Project No:..... **Project# 2018-001667**

Closing of Public Record: 11-20-18
Date of Decision: 12-05-18

On the 20th day of November, 2018, Amethyst Ross, Dreamstyle Remodeling, agent, for property owners Paul & Marialuz Scarpa (“Applicant”) appeared before the Zoning Hearing Examiner (“ZHE”) requesting a variance of 8ft to the required 15ft rear yard setback (“Application”) upon the real property located at 8427 Tierra Morena PL NE (“Subject Property”). Below are the ZHE’s findings of fact and decision:

FINDINGS:

1. Applicant is requesting a variance of 8ft to the required 15ft rear yard setback.
2. The City of Albuquerque Integrated Development Ordinance, Section 14-16-6-6(N)(3)(a) (Variance-Review and Decision Criteria) reads: “... an application for a Variance-ZHE shall be approved if it meets all of the following criteria:
 - (1) *There are special circumstances applicable to the subject property that are not self-imposed and that do not apply generally to other property in the same zone and vicinity such as size, shape, topography, location, surroundings, or physical characteristics created by natural forces or government action for which no compensation was paid. Such special circumstances of the property either create an extraordinary hardship in the form of a substantial and unjustified limitation on the reasonable use or return on the property, or practical difficulties result from strict compliance with the minimum standards.*
 - (2) *The Variance will not be materially contrary to the public safety, health, or welfare.*
 - (3) *The Variance does not cause significant material adverse impacts on surrounding properties or infrastructure improvements in the vicinity.*
 - (4) *The Variance will not materially undermine the intent and purpose of the IDO or the applicable zone district.*
 - (5) *The Variance approved is the minimum necessary to avoid extraordinary hardship or practical difficulties.”*
3. The Applicant bears the burden of ensuring there is evidence in the record supporting a finding that the above criteria are met under Section 14-14-6-4(F)(2).
4. Amethyst Ross, agent for owners appeared and gave evidence in support of the application.
5. All property owners within 100 feet of the subject property and the affected neighborhood association were notified.
6. Vineyard Estates Neighborhood Association is the affected neighborhood association.

7. There was no response from the NA.
8. Nothing was submitted in opposition to the application.
9. The subject property is currently zoned MX-T.
10. The purpose of the MX-T zone district is to provide transition between residential neighborhoods and more intense commercial areas.
11. No one appeared in opposition to the application.
12. The subject property is a smaller lot in size.
13. There is no adjacent neighbor to the north.
14. The proposed addition would be constructed to the back of the property, 7 feet into the setback area.
15. The remaining area left to the rear property line would still allow movement around the building for safety and health reasons.
16. The finish exterior of the proposed addition would be stucco, which would match the existing primary structure.
17. This building material would also match the surrounding neighborhood.
18. The property already has a tall rear wall, and the proposed addition would not be visible to the back.
19. The increased living area would increase the property value and increase the economic vitality of the surrounding community.
20. There are special circumstances applicable to the Subject Property that are not self-imposed and that do not apply generally to other property in the same zone and vicinity such as size, shape, topography, location, surroundings, or physical characteristics created by natural forces or government action for which no compensation was paid, as required by Section 14-16-6-6(N)(3)(a)(1).
21. The variance will not be contrary to the public safety, health and welfare of the community as required by Section 14-16-6-6(N)(3)(a)(2).
22. The variance will not cause significant adverse material impacts on surrounding properties or infrastructure improvements in the vicinity as required by Section 14-16-6-6(N)(3)(a)(3).
23. The variance will not materially undermine the intent and purpose of the IDO or applicable zone district as required by Section 14-16-6-6(N)(3)(a)(4).
24. The variance approved is the minimum necessary to avoid extraordinary hardship or practical difficulties as required by Section 14-16-6-6(N)(3)(a)(5).
25. The proper "Notice of Hearing" signage was posted for the required time period as required by Section 14-16-6-4(K)(3).
26. The Applicant has authority to pursue this Application.

You will receive notice if any other person files an appeal. If there is no appeal, you can receive building permits any time after the appeal deadline quoted above; provided all conditions imposed at the time of approval have been met. However, the Zoning Hearing Examiner may allow issuance of building permits if the public hearing produces no objection of any kind to the approval of an application. To receive this approval, the applicant agrees in writing to return the building permit or occupation tax number.

Successful applicants are reminded that other regulations of the City must be complied with, even after approval of a special exception is secured. This decision does not constitute approval of plans for a building permit. If your application is approved, bring this decision with you when you apply for any related building permit or occupation tax number. Approval of a conditional use or a variance application is **void after one year** from date of approval if the rights and privileges are granted, thereby have not been executed or utilized.
