INTER-OFFICE MEMORANDUM March 08, 2022

TO: Isaac Benton, President, City Council
FROM: Alan Varela, Planning Director

SUBJECT: AC-22-3, PR-2021-006174, VA-2022-00019, VA-2021-00390: Robert Notary, appeals the Zoning Hearing Examiners decision to Approve a variance of 4 feet for a retaining wall in the rear yard for Lot 19A, Stonegate Village located at 4909 Oso Grande PL NE, zoned RT [Subsection 14-16-5-7(D)]

OVERVIEW
Roger Congdon, agent for property owner Jared Congdon requested a variance of 4 feet for a retaining wall in the rear yard located at 4909 Oso Grande PL NE.

The request was scheduled and heard at the December 21, 2021 Public Hearing.

January 5, 2022 the Zoning Hearing Examiner (ZHE) approved the request.

January 20, 2022 an appeal was filed by Robert Notary, owner of adjacent property at 4909 Oso Grande Pl NE.

BASIS FOR APPEAL
Subsection 14-16-6-4(V)(4) outlines the applicable criteria for the appeal in determining whether the Zoning Hearing Examiner erred in its decision:

6-4(V)(4) Criteria for Decision
The criteria for review of an appeal shall be whether the decision-making body or the prior appeal body made 1 of the following mistakes:
6-4(V)(4)(a) The decision-making body or the prior appeal body acted fraudulently, arbitrarily, or capriciously.
6-4(V)(4)(b) The decision being appealed is not supported by substantial evidence.
6-4(V)(4)(c) The decision-making body or the prior appeal body erred in applying the requirements of this IDO (or a plan, policy, or regulation referenced in the review and decision-making criteria for the type of decision being appealed).
STAFF RESPONSE
The reasons for the appeal, excerpted from Appellant’s letter, are listed below, followed by a bulleted, italicized response from the Planner for the ZHE. Please see the Appellant’s letter and submittal packet for additional details.

1. The new wall height does not match the 12’ height of the adjacent old wall section. It is three blocks higher. It presents a visual eyesore as currently constructed as this imposing wall was made significantly higher and out of character with the existing wall. IDO Table 5-7-1 indicates an 8’ high maximum residential wall height. The recently constructed wall is approximately 14’ in height.

2. In allowing the new wall construction, by default the removal of a perpendicular old wall section along the north property line of the subject property was removed. This is seen in the picture accompanying the original Variance approval request. The demolition of this wall left a visually deterrent end column that is seen jutting above the existing wall. It also exceeds the 12’ height limit.

3. On a more functional note, the corner of the new wall did not provide a pilaster and resulted in about a 2” vertical gap. Similarly, the old wall and new wall abutment was made without a structural connection and results in a continuous vertical gap of about 1/8”. Both gaps present a concern with soil transfer to our property as the soil levels on the upper subject property are raised according to the Sierra Engineering report found in the original Variance approval request.

- All property owners within 100 feet of the subject property and the affected neighborhood association were notified.
- No opposition was filed prior to, or during the public hearing.
- Photos submitted in the appeal application are new evidence not submitted to the ZHE.
- The approval is for a 12’ wall as illustrated in the application.
- Per City request, Sierra Engineering Solutions inspected the retaining wall and stated that, “the integrity of the retaining wall has not been compromised with the added 5’-4” wall extension, and accordingly, should be left in place.”
- Based on evidence submitted into the record showing compliance with required standards, the ZHE found that the Variance-Review and Decision Criteria were met and approved the request.

Agreement completed.
2022-03-08 - 11:28:47 PM GMT
Jared Congdon (Agent, Roger Congdon) requests a variance of 4 ft for a retaining wall in the rear yard for Lot 19A, Stonegate Village located at 4909 Oso Grande PL NE, zoned R-T [Section 14-16-5-7(D)]

Special Exception No:............ VA-2021-00390
Project No:.................. Project#2021-006174
Hearing Date:.................. 12-21-21
Closing of Public Record:...... 12-21-21
Date of Decision:............... 01-05-22

On the 21st day of December, 2021, Roger Congdon, agent for property owner Jared Congdon (“Applicant”) appeared before the Zoning Hearing Examiner (“ZHE”) requesting a variance of 4 ft for a retaining wall in the rear yard (“Application”) upon the real property located at 4909 Oso Grande PL NE (“Subject Property”). Below are the ZHE’s finding of fact and decision:

**FINDINGS:**

1. Applicant is requesting a variance of 4 ft for a retaining wall in the rear yard.
2. The City of Albuquerque Integrated Development Ordinance, Section 14-16-6-6(O)(3)(a) (Variance-Review and Decision Criteria) reads: “… an application for a Variance-ZHE shall be approved if it meets all of the following criteria:
   1. There are special circumstances applicable to the subject property that are not self-imposed and that do not apply generally to other property in the same zone and vicinity such as size, shape, topography, location, surroundings, or physical characteristics created by natural forces or government action for which no compensation was paid. Such special circumstances of the property either create an extraordinary hardship in the form of a substantial and unjustified limitation on the reasonable use or return on the property, or practical difficulties result from strict compliance with the minimum standards.
   2. The Variance will not be materially contrary to the public safety, health, or welfare.
   3. The Variance does not cause significant material adverse impacts on surrounding properties or infrastructure improvements in the vicinity.
   4. The Variance will not materially undermine the intent and purpose of the IDO or the applicable zone district.
   5. The Variance approved is the minimum necessary to avoid extraordinary hardship or practical difficulties.”
3. The applicant bears the burden of providing a sound justification for the requested decision, based on substantial evidence, pursuant to IDO Section 14-16-6-4(E)(3).
4. The applicant bears the burden of showing compliance with required standards through analysis, illustrations, or other exhibits as necessary, pursuant to IDO Section 14-16-6-4(E)(4).
5. Agent and Applicant appeared and gave evidence in support of the Application.
6. All property owners within 100 feet of the subject property and the affected neighborhood association were notified.

7. The subject property is currently zoned R-T.

8. Based on evidence submitted by or on behalf of Applicant, it appears that there are special circumstances applicable to the Subject Property that are not self-imposed and that do not apply generally to other property in the same zone and vicinity such as size, shape, topography, location, surroundings, or physical characteristics created by natural forces or government action for which no compensation was paid, as required by Section 14-16-6-6(N)(3)(a)(1). Specifically, Applicant testified and provided written evidence that, the Subject Property has special circumstances because of its location and topography, which give rise to the need for this request. These special circumstances create an extraordinary hardship in the form of a substantial and unjustified limitation on the reasonable use or return on the Subject Property, because compliance with the minimum standards would not allow for the reasonably proposed use that otherwise would be in compliance with the IDO.

9. Based on evidence submitted by or on behalf of Applicant, the variance will not be contrary to the public safety, health and welfare of the community as required by Section 14-16-6-6(N)(3)(a)(2). Specifically, evidence was submitted supporting that, if granted approval, the Applicant intends to construct the proposed project in a manner that is consistent with the IDO and the Development Process Manual (DPM).

10. Based on evidence submitted by or on behalf of Applicant, the variance will not cause significant adverse material impacts on surrounding properties or infrastructure improvements in the vicinity as required by Section 14-16-6-6(N)(3)(a)(3). Specifically, the proposal is designed to be in harmony and consistency with what currently exists in the neighborhood, which was supported by written evidence and oral testimony. Photographs were submitted showing the neighborhood. The proposal would not be out of character with the surrounding area, but rather would reinforce the architectural character of the neighborhood by being in harmony with the other improvements existing and proposed for the Subject Property and the area.

11. Based on evidence submitted by or on behalf of Applicant, the variance will not materially undermine the intent and purpose of the IDO or applicable zone district as required by Section 14-16-6-6(N)(3)(a)(4). Specifically, Applicant presented evidence that the intent of IDO will still be met in that the subject site will be in harmony with existing uses and the proposed variance would merely add to the safety and usability of the site.

12. Based on evidence submitted by or on behalf of Applicant, the variance approved is the minimum necessary to avoid extraordinary hardship or practical difficulties as required by Section 14-16-6-6(N)(3)(a)(5). Specifically, Applicant submitted evidence that any smaller variance would be ineffective to provide for the usability of the site. Thus, the applicant is not requesting more than what is minimally necessary for a variance.

13. City Transportation submitted a report stating no objection.

14. The proper “Notice of Hearing” signage was posted for the required time period as required by Section 14-16-6-4(K)(3).

15. The Applicant has authority to pursue this Application.

DECISION:

APPROVAL of a variance of 4 ft for a retaining wall in the rear yard.
APPEAL:

If you wish to appeal this decision, you must do so by January 20, 2022 pursuant to Section 14-16-6-4(V), of the Integrated Development Ordinance, you must demonstrate that you have legal standing to file an appeal as defined.

Successful applicants are reminded that other regulations of the City must be complied with, even after approval of a special exception is secured. This decision does not constitute approval of plans for a building permit. If your application is approved, bring this decision with you when you apply for any related building permit or occupation tax number. Approval of a conditional use or a variance application is void after one year from date of approval if the rights and privileges are granted, thereby have not been executed, or utilized.

Revised 2/6/19
Appeal of Variance of 4’ for a retaining wall – 4909 Oso Grande Pl. NE

Appellant: Robert Notary

Project Number: 2021-006174
Special Exemption Number: VA -2021 -00390

Decision Being Appeals: City of Albuquerque Zoning Hearing Examiner Decision dated January 5, 2022 regarding a Variance of 4’ for a retaining wall at the rear of the property located at 4909 Oso Grande Pl NE

Appellant’s Standing:

a) Appellant Robert Notary is an Owner of an adjacent property located within 330 feet of the subject property -Section 14-16-6-4 (V)(2)(a)(5) of the City of Albuquerque Integrated Development Ordinance (IDO).

b) Appellant’s property rights and/or other legal rights have been specially and adversely affected by the decision – IDO Section 14-16-6-4 (V)(2)(a)(4)

Appellant’s Basis for the Appeal:

I am the owner of the property at 4920 Oso Grande Ct. NE which is immediately behind the subject property and west of the section of new wall. It needs to be first pointed out that the subject wall has been constructed for more than six months. I have several concerns about the manner in which the wall was constructed, some aesthetic and some functional.

Please recognize that from my property the existing 12-foot wall is the prominent view and also poses a significant risk in the event of failure. I’ve attached pictures to demonstrate each point of concern as related to the west wall portion recently constructed:

1. The new wall height does not match the 12’ height of the adjacent old wall section. As you can see from the picture, it is three blocks higher. It presents a visual eyesore as currently constructed as this imposing wall was made significantly higher and out of character with the existing wall. IDO Table 5-7-1 indicates an 8’ high maximum residential wall height. The recently constructed wall is approximately 14’ in height.
1. New Wall
2. Old Wall Remnant
2. In allowing the new wall construction, by default the removal of a perpendicular old wall section along the north property line of the subject property was removed. This is seen in the picture accompanying the original Variance approval request. The demolition of this wall left a visually deterrent end column that is seen jutting above the existing wall. It also exceeds the 12' height limit. This is marked as Item 2 in the picture above.

3. On a more functional note, the corner of the new wall did not provide a pilaster and resulted in about a 2" vertical gap. This can be seen in the picture below taken from the north end of the new wall. Similarly, the old wall and new wall abutment was made without a structural connection and results in a continuous vertical gap of about 1/8". Both gaps present a concern with soil transfer to our property as the soil...
levels on the upper subject property are raised according to the Sierra Engineering report found in the original Variance approval request.

On an administrative note, I apologize for having to bring this matter up as an appeal. However, attempts to resolve this matter with email and voice messages sent to the Agent have not been responded to. This appears to be the only course of action remaining to protect against the adverse effects of the subject wall.
Respectfully submitted this 20th day of January 2022 by Robert Notary.

Robert Notary
Jared Congdon (Agent, Roger Congdon) requests a variance of 4 ft for a retaining wall in the rear yard for Lot 19A, Stonegate Village located at 4909 Oso Grande PL NE, zoned R-T [Section 14-16-5-7(D)]

Special Exception No: ............ VA-2021-00390
Project No: ............................. Project#2021-006174
Hearing Date: .......................... 12-21-21
Closing of Public Record: ....... 12-21-21
Date of Decision: ..................... 01-05-22

On the 21st day of December, 2021, Roger Congdon, agent for property owner Jared Congdon ("Applicant") appeared before the Zoning Hearing Examiner ("ZHE") requesting a variance of 4 ft for a retaining wall in the rear yard ("Application") upon the real property located at 4909 Oso Grande PL NE ("Subject Property"). Below are the ZHE’s finding of fact and decision:

FINDINGS:

1. Applicant is requesting a variance of 4 ft for a retaining wall in the rear yard.
2. The City of Albuquerque Integrated Development Ordinance, Section 14-16-6-6(O)(3)(a) (Variance-Review and Decision Criteria) reads: “... an application for a Variance-ZHE shall be approved if it meets all of the following criteria:
   (1) There are special circumstances applicable to the subject property that are not self-imposed and that do not apply generally to other property in the same zone and vicinity such as size, shape, topography, location, surroundings, or physical characteristics created by natural forces or government action for which no compensation was paid. Such special circumstances of the property either create an extraordinary hardship in the form of a substantial and unjustified limitation on the reasonable use or return on the property, or practical difficulties result from strict compliance with the minimum standards.
   (2) The Variance will not be materially contrary to the public safety, health, or welfare.
   (3) The Variance does not cause significant material adverse impacts on surrounding properties or infrastructure improvements in the vicinity.
   (4) The Variance will not materially undermine the intent and purpose of the IDO or the applicable zone district.
   (5) The Variance approved is the minimum necessary to avoid extraordinary hardship or practical difficulties.”
3. The applicant bears the burden of providing a sound justification for the requested decision, based on substantial evidence, pursuant to IDO Section 14-16-6-4(E)(3).
4. The applicant bears the burden of showing compliance with required standards through analysis, illustrations, or other exhibits as necessary, pursuant to IDO Section 14-16-6-4(E)(4).
5. Agent and Applicant appeared and gave evidence in support of the Application.
6. All property owners within 100 feet of the subject property and the affected neighborhood association were notified.

7. The subject property is currently zoned R-T.

8. Based on evidence submitted by or on behalf of Applicant, it appears that there are special circumstances applicable to the Subject Property that are not self-imposed and that do not apply generally to other property in the same zone and vicinity such as size, shape, topography, location, surroundings, or physical characteristics created by natural forces or government action for which no compensation was paid, as required by Section 14-16-6-6(N)(3)(a)(1). Specifically, Applicant testified and provided written evidence that, the Subject Property has special circumstances because of its location and topography, which give rise to the need for this request. These special circumstances create an extraordinary hardship in the form of a substantial and unjustified limitation on the reasonable use or return on the Subject Property, because compliance with the minimum standards would not allow for the reasonably proposed use that otherwise would be in compliance with the IDO.

9. Based on evidence submitted by or on behalf of Applicant, the variance will not be contrary to the public safety, health and welfare of the community as required by Section 14-16-6-6(N)(3)(a)(2). Specifically, evidence was submitted supporting that, if granted approval, the Applicant intends to construct the proposed project in a manner that is consistent with the IDO and the Development Process Manual (DPM).

10. Based on evidence submitted by or on behalf of Applicant, the variance will not cause significant adverse material impacts on surrounding properties or infrastructure improvements in the vicinity as required by Section 14-16-6-6(N)(3)(a)(3). Specifically, the proposal is designed to be in harmony and consistency with what currently exists in the neighborhood, which was supported by written evidence and oral testimony. Photographs were submitted showing the neighborhood. The proposal would not be out of character with the surrounding area, but rather would reinforce the architectural character of the neighborhood by being in harmony with the other improvements existing and proposed for the Subject Property and the area.

11. Based on evidence submitted by or on behalf of Applicant, the variance will not materially undermine the intent and purpose of the IDO or applicable zone district as required by Section 14-16-6-6(N)(3)(a)(4). Specifically, Applicant presented evidence that the intent of IDO will still be met in that the subject site will be in harmony with existing uses and the proposed variance would merely add to the safety and usability of the site.

12. Based on evidence submitted by or on behalf of Applicant, the variance approved is the minimum necessary to avoid extraordinary hardship or practical difficulties as required by Section 14-16-6-6(N)(3)(a)(5). Specifically, Applicant submitted evidence that any smaller variance would be ineffective to provide for the usability of the site. Thus, the applicant is not requesting more than what is minimally necessary for a variance.

13. City Transportation submitted a report stating no objection.

14. The proper “Notice of Hearing” signage was posted for the required time period as required by Section 14-16-6-4(K)(3).

15. The Applicant has authority to pursue this Application.

DECISION:

APPROVAL of a variance of 4 ft for a retaining wall in the rear yard.
APPEAL:

If you wish to appeal this decision, you must do so by January 20, 2022 pursuant to Section 14-16-6-4(V), of the Integrated Development Ordinance, you must demonstrate that you have legal standing to file an appeal as defined.

Successful applicants are reminded that other regulations of the City must be complied with, even after approval of a special exception is secured. This decision does not constitute approval of plans for a building permit. If your application is approved, bring this decision with you when you apply for any related building permit or occupation tax number. Approval of a conditional use or a variance application is void after one year from date of approval if the rights and privileges are granted, thereby have not been executed, or utilized.

* Where a property has more than one owner, all owners must consent in writing to the filing of the application to the maximum extent practicable. In the case that not all of the property owners have consented in writing to the application, or when the ownership status of some parties is unclear (as shown on a title abstract or title insurance commitment), the owner shall attest in writing that all of the property owners shown on a title abstract or title insurance commitment have been notified of the application in writing at their last known address as shown on the property tax records of Bernalillo County.
Dear Applicant,

Thank you for your request. Attached are forms and instructions to complete your application for a variance. Please pay special attention to Step 3 in the “STEPS TO APPLY” document. These materials are required for a complete submittal. Requests will not be set for a hearing or reviewed for compliance until the application submittal is complete.

1. Please fill in and forward the attached Letter to Neighborhood Association to the list of neighborhood association contacts below. Per Section 14-16-6-4(C)(3) of the Integrated Development Ordinance, a meeting request must be sent to the 2 representatives of all applicable Neighborhood Associations via Certified Mail, return receipt requested, or via email. (Please include project information such as renderings, a site plan and/or a photo in the notice).

Attached are the details for addition of 43 feet of concrete block wall, installed on 4909 Oso Grande Pl.

Roger Congdon
REQUEST FOR NEIGHBORHOOD MEETING

Date: 9/30/2021

To Whom This May Concern:

I am requesting approval from the Zoning Hearing Examiner within the City of Albuquerque for a conditional use or variance to allow Two segments of concrete block wall, 4.3 feet total, 5'4" high on the uphill side, 12' on the downhill side (summary of request).

Property owner Jared Congdon
Agent if applicable Roger Congdon
Property Address 3490 1st St NW, Albuquerque, NM, 87104 (zip code).

This letter is an offer to meet with you to provide additional information. If you wish to meet, please respond within 15 days. If you do not want to meet, or you support the proposal, please let me know.

Thank you,
Applicant Name Roger Congdon
Email rcon60043@msn.com
Phone Number 505-340-9340

The City may require the applicant to attend a City-sponsored facilitated meeting with the Neighborhood Associations whose boundaries include or are adjacent to the proposed project, based on the complexity and potential impacts of a proposed project. For more information, please contact the ZHE Administrative Assistant Suzie Sanchez at 505-924-3894 or suzannasanchez@cabq.gov.

Please note: “You may submit written comments to the Zoning Hearing Examiner up to 6 days before the hearing (5pm on the Wednesday before the hearing). Written comments received after that deadline will not be taken into consideration for this application.
Neighborhood Meeting Request
for a Proposed Project in the City of Albuquerque

Date of Request*: 9/30/2021

This request for a Neighborhood Meeting for a proposed project is provided as required by Integrated Development Ordinance (IDO) Subsection 14-16-6-4(K) Public Notice to:

Neighborhood Association (NA)*: District 8 Coalition of Neighborhood Associations
Name of NA Representative*: Donald Couchman
Email Address* or Mailing Address* of NA Representative*: dhe@azianet.com

The application is not yet submitted. If you would like to have a Neighborhood Meeting about this proposed project, please respond to this request within 15 days.¹

Email address to respond yes or no: rcon6004@msn.com

The applicant may specify a Neighborhood Meeting date that must be at least 15 days from the Date of Request above, unless you agree to an earlier date.

Meeting Date / Time / Location:
10/15/2021, 9:00 AM, Conference call

Project Information Required by IDO Subsection 14-16-6-4(K)(1)(a)

1. Subject Property Address* 4909 Oso Grande Pl. NE 87111
   Location Description Single Family Dwelling
2. Property Owner* Jared Congdon
3. Agent/Applicant* [if applicable] Roger Congdon
4. Application(s) Type* per IDO Table 6-1-1 [mark all that apply]
   - [X] Permit [of] brick wall (Carport or Wall/Fence – Major)
   - [ ] Site Plan
   - [ ] Subdivision Stonewall Village (Minor or Major)

¹ Pursuant to IDO Subsection 14-16-6-4(K)(5)(a), email is sufficient if on file with the Office of Neighborhood Coordination. If no email address is on file for a particular NA representative, notice must be mailed to the mailing address on file for that representative.

² If no one replies to this request, the applicant may be submitted to the City to begin the review/decision process.
[Note: Items with an asterisk (*) are required.]

☐ Waiver
☐ Zoning Map Amendment
☐ Other: ______________________________

Summary of project/request:

Variance request for 43 feet of retaining and privacy block wall

5. This type of application will be decided by:
   □ City Staff
   OR at a public meeting or hearing by:
   □ Zoning Hearing Examiner (ZHE)
   □ Development Review Board (DRB)
   □ Landmarks Commission (LC)
   □ Environmental Planning Commission (EPC)
   □ City Council

6. Where more information about the project can be found:

   Engineering plans (attached)

Project Information Required for Mail/Email Notice by IDO Subsection 6-4(K)(1)(b):

1. Zone Atlas Page(s) F-21-Z

2. Architectural drawings, elevations of the proposed building(s) or other illustrations of the proposed application, as relevant:
   Attached to notice or provided via website noted above

3. The following exceptions to IDO standards will be requested for this project:
   □ Deviation(s)
   □ Variance(s)
   ☑ Waiver(s)

   Explanation:
   For the wall location

4. An offer of a Pre-submittal Neighborhood Meeting is required by Table 6-1-1:
   □ Yes  □ No

---

3 Attach additional information, as needed to explain the project/request. Note that information provided in this meeting request is conceptual and constitutes a draft intended to provide sufficient information for discussion of concerns and opportunities.
4 Address (mailing or email), phone number, or website to be provided by the applicant
5 Available online here: http://data.cabq.gov/business/zoneatlas/
5. **For Site Plan Applications only**: attach site plan showing, at a minimum:
   - a. Location of proposed buildings and landscape areas.*
   - b. Access and circulation for vehicles and pedestrians.*
   - c. Maximum height of any proposed structures, with building elevations.*
   - d. For residential development*: Maximum number of proposed dwelling units.
   - e. For non-residential development*:
     - Total gross floor area of proposed project.
     - Gross floor area for each proposed use.

Additional Information:

1. From the IDO Zoning Map:
   - a. Area of Property [typically in acres] ___________ acre ___________ 0.15 acre ___________
   - b. IDO Zone District ______ R-T ___________
   - c. Overlay Zone(s) [if applicable] ___________ N/A ___________
   - d. Center or Corridor Area [if applicable] ___________ N/A ___________

2. Current Land Use(s) [vacant, if none] ___________ Residential ___________

RE: CONGDON RESIDENCE - EXISTING RETAINING WALL STRUCTURAL EVALUATION
RESPONSE TO NOTICE CF-2021-031250

Dear Mr. Congdon:

Sierra Engineering Solutions (SES) inspected an existing concrete masonry unit (CMU) retaining wall at your residence located at 4909 Oso Grande Pl. NE at a site visit on 14 September 2021. The City of Albuquerque Planning Department Building Safety Division has requested a professional engineer look at the integrity of this retaining wall which was added onto this past Spring (May 2021), and accordingly, SES provides the following evaluation of the existing retaining wall structure.

The residence was constructed in 1983 as part of the Stonegate Village development. The lots in this development are typically bounded by CMU retaining walls constructed at the property lines to accommodate the grade separation and to maximize the yard areas. Existing retaining walls in the vicinity of the Congdon residence vary from 6’ to 12’ in height.

The existing 37’ long retaining wall was originally built to a height of 4’-8” using 8”x8”x16” CMU blocks providing a vertical grade separation of approximately 3’-4” above the finish grade of the adjoining lot to the north. A secondary CMU retaining wall was constructed 6’ to the south to provide a 2’ high terrace (see Figure 1). This terrace space was essentially unusable to the adjoining property owner, and accordingly, you purchased this area to extend your lot northward.

In May 2021 the wall was then raised an additional 7’-4” using 3 courses of 8”x8”x16” CMU blocks and 8 courses of 6”x6”x16” blocks to provide additional privacy (see Figure 2). This extension was reinforced with ½” rebar and the cells of the CMU blocks were filled with concrete. The wall now has a 12’-0” total height, which is consistent with the height of adjacent blocks walls to the east of the extension and along the west property line.

It is our understanding you intend to fill the 6’ wide x 2’ terrace area with a granular gravel material to extend the yard area up to the wall. This will increase the height of the retained earth from 3’-4” up to 5’-4”. This additional fill is acceptable; however, SES recommends no additional fill be placed against the free-standing (heightened) section of the wall with the 6”x6”x16” blocks.
FIGURE 2 - WALL SECTION
LOOKING WEST
Based on the above information, SES believes the integrity of the retaining wall has not been compromised with the added 5'-4" wall extension, and accordingly, should be left in place. The wall is not showing any signs of movement, cracking, displacement, nor distress.

Please feel free to call me at (505) 670-5385 or email me at jschrondt@gmail.com should you have any questions or concerns with this evaluation of the above-referenced retaining wall structure.

Respectfully yours,

John Schrondt, P.E.
Sierra Engineering Solutions
VARIANCE JUSTIFICATION LETTER - GENERAL

Zoning Hearing Examiner
City of Albuquerque
600 2nd Street NW, 3rd Floor
Albuquerque, NM 87102

RE: Request for Variance of cement block wall, 43 ft long in two sections, NW corner of property at 4707 Cso Grande Pl NE, 87111 (address of the subject property).

1) There are special circumstances applicable to a single lot that are not self-imposed and that do not apply generally to other property in the same zone district and vicinity, including but not limited to size, shape, topography, location, surroundings, physical characteristics, natural forces, or by government actions for which no compensation was paid. Such special circumstances of the lot either create an extraordinary hardship in the form of a substantial and unjustified limitation on the reasonable use or economic return on the property, or practical difficulties result from strict compliance with the minimum standards. PLEASE EXPLAIN:

2) The Variance will not be materially contrary to the public safety, health, or welfare BECAUSE: The foundations for these wall segments were already in place, at property grade level.

3) The Variance does not cause significant material adverse impacts on surrounding properties or infrastructure improvements in the vicinity BECAUSE: There is no increase in the property footprint.

4) The Variance will not materially undermine the intent and purpose of this IDO or the applicable zone district BECAUSE: There are many similar walls in nearby neighborhood properties.

5) The Variance approved is the minimum necessary to avoid extraordinary hardship or practical difficulties BECAUSE: The fence affords 5'4" of privacy, screening and safety between the subject property and the neighbors, who are lower in elevation.

RE: CONGDON RESIDENCE - EXISTING RETAINING WALL STRUCTURAL EVALUATION RESPONSE TO NOTICE CF-2021-031250

Dear Mr. Congdon:

Sierra Engineering Solutions (SES) inspected an existing concrete masonry unit (CMU) retaining wall at your residence located at 4909 Oso Grande Pl. NE at a site visit on 14 September 2021. The City of Albuquerque Planning Department Building Safety Division has requested a professional engineer look at the integrity of this retaining wall which was added onto this past Spring (May 2021), and accordingly, SES provides the following evaluation of the existing retaining wall structure.

The residence was constructed in 1983 as part of the Stonegate Village development. The lots in this development are typically bounded by CMU retaining walls constructed at the property lines to accommodate the grade separation and to maximize the yard areas. Existing retaining walls in the vicinity of the Congdon residence vary from 6’ to 12’ in height.

The existing 37’ long retaining wall was originally built to a height of 4’-8” using 8”x8”x16” CMU blocks providing a vertical grade separation of approximately 3’-4” above the finish grade of the adjoining lot to the north. A secondary CMU retaining wall was constructed 6’ to the south to provide a 2’ high terrace (see Figure 1). This terrace space was essentially unusable to the adjoining property owner, and accordingly, you purchased this area to extend your lot northward.

In May 2021 the wall was then raised an additional 7’-4” using 3 courses of 8”x8”x16” CMU blocks and 8 courses of 6”x6”x16” blocks to provide additional privacy (see Figure 2). This extension was reinforced with ½” rebar and the cells of the CMU blocks were filled with concrete. The wall now has a 12’-0” total height, which is consistent with the height of adjacent blocks walls to the east of the extension and along the west property line.

It is our understanding you intend to fill the 6’ wide x 2’ terrace area with a granular gravel material to extend the yard area up to the wall. This will increase the height of the retained earth from 3’-4” up to 5’-4”. This additional fill is acceptable; however, SES recommends no additional fill be placed against the free-standing (heightened) section of the wall with the 6”x6”x16” blocks.

PROPOSED GRANULAR FILL
RECENTLY CONSTRUCTED WALL EXTENSION
(8" x 8" x 16" BLOCKS)
Based on the above information, SES believes the integrity of the retaining wall has not been compromised with the added 5'-4" wall extension, and accordingly, should be left in place. The wall is not showing any signs of movement, cracking, displacement, nor distress.

Please feel free to call me at (505) 670-5385 or email me at jschrandt@gmail.com should you have any questions or concerns with this evaluation of the above-referenced retaining wall structure.

Respectfully yours,

John Schrandt, P.E.

SIGN POSTING AGREEMENT

REQUIREMENTS

POSTING SIGNS ANNOUNCING PUBLIC HEARINGS

All persons making application to the City under the requirements and procedures established by the City Zoning Code or Subdivision Ordinance are responsible for the posting and maintaining of one or more signs on the property which the application describes. Vacations of public rights-of-way (if the way has been in use) also require signs. Waterproof signs are provided at the time of application. If the application is mailed, you must still stop at the Development Services Front Counter to pick up the sign.

The applicant is responsible for ensuring that the signs remain posted throughout the 15-day period prior to public hearing. Failure to maintain the signs during this entire period may be cause for deferral or denial of the application. Replacement signs for those lost or damaged are available from the Development Services Front Counter at a charge of $3.75 each.

1. LOCATION

   A. The sign shall be conspicuously located. It shall be located within twenty feet of the public sidewalk (or edge of public street). Staff may indicate a specific location.
   B. The face of the sign shall be parallel to the street, and the bottom of the sign shall be at least two feet from the ground.
   C. No barrier shall prevent a person from coming within five feet of the sign to read it.

2. NUMBER

   A. One sign shall be posted on each paved street frontage. Signs may be required on unpaved street frontages.
   B. If the land does not abut a public street, then, in addition to a sign placed on the property, a sign shall be placed on and at the edge of the public right-of-way of the nearest paved City street. Such a sign must direct readers toward the subject property by an arrow and an indication of distance.

3. PHYSICAL POSTING

   A. A heavy stake with two crossbars or a full plywood backing works best to keep the sign in place, especially during high winds.
   B. Large headed nails or staples are best for attaching signs to a post or backing; the sign tears out less easily.

4. TIME

   Signs must be posted from December 16 To January 20

5. REMOVAL

   A. The sign is not to be removed before the initial hearing on the request.
   B. The sign should be removed within five (5) days after the initial hearing.

I have read this sheet and discussed it with the Development Services Front Counter Staff. I understand (A) my obligation to keep the sign(s) posted for (15) days and (B) where the sign(s) are to be located. I am being given a copy of this sheet.

(Applicant or Agent) 11/12/2025

I issued __ signs for this application, 11/3/21. (Staff Member) 11/3/21

PROJECT NUMBER: VA-21-00390

Rev. 1/11/05
Jared Congdon (Agent, Roger Congdon) requests a variance of 4 ft for a retaining wall in the rear yard for Lot 19A, Stonegate Village located at 4909 Oso Grande PL NE, zoned R-T [Section 14-16-5-7(D)]

Special Exception No:............ VA-2021-00390
Project No:..........................Project#2021-006174
Hearing Date:......................12-21-21
Closing of Public Record:......12-21-21
Date of Decision:...............01-05-22

On the 21st day of December, 2021, Roger Congdon, agent for property owner Jared Congdon (“Applicant”) appeared before the Zoning Hearing Examiner (“ZHE”) requesting a variance of 4 ft for a retaining wall in the rear yard (“Application”) upon the real property located at 4909 Oso Grande PL NE (“Subject Property”). Below are the ZHE’s finding of fact and decision:

FINDINGS:

1. Applicant is requesting a variance of 4 ft for a retaining wall in the rear yard.
2. The City of Albuquerque Integrated Development Ordinance, Section 14-16-6-6(O)(3)(a) (Variance-Review and Decision Criteria) reads: “… an application for a Variance-ZHE shall be approved if it meets all of the following criteria:
   (1) There are special circumstances applicable to the subject property that are not self-imposed and that do not apply generally to other property in the same zone and vicinity such as size, shape, topography, location, surroundings, or physical characteristics created by natural forces or government action for which no compensation was paid. Such special circumstances of the property either create an extraordinary hardship in the form of a substantial and unjustified limitation on the reasonable use or return on the property, or practical difficulties result from strict compliance with the minimum standards.
   (2) The Variance will not be materially contrary to the public safety, health, or welfare.
   (3) The Variance does not cause significant material adverse impacts on surrounding properties or infrastructure improvements in the vicinity.
   (4) The Variance will not materially undermine the intent and purpose of the IDO or the applicable zone district.
   (5) The Variance approved is the minimum necessary to avoid extraordinary hardship or practical difficulties.”
3. The applicant bears the burden of providing a sound justification for the requested decision, based on substantial evidence, pursuant to IDO Section 14-16-6-4(E)(3).
4. The applicant bears the burden of showing compliance with required standards through analysis, illustrations, or other exhibits as necessary, pursuant to IDO Section 14-16-6-4(E)(4).
5. Agent and Applicant appeared and gave evidence in support of the Application.
6. All property owners within 100 feet of the subject property and the affected neighborhood association were notified.

7. The subject property is currently zoned R-T.

8. Based on evidence submitted by or on behalf of Applicant, it appears that there are special circumstances applicable to the Subject Property that are not self-imposed and that do not apply generally to other property in the same zone and vicinity such as size, shape, topography, location, surroundings, or physical characteristics created by natural forces or government action for which no compensation was paid, as required by Section 14-16-6-6(N)(3)(a)(1). Specifically, Applicant testified and provided written evidence that, the Subject Property has special circumstances because of its location and topography, which give rise to the need for this request. These special circumstances create an extraordinary hardship in the form of a substantial and unjustified limitation on the reasonable use or return on the Subject Property, because compliance with the minimum standards would not allow for the reasonably proposed use that otherwise would be in compliance with the IDO.

9. Based on evidence submitted by or on behalf of Applicant, the variance will not be contrary to the public safety, health and welfare of the community as required by Section 14-16-6-6(N)(3)(a)(2). Specifically, evidence was submitted supporting that, if granted approval, the Applicant intends to construct the proposed project in a manner that is consistent with the IDO and the Development Process Manual (DPM).

10. Based on evidence submitted by or on behalf of Applicant, the variance will not cause significant adverse material impacts on surrounding properties or infrastructure improvements in the vicinity as required by Section 14-16-6-6(N)(3)(a)(3). Specifically, the proposal is designed to be in harmony and consistency with what currently exists in the neighborhood, which was supported by written evidence and oral testimony. Photographs were submitted showing the neighborhood. The proposal would not be out of character with the surrounding area, but rather would reinforce the architectural character of the neighborhood by being in harmony with the other improvements existing and proposed for the Subject Property and the area.

11. Based on evidence submitted by or on behalf of Applicant, the variance will not materially undermine the intent and purpose of the IDO or applicable zone district as required by Section 14-16-6-6(N)(3)(a)(4). Specifically, Applicant presented evidence that the intent of IDO will still be met in that the subject site will be in harmony with existing uses and the proposed variance would merely add to the safety and usability of the site.

12. Based on evidence submitted by or on behalf of Applicant, the variance approved is the minimum necessary to avoid extraordinary hardship or practical difficulties as required by Section 14-16-6-6(N)(3)(a)(5). Specifically, Applicant submitted evidence that any smaller variance would be ineffective to provide for the usability of the site. Thus, the applicant is not requesting more than what is minimally necessary for a variance.

13. City Transportation submitted a report stating no objection.

14. The proper “Notice of Hearing” signage was posted for the required time period as required by Section 14-16-6-4(K)(3).

15. The Applicant has authority to pursue this Application.

DECISION:

APPROVAL of a variance of 4 ft for a retaining wall in the rear yard.
APPEAL:

If you wish to appeal this decision, you must do so by January 20, 2022 pursuant to Section 14-16-6-4(V), of the Integrated Development Ordinance, you must demonstrate that you have legal standing to file an appeal as defined.

Successful applicants are reminded that other regulations of the City must be complied with, even after approval of a special exception is secured. This decision does not constitute approval of plans for a building permit. If your application is approved, bring this decision with you when you apply for any related building permit or occupation tax number. Approval of a conditional use or a variance application is void after one year from date of approval if the rights and privileges are granted, thereby have not been executed, or utilized.

Hearing on Special Exceptions
to the Integrated Development Ordinance

MINUTES

December 21, 2021
600 2nd St NW, Albuquerque, NM 87102

CITY STAFF PRESENT:

Robert Lucero – Zoning Hearing Examiner
Lorena Patten-Quintana – ZHE Planner, Planning Department
Suzie Sanchez – Hearing Monitor
ZHE: Next, we will hear agenda item 14. That is VA-2021-00390, project number PR-2021-006174, Jared Congdon through agent, Roger Congdon request a variance of 4 feet for a retaining wall in the rear yard for Lot 19A, Stonegate Village located at 4909 Oso Grande Place NE, zoned R-T. Is Mr. Congdon there?

MR. CONGDON: Yes.

ZHE: Good morning, sir.

MR. CONGDON: Morning.

ZHE: Would you please state your full name and mailing address for the record?

MR. CONGDON: Roger Congdon, 7309 Laster NE, in Albuquerque.

ZHE: And, please raise your right hand. Do you affirm under penalty of perjury that your testimony today will be true?

MR. CONGDON: Yes, I do.

ZHE: Thank you, sir. Please tell me about this wall.

MR. CONGDON: Well, the wall is unfortunately already built. We used a contractor that was highly recommended by some friends and I believe he’s called Mr. Mudd. He said, because we already had the footing, which was 4 foot 8 inches in height, for a retaining wall, that we would not need a permit for the extension of the wall, so that they could have privacy and also help keep their animals in the yard. However, one of the neighbors complained and we found out yes, we do need a permit. So, we did hire an engineer and he is, he is on this call. John Schrandt and he filed a report as to the structural integrity of the wall and also it’s - - the wall is consistent with most of the properties in that neighborhood. In fact, my sons house’s south wall is actually the, on the property line with the next property over. It’s actually quite common in that neighborhood. I don’t know how to - - Let’s see, I must have missed it but I don’t know how to add the file that has pictures of the wall. Maybe John can help with that…

ZHE: Did you want to share your screen? I see John Schrandt with a hand raised.

MR. CONGDON: Is he on? Yeah, I’d like him to help me out here. I’ve never done this.

ZHE: Sure thing. Mr. Shrandt, are you there? Hello? It looks like you’re un-muted but I can’t hear you. Is your volume up? Hello?

MR. CONGDON: He’s got his hand up, I see.

ZHE: Let’s see, it looks like he’s muted now.
MR. CONGDON: He’s still muted.

ZHE: Are you there Mr. Schrandt? Hello? Okay. Suzie, I think in the file there’s a letter from Mr. Schrandt’s Engineering firm. Would you mind giving him a call and see if you can help him out?

HEARING MONITOR: Sure.

ZHE: Thank you. And, meanwhile, Mr. Congdon, I did have a couple questions I’d like you to address. I see that you submitted a justification letter and thank you for that. However, one of the elements was not addressed and that is the requirement that there be special circumstances that apply to the lot, itself. These have to apply, not only to this lot, not generally to other land in the same area and these can be, you know, things like size, shape, topography, location, surroundings, physical characteristics, things like that. Is there something unique about this? It does appear that there’s maybe the topography, the elevation. What’s different about this lot?

MR. CONGDON: Yes, the - - In the backyard, the topography decreases in elevation to the west and also to the north. There were only retaining walls and well, the retaining wall was 4ft 8 and there ground level was higher than those, than those lots to the west and to the north.

ZHE: Okay, thank you. Thank you for that explanation. And, I do see the letter here with the drawings from Mr. Schrandt. I saw that someone else new called in, is that Mr. Schrandt, are you there?

MR. CONGDON: I see he has his hand up.

ZHE: Hello?

MR. CONGDON: Maybe his volume is low.

ZHE: Mr. Schrandt, are you there? Let’s see…

MR. CONGDON: Where’d he go?

ZHE: Hello, Mr. Schrandt, can you hear me? Let’s see, Mr. Congdon, is there anything else that you’d like to add before we call for public comment? We can allow Suzie to continue to work to bring on Mr. Schrandt.

MR. CONGDON: Okay, well as I said, one of the circumstances was keeping their animals in the yard and without having to be on any kind leash or whatever but now, they can just - - before they could have just jumped into the neighboring yard and perhaps be lost. Yup.
ZHE: Okay, sir. Well, let’s do this, let’s call for public comment because I do - - What was it that you wanted Mr. Schrandt to address? I do see the letter from him and I do see photos submitted into the record that pretty clearly show the wall.

MR. CONGDON: They show the integrity of the wall.

ZHE: Yes, yes, his report seems pretty clear on that point.

MR. CONGDON: Yes, and it’s consistent with the heights of the other walls in the neighborhood and most of the properties there are walled and have gates at the side to get into the walled backyards. It’s typical of that neighborhood.

ZHE: Okay. Well, let’s call for public comment and see if anyone has anything that they’d like to address. Again, this is agenda item 14, Jared Congdon through agent, Roger Congdon requesting a variance of 4 feet for a retaining wall at 4909 Oso Grande Place NE. Please raise your hand if you’d like to speak on that item. I’m scrolling through the participant list and I don’t see anyone raising their hand. Again, agenda item 14, request for a variance for a retaining wall at 4909 Oso Grande. Last call for agenda item 14. Okay, Mr. Congdon, it doesn’t appear that there is any, any public comment and I’m sorry we couldn’t get Mr. Schrandt on. Let’s see. Are you there? Let’s give him one more chance. Are you there Mr. Schrandt? Hello? Looks like he’s un-muted but I can’t seem to hear him. Mr. Congdon, did you have anything you’d like to add in closing?

MR. CONGDON: I think I said about what we have.

ZHE: Yeah, no, I appreciate it. Thank you for your submittals and like I said, we did have, we did get Mr. Schrandt’s report in the record along with photos of the wall so, I hope that that covers anything that he would have addressed and I didn’t have any questions for him. I thought what he submitted was clear, so. Thank you for that. We’ll go ahead and close the record. I’ll take everything under consideration and I’ll issue the written decision in 15 days.

MR. CONGDON: Thank you very much.

ZHE: Thank you, sir. Have a good day.

MR. CONGDON: You too.

ZHE: That concludes agenda item 14.
January 27, 2022

TO WHOM IT MAY CONCERN:

The Planning Department received an appeal on January 26, 2022. You will receive a Notice of Hearing as to when the appeal will be heard by the Land Use Hearing Officer. If you have any questions regarding the appeal please contact Alfredo Ernesto Salas, Planning Administrative Assistant at (505) 924-3370.

Please refer to the enclosed excerpt from the City Council Rules of Procedure for Land Use Hearing Officer Rules of Procedure and Qualifications for any questions you may have regarding the Land Use Hearing Officer rules of procedure.

Any questions you might have regarding Land Use Hearing Officer policy or procedures that are not answered in the enclosed rules can be answered by Crystal Ortega, Clerk to the Council, (505) 768-3100.
