

## PUBLIC NOTICE

### Air Quality Construction Permit For Ray's Sand and Gravel

Ray's Sand and Gravel has submitted an application, for a new or modified air quality construction permit, to the Air Quality Program (Program) of the City of Albuquerque Environmental Health Department. The application was received by the Program on May 2, 2018. The owner of the facility is Ray's Sand and Gravel, 3111 Love Street SW, Albuquerque, NM 87121. The facility, Ray's Sand and Gravel, is located at 3111 Love Street SW, Albuquerque, NM 87121. This application file has been assigned **Permit Application No. 664-M1**.

The facility is a crushing and screening plant and a portable screening plant for sand and gravel. The crushing and screening plant facility consists of one (1) screen, one (1) cone crusher, five (5) conveyors, and one (1) 604 horsepower, diesel fired generator for power. The portable screening plant consists of two (2) screens, six (6) conveyors, and one (1) auger and is powered with electricity from the Public Service Company of New Mexico (PNM). The new emergency generator will replace an already permitted existing unit at this location. The proposed permit modification will consist of a crushing and screening plant and a portable screening plant with a 100-ton per hour throughput, limited operating hours and scenarios, and replacing the of the permitted 280 hp diesel fired engine with a 604 hp diesel fired engine.

The proposed air pollution maximum allowable emissions from this facility have been estimated to be:

| POLLUTANT  | Pounds Per Hour<br>(lbs/hr) | Tons Per Year<br>(tpy) |
|--|-----------------------------|------------------------|
| Nitrogen Oxides (NO <sub>x</sub> )                   | 14.50                       | 15.02                  |
| Carbon Monoxide (CO)                                 | 3.32                        | 3.49                   |
| Volatile Organic Compounds (VOCs)                    | 0.43                        | 0.45                   |
| Sulfur Dioxide (SO <sub>2</sub> )                    | 0.01                        | 0.01                   |
| Total Suspended Particulate (TSP)                    | 4.50                        | 4.73                   |
| Particulate Matter <10 microns (PM <sub>10</sub> )   | 1.51                        | 1.59                   |
| Particulate Matter <2.5 microns (PM <sub>2.5</sub> ) | 0.21                        | 0.22                   |

A copy of the permit application as well as the Program's analysis, if completed, is available for inspection by the public at the Program offices. If a person wishes to receive notification of the availability of the Program's analysis for their review and comment, they must express that interest in writing to the Program before the end of the public comment period on July 1, 2018. Interested persons may submit written comments and evidence, request a public information hearing, or both on the permit application to the Program. Comments will be accepted and considered if postmarked by the end of the public comment period. Formal action on the application will be reserved pending receipt and analysis of any additional details or information developed during the public comment period.

The Program shall hold a Public Information Hearing pursuant to 20.11.41.15 NMAC if the Director determines there is significant public interest and a significant air quality issue is involved.

The Program expects to issue, issue subject to conditions, or deny this application before August 30, 2018. The Program will not issue or issue subject to conditions any air quality permit without an air quality ambient impact dispersion modeling study, if deemed necessary by the Program, that shows that the facility would not cause or contribute to a potential violation of air quality standards. Any person who does not participate in the permitting action will not receive notification of the Program's decision regarding the proposed permit, unless the person has delivered a written request for notice to the Program.

The Program's offices are located at 400 Marquette NW, Room 3047, Albuquerque, NM 87102. The Program's mailing address is Albuquerque Environmental Health Department, Air Quality Program – Permitting Division, PO Box 1293, Albuquerque, NM 87103
