Below are the ZHE’s findings of fact and decision:

FINDINGS:

1. Applicant is requesting a variance of 3 ft to the 3 ft maximum wall height.
2. The City of Albuquerque Integrated Development Ordinance Section 14-16-6-6(N)(3)(c) Variance for a Taller Front or Side Yard Wall reads: “*A variance application for a taller front or side yard wall shall be approved by the Zoning Hearing Examiner, if and only if, the Zoning Hearing Examiner finds all of the following:*

 - (3) *The wall is proposed on a lot that meets any of the following criteria:*
 - a. *The lot is at least ½ acre;*
 - b. *The lot fronts a street designated as a collector or above in the LRTS guide;*
 - c. *At least 20 percent of the properties within 330 feet of the lot where the wall or fence is being requested have a wall or fence over 3 feet in the front yard.*
 - (4) *The design of the wall complies with any applicable standard in Section 14-16-5-7 (Walls and Fences), including, but not limited to Subsection 14-16-5-7(E)(2) (Articulation and alignment) and Subsection 14-16-5-7(E)(3) (Wall Design), and all of the following:*
 - a. *The wall or fence shall not block the view of any portion of any window on the front façade of the primary building when viewed from 5 feet above ground level at the centerline of the street in front of the house.*
 - b. *The design and materials proposed for the wall or fence shall reflect the architectural character of the surrounding area.*
3. The Applicant bears the burden of ensuring there is evidence in the record supporting a finding that the above criteria are met under Section 14-16-6-4(N)(1).

4. All property owners within 100 feet and affected neighborhood association were timely notified of the application.
5. The subject property is currently zoned R-1A.
6. Applicant appeared and gave evidence in support of the application.
7. City Transportation does not object.
8. The proposed wall would strengthen or reinforce the architectural character of the surrounding area as required by Section 14-16-6-6(N)(3)(c)(1). Namely, Applicant submitted evidence that the proposed wall is similar to many other walls in the surrounding community.
9. The proposed wall would not be injurious to adjacent properties, the surrounding neighborhood, or the larger community as required by Section 14-16-6-6(N)(3)(c)(2). Namely, Applicant submitted evidence that the proposed wall has no negative impact on any neighbor.
10. At least 20 percent of the properties within 330 feet of the lot where the wall or fence is being requested have a wall or fence over 3 feet in the front yard as required by Section 14-16-6-6(N)(3)(c)(3)c.
11. Based on the evidence submitted by Applicant, the design of the wall complies with any applicable standard in Section 14-16-5-7 (Walls and Fences), including, but not limited to Subsection 14-16-5-7(E)(2) (Articulation and alignment) and Subsection 14-16-5-7(E)(3) (Wall Design), and that: (a) the wall or fence shall not block the view of any portion of any window on the front façade of the primary building when viewed from 5 feet above ground level at the centerline of the street in front of the house; and (b) the design and materials proposed for the wall or fence shall reflect the architectural character of the surrounding area. Specifically, the Applicant submitted evidence that the proposed wall would not negatively impact views or aesthetic enjoyment, as well as that the proposed wall would be constructed of concrete block with wrought iron on top, consistent with many similar walls in the surrounding area.
12. The ZHE finds that the proper “Notice of Hearing” signage was posted for the required time period as required by Section 14-16-6-4(K)(3).
13. The ZHE finds that the Applicant has authority to pursue this Application.
