Date of Decision: ..... 12-05-18

On the 20th day of November, 2018, property owner Joseph Chavez (“Applicant”) appeared before the Zoning Hearing Examiner (“ZHE”) requesting a variance of 6 ft to the required 10ft side yards setbacks and a variance of 5 ft to the required 15 ft rear yard setback (“Application”) upon the real property located at 6323 Blueberry LN NW (“Subject Property”). Below are the ZHE’s findings of fact and decision:

FINDINGS:

1. Applicant is requesting a variance of 6 ft to the required 10ft side yards setbacks and a variance of 5 ft to the required 15ft rear yard setback.
2. The City of Albuquerque Integrated Development Ordinance, Section 14-16-6-6(N)(3)(a) (Variance-Review and Decision Criteria) reads: “... an application for a Variance-ZHE shall be approved if it meets all of the following criteria:
  - (1) *There are special circumstances applicable to the subject property that are not self-imposed and that do not apply generally to other property in the same zone and vicinity such as size, shape, topography, location, surroundings, or physical characteristics created by natural forces or government action for which no compensation was paid. Such special circumstances of the property either create an extraordinary hardship in the form of a substantial and unjustified limitation on the reasonable use or return on the property, or practical difficulties result from strict compliance with the minimum standards.*
  - (2) *The Variance will not be materially contrary to the public safety, health, or welfare.*
  - (3) *The Variance does not cause significant material adverse impacts on surrounding properties or infrastructure improvements in the vicinity.*
  - (4) *The Variance will not materially undermine the intent and purpose of the IDO or the applicable zone district.*
  - (5) *The Variance approved is the minimum necessary to avoid extraordinary hardship or practical difficulties.”*
3. The Applicant bears the burden of ensuring there is evidence in the record supporting a finding that the above criteria are met under Section 14-14-6-4(F)(2).
4. Joseph Chavez, owner appeared and gave evidence in support of the application.

5. All property owners within 100 feet of the subject property and the affected neighborhood association were notified.
6. Taylor Ranch Neighborhood Association is the affected neighborhood association.
7. No contact was initiated by the NA.
8. Nothing was submitted in support or opposition to the application.
9. The subject property is currently zoned R-1D.
10. Transportation has reported no objection to the application.
11. No one appeared in opposition to the application.
12. Applicable Overlay Zones are Coors Blvd. VPO 1, pursuant to Section 14-16-3-6(D) and Coors Blvd. CPO-2, pursuant to Section 14-16-3(4)(C).
13. The subject property is a triangular shaped property.
14. The shape and orientation of the subject property created difficulties in orienting a single residence on the site.
15. The application is for new construction and will enhance the public safety, health and welfare by building on a previously underutilized vacant piece of land.
16. This will allow for complete functionality of the property and enhance and increase the value neighboring and adjacent properties.
17. The proposed structure will still allow for sufficient separation for safety reasons and will further the intent and purpose of the IDO, by encouraging infill of neighborhoods.
18. This application will allow the new construction to fit this odd-shaped property without adverse effects to adjacent properties or the surrounding community.
19. There are special circumstances applicable to the Subject Property that are not self-imposed and that do not apply generally to other property in the same zone and vicinity such as size, shape, topography, location, surroundings, or physical characteristics created by natural forces or government action for which no compensation was paid, as required by Section 14-16-6-6(N)(3)(a)(1).
20. The variance will not be contrary to the public safety, health and welfare of the community as required by Section 14-16-6-6(N)(3)(a)(2).
21. The variance will not cause significant adverse material impacts on surrounding properties or infrastructure improvements in the vicinity as required by Section 14-16-6-6(N)(3)(a)(3).
22. The variance will not materially undermine the intent and purpose of the IDO or applicable zone district as required by Section 14-16-6-6(N)(3)(a)(4).
23. The variance approved is the minimum necessary to avoid extraordinary hardship or practical difficulties as required by Section 14-16-6-6(N)(3)(a)(5).
24. The proper "Notice of Hearing" signage was posted for the required time period as required by Section 14-16-6-4(K)(3).
25. The Applicant has authority to pursue this Application.

However, the Zoning Hearing Examiner may allow issuance of building permits if the public hearing produces no objection of any kind to the approval of an application. To receive this approval, the applicant agrees in writing to return the building permit or occupation tax number.

Successful applicants are reminded that other regulations of the City must be complied with, even after approval of a special exception is secured. This decision does not constitute approval of plans for a building permit. If your application is approved, bring this decision with you when you apply for any related building permit or occupation tax number. Approval of a conditional use or a variance application is **void after one year** from date of approval if the rights and privileges are granted, thereby have not been executed or utilized.
