Section II - Basis for Requesting a Public Information Hearing

The reasons for requesting and holding a public information hearing must be specific to air quality regulations and based on the permitting action described in the public notice. The public information hearing request is subject to COA EHD Director approval. A public hearing will be held if: 1) there is significant public interest from five (5) or more individuals or interest from an elected official who represents the general area where the facility is to be located or is located; and 2) a significant air quality issue is involved if it relates to a Title V or synthetic minor source or is: (a) specific to the air quality permitting regulations and (b) based on the permitting action described in the public notice.

Complete the following information:

I object to the issuance of this permit as proposed in the public notice because:
