

PUBLIC NOTICE
Air Quality Construction Permit For
Curia New Mexico, LLC

Curia New Mexico, LLC submitted an application to modify an air quality construction permit to the Air Quality Program (Program) of the City of Albuquerque Environmental Health Department. The Program received the application on July 14, 2022. The owner of the facility is Curia New Mexico, LLC, 4401 Alexander Blvd NE, Albuquerque, New Mexico 87107. The facility, Curia New Mexico, LLC, is located at 4272 Balloon Park Road and 4200 Balloon Park Road, Albuquerque, New Mexico 87109. This application file has been assigned Permit Application No. 0491-M8. The Program has made an affirmative administrative completeness determination and is providing this notice pursuant to 20.11.41.14 NMAC.

The applicant is requesting to modify Permit #0491-M7-RV1 with the following:

- 1) The applicant requests to remove annual compliance testing permit requirements for three emergency engines. The applicant requests to operate each engine for 500 hours per year to provide back-up power to the facility when there is a loss of commercial power.
- 2) The applicant seeks to modify two natural gas fired boilers using updated information from the manufacturer:
 - a. Modify the process rate for Unit #5 from 10.461 MMBtu/hr to 8.369 MMBtu/hr.
 - b. Modify the process rate for Unit #6 from 5.250 MMBtu/hr to 5.175 MMBtu/hr.

The proposed air pollution maximum allowable emissions from this facility have been estimated to be:

POLLUTANT	Proposed Net Changes		Proposed Total Emissions ¹	
	(lbs/hr)	(tpy)	(lbs/hr)	(tpy)
Carbon Monoxide (CO)	-6.31	-4.21	28.44	9.19
Nitrogen Oxides (NOx)	-55.62	-16.99	92.91	25.76
Volatile Organic Compounds (VOC)	-1.45	-0.23	8.29	21.28
Sulfur Oxides (SOx)	-47.22	-11.79	0.10	0.10
Particulate Matter ≤ 10 microns (PM ₁₀)	-1.14	-0.43	3.62	1.19
Particulate Matter ≤ 2.5 microns (PM _{2.5})	-1.14	-0.43	3.62	1.19
Hazardous Air Pollutants (HAP)	1.54	6.14	1.54	6.14

¹The proposed total emission in this notice could change slightly during the course of the Program's review of the application.

The Program has conducted a preliminary review of the air quality modeling information submitted with the permit application. The Program's preliminary review and the applicant's analysis of ambient air quality impacts indicated that the facility's air emissions will meet the air quality standards for CO, NOx, SO₂, and Particulate Matter (both PM₁₀ and PM_{2.5}). In regards to the ozone air quality standard, ozone is normally only modeled for regional compliance demonstrations and does not need to be modeled for air quality permits subject to certain exceptions not applicable here. The Program's modeling guidelines are available at: <http://www.cabq.gov/airquality/air-quality-permits/dispersion-modeling-guidelines>.

A copy of the permit application, all supporting documentation, and the Program's technical analysis, if and when it is completed, may be inspected by the public at the Program offices at Room 3023, One Civic

Plaza NW, Albuquerque, NM. Any person who wishes to receive notice of the availability of the Program's technical analysis for review and comment, must expressly request notice in writing to the Program at: Albuquerque Environmental Health Department, Air Quality Program – Permitting Section P.O. Box 1293, Albuquerque, New Mexico 87103 before the end of the public comment period on September 21, 2022. The public will have no fewer than 30 days to submit written comments and evidence, request a public information hearing, or both on the permit application to the Program. Comments will be accepted and considered if postmarked by the end of the public comment period. Formal action on the application will be reserved pending receipt and analysis of any additional details or information developed during the public comment period. Any person who does not participate in the permitting action will not receive notification of the Program's decision regarding the proposed permit, unless the person has delivered a written request for notice to the department. The application, all supporting documentation, and the public notice are available online at <http://www.cabq.gov/airquality/air-quality-permits>.

The Program shall hold a Public Information Hearing pursuant to 20.11.41.15 NMAC if the Director determines there is significant public interest and a significant air quality issue is involved.

The Program expects to issue, issue subject to conditions, or deny this application before November 10, 2022. The Program will not issue any air quality permit with or without conditions unless an air quality ambient impact dispersion modeling study, if deemed necessary by the Program, shows that the facility would not cause or contribute to a potential violation of air quality standards. If the Program issues the permit with conditions, the conditions will include those that limit the emissions, and conditions that will require recordkeeping and reporting to the Program to ensure compliance with federal and local air regulations.

The Program's offices are located at One Civic Plaza NW, Room 3023, Albuquerque, NM 87102. The Program's mailing address is Albuquerque Environmental Health Department, Air Quality Program – Permitting Section, PO Box 1293, Albuquerque, NM 87103.
