A2 – Non-residential conversions to residential uses for affordable housing

LAND USE, PLANNING AND ZONING COMMITTEE of the CITY COUNCIL

April 13th, 2022

COMMITTEE AMENDMENT NO. _____ TO Exhibit A to O-22-10

AMENDMENT SPONSORED BY COUNCILOR Isaac Benton

1. Amend IDO Section 14-16-4-3(B)(7) Dwelling, Multi-family to add a new subsection and amend the definition in Section 14-16-7 for “kitchen” as described in the Exhibit A to this amendment

Explanation: This amendment proposes to add a new use-specific standard to the Dwelling, Multi-family use to allow for special provisions for the conversion of non-residential development to residential development when that conversion is associated with funding provided through the City’s Family and Community Services department in conjunction with an affordable housing project as defined by Article 14-21 of ROA 1994 (Affordable Housing Implementation Ordinance).

Today, to convert a non-residential use such a hotel/motel or office to a multi-family development the developer would need to ensure each unit can meet the requirements of a “dwelling unit” as defined in the IDO. This includes requiring a full kitchen, presently defined as:

“An area of a dwelling where there is a sink of adequate size and shape for washing dishes and food items (as opposed to washing hands) and a cooking stove, range, or oven. The presence of a sink and a hot plate or microwave does not constitute a kitchen.”

For the type of housing that would be offered with a hotel conversion to affordable housing, some of this provision presents a large barrier, namely the requirement for a full stove, range, or oven. This amendment will allow a microwave or hotplate to meet the requirement of a ‘kitchen’ *only* for conversions of non-residential to residential where the City has distributed affordable housing money. A refrigerator would also be required in addition to occupancy standards for units based on the number of bedrooms.

A2 – Non-residential conversions to residential uses for affordable housing

As indicated in the use-specific standard, projects partnered with the City through the FCS department will require 40 hours of service coordination to be provided on-site, in addition to any property manager or property management staff working on the premises. Their duties will include:

- providing residents with information about available onsite and community services
- assisting residents in accessing available services through referral and advocacy
- arranging for access to transportation
- organizing community-building and/or other enrichment events for residents.

Exhibit A to Amendment A2

1. Amend IDO Subsection 14-16-4-3(B)(7) to add a new subsection that provides an exemption for dwelling units created from a conversion of non-residential development to residential use as shown below.
2. Amend the definition of kitchen in IDO Section 14-16-7-1 as follows:

“An area of a dwelling where there is a sink of adequate size and shape for washing dishes and food items (as opposed to washing hands) and a cooking stove, range, or oven. The presence of a sink and a hot plate or microwave does not constitute a kitchen [, unless specified otherwise in this IDO].”

4-3(B) RESIDENTIAL USES

4-3(B)(7) Dwelling, Multi-family

4-3(B)(7)(x) [In Mixed-use zone districts, a maximum of 100 dwelling units resulting from a conversion of existing non-residential development to a residential use shall be exempt from the definition of kitchen in IDO Section 14-16-7-1 in dwellings that receive funding through the City of Albuquerque Department of Family and Community Services as affordable housing as defined by Article 14-21 of ROA 1994 (Affordable Housing Implementation Ordinance), if all of the following requirements are met.

1. A separate kitchen and bathroom shall be provided in each dwelling unit.
2. The kitchen shall include all of the following requirements:
 - a. a sink of adequate size and shape for washing dishes and food items (as opposed to washing hands).
 - b. A refrigerator that includes a separate freezer compartment.
 - c. a countertop surface, an appliance for warming food (such as microwave or hotplate), and an electrical outlet that allows the appliance to be plugged in safely.
3. An accessory or primary use for office or personal services is provided on the same premises for service coordination.
4. An agreement proving that a minimum of 40 hours of support services a week will be provided to residents shall be provided with application materials.
5. Units shall have a maximum of two bedrooms and be occupied by no more than:
 - a. 2 people per efficiency unit
 - b. 2 people per one-bedroom unit
 - c. 4 people per two-bedroom unit]

A3 – Cottage Development – Calculation Method

LAND USE, PLANNING AND ZONING SUBCOMMITTEE of the CITY COUNCIL

March 30th, 2022

COMMITTEE AMENDMENT NO. _____ TO Exhibit A to O-22-10

AMENDMENT SPONSORED BY COUNCILOR Klarissa Peña

1. On Page 154, revise Subsection 4-3(B)(4)(c)1 and 1(a) as follows:

1. In all zone districts, a cottage development shall have no more than the total residential gross floor area that would be allowed on an equal size property in the same zone district for single-family detached development. This is calculated by first determining the number of lots that would be allowed in that zone district, assuming the minimum lot size established in Table 5-1-1. That number [, including whole numbers or fractions of a lot,] is then multiplied by 2,000 square feet, an assumed size of a typical single-family dwelling, to determine the maximum residential gross floor area.

~~[a) When the calculation of the number of lots that would be allowed on the site based on the minimum lot size for the zone district results in a fraction of a lot, the number of lots used to calculate the maximum total residential gross floor area shall be rounded down to the nearest whole number]~~

Explanation: This amendment proposes to replace the requirement for Cottage Developments to round down, but instead allows a fraction of a lot to be used in the calculations. Cottage developments allow for multiple units to be developed on one property but limit the amount of square footage that can be developed on the lot. The building footprints are limited through three forms: 30% useable open space is required, parking requirements, and the footprint formula. This amendment proposes to revise the footprint formula to allow for fractions of a unit to be part of the calculations. The language that requires the number of units to be rounded down is a significant disincentive to doing cottage development.

A3 – Cottage Development – Calculation Method

For example:

- A 17,000 square foot R1-D zoned lot under the current language would only allow 2,000 square feet for the cottage units.
 - R-1D = 10,000 square feet minimum lot size = 1.7 units. 1.7 rounded down = 1. $1 \times 2,000 = 2,000$ square feet of residential gross floor area.
- A 17,000 square foot R1-D zoned lot with the proposed language would be allowed 3,400 square feet for the cottage units.
 - R-1D = 10,000 square feet minimum lot size = 1.7 units. $1.7 \times 2,000 = 3,400$ square feet of residential gross floor area.

This amendment does not change parking requirements or the 30% useable space. The IDO requires units in a Cottage Development to be no smaller than 650 square feet and no larger than 1,200 square feet. In the example above, the 3,400 square feet could result in between 2 and 5 units being developed on a 17,000 square foot property, and the 30% useable open space would be 5,100 square feet of that property.

A4 – Cottage Development – Formula in R-1D

LAND USE, PLANNING AND ZONING SUBCOMMITTEE of the CITY COUNCIL

March 30th, 2022

COMMITTEE AMENDMENT NO. _____ TO Exhibit A to O-22-10

AMENDMENT SPONSORED BY COUNCILOR Klarissa Peña

1. On Page 154, add a new Subsection 4-3(B)(4)(c)1(b) and renumber accordingly as follows:

[(b) In the R-1D zone district that number is then multiplied by 2,600 square feet, to determine the maximum residential gross floor area.]

Explanation: This amendment proposes to replace the requirement for Cottage Developments to increase the footprint formula in the R1-D zone district only. Cottage developments allow for multiple units to be developed on one property but limit the amount of square footage that can be developed on the lot. The building footprints are limited through three forms: 30% useable open space is required, parking requirements, and the footprint formula. This amendment proposes to revise the footprint formula to allow for a larger base square footage in the R1-D (the largest lot R-1 zone district). A single family home in R1-D has no size limitation and could be 5 or 6,000 square feet. This revision is intended to be an incentive for cottage development in the R-1D zone district. For example:

- A 20,000 square foot R1-D zoned lot under the current language would only allow 4,000 square feet for the cottage units.
 - R-1D = 10,000 square feet minimum lot size = 2 units. $2 \times 2,000 = 4,000$ square feet of residential gross floor area.
- A 20,000 square foot R1-D zoned lot with the proposed language would be allowed 5,200 square feet for the cottage units.
 - R-1D = 10,000 square feet minimum lot size = 2 units. $2 \times 2,600 = 5,200$ square feet of residential gross floor area.

This amendment does not change parking requirements or the 30% useable open space requirement. The IDO requires units in a Cottage Development to be no smaller than 650 square feet and no larger than 1,200 square feet. In the example above, the 5,200 square feet could result in between 4 and 8 units being developed on a 20,000 square foot lot, and the 30% useable open space would be 6,000 square feet of that property. Cottage development has a minimum lot size of 1 acre, except within a ¼ mile of Urban Centers, Main Streets and Premium Transit, when the lot size minimum is reduced to 10,000 square feet. The R-1D zone has a minimum lot size of 10,000 square feet.

A5 – Provisions for cannabis uses

LAND USE, PLANNING AND ZONING COMMITTEE of the CITY COUNCIL

March 30th, 2022

COMMITTEE AMENDMENT NO. _____ TO Exhibit A to O-22-10

AMENDMENT SPONSORED BY COUNCILOR Trudy Jones

1. Amend the IDO pursuant to Exhibit A to this amendment.

Explanation: This amendment seeks to add additional provisions to cannabis-related uses in the IDO based on feedback and recommendations from a consultant the Planning Department hired to assist with the implementation and enforcement of adult use cannabis in Albuquerque. The amendment:

- Adds operating hours for cannabis retail establishments (8 a.m. to 11 p.m.)
- Adds operating hours for on-site consumption areas (8 a.m. to 11 p.m.)
- Adds a size limitation on cannabis retail to 10,000 square feet if located in the MX-T zone. Other, non-cannabis, retail uses in the MX-T zone are already subject to the same limitation.
- Adds a requirement for a Letter of Availability from the ABCWUA for all Cannabis-derived Products Manufacturing and Cannabis cultivation. Applicants are already required to provide this paperwork for their approval by the state, this will also require it be submitted with their zoning application to the city.

A7 – Self storage lighting

LAND USE, PLANNING AND ZONING SUBCOMMITTEE of the CITY COUNCIL

March 30th, 2022

COMMITTEE AMENDMENT NO. _____ TO Exhibit A to O-22-10

AMENDMENT SPONSORED BY COUNCILOR Trudy Jones

1. On Page 176, Section 4-3(D)(29), add a new subsection c) and renumber accordingly:

[c) Self storage facilities located within 200-feet in any direction of any Residential zone district shall dim all internal lighting that are visible from outside of the property by 50% of the maximum foot lamberts allowed pursuant to 5-8(D)(6) between the hours of 10:00 p.m. and 7:00 a.m.]

Explanation: This amendment proposes to require self storage facilities to dim their internal lights between 10pm and 7 am. Several self storage facilities have been using internally illuminated features as a way to draw attention to their business. However, the lighting can be very bright and when located in proximity to a residential zone district can create conflicts.

A8 – Bike Parking

LAND USE, PLANNING AND ZONING COMMITTEE of the CITY COUNCIL

March 30th, 2022

COMMITTEE AMENDMENT NO. _____ TO Exhibit A to O-22-10

AMENDMENT SPONSORED BY COUNCILOR Isaac Benton

1. On page 277 of Exhibit A, amend table 5-5-5 Minimum Bicycle Parking Requirements as follows:

<u>Elementary or middle school</u>	[3 spaces/classroom]
<u>High School</u>	<u>[5 spaces or 15% of required off-street parking spaces, whichever is greater]</u>

Explanation: This amendment proposes to alter the calculation of required bicycle parking spaces for schools. Note that most schools, if they fall under the purview of Albuquerque Public Schools (APS), are not subject to these requirements (or any requirements in the IDO). This would be applicable to private charter schools.

This year, the Environmental Planning Commission heard a case for expansion of an existing charter school. This school is subject to the provisions of the IDO, including the bicycle parking calculation. The charter school is required to provide 159 bicycle parking spaces based on the IDO requirement today. During testimony on the case, the school indicated they would find a way to accommodate that number but felt frustrated because it would be providing an inordinate amount of bicycle parking that will not be used. Their school attendance is around 750 and the administrator testified that only about 20 students regularly bike to school.

This real-world example has shown that the existing bicycle calculation for schools is not realistic. The proposed amendment will change the calculation from a “per classroom” metric to a “percentage of required off-street parking spaces” metric, which is used for other development types in the IDO.

A8 – Bike Parking

In the example of the charter school, the IDO today would require them to provide 159 bicycle parking spaces. Under the proposed metric, they would need to provide a minimum of 21 bicycle parking spaces, which may be a more realistic and appropriate number.

A9 – Townhouses in proximity to premium transit stations

LAND USE, PLANNING AND ZONING SUBCOMMITTEE of the CITY COUNCIL

March 30th, 2022

COMMITTEE AMENDMENT NO. _____ TO Exhibit A to O-22-10

AMENDMENT SPONSORED BY COUNCILOR Isaac Benton

1. On Page 156, Section 4-3(B)(6), add a new subsection e) that reads as follows:

[e) In the MX-L, MX-M, MX-H zone districts on properties abutting the public-right-of-way of the designated Main Street or Premium Transit Corridor and within the PT area, townhouses are prohibited within Premium Transit Area Main Street Areas and Premium Transit Areas unless the front facade is facing the corridor area designated Main Street or Premium Transit corridor.]

Explanation: This amendment proposes to prohibit townhouse developments in proximity to Premium Transit Areas and Main Street Corridors unless the townhouse is facing said corridor. Townhouses are defined in the IDO as:

Dwelling, Townhouse

A group of 3 or more dwelling units divided from each other by vertical common walls, each having a separate entrance leading directly to the outdoors at ground level. For the purposes of this IDO, this use is considered a type of low-density residential development, whether the townhouses are platted on separate lots or not. See also Development Definitions for *Low-density Residential*.

This amendment was originally proposed at LUPZ as a full prohibition on Townhouses in Premium Transit Areas. After considering public comment, it may be appropriate to allow townhouses on urban corridors however those townhouses should face the corridor to create a desirable streetscape. Without this regulation, townhouses could have their side or back yards facing the corridors.

A Premium Transit Area is mapped on AGIS and is defined in the IDO as:

Premium Transit (PT) Area

Lots within 660 feet in any direction of a transit station with transit service of 15

LAND USE, PLANNING AND ZONING COMMITTEE of the CITY COUNCIL

March 30th, 2022

COMMITTEE AMENDMENT NO. _____ TO Exhibit A to O-22-10

AMENDMENT SPONSORED BY COUNCILOR Dan Lewis

1. On page 230 of Exhibit A, strike Section 5-2(D) in it's entirety as follows and renumber subsequent sections:

~~5-2(D) SITE DESIGN TO RESPOND TO CLIMATE AND GEOGRAPHIC FEATURES~~

~~All multi-family residential development containing more than 25 dwelling units and all nonresidential development, except industrial development, shall comply with all of the standards in this Subsection 14-16-5-2(D).~~

~~5-2(D)(1) Climatic Responsiveness~~

~~The site design process shall include a sun and shade analysis of daily and seasonal position of the sun to improve the energy performance of buildings. The sun and shade analysis shall be included with applications for Site Plan.~~

~~5-2(D)(1)(a) Building layout and window placement shall be evaluated to reduce summer heat and glare and to capture winter sun.~~

~~5-2(D)(1)(b) Living landscape elements shall be evaluated for placement in the most beneficial microclimates and/or to provide the best cooling conditions to mitigate heat gain.~~

~~5-2(D)(2) Geographic Responsiveness~~

~~5-2(D)(2)(a) The site design process shall include an analysis of the ability to capture views of prominent geographic features to make visual connections to those features. The site analysis shall be noted on building layouts included with applications for Site Plan.~~

~~5-2(D)(2)(b) The placement and orientation of buildings, windows, balconies, and patios shall be evaluated to capture available views of prominent geographical features, such as the Sandia mountains, the Bosque/Rio Grande, and the Volcanoes/Northwest Mesa Escarpment.]~~

A10 – Climatic & Geographic Responsiveness

Explanation: This amendment proposes to strike the requirement for an analysis of how a site has been designed in such a way that is responsive to local climate and geographic features. Today, this section requires an applicant to provide a sun and shade analysis of all buildings on-site when submitting an application for a site plan. It also requires the applicant to provide a narrative description of how the site design captures views of prominent geographic features, identified as the Sandia Mountains, the Bosque/Rio Grande, and the Volcanoes/Northwest Mesa Escarpment for example, and evaluate the orientation of any buildings to those prominent geographic features.

Council staff has heard feedback on this requirement:

- This requirement has no teeth. It calls for an analysis, but if the conclusion is that the buildings are not at all responsive to the climate and are not oriented towards certain views, the City has no way to require otherwise.
- In late 2020, the City adopted the 2018 International Energy Conservation Code. This is a modern building code related to energy efficiency through building design elements such as window types, insulation requirements lighting/appliance standards. This may be a more effective way to promote and require energy efficiency than the analysis that is required in the IDO today and is more likely to result in energy efficient practices.
- The analysis, particularly the sun and shade analysis which can only be done using technical software that models the sun on a building at any particular point in a day, is expensive to administer. For a single-building development of ordinary shape, this analysis can add an upwards of \$5,000 to the development cost. For multi-building developments or developments where the buildings are not rectangular in shape, the cost can be in the tens of thousands range.

A11 – Parking for multi-family and retail uses

LAND USE, PLANNING AND ZONING COMMITTEE of the CITY COUNCIL

March 30th, 2022

COMMITTEE AMENDMENT NO. _____ TO Exhibit A to O-22-10

AMENDMENT SPONSORED BY COUNCILOR Dan Lewis

1. On page 264 of Exhibit A, amend the lines in table 5-5-1 as follows

Dwelling, multi-family	1.5 spaces / DU <u>1 space / Studio</u> <u>1.2 spaces / 1 bedroom</u> <u>1.6 spaces / 2 bedrooms</u> <u>1.8 spaces / 3 or more bedrooms]</u> UC-MS-PT: 1 space / DU
General Retail	4 spaces / 1,000 sq. ft. GFA <u>[1 space / 200 sq. ft. GFA for establishments no more</u>
Grocery Store	<u>than 10,000 sq. ft.</u> <u>1 space / 225 sq. ft. GFA for establishments between</u> <u>10,000 sq. ft. and 50,000 sq. ft.</u> <u>1 space / 300 sq. ft. GFA for establishments greater</u> <u>than 50,000 sq ft.]</u> UC-MS-PT: 2.5 spaces / 1,000 sq. ft. GFA Maximum (UC-MS-PT): 4 spaces / 1,000 sq. ft. GFA for primary buildings with more than 100,000 sq. ft. GFA

Explanation: This amendment proposes to amend the required amount of parking spaces for multi-family dwellings and general retail. Staff received data on three different apartment complexes in the city that outlined the number of required parking spaces per the IDO versus the number of vehicles apartment dwellers own and need to park on the property. Today, the IDO requires 1.5 spaces per dwelling unit. The Olympus Solaire complex, located on the west side, has shown a need of 1.15 parking spaces per unit. Olympus Northpoint, located near I-25 and Alameda, has shown a need of 1.35 spaces per unit. These recent examples have demonstrated that the parking requirements for multi-family dwellings is requiring a developer to provide excess, unused parking. This unused parking results in excess hardscape which can have a negative impact on the heat island effect and increase storm water runoff. This

A11 – Parking for multi-family and retail uses

calculation would still accommodate for ample guest parking, based on the calculations provided.

This amendment proposes a tiered approach, where fractions of a parking space will be calculated based on the size of the apartment unit. The IDO clarifies that if a parking calculation results in a fraction of the number, the required parking spaces shall be rounded down to the nearest whole number.

This amendment also creates a similar tiered system for General Retail and Grocery Stores, based on data collected from other cities on how they park these uses.

These may include but are not limited to showers, education and job training, storage space for residents' belongings, recreational services, facilities, and activities for use by occupants to provide comprehensive livability options.]

A12 | Option 3 – Safe Outdoor Spaces

4-3(C)(9)(i) This use is prohibited adjacent to Major Public Open Space.

4-3(C)(9)(j) The total number of safe outdoor spaces shall not exceed 5 in each City Council District.

5. On page 265, in Table 5-5-1, add a new use “[Safe Outdoor Space]” in the Use column, and in the IDO Parking Requirement Column add “[2 spaces per project site]”.
6. In Subsection 7-1, Definitions, add in appropriate alphabetical order a new definition for “Safe Outdoor Space” as follows:
[**Safe Outdoor Space** A lot, or a portion of a lot, developed to provide designated spaces for occupancy by tents, recreational vehicles, and/or light vehicles. Designated spaces are provided to occupants at no charge. A safe outdoor space offers social services and support facilities. Explanation: This amendment proposes to create a new use “Safe Outdoor Space” in order to allow for the development of sites that can be quickly and easily established that would provide a safe space for members of the unhoused community to have a tent, recreational vehicle, or place to park their vehicle safely. The latest census of homeless individuals in Albuquerque was 1,570 individuals. While the city and county have a number of initiatives underway, these don’t meet the needs of all. And for many in the unhoused community, are not somewhere they are comfortable going. Safe Outdoor Spaces are intended to be a fast and efficient way to serve our unhoused community members.

A Safe Outdoor Space would be:

- Be limited in scale (maximum of 40 designated spaces)
- Provide facilities for personal hygiene
- Provide social services and support facilities
- Include space for individuals to securely store their belongings
- Provide an address for mail for each resident
- Fenced and screened

Safe Outdoor Spaces are modelled after Camp Hope in Las Cruces which in the past 11 years of existence, has served an average of 200 individuals per year. This is 200 people per year in just one facility who were kept safe, offered services and helped with transitioning to more permanent housing.

This amendment differs from option 1 in that there are no wall, fence, or screening requirements if the Safe Outdoor Space has only light vehicles or recreational vehicles as occupants (as opposed to tents). Section 4-3(C)(9)(f) contains the language that is different between the two versions. The council will need to adopt one of these versions

A12 | Option 3 – Safe Outdoor Spaces

and should not adopt both.

In 2019, the 9th Circuit Court of Appeals held that ordinances that criminalize sleeping, sitting, or lying in public spaces, when no alternative sleeping space is available, violate the Eighth Amendment. (*Martin v. City of Boise*, 920 F.3d 584). This holding is non-binding in New Mexico (10th Circuit), however, this is a relevant development in the law on this topic, and it may be prudent to keep in mind when legislating in this area. This proposed amendment creates locations in which unhoused individuals can legally settle as opposed to settling in locations where that conduct may be criminalized.

A14 – Utility easements related to vacations of right-of-way

LAND USE, PLANNING AND ZONING COMMITTEE of the CITY COUNCIL

March 30th, 2022

COMMITTEE AMENDMENT NO. _____ TO Exhibit A to O-22-10

AMENDMENT SPONSORED BY COUNCILOR Trudy Jones

1. On page 488 of the Redline version of the IDO, amend section 6-6(M)(2) as shown in Exhibit A to this amendment

Explanation: This amendment proposes to provide clarity on the procedures for vacations of public right-of-way when there are existing utilities or recorded utility easements in the area proposed to be vacated. These changes are in response to a request from PNM to further clarify these procedures beyond what the EPC already added to the IDO during their deliberations this year (found in the redline document). While the changes are derived from a request from PNM, the added language would be applicable to all utilities and utility agencies.

Exhibit A to Amendment A14

1. Amend IDO Subsection 14-16-6-6(M) VACATION OF EASEMENT, PRIVATE WAY, OR PUBLIC RIGHT-OF-WAY on Page 489 to replace the language in Subsection 14-16-6-6(M)(2)(f)(2) with language as shown below, in response to PNM's requested language to clarify existing easements as they pertain to utilities.

6-6(M)(2) Procedures

6-6(M)(2)(f) If an application for a Vacation of Public Right-of-way is approved, all of the following requirements shall apply.

1. Within 7 days of the approval, the applicant shall coordinate with the Real Property Division of the City Department of Municipal Development and send notice of the approved vacation by First Class Mail to all abutting property owners. The letter shall include the contact information for the Real Property Division of the City Department of Municipal Development, as well as any other information as directed by the Real Property Division of the City Department of Municipal Development:
 - a. Abutting property owners have 30 days from the receipt of the notice to notify the Real Property Division of the City Department of Municipal Development of the intent to purchase the vacated right-of-way, or any portion thereof, or possibly forfeit their right to do so.
 - b. Within 7 days of receipt of the notice of intent to purchase, the Real Property Division of the City Department of Municipal Development will provide the interested property owner with a purchase price for the desired portion of the vacated public right-of-way.
2. Any property owner that purchases vacated public right-of-way shall complete the following requirements within 1 year of the approval of the Vacation or the Vacation shall be voided:
 - a. Obtain a Subdivision of Land – Minor or a Subdivision of Land – Major, as applicable, in order to combine the vacated right-of-way with their property.
 - i. The zone district boundary will be extended to the new lot lines established by the subdivision.
 - ii. In the event that there are existing utility facilities (e.g. water/sewer lines, electric lines, drainage facilities, etc.) situated on, in, or under the vacated right-of-way, the purchasing property owner shall contact any affected utility promptly following the approval of the vacation to negotiate if and under what terms the

property owner grants an easement for the utilities and/or if, when, and how a relocation of the utility facilities is required.

- a. Where there is no duly recorded easement associated with the existing utility facilities because the facilities were placed on the property in accordance with a franchise agreement between the City and the utility, the purchasing property owner, at his/her sole discretion, shall advise the utility of one of the following:
 1. That the property owner is willing to negotiate a grant of easement to accommodate all or a portion of the existing utility facilities on the property.
 2. That all or a portion of the existing utility facilities on the property will need to be removed and/or relocated.
- b. Where there is a duly recorded, valid easement associated with the existing utility facilities for the use and occupancy of the property, such easement runs with the land pursuant to Subsection 14-16-6-4(X)(1).
 1. In the event that the purchasing property owner wants to relocate any utility facilities to accommodate new development, the purchasing property owner shall contact the affected utility to request, coordinate, and negotiate the relocation of the utility facilities, associated costs, and any new easements that are needed.
 2. Any existing easements or newly granted easements shall be reflected on the Subdivision – Minor or Subdivision Major, as applicable, that is required pursuant to 14-16-6-6(M)(2)(f)2.a, above.
- b. Record the final plat with the Bernalillo County Assessor, pursuant to Subsection 14-6-6(K)(2)(h) or 14-16-6-6(L)(2)(g)4, as applicable.
- c. Present and execute a quitclaim deed in a form acceptable to the City to effect the transfer of ownership after recording the final plat.

[SECTION 3. COMPILATION. Section 1 of this ordinance shall amend, be incorporated in, and compiled as part of the Revised Ordinances of Albuquerque, New Mexico, 1994.]

Explanation: This amendment proposes to add in necessary language related to the action of compiling the IDO amendments into the official code of ordinances. This is 'boiler plate' language associated with all ordinances that amend the code and was mistakenly left out of the bill.

LAND USE, PLANNING AND ZONING COMMITTEE of the CITY COUNCIL

Explanation: This amendment contains edits and clarifications that were not included in the original submittal because staff was not made aware of them until after the Environmental Planning Commission made their recommendation to the City Council. These changes are technical in nature, do not substantively change the IDO, and seek to provide further clarification of existing provisions within the document.

A17 – Variances or Waivers in Overlay Zones

LAND USE, PLANNING AND ZONING COMMITTEE of the CITY COUNCIL

March 30th, 2022

COMMITTEE AMENDMENT NO. _____ TO Exhibit A to O-22-10

AMENDMENT SPONSORED BY COUNCILOR Isaac Benton

1. On page 494 of Exhibit A, amend “6-6(O)(3)(a)(4)” as follows:
 4. The Variance will not materially undermine the intent and purpose of this IDO ~~or~~ the applicable zone district, or any applicable Overlay Zone.
2. On page 495 of Exhibit A, amend “6-6(n)(3)(a)(4)” as follows:
 4. The Variance will not materially undermine the intent and purpose of this IDO ~~or~~ the applicable zone district, or any applicable Overlay Zone.
3. On page 498 of Exhibit A, amend “6-6(P)(3)(g)” as follows:
 4. The Waiver will not materially undermine the intent and purpose of this IDO ~~or~~ the applicable zone district, or any applicable Overlay Zone.

Explanation: This amendment proposes to clarify that Overlay Zones (if applicable to that variance or waiver application) are to be considered as a part of the request when justifying how the request does not “materially undermine” the overlay zone in which the request is being made. This doesn’t add additional criteria to the variance or waiver process, but more clearly identifies overlay zones as a part of the IDO that is to not be materially undermined.

A18 – Walls in the front yard or street side yard

LAND USE, PLANNING AND ZONING SUBCOMMITTEE of the CITY COUNCIL

March 30th, 2022

COMMITTEE AMENDMENT NO. _____ TO Exhibit A to O-22-10

AMENDMENT SPONSORED BY COUNCILOR Klarissa Peña

1. On Page 358, Table 5-7-1, revise “wall in the front yard or street side yard” as follows:

- Residential: 4 ft. 3 ft.
- Mixed-use 4 ft. 3 ft.
- Non-residential: 4 ft. 3 ft.

Explanation: This amendment proposes to allow walls in the front yard or street side yard to be a maximum of 4 feet, up from the now-allowed 3 foot maximum. This change will allow property owners to construct a higher wall which may provide safety benefits to their property.

The Environmental Planning Commission considered this change at their hearing on the IDO Annual Update in December and unanimously recommended it not be approved related to concerns about maintaining neighborhood character and the potential for taller walls to create safety hazards.

A19 – Citywide Neon Signs

LAND USE, PLANNING AND ZONING SUBCOMMITTEE of the CITY COUNCIL

March 30th, 2022

COMMITTEE AMENDMENT NO. _____ TO Exhibit A to O-22-10

AMENDMENT SPONSORED BY COUNCILOR Klarissa Peña

1. On Page 358, Section 5-12(F)(4)(a) revise as follows:

5-12(F)(4)(a) Neon Signs [City-Wide] [along Central Avenue]

The provisions of this Subsection 5-12(F)(4)(a) provide size and height bonuses for qualifying neon on-premises signs, allow animation, and provide incentives and flexibility from otherwise applicable sign regulations [in all] [in specific] areas of the city. In case of conflict between these standards and other sign standards applicable to the same property, these standards shall prevail.

1. Applicability

[The following additional regulations apply in all areas of the city where illuminated signs are allowed.] [The following additional regulations apply to:

- a. Signs on all lots that abut or have direct frontage to Central Avenue.
- b. Signs on all lots located within 300 feet of the edge of the public right-of-way of Central Avenue.
- c. Signs located on lots located within 300 feet of an intersection of Central Avenue and the following streets: Tramway Boulevard, Juan Tabo Boulevard, Eubank Boulevard, Wyoming Boulevard, Louisiana Boulevard, San Pedro Boulevard, San Mateo Boulevard, Yale Boulevard, University Boulevard, I-25, Broadway Boulevard, Atrisco Drive, Old Coors Drive, Coors Boulevard, Unser Boulevard north of Central Avenue, and 98th Street north of Central Avenue.]

Explanation: This amendment proposes to extend citywide the provisions that incentivize neon signs on Central Avenue. Per Section 5-12(F)(4)(a), there are size and height bonuses, allowances for animation, and incentives and flexibility for qualifying neon signs. At present these are only applicable along the Central Avenue corridor, however, this amendment would extend those incentives for neon signs citywide. While

A19 – Citywide Neon Signs

historically Central Avenue has seen a lot of neon signage, as a part of Route 66 for many years. Other commercial areas also have a history of neon signage, including 4th Street, sections of Broadway, Lomas, and Menaul, to name a few.

1. On page 491 of the redline draft, add a new subsection 6 as follows:

6-3-(D)(6) Each text amendment proposed to the IDO shall include the following information:

1. Number reference

10. Verification that affected City Departments support/oppose for each amendment
11. All public comments with a statement of public support/opposition for each amendment

Explanation: This amendment proposes to add information that must be provided with any text amendment to the IDO as a part of the IDO Annual Update process. The criteria above will require that information related to the requested change's purpose, the impetus for the change, any unintended consequences, public comment associated with the amendment, any affected City Departments comments on the amendment, and technical notations surrounding the amendment. These requirements would be applicable to amendments that Planning Department staff poses to the EPC at the start of the IDO Annual Update process in addition to any amendments that city councilors may pose at the LUPZ or Full Council stage in the process.

B1 – Cannabis Retail Microbusinesses in Old Town

CITY COUNCIL of the CITY OF ALBUQUERQUE

May 2nd, 2022

FLOOR AMENDMENT NO. _____ TO Exhibit A to O-22-10

AMENDMENT SPONSORED BY COUNCILOR Tammy Fiebelkorn

1. On page 178, revise Section 4-3(D)(35)(I) to read as follows:

4-3(D)(35)(I) This use is prohibited in the Old Town - HPO-5[.], unless associated with an establishment licensed by the State as a cannabis microbusiness.

Explanation: This amendment proposes to make cannabis retail for microbusiness license holders permissive in the Old Town HPO-5. A microbusiness license holder is defined in the IDO as:

Cannabis Microbusiness

An establishment licensed by the State as an Integrated Cannabis Microbusiness or Cannabis Producer Microbusiness, as defined by Sections 26-2C-1 to 26-2C-42 NMSA 1978.

This is intended to allow cannabis retail in a limited manner that supports economic development for New Mexico small businesses. This amendment would not allow cannabis-derived products manufacturing or cannabis cultivation in Old Town. In order to address concerns about equity, and to ensure that small businesses have an opportunity to enter the recreational cannabis industry, the State established the microbusiness licenses. This amendment seeks to further the State's intent by providing microbusiness license holders greater allowances for where a cannabis retailer with a microbusiness license can locate. This is consistent with how alcohol is treated in Old Town, where bars and nightclubs are prohibited but tap rooms are allowed. Tap rooms are defined as:

Tap Room or Tasting Room

An establishment associated with a local brewery, winery, or distillery operating under an approved Small Brewer's License as governed by Section 60-6A-26.1 NMSA 1978, an approved Winegrower's License as governed by Section 60-6A-11 NMSA 1978, or an approved Craft Distiller's License as governed by Section 60-6A-6.1 NMSA 1978 where beer, wine, or spirits are available for consumption on-site. Any production of alcohol as regulated by State law under one of these licenses is considered artisan manufacturing. Any sale of alcohol for off-premises consumption as regulated by State law under these licenses is not considered liquor retail. See also Bar, Liquor Retail, and Manufacturing Definitions for Artisan Manufacturing.

B1 – Cannabis Retail Microbusinesses in Old Town

From a land use perspective, the New Mexico Cannabis Regulation Act (CRA) contains two key regulations for local jurisdictions to follow. A local jurisdiction:

- may adopt time, place and manner rules that do not conflict with the Cannabis Regulation Act or the Dee Johnson Clean Indoor Air Act [Chapter 24, Article 16 NMSA 1978], including rules that reasonably limit density of licenses and operating times consistent with neighborhood uses.
- shall not completely prohibit the operation of a licensee.

In general, this means that a local jurisdiction can say where cannabis uses can occur, but it can't prohibit cannabis uses entirely from the jurisdiction, and that it needs to treat cannabis uses similarly to other similar uses.

In relation to Old Town, while we limit some commercial uses such as bars and nightclubs, we do allow other commercial uses such as tap rooms. Therefore by allowing the cannabis retail for microbusiness license holders, a use that is focused on supporting small New Mexico businesses, the changes proposed in this amendment are consistent with how we treat similar commercial uses within Old Town and are consistent with what the state regulations require. It should also be noted that the CRA does not have any exceptions for areas of cultural and/or historic significance. Within Albuquerque, Nob Hill is another area with cultural and historic significance, and in Santa Fe, the Plaza area is an area with cultural and historic significance. Both of these locations have a strong connection to the tourism industry, and cannabis retail is permissive in both of these locations.

B2 – Living Lots

CITY COUNCIL of the CITY OF ALBUQUERQUE

June 6th, 2022

FLOOR AMENDMENT NO. _____ TO Exhibit A to O-22-10

AMENDMENT SPONSORED BY COUNCILOR Brook Bassan

1. On Page 149, in Table 4-2-1, in the Temporary Use section, add a new use “Living Lot”. Add a “P” in the MX-T, MX-L, MX-M, MX-H, NR-C, NR-BP, NR-LM, and NR-GM zone districts. Add “4-3(G)(5)” for the use specific standards column and renumber subsequent use specific standards as necessary
2. On Page 161, in Subsection 4-3(C)(8)(a) amend the use-specific standard for religious institution use as follows:
Incidental activities, including but not limited to recreational, educational, overnight shelters, campgrounds [, and living lots] are allowed, provided that all of the following conditions are met.
3. On page 161, add use-specific standards as a new IDO Subsection 4-3(G)(5):
4-3(G)(5) Living Lot
4-3(G)(5)(a) Lavatories with at least one toilet and one handwashing station for every 5 [occupants] [designated spaces] shall be provided and shall not be more than 300 feet in any direction of any [occupant] [designated space]. Portable toilets and handwashing stations may be provided to meet this requirement, but proof of a maintenance agreement shall be required demonstrating that they will be serviced at regular intervals.
4-3(G)(5)(b) This use is limited to 12 months, and the Temporary Use Permit may be extended twice for an additional 6 months each time. A new Temporary Use Permit pursuant to Subsection 14-16-6-5(D) shall not be approved within 6- months of the last date the use was allowed in a previous Temporary Use permit.]
4. In Subsection 7-1, Definitions, add in appropriate alphabetical order a new definition for “Living Lot” as follows:

B2 – Living Lots

[Living Lot A lot, or a portion of a lot, developed to provide occupancy by tents, recreational vehicles, and/or light vehicles provided to occupants at no charge and which are following requirements and as limited by the use-specific standard in IDO Subsection 14-16-4-3(C)(10). See also *Light Vehicle or Recreational Vehicle Park*.]

Explanation: This amendment proposes to create a new use “Living Lot” that would allow for persons living in light vehicles, recreational vehicles, or tents a piece of property to live on. This use would require that toilets and handwashing stations be provided, but those facilities could be non-permanent. This use would be allowed in all of the mixed-use zones and non-residential zones permissively. This use would be temporary in nature and could not occur for more than 12 months at a time, with the potential for two 6-month extensions.

This amendment does not conflict with the Safe Outdoor Space use as approved by the LUPZ committee, but would offer another land use tool for accommodating persons living in light vehicles, RVs, or tents with minimal requirements.

Since this amendment was first considered on May 2nd the following changes have been made:

- The bathroom calculation was changed from “per person” to “per designated space”
- This use was changed to a Temporary Use

B3 – Safe Outdoor Spaces – Rescind A12

CITY COUNCIL of the CITY OF ALBUQUERQUE

May 2nd, 2022

FLOOR AMENDMENT NO: _____ TO Exhibit A to O-22-10

AMENDMENT SPONSORED BY COUNCILOR Louie Sanchez

Rescind Amendment A12 – Option 3 as it was passed by the Land Use, Planning and Zoning Committee on April 13, 2022

Explanation: This amendment proposes to rescind the LUPZ amendment (A12 – Option 3) that created the use Safe Outdoor Spaces in the IDO. This use was added by the Land Use, Planning and Zoning Committee at their April 13th hearing. There are other existing tools the City has at their disposal to help address the unhoused population in Albuquerque, and creating an entirely new land use that may have unintended consequences. For example, Overnight Shelters are an already-established use in the IDO intended to provide low-cost shelter for the unhoused.

B4 – Safe Outdoor Spaces – Clean-up

CITY COUNCIL of the CITY OF ALBUQUERQUE

May 2nd, 2022

FLOOR AMENDMENT NO. _____ TO Exhibit A to O-22-10

AMENDMENT SPONSORED BY COUNCILOR Isaac Benton

Note: This amendment does not reference page numbers to be amended because the text it is proposing to change what was passed at the LUPZ committee.

1. Amend Subsection 4-3(C)(8)(a)4, Religious Institutions as follows:

4. Safe Outdoor Spaces must comply with all applicable State and local regulations for safe outdoor spaces. For the purposes of this IDO, a conditional use approval is not required, but the use specific standards for Safe Outdoor Spaces pursuant to IDO Subsection 14-16-4- 3(C)(9) do apply, with the exception[s] that the prohibition in proximity to RA, R-1, R-MC, or R-T in 14-16-4-3(C)(9)(a) does not apply[, and Council District cap in 14-16-4-3(C)(9)i do not apply].

2. Amend Section 4-3(C)(9)(d) as follows:

One water-flush or composting toilet shall be provided for every 8 designated spaces, one hand washing station shall be provided for every 10 designated spaces, and one shower per 10 [~~camp sites~~] [designated space] shall be provided.

3. Amend Section 4-3(C)(9)(d) to add a new use-specific standard as follows:

[iv. Portable showers may be provided to meet this requirement. Showers are not required plumbed within 2 years of the City approval of the Safe Outdoor Space.]

4. Amend Section 4-3(C)(9)(f) as follows:

The area containing designated spaces for tents shall be [secured and] screened on all sides by an opaque wall or fence or vegetative screen at least 6 feet high.

B4 – Safe Outdoor Spaces – Clean-up

Other requirements in Section 14-16-5-6 Landscaping, Buffering, and Screening do not apply.

Explanation: This amendment proposes to make the following clarifications to the Safe Outdoor Space amendment that passed at LUPZ:

1. Clarifies that the Council District cap does not apply to Religious Institutions. Per the Religious Land Use and Institutionalized Person Act (RLUIPA) a government should limit how a religious institution furthers their mission. This language is added to be consistent with this Federal act.
2. Replaces the term camp site with the term designated spaces for consistency
3. Clarifies the intent that while showers are required, they can be portable showers, and can remain as portable showers in perpetuity.
4. Clarifies that the area for tents must be screened and secured. It is important for residents that the areas for the tents be safe places for them to stay.

B7 – Safe Outdoor Spaces – Zoning Districts

CITY COUNCIL of the CITY OF ALBUQUERQUE

June 6th, 2022

FLOOR AMENDMENT NO. _____ TO Exhibit A to O-22-10

AMENDMENT SPONSORED BY COUNCILOR Isaac Benton

1. In Table 4-2-1, in the Civic and Institutional Uses category, amend the allowed zones in which a Safe Outdoor Space can occur from “C” to “P” in the MX-M and MX-H zone districts.
2. Amend 4-3(C)(9) to add a new use-specific standard as follows and re-letter subsequent sections:

[4-3(C)(9)(a) This use shall require a Conditional Use Approval pursuant to Subsection 14-16-6-6(A) within the Downtown Center, Main Street areas, and Urban Centers.]

Explanation:

Note: This amendment does not reference page numbers to be amended because the text it is proposing to change what was passed at the LUPZ committee.

Per the amendment on Safe Outdoor Spaces (SOS) that passed at LUPZ, SOS are conditional in the MX-M and MX-H zone districts. This amendment proposes to make safe outdoor spaces permissive in the MX-M and MX-H zone district. It also proposes to require a Conditional Use Approval through the Zoning Hearing Examiner for any Safe Outdoor Space occurring in the Downtown Center, Main Street Areas, or Urban Centers.

Note: This amendment conflicts with Amendment B22 which proposes to require the conditional use approval in the Downtown Center, Main Street Areas, Urban Centers and Activity Centers and Employment CenterBs.

B8 – Safe Outdoor Spaces – Council District Cap

CITY COUNCIL of the CITY OF ALBUQUERQUE

FLOOR AMENDMENT NO. _____ TO Exhibit A to O-22-10

AMENDMENT SPONSORED BY COUNCILOR Renee Grout

1. Amend Section 4-3(C)(9)(j) Safe Outdoor Spaces as follows:

The total number of safe outdoor spaces [and/or conversions of non-residential uses to multi-family pursuant to the provisions in section 4-3(B)(7)] shall not exceed [5][2] in each City Council District.

2. Amend Section 4-3(B)(7) to add a new use-specific standard to Dwelling, Multi-Family as follows

[6. The total number of conversions of non-residential uses to multi-family pursuant to the provisions in in this Section 4-3(B)(7) and/or safe outdoor spaces shall not exceed 2 in each City Council District.]

Explanation: This amendment proposes to regulate the number of conversions of non-residential uses to multi-family for affordable housing pursuant to the section of the IDO that allows such conversions to provide a lesser kitchen **and/or** the number of safe outdoor spaces to two per City Council district. The LUPZ committee passed an amendment creating the Safe Outdoor Space land use and another amendment that created the provision to allow for a lesser kitchen for non-residential conversions to multi-family uses for affordable housing. The Safe Outdoor Space use was passed with a maximum of 5 project sites per district, and the conversion of non-residential uses to multi-family uses do not have a cap. Lowering the cap to two and combining the cap between the two aforementioned land uses will help ensure that no single Council District is inundated with land uses aimed at assisting the unsheltered population and will require that these land uses occur in all council districts if there is a desire to have many of them in the city.

B9 – Pre-Application Review Team Meetings

Explanation: This amendment proposes to strike the requirement for a Pre-Application Meeting for most application types, with the exception of the following applications listed in Table 6-1-1:

- Historic Certificate of Appropriateness – Major
- Subdivision of Land – Major
- Vacation of Public Right-of-Way – City Council
- Vacation of Public Right-of-Way – DRB
- Adoption or Amendment of Historic Designation

Section 6-4(B)(1) states:

The purpose of a pre-application meeting is to provide an opportunity for an applicant and City staff to discuss applicable submittal requirements and procedures; the scope, features, and potential impacts of the proposed development on surrounding neighborhoods and infrastructure systems; the consistency or inconsistency of the proposed application with the ABC Comp Plan, as amended; applicable requirements and standards in this IDO; and applicable requirements and standards in the DPM and to identify primary contacts for the applicant and staff. A sketch plat review by the DRB meets the requirement of a pre-application meeting.

Prior to the adoption of the IDO, the Planning Department offered Pre-application (PRT) meetings as a service to the public, and as a means for the public to meet with Planning staff and get assistance with questions on how they might develop or redevelop a property. These meetings were voluntary and resulted in a non-binding review of city requirements with appropriate city staff. With the adoption of the IDO, the PRTs went from voluntary to mandatory for the above list of applications. This created a significant increase in the number of requests for PRT meetings. With the onset of COVID, the meetings shifted from in-person meetings to an email request and email response. Over the past year the PRT meeting email slots are often booked several weeks out and the responses take several weeks to be sent back. This can create a significant delay in the development timeline for a property owner seeking approvals through the city.

The intent of making the PRT meetings mandatory was to ensure a more complete application, however, the responses are no longer timely and often provide very generic information. This amendment proposes to stop requiring the pre-application meetings as mandatory for most application types, however the Planning Department will still be able to provide them to the public if a property owner chooses to opt-in to the process. Overall, the intent of removing PRTs as mandatory is to streamline the application process.

FLOOR AMENDMENT NO. _____ TO Exhibit A to O-22-10

AMENDMENT SPONSORED BY COUNCILOR Trudy Jones

1. Amend the IDO pursuant to Exhibit A to this amendment.

Explanation: This amendment seeks to add additional provisions to cannabis-related uses in the IDO based on feedback and recommendations from a consultant the Planning Department hired to assist with the implementation and enforcement of adult use cannabis in Albuquerque. The amendment:

- Adds a requirement that cannabis consumption areas occur within fully enclosed portions of a building when the consumption is via smoking or vaporizing.
- Adds a size limitation on cannabis retail to 10,000 square feet if located in the MX-T zone. Other, non-cannabis, retail uses in the MX-T zone are already subject to the same limitation.
- Adds a requirement for a Letter of Availability from the ABCWUA for all Cannabis-derived Products Manufacturing and Cannabis cultivation. Applicants are already required to provide this paperwork for their approval by the state, this will also require it be submitted with their zoning application to the city.

B12 – Major Public Open Space Definition

CITY COUNCIL of the CITY OF ALBUQUERQUE

May 2nd, 2022

FLOOR AMENDMENT NO. _____ TO Exhibit A to O-22-10

AMENDMENT SPONSORED BY COUNCILOR Dan Lewis

1. On page 576, amend the definition for Major Public Open Space as follows:

[Major Public Open Space

~~Publicly-owned spaces managed by the Open Space Division of the City Parks and Recreation Department;~~ [City-owned property that is zoned NR-PO-B or city-managed property that is zoned NR-PO-C] including the Rio Grande State Park (i.e. the Bosque), Petroglyph National Monument, and Sandia foothills. These are typically greater than 5 acres and may include natural and cultural resources, preserves, low-impact recreational facilities, dedicated lands, arroyos, or trail corridors. The Rank 2 Major Public Open Space Facility Plan guides the management of these areas. For the purposes of this IDO, Major Public Open Space located outside the city municipal boundary [that is mapped as Open Space in the Comprehensive Plan] still triggers Major Public Open Space Edge requirements for properties within the city adjacent to or within the specified distance of Major Public Open Space.]

Explanation: This amendment proposes to revise the definition of Major Public Open Space (MPOS) to clarify that certain zoning district designations or a designation in the Comprehensive Plan is required for a parcel to be considered Major Public Open Space. Without requiring the zoning district or the designation in the Comprehensive Plan, there is a risk that properties may be considered MPOS without proper notice to nearby property owners.

B13 – Replacement of the Development Review Board

[SECTION 3. EFFECTIVE DATE AND PUBLICATION. This ordinance shall take effect one month after publication by title and general summary except for those changes in Amendment B13 to Exhibit A which shall take effect 180 days after publication by title and general summary.]

- Page 461 of Exhibit 1: Requirement that a Notice of Decision be made available for Site Plan – Administrative decisions

B13 – Replacement of the Development Review Board

This amendment proposes to remove the Development Review Board (DRB) as a review and decision-making body. Some decisions the DRB makes today will be made administratively, some will be reviewed by the EPC, and some will be heard by a new body called the Development Hearing Officer (DHO). There are some decisions the DRB currently makes that are required to occur at a public hearing where public testimony can be taken and considered – the DHO or EPC will be the bodies for those decisions that require a public hearing. Currently, the DRB is comprised of city employees who both review/analyze a request and then also fill the role of making a final determination on that request. There is no other review and approval body in the City that operates in this way and this makes it challenging for those staff members who are expected to “wear multiple hats”. Procedurally, it’s difficult for staff to wear these multiple hats and which has resulted in the DRB process becoming cumbersome. This restructuring will help streamline the development process for most application types that are required to be considered by the DRB today. The other major reviewing bodies in the IDO are:

- The Zoning Hearing Examiner (ZHE) has staff who receives and reviews applications and then provides a summary of information to the ZHE for that person to make a decision.
- The Environmental Planning Commission (EPC) receives staff reports from appropriate city staff members who analyze the request and submit a recommendation to the EPC body for them to make a decision.
- The Landmarks Commission (LC) receives staff reports from appropriate city staff members who analyze the request and submit a recommendation to the LC body for them to make a decision.
- The City Council receives staff support who provide an analysis of the request to the body for them to make a decision.

The DHO will be a person on-contract to the City, much like the ZHE role and they will be required to have a background in engineering, planning, and/or law. This person will receive staff support from the members who sit on the DRB today – those staff members will utilize their professional expertise to provide a recommendation to the DHO on applications they are to consider. The DHO will hold public hearings and take public testimony on those actions that this person will consider. For example, if the DHO holds public hearings two times a month, in between those biweekly meetings applicants will be able to meet with the appropriate staff members regarding their applications. By the time the application reaches the DHO, any technical changes or deficiencies in the application should be remedied through these meetings with the staff, hopefully leading to a smooth public hearing process with minimal deferrals. Today, it

B13 – Replacement of the Development Review Board

takes an applicant an average of four DRB hearings before an approval is issued. This proposed process with the DHO should hasten this timeline.

Public notice will not change for decisions by the DHO – the notice will mirror the required notice as listed for those DRB decisions in the IDO today. Site Plans that will be considered via Site Plan – Admin will follow notice requirements for Site Plan – Admin in the IDO today and any site plans required to be considered by the EPC will follow notice requirements for Site Plan – EPC in the IDO today.

DRB decisions found in table 6-1-1 will instead be reviewed and considered by the following:

including but not limited to size or shape or lots, topography, surrounding development patterns, and physical characteristics.

2. Permanent stub streets are allowed only where a connection to an existing street and a future road extension is not possible or feasible. Where allowed, stub streets are limited to 150 feet in length.
3. Mid-block “bubble” cul-de-sacs without throats are allowed.
4. Whenever cul-de-sacs are created, 1 20 foot wide pedestrian access/public utility easement shall be provided between the cul-de-sac head or street turnaround and the sidewalk system of the closest adjacent street or walkway, unless the City Engineer determines that public access in that location is not practicable due to site or topography constraints.

5-3(E)(1)(e) Street Signs and Lights

1. Street name signs and traffic control signs shall be required as specified in the DPM.
2. Street lights on local streets are required to be installed at the applicant's expense and provided as approved in the Infrastructure Improvements Agreement (IIA) pursuant to Subsection 14-16-5-4(O).

2. ~~Private ways providing access to a lot that does not abut a public right of way may be platted only when approved by the DHO DRB.~~⁷¹
3. The City Engineer DRB may require private ways to include public or private utility easements, including easements for stormwater drainage.
4. If a private way is approved, it shall clearly be identified as such on the final plat, which shall also state the beneficiaries and maintenance responsibilities of the private way. Any legal instrument intended to assure future maintenance of such private way, such as an instrument creating a homeowners association, shall be included in the subdivider's submittals to the DHO DRB pursuant to Subsections 14-16-6-6(K) (Subdivision of Land – Minor) and 14-16-6-6(L) (Subdivision of Land – Major).
5. All storm drain systems within private ways shall remain private unless they receive water from public facilities and the runoff is drained downstream to another public facility.

5-3(E)(2) Connections to Adjacent Land⁷²

- 5-3(E)(2)(a) Where land adjacent to a proposed subdivision ~~the new subdivision~~ has been platted with stub streets, or with a street ending at a street between the new subdivision and the adjacent land, the streets in the proposed subdivision ~~new subdivision streets~~ shall be designed to align with those streets to allow through circulation, unless ~~deemed impracticable by the City Engineer DRB~~ requires otherwise due to physical constraints, natural features, or traffic safety concerns, pursuant to Subsection 14-16-1-7(B)(2).

1. Every lot shall have sufficient access to afford a reasonable means of ingress and egress for emergency vehicles, as well as for those needing to access the property for its intended use.
2. Driveways, drive aisles, and access points shall be constructed to the standards of the DPM.
3. Driveway and drive aisle entrances and other openings onto streets shall be constructed so that:
 - a. Vehicles may safely enter and exit from the lot.
 - b. Interference with the free and convenient flow of traffic in abutting or surrounding streets is minimized.
 - c. Shared driveways and drive aisles are established to minimize the number of access points to streets.

5-3(E)(3)(b) Residential Development

1. There shall be no direct driveway access from any low-density residential development lots to any arterial street or interstate highway unless no alternative access is feasible.
2. Multi-family residential development on sites greater than 5 acres shall include a minimum of 2 through-access drives, unless deemed impracticable by the City Engineer DRB due to physical constraints or natural features.

5-3(E)(3)(c) Mixed-use and Non-residential Development

2. Drive aisles shall be located at least the minimum distance from street intersections required by the DPM.

5-3(E)(4) Bicycle Facilities along Streets⁷⁴

Each street designated in the Metropolitan Transportation Plan and/or the Rank 2 Bikeways and Trails Facility Plan as an existing or proposed route to accommodate bicycles shall be incorporated into the development and shall be designed to comply with the standards of the DPM. The DHO may increase the public Public right-of-way and pavement widths for those streets may be increased up to 12 feet on adopted bike routes and lanes by the DRB based on considerations of bicycle, pedestrian, and motor vehicle safety.

Part 14-16-5: Development Standards

5-4(D): Existing Agreements and Covenants

5-4: Subdivision of Land

5-3(E)(4): Bicycle Facilities along Streets^{73F}

- 5-4(C)(2) No land shall be subdivided that is found to be unsuitable for subdividing by reason of flooding, ponding, poor drainage, adverse soil conditions, adverse geological formations, unsatisfactory topography, limitations of water quantity, and/or quality, lack of access or restrictions on accessibility, or other conditions likely to be harmful to the public health, safety, or general welfare, unless such unsuitable conditions are corrected or mitigated to the satisfaction of the City. The Development Hearing Officer (DHO) ~~Development Review Board (DRB)~~ is responsible for making determinations regarding unsuitability of land for subdivision.⁷⁵
- 5-4(C)(3) The availability of adequate access, fire protection, police protection, refuse service, public schools, public parks and recreation facilities, other elements of public infrastructure or private facilities, and privately provided utilities shall all be weighed in considering proposed subdivisions. They are not all necessarily required.
- 5-4(C)(4) Each subdivision shall comply with the provisions of Subsection 14-16-5-2(C) (Site Design to Avoid Sensitive Lands) unless encroachment into those sensitive lands is corrected or mitigated to the satisfaction of the City.
- 5-4(C)(5) The general layout of lots, roads, driveways, drive aisles, utilities, drainage facilities, and other services within proposed subdivisions shall be designed to avoid making compliance with the standards of the applicable zone district difficult or infeasible.
- 5-4(C)(6) In the PD and NR-SU zone districts, and for development in any zone district on a site 5 acres or greater adjacent to Major Public Open Space, an approved Site Plan – EPC is required prior to any platting action. In the PC zone district, an approved Framework Plan is required prior to any platting action. Subsequent platting must conform to the approved plans.
- 5-4(C)(7) In the NR-BP zone district, a Master Development Plan is required for lots 20 acres or more prior to platting action. For lots less than 20 acres zoned NR-BP, a Site Plan is required prior to development, but the property may be subdivided before or after a Site Plan is approved. Once a Master Development Plan or Site Plan is approved, subsequent platting must conform to the approved plan.

5-4(D) EXISTING AGREEMENTS AND COVENANTS

Subdivision regulations do not repeal, annul, or in any way interfere with existing private agreements or restrictive covenants applicable to a property. However, subdivision approvals are not required to be consistent with those private agreements or restrictive covenants. Where the standards in this Section 14-16-5-4 impose a different standard than those imposed by a private agreement or restrictive covenants, the standards in this Section 14-16-5-4 shall apply for purposes of City development approval and enforcement. Enforcement of any private agreements or restrictive covenants applicable to a property is the responsibility of the parties to that agreement, and not the City. See Section 14-16-1-9 (Relationship to Private Agreements and Covenants).

~~5-4(I)(2)(b) Subsurface conditions make underground lines economically unreasonable.~~

5-4(I)(3) Distribution Lines Over 40 Kilovolts

Electrical lines that carry 40 kV or more are not regulated by this IDO, but rather the Facility Plan for Electric System Transmission and Generation, as amended.

5-4(I)(4) Safety Clearances from Buildings and Other Structures

Safety clearances are required by the National Electric Safety Code (NESC) to ensure utility worker and public safety. Greater setbacks and/or reduced heights may be required for compliance with the National Electrical Safety Code (NESC) along lot lines that abut, are adjacent to, or within properties that contain overhead power lines and/or electric utility easements. Electric service provision from the Public Service Company of New Mexico (PNM) will also depend on adequate structure clearance requirements as outlined in the PNM Electric Service Guide.

In addition to the standards set forth in this Section 14-16-5-4, the City shall maintain technical standards for infrastructure improvements in the DPM, pursuant to Subsection 14-16-1-7(A)(4). Such technical standards for infrastructure improvements shall contain the minimum acceptable design criteria and specifications for the construction of such improvements. Such technical standards may be updated periodically and may vary for improvements based on the classification of streets or other improvements and the extent and characteristics of the area to be served by the improvements. 6-1 PROCEDURES SUMMARY TABLE

Table 6-1-1 lists the types of development applications authorized by this IDO. For each type of application, the table indicates what type of notice is required, whether pre-application meetings with Planning staff or Neighborhood Associations are required, which City bodies review and make a decision on the application, and in which cases a public hearing meeting or quasi-judicial hearing is required. At a public meeting, the reviewing body may or may not allow public comment at its discretion; at a public hearing, public testimony is allowed, and a record of the proceeding is created. At a quasi-judicial hearing, the additional procedures pursuant to Subsection 14-16-6-4(N)(3) are also followed.

Amend Floor Amendment B12 as it was passed by the City Council on May 2nd as follows with changes indicated in blue text:

Major Public Open Space

~~[Publicly-owned spaces managed by the Open Space Division of the City Parks and Recreation Department,]~~ [City-owned or managed property that is zoned NR-PO-B or city-managed property that is zoned NR-PO-C] including the Rio Grande State Park (i.e. the Bosque), Petroglyph National Monument, and Sandia foothills. These are typically greater than 5 acres and may include natural and cultural resources, preserves, low-impact recreational facilities, dedicated lands, arroyos, or trail corridors. The Rank 2 Major Public Open Space Facility Plan guides the management of these areas. For the purposes of this IDO, Major Public Open Space located outside the city municipal boundary [that is mapped as Open Space in the Comprehensive Plan] still triggers Major Public Open Space Edge requirements for properties within the city adjacent to or within the specified distance of Major Public Open Space.]

Explanation: This amendment proposes to revise the definition of Major Public Open Space (MPOS) to clarify that certain zoning district designations or a designation in the Comprehensive Plan is required for a parcel to be considered Major Public Open Space. Without requiring the zoning district or the designation in the Comprehensive Plan, there is a risk that properties may be considered MPOS without proper notice to nearby property owners.

Update: This amendment has been updated to add the term “or managed” to the NR-PO-B zone district definition. There is Major Public Open Space that is currently zoned NR-PO-B that the City does not own but does assist in managing. Several parcels in the Petroglyph National Monument are an example of this.

B29 – Rescind LUPZ Amendment A2

CITY COUNCIL of the CITY OF ALBUQUERQUE

June 6th, 2022

FLOOR AMENDMENT NO. _____ TO Exhibit A to O-22-10

AMENDMENT SPONSORED BY COUNCILOR Renee Grout

Rescind Amendment A2 as it was passed by the Land Use, Planning and Zoning Committee on April 13, 2022

Explanation: This amendment proposes to rescind the LUPZ amendment (A2) that allowed for lower-quality conversions of commercial spaces into multi-family residential by amending the definition of a “kitchen” when these conversions are associated with funding provided by the City’s Family and Community Services Department in conjunction with an affordable housing project. This definition was amended by the Land Use, Planning and Zoning Committee at their April 13th hearing. Affordable housing should conform to all other quality standards for residential uses, and contribute positively to quality of life for residents and the surrounding neighborhood.
