Erosion & Sediment Control (ESC) Plan - CHECKLIST

ESC Plan - General Content

- Grading & Drainage Plan must be approved for the site
- Site Location Map / North Arrow, Scale, etc.
- Drafting standards must generally comply with DPM Chapter 27
- Show Project Boundary and Limits of Construction Disturbance
- Show Site Drainage / topography survey / contours
- Identify locations where Offsite run-off enters the site
- Identify Discharge locations (ditch, channel, stream, river)
- [Design BMPs for 2-year / 24-hour Storm, per NOAA Atlas 14](#)
- List Total Site Acreage and Total Disturbed Acres on the Plan
- Show limits of soil disturbance covered by this ESC Plan
- Provide a Legend of BMPs and other symbols used on the plan
- Shown Erosion & Sediment Control BMP's
- Provide BMP installation details (or reference stanards)
- Off-site Inlet filters will generally NOT be allowed as they should not be needed, and will restrict system capacity*

Narrative / General Notes

- Name of Plan Designer, P.E. Stamp, Signature & Date
- Refer to SWPPP and requirement for site to be in compliance
- Describe Construction Phasing, if applicable
- Keep dirt and debris on the site
- Clean fugitive dirt/debris from street at end of each day
- Maintain Good Housekeeping per SWPPP
- BMP Inspection and Maintenance Requirements
- BMP Remove schedule / sequence
- Describe Final Site Stabilization Measures

Common BMP items to consider

- | | |
|---|---|
| <input type="checkbox"/> Sediment - Perimeter Fence | <input type="checkbox"/> Erosion - Concrete Truck Washout facility / plan |
| <input type="checkbox"/> Sediment - Inlet Protection, On-Site ONLY * | <input type="checkbox"/> Erosion - Swales / Check Dams / Wattles |
| <input type="checkbox"/> Sediment - Construction Entrance / Tire Wash ? | <input type="checkbox"/> Sediment - Desitation Ponds |
