City of Albuquerque
Department of Municipal Development

Americans with Disabilities Act Policy

May 23, 2019

1. POLICY STATEMENT

The City of Albuquerque (COA) Department of Municipal Development (DMD) is committed to full compliance with Title II of the Americans with Disabilities Act of 1990 as amended (ADA), Section 504 of the Rehabilitation Act of 1973 as amended (Section 504), and all related regulations, laws, executive orders, and directives.

The purpose of the COA ADA Policy is to provide guidance for requesting modifications to ensure safe access to COA's programs, services, and activities; and submitting a grievance when the possibility of discrimination may have occurred due to a disability.

3. POLICY OVERVIEW

This Policy discusses non-discrimination on the basis of disability in COA programs, services, or activities under ADA and Section 504. Within this Policy, a program, service, or activity is any COA function administered, operated, or contracted with COA.

The ADA Coordinator is responsible for administering department-wide compliance with ADA and Section 504, and other state and federal Disability discrimination laws. The ADA Coordinator's contact information is on the COA Website.

When multiple Policies exist, the COA ADA Coordinator will evaluate the discrepancies and provide a determination as to which Policy will govern within a reasonable timeframe.

This Policy does not address the obligation of COA's programs to comply with ADA in terms and conditions of employment or the hiring process.

4. PUBLIC FACILITIES

The COA DMD is responsible for ADA accessibility of public facilities within the public roadway right of way (ROW). The COA collaborate with the ADA Coordinator to prioritize evaluation of public facilities and corrective actions. Public facilities include:

- Pedestrian facilities within the public roadway ROW

5. MODIFICATION REQUEST

Individuals have a right to request modifications to ensure safe access to programs, services, and activities. A modification request may be made to the ADA Coordinator, as referenced in Section 3 Policy Overview. Requests may be made by letter, e-mail, phone call, or by completing the ADA Modification Request Form included on the COA Website. The modification request process is detailed in Section 5.4 of the COA ADA Transition Plan located on the COA Website.

6. GRIEVANCE

An individual who is dissatisfied with the outcome of their modification request, or feels discriminated against in violation of ADA or Section 504, may file a grievance with the ADA Coordinator for further investigation and resolution. Grievances can be submitted by letter, email, phone call, or by completing the ADA Grievance Form included on the COA Website. The grievance process is detailed Section 5.4 of the COA ADA Transition Plan located on the COA Website.

1. Executive Summary

Albuquerque, New Mexico was founded in 1706 and is home to nearly 560,000 people. While being the 32nd largest city in the United States according to the United States Census Bureau, it is also home to facilities such as the Sandia National Laboratories and the Kirtland Air Force Base. A city of steady growth, Albuquerque's population increased by 21.7% from 2000 to 2010, and increased an additional 2.4% from 2010 to 2016. Albuquerque is identifiable to many by its unique Pueblo Revival architecture, flavorful local cuisine bound to include green chile, and the International Balloon Fiesta; an annual occasion that is one of the most photographed events in the world. With elevations ranging from 4,900 feet to 6,700 feet above sea level, Albuquerque not only covers the heart of the Rio Grande river valley, but its city limits closely neighbor the majestic Sandia Mountains.

As a city that takes pride in preserving its historic roots and culture, it has proven that it also develops according to the demands of modern urbanization. The City of Albuquerque (COA) Department of Municipal Development (DMD) has always shown vigorous commitment to addressing these infrastructure needs and challenges throughout Albuquerque's evolution. In addition to all of the infrastructure improvements, the City has shown resolved commitment to improving and addressing the necessities outlined in the Americans with Disabilities Act (ADA). The COA recently proved this initiative by completing this ADA Transition Plan Update to evaluate Albuquerque's current status of ADA infrastructure and to forecast its future ADA infrastructure development.

The purpose of this ADA Transition Plan is to describe the current curb ramp and sidewalk improvement needs within the public right of way throughout the COA, to outline the recommended strategies to address the needs, to identify a process for citizens to voice concerns of specific ADA issues that should be reviewed, and to provide costs associated with these improvements. This ADA Transition Plan was based on a comprehensive sidewalk and curb ramp inventory that established a city-wide condition baseline. The inventory allowed the City to evaluate the various barriers and identify where improvements should occur to meet current standards for both sidewalks and curb ramps throughout the COA.

The Code of Federal Regulations (28 CFR Section 35.150(d)) requires all public agencies to develop an ADA Transition Plan to identify issues and outline an approach to bring curb ramps, sidewalks, and other walkway areas into ADA compliance. The plan quantifies overall needs and outlines an improvement process approach and schedule for curb ramps and sidewalks to administer a program of accessibility for persons with disabilities.

This ADA Transition Plan Update report documents the findings of the COA's inventory, approach and program. This Transition Plan Update report updates the existing *City of Albuquerque ADA Assessment Report,* completed in 2009. The goal of this Transition Plan Update is to document and establish a comprehensive understanding of the current ADA needs within the COA in order to develop an improvement strategy that maximizes every tax dollar spent. To also, implement an effective improvements program, while optimizing the pedestrian experience and providing safe and usable pedestrian facilities while compiling with all current federal, state and local standards.

The current ADA Accessibility Guidelines (ADAAG) were last amended in 2010. These, along with the proposed guidelines for pedestrian facilities in the public right of way (PROWAG) of 2011, are the current standards used for the basis of this evaluation and needs summary. These guidelines contain scoping and technical requirements for accessibility to buildings and facilities by individuals with disabilities under the ADA of 1990. The technical requirements, as described in **Section 6**, are to be applied to all pedestrian improvements during all new design, construction and alterations of buildings and pedestrian facilities covered by Title II of the ADA.

The COA has a variety of pedestrian facilities within 2,274 miles of public right of way. The City's public right of way is reserved for public travel and maintained by the COA. These pedestrian facilities include, but are not limited to: streets, roadways, curb ramps, sidewalks, bridges, traffic signal equipment, on-street parking, alleys, medians, refuge islands, walkways, public buildings, and multi-use trails. However, existing curb ramp and sidewalk infrastructure within the public right of way was inventoried and evaluated for this assessment to quantify and understand the improvement needs to meet the standards of current ADA guidelines. The COA inventories pedestrian infrastructure within the public roadway ROW every five years. The remaining COA pedestrian facilities, not included in this evaluation, will be scheduled within this timeframe either comprehensively, or on a project-by-project basis. See **Section 8** for further information.

In 2016, a city-wide data collection was performed by Data Transfer Solutions (DTS). DTS performed a mobile data collection, by driving the entire city, and collected GPS referenced high resolution roadway imagery of the existing pedestrian sidewalk and curb ramp facilities within the public right of way. This data was then compiled into a Geographic Information System (GIS) database for COA use for on-going monitoring and reporting of conditions.

For this evaluation, a desktop evaluation was performed using the 2016 data collection. The analysis used Microsoft Access, ArcMap GIS software, and Google Earth online software, along with the DTS GPS referenced photo imagery to assess all curb ramps and sidewalks in the City. Field work was not part of this Transition Plan Update and is to be performed on a project-by-project basis as improvements are made. The inventory quantified 41,831 curb ramps and 3,135 miles of sidewalk data, in order to assess and understand if ADA improvements are needed. Improvement needs identified may include slope improvements because the sidewalk or ramp is too steep, width improvements because the sidewalk is too narrow, and/or existing obstructions are in the traveled way making it difficult for persons with disabilities to use the ramp or sidewalk. Assessment summaries are located in **Section 7** of this Transition Plan Update.

Since the 2009 Transition Plan, the COA has made sufficient progress towards improving pedestrian sidewalks and ramps through changes in standards, addressing specific requests as they are received, and updating sidewalks and ramps when roadway maintenance/construction projects occur. The COA continues to work towards city-wide ADA compliance. Many of the pedestrian sidewalks and ramps were constructed prior to the original ADA guidance, so many improvements are retrofitted to best comply

with current standards. At this time, there is limited funding to address all sidewalk and ramp needs at one time, so improvement strategies are required. As the COA continues to improve the existing pedestrian sidewalks and ramps, this Transition Plan will assist in establishing a strategic direction to maximize the potential for improvements, outline a schedule for future efforts and quantify budget needs for the required curb ramp and sidewalk improvements needed throughout the City.

2. Introduction to the City of Albuquerque

Albuquerque, New Mexico was founded in 1706 and was known as La Villa de Albuquerque, with a population of 250. With an existing population of approximately 560,000, as of July 1, 2016, the City of Albuquerque is known as the largest city in the state of New Mexico. With popular landmarks and facilities, such as the Rio Grande, Route 66, Kirtland Air Force Base, Sandia National Laboratories, University of New Mexico, and Central New Mexico University, the city continues to grow. Since 2010, the population has grown at a rate of 2.4%.

According to the United States Census Bureau, Albuquerque has a total land area of 187.73 square miles. The City's topography varies greatly with elevations ranging from 4,900 feet to over 6,700 feet above sea level. With 2,274 center lane miles of roadway maintained by the COA, Albuquerque has many curb ramp and sidewalk infrastructure within the current roadway network. See **Figure 1** for an existing land use map, including the top land use areas.

As shown in **Figure 1**, land use includes agriculture, commercial, drainage, industrial, parks and recreation, single family residential and multi-family residential, just to name a few. See **Table 1** for land use within city limits by type and area in square miles.

Table 1: Existing Land Use

Description	Agriculture	Commercial/ Retail	Drainage	Industrial	Parks and Recreation	Public/ Institutional	Single Family Residential	Multi-Family Residential	Vacant/Other
Square Miles	0.3	5.6	4.0	2.8	27.5	7.5	46.5	5.1	45.5

3. Introduction to ADA

The Americans with Disabilities Act (ADA) was enacted on July 26, 1990, and later amended effective January 1, 2009. As written and implemented, the ADA provides comprehensive civil rights protections to persons with disabilities in the areas of employment, state and local government services, access to public accommodations, transportation, and telecommunications.

The ADA is a companion civil rights legislation to the Civil Rights Act of 1964 and Section 504 of the Rehabilitation Act of 1973. In order to be protected by the ADA, one must have a disability or have a relationship or association with an individual with a disability. An individual with a disability is defined by the ADA as a person who has a physical or mental impairment that substantially limits one or more major life activities, a person who has a history or record of such impairment, or a person who is perceived by others as having an impairment. The ADA, however, does not specifically name all of the impairments that are covered.

The ADA is divided into five sections covering the following topics:

- Title I: Employment
- Title II: Public Services (and Transportation)
- Title III: Public Accommodations (and Commercial Facilities)
- Title IV: Telecommunications
- Title V: Miscellaneous Provisions

Title II specifically prohibits state and local governments from discriminating against persons with disabilities or from excluding participation in or denying benefits of programs, services, or activities to persons with disabilities. The COA is recognized as a municipality, and as such the COA provides public facilities and transportation services to all individuals without discriminating against persons with disabilities, specifically related to curb ramps and sidewalks within the communities it serves. This Transition Plan is intended to outline methods by which physical changes will be made to give effect to the non-discrimination policies described in Title II.

4. Transition Plan Development

To provide a strategic and directed accessibility program for people with disabilities in the community, the COA has developed this Transition Plan, which is considered to be good practice. This Transition Plan for public rights of way commitments are focused on making the City's curb ramps and sidewalks ADA accessible, when pedestrian facilities are present. To implement this program, this Transition Plan considers the following four elements essential for compliance and implementation, which are further discussed in this section:

1. Establishing an ADA Coordinator;
2. Self-Evaluation/Commitment;
3. Inspection Forms; and
4. Funding.

4.1.1 Official Responsible

The official responsible to implement the DMD COA ADA Transition Plan is Patrick Montoya, Director of the Department of Municipal Development.

4.1.2 ADA Coordinator

Effective communication is essential in order to address the ADA related concerns of all COA residents. In order to maintain open lines of communication, and thereby ensuring effective communication between all parties, the COA has designated the Human Resources Officer as the ADA Coordinator. The ADA Coordinator shall investigate and assign all ADA related concerns and coordinate the COA's efforts to comply with and carry out its responsibilities under Title II of the ADA. Concerns communicated to the ADA Coordinator are also known as Grievance Procedures. Such concerns may take the form of identifying potential noncompliance with ADA mandates or identifying actions that would potentially be prohibited under the ADA. Every concern must be directed to the COA ADA Coordinator. The specific Grievance Procedure for the COA is described in more detail in **Section 5.4** of this report.

The COA understands that if there is a concern submitted through the Grievance Procedure process that is not directly related to a curb ramp or sidewalk on the COA system, but relates to the pedestrian path which provides access to these facilities, that the concern will be forwarded to the department and/or agency that has jurisdictional responsibility to address the concern. Facilities may fall within multiple jurisdictions within the City. Partnering municipalities include the New Mexico Department of Transportation (NMDOT), Albuquerque Metropolitan Arroyo Flood Control (AMAFCA), City of Rio Rancho (CORR), and Bernalillo County (BC). There are also various COA departments that maintain pedestrian infrastructure within the city including but not limited to; the Department of Municipal Development, Transit Department, Cultural Services, or the Parks & Recreation Department. This cooperative practice will help address ADA related questions and concerns by reducing the confusion relating to jurisdiction and ownership of pedestrian facilities.

4.1.3 Self-Evaluation/Commitment

The COA conducted a comprehensive inventory of all City maintained curb ramps and sidewalks in 2016. This assessment used a desktop evaluation and visual assessment, which was performed using the GPS

imagery collected curing 2016, available imagery on the internet, Microsoft Access Forms, an ArcMap GIS database and direct input from the COA staff. Field work was not part of this assessment and is to be performed on a project-by-project basis as improvements are made. The COA recognizes that these pedestrian sidewalks and curb ramps are the responsibility of the COA. There are some pedestrian facilities that may fall within BC, AMAFCA, CORR or NMDOT right of way, which may connect to the COA owned facilities. Together, the COA and other public agencies cooperatively play a key role in providing safe and compliant access to government programs and services, particularly the COA curb ramp and sidewalk pedestrian facilities which this Transition Plan addresses. **The COA's commitment for this ADA Transition Plan is as follows:**

- All new construction, reconstruction, roadwork construction or alterations, including federal projects will be in compliance with the current ADA standards; and
- In setting timelines for implementing this Transition Plan for existing curb ramp and sidewalk enhancements, the actual number of pedestrian facility improvements installed in any given year is related directly to the COA's new development and is limited by the COA's annual financial budget limitation. The missing or non-compliant ADA pedestrian facilities in need of improvement shall be prioritized based on surrounding land use(s) that correlate to potential pedestrian activity, the potential for a positive impact to the community and availability of land for needed ADA improvements.

4.1.4 Inspection Forms

For future capital improvement projects, each curb ramp and sidewalk location will require a field assessment to be conducted as part of the project development process in order to determine the level of impact and investment required to address the ADA related improvements. The desktop evaluation performed for this Transition Plan Update, was determined based on physical features and barriers identified in each photograph, as described in more detail in **Section 7** of this report.

This plan provides inspection forms, located in **Appendix F**, for various types of existing curb ramps and sidewalk infrastructure. The forms may be used in order to determine if existing curb ramps meet required slopes, widths and clearances and if existing sidewalks meet required slopes and widths, all which are to be measured and verified in the field with a 2-foot smart level. The forms provide a pre-improvement document and a constructed inspection document. If a curb ramp or a section of sidewalk requires improvements, the slopes, widths and clearances can be recorded of the existing infrastructure along with the improved infrastructure. These inspection forms will allow the COA to document the specifics of existing infrastructure, make improvements as needed, and update the inventory in the GIS database so to maintain a current inventory of sidewalks and ramps. The forms include information relating to:

- Location
- Slope information
- Traffic control (stop sign versus signalized intersection)
- Widths

- Lengths
- Photos of each location *before* improvements have been made and *after* improvements have been made

See **Section 7** of this report, Evaluation Methodology and Findings, for further information on the evaluation and analysis of the desktop review.

4.1.5 Funding

The COA is continuously making improvements to the existing pedestrian ramps and sidewalks. To program improvements to meet current ADA standards, significant funding and budget planning is required. Generally, funding for these types of retrofitting improvements is provided by local government funding, typically federal and state, as the main funding source. The COA also allocates necessary budgets for specifically identified ADA improvement projects as well.

Current dedicated funding, set in place to help address City-wide ADA needs, for the 2018 and 2019 fiscal years includes $550,000 per two-year bond cycle. Requests have been made for an increase in funding for the 2020 fiscal year and for future years. Funding for these improvements is provided by a variety of financial mechanisms. Among them are the General Obligation Bond Funds (GO Bonds), as well as federal and state grants, all of which are limited and are not enough to address all of the identified needs at one time.

5. Public Participation and Input

City of Albuquerque residents are able to take advantage of the following outreach efforts that are currently on-going or were conducted for this Transition Plan Update.

5.1 ADA Transition Plan Update Public Efforts

- **COA ADA Advisory Council**: The mission of the ADA Advisory Council is to support the civil rights of the Albuquerque community for all people with disabilities. The council is made up of seven members, whom are individuals with disabilities. The council meets monthly to discuss items with COA staff and the attending public. Coordination with the ADA Advisory Council was performed throughout the development of this Transition Plan Update. Updates were provided to council members, as requested.

- **Website**: The COA Office of Equity & Inclusion website was used to publish information about the project. The website also includes an online discrimination complaint form, which may also be utilized as part of the Grievance Procedure, as described in **Section 5.4**.

- **Public Meetings**: Four Public Meetings were held for the purpose of this Transition Plan Update and to inform the public of the update. Meetings were broken down by city quadrants and advertised in the local newspaper. A project presentation was given at the beginning of each meeting. At the end of the presentation, attendees were given the opportunity to ask any questions or provide comments. Meeting presentation materials and minutes of each meeting are included in **Appendix A**.
  - Public Meeting #1 – June 14, 2017 - Central & Unser Library
  - Public Meeting #2 – June 29, 2017 - Taylor Ranch Community Center
  - Public Meeting #3 – July 12, 2017 - North Domingo Baca Multi-generational Center
  - Public Meeting #4 – July 26, 2017 - Manzano Mesa Multi-generational Center

- **Email**: A designated email address was set up by the COA specifically for this project, CABQ_ADA@cabq.gov. This address was provided to the public as a resource contact for any questions, comments or concerns during the length of this project.

5.2 City of Albuquerque On-going Public Resources

- **COA ADA Advisory Council**: The Advisory Council meets the first Tuesday of every month in the COA Council Chambers. The public is welcome at each monthly meeting. Meeting announcement, agendas and further information can be found at the following website: https://www.cabq.gov/americans-with-disabilities-act-advisory-council

- **Website**: The COA Office of Equity & Inclusion website can be used to access information about ADA, to report a discrimination in employment, housing, public accommodations, amongst other forms of discrimination, view frequently asked questions, and public information and education.

This information, amongst various other updates can be accessed at the following website: https://www.cabq.gov/office-of-equity-inclusion

- **Website:** The COA Department of Municipal Development website can be used to access information about the departments' services, current construction projects, including ADA facilities, and contact information. The form to report a physical ADA deficiency, as discussed in **Section 5.4.1**, can also be found here. This information can be accessed at the following website: https://www.cabq.gov/municipaldevelopment

- **Email**: The email address CABQ_ADA@cabq.gov will remain active in order to provide the public an additional resource contact for any questions, comments or concerns that may arise in reference to ADA facilities.

5.3 ADA Transition Plan Public Review and Comment Period

A public entity with more than 50 employees is required to seek public input on its ADA Transition Plan. Public input is necessary in order to assure that those directly affected by ADA facilities understand the scope of work and the responsibilities held by the COA. As previously discussed, this Transition Plan Update is an update to the current 2009 report, providing documentation of the COA's improvements process and efforts to improve ADA facilities since 2009.

This Transition Plan Update was posted to the COA's website on October 16th, 2017, for a 30-day period for public review and comment. The COA will employ the Equity & Inclusion Offices to distribute the posted report location to the public. Outreach to the COA ADA Advisory Council will be made, among other groups and associations, including but not limited to; NM Human Rights Bureau, Office of Neighborhood coordination, Southwest ADA Center, and the State of NM Governor's Commission on Disability. Comments received during the 30-day time period will be reviewed, analyzed and incorporated in their entirety into an appendix of the final ADA Transition Plan, as appropriate. See **Appendix A** for Public Participation documentation.

5.4 Grievance Procedure

This Grievance Procedure is established to meet the requirements of the Americans with Disabilities Act of 1990 (ADA). It may be used by anyone who wishes to report an ADA deficiency and/or concern alleging discrimination on the basis of disability in the provision of services, activities, programs, or benefits by the COA. The COA's Employee Handbook governs employment-related complaints of disability discrimination.

5.4.1 Informal Complaint Process

The first step of the Grievance Procedure is through the Informal Complaint Process. This process consists of reporting a concern/issue with ADA facilities within public right of way directly to the COA. The COA has various options for the public to report concerns, issues or questions in reference to ADA facilities. The COA Equity & Inclusion website contains a web based mapping tool, SeeClickFix, for users to provide online input for such complaints. The SeeClickFix App can also be downloaded to any smart phone. The 311 Citizen Contact Center is utilized for non-emergency services, where complaints, issues, requests, or

questions can be made. The form to report a physical deficiency can be found in **Appendix B** of this report. Alternative means of filing complaints, such as personal interviews or a tape recording of the complaint, will be made available for persons with disabilities upon request. See **Table 2** for a summary of contact options.

Table 2: City of Albuquerque Contact Options to Report ADA Concern

Contact Option	Description
Equity & Inclusion Website	https://www.cabq.gov/office-of-equity-inclusion
311 Citizen Contact Center	311 phone service
Report a Physical Deficiency Form	PDF located in Appendix B of this report
ADA Email Address	CABQ_ADA@cabq.gov

The report provided should be in writing and contain information about the details such as name, address, phone number of complainant and location, date, and description of the problem. The report should be submitted by the grievant and/or his/her designee as soon as possible but no later than 45 calendar days after the alleged violation to:

DMD Engineering Division
Attention: Division Manager
P.O. Box 1293
Albuquerque, NM 87103

5.4.2 Formal Complaint Process

If the informal response does not satisfactorily resolve the issue, the person reporting the concern and/or his/her designee may submit a formal complaint as soon as possible but no later than 45 calendar days after response from the COA.

Within 15 calendar days after receipt of the formal complaint, the COA ADA Coordinator or his/her designee will contact the complainant to discuss the complaint and identify possible resolutions. Within 30 calendar days after the discussion, the COA ADA Coordinator or his/her designee will respond in writing and, where appropriate, in a format accessible to the complainant, with a final resolution of the concern.

5.4.3 Appeal Process

If the response by the ADA Coordinator or designee does not satisfactorily resolve the issue, the complainant and/or his/her designee may appeal the decision within 15 calendar days after receipt of the response to the COA's Chief Administrative Officer or their designee. Within 15 calendar days after receipt of the appeal, the COA Chief Administrative Officer or designee will coordinate with the complainant to

discuss the complaint and possible resolutions. Within 15 calendar days after the meeting, the City of Albuquerque Chief Administrative Officer or designee will respond in writing, and where appropriate, in a format accessible to the complainant, with a final resolution of the complaint.

All written complaints received by the COA ADA Coordinator or his/her designee, appeals, and responses will be retained by the COA for at least one year after the Grievance Procedure has been resolved. The electronic Grievance Form and online mapping tool are available at the COA's website https://www.cabq.gov/office-of-equity-inclusion or by contacting the COA Equity & Inclusion offices.

6. ADA Standards/Guidelines

The COA standards are intended to apply to all curb ramp and sidewalk construction undertaken by the COA within public right of way and/or where private land easements exist. The NMDOT design guidelines and standard drawings, and the Public Right of Way Access Guidelines (PROWAG) will serve as the primary standards and guidelines used to evaluate existing facility compliance in this Transition Plan Update.

The guidelines and standards set forth by the United States Access Board, 36 CFR 1190, Chapter R3 Technical Requirements, were used for this ADA Transition Plan to conduct the assessment to identify ADA related deficiencies. The United States Access Board documentation can be found using the following hyperlink:

https://www.access-board.gov/guidelines-and-standards/streets-sidewalks/public-rights-of-way/proposed-rights-of-way-guidelines/chapter-r3-technical-requirements

The PROWAG technical requirements for curb ramps and sidewalks were those utilized for this Transition Plan Update. The requirements for these features are described in more detail below.

6.1 Sidewalk Standards

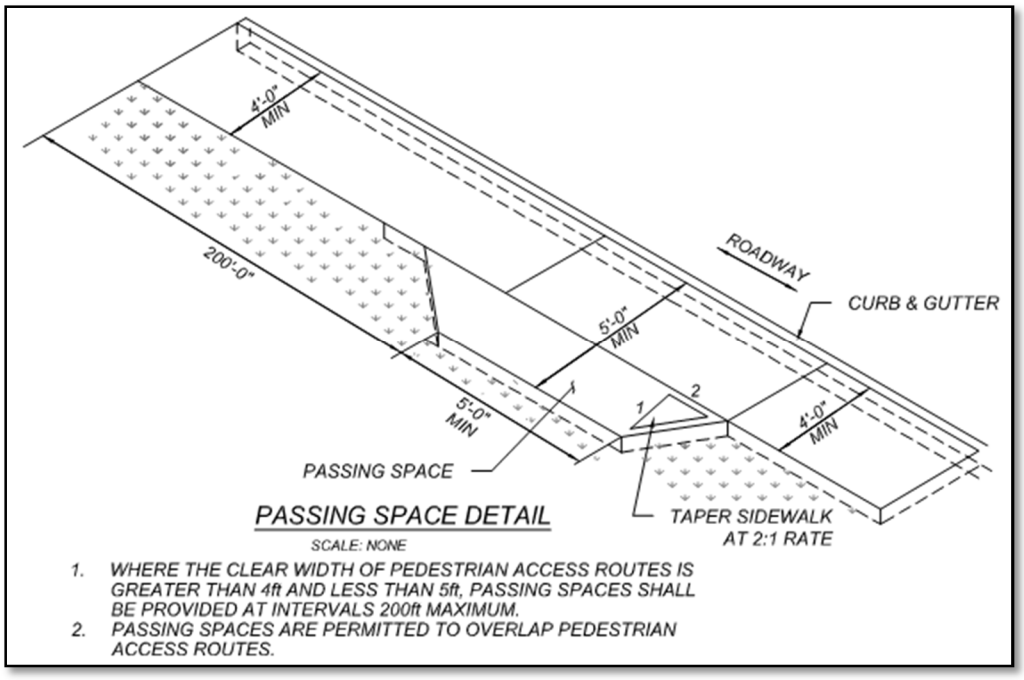
A pedestrian access route (PAR) is defined as one or more of the following features:

- Sidewalk;
- Pedestrian street crossing or at-grade rail crossing;
- Pedestrian overpass or underpass; and
- Curb ramps and blended transitions.

New construction, reconstruction, or roadway alterations of the above listed PAR features must comply with various technical requirements. Requirements which apply to all PAR features, including sidewalk, are as follows:

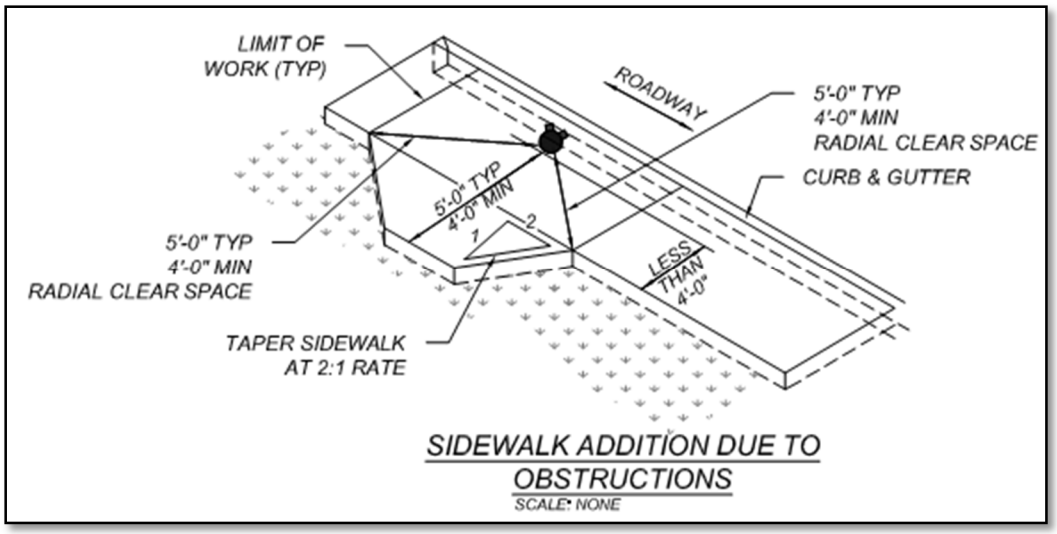
- A clear width of 4-foot minimum, this width is independent of the curb width.
- Median refuge islands shall have a clear width of 5-foot minimum.
- Where the clear width is less than 5 feet, passing spaces shall be provided every 200 feet.
    - Passing spaces shall be a minimum of 5-foot by 5-foot, see **Figure 2**.
- Where a PAR is within a roadway right of way, the grade shall not exceed the grade of the roadway.
    - In any other cases, the PAR shall not exceed 5%.
- The grade at a pedestrian street crossing shall not exceed 5%.
- The cross slope, which is measured perpendicular to the direction of pedestrian travel, shall not exceed 2%.
- Surfaces shall be firm, stable and slip resistant.
- The vertical alignment shall be flush with discontinuities of ½-inch maximum.
- Horizontal openings, such as grates and joints, shall not have an opening more than ½-inch in diameter.

Figure 2: Passing Space Detail



Where obstructions are present within the sidewalk, a clear width of 4-foot minimum must be maintained around the obstruction. Based on the evaluation of existing COA sidewalk and curb ramp facilities, many obstructions were observed within the sidewalk and ramp areas. See **Section 7.3** of this report, for obstruction types documented. If the obstruction is too costly to relocate, options to widen the sidewalk around the obstruction may be a possibility, as show in **Figure 3** below.

Figure 3: Sidewalk Obstruction Detail



6.2 Curb Ramp Standards

There are two types of curb ramps recognized in the PROWAG standards, perpendicular curb ramps and parallel curb ramps. These curb ramp types and blended transition curb ramps, which are also used by the COA, are further described below.

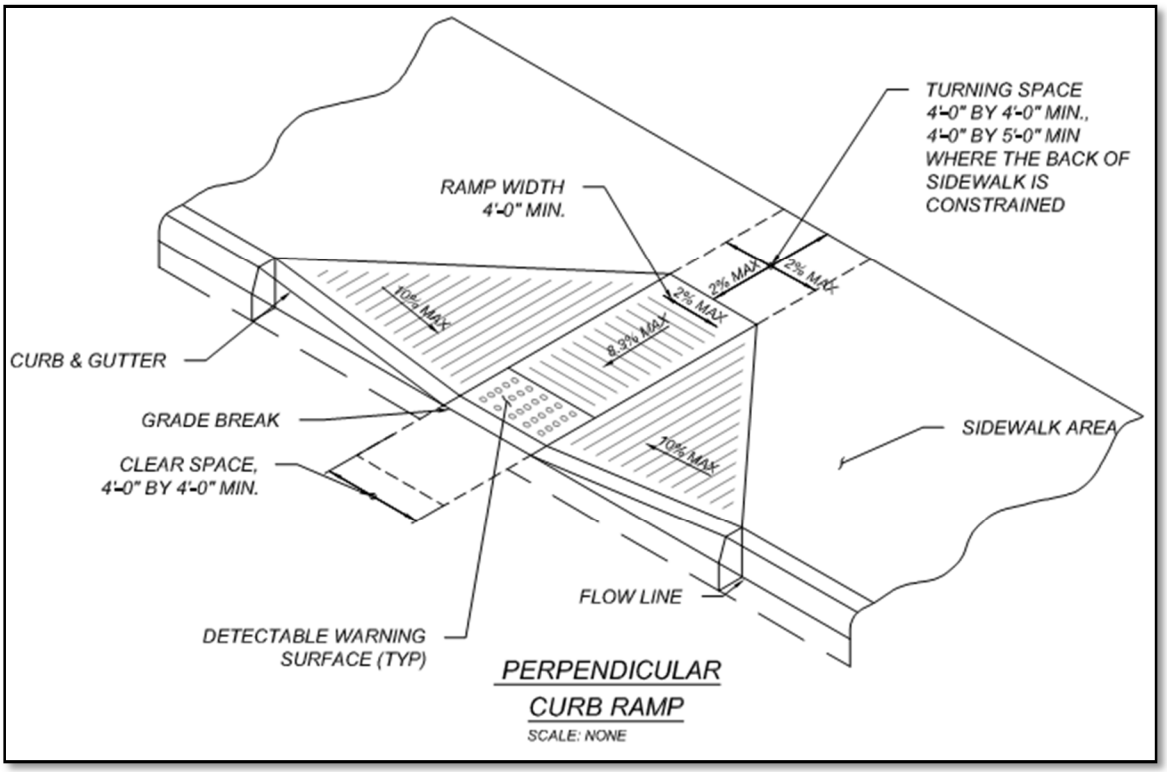
Common features of all curb ramps include the following:

- Ramps shall have a minimum 4-foot clear width.
- Grade breaks shall be perpendicular to the direction of the ramp.
- Cross slope shall be 2% maximum.
- Counter slope of the gutter pan or roadway shall be 5% maximum.
- A clear space of 4-foot by 4-foot shall be provided within the street crossing and outside the vehicle travel lane.
- A detectable warning surface shall consist of truncated domes.

6.2.1 Perpendicular Curb Ramps

Perpendicular curb ramps have one ramp leading towards a level landing. The landing is located at the same elevation as the sidewalk, or at the top of the ramp. The path of travel and the slope are aligned so the ramp meets at the curb or the roadway at right angles. See **Figure 4** for a detail of a perpendicular curb ramp.

Figure 4: Perpendicular Curb Ramp Detail



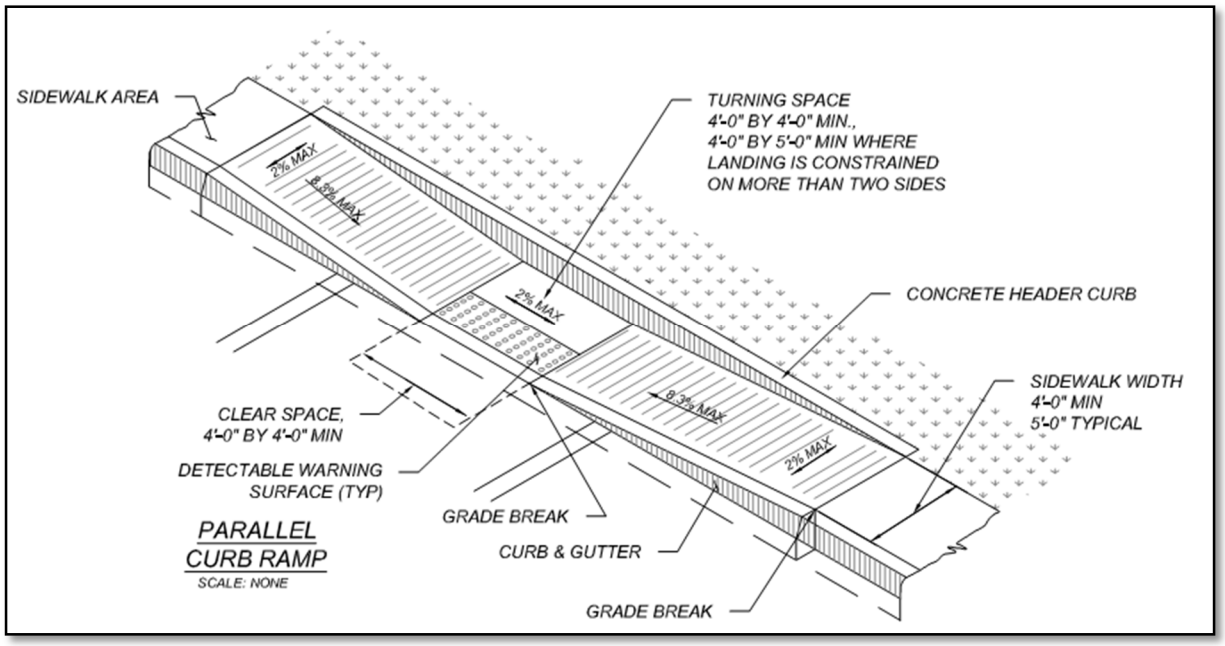
Technical requirements for perpendicular curb ramps include the following:

- Turning spaces or landings shall be a minimum of 4-foot by 4-foot. Where the landing is constrained at the back of the sidewalk, the turning space shall be a minimum of 4-foot by 5 foot, with the 5-foot dimension in the direction of the ramp.
- Slopes shall be 8.3% maximum and shall not require the ramp length to exceed 15-feet.
- Slopes of turning spaces or landings shall not exceed 2%.
- Flared sides shall not exceed 10%, measured parallel to the curb.

6.2.2 Parallel Curb Ramps

Parallel curb ramps have two ramps leading towards a level landing. The landing is located at the bottom of the ramp, at the same elevation as the roadway. The path of travel and the slope is parallel to both the pedestrian and vehicular traffic on the adjacent street. See **Figure 5** for a detail of a parallel curb ramp.

Figure 5: Parallel Curb Ramp Detail



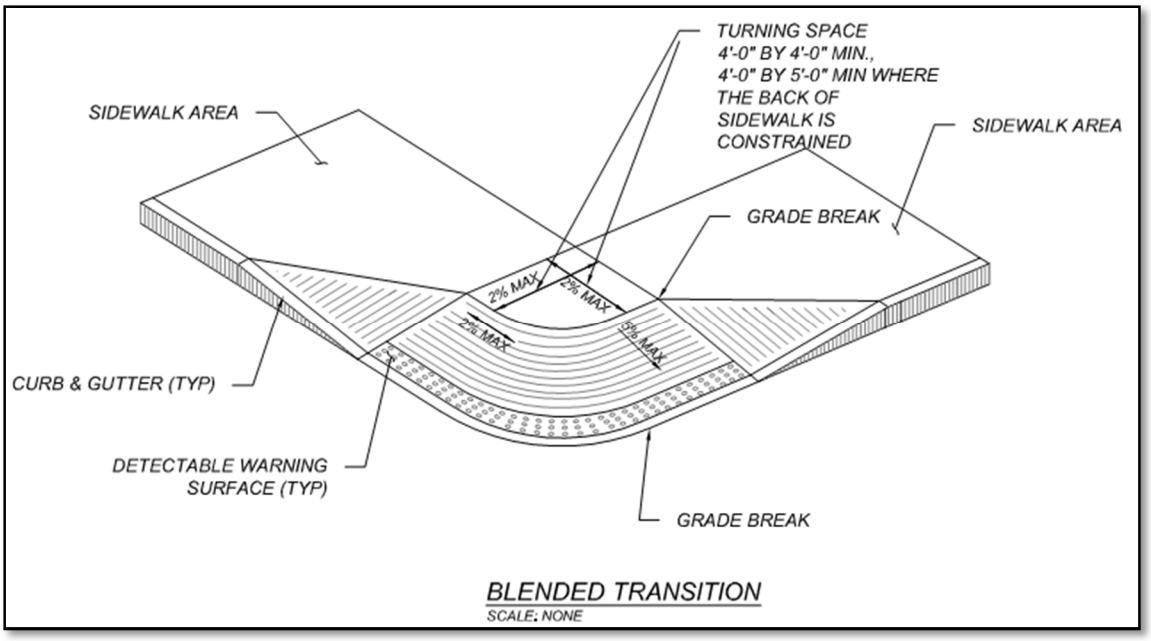
Technical requirements for parallel curb ramps include the following:

- Turning spaces or landings shall be a minimum of 4-foot by 4-foot. Where the landing is constrained by more than two sides, the turning space shall be a minimum of 4-foot by 5 foot, with the 5-foot dimension in the direction of the street crossing.
- Slopes shall be 8.3% maximum and shall not require the ramp length to exceed 15-feet.
- Slopes of turning spaces or landings shall not exceed 2%.
- Flared sides shall not exceed 10%, measured parallel to the curb.

6.2.3 Blended Transitions

Blended transitions are curb ramp transitions to the street, or raised street crossings which includes depressed corners at the level of the sidewalk. The slope shall not exceed 5%. Blended transitions do not require a landing at the top of the ramp, as the sidewalk acts as the landing. See **Figure 6** for a detail of a blended transition curb ramp.

Figure 6: Blended Transition Detail



6.2.4 Detectable Warning Surfaces

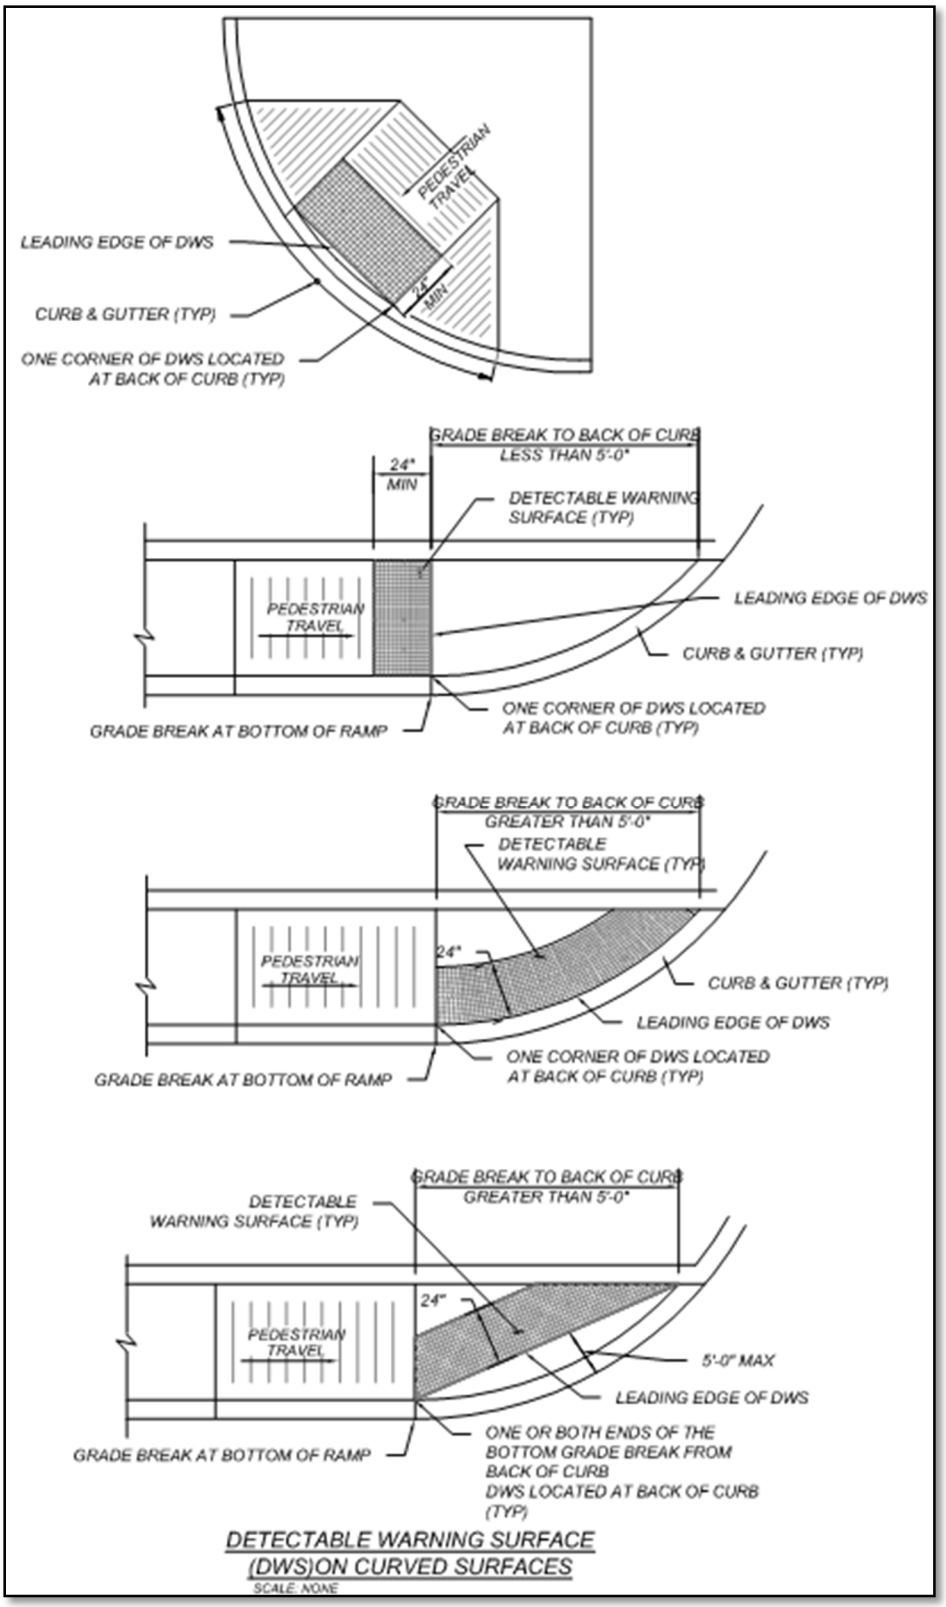
Detectable warning surfaces (DWS) provide a textured and visual surface in order to distinguish the curb line, or entrance to the roadway. The warning surface can easily be detected underfoot and provide warning to users with vision impairments. The following technical requirements for detectable warning surfaces include:

- Dome sizes shall be between 0.9-inches and 1.4-inches in diameter.
- Dome spacing shall have a center-to center spacing of 1.6-inches to 2.4-inches.
- Warning surface shall contract visually with the adjacent curb and gutter (e.g. light on dark or dark on light).
- Size shall extend the width of the ramp by 2-foot minimum, in the direction of travel.

6.2.4.1 Detectable Warning Surface Placement

Placement of DWS varies by ramp type. Perpendicular curb ramps shall have DWS where the ramp running slope meets the curb and gutter, at the location of the roadway. Parallel curb ramps shall have DWS placed on the turning space, where the turning space meets the curb and gutter. On blended transitions, DWS shall be placed at the back of curb, where the ramp running slope meets the curb and gutter. The placement of DWS is important and is standardized so the visually impaired user can have a well-understood and predictable condition as they walk near and into traffic. See **Figure 7** for various examples of detectable warning surface placement.

Figure 7: Detectable warning Surface Placement



6.3 Accessible Pedestrian Signal Standards

The COA currently maintains approximately 625 signalized intersections. Push buttons are used to activate a pedestrian crossing signal are located at majority of these intersections, with the exclusion of the downtown areas. In these areas, the pedestrian walk signal is programmed into the signal timing, providing adequate pedestrian crossing times. For this assessment, existing push button locations were evaluated, but the signal equipment was not included in the evaluation at this time, as described in **Section 7** - Evaluation Methodology. New construction projects shall comply with the United States Access Board, Chapter R2, section R209 and X02.5. In these sections, guidance is provided for the proper placement of pedestrian push button locations in reference to curb ramp landings, sidewalks and crosswalks, mounting height and button separation.

Based on current ADA guidelines, X02.5 Pedestrian Street Crossings, where two accessible pedestrian signals are located on the same corner, the push buttons shall be mounted on two separate poles, separated by at least 10 feet. If these separation requirements cannot be met due to location constraints or available right of way restrictions, the push buttons may be installed on a single pole. If installed on the same pole, the push buttons must be equipped to provide audible crossing messages.

Accessible pedestrian signals (size, audible and position) were not inventoried and evaluated as part of this ADA Transition Plan Update. A future effort will be conducted to inventory and evaluate the existing signal equipment as a separate update to this Plan.

7. Evaluation Methodology and Findings

This ADA Transition Plan Update contains a detailed analysis of existing curb ramps and sidewalk, specifically related to physical barriers. The analysis is contained in a GIS database managed by the COA, and documents the evaluated barriers present at the time of a 2016 data collection.

As previously mentioned, the COA performed city-wide data collection to develop a comprehensive inventory of their existing curb ramp and sidewalk facilities. The data collection was completed in the summer of 2016 by Data Transfer Solutions (DTS). The data collection consisted of mobile data collection and roadway imagery for 2,274 centerline miles of right of way managed by the COA. Each sidewalk and curb ramp was documented with a GPS-based photo and GIS data, as further described in this section. This data was then compiled into a GIS database for COA use.

A Microsoft Access Form was used to assist in the evaluation in order to visually assess the GIS data and photo of each individual curb ramp and sidewalk feature. Each curb ramp and sidewalk facility has a unique identification number assigned to it so all future inventories, work orders, improvement projects, etc., can be referenced back to this inventory and provide for on-going tracking of improvements. The evaluation provides a categorized listing of present physical barriers, by barrier type, within each curb ramp and sidewalk location. Improvements made and completed at the time of this Transition Plan Update to curb ramp and sidewalk facilities, occurring between 2012 and 2017 are also documented in the inventory and reflected in the evaluation.

7.1 Summary of Evaluation Effort

A thorough evaluation of the existing curb ramp and sidewalk infrastructure was completed by attributing all characteristics collected during the 2016 data collection process. The characteristics observed during the evaluation were then used to determine probable construction costs. Construction costs were based on the historic costs of similar types of improvements for curb ramps and sidewalks, and through the use of current maintenance costs and average unit construction bid prices for similar construction work. Construction costs were created to estimate how much it will cost to improve the existing curb ramp and sidewalk infrastructure in order to meet current ADA guidelines and standards. All costs for this Transition Plan Update are based on 2017 unit bid prices as they are the most current and available data. The line item unit prices can be used and updated in future years by the COA to determine funding for future construction activities based on updated unit bid price data. Potential right of way needs were documented during the evaluation; however, costs for right of way are not included in this assessment.

7.2 Evaluation Methodology & Collection

The GIS data utilized for this Transition Plan Update consisted of all existing curb ramps, sidewalks, and obstructions within the COA public right of way. Each curb ramp and sidewalk segment was assigned its own asset ID number as a means of identification and on-going tracking. Based on the 2016 data collection, there are 41,831 curb ramps and 37,247 sidewalk segments, which translates to approximately 3,135 miles of sidewalk length. Curb ramps and sidewalks were evaluated separately, as each pedestrian facility has different ADA guideline requirements, as shown in **Section 6** of this report.

7.2.1 Curb Ramp Evaluation

The curb ramp evaluation forms included information from the 2016 data collection, consisting of a photo of the associated curb ramp, an assigned asset ID, and general attribute/feature information. The attributes associated with each curb ramp comprised of location, intersection quadrant, and physical conditions assessments. The physical conditions assessment criteria was established by DTS during the data collection. The curb ramp physical conditions assessment criteria was provided as follows:

- Good (score of 75)
  - Ramp is level with no uprooting
- Fair (score of 50)
  - Ramp has minimal uprooting or cracking
- Poor (score of 25)
  - Ramp has major uprooting or cracking and poses a hazard to pedestrians

As part of the evaluation process, additional characteristics of each curb ramp was documented. Obstructions that exist within the ramp area, based on a GPS referenced digital photo, were documented. In order to account for specific characteristics and possible obstructions, checkboxes were set up within the forms. A checked box provided a "YES" or "TRUE" condition, while an unchecked box provided a "NO" or "FALSE" condition within the database. This information will provide advantages for the COA in maintaining and updating the comprehensive inventory data as construction improvements occur in future years and can be used to track progress towards improving curb ramps in the public right of way. See **Appendix C** for detailed information from the evaluation. The following attributes/characteristics were provided for each curb ramp:

- Yellow Curb is Present;
- Potential Slope Improvements Are Needed;
- Potential Width Improvements Are Needed;
- Truncated Dome Present;
- No Ramp Present;
- Requires Push Button Relocation;
- Potential ROW Cost; and
- Missing Sidewalk Tie-In.

Most of the curb ramps will be coded as "Potential Slope Improvements Are Needed" due to the nature of this analysis being a desktop review. With a desktop review, the curb ramp photos are not adequate in determining if the ramp slopes or cross slopes are within the ADA standards and guidelines. Therefore, most of the curb ramp assets will express that slope improvements may be needed. Slope information will be updated based on a field review analysis during a detailed project scoping and design effort for a roadway maintenance or improvement project.

A list of completed pedestrian facility construction projects, between the years of 2012 and 2017, was provided by the COA. All curb ramps and sidewalks located within the project limits provided were assumed to have implemented the current ADA standards and guidelines referenced for this Transition Plan Update.

Identifying all obstructions within the curb ramp was included in the evaluation. The obstruction criteria is also presented with the ability of a checkbox, as previously described. The observation criteria utilized to evaluate curb ramp obstructions is as follows:

- Mastarm Obstruction;
- Pull Box;
- Pedestrian Push Button Pole;
- Pedestrian Pole;
- Cabinet;
- Meter;
- Utility Pole (wooden pole);
- Light Pole (steel pole);
- Manhole;
- Water Valve or Water Meter;
- Fire Hydrant;
- Guy Wire;
- Vegetation;
- Storm Drain Inlet; and
- Other (add in comments box).

The list of obstruction criteria is noticeably larger than the list of the existing attributes/characteristics. This is a result of distinguishing the obstructions as much as possible in order to provide associated costs to relocate, remove and/or replace each obstruction. As with the existing curb ramp characteristics, all obstructions were determined by what was visually confirmed in the photo assigned to each curb ramp.

To conclude the curb ramp evaluation form, an analysis comment box was provided. The comment box was available to note brief descriptions upon seeing rare observations that may not be described within the available obstruction type section, as listed above. The analysis comment box also notes the name of improvement projects that have been constructed between 2012 and 2017. Lastly, the comment box also denotes the amount of the obstructions that exist, if there are multiple occurrences of the same obstruction. For example, if four manholes are located within the curb ramp, the “Manhole” checkbox was checked, and a comment was provide stating “4 manholes total”.

7.2.2 Sidewalk Evaluation

The sidewalk evaluation form is similar to the curb ramp form; however the process of evaluating the sidewalk assets differed slightly. The sidewalk forms included information form the 2016 data collection,

consisting of a photo associated with each asset, an assigned asset ID, street name the sidewalk is located on, length of the sidewalk segment, existing sidewalk width, and physical condition assessments. The physical conditions assessment criteria was established by DTS during the data collection. The sidewalk physical conditions assessment criteria was provided as follows:

- Excellent (score of 100)
    - Sidewalk appears brand new with no observable damage of any kind
- Good (score of 75)
    - Sidewalk is level with no uprooting or cracking
- Fair (score of 50)
    - Sidewalk has minimal uprooting or cracking; still passable by pedestrian
- Poor (score of 25)
    - Sidewalk has major uprooting or cracking and poses a hazard to pedestrians
- Very Poor (0)
    - Sidewalk is in despair; not safely passable by pedestrians; poses a hazard

As part of the evaluation process, additional characteristics of each sidewalk segment was documented. Obstructions that were observed to fall within the sidewalk or did not appear to provide a 4-foot minimum clear width were also documented. The sidewalk evaluation form also utilized checkboxes to analyze the existing attributes/characteristics as well as any obstruction types that were present at the time of the evaluation. The existing sidewalk width was verified by Wilson & Company (WCI) using the measuring tool in Google Earth. An input field was included on the sidewalk evaluation forms to include "WCI Width" measurements. The Google Earth measurements used for this evaluation were also used to determine passing space needs. Based on current ADA standards, when 4-foot wide or less sidewalk was identified, the number of passing spaces required was determined and included as a separate input. All obstructions for sidewalks were determined by analyzing each GPS-referenced photo provided with the 2016 data, associated with each sidewalk asset ID. It was necessary to view each obstruction photo in order to determine actual sidewalk obstruction types.

The existing sidewalk attributes/characteristics consisted of the following:

- Potential Slope Improvements
- Potential ROW Costs
- Width Improvements Required

It must be noted that most of sidewalk assets will have the "Potential Slope Improvements" box checked due to the nature of this analysis being a desktop review. With a desktop review, the photos are not adequate in determining if the sidewalk cross slopes are within the current ADA standards and guidelines. Therefore, most of the sidewalk assets will express that slope improvements may be needed. Slope information will be updated based on a field review analysis at a later date. Completed pedestrian facility

construction projects between the years of 2012 and 2017 were implemented into the evaluation, similar to the curb ramps.

Identifying all obstructions within the sidewalks was included in the evaluation, similar to the curb ramps. The observation criteria utilized to evaluate sidewalk obstructions is as follows:

- Pole;
- Vegetation;
- Severe Cracking;
- Fire Hydrant;
- Utility;
- Guy Wire;
- Buckled Sidewalk;
- Transit Facility (Shelter, Trash Can, Bench);
- Bench;
- Sidewalk Termination; and
- Other (add in Comments Box).

To conclude the sidewalk evaluation form, an analysis comment box was provided. The comment box was available to note brief descriptions upon seeing rare observations that may not be described within the available obstruction type section, as listed above. The analysis comment box also notes the name of improvement projects that have been constructed between 2012 and 2017. Lastly, the comment box also denotes the amount of the obstructions that exist, similar to the curb ramp form.

Driveways were not included in the 2016 inventory. Based on current ADA standards, driveways may act as passing space locations, depending on the driveway slopes and spacing. Once a driveway inventory and analysis is performed, the number of passing spaces can be determined and revised accordingly.

7.2.3 Pedestrian Push Button Evaluation

Push buttons were evaluated only based on their existing locations as shown in the GPS-referenced photo, provided in the 2016 data. Current ADA guidelines, as outlined in **Section 6.3** of this report, were followed during this evaluation. When existing push buttons were observed to be placed in an impractical location, in reference to the curb ramp landing, or not accessible from the ramp or sidewalk, the “Requires Push Button Relocation” box was checked.

7.3 Evaluation Findings

As described in this Transition Plan Update, the evaluation and analysis of the existing data was performed as a desktop review. Field work was not part of this Transition Plan Update and is to be performed at a later date. The findings and summary provided in this section are based on the desktop evaluation.

7.3.1 Curb Ramp Findings

Based on the evaluation of the 2016 inventory, approximately 12% of existing curb ramps appear to meet current ADA slope standards, which would result in the amount of improvements performed by the COA in the last 5 years. During this evaluation, these locations were assumed to meet current ADA Standards, no field verification was performed. Approximately 70% of curb ramps meet current ADA width standards. Approximately 34% of the existing curb ramps, or roughly 1/3 of the total, may require additional right of way, in order to provide minimum width requirements. Of the existing curb ramp facilities, 15% include truncated domes, which account for the detectable warning surface required by current ADA standards. **Table 3** provides a summary of the evaluation and analysis of the existing curb ramps. See **Appendix C** for a detailed breakdown.

Table 3: Existing Curb Ramp Summary

Attribute/Characteristic Description	Slope Meets Current Standards *	Width Meets Current Standards	Truncated Domes Present	Potential ROW Needs	Missing Ramp	Pedestrian Push Button Relocation Required
Number of Attributes	4,929	28,681	5,907	13,745	5,422	1,053
Percent of Curb Ramps	12%	70%	15%	34%	13%	3%

*Slope is assumed to meet current ADA standards.

Private utility infrastructure was included in the obstructions analysis, which generally are not always a cost to the COA, if relocations are required. This infrastructure included power poles, boxes, transformers, etc. Over 16,387 obstructions were observed within the existing curb ramp facilities. A breakdown of obstruction type and the total number of each obstruction observed within the curb ramps are provided below in **Table 4**. The attribute titled “Other Obstruction”, included obstructions such as private utility boxes/poles, gates, fences, walls, bollards, various signal equipment or damaged concrete. Shown below, **Figure 8** provides examples of the obstructions observed within curb ramps during the analysis. See **Appendix C** for additional inventory information.

Table 4: Summary of Curb Ramp Obstructions

Curb Ramp Obstruction Type	Utility Pole	Fire Hydrant	Pull Box	Water Meter or Valve Cover	Traffic Signal	Light Pole	Manhole Cover	Guy Wire	Pedestrian Pole	Vegetation	Other Obstruction
Total Number of Obstruction	2,985	1,540	1,058	795	605	577	301	128	120	2,839	4,216
Percent of Ramps With Obstructions	7%	4%	3%	2%	2%	2%	1%	1%	1%	7%	10%

Figure 8: Examples of Existing Curb Ramp Obstructions

7.3.2 Sidewalk Findings

Approximately 69%, or more than 2/3 of all existing sidewalk assets, maintain an adequate clear width of 4-foot minimum. In a conservative assessment, 56% of existing sidewalks may require additional right of way in order to widen the existing facilities or to add passing spaces. Passing space needs and total number required were included in the analysis. Passing spaces are required when the clear width is less than 5-feet wide and are required at 200-foot intervals. A total of 52,572 passing spaces are required for the existing sidewalk infrastructure, based on this analysis. **Table 5** provides a summary of the evaluation and analysis of the existing sidewalks. See **Appendix C** for a detailed breakdown.

Table 5: Existing Sidewalk Summary

Attribute/Characteristic Description	Sidewalks Less Than 4' Wide	Sidewalks 4' Wide or Greater	Potential ROW Needs	Passing Spaces Required
Number of Attributes	11,407	25,751	20,917	52,572
Percent of Sidewalks	31%	69%	56%	-
Miles of Impacted Sidewalk	1,003	2,123	2,064	2,344

Obstructions within the sidewalk included similar types as found in the curb ramp analysis, with the inclusion of physical condition, such as severe cracking or buckling. In regards to physical condition of the sidewalks, approximately 13% of existing sidewalk assets had severe cracking or buckling. Sidewalk obstructions were accounted for when a 4-foot clear width was not observed. There were 10,760 obstructions observed within existing sidewalk facilities. Pole obstructions, which included power poles and light poles, were observed to be the most common obstruction with approximately 5%. The attribute titled "Other Obstruction", included obstructions such as signal equipment, bollards, mailboxes and trash cans. **Table 6** provides a summary of existing sidewalk obstructions. Shown below, **Figure 9** provides examples of the obstructions observed within existing sidewalks during the analysis. See **Appendix C** for additional inventory information.

Table 6: Summary of Sidewalk Obstructions

Sidewalk Obstruction Type	Buckled Sidewalk	Severe Cracking	Pole Obstruction	Fire Hydrant	Guy Wire	Private Utility	Transit Facility/Bench	Vegetation	Other Obstruction
Number of Obstructions	2,726	2,193	1,978	1,390	339	230	106	14,985	6,718
Percent of Sidewalks With Obstructions	7%	6%	5%	4%	1%	1%	1%	40%	18%

Figure 9: Examples of Existing Sidewalk Obstructions

Based on the analysis, vegetation appears to be one of the most common obstructions found within the existing curb ramps and sidewalks. Streets, sidewalks, and other public rights of way are for everyone's use. They add value to private property by providing access to the property and a way to get to other places within the city. While the COA maintains vegetation located at intersections in order to maintain sight distance for vehicles, other vegetation located within the public right of way and vegetation overhanging is the responsibility of the home or business owner. Property owners are responsible for maintaining part of the public right of way adjacent to their property, including the sidewalk, planting strip/buffer (area between the street and sidewalk), shoulder, unpaved alleys, and walkways. Overgrown trees and shrubs endanger everyone when they block the view of traffic signs, signals, vehicles, or block a path or walkway. Trimming vegetation and caring for street trees are effective ways citizens and the COA can enhance neighborhood safety together.

If vegetation becomes an issue, either located within the sidewalk, a curb ramp, or the pedestrian access route, the issue can be reported to the COA. When a vegetation issue is reported to the COA, a letter is sent to the private property owner requesting the owner to prune the overhang/weeds/bush/etc. The 311 phone services and the online SeeClickFix App are the best methods of reporting vegetation issues to the COA.

Vegetation issues are prioritized by safety concerns, and the COA's response is dependent on available crews and resources, weather, the length of the growing season, and impacts of early or extended rainfall.

7.4 Construction Estimates

Various publications were used to develop the cost estimates for this Transition Plan Update. The publications used included; the 2009 COA Unit Cost Guide, with an inflation factor of 12%; 2017 COA on-call unit prices, COA bid tabs, and NMDOT Bid Express. To develop costs associated with materials and components required for these curb ramp and sidewalk improvements, an average unit cost for each component was created. For example, components of replacing a curb ramp include concrete removal and disposal, new concrete, truncated dome, and obstruction relocation, if required.

Once the existing curb ramp and sidewalk infrastructure was evaluated, construction costs associated with the potential improvements were created. Estimates were developed to show the improvement costs for each curb ramp and sidewalk asset ID. Estimates for sidewalk improvements were limited to the cost of 100 linear feet of sidewalk replacement per asset ID. Curb ramps requiring slope or width improvements were included in this cost analysis. Sidewalks less than 4-feet wide were included in this cost analysis. Obstruction improvement costs include all utility, private and public, relocation costs. Right of way needs and their associated costs are not included in the improvement cost estimates. **Table 7** provides a summary of existing curb ramp improvements costs. **Table 8** provides a summary of existing sidewalk improvement costs. See **Appendix E** for detailed 2017 construction unit price assumption information.

Table 7: Curb Ramp Improvement Costs

Description	Total Amount
Curb Ramp Replacement Only	$98,490,000
Obstruction Improvements Only	$125,503,000
Total Curb Ramp Improvements	**$223,993,000**

Note: Year 2017 unit prices provided.

Table 8: Sidewalk Improvement Costs

Description	Total Amount
Passing Spaces	$29,025,555
Replace 100' of Sidewalk Per Asset ID	$131,469.50
Obstruction Improvements Only	$39,022,000
Total Sidewalk Improvements	**$199,517,055**

Note: Year 2017 unit prices provided.

8. ADA Implementation Plan

The COA intends to implement this Transition Plan effective the date of this document. The COA commits to following the ADA standards and guidelines set forth in this Transition Plan for all new construction, reconstruction or alteration projects. The COA commits to actively maintaining this information by revising and amending this document and GIS database associated with the data, as new information is discovered through additional assessment, submitted complaint forms and updated standards from the United States Access Board. See **Appendix G** for the improvement progress that has made to sidewalk and curb ramp facilities by the COA since this report was finalized in December 2017.

Annually, the COA will assess the ADA Transition Plan needs and budget, and provide dedicated funding to make scheduled progress towards making the COA pedestrian facilities fully accessible based on established procedures.

The GIS data associated with this ADA Transition Plan is intended to be a living document that is intended to be reassessed periodically to maintain compliance as ADA standards are updated. The detailed inventory and tracking mechanisms established with this update will allow for on-going progress to be monitored while complying with current ADA standards, and assess how future changes to ADA standards may impact the COA.

8.1 Department of Municipal Development Plan

The COA is continuously making improvements to pedestrian facilities city-wide through the capital improvement project (CIP) construction program. These improvements are made through various City departments. The Department of Municipal Development (DMD) handles the majority of issues or concerns that may arise, in reference to ADA facilities within the public roadway right of way.

DMD is made up of seven divisions, all of which participate in capital improvements related to ADA compliance. Traffic Engineering receives ADA concerns regarding traffic signal push buttons, or other various signal equipment issues that require repair or replacement. Facilities and Energy Management receives ADA concerns regarding the City facilities they maintain and makes any necessary corrections, upon request. Construction Services (CSD) receives 311 sidewalk concerns and reported emergencies. The Construction Management section of CSD performs specific ADA improvement projects at the request of other Divisions and/or Departments. Street and Storm Maintenance receives concerns regarding ADA compliance on existing pedestrian infrastructure. If it is minor repair work, Street and Storm Maintenance may make the repair with internal crews, but if the issue is of a larger scale, it may be sent to Engineering Design Services to be addressed. Engineering Design Services receives ADA requests for capital improvements within the City right of way. The Engineering Department is tasked with evaluating right of way deficiencies, ADA ramps, corridors, and requests for missing sidewalk, along with ADA deficiencies related to CIP projects. They determine improvement priorities and whether to package an ADA deficiency fix into a larger project or simply make it a stand-alone project. The Capital Implementation Program works with median and renovation projects. Parks Construction Engineering workw with new and existing

park infrastructure, including making improvements to ADA facilities within existing park areas (not included in this evaluation).

The COA will continue to make ADA related improvements while implementing the ADA Transition Plan. The COA approach is to focus on trying to deliver the most cost effective process in order to provide ADA compliance and to provide the greatest amount of benefit to the public, with the addition of existing and future CIP projects.

The types of projects that may be included in the Transition Plan Update can be categorized as follows:

- Curb ramp, sidewalk and intersection improvement projects included with a street maintenance or construction project;
- Curb ramp, sidewalk and intersection improvement projects in concurrence with new development or private parties;
- Curb ramp, sidewalk and intersection improvement projects considered crucial for mitigation of barriers based upon the finalized transition plan;
- Street and sidewalk construction projects planned for the improvements of pedestrian facilities;
- Signal projects;
- Roadway improvement projects.

8.1.1 DMD ADA Transition Plan Recommendations

In creating priorities for this Transition Plan Update, it is the COA's intent to evaluate all ADA related improvement needs and to make sidewalk and curb ramp improvements where necessary when funding is available. As demonstrated in **Section 7**, there is a significant need for curb ramp and sidewalk ADA improvements. This significant need is greater than the funding available to address all of the deficiencies, so the strategic prioritization of improvements is important to maintain as an on-going process. Prioritizing pedestrian improvements is intended to maximize funding spent to assist the public to address specific concerns of the local disabled community, and based on the greatest potential for public use of the sidewalk and curb ramp. It is the intent of the COA to reasonably accommodated individuals with disabilities within the City of Albuquerque.

For this evaluation, factors including land uses such as proximity to schools, public facilities, commercial centers and nursing homes, along with roadway functional classification was analyzed. With faster speeds and higher-activity land uses, arterial roadways generally have the greatest amount of traffic demand; therefore given the highest investment priority. Collector roadways are those with less traffic than arterial roads, generally have slower speeds and have less intensive land uses; therefore identified as a moderate investment priority. Residential roadways, which have the lowest amount of traffic, the slowest speeds, and lower intensities of land uses, have been identified as low investment priorities. There is an understanding that those areas where residential areas connect with the arterial streets may have higher activity, and thus a higher need for improvement. Improvement strategies related to corridors and other CIP projects will take this into consideration during the project development process.

Based on functional classification, curb ramps should be installed at all locations where they are missing and necessary to complete the pedestrian access route, particularly at signalized intersections, where sidewalk is present and in high-activity areas where high levels of pedestrian activity is present. Older curb ramps requiring improvements, which pose a potential hazard to wheelchair or visually impaired users, should be repaired or replaced. This may include curb ramps requiring slope improvements, width improvements, or include obstructions within the PAR. In older neighborhoods and commercial districts, a balance is needed to address the ramp deficiencies while not impacting historic characteristics and addressing right of way needs due to a larger improvement footprint. Sidewalk improvements should be prioritized in a similar manner to facilitate meeting current ADA standards.

Table 9 provides a summary of all curb ramp and sidewalk facilities in need of improvements, based on functional classification and current ADA standards and guidelines. Estimates for sidewalk improvements were limited to the cost of 100 linear feet of sidewalk replacement per asset ID. Curb ramps requiring slope or width improvements were included in this cost analysis. Sidewalks less than 4-feet wide were included in this cost analysis. The number of curb ramp and sidewalk assets with the associated construction costs estimated to improve the facilities is shown. Additional detailed information can be found in **Appendix D.**

Table 9: ADA Transition Plan Summary Costs

Description		Arterial Roadway	Collector Roadway	Residential Roadway
Curb Ramp & Obstructions Improvements	Number of Assets	8,952	5,030	231
	Total Cost	$83,386,000	$22,960,000	$1,247,500
Sidewalk & Obstructions Improvements	Number of Assets	9,239	5,619	338
	Total Cost	$53,549,778	$31,588,556	$1,992,722
Total Improvements by Functional Class		**$136,935,778**	**$54,548,556**	**$3,240,222**

Coordination efforts with all City of Albuquerque departments was performed for this report. The following sections provide a brief summary of each department, the infrastructure in which they are responsible for maintaining, their current ADA transition update, and future plans for their infrastructure.

8.2 Albuquerque Fire and Rescue

The Albuquerque Fire and Rescue Department (AFR) is comprised of 704 full-time firefighters and 27 civilian personnel, serving a jurisdiction of more than 190 square miles. AFR currently has 30 facilities for which the department is responsible for maintaining. All facilities open to the public are currently ADA compliant and accessible.

8.2.1 Albuquerque Fire and Rescue ADA Transition Plan

As AFR repairs, renovates or rebuilds their facilities, their facilities are brought to current ADA standards and guidelines as needed. Those facilities that are not accessed by the public are older facilities and are occupied by full-time firefighters.

AFR is currently working on the design and construction of renovations to existing buildings and new facilities. AFR is currently working to secure the funding necessary to complete improvements by the conclusion of Fiscal Year 2021. Funding will include State Capital Outlay Funds, General Obligation Bonds and AFR General Funds.

8.3 Family and Community Services

The Family and Community Services Department is responsible for maintaining 22 Community Centers, 13 Child Development Centers and four Health and Social Services Centers. This department provides quality health and social services, housing, recreation and education to improve the quality of life for the Albuquerque community.

8.3.1 Family and Community Services ADA Transition Plan

Family and Community Services is continually working to improve their facilities. As the Department repairs, renovates or rebuilds their facilities, ADA deficiencies are addressed so that these facilities are brought up to current ADA standards. An inventory of these facilities has been completed internally and ADA improvement needs have been identified for all future renovations. These improvements are made as funding becomes available.

8.4 Animal Welfare Department

The Animal Welfare Department (AWD) is responsible for maintaining City owned animal shelters and adaption centers. The department maintains two shelters and one adoption center within the City of Albuquerque.

8.4.1 Animal Welfare Department ADA Transition Plan

AWD uses a proactive approach to ADA compliance within their facilities. All ADA issues are addressed in a timely manner as they are identified. Concerns regarding ADA compliance are prioritized and addressed as funding permits.

8.5 Parks & Recreation Department

The Parks & Recreation Department (PRD) is responsible for maintaining City owned parks, multi-use trails, open space and swimming pools. PRD currently is responsible for approximately 300 parks, 145 miles of trail, 29,000 acres of open space and 12 swimming pools. All swimming pools include ADA accessible lifts, the Daniel Webster Park, a fully accessible playground, will be completed in 2019 and several trails within the open space areas are ADA complaint.

8.5.1 Parks & Recreation Department ADA Transition Plan

PRD is currently in the process of hiring a consultant to perform audits and train PRD staff to audit park facilities. As previously mentioned, PRD facilities are not included in this Transition Plan Update. To date,

approximately 25 facilities have been audited, and more evaluations are on-going in order to determine ADA compliance needs. All new construction is designed and built to ADA standards, and renovations are completed to meet ADA requirements. Improvements are primarily completed when facilities are renovated, when a specific need is identified, or when funding becomes available.

8.6 Solid Waste Department

The Solid Waste provides maintenance, daily graffiti removal, trash and recycling pick-up and disposal. The Department is responsible for the City's landfill, and provides convenient drop-off facilities for additional customer needs at three Convenience Centers and 17 recycling drop-off sites located throughout the City.

8.6.1 Solid Waste Department ADA Transition Plan

Solid Waste has a comprehensive inventory of their existing facilities. The department continually makes improvements and has completed various ADA improvement projects over the last 3 to 4 years, including Montessa Park, Eagle Rock, Don Reservoir and Cerro Colorado. The department continues to document and inventory its facilities noting areas in need of ADA improvements.

Solid Waste has made numerous improvements towards ADA compliance of its facilities. They are in the process of redesigning the main office and vehicle maintenance area, with construction to start in late 2019. ADA improvements are continuously being made as funding becomes available.

8.7 Albuquerque Police Department

The Albuquerque Police Department (APD) is currently responsible for maintaining 26 buildings. The APD is in compliance with current ADA standards of all 26 buildings and strives to maintain current ADA standards.

8.7.1 Albuquerque Police Department ADA Transition Plan

The APD will continue to assess and address any ADA compliance issues and concerns that may arise. Improvements are primarily completed when facilities are renovated, when a specific need is identified or when funding becomes available.

8.8 Aviation Department

The Aviation Department is responsible for the Albuquerque International Sunport and the Double Eagle II property. The department is responsible for a variety of buildings and parking facilities located on the Sunport and Double Eagle properties. Many of the facilities are managed by other entities and businesses through land lease agreements. The lease agreements contain language that requires the tenant to abide by the Americans with Disabilities Act of 1990 and all applicable rules and regulations associated with current ADA standards.

8.8.1 Aviation Department ADA Transition Plan

The Aviation Department is currently going through a Federal Aviation Administration (FAA) ADA Audit. In conjunction with the FAA audit, the Aviation Department is undergoing a self-evaluation of existing ADA compliance and in the process of developing an inventory of its facilities and any required improvements.

At the conclusion of the FAA audit, the Aviation Department will begin to work on a plan to make the necessary improvements and updates as identified by the audit. As new construction projects move forward, the department will continue to bring facilities into current ADA compliance.

8.9 Environmental Health Department

The Environmental Health Department (EHD) is responsible for the Vehicle Pollution Management Building Headquarters (VPMD). The mission of the Environmental Health Department is to responsively and professionally serve the people of the City of Albuquerque by promoting and protecting public health, by preventing disease, and by preserving the integrity and quality of the environment through sustainable management and responsible stewardship.

8.9.1 Environmental Health Department ADA Transition Plan

The EHD ensures current ADA compliance of their facilities and strives to maintain them. The EHD completed two projects in 2013 and 2015 to address ADA compliance and safety at the VPMD. No additional improvements or enhancements related to ADA compliance are identified at this time.

8.10 Transit Department

The Albuquerque Transit Department is responsible for all bus stops, transit centers, and park and ride facilities. Transit currently maintains over 2,800 bus stops, one transit center, and numerous park and ride facilities.

8.10.1 Transit Department ADA Transition Plan

The Transit Department is currently updating their existing inventory and will reassess which facilities might require ADA upgrades. The department's goal is to have this completed within the next three years. The department has already begun making needed improvements at various facilities. Improvements of these facilities will be on-going and completed as funding becomes available.

8.11 Cultural Services Department

The Cultural Services Department is responsible for the City owned museums, libraries, community centers, and the Kimo Theatre. With 18 libraries, two museums, two performance theaters, a zoo, aquarium, botanic garden and popular fishing ponds, a vast array of public art, and the historic plazas of Old Town, the department sustains Albuquerque's quality of life at a high level for residents and visitors alike.

8.11.1 Cultural Services Department ADA Transition Plan

The Cultural Services Department has begun the process of gathering information of its existing facilities and identifying needs related to ADA compliance. The department is working with the COA ADA Advisory Council to assess various sites and document needed improvements.

Once deficiencies have been identified, the department will allocate funding to address the needs. Cultural Services has already begun to make needed changes and will continue to address needs as funding becomes available.

8.12 Senior Affairs Department

The Senior Affairs Department is responsible for City owned senior centers, fitness centers, and a commercial kitchen, “The Casa”. The Department of Senior Affairs provides activities and opportunities to promote active and healthy aging. They also offer a range of care designed to meet individual needs throughout the aging spectrum.

8.12.1 Senior Affairs Department ADA Transition Plan

The department has begun the process of updating its inventory of all of its existing facilities. This is an on-going process, as improvements and renovations of facilities are continuous. The department is always working on addressing ADA compliance concerns or requests from its users as they are brought to the attention of the department and funding is available.

9. Monitoring and Status Reporting

The COA is currently engaged in an on-going effort to construct and improve existing curb ramps, sidewalks and other various pedestrian facilities. These construction activities involve several types of projects, including maintenance, and various capital improvements projects within the public right of way. When this ADA Transition Plan Update is approved and implemented, additional curb ramp and sidewalk related improvements will be addressed.

The COA currently monitors their inventory and progress in a GIS database. Once curb ramp and sidewalk improvements are made, the COA will track these improvements in this database. Features will be updated in the database so to document the type of improvements performed, construction completion dates, and project costs. The monitoring of these improvements and other construction activity is necessary in delivering an effective compliance program.

COA ADA Transition Plan
Public Comment – Posted from October 16, 2017 to November 16, 2017

DATE:	November 16, 2017	TIME:	30 day period
LOCATION:	COA Website		
PROJECT:	ADA Transition Plan Update		

Purpose of Posting

A public entity with more than 50 employees is required to seek public input on its ADA Transition Plan. Public input is necessary in order to assure that those directly affected by ADA facilities understand the scope of work and the responsibilities held by the COA. This Transition Plan Update is an update to the current 2009 report, providing documentation of the COA's improvements process and efforts to improve ADA facilities since 2009.

This Transition Plan Update was posted to the COA's website for a 30-day period for public review and comment. Outreach to the COA ADA Advisory Council was made, among other groups and associations, including but not limited to; NM Human Rights Bureau, Office of Neighborhood coordination, Southwest ADA Center, and the State of NM Governor's Commission on Disability. Comments received during the 30-day time period were reviewed, analyzed and incorporated in their entirety as shown below:

Public Comments Received:

- Update the report and brochure to include the ADA Advisory Council's website.
- Page 11 of the report, correct the address and addressee to match the form in Appendix B.
- Update the report to include the SeeClickFix App as the web base form to report items associated with ADA.
- Who maintains the vegetation overhang?
    - Include write up in report and brochure.
- Update the Grievance Procedure per Human Rights markups.
- This is a valuable inventory and usable data base that identifies where there are deficiencies in meeting ADA requirements and overall scoring of the pedestrian environment. Our hope is that COA will use the inventory and database as an important tool in the Community Planning Area Assessments and share it with all departments, other public agencies, neighborhood groups and public health officials as they develop strategies to increase walking and promote health.

    - Recommended revisions to the Plan:
        - Page 32, add: The inventory and GIS database should be available for use in the Community Planning Area assessments and the "Pedestrian Priority Network" as envisioned in the recently adopted ABC_Z Comprehensive Plan.
- To extend the City of Albuquerque On-going Public Resources consider including an interactive map on the city website where community members can report a physical ADA deficiency as well as see progress on the implementation of the plan. This is not intended to replace or supplement the Grievance Procedures.
    - Recommended revisions to the Plan:
        - Page 32 add: Continue public outreach and seek input through interactive web-based maps and surveys.
- What's missing? The Draft Plan does not clearly prioritize areas within the City of Albuquerque for ADA improvements. The plan states that the significant need is greater than the funding available to address all of the deficiencies. We understood that the plan would prioritize areas. This was part of the scope of work and was presented as part of the project status during the public outreach process, (see slide 15 page 5 appendix A).

  The COA's commitment for the Plan as stated on page 7 could be stronger and guidance provided in the plan under 8.2 ADA Transition Plan Recommendations page 30-31 made clearer. We feel strongly that the plan should provide a policy map and clear policy statements that prioritizes areas within the City for ADA/ PROWAG improvements funds.

  We do support the general approach of prioritizing areas with higher activity based on land use, the association with functional classification of roads and the implementation of ADA related improvements via various types of existing and future projects. However, to meet the greatest need we would like the plan to prioritize census blocks where there are higher than average number of people living with disabilities. Within those census blocks we support the Plan's general recommendations and prioritizations:
    - Curb ramps and sidewalks should be installed at all locations where they are missing and necessary to complete the pedestrian access route, particularly at signalized intersections and in high-activity areas where high levels of pedestrian activity is present.
    - Older curb ramps and sidewalks requiring improvements, that pose a potential hazard to wheelchair or visually impaired users, should be repaired or replaced.

Meeting Minutes

COA ADA Transition Plan
Public Meeting #1

DATE:	June 14, 2017	TIME:	6:00 pm to 7:00 pm
LOCATION:	Central and Unser Public Library 8081 Central NW, Albuquerque, NM 87121		
PROJECT:	ADA Transition Plan Update		

Purpose of Meeting

Public Meeting to inform the community about the ADA Transition Plan Update that WCI is completing for the City of Albuquerque.

Meeting Items:

- Introductions/Project Team
- Purpose & Goals
- ADA Guidelines
- Scope of Work
- Future Projects
- Project Status
- Schedule
- Public Input
- Questions & Comments
- Contact Information

Summary of Discussion:

1. There were no attendees at the meeting.
2. WCI project team presented the PowerPoint presentation to the COA representative present at the meeting.
    a. The goal of the ADA Transition Plan Update was expressed to provide safe and usable pedestrian facilities for all pedestrians.
    b. Public Rights of Way Accessibility Guidelines (PROWAG) were then summarized and described.
    c. The scope of work within the transition plan update was then described.
    d. It was described that WCI is to evaluate the existing curb ramps and sidewalks during Phase I of this project.
    e. Future phases up of the update will include all city alleys, driveways, parks, transit facilities and city buildings.

f. WCI presented and described what the existing data was showing and how it was being evaluated.
g. The project schedule was provided highlighting future public meetings and submission of both the draft and final reports.
h. The public comment forms were described in detail as how they should be filled out.

Attachments: None

Next Meeting: June 29, 2017, 6:00 pm at the Taylor Ranch Community Center, 4900 Kachina St. NW, Albuquerque, NM 87120

Meeting Minutes

COA ADA Transition Plan
Public Meeting #2

DATE:	June 29, 2017	TIME:	6:00 pm to 7:00 pm
LOCATION:	Taylor Ranch Community Center 4900 Kachina St NW, Albuquerque, NM 87120		
PROJECT:	ADA Transition Plan Update		

Purpose of Meeting

Public Meeting to inform the community about the ADA Transition Plan Update that WCI is completing for the City of Albuquerque.

Meeting Items:

- Introductions/Project Team
- Purpose & Goals
- ADA Guidelines
- Scope of Work
- Future Projects
- Project Status
- Schedule
- Public Input
- Questions & Comments
- Contact Information

Summary of Discussion:

1. There were two attendees at the meeting.
2. WCI project team presented the PowerPoint presentation.
    a. The goal of the ADA Transition Plan Update was expressed to provide safe and usable pedestrian facilities for all pedestrians.
    b. Public Rights of Way Accessibility Guidelines (PROWAG) were then summarized and described.
    c. The scope of work within the transition plan update was then described.
    d. It was described that WCI is to evaluate the existing curb ramps and sidewalks during Phase I of this project.
    e. Future phases up of the update will include all city alleys, driveways, parks, transit facilities and city buildings.

f. WCI presented and described what the existing data was showing and how it was being evaluated.
g. The project schedule was provided highlighting future public meetings and submission of both the draft and final reports.
h. The public comment forms were described in detail as how they should be filled out.

Public Comments Received:

- Lomas & San Mateo has narrow sidewalks.
- Focus on locations of assisted living, independent living, retirement homes, etc.

Next Meeting: July 26, 2017, 6:00 pm at the Manzano Mesa Multi-Generational Center, 501 Elizabeth St SE, Albuquerque, NM 87123.

Meeting Minutes

COA ADA Transition Plan
Public Meeting #4

DATE:	July 26, 2017	TIME:	6:00 pm to 7:00 pm
LOCATION:	Manzano Mesa Multi-Generational Center 501 Elizabeth St SE Albuquerque, NM 87123		
PROJECT:	ADA Transition Plan Update		

Purpose of Meeting

Public Meeting to inform the community about the ADA Transition Plan Update that WCI is completing for the City of Albuquerque.

Meeting Items:

- Introductions/Project Team
- Purpose & Goals
- ADA Guidelines
- Scope of Work
- Future Projects
- Project Status
- Schedule
- Public Input
- Questions & Comments
- Contact Information

Summary of Discussion:

1. There were eight attendees at the meeting.
2. WCI project team presented the PowerPoint presentation.
    a. The goal of the ADA Transition Plan Update was expressed to provide safe and usable pedestrian facilities for all pedestrians.
    b. Public Rights of Way Accessibility Guidelines (PROWAG) were then summarized and described.
    c. The scope of work within the transition plan update was then described.
    d. It was described that WCI is to evaluate the existing curb ramps and sidewalks during Phase I of this project.
    e. Future phases up of the update will include all city alleys, driveways, parks, transit facilities and city buildings.

f. WCI presented and described what the existing data was showing and how it was being evaluated.
g. The project schedule was provided highlighting future public meetings and submission of both the draft and final reports.
h. The public comment forms were described in detail as how they should be filled out.

Public Comments Received:

- The City's 311 complaint process does not seem responsive.
- Light and utility poles are the most recognizable obstructions.
- Handrail corrects a lot of challenges that are caused by multiple sclerosis. It is often a hidden and unrecognized disability.
- Priority areas should be analyzed based on pedestrian involved crashes.
- Priority areas should be analyzed based on existing transit routes.
- There is a severe lack of handicap parking throughout the city.
- Hawk Signals should be considered in areas that pushbuttons are not possible.

Public Meeting No. 4
July 26, 2017

COA ADA Transition Plan Update

City of Albuquerque
COA Project No. 7703.04

Agenda

2

- Introductions/Project Team
- Purpose & Goals
- ADA Guidelines
- Scope of Work
- Future Projects
- Project Status
- Schedule
- Public Input
- Questions & Comments
- Contact Information

9/14/2017

Project Team

3

- City of Albuquerque
- Wilson & Company

9/14/2017

Purpose of the ADA Transition Plan Update

4

- To develop policies and best practices for implementing physical pedestrian improvements within the public right of way within the City of Albuquerque.
- To recognize these polices and practices and integrate into future projects, city-wide.

9/14/2017

Goal of the ADA Transition Plan Update

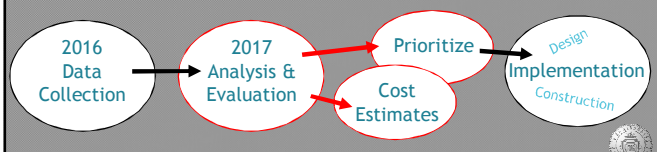
5

- To provide safe and usable pedestrian facilities for all pedestrians.
- To comply with all current federal, state and local regulations and standards.
- To enhance the pedestrian experience.

9/14/2017

Goals of the COA ADA Transition Plan Update

6



9/14/2017

ADA Guidelines

7

- The Americans with Disabilities Act (ADA) prohibits discrimination against people with disabilities.
- Title II of the Act addresses the subject of making public services and public transportation accessible to those with disabilities.
- Current efforts are to analyze and evaluate these facilities city wide and develop a plan for designing and constructing pedestrian facilities for public use that do not currently meet standards and regulations.
  - Phase I - Curb ramps & sidewalk

9/14/2017

ADA Guidelines

8

- National Cooperative Highway Research Program (NCHRP)
  - Transition Plan update format
- Public Rights-of-Way Accessibility Guidelines (PROWAG)
  - Proposed accessibility guidelines for pedestrian facilities within the public ROW
- Manual on Uniform Traffic Control Devices (MUTCD)
  - Pedestrian pushbutton guidance

9/14/2017

NCHRP – ADA Transition Plans: A Guide to Best Management Practices

9

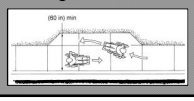
1. Designate an ADA Coordinator
   1. Gabriel Campos - COA
2. Provide notice about the ADA transition plan
   1. ADA Advisory Council
   2. Public meetings/input
3. Establish a grievance procedure
   1. 311 Services
   2. COA website – Human Rights Form
4. Develop internal standards, specifications, and design details
5. Develop ADA Transition Plan Update
6. Schedule & budget for improvements
7. Monitor the progress

9/14/2017

Public Rights-of-Way Accessibility Guidelines (PROWAG)

10

- Pedestrian Access Routes (PAR)
- Sidewalk Technical Requirements
  - 4’ min clear width
  - 5’x5’ passing space required where the clear width is less than 5’ at 200’ intervals
  - 2% max cross slope
  - Surfaces shall be firm, stable and slip resistant
  - Vertical alignment shall be smooth

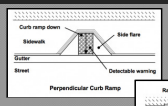


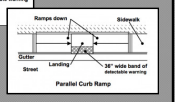
9/14/2017

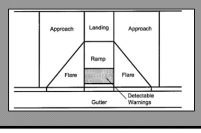
Public Rights-of-Way Accessibility Guidelines (PROWAG)

11

- Curb Ramp Technical Requirements
  - Perpendicular & parallel curb ramps
  - 4’x4’ turning space
  - 8.3% max running slope
  - 2% cross slope
  - Surfaces shall be firm, stable and slip resistant
  - Detectable warning surface





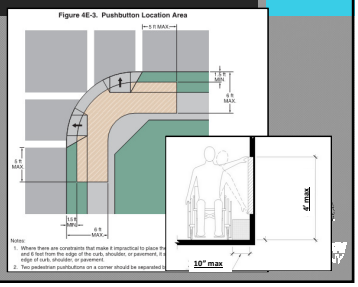


9/14/2017

Manual on Uniform Traffic Control Devices (MUTCD) Pedestrian Pushbutton Requirements

12

- Pushbuttons should be located to meet the following criteria:
  - Adjacent to a level surface
  - Between the edge of crosswalk and curb ramp
  - Face of the push button parallel to the crosswalk to be used
  - Mounting height of 4’ max above the sidewalk
  - Pushbutton shall be located 10” max from face of header curb



Scope of Work

13

- Analysis & evaluation of existing GIS data.
- Determine the need, costs and priority of improving existing pedestrian facilities city wide.
- Pedestrian facilities included in this phase:
  - Curb ramps (40,831 features)
  - Sidewalks (3,135 miles)

9/14/2017

Future Evaluations

14

- Additional City facilities to be analyzed and evaluated in future phases include, but are not limited to:
  - Alleys
  - Driveways
  - Parks
  - Transit
  - City building facilities

9/14/2017

Project Status

15

- Analysis & Evaluation:
  - Curb ramps (40,831 features)
    - Analysis is currently 95% complete
  - Sidewalks (3,135 miles)
    - Analysis is currently 80% complete
- Cost Estimates:
  - Associate costs to all improvements required in order to determine construction estimates.
- Transition Report:
  - Will include evaluation findings, priority areas and costs associated with each.

9/14/2017

9/14/2017

Recent COA Projects including ADA Improvements

21

- Lead & Coal Avenues Roadway Improvements (I-25 to Washington Blvd)
- Menaul Blvd (Louisiana to Wyoming)
- Girard Blvd (Constitution to Indian School)
- Eagle Ranch Rd (Paradise to Agate Hills)
- Atrisco Dr (Iliff to Central)
  - Phase III – Hooper to Mae (July Construction)
- 23+ miles of ADA improvements city wide, in the last 3 year

9/14/2017

Project Schedule

22

- NTP - April 3, 2017
- Public Meeting No. 1 – June 14, 2017
- Public Meeting No. 2 – June 29, 2017
- Public Meeting No. 3 – July 12, 2017
- Public Meeting No. 4 – July 26, 2017
- Data analysis to be complete - August 2017
- Draft Report - September 2017
- Draft Report posted for public comment – October 2017
- Final Report - December 2017

9/14/2017

Public Input Comment Form

23

- Contact Information
- Rate the following pedestrian facilities in importance to you – Existing vs. missing (1-not at all important / 5-very important):
  - Signal pushbutton locations
  - Curb ramp facilities
  - Sidewalk facilities
  - Access to schools/city buildings/parks/transit
  - Improve pedestrian safety
  - Transit stops
- Fixing existing facilities vs. adding missing facilities
- Roadway ADA Priorities by functional class
  - Rank 1 through 3
  - Arterial Roadways vs. collector roadways vs. residential roadways

_____

_____

_____

_____

_____

Please state what you think should be done to resolve the complaint or grievance:

Have efforts been made to resolve this complaint through the internal grievance procedure of the government, organization, or institution?

Yes_____ No_____

If yes: what is the status of the grievance?_____

□ Please do not contact me personally

Appendix C:

Curb Ramp and Sidewalk Inventory

Tables Available in Electronic Format Upon Request

Appendix C – Ramp and Sidewalk Inventory

Ramp Attribute Table	Description
Yellow Curb Present	No improvements are required
Potential Slope Improvements	To be verified in field
Potential Width Improvements	To be verified in field
Truncated Domes Present	Visible ADA Detectable Warning Surface
No Ramp Present	Visible missing ramp
Requires Push Button Relocation	Visible push button may require relocation
Potential ROW Cost	Possible need for right of way to provide adequate minimum width
Missing SW Tie-In	Ramp is isolated without any sidewalk leading up to it
Mastarm Obs	Documents a mastarm obstructs any clear space/width requirements
Pull Box Obs	Documents a pull box is located within curb ramp
Ped Push Button Pole Obs	Documents a pedestrian push button pole (4’ height) obstructs any clear space/width requirements
Ped Pole Obs	Documents a pedestrian pole (10’-15’ pole) obstructs any clear space/width requirements
Cabinet Obs	Documents if any type of cabinet (signal, utility, etc.) obstructs clear space/width requirements
Meter Obs	Documents if any type of meter (signal, utility, etc.) obstructs clear space/width requirements
Utility Pole Obs	Documents if any private utility poles obstructs clear space/width requirements
Light Pole Obs	Documents if a light pole obstructs clear space/width requirements
Manhole Obs	Documents if any type of manhole (sanitary sewer, utility, etc.) is located within curb ramp
Water Valve Meter Obs	Documents a water valve or water meter is located within curb ramp
Fire Hydrant Obs	Documents if fire hydrants obstructs clear space/width requirements
Guy Wire Obs	Documents if a guy wire, anchored in a way that obstructs clear space/width requirements
Vegetation Obs	Documents any overgrown landscaping (i.e. trees, shrubs, bushes, etc.) obstructing clear space/width requirements
Storm Drain Inlet	Documents if a storm drain inlet is located within the curb return
Other Obs	Documents other obstructions that are not covered in the previous sections, which will prompt text in the “Analysis Comments” box
Analysis Comments	Will include additional brief descriptions of the Asset ID, multiple obstructions of one type, and/or identify a recent construction project

Tables Available in Electronic Format Upon Request

Sidewalk Attribute	Explanation
Potential Slope Improvements	To be verified in field
Potential Width Improvements	To be verified in field
No. of Passing Spaces Required	Documents required number of passing spaces along segment. Applied to segments with less than 5' wide
WCI Sidewalk Width	Documents the width measured for this report, via Google Earth
Potential ROW Cost	Possible need for right of way to provide adequate minimum width
Pole Obs	Documents if a pole obstructs clear space/width requirements. The "Analysis Comments" box will specify pole type and quantity.
Vegetation Obs	Documents any overgrown landscaping (i.e. trees, shrubs, bushes, etc.) obstructing clear space/width requirements
Severe Cracking	Documents if the sidewalk segment has any areas of cracking that would require partial sidewalk replacement
Fire Hydrant Obs	Documents if fire hydrants obstructs clear space/width requirements
Utility Obs	Documents if the sidewalk segment has any utility infrastructure (i.e. cabinets, meter boxes, pedestals, etc.) that obstructs clear space/width requirements
Buckled Sidewalk	Documents if the sidewalk segment has any areas of buckling that would require partial sidewalk replacement
Guy Wire Obs	Documents if a guy wire, anchored in a way that obstructs clear space/width requirements
Transit Facility Obs	Documents if the sidewalk segment has any transit bus stop shelters, benches, trash receptacles, bus stop signs, etc. that impede clear space/width requirements
Bench Obs	Documents if the sidewalk segment has any benches that obstruct clear space/width requirements
Sidewalk Termination	Documents if the sidewalk segment ends abruptly without tying into any other pedestrian facilities
Other Obs	Documents other obstructions that are not covered in the previous sections, which will prompt text in the "Analysis Comments" box
Analysis Comments	Will include additional brief descriptions of the Asset ID, multiple obstructions of one type, and/or identify a recent construction project. Will differentiate which type of pole obstructions are present (utility pole vs light pole)
