

**PUBLIC NOTICE**  
**Air Quality Construction Permit For**  
**Black Rock Services, LLC**

Black Rock Services, LLC submitted an application for a new air quality construction permit to the Air Quality Program (Program) of the City of Albuquerque Environmental Health Department. The Program received the application on October 27, 2021. The owner of the facility is Black Rock Services, LLC, 1040 Bosque Farms Boulevard, Bosque Farms, New Mexico 87068. The facility, Black Rock Services HP-2, is located at the northwest corner of the intersection of Carmony Lane NE and Alexander Boulevard NE, Albuquerque, New Mexico 87107. This application file has been assigned Permit Application No. 3443. The Program has made an affirmative administrative completeness determination and is providing this notice pursuant to 20.11.41.14 NMAC.

The applicant is requesting a new construction permit to install a 400-ton-per-hour (tph) hot mix asphalt (HMA) plant with a maximum production of 1,450,000 tons per year. The HMA plant normal operating hours are from 6am to 5pm, five days per week, 45 weeks per year. The maximum operating hours will be 24 hours per day between March and September; from 5am to 10pm in the months of February, October and November; and only daylight hours during the months of January and December. The facility will consist of the following:

- |  |   |
|--|---|
| 1) Five cold aggregate storage piles;                | 8) One mineral filler silo with baghouse; |
| 2) One Recycled Asphalt Pavement (RAP) storage pile; | 9) One drum dryer/mixer with baghouse;    |
| 3) Five cold aggregate feed bins;                    | 10) One asphalt drag conveyor;            |
| 4) One cold aggregate scalping screen;               | 11) Multiple conveyors;                   |
| 5) Two RAP feed bins;                                | 12) Six asphalt storage silos;            |
| 6) One RAP scalping screen;                          | 13) Three asphalt cement storage tanks;   |
| 7) One RAP crusher;                                  | 14) One asphalt cement oil heater; and    |
|  | 15) One Evotherm® tank                    |

The proposed air pollution maximum allowable emissions from this facility have been estimated to be:

POLLUTANT	Proposed Total Emissions <sup>1</sup>	
	(lbs/hr)	(tpy)
Carbon Monoxide (CO)	52.7	96.1
Nitrogen Oxides (NOx)	10.7	20.0
Volatile Organic Compounds (VOC)	15.8	28.9
Sulfur Oxides (SOx)	1.37	2.49
Particulate Matter ≤ 10 microns (PM <sub>10</sub> )	11.7	21.0
Particulate Matter ≤ 2.5 microns (PM <sub>2.5</sub> )	9.78	17.7
Hazardous Air Pollutants (HAP)	2.16	3.92

<sup>1</sup>The proposed total emission in this notice could change slightly during the course of the Program's review of the application.

The Program has conducted a preliminary review of the air quality modeling information submitted with the permit application. The Program's preliminary review and the applicant's analysis of ambient air quality impacts indicate that the facility's air emissions will meet the air quality standards for CO, NOx, SO<sub>2</sub>, Particulate Matter (both PM<sub>10</sub> and PM<sub>2.5</sub>), H<sub>2</sub>S, and lead. In regards to the ozone air quality standard, ozone is normally only modeled for regional compliance demonstrations and does not need to be modeled

for air quality permits subject to certain exceptions not applicable here. The Program's modeling guidelines are available at: <http://www.cabq.gov/airquality/air-quality-permits/dispersion-modeling-guidelines>.

A copy of the permit application, all supporting documentation, and the Program's technical analysis, if and when it is completed, may be inspected by the public at the Program offices at Room 3023, One Civic Plaza NW, Albuquerque, NM. Any person who wishes to receive notice of the availability of the Program's technical analysis for review and comment, must expressly request notice in writing to the Program at: Albuquerque Environmental Health Department, Air Quality Program – Permitting Section P.O. Box 1293, Albuquerque, New Mexico 87103 before the end of the public comment period on January 7, 2022. The public will have no fewer than 30 days to submit written comments and evidence, request a public information hearing, or both on the permit application to the Program. Comments will be accepted and considered if postmarked by the end of the public comment period. Formal action on the application will be reserved pending receipt and analysis of any additional details or information developed during the public comment period. Any person who does not participate in the permitting action will not receive notification of the Program's decision regarding the proposed permit, unless the person has delivered a written request for notice to the department. The application, all supporting documentation, and the public notice are available online at <http://www.cabq.gov/airquality/air-quality-permits>.

The Program shall hold a Public Information Hearing pursuant to 20.11.41.15 NMAC if the Director determines there is significant public interest and a significant air quality issue is involved.

The Program expects to issue, issue subject to conditions, or deny this application before February 28, 2022. The Program will not issue any air quality permit with or without conditions unless an air quality ambient impact dispersion modeling study, if deemed necessary by the Program, shows that the facility would not cause or contribute to a potential violation of air quality standards. If the Program issues the permit with conditions, the conditions will include those that limit the emissions, and conditions that will require recordkeeping and reporting to the Program to ensure compliance with federal and local air regulations.

The Program's offices are located at One Civic Plaza NW, Room 3023, Albuquerque, NM 87102. The Program's mailing address is Albuquerque Environmental Health Department, Air Quality Program – Permitting Section, PO Box 1293, Albuquerque, NM 87103.
