Enactment No. 254-1980 for annexation of areas designated by the
Albuquerque/Bernalillo County Comprehensive Plan as Established
Urban and Developing Urban, the following described territory is
hereby annexed to and made a part of the City of Albuquerque for all
purposes upon filing a copy of this ordinance and map of the territory
so annexed in the Office of the County Clerk of Bernalillo County,
New Mexico, and publication of this ordinance according to law:

A. The unannexed portion of Units 2 and 3 of the
Volcano Cliffs Subdivisions, as filed in the Office of the County Clerk
of Bernalillo County, New Mexico, on February 15, 1966.

B. Units 4 and 5 of the Volcano Cliffs Subdivisions, as
filed in the Office of the County Clerk of Bernalillo County, New
Mexico, on November 1, 1967.

C. Unit 6 of the Volcano Cliffs Subdivisions, as filed in
the Office of the County Clerk of Bernalillo County, New Mexico, on
June 18, 1970.
D. The unannexed portion of Unit 7 of the Volcano Cliffs Subdivisions, as filed in the Office of the County Clerk of Bernalillo County, New Mexico, on September 23, 1969.

E. Units 8, 9, and 10 of the Volcano Cliffs Subdivision, as filed in the Office of the County Clerk of Bernalillo County, New Mexico, on July 29, 1970.

F. Unit 11 of the Volcano Cliffs Subdivisions, as filed in the Office of the County Clerk of Bernalillo County, New Mexico, on August 25, 1970.

G. Units 12, 13, 14, and 15 of the Volcano Cliffs Subdivisions, as filed in the Office of the County Clerk of Bernalillo County, New Mexico, on July 29, 1970.

H. Unit 16 of the Volcano Cliffs Subdivisions, as filed in the Office of the County Clerk of Bernalillo County, New Mexico, on March 17, 1971.

I. Unit 17 of the Volcano Cliffs Subdivisions, as filed in the Office of the County Clerk of Bernalillo County, New Mexico, on April 12, 1971.

J. Unit 18 of the Volcano Cliffs Subdivisions, as filed in the Office of the County Clerk of Bernalillo County, New Mexico, on January 19, 1971.

K. Unit 19 of the Volcano Cliffs Subdivisions, as filed in the Office of the County Clerk of Bernalillo County, New Mexico, on December 14, 1970.

L. Unit 20 of the Volcano Cliffs Subdivisions, as filed in the Office of the County Clerk of Bernalillo County, New Mexico, on August 9, 1971.

M. Unit 21 of the Volcano Cliffs Subdivisions, as filed in the Office of the County Clerk of Bernalillo County, New Mexico, on November 15, 1971.

N. Unit 22 of the Volcano Cliffs Subdivisions, as filed in the Office of the County Clerk of Bernalillo County, New Mexico, on July 9, 1975.
O. Unit 23 of the Volcano Cliffs Subdivision, as filed in
the Office of the County Clerk of Bernalillo County, New Mexico, on
November 15, 1971.

P. Unit 24 of the Volcano Cliffs Subdivisions, as filed in
the Office of the County Clerk of Bernalillo County, New Mexico, on
December 16, 1970.

Q. Unit 25 of the Volcano Cliffs Subdivisions, as filed in
the Office of the County Clerk of Bernalillo County, New Mexico, on

R. Unit 26 of the Volcano Cliffs Subdivisions, as filed in
the Office of the County Clerk of Bernalillo County, New Mexico, on

S. Unit 27 of the Volcano Cliffs Subdivisions, as filed in
the Office of the County Clerk of Bernalillo County, New Mexico, on
November 15, 1971.

Section 2. Conditions.

Provided, however, that this annexation is conditional upon and shall
not be published until the following two conditions have been met:

A. Title. The City Attorney is satisfied that title to all
public right-of-way and parks shown on the plats is conveyed to the
City of Albuquerque, and the easements shown dedicated to the
appropriate public and utility bodies; and

B. Capital Expenditures. The applicants have agreed in
writing to a statement prepared by representatives of the Mayor,
indicating that necessary major streets, water, sanitary sewer, and
storm water handling facilities which require any significant City
expenditure can be made available at an indefinite time which is a
substantial number of years in the future; this approach assumes a
normal distribution of costs between special assessment districts and
other funding sources, except all exceptional costs of providing such
capital expenditures, resulting from the rock on the site, shall be
borne by the property owners.

Section 3. Flood Hazard. The City's Flood Hazard Area Zoning
Ordinance precludes new construction or substantial improvements hereafter undertaken on lands within a flood hazard area except in conformance with that ordinance; all or substantial parts of some lots in the area being annexed are in the flood hazard area defined by the extent of a 100 year storm's flooding. The City will not allow alteration of the 100-year flood plan except where such is consistent with an approved comprehensive drainage report. In the area above the escarpment, not all of the 100-year flood plan has been identified as yet.

Section 4. Zoning. The zone map referred to in Ordinance No. 80-1975, as amended, is hereby amended as follows: Establishment of R-1 zoning for the area described in Section 1 above.

Section 5. Severability Clause. If any section, subsection, sentence, clause, word or phrase of this ordinance is for any reason held to be unconstitutional or otherwise invalid by any court of competent jurisdiction, such decision shall not affect the validity of the remaining portions of this ordinance. The Council, the Governing Body of the City of Albuquerque, hereby declares that it would have passed this ordinance and each section, subsection, sentence, clause, word, or phrase thereof irrespective of any one or more sections, subsections, sentences, clauses, words, or phrases being declared unconstitutional or otherwise invalid.

Section 6. Effective Date and Publication. This ordinance shall become effective five days after publication in full.
PASSED AND ADOPTED THIS 11th day of December, 1980.

BY A VOTE OF 9 FOR AND 0 AGAINST

Marion M. Cottrell, President
City Council

APPROVED this 2nd day of January, 1981.

David Rusk, Mayor
City of Albuquerque

Please refer to the EPC hearing schedule for public hearing dates and deadlines. Your attendance is required.

A single PDF file of the complete application including all plans and documents being submitted must be emailed to PLNDRS@cabc.gov prior to making a submittal. Zipped files or those over 9 MB cannot be delivered via email, in which case the PDF must be provided on a CD.

INFORMATION REQUIRED FOR ALL POLICY DECISIONS (Except where noted)

- Interpreter Needed for Hearing? No, if yes, indicate language.
- Proof of Pre-Application Meeting with City staff per IDO Section 14-16-6-4(B)
- Letter of authorization from the property owner if application is submitted by an agent
- Traffic Impact Study (TIS) form (not required for Amendment to IDO Text)
- Zone Atlas map with the entire site/plan amendment area clearly outlined and labeled (not required for Amendment to IDO Text)

- NOTE: For Annexation of Land, the Zone Atlas must show that the site is contiguous to City limits.

ADOPTION OR AMENDMENT OF COMPREHENSIVE PLAN

- Plan, or part of plan, to be amended with changes noted and marked
- Letter describing, explaining, and justifying the request per the criteria in IDO Sections 14-16-6-7(A)(3) or 14-16-6-7(B)(3), as applicable
- Required notices with content per IDO Section 14-16-6-4(K)(6)
- Office of Neighborhood Coordination notice inquiry response, notifying letter, and proof of first class mailing
- Buffer map and list of property owners within 100 feet (excluding public rights-of-way), notifying letter, and proof of first class mailing

AMENDMENT TO IDO TEXT

- Section(s) of the Integrated Development Ordinance to be amended with changes noted and marked
- Justification letter describing, explaining, and justifying the request per the criteria in IDO Section 14-16-6-7(D)(3)
- Required notices with content per IDO Section 14-16-6-4(K)(6)
- Office of Neighborhood Coordination notice inquiry response, notifying letter, and proof of first class mailing
- Buffer map and list of property owners within 100 feet (excluding public rights-of-way), notifying letter, and proof of first class mailing

ZONING MAP AMENDMENT - EPC

- Proof of Neighborhood Meeting per IDO Section 14-16-6-4(C)
- Letter describing, explaining, and justifying the request per the criteria in IDO Section 14-16-6-7(F)(3) or Section 14-16-6-7(G)(3), as applicable
- Required notices with content per IDO Section 14-16-6-4(K)(6)
- Office of Neighborhood Coordination notice inquiry response, notifying letter, and proof of first class mailing
- Buffer map and list of property owners within 100 feet (excluding public rights-of-way), notifying letter, and proof of first class mailing

ZONING MAP AMENDMENT - COUNCIL

- Proof of Neighborhood Meeting per IDO Section 14-16-6-4(C)
- Letter describing, explaining, and justifying the request per the criteria in IDO Section 14-16-6-7(F)(3) or Section 14-16-6-7(G)(3), as applicable
- Required notices with content per IDO Section 14-16-6-4(K)(6)
- Office of Neighborhood Coordination notice inquiry response, notifying letter, and proof of first class mailing
- Buffer map and list of property owners within 100 feet (excluding public rights-of-way), notifying letter, and proof of first class mailing
- Sign Posting Agreement

ANNEXATION OF LAND

- Application for Zoning Map Amendment Establishment of zoning must be applied for simultaneously with Annexation of Land.
- Petition for Annexation Form and necessary attachments
- Letter describing, explaining, and justifying the request per the criteria in IDO Section 14-16-6-7(E)(3)
- Board of County Commissioners (BCC) Notice of Decision

I, the applicant or agent, acknowledge that if any required information is not submitted with this application, the application will not be scheduled for a public meeting or hearing, if required, or otherwise processed until it is complete.

RE: Paseo del Norte and Kimmick NW – Request for Zoning Map Amendment

Dear Mr. Chairman:

The purpose of this letter is to authorize Consensus Planning, Inc. to act as our agent on a zone change request from MX-L to MX-M for the property located at the southeast and southwest corners of Paseo del Norte and Kimmick Drive NW.

The property is legally described as a portion of Tract 3, Block 2, Volcano Cliffs Subdivision and Lot 1A-1, Block 3, Volcano Cliffs Subdivision. Group II U26 VC, LLC and Volcano Cliffs, Inc. are the owners of these two properties.

Thank you for your consideration,

Sincerely,

RE: Paseo del Norte and Kimmick — Request for Zoning Map Amendment

Dear Mr. Chairman:

On behalf of Group II U26 VC, LLC and Volcano Cliffs, Inc., Consensus Planning submits this request for approval of a Zoning Map Amendment — EPC. The purpose of this letter is to provide justification of our request for a Zoning Map Amendment from the existing MX-L zone to the MX-M zone by responding to the decision criteria specified in Integrated Development Ordinance (IDO) Section 14-16-6-7(F)(3). The subject site is located on the south side of Paseo del Norte on both the east and west sides of Kimmick Drive NW (see Figure 1).

Figure 1. Subject site (bounded in red) and context at the Paseo and Kimmick intersection.

PROJECT CONTEXT

The subject site is comprised of two pieces of property totalling approximately 15.97 acres at the southeast and southwest corners of Paseo del Norte and Kimmick Drive NW. The parcel on the west side of Kimmick is an approximately 8.68-acre portion of Tract 1, Block 2, Volcano Cliffs Unit 26. The parcel on the east side of Kimmick is 7.29 acres and legally described as Lot 1A-1, Block 3, Volcano Cliffs Unit 26. Both parcels are currently vacant, as is most of the surrounding area. Infrastructure does exist around the subject site, including a traffic signal at Paseo del Norte and Kimmick, as the owners paid for it as part of Special Assessment District 228. If the zoning is approved, the Applicant will replat Tract 1 in order to create a lot line and zoning boundary.
The property is within the Northwest Mesa Community Planning Area and is designated as an "Area of Change" in the 2017 Albuquerque/Bernalillo County Comprehensive Plan. Adjacent to the site, Paseo del Norte is designated as a Commuter Corridor and overlaid as a future Premium Transit Corridor connecting the Journal Center with the Volcano Heights Urban Center and Rio Rancho.

Unser Boulevard, to the west of the subject site, is also a Commuter Corridor, and Golf Course Road, located below the escarpment to the east, is a Major Transit Corridor. Kimmick Drive at the location of the subject site is approximately halfway between these two other major roadways and is the only signalized intersection in this stretch of Paseo del Norte.

No development has occurred along this stretch of Paseo del Norte between the escarpment up to Universe Boulevard to the west. This is largely due to fragmented land ownership, as well as the difficulty and cost of installing the necessary infrastructure in the rocky terrain. New residential subdivisions as part of the La Cuentista development are being constructed to the south of the subject property, as well as numerous other homes on original Volcano Cliffs lots that along with the subject property are part of a Special Assessment District. These property owners worked together in order to extend the infrastructure needed for development in this area south of Paseo del Norte. No infrastructure exists on the north side and may not exist for quite a long time.

In addition to the residential to the south, there is Major Public Open Space approximately 520+ feet to the south and over 1000 feet east from the subject site, which includes the Piedras Marcadas Canyon of Petroglyph National Monument.

*Figure 2. Land Use Context (subject site bounded in red)*

The current zoning of the subject site is MX-L, Mixed-Use Low Intensity. There is additional MX-L zoning to the south and east, as well as R-ML, Residential Multi-family Low Density that transitions to R-1B, R-1D, NR-PO-B, and NR-PO-C. These zone categories were established upon the effective date of the IDO based on the previous zoning from the Volcano Cliffs Sector Development Plan.
(Mixed-Use, Urban Residential, and Large Lot Residential). The R-1B and NR-PO-C of the La Cuentista development were previously zoned R-1.

Properties on the north side of Paseo del Norte are zoned MX-M, MX-H, and NR-BP with a buffer zone of MX-T to the east before reaching the NR-PO-B of the Petroglyph National Monument.

### TABLE 1. SURROUNDING ZONING & LAND USE

**Figure 3. Existing Zoning (subject site bounded in red)**

**SUMMARY OF REQUEST**

The Applicant has owned these properties for many years, but there has been little interest in developing in this area. Now with access to Paseo del Norte at the signalized intersection and utilities installed, it is the opportune time to capitalize on these investments. Situated along a major Commuter Corridor, more intense land uses would make the property more marketable and ultimately respond better to its location along a regional principal arterial roadway adjacent to an Urban Center.

To achieve this, the Applicant is requesting MX-M, Mixed-Use Medium Intensity zoning for the subject site while maintaining the existing MX-L on their properties to the south and east. This remaining MX-L and the adjacent R-ML will continue to provide a step-down in intensity and buffer to the low density single-family residential and Major Public Open Space farther south and east.
Examples of uses that are currently conditional or prohibited by the existing MX-L zoning, but are customarily found along major Corridors such as Paseo del Norte, include tap room or tasting room; light vehicle fueling station; general retail, medium (more than 10,000 square feet); grocery stores (over 15,000 square feet); liquor retail; and drive-through facilities. The applicant has received interest for some of these uses from the MX-M zone and is processing this zone change to facilitate appropriate development for the area. MX-M uses are compatible with the surrounding area, zoning, and uses given the context and is supported by Comprehensive Plan goals and policies for development along Corridors.

In addition to the Zone Change request, the Applicant intends to eliminate or void the Site Development Plan for Subdivision that was previously approved for Tract 1 on the southwest corner of Paseo del Norte and Kimmick. This prior approval, originally acted on by the Development Review Board in accordance with the Sector Development Plan, includes additional and sometime duplicative design standards when compared to the IDO. The intent of the Applicant is to have any future development of these properties follow the processes and standards of the IDO.

JUSTIFICATION

This request for a Zoning Map Amendment complies with the criteria outlined in Section 14-16-6-7(F)(3) of the Integrated Development Ordinance (IDO) as follows:

6-7(F)(3)(a) The proposed zone change is consistent with the health, safety, and general welfare of the City as shown by furthering (and not being in conflict with) a preponderance of applicable Goals and Policies in the ABC Comp Plan, as amended, and other applicable plans adopted by the City.

Applicant's Response: The proposed zone change is consistent with the health, safety, and general welfare of the City as shown by furthering a preponderance of Comprehensive Plan policies related to Centers and Corridors, Development Areas, Complete Communities, and Land Use, as follows:

Comprehensive Plan Policies (Applicant responses in italics):

Policy 4.1.2 Identity and Design: Protect the identity and cohesiveness of neighborhoods by ensuring the appropriate scale and location of development, mix of uses, and character of building design.

Applicant Response: The request protects the identity and cohesiveness of the nearby neighborhoods, La Cuentista and Petroglyph Estates, because the zone change ensures the appropriate scale and location of development, mix of uses, and character of building design by proposing the MX-M zone to the land that is abutting Paseo del Norte while leaving a buffer of MX-L and R-ML at least 500 feet wide between the proposed MX-M and the developed neighborhoods.

The request also further this policy because the MX-M zone provides the mix of uses and scale and location of development appropriate for land located along a Commuter Corridor and near a signalized intersection at the edge of the Volcano Heights Urban Center, which includes NR-BP zoning adjacent to the area of the proposed change.
Goal 5.1 Centers & Corridors: Grow as a community of strong Centers connected by a multi-modal network of Corridors.

Policy 5.1.1 Desired Growth: Capture regional growth in Centers and Corridors to help shape the built environment into a sustainable development pattern.

- a) Create walkable places that provide opportunities to live, work, learn, shop, and play.
- c) Encourage employment density, compact development, redevelopment, and infill in Centers and Corridors as the most appropriate areas to accommodate growth over time and discourage the need for development at the urban edge.

Applicant Response: The request will help Albuquerque grow as a community of strong Centers connected by a multi-modal network of Corridors because the subject site abuts a designated Commuter Corridor that is also a future Premium Transit Corridor, and a zone change that allows for more variety and intensity of uses along those Corridors will help fulfill the desire for regional growth, employment density, and infill development to occur in these areas. While the surrounding area is largely vacant, there is development farther away in all directions. Much of the vacant land is the Comprehensive Plan-designated Volcano Heights Urban Center, so promoting development that may lead to continued infill and development of the adjacent Center is beneficial to the community at large. Development of the site with a shopping center and supportive uses would provide new opportunities for nearby residents to work, shop, and play closer to their homes and potentially by walking rather than driving.

Policy 5.1.2 Development Areas: Direct more intense growth to Centers and Corridors and use Development Areas to establish and maintain appropriate density and scale of development within areas that should be more stable.

Applicant Response: The request directs more intense growth to subject site, which is located along a designated Corridor and is considered an Area of Change. The request furthers this policy because changing the zoning for a portion of the property from MX-L to MX-M will allow for that more intense growth to occur while maintaining the appropriate density and scale of development within other nearby areas that are not located along the Commuter Corridor and are considered Areas of Consistency.

Policy 5.1.8 Premium Transit Corridors: Foster corridors that prioritize high-capacity, high-frequency transit service, with mixed-use, transit-oriented development within walking distance of transit stations.

- d) Apply Premium Transit policies after station locations have been identified and project funding has been allocated.

Applicant Response: The subject site is located along Paseo del Norte, which is designated as a future Premium Transit Corridor, and turns north just west of the subject site bisecting the adjacent Urban Center (Source: Paseo del Norte High Capacity Transit Study Alternatives Analysis Report (2014), prepared for the Rio Metro Regional Transit District). While funding of the "locally preferred alternative" from the study has not yet been allocated, the Applicant believes...
changing the zoning from MX-L to MX-M supports the near-term development of the site in its current automobile-oriented Commuter Corridor context while also supporting more intense mixed-use development that would be appropriate and desirable once that future high capacity service is finally established.

Policy 5.1.12 Commuter Corridors: Allow auto-oriented development along Commuter Corridors that are higher-speed and higher-traffic volume routes for people going across town, often as limited-access roadways.

a) Allow auto-oriented, single-use development, such as strip retail, large retail facilities, and business and institutional campuses along Commuter Corridors.
b) Buffer residential land uses adjacent to Commuter Corridors.
c) Support traffic flow by limiting new curb cuts, encouraging shared access of driveways and business access roads, or providing access from perpendicular local roads.

Applicant Response: The request for a change from MX-L to MX-M supports this policy because it will allow more intense auto-oriented uses such as drive-through facilities and larger retail stores along Paseo del Norte, which is a designated Commuter Corridor with a posted speed limit of 35 miles per hour past the subject site. East of the subject site, below the escarpment, the speed limit is 45 miles per hour where the road cross section is more complete. In addition, the request considers the surrounding residential zoning and maintains the existing MX-L as a buffer to the lower-density residential land uses developing to the south, as well as other residential lots and the Petroglyph National Monument approximately 785 feet to the east.

Goal 5.2 Complete Communities: Foster communities where residents can live, work, learn, shop, and play together.

Policy 5.2.1 Land Uses: Create healthy, sustainable, and distinct communities with a mix of uses that are conveniently accessible from surrounding neighborhoods.

a) Encourage development and redevelopment that brings goods, services, and amenities within walking and biking distance of neighborhoods and promotes good access for all residents.
b) Encourage development that offers choice in transportation, work areas, and lifestyles.
e) Create healthy, sustainable communities with a mix of uses that are conveniently accessible from surrounding neighborhoods.
g) Locate quality commercial development and redevelopment in existing commercial zones and designated Centers and Corridors as follows:
   ii. In larger area-wide shopping centers located near intersections of arterial streets and provided with access via transit;
   n) Encourage more productive use of vacant lots and under-utilized lots, including surface parking.

Applicant Response: The request furthers this goal and policy because it will foster a community where residents can live, work, learn, shop, and play together. The request allows for development of quality commercial development at the intersection of an arterial street with a future collector that will have transit
access in the future along Paseo del Norte. Allowing for larger retail and grocery
development among other uses in the MX-M zone will catalyze future
development of a currently vacant site that will bring new goods, services, and
amenities to the northwest part of the City.

Development of MX-M also furthers this policy because it will encourage
development of a wide mix of uses conveniently accessible from the surrounding
neighborhoods to the south and future higher density residential uses on the
adjacent R-ML properties and within the Urban Center. Many neighbors that
must now drive two miles and farther for the uses allowed by the MX-M zoning
will have the option to walk or bike to a new commercial retail and services. Good
access will be available via Paseo del Norte and Kimmick and the location near
residences, along a Commuter Corridor, and future Premium Transit offers
choice in transportation, work areas, and lifestyles for all residents.

Goal 5.3 Efficient Development Patterns: Promote development patterns
that maximize the utility of existing infrastructure and public facilities and
the efficient use of land to support the public good.

Policy 5.3.1 Infill Development: Support additional growth in areas with
existing infrastructure and public facilities.

Applicant Response: The request furthers this goal and policy because the
change would support development of the site, which while in an area that is
mostly undeveloped, has access to existing infrastructure including multiple-lane
arterial roadways, storm drainage facilities, water and sewer, and other utilities
unlike those properties located in the adjacent Urban Center. Development of the
subject site will maximize use of this infrastructure to support the public good and
may help catalyze additional development in this area.

Goal 5.4 Jobs-Housing Balance, Balance jobs and housing by encouraging
residential growth near employment across the region and prioritizing
growth west of the Rio Grande.

Policy 5.4.2 West Side Jobs: Foster employment opportunities on the West
Side.

a) Ensure adequate capacity of land zoned for commercial, office, and
industrial uses west of the Rio Grande to support additional job
growth.

Applicant Response: Outside of the adjacent Urban Center, there is very little
undeveloped land that allows higher intensity land uses in the Northwest Mesa
Community Planning Area. As previously discussed, the Volcano Heights Urban
Center lacks the utilities and infrastructure at this time to support development.
Changing the zoning of the subject site to MX-M helps further this goal and policy
because it prioritizes growth west of the Rio Grande. This change also ensures
there is adequate capacity of readily developable land that is zoned for moderate
intensity commercial and office land uses that will support job growth on the West
Side.

Goal 5.6 City Development Areas: Encourage and direct growth to Areas of
Change where it is expected and desired and ensure that development in
and near Areas of Consistency reinforces the character and intensity of the
surrounding area.
Policy 5.6.2 Areas of Change: Direct growth and more intense development to Centers, Corridors, industrial and business parks, and Metropolitan Redevelopment Areas where change is encouraged.

b) Encourage development that expands employment opportunities.

c) Foster a range of housing options at various densities according to each Center and Corridor type.

d) Encourage higher-density housing and mixed-use development as appropriate land uses that support transit and commercial and retail uses.

e) Encourage job creation in business and industrial parks, near freight routes, and where adequate transitions and buffers can be provided to protect abutting residential uses.

g) Encourage development where adequate infrastructure and community services exist.

Applicant Response: The request furthers this goal and policy because it directs more intense growth to a site designated as an Area of Change adjacent to an Urban Center and Commuter Corridor. Allowing a greater variety of moderate intensity commercial uses and higher density housing on the subject site will expand employment opportunities in the area and support the existing and future development of the surrounding properties including the Urban Center, and ultimately, support future higher-capacity transit service as desired along Paseo del Norte. In addition, the subject site is located adjacent to one of a limited number of truck freight routes in the northwest part of Albuquerque and the Applicant has carefully considered the transitions and buffers to neighboring residential uses by leaving approximately 9.1 acres of property to the south and 6.42 acres to the east of the subject site with the existing MX-L zoning. As previously mentioned, the request will encourage development where adequate infrastructure and community services exist.

Policy 7.6.2 Transportation Infrastructure: Match infrastructure capacity, design, and maintenance to the development context, expected land use intensities of abutting development, and all travel modes.

Applicant Response: The request furthers this policy because it matches the proposed land use intensity to the abutting regional principal arterial and other more intense zoning categories along this important Commuter Corridor. The City of Albuquerque has made the expansion of Paseo del Norte a high priority and changing the zoning of the subject site to MX-M will add complementary uses to the type of roadway planned to abut the subject site. Paseo del Norte is a limited access roadway, so future development of the subject site will coordinate auto access and circulation using Kimmick, a future Collector street, and its signalized intersection with Paseo del Norte.

Goal 8.1 Placemaking: Create places where business and talent will stay and thrive.

Policy 8.1.1 Diverse Places: Foster a range of interesting places and contexts with different development intensities, densities, uses, and building scale to encourage economic development opportunities.

a) Invest in Centers and Corridors to concentrate a variety of employment opportunities for a range of occupational skills and salary levels.
Applicant Response: Changing the zoning of the subject site to MX-M would further this goal and policy because it fosters development consistent with the location along a Commuter Corridor, future Premium Transit Corridor, and adjacent to an Urban Center. Moderate-intensity commercial and mixed-use development will result in a variety of employment opportunities for a range of skills and salary levels.

Overall, as evident based on the above goals and policies, the proposed MX-M zone will allow for uses compatible with the site's location along a Commuter Corridor and adjacent to an Urban Center. The request meets Criterion 6-7(F)(3)(a) by being consistent with the health, safety, and general welfare by providing additional services and medium-intensity commercial services and jobs in closer proximity to area residents while using existing infrastructure.

6-7(F)(3)(b) If the proposed amendment is located wholly or partially in an Area of Consistency (as shown in the ABC Comp Plan, as amended), the applicant has demonstrated that the new zone would clearly reinforce or strengthen the established character of the surrounding Area of Consistency and would not permit development that is significantly different from that character. The applicant must also demonstrate that the existing zoning is inappropriate because it meets any of the following criteria:

Applicant's Response: The subject site is located wholly in an Area of Change, so this criterion does not apply.

6-7(F)(3)(c) If the proposed amendment is located wholly in an Area of Change (as shown in the ABC Comp Plan, as amended) and the applicant has demonstrated that the existing zoning is inappropriate because it meets at least one of the following criteria:
1. There was typographical or clerical error when the existing zone district was applied to the property.
2. There has been a significant change in neighborhood or community conditions affecting the site that justifies this request.
3. A different zone district is more advantageous to the community as articulated by the ABC Comp Plan, as amended (including implementation of patterns of land use, development density and intensity, and connectivity), and other applicable adopted City plan(s).

Applicant Response: The proposed amendment is located wholly in an Area of Change, and the existing zoning is inappropriate because a different zone district is more advantageous to the community as articulated by the ABC Comp Plan.

As described in this justification letter, the requested MX-M zone furthers numerous goals and policies of the Comprehensive Plan, including locating larger retail along automobile-oriented Commuter corridors, infill development and land use patterns, supporting future transit along Paseo del Norte, and helping shift the jobs-housing balance on the west side of the Rio Grande.

The Northwest Mesa has several locations of vacant MX-L zoned property, but nothing that allows more intense, even moderately intense, development outside of the Volcano Heights Urban Center, which lacks utilities and other infrastructure. The next nearest location similarly positioned to the subject site is
significantly far to the south near the intersection of Coors Boulevard and Saint Joseph’s Drive.

Approving a change to the MX-M zone in the proposed location will implement the appropriate pattern of land use, development density, intensity, and connectivity as desired by the community and described by the Comprehensive Plan. MX-M is more advantageous than MX-L because the existing zoning includes a variety of use restrictions that are not appropriate for a property located next to a Commuter Corridor, future Premium Transit Corridor, and Urban Center. It is unrealistic to assume that a site this large will successfully develop with all 10,000 square-foot or less individual businesses or without many of the other uses allowed by the MX-M zone, especially considering the Comprehensive Plan policies to allow automobile-oriented uses along Corridors like Paseo del Norte and promoting additional job opportunities for the West Side. When these uses develop, they will be conveniently accessible to the surrounding neighborhoods, as well as others driving on Paseo del Norte without requiring them to travel farther distances for the same goods and services.

Approving the requested change to MX-M would be a benefit to the entire Northwest Mesa Community and could spur other quality development to follow.

6-7(F)(3)(d) The zone change does not include permissive uses that would be harmful to the adjacent property, the neighborhood, or the community, unless the Use-specific Standards in Section 16-16-4-3 associated with that use will adequately mitigate those harmful impacts.

Applicant’s Response: None of the permissive uses in the MX-M zone will be harmful to the adjacent property, neighborhood, or community. The following table provides a comparison of the MX-L and MX-M zones, limited to those uses that are permissive in the MX-M zone that are not already permissively in the MX-L zone (i.e., all uses that are facilitated by this zone change that would not need to come back for Conditional Use approval later). Of these uses, many are already allowed conditionally in the MX-L zone, including light vehicle fueling station, tap room or tasting room, and drive-through or drive-up facility. Many of the uses also have use-specific standards that mitigate their impact, including separation requirements between residential uses. The distance separation between the subject site and the nearest low-density residential use is approximately 540 feet.

Some uses that are of concern to neighbors as noted in the pre-application meeting for this request include "big box" stores, home improvement stores, hospitals, warehouses, a temporary circus, drive-in theater, and group homes. Other than hospitals, most of these uses are Conditional and would require additional hearings with the Zoning Hearing Examiner should the Applicant choose to pursue any of them. Part of that hearing process would be a determination that the use would not be harmful to the neighbors.

Regarding “big box” stores, the IDO includes Use-specific Standards for "Large Retail Facilities" that adequately mitigate the impacts of their large size. Such facilities are also typically larger that the area proposed for this zone change request. Sites 12 to 20 acres are typical, which would require a site 50% larger than either of the areas proposed to become MX-M with this request. The location of Kimmick splitting the subject site in half and leaving the MX-L to the south limits the possibility of this site becoming a large retail facility.
Other Use-specific standards will ensure these uses are not harmful to adjacent neighbors. Hospitals in the MX-M zone are limited to 20 overnight beds and prohibit ambulance traffic, so size and noise concerns are minimized. Light vehicle fueling stations become a Conditional Use if proposed adjacent to residential, and light vehicle sales and rental includes extra screening requirements.

Liquor retail also becomes a Conditional Use if it is within 500 feet of any surrounding residential zone, including those that are still vacant. Pawn shops have a minimum separation requirement from other pawn shops. Lastly, drive-through facilities include a significant number of design standards. In addition, drive-throughs are Conditional Uses within 330 feet of Major Public Open Space and prohibited when adjacent to Major Public Open Space.

6-7(F)(3)(e) The City's existing infrastructure and public improvements, including but not limited to its street, trail, and sidewalk systems meet 1 of the following requirements:

1. Have adequate capacity to serve the development made possible by the change of zone.
2. Will have adequate capacity based on improvements for which the City has already approved and budgeted capital funds during the next calendar year.
3. Will have adequate capacity when the applicant fulfills its obligations under the IDO, the DPM, and/or an Infrastructure Improvements Agreement.
4. Will have adequate capacity when the City and the applicant have fulfilled their respective obligations under a City approved Development Agreement between the City and the applicant.
Applicant's Response: The proposed zone change will not require major and unprogrammed capital expenditures by the City. The Applicant has already helped pay for and install the infrastructure necessary for development of this site through Special Assessment District 228. It has access to adequate roadways, water, sewer, and storm water facilities. Additionally, any additional required extensions of these services for any specific development proposal will be the sole responsibility of the developer.

6-7(F)(3)(f) The applicant's justification for the requested zone change is not completely based on the property's location on a major street.

Applicant's Response: While the property is located adjacent to Paseo del Norte, a regional principal arterial, it is not the only reason for providing justification for the zone change to MX-M. As described earlier in this letter, the request is based on being more advantageous to the community as it furthers a preponderance of applicable Comprehensive Plan policies for Commuter Corridors, land use, infill development, jobs-housing balance, and economic development.

6-7(F)(3)(g) The applicant's justification is not based completely or predominantly on the cost of land or economic considerations.

Applicant's Response: While the economic considerations of the owner related to the marketability of the property are a consideration in this request, the justification is not completely or predominantly based on such considerations. The determining factor for this request is support for Comprehensive Plan policies making the request more advantageous to the community. The requested zone change will allow additional moderate-intensity commercial uses to develop that will provide additional needed services closer to residents in the northwest part of the City.

6-7(F)(3)(h) The zone change does not apply a zone district different from surrounding zone districts to one small area or one premises (i.e. create a "spot zone") or to a strip of land along a street (i.e. create a "strip zone") unless the change will clearly facilitate implementation of the ABC Comp Plan, as amended, and at least one of the following applies:

1. The area of the zone change is different from surrounding land because it can function as a transition between adjacent zone districts.
2. The site is not suitable for the uses allowed in any adjacent zone district due to topography, traffic, or special adverse land uses nearby.
3. The nature of structures already on the premises makes it unsuitable for the uses allowed in any adjacent zone district.
Applicant's Response: The zone change does not apply a zone district to one small area or one premise, or to a strip of land along a street. The subject site is nearly 16 acres in size and constitutes almost two entire block faces, so it is not a small area. Additionally, while not immediately adjacent to the subject site, there is a significant amount of MX-M zoned property in the area also along the Paseo del Norte and Unser Boulevard Commuter Corridors. Based on these two factors, the request does not constitute a spot zone. This request provides a rare opportunity to change the zoning on two sides of an existing intersection.

The request is also not considered a strip zone because while running parallel to Paseo del Norte, the two properties that constitute the subject site are over 400 feet deep. Oriented toward the signalized intersection of Kimmick with Paseo del Norte, they create a relatively large development node of higher intensity uses in an appropriate location with adequate transitions before getting to low-density residential uses.

NEIGHBORHOOD COORDINATION

As part of the IDO pre-application procedures, Consensus Planning notified the Westside Coalition, which requested a facilitated meeting. The meeting was held on July 15, 2019 at the Paradise Hills Community Center. There were three neighbors in attendance, and all spoke in opposition to the request. One participant even suggested downzoning the property to low-density residential, clearly inappropriate for this property along Paseo del Norte.

CONCLUSION

On behalf of Group II U26 VC, LLC and Volcano Cliffs, Inc., we respectfully request that the Environmental Planning Commission approve this request for a Zoning Map Amendment for the subject site.

Thank you for your consideration.

Sincerely,

Jacqueline Fishman, AICP
Principal
**PRE-APPLICATION REVIEW TEAM (PRT) MEETING REQUEST**

Pre-application Review Team (PRT) Meetings are available to help applicants identify and understand the allowable uses, development standards, and processes that pertain to their request. **PRT Meetings are for informational purposes only; they are non-binding and do not constitute any type of approval.** Any statements regarding zoning at a PRT Meeting are not certificates of zoning. The interpretation of specific uses allowed in any zone district is the responsibility of the Zoning Enforcement Officer (ZEO).

When you submit PRT notes to meet a Pre-application Meeting requirement in Table 6-1-1, you will be charged a $50 PRT fee.

**APPOINTMENT DATE & TIME:**

Applicant Name: Consensus Planning for Steve Metro  
Phone#: (505) 764-9801  
Email: fishman@consensusplanning.com

**PROJECT INFORMATION:**

*For the most accurate and comprehensive responses, please complete this request as fully as possible and submit any relevant information, including site plans, sketches, and previous approvals.*

- **Size of Site:** ~33 acres  
- **Existing Zoning:** MX-L  
- **Proposed Zoning:** MX-M

Previous case number(s) for this site: 1009082

- **Applicable Overlays or Mapped Areas:** Volcano Mesa CPO-12 and NW Mesa Escarpment VPO-2

- **Residential** — Type and No. of Units:
- **Non-residential** — Estimated building square footage: No. of Employees:
- **Mixed-use** — Project specifics:

**LOCATION OF REQUEST:**

- **Physical Address:** Paseo del Norte and Kimmick Drive  
- **Zone Atlas Page (Please identify subject site on the map and attach):** C-11

**BRIEFLY DESCRIBE YOUR REQUEST** *(What do you plan to develop on this site?)*

Develop portion of the property closest to the intersection as a light vehicle fueling station/convenience store with liquor retail.

**QUESTIONS OR CONCERNS** *(Please be specific so that our staff can do the appropriate research)*

- Does staff have an opinion on a zone change request for all of the MX-L property in this area to MX-M? Considering options of possibly breaking it up. Spot zone considerations?
- Property is an Area of Change, so confirm that up to 20 acres is via EPC. Could this be two EPC applications, or would the greater total acreage make it a ZMA - Council action regardless?
- There is an existing Site Development Plan for Subdivision that was approved for this site. What steps are necessary to void that plan and any related design standards in order to pursue development solely under the IDO?
- Would like to go over Use-specific Standards for most immediate desired uses (see above).
- Is there any likelihood of additional infrastructure that would trigger DRB review of a site plan or considerations for a plat.

Revised 10/4/2018

PRT DISCUSSIONS ARE FOR INFORMATIONAL PURPOSES ONLY! THEY ARE NON-BINDING AND DO NOT CONSTITUTE ANY KIND OF APPROVAL.

Additional research may be necessary to determine the exact type of application and/or process needed. Factors unknown at this time and/or thought of as minor could become significant as the case progresses.

REQUEST: Develop small portion of site as a light vehicle fueling station, C-store with liquor retail zone change

SITE INFORMATION:
Zone: MX-L (Wz. Sub A/CMX) Size: 2.33 acres
Use: Light vehicle fueling, liquor retail Overlay Zone: CP012-p105
Comp Plan Area Of: Change Comp Plan Corridor: Commuter
Comp Plan Center: North MPO or Sensitive Lands: NA
Parking: Table 5-5-1 p. 230+232 MR Area: NA
Landscaping: 5,6.p.257 Street Trees: 5-6 (D), p.258
Use Specific Standards: 4.3(134) Liquor retail + 4.3(132)-Light fueling station
Dimensional Standards: See governing SP's - use DDD where SP'S is silent - see table
*Neighborhood Organization/s: Paradise Hills Civic Assoc, Westside Coalition

*This is preliminary information only. Neighborhood Organization information is only accurate when obtained from the Office of Neighborhood Coordination (ONC) at www.cabq.gov/neighborhoods/resources.

PROCESS: D zone change - 0.7(P)-p. 423
Type of Action: D site plan D-58 - 6.6(G)-p.345
Review and Approval Body: SPB Is this PRT a requirement? yes
Date: 7-1-19  Time: 1:00 pm

Address:  Paseo del Norte + Kimmick Dr. NW

NOTES:  Project # 100 9028 (the cliff on Paseo SPE- 9/2012)
* No liquor sales in Mx-M (unless gross same)
* Standards for liquor retail 4-3(0)(36) - p. 159
* Conditional use needed up 4" in 500 feet of residential
* Standards for LIGHT vehicle fueling - 4-3(0)(2) - p. 147
* Zoning change criteria - 6-7(E)(13) - p. 427, must justify
  in writing
* Puts to 6-7(E)(1) - p. 426. up to 20 acres go to EPC: make
  two separate applications - possible - street separates
  the lots.
* Puts to 1-10(A) - p. 4. Prior approval remain valid. Possible
  to replace in full at DRB
* portion N of Valiente Rd NW - Both sides of Kimmick
* already has infrastructure - pd through SAD
* use in latitude contains a food sales, restaurant, gas station - all general retail
  medium - all are P in MX-M zone.
  Lift condit use - 6-6(A) - p. 385 - answer criteria  
  6-6(A)(3) - liquor retail
* working on pre-application facilitated meeting
* goal to apply next month.
STAFF INFORMATION
I’ve completed a first review of this request, including the justification letter for the proposed zone map amendment (zone change). I have some questions about the request, and some suggestions that will help clarify and strengthen the justification. Please provide the following:

A revised zone change justification letter pursuant to the IDO zone change criteria (one copy) by:  

12 pm on Friday, August 23, 2019.

Note: If you have difficulty with this deadline, please let me know.

1) Introduction:

A. Though I’ve done my best for this review, additional items may arise as the case progresses. If so, I will inform you immediately.

B. This is what I have for the legal description: Lot 1, Block 2, Volcano Cliffs Unit 26, and Lot 1-A-1, Block 3, Volcano Cliffs Unit 26, Is this correct?

C. The City’s GIS system does not show a parcel line along the southern side of the portion of the subject site at the SW corner of Paseo del Norte Blvd. NW and Valiente Rd. NW. Was this western portion of the subject site subdivided recently? If so, when, and can you please provide documentation for the file?

D. Without a recorded subdivision line, and based on the information I have, the whole property is the subject site, on both the northern and southern sides of the street. This totals about 23 acres, which exceeds the thresholds for Zoning Map Amendment-EPC in 6-7(F)(1)(a). The request would go to Council after receiving a recommendation from the EPC.

→See also Section 3.B of this memo regarding notification.

2) Process:

A. Information regarding the EPC process, including the calendar and current Staff reports, can be found at:

http://www.cabq.gov/planning/boards-commissions/environmental-planning-commission

B. Timelines and EPC calendar: the EPC public hearing for September is the 12th. Final staff reports will be available one week prior, on September 5th.

C. A pre-application review team (PRT) meeting is required. I found the PRT notes in the file.
D. Agency comments will be distributed around Wednesday, August 21st. I will email you a copy of the comments and will forward any late comments to you.

E. A Traffic Impact Study (TIS) will be required at a future date as the subject site develop.

3) Notification & Neighborhood Issues:

Notification requirements for a zone change are found in Table 6-1-1 (IDO, p. 328) and are explained in Section 6-4(K), Public Notice (IDO, p. 345).

A. The required notification consists of: i) an emailed letter to neighborhood representatives indicated by the ONC, and ii) a mailed letter (first-class) to property owners within 100 feet of the subject site. It appears that the first requirement was met.

B. Regarding the second requirement, property owner notification within 100 feet of the subject site, there are three issues. The 100 foot buffer map, from what I can tell, will need to be redone:

i) first, if there is no subdivision line, the entire, approximately 15.7 acre western portion of the subject site will need to be buffered and the buffer map redone.

ii) second, notification will need to be given ASAP to parties not picked up with the first notification based on the smaller portion of the subject site.

iii) third, even if i and ii above aren’t the case, the buffer map should be re-done for the sake of clarity.

When City Staff prepares the buffer map, the Notes field indicates the ROW of the largest street and then adds 100 feet to that. This information is lacking on the buffer map provided. Also, I tried to verify distances using the scale on the map, and wound up guessing. It needs to be transparent and verifiable that the 100 foot notification included all the properties required.

C. Do you anticipate that a facilitated meeting will be requested during the EPC process? Has one been scheduled?

D. I’m aware of the pre-application facilitated meeting and that there are neighborhood concerns, which are mostly related to views preservation, heights, range of uses, uses considered undesirable, and the possibility of big box stores.

4) Zone Map Amendment (zone change)- General:

A. A zone change justification is all about the requirements of the zone change criteria in the IDO at 6-7(F)(3) and how the applicant can demonstrate that the request fulfills them.

The merits of the project and neighborhood support are not included in the criteria. Therefore, these belong in the project letter and not in the justification.

B. Responding the A-H of the zone change criteria is both a legal exercise and a planning exercise. It is critical to “hit the nail on the head” conceptually and in terms of form. This can be done by:
i. responding to each requirement in the customary way (see examples).

ii. using conclusory statements such as “because________”.

iii. re-phrasing the requirement itself in the response, and

iv. choosing an option when requested to respond to a requirement.

The July 23, 2019 version of the zone change justification (v.1) would be strengthened by incorporating more because statements, being sure to re-state the requirement in the response, and expressly choosing an option when responding to criteria C, E, and H.

C. A thorough, substantiated zone change justification essay is required of all applicants. This is particularly important for cases where an appeal is a possibility.

In general, v. 1 of the zone change justification needs to be strengthened in order to clearly demonstrate that the request would further applicable Goals and policies and not be harmful to adjacent property, the neighborhood, and the community. For example, the ties between the Goals and policies cited and the request are insufficiently developed and, at this stage, do not “hit the nail on the head”.

5) Zone Map Amendment (zone change)- Section by Section:

Please address and incorporate the following to provide a strengthened response to the IDO zone change criteria. The burden is on the applicant to justify the proposed zone change.

A. Criterion A (strengthen): Like responding to a legal requirement, the words of the Goal or policy cited need to be incorporated into the responses. Otherwise, they are not sufficiently tied together, and the demonstration is not made.

- Be sure to develop strong and precise connections between each citation and the request, because this is the crux of justifying a zone change and is closely scrutinized on appeal.
- If you cite a Goal, please provide a discussion of how the request furthers it, or don’t include it.
- If you cite a sub-policy, please provide a discussion of how the request furthers it or don’t include it.
- Tip: do not choose Goals and policies about site design, because a site development plan is not part of the request.
- Why does paragraph 2 of the response talk about the existing zoning being inappropriate? That is not in the requirement for criterion A.
- Please include a conclusory statement regarding Criterion A.

B. Criterion B: OK.

C. Criterion C (strengthen): More precision is needed with this response. Please develop arguments that respond to one of the criteria (1, 2, or 3), as required, and address the first part of the provision regarding location in an Area of Change. There’s no need to choose two and, in this case, it creates confusion on my part. The response to Criterion A must be sufficiently strong to support the response to Criterion C, when Subcriterion c.3 is chosen.
D. **Criterion D (strengthen):** The response is a bit disjointed and needs to precisely address the language of the criterion. The first paragraph is the most important; it needs to be expanded and emphasized.

Why is the overarching purpose of the zone change stated in the middle of the response to one of the criterion? It seems to me that this type of introductory material doesn’t really fit here as a response to what Criterion D is asking. The last paragraph also doesn’t respond to the criterion and would perhaps be more effective elsewhere.

E. **Criterion E:** OK

F. **Criterion F:** OK, but the last sentence doesn’t have to do with the requirement and therefore isn’t effective in this location.

G. **Criterion G:** OK

H. **Criterion H (strengthen):** Please restate the requirement in the response, to create precise ties between the two.
Bob,
Thank you for your comments. This email is being forwarded to the case planner, Catalina Lehner, and your comments will part of the written record. Please contact Catalina if you have further comments or questions. Also, feel free to attend the public hearing on September 12, 2019 in order to speak to the EPC on the record regarding this case.

Thank you Mr. Voorhees,
I am not sure if I will be the Current Planner for this case, but I will make sure it becomes part of the record. Applications are due next Thursday July 25, so we will know at that time if the applicant has submitted all of the required materials and to whom the case will be assigned. If they submit by the deadline, the case will be heard at the September 12, 2019 EPC public hearing, and you are welcome to attend and speak at the hearing in addition to your written comments.

Thank you,

Dear Ms. Somerfeldt,

Please find attached our letter of opposition to the request for zoning change of the parcels at Kimmick and Paseo del Norte.

Please also ensure that our letter is forwarded to Derek Bohannan, Chair, & Bill McCoy III, Vice Chair, of the Environmental Planning Commission.

Sincerely,
Mike T. Voorhees
LETTERS FROM AGENCIES
TO: Dan Serrano, EPC Chair

FROM: Colleen Langan-McRoberts, Open Space Division Superintendent, Parks and Recreation Department

RE: Comments on Proposed Zone Change from MX-L to MX-M (EPC #2019-002663)

The Parks and Recreation Department (PRD) respectfully provides the following comments to the EPC regarding a proposed zoning change close to existing Major Public Open Space and the Petroglyph National Monument.

The property proposed for development is legally described as:
A portion of Tract1, Block 2, Volcano Cliffs Subdivision and lot 1A-1, Block 3, Volcano Cliffs Subdivision;

The City Open Space Division (OSD) believes the request to change the zoning of this property from MX-L to MX-M may have adverse effects to the Major Public Open Space property, known as La Cuentista, which runs along the escarpment and on the mesa approximately 500-600 feet south of said application site request for zone change. The OSD also believes the stated purpose of developing a portion of the site as a light vehicle fueling station does not further the sensitive lands ordinance of the Comprehensive Plan nor the IDO. The City owns and is in the process of purchasing more land about 520 feet south of this parcel to preserve as Major Public Open Space adjacent to Petroglyph National Monument.

The Comprehensive Plan identifies multiple goals and policies intended to “preserve and protect the Monument from growth and development pressures on the West Side” (11.3.4[b]), “protect the integrity and quality of the region’s natural features and environmental assets” (10.3), and “protect...significant cultural landscapes as important contributors to our heritage and rich and complex identities” (11.3). The Comprehensive Plan also considers development projects within a quarter mile of the Monument as potentially impactful and worthy of further scrutiny (11.3.4.3); this property falls within that distance.

This parcel is located on a Premium Transit Corridor and within an Urban Center, both of which encourage mixed use and transit- and pedestrian-oriented development; MX-L, the parcel’s current zone, accommodates both. While the MX-M zone may be appropriate for other locations along the corridor, the increased intensity of allowable uses in this zone including light fueling stations, an increase in retail development size, and drive-through development, would be detrimental to the protection of the sensitive natural and cultural
landscape in the immediate area. The City Open Space Division does not find that this zone change is justified.

The Parks and Recreation Department, Open Space Division appreciates this opportunity to provide comments and suggestions to the EPC in the review and decision-making process for this proposed zone change near the sensitive lands of the La Cuentista Major Public Open Space and Petroglyph National Monument Escarpment. My staff and I are available to provide clarifications and to answer any questions you may have.

RE: Project #2019-002663, RZ-2019-00043 – Zone Map Amendment (Zone Change), Kimmick

Dear Ms. Lehner:

We have reviewed the application for approximately 15.97 acres, located at Kimmick Drive NW, between Paseo del Norte NW and Rosa Parks NW, for a zoning designation change of MX-L to MX-M. While this location is not directly adjacent to Petroglyph National Monument (monument), it appears to be located about 0.2 miles from the monument. As the zoning designation change could have an adverse effect on the monument, we have a few comments for your consideration.

As one of 419 official National Park Service (NPS) sites in the country, our mission for the monument is to preserve unimpaired the natural and cultural resources and values of the National Park System for the enjoyment, education and inspiration of this and future generations. We watch closely how adjacent land uses may potentially affect the NPS and monument's primary mission and purpose.

Changing the zone from MX-L to MX-M would allow additional uses that would be incompatible to the sensitivity of the nearby culturally significant resources of the monument. Some of the uses which could be allowed under MX-M designation and the associated appurtenances and related impacts (i.e. lighting, noise, etc.) may also affect wildlife behavior. In addition, MX-M appears to allow for taller, multi-story buildings, which could further detract from the landscape and setting of the monument. Development in this area is fast growing and Paseo del Norte becomes congested at various times of the day. The proposed zone change would allow for larger commercial development, which would create more traffic and congestion issues in this area. The monument's preference would be to have larger commercial development further away from the monument boundaries to diminish the impacts aforementioned.

A Visitor Use Management Plan (VUM Plan) was completed on March 12, 2019. This plan was a joint effort by the NPS and the City of Albuquerque Open Space Division that identified 24 secondary access points and 6 primary access points for sustainable access and trail use and a 39-mile formalized trail system for the monument. The monument continues to enjoy a cooperative relationship with the City of Albuquerque in our shared quest to protect the resources and yet provide our visitors and local citizens outdoor experiences in a natural setting within an increasingly urban landscape. We would appreciate your consideration of our efforts to preserve
the delicate balance of protecting and preserving the monument and our adjacent natural areas with the least impact as possible.

If you have any questions regarding our comments about the proposed zone change, please contact me at dale_kissner@nps.gov or at 505-274-2565.

Sincerely,

Dale Kissner

Dear Mr. Hendriksen, Ms. Horvath, and the Westside Coalition of Neighborhood Associations:

This letter is notification that Consensus Planning has applied for a Zoning Map Amendment — EPC to the Environmental Planning Commission (EPC) on behalf of Group II U26 VC, LLC.

The subject site consists of a portion of Tract 1, Block 2 and Lot 1A-1, Block 3, Volcano Cliffs Unit 26 totaling approximately 15.97 acres at the southeast and southwest corners of Paseo del Norte and Kimmick Drive NW. The property is currently zoned MX-L (Mixed-use Low Intensity) and is designated as an Area of Change. The applicant is requesting a zone change to MX-M (Mixed-use Moderate Intensity) to allow for additional commercial uses such as general retail, medium and liquor retail.

The EPC Public Hearing for this application will be held on Thursday, September 12, 2019 starting at 8:30am in the Basement Hearing Room at Plaza del Sol, 600 2nd Street NW, Albuquerque, NM 87102.

Please do not hesitate to contact me if you have any questions, would like to meet, or desire any additional information. Under the IDO, anyone may request, and the City may require an applicant to attend a City-sponsored facilitated meeting with Neighborhood Associations, based on the complexity and potential impacts of a proposed project (IDO Section 14-16-6-4(D)). Visit: https://www.cabq.gov/planning/urban-design-development/facilitated-meetings-for-proposed-development/ to view and download the Facilitated Meetings Criteria. If you wish to request a Facilitated Meeting, please contact the Planning Department at (505) 924-3337.

Sincerely,

Jacqueline Fishman, AICP

Dear Neighbors:

This email is notification that Consensus Planning is preparing an application for a Zoning Map Amendment to the Environmental Planning Commission (EPC) on behalf of Group II U26 VC, LLC.

The subject site is located on the south side of Paseo del Norte at Kimmick Drive NW. The zone change request is for the northern half of Tract 1, Block 2, Volcano Cliffs Unit 26 containing approximately 8.68 acres, as well as all of Lot 1A1, Block 3, Volcano Cliffs Unit 26 that contains 7.29 acres. These tracts are on the southwest and southeast corners of the Paseo del Norte and Kimmick Drive intersection, respectively. The applicant is requesting a change from the existing MX-L (Mixed-use Low Intensity) zone to the MX-M (Mixed-use Medium Intensity) zone.

As part of the IDO regulations, we are providing you an opportunity to discuss the application prior to submittal. Should you desire to request a meeting regarding this request, please do not hesitate to email me at fishman@consensusplanning.com or contact me by phone at 505-764-9801. Per the IDO, you have 15 days or until July 5, 2019 to request a meeting. If you do not want to schedule a meeting, please let me know.

Property Owner:

NOTICE OF PUBLIC HEARING

Notice is hereby given that the City of Albuquerque Environmental Planning Commission will hold a Public Hearing on Thursday, September 12, 2019 at 8:30 a.m., in the Plaza del Sol Hearing Room, Lower Level, Plaza del Sol building, 600 2nd St. NW, Albuquerque, NM to consider the following item.

EPC RULES OF CONDUCT OF BUSINESS

A copy of the Rules of Conduct is posted on the Planning Department’s website at http://www.cabq.gov/planning/boards-commissions/environmental-planning-commission and printed copies are available in the Planning Department office on the third floor of the Plaza del Sol Building, 600 Second Street NW. For more information, please contact Russell Brito, Current Planning Division Manager, at (505) 924-3337 or at rbrito@cabq.gov.

Staff reports and supplemental materials are posted on the City website, https://www.cabq.gov/planning/boards-commissions/environmental-planning-commission/epc-staff-reports, on Thursday, September 5, 2019.

REQUEST

Consensus Planning, agent for Group II U26 VC, LLC and Volcano Cliffs, Inc., requests a Zoning Map Amendment - EPC for Tract 1, Block 2 and Lot 1A-1, Block 3, Volcano Cliffs Unit 26, zoned MX-L (Mixed-Use Low Intensity), located at the southeast and southwest corners of Paseo del Norte and Kimmick Drive NW, containing approximately 15.97 acres. The request is for a zone change to MX-M (Mixed-Use Moderate Intensity) to allow for additional land uses such as general retail, medium and liquor retail pursuant to the Integrated Development Ordinance.

If you have questions or need additional information regarding this request contact Mr. Russell Brito, City Planning at (505) 924-3337 or at rbrito@cabq.gov.

Sincerely,

Consensus Planning, Inc.

CITY OF ALBUQUERQUE LAND USE FACILITATION PROGRAM
PROJECT MEETING REPORT

Project #: Volcano Cliffs Pre-Application Meeting

Property Description: The subject site is located on the south side of Paseo del Norte at Kimmick Drive NW. The zone change request is for the northern half of Tract 1, Block 2, Volcano Cliffs Unit 26 containing approximately 8.68 acres, as well as all of Lot 1A1, Block 3, Volcano Cliffs Unit 26 that contains 7.29 acres. These tracts are on the southwest and southeast corners of the Paseo del Norte and Kimmick Drive intersection, respectively.

Date Submitted: 7/17/19
Submitted By: Kathleen Oweegon

Meeting Date/Time: 7/15/19 — 6:30 pm to 8:30 pm
Meeting Location: Paradise Hills Community Center
5901 Paradise Blvd. NW ABQ NM 87114

Facilitator: Kathleen Oweegon
Co-facilitator: Jocelyn M. Torres

Parties (individual names and affiliations of attendees are listed at the end of the report):
- Applicant: Group II U26 VC, LLC
  o Steve Applicant
  o Bill Wright
- Agent: Consensus Planning
  o Michael Vos
  o Jackie Fishman
- Affected Neighborhood Associations (per CABQ notification requirements):
  o Westside Coalition of Neighborhood Associations
  o Paradise Hills Civic Association

Background/Meeting Summary:
The applicant is preparing to apply for a Zoning Map Amendment to the Environmental Planning Commission (EPC), requesting a change from the existing MX-L (Mixed-use Low Intensity) zone to the MX-M (Mixed-use Medium Intensity) zone. This meeting is pre-application to provide the neighbors with the opportunity to learn about the request and share any questions or concerns they may have.

A summary of questions and concerns is included in the Meeting Specifics.

Outcomes:
- Areas of Agreement — None
- Unresolved Issues & Concerns —
  o Applicant seeks to change the zoning from MX-L to MX-M, which the neighborhood associations, and neighbors oppose.
  o Implications & consequences of zone change — overall negative effect on area
  o Possibility of Big Box stores and other undesirable development in the area
  o Potential increased height of buildings may obstruct existing views
  o Loss of character of the area and diminished property value
- Other Key Points — See questions and concerns below.
CITY OF ALBUQUERQUE LAND USE FACILITATION PROGRAM
PROJECT MEETING REPORT

Meeting Specifics:
1) Overview of Proposed Project
   a) Applicant seeks a zone change on its property located south of Paseo del Norte (Paseo) and east and west of Kimmick.
   b) Consensus Planning is serving as Agent on this application.
      i) Principals for Applicant are Steve Metro and Bill Wright.
   c) Applicant owns approximately 18 acres west of Kimmick and 15 to 16 acres east of Kimmick south of Paseo del Norte (Paseo). (see map at end of report)
      i) Applicant seeks a zone change for approximately nine acres located south of Paseo and west of Kimmick from MX-L to MX-M.
      ii) Applicant also seeks a zone change for approximately seven acres located south of Paseo and east of Kimmick from MX-L to MX-M.
   d) This property was located within the Special Assessment District 22A.
   e) Utilities are near the property, and the Applicant has paid for a signal at Paseo and Kimmick.
      i) Other vacant landowners in this vicinity do not have utilities on the property.
   f) A Site Plan for Subdivision was done in September 2017.
      i) Applicant seeks to void this Site Plan as part of their request, because it was done under Albuquerque’s prior Zoning Ordinance and is not required by the IDO.
      (1) Applicant does not want to burden this development with rules that no longer exist.
   g) The purpose of the zone change request is to provide adequate building space for potential tenants who require more square footage than that allowed under MX-L zoning.
      i) MX-L allows for a maximum building footprint of ten thousand square feet per business/retail tenant.
      ii) MX-M zoning allows for a much larger footprint, thereby enhancing Applicant’s potential for selling the vacant property to owners seeking commercial development.
      iii) Applicant seeks zoning that is more consistent with the location and that allows for variety in the types of stores that can lease the developed property.
      iv) Applicant intends to sell the vacant land and does not plan to develop the property.
      v) Applicant has paid for infrastructure but has seen no return on his investment.

2) Questions and Concerns about types of development
   a) N — The 2017 Site Plan provided for multi-family and office development, which is desirable in that neighborhood.
   b) Q: Is part of the plan to put in Big Box stores?
      i) A: No, there is no current plan to put in anything. The goal is simply to sell the property. If this request is approved, it will be more marketable.
      (1) Current uses are limiting to certain types of businesses, such as liquor stores and buildings with a footprint greater than 10,000 sq. ft.
   c) Q: CPO 6-4(0)(2)(c) has requirements for single site and not part of a pattern; shouldn’t be approved for adjacent sites owned by the same person.
      i) Jackie: That’s from the deviation section for when 30 ft. A deviation is a minor change up to 10%.
d) N: But, if they want a deviation change from standard without change of zone, that might be a problem.
   i) Keep zoning as-is but with flexibility for specific variance.
   ii) This seems a drastic remedy from the way the IDO is written, and opens Pandora’s box.
   iii) Jackie: There is a signalized intersection. This is the equivalent of C-2 from the old zoning code.

e) Q: Is Paseo limited access?
   i) Jackie: I think so.

f) N: Delivery trucks can’t come up Unser; they have to come up Paradise Hills.
   i) Jackie: I’ll check on the truck restrictions on Paseo and let you know what I learn.

g) Q: Is there interest from developers for use of the property?
   i) Jackie: There are some possibilities, but nothing firm.
   ii) N: It would be good if the developers could present their concept to us.

h) Jackie: What do you want?
   i) N: Trader Joe’s, or something not already nearby via Paseo, etc.
      1) New amenities, not large retail.
   i) N: There are offices going up on Paseo, west of the river. Offices are ok.
      i) A neighborhood center and other small stores are already nearby.

j) Q: Does MX-L allow for single-family?
   i) Jackie: No. Townhomes and multi-family are allowed.

k) N: There’s an untapped market for townhomes.

l) Q: What if you downzone to single-family?
   i) Jackie: There is plenty of R-1 property nearby that hasn’t been developed. You could do this there without a zone change.

m) Q: When you talk about retail, there’s so much already nearby, more isn’t needed.
   i) There are already some vacant business properties in the area because some businesses moved.
      1) Jackie: There’s no demand out there; there are few houses and it’s hard to develop.

n) Jackie: How far is it to the Smith’s and post office?
   i) N: Smith’s is 2 miles away.

o) N: A childcare center would be good.

p) Jackie: The sites we are asking for the zone change on are 7 and 9 acres. You’re not going to get a big commercial development on a lot that size.

q) N: Because the IDO has a variety of different possible uses, I will oppose.

r) N: If the applicant has a buyer, propose something then.
   i) It’s hard to backtrack if you do the zone change now, so do it when it’s needed.

s) N: We might not oppose a specific use at a later time, but if we approve now, we don’t know what we’ll get.
   i) Jackie: The City doesn’t do conditional uses at this level.
t) N: MX-L is more appropriate next to a residential area and Open Space to serve as a transition.
   i) Jackie: It's 500 ft. from La Cuentista to where we are proposing the change to MX-M.
   ii) N: It's 400 ft. from Kimmick and Rosa Park to the south-most boundary of your proposed MX-M; that's bigger than most Open Space buffers.
      (1) Jackie: It's over 500 ft.

u) Jackie: I will talk to the Applicant about your concerns.

3) Questions and Concerns about implications of zone change
   a) N — The intended zone change will negatively impact the neighborhood by allowing for truck stops, big box stores such as Home Depot & Lowes, warehouses, a temporary circus, hospitals and group homes.
      i) The major difference between MX-L and MX-M is that a much larger building footprint is allowed under MX-M, which is undesirable for the existing community.
      ii) Jackie: Under the current MX-L, a building greater than or equal to 50,000 sq. ft. goes to DRB for approval.
         (1) This also applies to multi-family housing equal to or greater than 50 units.
         (2) Walgreens and CVS, which are usually 15,000 sq. ft., are other examples of more desirable businesses that might come in if larger footprints were available.

   b) N: Under the current zoning, one can build office space, multifamily housing, restaurants and a taproom (allowed under conditional uses).
      i) This zoning is consistent with the neighborhood’s character and identity, complies with the CPO and protects the Monument.
      ii) Having large buildings, such as a truck stop or an 18-wheeler storage facility, located near the Petroglyph Monument doesn’t make sense.
      iii) MX-M allows for permissive uses to be expanded in commercial areas that are not desirable for this location.
      iv) Neighbors will oppose this zone change.
      v) I live in Camino Alto.
         (1) The library is near my house,
         (2) USPS is further and Smiths is close – 2.5 miles.
         (3) I can currently sit on the porch, which is quiet despite nearby construction, and can hear wildlife at all times of the day.
            (a) A big box store or heliport certainly changes this.
      vi) Under current permissible uses, you can still do retail, restaurants, and a taproom as conditional use.
         (1) You just can’t do large things
      vii) Acknowledge a truck stop is unlikely, but still don’t want Kimmick overloaded with traffic from Big Box stores, etc.
      viii) The point is that under MX-M, permissive uses would be expanded for uses that are not desirable for this location.
The genie cannot be put back into the bottle once the zone is changed.

Jackie – Applicant will do a site analysis as part of its justification for the zone change.

c) N: The proposed zone change will open the floodgates for a large store, not a Chili’s or a dental office.
   i) Based on what the City has done with the IDO, don’t do the zone change now.
      1) Sell the land, then get a zone change.
   ii) Has the owner been approached by a buyer?
      1) Several multi-family two-story apartments are located at Eagle Ranch and Paseo.
      2) If the applicant has a buyer, they should approach the City.
      3) Once MX-M is approved, we cannot backtrack.
   iii) Jackie: Now with the IDO, the process has changed so there is no need to follow your proposal.
      1) The owners want the zone change now.
      2) This property has been hard to sell.
         a) Bill Wright has owned his part of it for over 30 years.

4) Questions and Concerns about preserving the character of the neighborhood
   a) N: The zone change will negatively affect views and property values.
   b) N: Permissive uses under MX-M allows for undesirable uses that are not complementary to the neighborhood and negatively impact the identity and character of the neighborhood.
      i) If near to the Open Space, it will negatively affect one’s experience of the Open Space.
      ii) Would prefer stipulated uses, though doubts that’s possible.
         1) Distinctions are too “large-grained” – no way to stipulate.
            a) Prefer some sort of intermediate.
      iii) Vehemently oppose MX-M uses in this area
         1) It sets a precedent for a change in the tone of the area.
         2) MX-L should give lots of acceptable potential for development
   c) N: This will open the floodgate for large stores
      i) Developers want the most intensive development they can get.
      ii) Leave it as-is and let the new owners apply for what they want.
      iii) Jackie: We would be retaining a lot of what is there now.
         1) East, west and south is all RML – low-density residential
         2) IDO changed a lot of things.
            a) MX-L limits even a Trader Joe’s
               i) N: In California, Trader Joe’s are often very small, squeezed in between other businesses.
   d) Q: Why not sell as-is?
      i) Jackie: They tried, but there has been no interest in the property.
5) Questions and Concerns about building height
   a) N: The MX-L maximum structure height is 35 feet. MX-M zoning allows a maximum
ten feet, height of 45 feet, which violates the Character Protection Overlay (CPO).
      i) The Volcano Heights Urban Center is part of CPO 12, located north of Paseo and west of
ten. This area doesn’t allow for the proposed zone change under the CPO.
   b) N: Why would an owner want to develop multi-story buildings?
      i) Jackie: Big boxes don’t need two stories.
         (1) Nine acres will not accommodate a big box.
         (2) The property is now zoned MX-L and Applicant seeks that approximately half of the
property be rezoned to MX-M.
         (3) At the transition from Paseo, with MX-L, a multi-family unit can be up to 35 ft.; with
MX-M, it’s 45 ft.
   c) N: Under CPO 6-4(0)(2)(e), it says no deviation for overlay standard.
      i) Taller buildings are allowed at Centers and Corridors.
         (1) S. of Paseo is not noted as a Center or a Corridor.
         (2) Multi-story is not encouraged.
      ii) Jackie: If and when commercial buildings come in, it’s highly unlikely they’d be multi-story.
      iii) Q: Why?
         (1) Jackie: Most retail is one-story
            (a) Not looking at Big Box stores coming into this area, because 9 acres isn’t large
            enough for them.
6) Questions and Concerns about transition between zones
   a) N: This property is located next to a residential area and open space.
      i) There must be a transition between these areas and the proposed MX-M zoning.
      ii) Jackie – There is at least 500 feet between this property and the open space, which
provides for a transition.
      iii) 450 feet exists between the proposed MX-M property and the corner of Rosa Park and
Kimmick.
      iv) Rosa Park has a 58-foot of right of way, thus totaling over 500 feet of transition between
these properties.
7) Questions and Concerns about plans for the area
   a) N: No one will buy where you don’t know the terrain.
      i) In this location, builders have to cut through rock and basalt.
      ii) Someone else does the pad work for Abrazo and then they develop.
      iii) The topography, geology, La Cuentista II Development will bring commercial business
and building once it is finished.
         (1) Abrazo and DR Horton are developing La Cuentista II.
         (2) I don’t know who is developing La Cuentista III.
      iv) I don’t want to question Steve Metro’s motives.
(1) Steve has helped fight inappropriate development the neighborhood and has kept it in good shape, with broader views and other positive qualities. I thank him for that.

v) Concern is about the unintended consequences of this change

vi) The IDO's is very course and threatens the existing neighborhood.

vii) The zoning variety allowed under the IDO is more likely to draw commercial development.

viii) Jackie: We did a study awhile back on putting in a library/multi-generational center/pool, and found that it was hard to break ground, which makes it hard to sell.

(1) The City decided not to develop the library/multi-generational center/pool, because of basalt, rocks and unknown terrain.

b) Q: What does the Applicant plan to do with the land?

i) Jackie: Applicants are not developers; they want to sell the land, and different zoning would make the land more attractive to buyers.

Next Steps: Application will be filed on July 25, 2019

Action Plan: N/A

Action Items:
- Jackie will inquire into truck and traffic limitations and access requirements pertaining Paseo del Norte and advise the group.

Application Hearing Details:
1) The Environmental Planning Commission (EPC) is an appointed, 9-member, volunteer citizen board with authority on many land use and planning issues. The EPC was formed in 1972 per City of Albuquerque Ordinance #294-1972. Members:
   - Derek Bohannan, Chair, Council District 5
   - Bill McCoy III, Vice Chair, Council District 9
   - Dan Serrano, Council District 1
   - Richard Meadows, Council District 2
   - Joseph Cruz, Council District 3
   - Robert Stetson, Council District 4
   - Maia Mullen, Council District 6
   - David Shaffer, Council District 7
   - Karen Hudson, Chair, Council District 8

2) Hearing Time:
   i. No hearing is scheduled at this time, since the application has not been submitted as of the writing of this report.

3) Hearing Process:
   i. Comments from facilitated meetings will go into a report which goes to the City Planner.
   ii. The facilitated meeting report is included in the staff report and may be used to recommend conditions.
   iii. The Commission will make a decision and parties have 15 days to appeal the decision.

Co-facilitator: Jocelyn M. Torres
Project Number: Volcano Cliffs Pre-Application Meeting
Meeting Date and Time: July 15, 2019 6:30 p.m.

Parties
Page 1 – Change “Steve Applicant” to “Steve Metro”

Meeting Specifics:
Page 2: 1)d) Change: Special Assessment District "22A" TO "228".
Letter in opposition to the request to change the zoning designation from MX-L to MX-M for certain parcels.

Consensus Planning, as agents for the owners of two parcels bounded by Paseo Del Norte NW on the north and bisected by Kimmick Drive NW, are requesting rezoning from MX-L to MX-M for portions of these parcels. The specific parcels are as follows:

**Lot: 1**  
**Block: 2**  
**Subdivision:** VOLCANO CLIFFS UNIT 26  
**Pin:** ABQ215671  
(northern half of parcel—approximately 8.68 acres)

**Lot: 1A1**  
**Block: 3**  
**Subdivision:** VOLCANO CLIFFS UNIT 26  
**Pin:** ABQ19042  
(entire parcel—approximately 7.29 acres)

The reasons presented by Consensus Planning at the mandatory facilitated pre-application meeting were that the owners were having trouble selling the parcels to potential developers and felt this was due to the MX-L zone being too restrictive.

We oppose the requested change for the following several reasons.

A.) The parcels in question have not been “ripe” for small commercial development because:

1. They are located in an area that until recently has not had a sufficient nearby population to drive development.
2. They have been adjacent to, and partially covered by, large quantities of excavated basalt, in various stages of being reduced to gravel and other aggregate sizes, and thus not conducive to immediate development.
3. They were accessible via a washboard dirt road (Kimmick Drive) that was only paved less than two years ago, and only open to home construction vehicle traffic until recently.

The market to develop these parcels under the MX-L zone has thus not been tested and rezoning on this basis is unwarranted and premature.

B.) Changing the zone from MX-L to MX-M is a drastic step. Many of the allowable uses under the MX-M designation are incompatible to the sensitivity of the nearby culturally significant landscapes, open space, National Monument lands, and the neighborhood identity and character which are supposed to be protected within the Volcano Cliffs Character Protection Overlay (CPO-12) boundaries. Such allowable uses (which are not allowed under the current MX-L designation) include Big Box Retail, Lumberyards, temporary location for a Circus, Warehouses,
Distribution Centers, Helipads, Drive In Theaters, Nightclubs, Hospitals, and the long-term parking of multiple trucks and semitrailers.

C.) The section of Paseo del Norte from Unser to Kimmick faces severe congestion during the evening commute, and would be significantly worsened if large retail operations were based at this location. Even the newly approved road improvements to Paseo del Norte would be insufficient to handle the potential development that a change to MX-M could create.

D.) The current MX-L designation allows for neighborhood scale convenience shopping needs, which would fit in nicely with the neighborhood character. The neighborhood is already well served by nearby large grocery stores, drug stores, hardware, and specialty retail. Duplicating such large stores at this location would be redundant and only detract from existing retail operations.

E.) The neighborhoods of Petroglyph Estates and La Cuentista enjoy a tranquil setting conducive to walking, biking, and playing outdoors, with West Mesa high desert wildlife integrated into the communities. The traffic, noise, and lighting requirements for large retail activities on these parcels would detract from this, degrading the quality of life and potentially reducing property values of these homes.

F.) Homeowners made purchasing decisions based upon existing planning and zoning designations, and such an unjustified change to the zoning designation represents an uncompensated taking.

G.) The existing zoning in the IDO represents an extensive effort to balance the needs of many stakeholders to both preserve and develop land in a consistent and fair manner to create a greater community reflective of the values of its residents. The EPC should be hesitant to discard the work that went into the creation of the IDO without sound justification and clear necessity that a change is warranted. The alleged necessity and proposed justification in this request are dubious at best, and are certainly premature.

Thank you for considering our thoughts and concerns in opposition to the above referenced application for zoning change.

Sincerely,

[Signature]

Letter in opposition to the request to change the zoning designation from MX-L to MX-M for certain parcels.

Consensus Planning, as agents for the owners of two parcels bounded by Paseo Del Norte NW on the north and bisected by Kimmick Drive NW, are requesting rezoning from MX-L to MX-M for portions of these parcels. The specific parcels are as follows:

Lot: 1  Block: 2
Subdivision: VOLCANO CLIFFS UNIT 26
Pin: ABQ215671
(northern half of parcel—approximately 8.68 acres)

Lot: 1A1  Block: 3
Subdivision: VOLCANO CLIFFS UNIT 26
Pin: ABQ19042
(entire parcel—approximately 7.29 acres)

The reasons presented by Consensus Planning at the mandatory facilitated pre-application meeting were that the owners were having trouble selling the parcels to potential developers and felt this was due to the MX-L zone being too restrictive.

We oppose the requested change for the following several reasons.

A.) The parcels in question have not been “ripe” for small commercial development because:

1. They are located in an area that until recently has not had a sufficient nearby population to drive development.
2. They have been adjacent to, and partially covered by, large quantities of excavated basalt, in various stages of being reduced to gravel and other aggregate sizes, and thus not conducive to immediate development.
3. They were accessible via a washboard dirt road (Kimmick Drive) that was only paved less than two years ago, and only open to home construction vehicle traffic until recently.

The market to develop these parcels under the MX-L zone has thus not been tested and rezoning on this basis is unwarranted and premature.

B.) Changing the zone from MX-L to MX-M is a drastic step. Many of the allowable uses under the MX-M designation are incompatible to the sensitivity of the nearby culturally significant landscapes, open space, National Monument lands, and the neighborhood identity and character which are supposed to be protected within the Volcano Cliffs Character Protection Overlay (CPO-12) boundaries. Such allowable uses (which are not allowed under the current MX-L designation) include Big Box Retail, Lumberyards, temporary location for a Circus, Warehouses,
Distribution Centers, Helipads, Drive In Theaters, Nightclubs, Hospitals, and the longterm parking of multiple trucks and semitrailers.

C.) The section of Paseo del Norte from Unser to Kimmick faces severe congestion during the evening commute, and would be significantly worsened if large retail operations were based at this location. Even the newly approved road improvements to Paseo del Norte would be insufficient to handle the potential development that a change to MX-M could create.

D.) The current MX-L designation allows for neighborhood scale convenience shopping needs, which would fit in nicely with the neighborhood character. The neighborhood is already well served by nearby large grocery stores, drug stores, hardware, and specialty retail. Duplicating such large stores at this location would be redundant and only detract from existing retail operations.

E.) The neighborhoods of Petroglyph Estates and La Cuentista enjoy a tranquil setting conducive to walking, biking, and playing outdoors, with West Mesa high desert wildlife integrated into the communities. The traffic, noise, and lighting requirements for large retail activities on these parcels would detract from this, degrading the quality of life and potentially reducing property values of these homes.

F.) Homeowners made purchasing decisions based upon existing planning and zoning designations, and such an unjustified change to the zoning designation represents an uncompensated taking.

G.) The existing zoning in the IDO represents an extensive effort to balance the needs of many stakeholders to both preserve and develop land in a consistent and fair manner to create a greater community reflective of the values of its residents. The EPC should be hesitant to discard the work that went into the creation of the IDO without sound justification and clear necessity that a change is warranted. The alleged necessity and proposed justification in this request are dubious at best, and are certainly premature.

Thank you for considering our thoughts and concerns in opposition to the above referenced application for zoning change.

Sincerely,

[Signature]
