Environmental Planning Commission

Agenda Number: 01
Project #: 2018-001843
Case #: RZ-2020-00048
Hearing Date: January 21, 2021

Staff Report

Applicant	City of Albuquerque Planning Department
Request	Amendment to the Integrated Development Ordinance (IDO) Text – Small Areas for the 2020 Annual Update
Locations	Downtown Neighborhood Area- CPO 3, East Downtown-CPO 4, Los Duranes-CPO 6Nob Hill/ Highland- CPO 8, Rio Grande Blvd-CPO 11, Sawmill/Wells Park- CPO 12, Volcano Mesa- CPO 13, East Downtown-HPO 1, Coors Blvd-VPO 1, Northwest Mesa-VPO 2, Downtown Area, Downtown Center, Uptown Area and the Mixed-Use Form Based (MX-FB) Zone District.

Staff Recommendation

That a recommendation of APPROVAL of Project 2018-001843, Case RZ-2020-00048 based on the FINDINGS beginning on page 42, and the CONDITIONS FOR RECOMMENDATION OF APPROVAL beginning on page 56, be forwarded to the City Council.

Staff Planners
Carrie Barkhurst, MCRP, Senior Planner
Catalina Lehner, AICP, Senior Planner

Summary of Analysis

The request is for text amendments to the Integrated Development Ordinance (IDO) pertaining to 14 Small Areas. The revisions were identified as part of the Annual Update process to gather proposed changes through a regular cycle of discussion among residents, City staff, businesses, and decision makers (14-16-6-3(D)).

The 2020 annual update includes both City-wide changes and changes to small area standards (this request) suggested by neighbors, developers, staff, and Council Services. Staff identified changes to various small area standards needed to improve clarity and implementation.

In general, the request furthers several applicable Goals and policies in the Comprehensive Plan that pertain to community identity, land use and urban design. The proposed text amendments also promote economic growth and investment in the City as a whole.

As of this writing, Staff has received several comments that indicate issues with individual proposed changes, but is not aware of any opposition to the overall request. Staff recommends that a recommendation of approval, subject to conditions, be forwarded to the City Council.

A map of the affected Small Areas can be viewed at:
https://tinyurl.com/SmallArea2020

Comments received before January 11th at 9 am are attached to and addressed in this Staff Report. Comments received before January 14th at 9 am are attached, but not addressed. Comments received before January 19th at 9 am (after publication of this report and more than 48 hours before the hearing) are provided to the EPC, but not attached to this

I. INTRODUCTION

Background

Upon its original adoption in May 2018, the Integrated Development Ordinance (IDO) established a process through which it can be updated on an annual basis. IDO Subsection 14-16-6-3(D) requires Annual Updates to the IDO, stating that the Planning Department shall prepare amendments to the text of the IDO and submit them every calendar year for an EPC hearing in December. The IDO annual update process established a regular, required cycle for discussion among residents, businesses, City Staff, and decision-makers to consider any needed changes that were identified over the course of the year.

Adoption of the 2019 IDO Annual Update in November 2020 established two types of annual IDO updates: Amendment to IDO Text-Citywide [Subsection 14-16-6-7(D)] and Amendment to IDO Text-Small Areas [Subsection 14-16-6-7(E)]. City-wide text amendments apply generally throughout the City and are legislative in nature, and are reviewed using a legislative process. Text amendments to smaller areas within the City apply only to those areas and are quasi-judicial in nature. They require a quasi-judicial review process, which includes notice to affected property owners and a prohibition of ex-parte communication with decision-makers about the proposed changes. City Councilors will be acting as legislators when adopting City-wide text amendments and as quasi-judges when adopting text amendments only affecting properties in specific small areas.

Request

This request is for an Amendment to the Integrated Development Ordinance (IDO) Text – Small Areas for the Annual Update required by IDO Subsection 14-16-6-3(D). These proposed text amendments to 14 Small Areas in the City are accompanied by City-wide text amendments to the IDO, which were submitted separately pursuant to Subsection 14-16-6-7(E) and are the subject of another Staff report (RZ-2020-00046). The proposed Small-area amendments, when combined with the proposed City-wide amendments, are collectively known as the 2020 IDO Annual Update. The IDO annual update process was established to require a regular cycle for discussion among residents, City staff, businesses, and decision-makers to consider any desired changes that were identified over the course of the year.

As this is the second annual update, a notable number of changes are proposed that affect Small Areas. A spreadsheet explains each proposed Small Area change and provides the following: page and section of the IDO that would be modified, the text proposed to change, and an explanation of the purpose and/or intent of the change (see attachment). Accompanying the spreadsheet of proposed amendments is a memo from Council Services Staff, with additional explanation of the intent of some of the proposed changes, and two exhibits—one showing proposed changes for the two View Protection Overlay zones and one showing proposed changes to a Character Protection Overlay zone.

Eight (8) Council Amendments were submitted, including amendments affecting the Uptown Area, Form Based Zone District and Subzones, Near Downtown Center, Northwest Mesa Escarpment – View Protection Overlay (VPO-2), Coors Boulevard – View Protection Overlay (VPO-1), and Coors Boulevard – Character Protection Overlay (CPO-2).

A portion of the amendments were reviewed at a series of 15 public meetings and 3 Open House meetings in May and June 2019 as part of the first IDO annual update. These meetings included content related to the small areas, which was excluded from the first IDO annual update but included in this request. These are marked in the proposed change list as "Annual Update 2020" – Small Area Condition #8." Other changes were identified over the course of the remainder of 2019 and all of 2020. Planning staff held two Neighborhood Meetings on November 23, 2020 as required by Table 6-1-1 for Amendment to IDO Text – Small Area.

The application was submitted December 3, 2020 and is being reviewed using the November 2, 2020 version of the Integrated Development Ordinance (IDO).

Applicability

The proposed IDO text amendments apply to 14 different Small Areas of land within the City of Albuquerque municipal boundaries. The IDO does not apply to lands controlled by another jurisdiction, such as the State of New Mexico, or to Federal lands. Properties in unincorporated Bernalillo County or other municipalities, such as the Village of Los Ranchos and City of Rio Rancho, are also not subject to the IDO.

Environmental Planning Commission (EPC) Role

The EPC is hearing this case pursuant to IDO Subsection 14-16-6-7(E), Amendment to IDO Text – Small Area.

The EPC is hearing this case because the EPC is required to review the changes proposed and make a recommendation to the City Council regarding the proposed IDO Small Area text amendment as a whole. As the City's Planning and Zoning Authority, the City Council will make the final decision. The EPC is the Council's recommending body with review authority for the IDO Text Amendment. This is a quasi-judicial matter.

II. ANALYSIS OF REQUEST – §14-16-6-7(E) AMENDMENT TO IDO TEXT – SMALL AREAS

The proposed IDO text amendment fulfills the requirement for an IDO Annual Update established by IDO Subsection 14-16-6-3(D). Planning Department Staff compiled the recommended changes, analyzed them, and submitted them for EPC's review and recommendation as required.

The proposed Small area text amendment as a whole meets the review and decision criteria for Amendment to IDO Text-Small Area in IDO Subsection 14-16-6-7(E)(3)(a-c). The requirement and the applicant's response are in plain text; Staff analysis follows in bold italic text.

Criterion 14-16-6-7(E)(3)(a)
The proposed small area amendment is consistent with the health, safety, and general welfare of the city as shown by furthering (and not being in conflict with) a preponderance of applicable Goals and Policies in the ABC Comp Plan, as amended, and other applicable plans adopted by the City.

> Response: ABC Comp Plan policies support this criterion for amendment of small area regulations and furthers applicable Goals and Policies in the ABC Comprehensive Plan.

These proposed amendments to the IDO text are consistent with Comprehensive Plan policies that direct the City to adopt and maintain an effective regulatory system for land use, zoning, and development review. Changes proposed via the memo and exhibit from City Council are mostly consistent with adopted policies to protect and enhance the quality of the City's unique views, open spaces, neighborhoods, and commercial districts. Therefore, overall, the proposed amendments generally protect the public health, safety, and welfare.

Criterion 14-16-6-7(E)(3)(b)
If the proposed small area amendment is located partially or completely in an Area of Consistency (as shown in the ABC Comp Plan, as amended), the applicant must demonstrate that the proposed amendment would clearly reinforce or strengthen the established character of the surrounding Area of Consistency and would not allow development that is significantly different from that character. The applicant must also demonstrate that the existing zoning regulations are inappropriate because they meet any of the following criteria:

1. There has been a significant change in neighborhood or community conditions affecting the small area.

2. The proposed zoning regulations are more advantageous to the community as articulated by the ABC Comp Plan, as amended (including implementation of patterns of land use, development density and intensity, and connectivity), and other applicable adopted City plan(s).

Response: This request would clearly reinforce the established character of the surrounding area and would result in development that is consistent with that character based on the ABC Comprehensive Plan Goals and Policies cited above. These same Goals and Policies demonstrate that the proposed development standards are more advantageous to the Community as articulated by the ABC Comprehensive Plan by implementing development patterns and densities desired by the community.

The proposed IDO text amendments-Small Areas consist of changes that would result in development that is mostly consistent with Comprehensive Plan Goals and Policies.

The proposed text amendments are more advantageous to the Community overall and would implement desired development patterns and densities. The proposed text amendments are quasi-judicial in nature. The proposed changes to specific areas (non-residential zone districts and mixed-use zones and subzones) would apply equally in all areas with the same designation. The request meets Criterion 14-16-6-7(E)(3)(b).

Criterion 14-16-6-7(E)(3)(c)
If the proposed small area amendment is located wholly in an Area of Change (as shown in the ABC Comp Plan, as amended), the applicant must demonstrate that the existing zoning regulations are inappropriate because they meet at least one of the following criteria:

1. There has been a significant change in neighborhood or community conditions affecting the small area that justifies this request.

2. The proposed zoning regulations are more advantageous to the community as articulated by the ABC Comp Plan, as amended (including implementation of patterns of land use, development density and intensity, and connectivity), and other applicable adopted City plan(s).

Response: This criterion does not apply. The small areas are partially within areas designated as an Area of Change; however, there are portions that are designated as Area of Consistency, so the criterion above applies to the whole small area.

Staff agrees that Criterion 14-16-6-7(E)(3)(c) does not apply because the proposed amendments are not located wholly in an Area of Change.

Criterion 14-16-6-7(E)(d)
If the proposed amendment changes allowable uses, the proposed amendment does not allow permissive uses that would be harmful to adjacent property, the neighborhood, or the community, unless the Use-specific Standards in Section 16-16-4-3 associated with that use will adequately mitigate those harmful impacts.

Response: The small area amendment does not propose to change any allowable uses.

The proposed amendments include a couple of changes that would result in changes affecting uses. One change would extend use restrictions for Major Public Open Space to the existing Northwest Mesa Escarpment sub-area and a new sub-area to limit intensity of development.

The other change would add drive-through or drive-up facility to the Uptown Urban Center, where the use is currently prohibited for a variety of reasons (see explanation earlier in this report). Although associated use specific standards are intended to mitigate the impacts of drive- through, the larger issues is the extent to which allowing drive-throughs in the designated Urban Center would harm the integrity of Uptown as a more dense, walkable, urban place. The request partially meets Criterion 14-16-6-7(E)(d).

Criterion 14-16-6-7(E)(3)(e)
The applicant's justification is not based completely or predominantly on the cost of land or economic considerations.

Response: The City's existing infrastructure and public improvements, including but not limited to its street, trail, and sidewalk systems have adequate capacity to serve the development made possible by the change in zoning standards. This small area amendment does not change any allowable uses or cause new development to happen, rather, it changes development standards for new development within the small area boundaries.

The small area amendments are not based completely or predominantly on the cost of land or economic considerations, though economic considerations are a primary rationale for the

proposed change to allow the drive-through facility use in the Uptown Urban Center. The request partially meets Criterion 14-16-6-7(E)(3)(e).

These proposed Integrated Development Ordinance (IDO) Text Amendments– Small Areas would generally protect public health, safety, and welfare and promote economic growth and investment in the City as a whole. The proposed text amendments are explained in the spreadsheet of Small Area changes (see attachment).

III. ANALYSIS OF ORDINANCES, PLANS, AND POLICIES

Integrated Development Ordinance (IDO)

The request was submitted subsequent to the November 2, 2020 effective date of the 2019 Annual IDO Update and therefore is subject to its applicable standards and processes. Citations are in regular text; Staff analysis follows in bold italics. Ordinance citations are in regular text; ***Staff analysis follows in bold italics.***

Charter of the City of Albuquerque

The Citizens of Albuquerque adopted the City Charter in 1971. Applicable articles include:

Article I, Incorporation and Powers
The municipal corporation now existing and known as the City of Albuquerque shall remain and continue to be a body corporate and may exercise all legislative powers and perform all functions not expressly denied by general law or charter. Unless otherwise provided in this Charter, the power of the city to legislate is permissive and not mandatory. If the city does not legislate, it may nevertheless act in the manner provided by law. The purpose of this Charter is to provide for maximum local self-government. A liberal construction shall be given to the powers granted by this Charter.

Amending the IDO via text amendments is consistent with the purpose of the City Charter to provide for maximum local self-government. The revised regulatory language and processes in the IDO will generally help implement the Comprehensive Plan and help guide future legislation. Article IX, Environmental Protection

The Council (City Commission) in the interest of the public in general shall protect and preserve environmental features such as water, air and other natural endowments, ensure the proper use and development of land, and promote and maintain an aesthetic and humane urban environment. To affect these ends the Council shall take whatever action is necessary and shall enact ordinances and shall establish appropriate Commissions, Boards or Committees with jurisdiction, authority and staff sufficient to effectively administer city policy in this area.

The proposed Small Area text amendments to the IDO will help ensure that land is developed and used properly and that environmental features and natural resources will be better protected and preserved. The IDO is an instrument to help promote and maintain an aesthetic and humane urban environment for Albuquerque's citizens, and thereby promote improved quality of life. Commissions, Boards, and Committees will have updated and clarified regulations to help facilitate effective administration of City policy in this area.

Article XVII, Planning
Section 1. The Council is the city's ultimate planning and zoning authority, including the adoption and interpretation of the Comprehensive Plan and the Capital Improvement Plan. The Council is also the city's ultimate authority with respect to interpretation of adopted plans, ordinances, and individual cases.

> ***Amending the IDO through the annual update process is an instance of the Council exercising its role as the City's ultimate planning and zoning authority. The IDO will help implement the Comprehensive Plan and ensure that development in the City is consistent with the intent of any other plans and ordinances that the Council adopts.***

Section 2. The Mayor or his designee shall formulate and submit to the Council the Capital Improvement Plans and shall oversee the implementation, enforcement, and administration of land use plans.

> ***Amending the IDO through the annual update process will help the Administration to implement the Comprehensive Plan vision for future growth and development, and will help with the enforcement and administration of land use plans.***

Albuquerque / Bernalillo County Comprehensive Plan (Rank 1)

The Comprehensive Plan and the IDO were developed together and are mutually supportive. The purpose of the IDO [see 14-16-1-3], in the most overarching sense, is to implement the Comprehensive Plan and protect the health, safety, and general welfare of the public.

The request for a text amendment to the IDO-Small Areas generally furthers a preponderance of applicable Comprehensive Plan Goals and Policies, though some conflicts emerge and are explained below in the Staff analysis.

Chapter 4: Community Identity

Goal 4.1 – Character: Enhance, protect, and preserve distinct communities.

> Response: If approved, the request would further the Community Identity Character Goal (4.1), the Identity and Design Policy (4.1.2), and the Neighborhoods policy (4.1.4). The IDO is intended to make zoning and land use entitlements in our community more transparent, accurate, and contextually compatible in order to enhance, protect, and preserve distinct communities, neighborhoods, and traditional communities. The IDO provides protections for residential neighborhoods through dimensional standards specific to residential zone districts in Part 2, tailored regulations in Overlay zones in Part 3, use-specific standards that require distance separations between non-residential and residential uses and zone districts in Part 4, and development standards that apply to adjacent to residential uses or zone district, especially edge buffers and neighborhood edges in Part 5.

Policy 4.1.2 - Identity and Design: Protect the identity and cohesiveness of neighborhoods by ensuring the appropriate scale and location of development, mix of uses, and character of building design.

Response: If approved, the request would further the Identity and Design Policy (4.1.2). The request protects the identity of neighborhoods and commercial districts by clarifying standards and regulations that are unclear. This will better ensure appropriate scale, design, and location of development. Revisions to the structure and implementation of the Coors VPO-1 and Northwest Messa Escarpment VPO-2 regulations will help ensure the appropriate scale and location of development that protects views. The proposed new regulations, including allowing rooftop signs in and near Downtown and removing the transit parking reduction along Coors Boulevard, are intended to ensure appropriate scale and character of development.

Policy 4.1.4 - Neighborhoods: Enhance, protect, and preserve neighborhoods and traditional communities as key to our long-term health and vitality.

Response: If approved, the request would further the Neighborhoods policy (4.1.4). The request enhances, protects, and preserves neighborhoods and traditional communities by clarifying standards and regulations that are unclear. This will improve the implementation of the original goals and intent of the regulations as adopted through Sector Development Plans and the IDO. The proposed new regulations, including expanding the height restriction area and adding new use restrictions in the Northwest Mesa VPO, are intended to protect and enhance the existing character of those areas.

Staff analysis: As a whole, the proposed text amendments – small areas would generally enhance, protect, and preserve distinct communities including neighborhoods. The request furthers Goal 4.1- Character, Identity and Design Policy (4.1.2), and Policy 4.1.4- Neighborhoods. The amendments would make zoning and land entitlements in the small areas more transparent, accurate, contextually compatible.

Chapter 5: Land Use

Goal 5.1 – Centers & Corridors: Grow as a community of strong Centers connected by a multi-modal network of Corridors.

Response: If approved, the request would further the Centers and Corridors Goal (5.1). The IDO is the regulatory tool to realize and implement the "Centers and Corridors" community vision set out in the Comprehensive Plan in a coordinated, citywide context so that existing communities can benefit from appropriate new development, while being protected from potential adverse effects. The IDO regulations operationalize the City's Development Areas – Areas of Change and Consistency – that work together to direct growth to appropriate locations and ensure protections for low-density residential neighborhoods, parks, and Major Public Open Space. The IDO implements the Comprehensive Plan through regulations tailored to the City's designated Centers and Corridors. The IDO regulations are also coordinated with transportation and urban design policies in the updated Comprehensive Plan, as well as updated technical standards for infrastructure in the Development Process Manual.

Policy 5.1.1 - Desired Growth: Capture regional growth in Centers and Corridors to help shape the built environment into a sustainable development pattern.

Response: If approved, the request would further the Desired Growth Policy (5.1.1). There are changes proposed for the following IDO subsections that would specifically apply in designated Centers & Corridor locations and generally implement the policy.

- Table 2-4-11 Setbacks in MX-FB zones (currently mapped DT and a MS location)
- 3-4(C)(5)(c) Remove transit parking reduction for VPO-1 (MT)
- 4-3(F)(4)(e) Restaurant drive-throughs in Uptown (UC)
- 5-1(C)(2)(b) Contextual Residential infill standards in Downtown (DT)
- 5-5(B)(2)(a) Parking exemption in Downtown Center (DT)
- 5-12(E)(4)(d) and 5-12(F)(3) Rooftop signs in and near Downtown Center (DT)

Policy 5.1.2 - Development Areas: Direct more intense growth to Centers and Corridors and use Development Areas to establish and maintain appropriate density and scale of development within areas that should be more stable.

Response: If approved, the request would further the Development Areas Policy (5.1.2). The request generally controls and restricts development in areas near Major Public Open Space and along view corridors, and allows more development intensity in designated centers.

Staff analysis: If approved, the request would further the Land Use Centers & Corridors Goal (5.1) and the Desired Growth & Development Areas policies (5.1.1 and 5.1.2). The IDO is the regulatory tool to realize and implement the "Centers and Corridors" community vision set out in the Comprehensive Plan in a coordinated, citywide context so that existing communities can benefit from appropriate new development, while being protected from potential adverse effects. The IDO implements the Comprehensive Plan through regulations tailored to the City's designated Centers and Corridors. The IDO regulations are also coordinated with transportation and urban design policies in the updated Comprehensive Plan, as well as updated technical standards for infrastructure in the Development Process Manual. Council Amendments A, B, C, D, F, G, and H address regulations that specifically apply in designated Centers & Corridor locations, which were developed to implement the goal and policies.

Goal 5.3 - Efficient Development Patterns: Promote development patterns that maximize the utility of existing infrastructure and public facilities and the efficient use of land to support the public good.

Response: If approved, the request would further the Efficient Development Patterns Goal (5.3). The intent of many of the proposed changes is to clarify how to read and apply provisions in the IDO, which will result in a more predictable development outcomes and consistent decision-making. The request promotes efficient development patterns by clarifying standards and regulations that are unclear. The request generally directs more intense growth to designated Centers and Corridors and limits development near sensitive lands.

Policy 5.3.1 – Infill Development: Support additional growth in areas with existing infrastructure and public facilities.

Response: If approved, the request would further the Infill Development Policy (5.3.10. Reducing setbacks in urban locations and allowing more flexible infill opportunities through changes to the Contextual Residential development standards encourage development in infill locations served with existing infrastructure and public facilities**.**

Staff Analysis: The proposed text amendments, as a whole, would generally help promote development patterns that maximize the utility of existing infrastructure and public facilities and the efficient use of land. The request furthers Goal 5.3 – Efficient Development Patterns and Policy 5.3.1-Infill Development.

The technical edits are proposed to improve the clarity of the intent and improve implementation of adopted regulations. Council Amendments A, B, C, D, F, G, and H include new or revised regulations intended to promote efficient development patterns and maximize the utility of existing infrastructure and public facilities.

Goal 5.6 – City Development Areas: Encourage and direct growth to Areas of Change where it is expected and desired and ensure that development in and near Areas of Consistency reinforces the character and intensity of the surrounding area.

Response: If approved, the request would further the City Development Areas Goal (5.6). The intent of many of the proposed changes is to clarify how to read and apply provisions in the IDO, which will help reinforce the character and intensity of development Areas of Consistency. The request generally directs more intense growth to designated Centers and Corridors, which are designated as Areas of Change, and limits development near sensitive lands and existing residential neighborhoods and historic districts, which are designated as Areas of Consistency.

Policy 5.6.2 – Areas of Change: Direct growth and more intense development to Centers, Corridors, industrial and business parks, and Metropolitan Redevelopment Areas where change is encouraged.

Response: If approved, the request would generally further the Areas of Change Policy (5.6.2). Two of the proposed amendments would increase the current parking requirements in Areas of Change. While lower parking requirements in Center and Corridor areas generally promotes more development opportunity and intensity, in both of these locations, there are competing policies that would argue that the standard parking requirements and slightly less intensity is more appropriate. In the Coors Boulevard VPO-1, lower intensity development is favored as a way to protect views and in the Downtown area, the parking exemption may not be appropriate outside the Downtown center to prevent impacts on existing residential neighborhoods.

Policy 5.6.3- Areas of Consistency: Protect and enhance the character of existing single-family neighborhoods, areas outside of Centers and Corridors, parks, and Major Public Open Space.

b. Ensure the development reinforces the scale, intensity and setbacks of the immediately surrounding context.

Response: If approved, the request would further the Areas of Consistency Policy (5.6.3). The majority of the proposed amendments apply in Areas of Consistency. Changes proposed generally protect and enhance the existing character of those areas, and to clarify how to apply the regulation in a way that is consistent with the intent.

Staff analysis: The proposed text amendments would further Goal 5.6 – Development Areas, Policy 5.6.2 Areas of Change and Policy 5.6.3 Areas of Consistency as two of the proposed amendments would increase current parking requirements in Areas of Change along Coors Boulevard VPO-1 in order to protect views and character and the determination that parking requirements are not appropriate in the Downtown Area.

Goal 5.7 Implementation Process: Employ procedures and processes to effectively and equitably implement the Comprehensive Plan.

Response: If approved, the request would further the Implementation Process Goal (5.7). The intent of many of the proposed changes is to clarify how to read and apply provisions in the IDO, which will result in a more predictable development outcomes and consistent decision-making.

Policy 5.7.2 - Regulatory Alignment: Update regulatory frameworks to support desired growth, high quality development, economic development, housing, a variety of transportation modes, and quality of life priorities.

Response: If approved, the request would further the Regulatory Alignment policy (5.7.2). The IDO's procedures and processes in Part 6 have been developed to effectively and equitably implement the Comprehensive Plan. In order for the City's land use, zoning, and development regulations to stay up-to-date, the IDO established an annual update requirement into the regulatory framework. Changes proposed are intended to continually improve how the IDO implements the comp Plan by aligning regulations with Comp Plan goals and policies.

Staff Analysis: The annual amendment process for the IDO – small areas is a procedure to continue to effectively and equitably implement the Comprehensive Plan that results in an updated regulatory framework. The proposed text amendments would better link applicable Comprehensive Plan Goals and policies and the IDO, the implementation mechanism. The request furthers Goal 5.7 Implementation Process and 5.7.2 Regulatory Alignment.

Policy 5.7.5 – Public Engagement: Provide regular opportunities for residents and stakeholders to better understand and engage in the planning and development process.

Response: If approved, the request would further the Public Engagement Policy (5.7.5). The IDO Annual Update process was established to provide a regular cycle for discussion among residents, City staff, and decision makers to consider any needed changes that were identified over the course of the year. Changes proposed for Part 6 of the IDO are intended to improve public agency engagement opportunities in the planning and development process.

Staff Analysis: The annual update process for the IDO – small areas provides residents and stakeholders with an opportunity to better understand and engage with the planning and development process. Changes proposed to Part 6 of the IDO-small areas are intended to improve public agency engagement opportunities in the planning and development process. The request furthers Policy 5.75-Public Engagement.

Policy 5.7.6 – Development Services: Provide high-quality customer service with transparent approval and permitting processes.

Response: If approved, the request would further the Development Services Policy (5.7.6). The intent of many of the proposed changes is to clarify how to read and apply provisions in the IDO, which will result in a more predictable development outcomes and consistent decision-making.

Staff Analysis: The annual amendment process to the IDO-small areas is a procedure that implements the Comprehensive Plan. The proposed text amendments will provide clarification on how to read and apply provisions to the IDO, resulting in a more predictable development outcome. The request furthers Goal 5.7-Implementation Process, Policy 5.7.2 Regulatory Alignment, Policy 5.75 Public Engagement, and Policy 5.7.6-Development Services.

Chapter 7: Urban Design

Goal 7.1 Streetscapes & Development Form: Design streetscapes and development form to create a range of environments and experiences for residents and visitors.

Response: If approved, the request would further the Streetscape & Development Form Goal (7.1). The IDO implements this Comprehensive Plan goal through zoning standards that are appropriate in each zone district (Part 14-16-2); in specific small areas (Part 14-16-3); and in different contexts, such as next to residential neighborhoods, next to major Public Open Space, in Centers/Corridors, or in Areas of Change/Consistency in use-specific standards (Part 14-16-4) and development standards in Part 5. Changes proposed for rooftop signs in and near Downtown, screening of parking garages at the street edge in East Downtown area, and clarifications to the view protection regulations along Coors Boulevard are intended to establish high-quality standards in appropriate context**.**

Staff analysis: The proposed text amendments would generally help create a range of environments and experiences through designed streetscapes and development forms. The request furthers Goal 7.1- Streetscapes and Development Form.

Goal 7.3.- Sense of Place: Reinforce sense of place through context-sensitive design of development and streetscapes.

Response: If approved, the request would further the Sense of Place Goal (7.3). This request provides clarification for existing rules so that their implementation is consistent with the intent of the regulation. Proposed rules that carry forward provisions from rescinded Sector Plans honor the intent of those prior planning efforts and reflect the vision for those small areas. Proposed new rules, such as the drive-through allowance for restaurants in Uptown, are crafted to limit the applicability to appropriate locations while preserving the sense of place in the remainder of the Urban Center.

Policy 7.3.1 – Natural and Cultural Features: Preserve, enhance, and leverage natural features and views of cultural landscapes.

Response: If approved, the request would further the Natural and Cultural Features Policy (7.3.1). The IDO establishes regulations that apply in particular contexts (Centers/Corridors, next to residential development, next to Major Public Open space, on sensitive lands, etc.). Changes proposed for the Los Duranes and Rio Grande Boulevard CPOs are intended to maintain the semi-rural and agricultural cultural landscapes in those areas. Changes proposed to the Volcano Mesa CPO and the two View Protection Overlay zones are intended to preserve, enhance, and leverage natural features and views toward geographical features that figure prominently in our cultural landscapes.

Staff Analysis: The proposed text amendments include changes that would reinforce sense of place through context-sensitive design and would help to preserve and protect natural features and views of cultural landscapes. The request furthers Goal 7.3 - Sense of Place and Policy 7.3.1 - Natural and Cultural Features.

Policy 7.3.2 – Community Character: Encourage design strategies that recognize and embrace the character differences that give communities their distinct identities and make them safe and attractive places.

a. Design development to reflect the character of the surrounding area and protect and enhance views.

Response: If approved, the request would further the Urban Design Community Character Policy (7.3.2). The intent of the amendments to the 14 small areas is to improve implementation of the design standards that apply in specific small areas to protect and maintain the unique character and differences in those areas that contribute to their distinct identities.

Staff analysis: The proposed text amendment would make communities and their distinct identities safe and attractive places by encouraging design strategies that recognize the character differences in communities. The request furthers Policy 7.3.2-Community Character.

Goal 7.4 – Context-Sensitive Parking: Design parking facilities to match the development context and complement the surrounding built environment.

Response: If approved, the request would further the Context-Sensitive Parking Goal (7.4). Changes proposed to the East Downtown CPO and HPO address parking structure walls and requires it to be screened or to have a wall that defines the street edge. This rule will result in new development that better complements the surrounding built environment.

Staff analysis: The proposed amendments to East Downtown CPO and HPO will result in new development that better complements the surrounding built environment by having parking facilities designed to be screened or have a wall that defines the street edge. The request furthers Goal 7.4-Context-Sensitive Design.

Policy 7.4.2 – Parking Requirements: Establish off-street parking requirements based on development context.

Response: If approved, the request would further the Parking Requirements Policy (7.4.2). The IDO regulates parking in Section 14-15-5-5 based on uses and context, including requirements tailored for Centers/Corridors versus elsewhere in the city. Changes proposed along Coors Boulevard would eliminate parking reductions associated with proximity to Major Transit corridors in an effort to maintain the lower intensity building development in the View Protection Overlay to better protect views. Proposed changes in the Downtown Area make the off-street parking exemption only apply within the Comprehensive Plan designated Downtown Center, while adding back required parking to other portions of the downtown area that are outside of the Center. Existing neighborhoods surrounding downtown have had a long history of accommodating on-street parking for uses in the Greater Downtown area. Both of these changes require more parking in areas that might be appropriate, in order to protect views and provide transitions to existing residential neighborhoods.

Staff Analysis: The proposed text amendments include changes that would remove the parking reductions associated with Coors Boulevard in order to maintain the lower intensity of building development and protect views. The proposed text amendments would also make off-street parking exemptions only apply within the Comprehensive Plan designated Downtown Center. Both changes will require more parking that necessary in order to protect views and provide transitions to residential neighborhoods. The request furthers Policy 7.4.2-Parking Requirements.

Policy 7.5.1 - Landscape Design: Encourage landscape treatments that are consistent with the high desert climate to enhance our sense of place.

Response: If approved, the request would further the Landscape Design Policy (7.5.1). The IDO implements this Comp Plan goal and policy by increasing the required site landscaping for multi-family, mixed-use, and non-residential development in the Volcano Mesa Area. This change is intended to reduce the scale and intensity of development on the mesa top and to reduce the amount of impermeable land, which creates drainage and stormwater runoff problems. Requiring more landscaping could preserve more of the high-desert landscape and enhance a sense of place.

Staff analysis: The proposed text amendment would increase required site landscaping for multi-family, mixed-use, and non-residential development in the Volcano Mesa Area, but in a manner consistent with the high-desert climate. The scale and intensity of development would be reduced on the mesa top, which could preserve more of the high-desert landscape and enhance a sense of place.

Chapter 8: Economic Development

Policy 8.1.1 – Diverse Places: Foster a range of interesting places and contexts with different development intensities, densities, uses, and building scale to encourage development opportunities.

Response: If approved, the request would further the Diverse Places Policy (8.1.1). The IDO implements the Comprehensive Plan by establishing zoning standards tailored to different zone districts and different contexts. Proposed changes in Part 14-16-4 and Part 14-16-5 generally furthers this Comprehensive Plan goal and policy.

Staff analysis: The proposed text amendment would include changes that establish zoning standards tailored to different districts and contexts. The request furthers Policy 8.1.1-Diverse Places.

Policy 8.1.2 – Resilient Economy: Encourage economic development efforts that improve quality of life for new and existing residents and foster a robust, resilient, and diverse economy.

Response: If approved, the request would partially further the Resilient Economy Policy (8.1.2). The IDO implements the Comprehensive Plan by establishing zoning standards that set the bar for high-quality development while still allowing a range of uses in appropriate contexts. The proposed change to allow drive-throughs for restaurants within 1,320 feet of I-40 in the Uptown Urban Center is intended to provide an incentive for development that responds to the COVID-19 conditions, though the change would be a permanent solution that would affect approximately half of the designated Urban Center.

Staff Analysis: The proposed text amendment would allow drive-throughs for restaurants within 1,320 feet of I-40 in the Uptown Urban Center to respond to COVID-19 conditions and encourage economic development. The proposed quarter mile would capture about half of Uptown and extend further than close to I-40. The use-specific standards would continue to apply to specific sites, but cannot address cumulative effects of multiple drive-throughs on the intent that Uptown be a more urban and walkable area than other parts of town. The request partially furthers Policy 8.1.2-Resilient Economy.

Chapter 9: Housing

Policy 9.2.1 – Compatibility: Encourage housing development that enhances neighborhood character, maintains compatibility with surrounding land uses, and responds to its' development context – i.e. urban, suburban, or rural – with appropriate densities, site design, and relationship to the street.

Response: If approved, the request would further the Compatibility Policy (9.2.1). The proposed change to building setbacks in Los Duranes adds duplexes to the dwelling types that require a context sensitive setback (within 5' of the setback on an abutting lot). Changes proposed in the Nob Hill CPO allows residential building frontage types so that multi-family developments are not required to have a false storefront window at the ground floor. Both of these changes will enhance neighborhood character, maintain compatibility with surrounding development, and maintain an appropriate relationship to the street.

Staff analysis: The proposed text amendment includes a change to the building setbacks in Los Duranes and adds duplexes to the dwelling types that require context-sensitive setbacks. The proposed text amendment to the Nob Hill CPO require a ground floor false storefront. Both proposed text amendments will enhance the character of the neighborhood while maintaining compatibility with surrounding development and relationships to the street. The request furthers Policy 9.2.1-Compatibility.

Chapter 11: Heritage Conservation

Goal 11.3 – Cultural Landscapes: Protect, reuse, and/or enhance significant cultural landscapes as important contributors to our heritage and rich and complex identities.

Response: If approved, the request would further the Heritage Conservation Goal (11.3). The proposed changes to the View Protection Overlays and Historic Protection Overlay zone are intended to enhance implementation of the intent of these overlays. Many of the changes proposed clarify how to read and apply provisions in the IDO, which will result in better protection and enhancement of our significant cultural landscapes.

Staff analysis: The proposed text amendment will protect and enhance cultural landscapes by proposing changes to the View Protection Overlays and Historic Protection Overlay zones. The request furthers Policy 11.3-Cultural Landscapes.

Policy 11.3.1 – Natural and Cultural Features: Preserve and enhance the natural and cultural characteristics and features that contribute to the distinct identity of communities, neighborhoods, and cultural landscapes.

a. Minimize negative impacts and maximize enhancements and design that complement the natural environment, particularly features unique to Albuquerque, in development and redevelopment.

Response: If approved, the request would further the Natural and Cultural Features Policy (11.3.1) and sub-policy (11.3.1.a). The IDO includes many protections for Major Public Open Space and Sensitive Lands in Part 14-16-4 and Part 14-16-5. Changes proposed for small areas that are near Major Public Open Space and have views of significant environmental and cultural features would further this policy by adding regulatory protections for these natural and cultural landscapes.

Staff Analysis: The proposed text amendments would add protections that would facilitate preservation and enhancement of natural characteristics and features, which contribute to distinct identity of communities and cultural landscapes. The protections would help minimize negative impacts to the views of small areas near Major Public Open Space. The request furthers Policy 11.3.1-Natural Features and subpolicy a.

IV. KEY ISSUES & DISCUSSION

The proposed text amendments are presented and explained in the spreadsheet of Small Areas-changes (see attachment). This section focuses on and discusses only the proposed text amendments that have exhibits or were requested via memo (see attachments- memo from Council Services and memo from the Director of the Planning Department).

The following issues are organized in order of the IDO, except for changes proposed by Council, for topics that would affect Small Areas.

Memo – Council Services - Amendment A – Uptown Area – October 19, 2020, revised November 19, 2020

Council Purpose: The purpose of this proposed amendment is to add drive-through or drive-up provisions for restaurants located within the Uptown Area when located 1,320 feet of the public right-of-way of I-40. Currently, drive through and drive up facilities are prohibited for restaurants in order to create a walkable environment in the Uptown Area. Drive-through and drive-ups are allowed for banks and pharmacies under the IDO in Uptown. The intent of the previous regulation was to minimize conflicts between vehicles in a drive-through lane and pedestrians. However, the areas in close proximity to I-40 are not walkable given the heavy traffic volumes in the area.

Planning Policy Analysis: Parts of this amendment further Comprehensive Plan policies, while other parts of the request conflict with Comprehensive Plan policies for walkability and high-quality development.

The amendment furthers the following Comprehensive Plan policies:

Goal 5.3 - Efficient Development Patterns: Promote development patterns that maximize the utility of existing infrastructure and public facilities and the efficient use of land to support the public good.

Policy 8.1.2. Resilient Economy: Encourage economic development efforts that improve quality of life for new and existing residents and foster a robust, resilient, and diverse economy.

If approved, the amendment would generally further the Efficient Development Patterns Policy (5.3) and Resilient Economy Policy (8.1.2). The proposed changes allow for flexibility by allowing drive-throughs or drive-ups that are accessory to a restaurant within the Uptown Area when located within 1,320 of the public right-of-way of I-40. While the revision would allow for a drive-through or drive-up facility, the Development Standards in Section 5-5(I)(2) and Use Regulations in Section 4-3(F)(4) for Drive-Through or Drive-Up Facility would still apply. These standards ensure that the design of the facility minimizes the potential conflicts between pedestrians and vehicles.

Due to the pandemic, visits to these facilities have increased over the past year. Allowing these facilities in places that are more vehicular in nature has been taken into consideration while preserving some protections from the negative impacts of drive-throughs. The IDO requirement for screening would help mitigate potential negative impacts and would help maintain a consistent street wall, even where a drive-through lane is between a building and the street. The minimum required stacking spaces for restaurants listed in 14-16-5-5(I)(1) will also help establish requirements for the design of these facilities as to minimize impacts to the surrounding areas.

Economic development is encouraged by this amendment as allowing for the drive through and drive up facilities to be developed in the area as long as they adhere to the Development Standards and Use Regulations.

Policy 5.7.2 Regulatory Alignment: Update regulatory frameworks to support desired growth, high quality development, economic development, housing, a variety of transportation modes, and quality of life priorities.

The use of drive-throughs has increased over the past year due to restrictions and economic considerations. There is flexibility of this amendment to support development within 1,320 of I-40, while also preserving certain protections from some negative impacts of drive-throughs.

The amendment conflicts with the following Comprehensive Plan policies:

Policy 4.1.2 - Identity and Design: Protect the identity and cohesiveness of neighborhoods by ensuring the appropriate scale and location of development, mix of uses, and character of building design.

Policy 5.1.4.b. Urban Centers: Encourage pedestrian-oriented design, transit-oriented development, and infrastructure improvements that make Urban Centers more walkable over time.

Policy 5.1.9 Main Streets: Promote Main Streets that are lively, highly walkable streets lined with neighborhood-oriented businesses.

Policy 6.1.3 Auto Demand: Reduce the need for automobile travel by increasing mixed-use development, infill development within Centers, and travel demand management (TDM) programs.

Goal 7.2 Pedestrian-Accessible Design: Increase walkability in all environments, promote pedestrian-oriented development in urban contexts, and increase pedestrian safety in auto-oriented contexts.

Policy 7.2.1 Walkability: Ensure convenient and comfortable pedestrian travel.

Policy 7.2.2 Walkable Places: Promote high-quality pedestrian-oriented neighborhoods and districts as the essential building blocks of a sustainable region.

Policy 7.2.2.b: Encourage building and site design that activates the pedestrian environment through building frontage, entrances, parking areas, and gathering spaces.

Policy 7.3.5 Development Quality: Encourage innovative and high-quality design in all development.

If approved, this amendment would conflict with the Identity and Design Policy (4.1.2), Urban Centers Policy (5.1.4.b), Main streets Policy (5.1.9), Auto Demand Policy (6.1.3), Pedestrian-Accessible Design Policy (7.2), Walkability Policy (7.2.1), Walkable Places Policy (7.2.2.), Policy (7.2.2.b), and Development Quality Policy (7.3.5).

Although the areas in close proximity to I-40 are not walkable due to heavy traffic, adding drive-through uses for 1,320 feet would impact almost half of the Uptown Urban Center. There are only two urban centers in the City- and the proposed amendment would adversely impact the ability of the Uptown Center to develop a more urban, dense, and pedestrian supportive character.

By their nature, drive-through and drive-up facilities do not promote pedestrian activity, though they can implement some minor improvements (such as colored crosswalks) on the surface to address pedestrian safety issues, they are fundamentally an auto-oriented use and do not belong in the Urban Center and should not encroach into the heart of it. Restaurants in Uptown can still serve customers during the pandemic by providing curbside pickup services; a drive-through is not necessary. Furthermore, there is not likely to be space on the sites of already-built restaurants, so the proposed amendment is more about new development.

Though Planning Staff does not support the proposed amendment, a distance of 660 feet would be more reasonable and would allow the amendment without compromising the main portion of Uptown. Walkability is the most basic mode of transportation and it must be kept in mind that not everyone has a vehicle, especially in the more urban parts of the City. Standards must be kept in place to help address conflicts between pedestrians and vehicles

If the proposed amendment is regarding a particular site or sites, or a particular national chain characterized by drive-throughs, perhaps it would be possible to grant temporary emergency drive-throughs or drive-ups to respond to the pandemic, if that is the actual concern, rather than compromise the integrity of the Urban Center permanently and for years to come.

Memo - Council Services - Amendment B – Form Based Zone District and Subzones - October 19, 2020, revised November 19, 2020

Council Purpose: The purpose of this proposed amendment is to reduce the rear setback minimum in the Mixed Use-Form Based Zone District sub-zones (MX-FB-ID, MX-FB-FX, and MX-FB-AC). The proposed amendment would affect the MX-FB sub-zones by allowing where the rear lot line abuts a street or an alley to 0 feet. This change is consistent with the 2019 revision for UC-MS-PT areas that reduced the rear setback minimum to 0 feet where the rear lot line abuts a street or alley. It is also consistent with the previous Downtown 2025 Sector Development Plan which allowed a 0 feet rear setback when the lot had an alley or street to the rear. At present the Form Based Zone Districts are mapped only within the boundaries of the former Downtown 2025 Sector Development Plan.

Planning Policy Analysis: Parts of this amendment further Comprehensive Plan policies.

The amendment furthers the following Comprehensive Plan policies:

Policy 4.1.2 - Identity and Design: Protect the identity and cohesiveness of neighborhoods by ensuring the appropriate scale and location of development, mix of uses, and character of building design.

Policy 5.1.1 - Desired Growth: Capture regional growth in Centers and Corridors to help shape the built environment into a sustainable development pattern.

Goal 5.3 - Efficient Development Patterns: Promote development patterns that maximize the utility of existing infrastructure and public facilities and the efficient use of land to support the public good.

Policy 5.6.2 – Areas of Change: Direct growth and more intense development to Centers, Corridors, industrial and business parks, and Metropolitan Redevelopment Areas where change is encouraged.

Goal 7.1 Streetscapes & Development Form: Design streetscapes and development form to create a range of environments and experiences for residents and visitors.

Policy 7.3.5 Development Quality: Encourage innovative and high-quality design in all development.

Policy 7.3.2 – Community Character: Encourage design strategies that recognize and embrace the character differences that give communities their distinct identities and make them safe and attractive places.

If approved, the amendment would further the Identity and Design Policy (4.1.2), Desired Growth Policy (5.1.1), Efficient Development Patterns Policy (5.3), Areas of Change Policy (5.6.2), Streetscapes & Development Form Goal (7.1), Development Quality Policy (7.3.5), and Community Character Policy (7.3.2). This amendment reduces the rear setback minimum to 0 feet where the rear lot line abuts a street or alley in the Mixed Use-Form Based Zone District sub-zones (MX-FB-ID, MX-FB-FX, and MX-FB-AC). The MX-FB zone district includes subzones that allow a wide range of residential, commercial, and institutional uses subject to form-based zoning controls to ensure that the buildings they occupy, establish or reinforce a well-defined urban character. Context sensitive development is encouraged on sites in developed areas along streets designated as collectors or arterials. The MX-FB-ID subzone provides opportunities to introduce neighborhood-scale uses to serve nearby residents. MX-FB-FX supports pedestrian-scale mixed-use development in Areas of Change while the MX-FB-AC subzone provides community-scale non-residential and high-density residential development in areas designated as Activity Centers.

Currently there is no required setback for parking lots with a single drive aisle and they must be located behind or to the side of any primary building. The areas will not be impacted by the proposed amendment as the parking lot edges must have a wall at least 3 feet and no more than 4 feet high parallel to the street. The Form Based Subzones are in place to regulate development in order to achieve a specific urban form and place and emphasize the relationship between the street and the buildings and pedestrians and vehicles.

The proposed 0 setback minimum will allow for maximum density in the lots to be developed while helping to defray the cost of development due to the increased density. One of the benefits of infill development is to promote compact development and increase density which will be achieved by allowing new development to decrease the rear setback to 0. The MX-FB-ID will benefit as this zone introduces a neighborhood scale to the area. Development is encouraged in Areas of Change, where most of the subzones are located. The setback will allow for new development to take advantage of the existing infrastructure while providing for a pedestrian friendly environment. The landscape requirements for these areas will promote a friendly pedestrian environment a s per section 2-4(E)(3)(h). The walkability of the area will reduce the overall need to travel and enable people to access services locally.

The land use mix in these areas is key to ensuring that there are nearby destinations to which people can walk. Regional growth could be captured as the majority of the Mixed Use Form Based zones are along Centers and Corridors. The decrease in the setbacks for the Mixed Use Form Based zones and subzones will allow for increased development in the area specifically with infill. There is flexibility in this amendment to support development in these areas as the level of development and intensity differs in each zone

Memo - Council Services - Amendment C &D – Near Downtown Center - October 19, 2020, revised November 19, 2020

Council Purpose: This purpose of these proposed amendments is to allow signs in and within 330 feet of Downtown Center and to specify the zone districts where such allowances will be permitted.

Rooftop signs were added as a sign type during the adoption of the IDO in 2018, but allowed the signs only within the East Downtown CPO and HPO. Historically signs were located in the downtown core and along Central Avenue on commercial buildings. This would extend the allowance to the Downtown Center and lots within 330 feet of the Downtown Center.

The purpose of the second amendment is to allow signs in any Mixed-use or Non-residential zone district in the Downtown Center or in any Mixed Use or Mixed-use or Non-residential zone district within 330 feet of the Downtown Center: 1) only 30 percent of the sign area shall consist of channel letters, channel graphics, open lighting elements, and/or a solid panel. 2) The structural framework of the sign shall be visible for the remaining 70 percent of the sign area.

Planning Policy Analysis: Parts of this amendment further Comprehensive Plan policies, while other parts of the request conflict with Comprehensive Plan policies for walkability and high-quality development.

The amendment furthers the following Comprehensive Plan policies:

Policy 4.1.2 - Identity and Design: Protect the identity and cohesiveness of neighborhoods by ensuring the appropriate scale and location of development, mix of uses, and character of building design.

Policy 5.1.1 - Desired Growth: Capture regional growth in Centers and Corridors to help shape the built environment into a sustainable development pattern.

Policy 5.7.2 Regulatory Alignment: Update regulatory frameworks to support desired growth, high quality development, economic development, housing, a variety of transportation modes, and quality of life priorities.

If approved, the amendment would further the Identity and Design Policy (4.1.2), Desired Growth Policy (5.1.1), and Regulatory Alignment Policy (5.7.2). The allowance of rooftop signs to the Near Downtown Area is in line with allowances to similar areas in the Downtown Core and appropriate given the character of the area. During the 1910s and 192s advertising became increasingly focused on automobile traffic, specifically along Central Avenue. Signs in the past have played an important role in the activity of the areas they are located in. The request would further the Identity and Design Policy (4.1.2) by making the use of signs compatible to the area but the while protected by the Development Standards in the IDO related to Small Areas. The proposed amendment Development Standards are similar to the East Downtown CPO-4 and HPO-1 Small Areas.

Memo - Council Services - Amendment E – Northwest Mesa Escarpment – View Protection Overlay (VPO-2) - October 19, 2020, revised November 19, 2020

Memo – Council Services – Northwest Mesa Escarpment – View Protection Overlay (VPO) Zone and Exhibit A

Council Purpose: The proposed revisions to the Northwest Mesa Escarpment VPO-2 add a second sub-area in IDO Subsection 14-16-3-6(e)(3) with height restrictions 660 feet from the current sub-area (which is 330 feet from the Petroglyph National Monument, Escarpment, or Major Public Open Space boundary) and extends the use-specific standards in IDO Section 14-16-4-3 that apply next to Major Public Open Space in the current sub-area to the new sub-area. This amendment is intended to add a transitional area with regulations that decrease the intensity of development near the Escarpment and the surrounding Petroglyph National Monument. The additional area does not include the Volcano Heights Urban Center, which the Comprehensive Plan designates as appropriate for the most intense development and high-density housing.

Within the proposed new Height Restrictions sub-area, building heights would be limited to 30 feet, or the maximum height allowed by the underlying zone district, whichever is lower, and requires more landscaping than would be required by citywide standards. In general, when a property is developed, the land is used for one of three things: parking, buildings/ structures, and landscaping. By increasing the landscaping requirement from 15 percent to 25 percent of the net lot area for both VPO sub-areas in IDO Subsection 14-16-3-6(N)(5)(c), the scale and intensity of a multi-family, mixed-use, or non-residential development is reduced. (This new regulation is proposed to be put in the Volcano Mesa Character Protection Overlay (CPO) zone because it has less to do with protecting views per se but rather establishing development limits next to the Petroglyph National Monument and Northwest Mesa Escarpment, but the regulation would apply to the sub-areas established by VPO-2.) This increased landscape area reduces the amount of the property that can be developed with an impermeable surface, which reduces the runoff volumes from each site. The Petroglyph National Monument has expressed concerns over the years about the impact of adjacent development, and runoff is a component of that concern.

Finally, the amendment extends the use-specific standards that limit specific uses next to Major Public Open Space in the current sub-area to apply in the new Height Restriction sub-area, as well.

The amendment furthers the following Comprehensive Plan policies.

Planning Policy Analysis: This amendment furthers the following Comprehensive Plan policies related to Urban Design and Heritage Conservation:

Goal 7.3 - Sense of Place: Reinforce sense of place through context-sensitive design of development and streetscapes.

Policy 7.3.1 - Natural and Cultural Features: Preserve, enhance, and leverage natural features and views of cultural landscapes.

Policy 11.3.1 - Natural and Cultural Features: Preserve and enhance the natural and cultural characteristics and features that contribute to the distinct identity of communities, neighborhoods, and cultural landscapes.

Sub-policy 11.3.1.a - Natural and Cultural Features: Minimize negative impacts and maximize enhancements and design that complement the natural environment, particularly features unique to Albuquerque, in development and redevelopment**.**

Response: If approved, the amendment would establish an additional area where regulations would apply that limit the scale and intensity of development next to a natural and cultural features – the Petroglyph National Monument, Northwest Mesa Escarpment, and Major Public Open Space (7.3, 7.3.1, 11.3.1, 11.3.1a). The regulations require more of a site to be dedicated to landscaping, reducing the hardscape and therefore runoff potential, which negatively impacts the Petroglyph National Monument and Northwest Mesa Escarpment (11.3.1.a). The amendment would limit or prohibit uses that could have negative impacts on the Petroglyph National Monument and Northwest Mesa Escarpment (11.3.1.a).

Staff analysis: If approved, the proposed amendments would further the Sense of Place Goal (7.3), Natural and Cultural Features Policy (7.3.1), Natural and Cultural Features Policy (11.3.1) and sub-policy (11.3.1.a). The IDO includes many protections for Major Public Open Space and Sensitive Lands in Part 14-16-4 and Part 14-16-5. The proposed amendments for IDO Purpose (IDO Section 14-16-1-3) would name this policy intent as a purpose of the IDO, which generally improves awareness and therefore effectiveness of the IDO in implementing this policy.

This proposed amendment would add a second sub-area height restriction of 660 feet from the current sub-area of 330 feet from the Petroglyph National Monument/Escarpment. Building heights are to be limited to 30 feet or the maximum height allowed by the underlying zone district. This amendment would be consistent with the Comp Plan policies that aim to protect and contribute to reinforcing a sense of place and enhancing natural features and views of cultural landscapes. The viewsheds are highly valued community resources. These views contribute to public health safety and contribute to the community's identity and well-being. There is a close correlation between visual quality and high environmental quality. The viewshed protection has strong ties to economic development as it is motivated by a desire to maintain high property values and promote the economy by enhancing the quality of life.

The addition of this second subarea is intertwined with building massing regulations, environmental protection, protection of community character, and preservation and enhancement of quality of life.

The viewshed protection focuses on the preservation of views to the Petroglyph National Monument/Escarpment with key preservation technique of height limitation and building setbacks.

Spreadsheet – Small Area Text Amendments – Subsection 3-6(E)(3)(c)2.b.

Purpose: This amendment would apply the existing provision about one of the three appropriate techniques to locate and design taller buildings to preserve views to all construction, not just two-story construction as currently written. Tall one-story buildings would also have to comply with this provision. These techniques are required when a variance is sought from the EPC for a building taller than allowed by the VPO. This change was first proposed in the 2019 IDO Annual Update, which was legislative, but was re-submitted with notice to property owners to be reviewed as quasi-judicial with the Small Area Text Amendments in 2020.

The amendment furthers the following Comprehensive Plan policies.

Planning Policy Analysis: This amendment furthers the following Comprehensive Plan policies related to Urban Design and Heritage Conservation:

Goal 7.3 - Sense of Place: Reinforce sense of place through context-sensitive design of development and streetscapes.

Policy 7.3.1 - Natural and Cultural Features: Preserve, enhance, and leverage natural features and views of cultural landscapes.

Policy 11.3.1 - Natural and Cultural Features: Preserve and enhance the natural and cultural characteristics and features that contribute to the distinct identity of communities, neighborhoods, and cultural landscapes.

Policy 11.3.1.a - Natural and Cultural Features: Minimize negative impacts and maximize enhancements and design that complement the natural environment, particularly features unique to Albuquerque, in development and redevelopment**.**

If approved, the amendment would minimize negative impacts on the Petroglyph National Monument and Northwest Mesa Escarpment by requiring building location and massing to preserve views, reinforce sense of place, and enhance the distinct identity of this community (7.3, 7.3.1, 11.3.1, 11.3.1a).

Memo - Council Services - Amendment F - Coors Boulevard – View Protection Overlay (VPO-1) - October 19, 2020, revised November 19, 2020

Council Purpose: The purpose of this amendment is to remove the height bonuses for Workforce Housing and Structured Parking along Coors Boulevard, a Major Transit Corridor.

With the adoption of the 2019 IDO Annual Update the Workforce Housing 12-foot Building Height bonus was applied to Major Transit Corridors. Coors is designated a Major Transit Corridor whose boundaries are from Coors Boulevard, along the segment between Western Trail/Namaste Road and Alameda Boulevard, looking toward the Rio Grande Bosque and Sandia Mountains. The Coors Boulevard VPO-1 regulates building placement and height in relation to views. While the VPO-1 regulations would supersede any underlying zoning allowances, this provision makes it explicit that the 12-foot Workforce Housing Bonus is not applicable in the Coors VPO-1.

Planning Policy Analysis: This amendment furthers the following Comprehensive Plan policies:

Policy 4.1.3 Placemaking: Protect and enhance special places in the built environment that contribute to distinct identity and sense of place.

Policy 5.1.1 - Desired Growth: Capture regional growth in Centers and Corridors to help shape the built environment into a sustainable development pattern.

Goal 7.2 Pedestrian-Accessible Design: Increase walkability in all environments, promote pedestrian-oriented development in urban contexts, and increase pedestrian safety in auto-oriented contexts.

Policy 7.2.1 Walkability: Ensure convenient and comfortable pedestrian travel.

Policy 7.2.2 Walkable Places: Promote high-quality pedestrian-oriented neighborhoods and districts as the essential building blocks of a sustainable region.

Policy 7.2.2.b: Encourage building and site design that activates the pedestrian environment through building frontage, entrances, parking areas, and gathering spaces.

If approved, the amendment would establish regulations along Coors Boulevard that limit the scale and intensity of building heights and structured parking along Coors Boulevard (VPO-1), A Major Transit Corridor. The amendment would further the Placemaking Policy (4.1.3), , Desired Growth Policy (5.1.1), Pedestrian Accessible Design Goal (7.2), Walkability Policy (7.2.1), and Walkable Places (7.2.2). While the encouragement of development was the reason for the building height bonus, the suitability of such along a heavily traversed corridor needs to be reconsidered. The height bonuses are more appropriate in mixed-use zones and subzones as there is the potential for stormwater management practices.

Memo - Council Services - Amendment G - Coors Boulevard – View Protection Overlay (VPO-1) - October 19, 2020, revised November 19, 2020

Council Purpose: The purpose of this amendment is to remove the parking reductions with proximity to Coors Boulevard (VPO-1).

With the adoption of the 2019 IDO Annual Update, a 20% reduction in parking in proximity to major Transit was applied. Coors Boulevard is a Major Transit Corridor. This revision would exempt Coors Boulevard VPO-1 from reduction in parking. Reduced parking has resulted in more dense development patterns that is contrary to the to the intentions of the Coors Boulevard VPO-1/

Planning Policy Analysis: Parts of this amendment further Comprehensive Plan policies, while other parts of the request conflict with Comprehensive Plan policies for walkability and high-quality development.

Policy 4.1.3 Placemaking: Protect and enhance special places in the built environment that contribute to distinct identity and sense of place.

Goal 7.2 Pedestrian-Accessible Design: Increase walkability in all environments, promote pedestrian-oriented development in urban contexts, and increase pedestrian safety in auto-oriented contexts.

Policy 7.2.1 Walkability: Ensure convenient and comfortable pedestrian travel.

Policy 7.2.2 Walkable Places: Promote high-quality pedestrian-oriented neighborhoods and districts as the essential building blocks of a sustainable region.

Policy 7.2.2.b: Encourage building and site design that activates the pedestrian environment through building frontage, entrances, parking areas, and gathering spaces.

Goal 7.4 - Context-Sensitive Parking: Design parking facilities to match the development context and complement the surrounding built environment.

If approved, the amendment would establish regulations that remove the parking reductions along Coors Boulevard, a Major Transit Corridor. The amendment would further the Placemaking Policy (4.1.3), Pedestrian Accessible Design Goal (7.2), Walkability Policy (7.2.1), Walkable Places Policy (7.2.2), and Context Sensitive Parking Goal (7.4). The increased development has not encouraged pedestrian activity in neighborhoods as had been anticipated and has resulted in denser development that is inappropriate to the area. Innovative designs could be implemented in order to allow for parking areas to become walkable where it would be ideal to park-once and then walk furthering the Pedestrian-Accessible Design Goal (7.2).

The amendment conflicts with the following Comprehensive Plan policies:

Policy 6.1.3 Auto Demand – Reduce the need for automobile travel by increasing mixed-use development, infill development within Centers, and travel demand management (TDM) programs

Policy 13.4.1 Air Quality – Maintain good air quality that complies with federal standards to safeguard public health and enhance quality of life for all residents.

If approved, this amendment would conflict with the Auto Demand Policy (6.1.3) and Air Quality Policy (13.4.1). Although the intent of the proposed amendment is to reduce density caused by the previously granted parking reductions, it conflicts with the Auto Demand Policy as increasing parking in the area will promote more passenger vehicles and parking throughout Coors Boulevard. The addition of more parking in the area will only lead to more traffic congestion and emissions from vehicles leading to the conflict with the Air Quality Policy (13.4.1).

Memo - Council Services - Amendment H - Coors Boulevard – Character Protection Overlay (CPO-2) - October 19, 2020, revised November 19, 2020

Council Purpose: The purpose of this amendment is to remove the parking reductions with proximity to Coors Boulevard (CPO-2).

With the adoption of the 2019 IDO Annual Update, a 20% reduction in parking in proximity to major Transit was applied. Coors Boulevard is a Major Transit Corridor. This revision would exempt Coors Boulevard CPO-2 from reduction in parking. Reduced parking has resulted in more dense development patterns that is contrary to the to the intentions of the Coors Boulevard CPO.

Planning Policy Analysis: This amendment furthers the following Comprehensive Plan policies:

Policy 4.1.3 Placemaking: Protect and enhance special places in the built environment that contribute to distinct identity and sense of place.

Goal 7.2 Pedestrian-Accessible Design: Increase walkability in all environments, promote pedestrian-oriented development in urban contexts, and increase pedestrian safety in auto-oriented contexts.

Policy 7.2.1 Walkability: Ensure convenient and comfortable pedestrian travel.

Policy 7.2.2 Walkable Places: Promote high-quality pedestrian-oriented neighborhoods and districts as the essential building blocks of a sustainable region.

Policy 7.2.2.b: Encourage building and site design that activates the pedestrian environment through building frontage, entrances, parking areas, and gathering spaces.

Goal 7.4 - Context-Sensitive Parking: Design parking facilities to match the development context and complement the surrounding built environment.

If approved, the amendment would establish regulations that remove the parking reductions along Coors Boulevard, a Major Transit Corridor. The amendment would further the Placemaking Policy (4.1.3), , Pedestrian Accessible Design Goal (7.2), Walkability Policy (7.2.1), Walkable Places Policy (7.2.2), and Context Sensitive Parking Goal (7.4). The increased development has not encouraged pedestrian activity in neighborhoods as had been anticipated and has resulted in denser development that is inappropriate to the area. Future development along Coors Blvd should be encouraged as long as it is in areas that do not conflict with the character of the area in order to meet the Goals and Policies of the IDO.

2020 Annual Updates – Small Areas (Non-Council)

Downtown Neighborhood Area (CPO-3)

3-4(D)(5)(a)(1) Revise Subsection b. to move the second sentence to be a new Subsection d. and add a new subsection c. as follows:

c. A garage door facing the street shall be set back a minimum of an additional 5 feet beyond the horizontal plane of the of the front façade, which includes a porch façade.

Explanation: Carries forward a regulation adopted in the Downtown Neighborhood Area Sector Development Plan. First submitted with the 2019 Annual Update, which was legislative, but was re-submitted with notice to property owners.

Adds a setback standard for garages that requires garages facing a street to be set back 5 feet behind the façade of the buildings and garages accessed from an alley to be set back 5 feet from the property line, which is consistent with the rescinded Downtown Neighborhood Area Sector Plan.

3-4(D)(5)(a)(1) Add a new subsection b. with text as follows:

"The minimum rear yard setback for attached or detached garages off an alley is 5 feet".

Explanation: Carries forward a regulation adopted in the Downtown Neighborhood Area Sector Development Plan. First submitted with the 2019 Annual Update, which was legislative, but was re-submitted with notice to property owners.

Adds a setback standard for garages that requires garages facing a street to be set back 5 feet behind the façade of the buildings and garages accessed from an alley to be set back 5 feet from the property line, which is consistent with the rescinded Downtown Neighborhood Area Sector Plan.

East Downtown (CPO-4)

3-4(E)(5)(a)(3) Add a new Subsection b with text as follows:

"Parking structures shall have uses from Table 4-2-1 on the ground floor along at least 50 percent of the street-facing façade of the parking structure.

a. Where ground floor uses aren't provided, opaque walls at least 3 feet high or vegetative screens at least 3 feet high at the time of planting shall be provided.

b. Walls provided pursuant to Subsection a. above may be part of the structure of the building or may be a separate wall constructed between the building and the sidewalk.

Explanation: Adds a consistency with changes made to parking requirements in the IDO HPO 5-5(F)(4)(a) as part of this 2020 Annual Update.

Provides an option for screening parking structures that do not include ground floor commercial uses and clarify if the standard applies to the required street wall or the parking structure wall. This adds consistency with changes made to parking requirements.

Los Duranes (CPO-6)

3-4(G)(3)(a)1.b Revise text to read:

"In new developments of 5 or more single-family and/or two-family detached dwellings, front setbacks shall be within 5 feet of the front setback of 1 existing single-family or two-family detached dwelling located on an abutting lot facing the same street as the subject property."

Explanation: Clarifies that both options in this standard should apply to single-family homes and duplexes. As written in the IDO, a new subdivision of 5 or more duplexes wouldn't have any applicable setback rules.

Expand the front setback standard to apply to both single-family and duplex, so that new duplex subdivisions also follow the same setback standard.

3-4(G)(4)(b) Revise to read:

"Building height, maximum: 35 feet for buildings located more than 450 feet from the right-of-way of Interstate Highway 40.:

Explanation: Clarifies where the distance is measured from.

Clarify that building heights in the MX-M zone are allowed to be 35 feet if they are within 450 feet of the I-40 right of way.

Nob Hill (CPO-8)

3-4(I)(5)(b)(4)b Revise as follows:

"Be built to function as or appear as a storefront or urban residential building frontage type."

Explanation: Clarifies what a residential façade is and links the regulation to defined terms.

Revise the building frontage types to allow a storefront or an urban residential frontage. This change clarifies what a residential façade is and links the regulation to defined terms. Currently residential developments also must use the storefront building frontage type, which is not appropriate to that use.

Rio Grande Boulevard (CPO-11)

3-4(L)(3) Replace text to read as follows:

"Setback from the right-of-way of Rio Grande Boulevard between Indian School Road and Montano Road, minimum: 25 feet in the R-A zone and 20 feet in all other zones."

Explanation: Revises the standard to be consistent with the Rio Grande Corridor Plan to apply only to the setback from Rio Grande (not all sides) to be consistent with the rescinded Rio Grand Corridor Plan and makes the language structure parallel with the Coors Boulevard CPO-2.

3-4(L)(5)(b)3 Replace "non-residential development" with "mixed-use or non-residential development."

Explanation: Revise the parking lot standard to apply to mixed use and non-residential development, which is consistent with the intent of the Rio Grande Corridor Plan.

Sawmill/Wells Park (CPO-12)

3-4(M)(5)(b)8 Revise as follows:

"Street-facing façades over 35 feet long on residential buildings must be designed to appear as a collection of smaller buildings.

Explanation: Revise the building design standard to apply to all building types in all zones, and to apply based on the proposed use (residential vs. mixed-use/non-residential uses).

3-4(M)(5)(c) Replace header and text to read as follows:

"Building Design for Mixed-use and Non-residential Development"

"In Mixed-use and Non-residential zone districts, the following building design regulations apply:"

Explanation: Revise the building design standard to apply to all building types in all zones, and to apply based on the proposed use (residential vs. mixed-use/non-residential uses).

3-4(M)(5)(c)5 Revise to read as follows:

"Street-facing façades on buildings in non-residential development on Mountain Road or adjacent to a Residential zone district must be designed to appear as a collection of smaller buildings by incorporating variations in massing, building height, or building material at least every 35 feet of facade length."

Explanation: Revise the building façade standards for Mountain Road and adjacent residential zones to require more articulation, which is consistent with the Wells Park Sector Plan.

Volcano Mesa (CPO-13)

3-4(N)(5)(c) Revise to read as follows:

"On streets designated as a local or collector, residential garages on corner lots shall be accessed from the side or rear lot line or alley."

Explanation: Clarifies the intent of the garage setback regulations from the Volcano Cliffs Sector Development Plan to require driveway access for corner lots to be from the side of the lot, not the front of the lot

3-4(N)(5)(c) (new) Create a new subsection 3-4(N)(5)(c) Landscaping with text as follows and renumber subsequent subsections accordingly:

"Within VPO-2 Sub-areas 1 and 2, a minimum of 25 percent of the net lot area of each multi-family, mixed-use, or non-residential development shall contain landscaping."

Explanation: Requires more landscaping in the existing VPO-2 sub-area and a new sub-area to reduce the scale and intensity of a multi-family, mixed-use, or non-residential development; reduce the amount of the property with an impermeable surface; and reduce run-off near the Petroglyph National Monument. See additional explanation in the Council Services Memo - Small Areas.

3-4(N)(5)(d)2 Revise to read:

"Three-car garages are only allowed on lots over 55 feet wide, and the third garage shall be set back a minimum of 2 feet from the façade of the other garages for any front-access garage."

Explanation: Revise the garage standards to apply to 3-car garages that are street-facing.

Northwest Mesa Escarpment VPO-2

3-6(E)(3)(c)2.b Revise as follows:

"Structures that are Two-story construction that is located and designed so that…"

Explanation: Deletes "Two-story," as this criterion should apply to any construction, not just two-story buildings. First submitted with the 2019 Annual Update, which was legislative, but was re-submitted with notice to property owners.

Downtown Center

4-3(B)(7)(d) Revise to read as follows:

"This use shall require a Conditional Use Approval pursuant to Subsection 14-16-6-6(A) if located on the ground floor of any building in the Downtown Center in any zone district other than MX-FB-ID or Volcano Heights Urban Center areas."

Explanation: Eliminates a conflict between this regulation, which requires conditional use approval for residential on the ground floor, and a small area zoned MX-FB-ID in the Downtown Center. This area previously had a housing focus in the Downtown 2025 Sector Development Plan.

Near Downtown Center

5-1(C)(2)(b)2 Revise to read:

"Within UC-MS-PT areas or within 1,320 feet (¼ mile) of DT-UC-MS-PT areas, new low-density residential development…"

Explanation: Extends the allowance for more flexible infill opportunities in more urban areas to also apply within 1/4 mile of the Downtown Center

5-5(B)(2)(a)1 Revise as follows:

"Downtown Area Downtown Center"

Delete map.

Explanation: Makes the off-street parking exemption apply only within the Downtown Center as established by the Comprehensive Plan. The existing map in the IDO is the boundary of the Downtown 2025 Sector Development Plan, which included some blocks from the Downtown Neighborhood Area SDP, Huning Castle Raynolds Addition SDP, and McClellan Park SDP. Those areas were not converted to MX-FB zones, and this edit would make off-street parking requirements apply per Table 5-5-1 in those areas.

East Downtown HPO-1

5-5(F)(4)(a)3 Revise to read as follows:

"Parking structures shall have uses from Table 4-2-1 on the ground floor along at least 50 percent of the street-facing façade of the parking structure.

a. Where ground floor uses aren't provided, opaque walls at least 3 feet high or vegetative screens at least 3 feet high at the time of planting shall be provided.

b. Walls provided pursuant to Subsection a. above may be part of the structure of the building or may be a separate wall constructed between the building and the sidewalk."

Explanation: Clarify the intent of standards relating to "side streets" to be consistent with the East Downtown Regulatory Plan. Provide an option for screening parking structures that do not include ground floor commercial use and clarify if the standard applies to the required street wall or the parking structure wall.

Volcano Mesa CPO-13

5-12(H)(2)(f) Add a new Subsection 5 to prohibit electronic signs in Volcano Mesa CPO-13.

Explanation: Carries forward an electronic sign prohibition from Volcano Cliffs Sector Plan that was inadvertently omitted and extends it to the entire Volcano Mesa CPO area.

Near Petroglyph National Monument

6-4(J)(5) (new) National Park Service and Open Space Division of the City Parks and Recreation Department for applications that include development within 660 feet of the Petroglyph National Monument.

Explanation: The Petroglyph National Monument of the National Park Service requested early notification of development that is near the park boundary, which could impact how access is managed. Early notification could improve implementation of the Sensitive Lands standards.

Northwest Mesa Escarpment VPO-2

6-6(N)(3)(c) Revise to read:

"…because of physical and/or engineering constraints (e.g. rock outcroppings, street grades, drainage requirements, ADA compliance, utility design, etc.).:

Explanation: Stormwater is not allowed to drain into the Petroglyph National Monument, so building sites need to drain towards the streets. Where streets are constructed and street elevations therefore already set, properties often need variances of the 15-foot building height because fill is needed to ensure that the site drains to the road.

V. PUBLIC OUTREACH

Meetings and Presentations

These proposed text amendments were first reviewed at public meetings in May and June 2019. Planning staff presented the proposed amendments, solicited input for new changes, and listened to participants' feedback about the proposed changes. These 12 meetings focused on each part of the IDO in sequence. There was a daytime and an evening meeting on each topic area that covered the same material – the most significant changes to content followed by discussion of the less substantive technical edits. Meeting participants were invited to review posters of the proposed amendments and indicate the topics they supported, opposed, or had questions about. (See attachment – IDO Annual Update Meeting Summaries.)

There were also four Open House meetings in May, June, and August 2019 – one on a Friday afternoon and three on Saturdays, where individuals could review proposed changes, ask questions, and offer suggestions on any aspect of the IDO.

During the adoption of the first IDO annual update, it was determined that amendments to small areas needed to be approved through a quasi-judicial process because the text amendments applied only in a small area and not citywide. One of the key differences between citywide legislative amendments and the small area quasi-judicial amendments is the requirement to individually notify all property owners within and abutting the small area of the proposed amendments. The other significant difference between the two processes is that in a quasi-judicial process, property owners or their representatives may cross examine at the hearing. So this portion of the 2019 IDO annual update was withdrawn and held for the 2020 IDO annual update.

In 2020, additional changes had been identified to amend small areas. Additionally, a new procedure for Amendment to IDO Text – Small Area was adopted in the 2019 update. This process required a pre-application Neighborhood Meeting.

Planning staff held two facilitated Neighborhood Meetings on November 23 at 12:30 and again at 5:30. There was approximately an hour presentation and then 30 minutes for discussion in several break out rooms. The City's Alternative Dispute Resolution (ADR) facilitated the pre-submittal Neighborhood Meetings, as required by IDO Subsection 14-16-6-4(C). There were two opportunities to hear the same presentation and ask questions. The full facilitated meeting notes are included with this application, along with the Proof of Pre-submittal Neighborhood Meeting content analysis, as required by 14-16-6-4(C). The meeting report was sent out to all attendees who provided an email in the meeting or are on the project email list for newsletters. It was also sent out to all of the Neighborhood Association representatives who received notice of the meetings.

One major change that was made as a result of these meetings is that one proposed amendment in the Volcano Mesa CPO, which had a broader impact than originally intended, was removed from the application. There were public comments in opposition to this change, and additional comments requesting that there be additional building height restrictions on the mesa top. It would be more appropriate to consider changes to building height and massing during the Community Planning Area Assessment process. There were several other comments that require more analysis; they will be considered during the City's review and decision process and discussed in the EPC staff report.

The Planning Department also held an open house meeting on December 17, 2020 to review and discuss any questions about the Citywide and Small Area Proposed Text Amendments. Staff recommended that any public comments be submitted in writing or provided verbally at the EPC hearing.

VI. NOTICE

The required notice for an Amendment to IDO Text is published, mailed, and posted on the web. (See Table 6-1-1: Summary of Development Review Procedures.) A neighborhood meeting is required for an Amendment to IDO Text – Small Area. The City published notice of the EPC hearing on December 21, 2020 the legal ad, in the ABQ Journal newspaper.

First class mailed notice was sent to the two representatives of each Neighborhood Association and Coalition registered with the Office of Neighborhood Coordination pursuant to the requirements of IDO Subsection 14-16-6-4(K)(2)(a) (see attachments).

The City posted notice of the EPC hearing on the Planning Department website at this address: http://www.cabq.gov/planning/boards-commissions/environmental-planning-commission/epc-agendas-reports-minutes.

The City also posted notice of the application and EPC hearing on the project website at this address: https://abc-zone.com/ido-annual-update-2020

Beginning in November 2020, the City posted all proposed changes to the IDO on the project webpage: https://abc-zone.com/ido-annual-update-small-area-text-amendments

Property Owner Mailed Notice
The IDO requires mailed notice of the application submittal and EPC hearing to each affected property owner and property owners within 100 feet of those areas, pursuant to IDO Subsection 14-16-6-4(K)(3)(d) Notice for Amendment to IDO Text – Small Area. A map of affected property owners was created by AGIS staff. This Small Area Text Amendment Map shows all of the affected properties that received notice of this amendment.

Notification letters of the application were sent out between November 25 and 30, 2020. They were mailed to 20,419 property owners within or adjacent to the small areas that are included in this application. The project memo asked if subject line of the mailed affidavit was not updated. This is correct, a description of a prior request is inadvertently shown in the subject line, but the number of letters mailed and the signed date of 11-25-2020 confirm that this was prepared this year for this 2020 Annual Update.

After completing the mass mailing to property owners, staff realized that an error was made in using the 2019 property owner data from Bernalillo County Assessor's Office. AGIS staff created a list of 2,808 properties that had a different owner mailing address in the 2020 Assessor's property owner data. Planning staff sent out the mailed notice to these addresses starting on December 31, 2020.

Neighborhood Association Notice
Table 6-1-1 indicates that written (hard-copy) and e-mail notification is required. For an application for Amendment to IDO Text – Small Area, notice was provided pursuant to 14-16-6-4(K)(3)(b)(3). This section states: "For all other applications: any Neighborhood Association whose boundaries include or are adjacent to the subject property or small area." This application is considered to be "all other applications" because it is not for applications (1) related to a citywide Policy Decision, or (2) related to a Wireless Telecommunications Facility. The list of Neighborhood Associations that are required to be notice was provided by the Office of Neighborhood Coordination (attached to application), and created by AGIS geographic analysis of the small area boundaries and neighborhood association and coalitions data.

Electronic mailed notice is required, and mailed notice to Neighborhood Association representatives is only required if there is no e-mail address on file for that representative. Letters were mailed to any Neighborhood Representative who does not have an e-mail address on file with the Office of Neighborhood Coordination (IDO 6-4(K)(3)(b)(4)).

Neighborhood Associations that include or abut any of the small areas included in this application received emailed notice on November 27, 2020. There were 10 neighborhood representatives who

either did not have an email address on file with the Office of Neighborhood Coordination or their mailbox was full and could not accept new messages. These individuals received mailed notice.

Property Owner and Neighborhood Association Notification Letter Content
The notification letters included links to the project website - https://abc-zone.com/ido-annual-update-small-area-text-amendments - where complete information on the application, the proposed amendments, the review and decision process, and scheduled meetings are posted. The letter also included information about a public Open House meeting held on December 17, 2020. There was an approximately hour-long presentation that was focused on citywide changes, followed by an hour-long question and answer session broken out into multiple break out rooms, including two designated for small area discussions.

Planning staff have not received a request for a post-application facilitated meeting.

Additional Notice Provided for the EPC Hearing

Email notice about the application and the EPC hearing was sent to approximately 10,000 subscribers to the ABC-Z project update email list on December 9, 2020. (See attachment – Email Notice.)

VII. AGENCY & NEIGHBORHOOD COMMENTS

Reviewing Agencies

No agency comments were received regarding the Small Area text amendments.

Neighborhood/Public

Mailed and email notice was sent to every neighborhood organization registered with the Office of Neighborhood Coordination. Mailed notice was sent to all property owners within and abutting the small areas with proposed text amendments. (See application materials.) As of this writing, Staff has received 10 comments. They are summarized below, grouped by the small area they address.

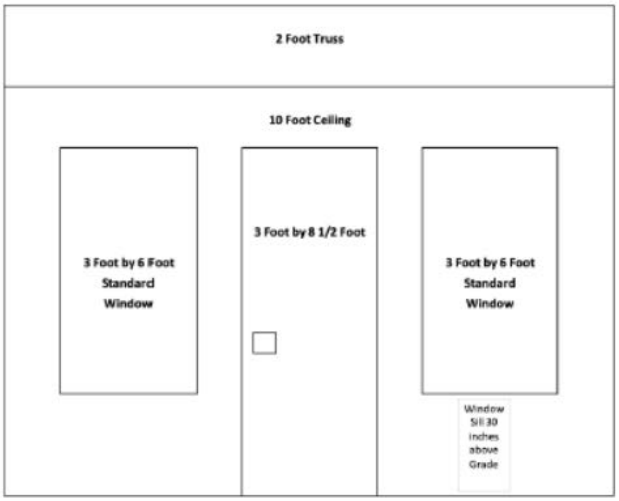

Summary of Public Comments

Downtown Neighborhood CPO-3
There was 1 comment in opposition to this amendment. The commenter stated "they are not in favor of any changes that impact their zoning."

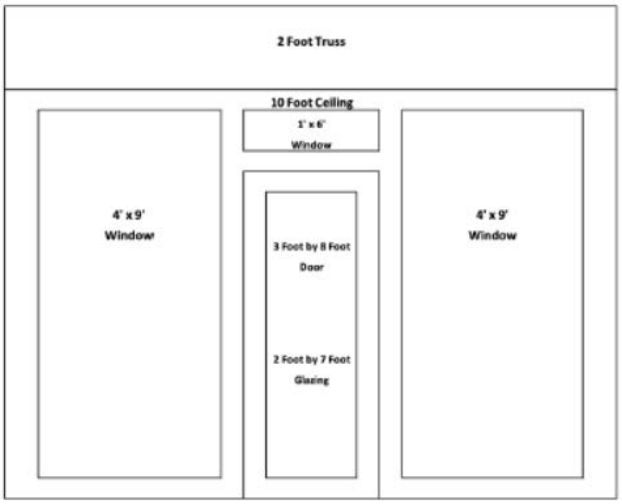

Analysis: The property owner has R-ML zoning and the proposed amendments only impact the R-1 zone, so the proposed changes will not impact their property. The EPC could consider recommending no changes to the Downtown Neighborhood CPO-3 to respond to this comment. However, staff do not recommend any changes to the proposed amendments, which improve consistency with the prior Sector Plan.

Nob Hill CPO-8

There was 1 public comment that pertains to building articulation in the Nob Hill/Highland CPO-8 and makes recommendations for building articulation changes that would apply citywide, which are addressed in the companion request. This commenter supports the change to allow urban residential building frontage types, but requests that the required transparent windows and doors also be decreased for this building frontage type. The comments are accompanied with illustrations that show that a residential building frontage is not compatible with the requirement for 60% of the ground floor to be transparent windows or doors.

Residential Glazing at 20% Requirement
13.5' Width x 12' Height = 162 Sqft Front
32 Sqft Required Glazing
18 sqft + 18 sqft = 36 Sqft Glazing as Shown

Residential Glazing at 60% Requirement
13.5' Width x 12' Height = 162 Sqft Front
97.2 Sqft Required Glazing
36 Sqft + 36 Sqft + 6 Sqft + 14 Sqft = 92 Sqft Glazing as Shown

The request is for the proposed amendment of 20% glazing for multi-family residential uses in areas outside of UC-MS-PT areas to be applied to this use citywide, regardless of any other CPO standard that would otherwise require a higher amount of glazing. The commenter lists security and privacy concerns, along with the practicalities of developing residential uses in urban locations and at the street edge (as shown in the diagrams). Further, this requirement has not resulted in forcing more mixed-use developments to occur, that would take up the ground floor with non-residential uses. This is not often feasible with the project ownership and development process, and also reduces the amount of affordable housing that is possible in these center and corridor locations where density is desired.

Analysis: The EPC could consider recommending changes to the Nob Hill/Highland CPO-8 to respond to this comment. There is policy backing to both support this request and to not make changes to address these concerns. The argument against these changes is that the Nob Hill/Highland Sector Plan has long required the ground-floor to have 60% glazing. The argument in favor of this request is that the city may want to make changes to implement the centers and corridors policies and policies guiding development to locations served by transit, to respond to current market realities, and to create more safe and livable urban dwelling units.

North I-25 CPO-10
There was 1 public comment recommending additional protections from the North I-25 Sector Plan to be adopted as amendments. The comments pertain to making the building heights track more closely with the Sector Plan, and a broader review of other protections that may be beneficial for the area, including adopting new View Protection Overlay zones for Paseo and Alameda Boulevards.

Analysis: Because public notice was not completed to amend this small area, the EPC and City Council cannot consider any of these requested changes. Planning staff have added these concerns to the list of items to be considered in the 2021 IDO annual update cycle.

Rio Grande Boulevard CPO-11
There was 1 comment expressing concern about the required 25-foot setback from Rio Grande Blvd. that is required in CPO-11. The commenter indicated that this space is not useful and will be used for outdoor parking.

Analysis: The EPC could consider recommending no changes to the Rio Grande Blvd. CPO-11 to respond to this comment. However, staff do not recommend any changes to the proposed amendments, as reducing the setback from Rio Grande Blvd. would conflict with the intent of the prior Corridor Plan and the existing CPO-11 regulations.

Volcano Mesa CPO-13
There were 3 comments expressing concern about the proposed amendments to the Volcano Mesa CPO-13. One commenter opposed any changes to CPO-13 that would obstruct views and "changing to planning for the neighborhood to facilitate developer interests at the exclusion of existing property owners. This commenter also threatened class action litigation on behalf of the neighborhood if the city approves these changes without prior property owner consent. Another commenter provided detailed analysis of the prior entitlements in the Volcano Cliffs Sector Plan. This analysis demonstrates that only one zone in the Volcano Cliffs Sector Plan allows more than 50% of a building to have a second story, if it is a cluster development. The commenter stated that extending this allowance to all of the Volcano Mesa would be in direct conflict with prior zoning, the existing IDO overlay zoning, and the long-standing intent of development in the area.

Analysis: These comments are centered on the proposed amendment to allow cluster development to have up to 75% of the building footprint to be built with a second story. This proposed change was included in the notification letter, but it was subsequently removed from the application based on more analysis of prior entitlements. This allowance only applied to the portion of Volcano Mesa that is now zoned R-A, which is a minority of land within the area. The three changes to the Volcano Mesa CPO-13 pertain to driveway access, garage orientation, and required landscaping for multi-family, mixed-use, and non-residential development. Because none of these would impact views, staff believe that there are no changes that conflict with the sentiment expressed in these comments. The EPC could consider recommending no changes to the Volcano Mesa CPO-13 to respond to these comments. However, staff do not recommend any changes to the proposed amendments, which improve consistency with the prior Sector Plan.

Another commenter expressed concern about extending the electronic sign prohibition from Volcano Cliffs (largely residential) to apply to Volcano Heights (largely commercial) is appropriate.

Analysis: Staff agree that the Volcano Heights Sector Plan did not have an electronic sign prohibition, and that electronic signs might be appropriate in the single Urban Center on the Westside. Staff propose a recommended condition of approval to exclude the Volcano Heights Urban Center from the text amendment related to electronic signs.

a. Recommended Condition: On page 345, Subsection 5 -12(H)(2)
5 that reads as follows: "Volcano Mesa – CPO-13, except electronic signs are allowed within the Urban Center."

Coors VPO-1
There were 2 public comments in opposition to this amendment. However, it is unclear what aspects of the proposed amendment are objected to. Both comments stated:

> The final grades are set in this existing subdivisions and cannot be lowered. Our streets, and underground storm drains, water and wastewater lines, and dry utilities are in this 1990's approved city subdivision. Most of lots in this subdivision are already built on and their elevations and view plane approvals cannot be altered.

Analysis: The majority of the changes are intended to clarify how the regulations are applied and analyzed, without changing the rules themselves. The main substantive change is to bring back the ridegeline test from the Coors Corridor Plan (3-6(D)(5)(a) – new). For properties that are governed by an existing, approved site plan, the owner can build according to that plan as long it remains valid. This includes any approved building heights, signs, walls, and other site features as identified in the approved plans. For any aspect of the site that is not specifically regulated by the approved plans, the IDO regulations that are currently adopted would apply. The proposed amendments should not impact either property owner with objections. The EPC could consider recommending no changes to the Coors Blvd. VPO-1 to respond to this comment. However, staff do not recommend any changes to the proposed amendments.

Northwest Mesa VPO-2
There was 1 public comment in opposition to proposed changes to the Northwest Mesa VPO-2 that would obstruct views.

Analysis: The two changes to the Northwest Mesa VPO-2 intend to lower building heights for multi-family, mixed-use, and non-residential zones. None of the proposed changes would result in obstructed views in the R-1 zone where the property owner resides. The EPC could consider recommending no changes to the Northwest Mesa VPO-2 to respond to this comment. However, staff do not recommend any changes to the proposed amendments.

General CPO Process
There was 1 public comment questioning how amendments to the IDO are moved forward, and what measures are used to test if an amendment is going to protect a community.

Analysis: The Planning Department aims to identify issues and concerns throughout the year through several forums. The first is through staff application of the existing rules, and their knowledge of prior adopted rules that served to protect the neighborhood or community. If there are gaps in how the regulation could be interpreted or in carrying forward the original intent or language of a Sector Plan, it would be recommended for an annual update amendment to improve the implementation of the regulation.

The second is through the public meetings in advance of submitting the annual update. Unfortunately, the first annual update took from April 2019 to November 2020 before the amendments became effective (it was a 20-month process). This compressed the time staff had to do engagement for the second annual update. The second annual update included many of the small area changes that were vetted in the April 2019 public meetings, along with some new recommendations from Planning Staff, City Council, and members of the public.

The third method of identifying potential amendments is through the Community Planning Area (CPA) process, which will begin in February 2020. Long Range Planning staff will meet with area residents and stakeholders to identify if any changes are needed to the area's policy and regulatory land use system. To respond to the second question, the staff report is the place where staff performs a policy analysis to make recommendations and test if the amendment is consistent with the City's long-range vision and goals and protection of the community. The public review process allows comment, discussion, and vetting of these amendments and is an opportunity to remove, amend, or add other proposed changes. This is an informational comment and no changes to the proposed amendments are requested.

RECOMMENDED FINDINGS – RZ-2020-00048, January 21, 2021 – Text Amendments to the IDO, Small Areas

1. The request is for various Small Area amendments to the text of the Integrated Development Ordinance (IDO) for the Annual Update required by IDO Subsection 14-16-6-3(E). The proposed Small-area amendments, when combined with the proposed City-wide amendments, are collectively known as the 2020 IDO Annual Update.

2. These text amendments to specific Small Areas in the City are accompanied by proposed City-wide text amendments, which were submitted separately pursuant to Subsection 14-16-6-7(D) and are the subject of another Staff report (RZ-2020-00046).

3. The Small Area text amendments include proposed changes requested by neighbors, developers, staff, and Council Services that affect the following, fourteen Small Areas: Downtown Neighborhood Area- CPO 3, East Downtown-CPO 4, Los Duranes-CPO 6Nob Hill/ Highland-CPO 8, Rio Grande Blvd-CPO 11, Sawmill/Wells Park- CPO 12, Volcano Mesa- CPO 13, East Downtown-HPO 1, Coors Blvd-VPO 1, Northwest Mesa-VPO 2, Downtown Area, Downtown Center, Uptown Area and the Mixed-Use Form Based (MX-FB) Zone District.

4. The IDO applies City-wide to land within the City of Albuquerque municipal boundaries. The IDO does not apply to properties controlled by another jurisdiction, such as the State of New Mexico, Federal lands, and lands in unincorporated Bernalillo County or other municipalities.

5. The EPC's task is to make a recommendation to the City Council regarding the proposed amendments to IDO text. As the City's Planning and Zoning Authority, the City Council will make the final decision. The EPC is a recommending body to the Council and has important review authority. This is a quasi-judicial matter.

6. The Albuquerque/Bernalillo County Comprehensive Plan and the City of Albuquerque Integrated Development Ordinance (IDO) are incorporated herein by reference and made part of the record for all purposes.

7. Since April 2010, Staff has collected approximately 100 minor adjustments to language intended to clarify the IDO's original intent and improve implementation of adopted regulations. The proposed amendments respond to challenges in implementing regulations and neighborhood protections and are intended to promote economic growth and investment in the City. Changes in market demands for housing and business, combined with the imperative of protecting existing neighborhoods, sensitive lands, and Major Public Open Space, are also addressed.

8. The request mostly meets the application and procedural requirements in Subsection 14-16-6-7(E) of the IDO, as follows:

A. The proposed small area amendment is consistent with the health, safety, and general welfare of the city as shown by furthering (and not being in conflict with) a preponderance of applicable Goals and Policies in the ABC Comp Plan, as amended, and other applicable plans adopted by the City.

These proposed amendments to the IDO text are consistent with Comprehensive Plan policies that direct the City to adopt and maintain an effective regulatory system. Changes proposed are mostly consistent with adopted policies to protect and enhance the quality of the City's unique views, open spaces, neighborhoods, and commercial districts. Overall, the proposed amendments generally protect the public health, safety, and welfare.

B. If the proposed small area amendment is located partially or completely in an Area of Consistency (as shown in the ABC Comp Plan, as amended), the applicant must demonstrate that the proposed amendment would clearly reinforce or strengthen the established character of the surrounding Area of Consistency and would not allow development that is significantly different from that character. The applicant must also demonstrate that the existing zoning regulations are inappropriate because they meet any of the following criteria:

1. There has been a significant change in neighborhood or community conditions affecting the small area.
2. The proposed zoning regulations are more advantageous to the community as articulated by the ABC Comp Plan, as amended (including implementation of patterns of land use, development density and intensity, and connectivity), and other applicable adopted City plan(s).

The proposed IDO text amendments-Small Areas consist of changes that would result in development that is mostly consistent with Comprehensive Plan Goals and Policies.

The proposed text amendments are more advantageous to the Community overall and would implement desired development patterns and densities. The proposed changes to specific areas (non-residential zone districts and mixed-use zones and subzones) would apply equally in all areas with the same designation.

C. If the proposed small area amendment is located wholly in an Area of Change (as shown in the ABC Comp Plan, as amended), the applicant must demonstrate that the existing zoning regulations are inappropriate because they meet at least one of the following criteria:

1. There has been a significant change in neighborhood or community conditions affecting the small area that justifies this request.
2. The proposed zoning regulations are more advantageous to the community as articulated by the ABC Comp Plan, as amended (including implementation of patterns of land use, development density and intensity, and connectivity), and other applicable adopted City plan(s).

Criterion 14-16-6-7(E)(3)(c) does not apply because the proposed amendments are not located wholly in an Area of Change.

D. If the proposed amendment changes allowable uses, the proposed amendment does not allow permissive uses that would be harmful to adjacent property, the neighborhood, or the community, unless the Use-specific Standards in Section 16-16-4-3 associated with that use will adequately mitigate those harmful impacts.

The proposed amendments include a couple of changes that would result in changes affecting uses. One change would extend use restrictions for Major Public Open Space to the existing Northwest Mesa Escarpment sub-area and a new sub-area to limit intensity of development.

The other change would add drive-through or drive-up facility to the Uptown Urban Center, where the use is currently prohibited for a variety of reasons. Although associated use specific standards are intended to mitigate the impacts of drive- through, the larger issues is the extent to which allowing drive-throughs in the designated Urban Center would harm the integrity of Uptown as a more dense, walkable, urban place. The request partially meets Criterion 14-16-6-7(E)(d).

E. The applicant's justification is not based completely or predominantly on the cost of land or economic considerations.

The small area amendments are not based completely or predominantly on the cost of land or economic considerations, though economic considerations are a primary rationale for the proposed change to allow the drive-through facility use in the Uptown Urban Center. The request partially meets Criterion 14-16-6-7(E)(3)(e).

9. These proposed Integrated Development Ordinance (IDO) Text Amendments– Small Areas would generally protect public health, safety, and welfare and promote economic growth and investment in the City as a whole as required pursuant to 14-16-6-7(E)(3. However, the request partially meets Criterion D and Criterion E, as explained in Finding 7 above. Conditions for recommendation of approval would help the request better meet Criteria D and E.

10. The request generally furthers the following relevant City Charter articles:

a. Article I, Incorporation and Powers. Amending the IDO via text amendments is consistent with the purpose of the City Charter to provide for maximum local self-government. The revised regulatory language and processes in the IDO will generally help implement the Comprehensive Plan and help guide future legislation.

b. Article IX, Environmental Protection. The proposed Small Area text amendments to the IDO will help ensure that land is developed and used properly and that environmental features and natural resources will be better protected and preserved. The IDO is an instrument to help promote and maintain an aesthetic and humane urban environment for Albuquerque's citizens, and thereby promote improved quality of life. Commissions, Boards, and Committees will have updated and clarified regulations to help facilitate effective administration of City policy in this area.

c. Article XVII, Planning. Amending the IDO through the annual update process is an instance of the Council exercising its role as the City's ultimate planning and zoning authority. The IDO will help implement the Comprehensive Plan and ensure that development in the City is

consistent with the intent of any other plans and ordinances that the Council adopts (Section I). Amending the IDO through the annual update process will help the Administration to implement the Comprehensive Plan vision for future growth and development, and will help with the enforcement and administration of land use plans (Section II).

11. The request generally furthers the following, applicable Goal and policies in Chapter 4: Community Identity:

    A. Goal 4.1 – Character: Enhance, protect, and preserve distinct communities.

    The IDO is intended to make zoning and land use entitlements in our community more transparent, accurate, and contextually compatible in order to enhance, protect, and preserve distinct communities, neighborhoods, and traditional communities. The IDO provides protections for residential neighborhoods through dimensional standards specific to residential zone districts in Part 2, tailored regulations in Overlay zones in Part 3, use-specific standards that require distance separations between non-residential and residential uses and zone districts in Part 4, and development standards that apply to adjacent to residential uses or zone district, especially edge buffers and neighborhood edges in Part 5.

    B. Policy 4.1.2 - Identity and Design: Protect the identity and cohesiveness of neighborhoods by ensuring the appropriate scale and location of development, mix of uses, and character of building design.

    The request protects the identity of neighborhoods and commercial districts by clarifying standards and regulations that are unclear. This will better ensure appropriate scale, design, and location of development. Revisions to the structure and implementation of the Coors VPO-1 and Northwest Messa Escarpment VPO-2 regulations will help ensure the appropriate scale and location of development that protects views. The proposed new regulations, including allowing rooftop signs in and near Downtown and removing the transit parking reduction along Coors Boulevard, are intended to ensure appropriate scale and character of development.

    C. Policy 4.1.4 - Neighborhoods: Enhance, protect, and preserve neighborhoods and traditional communities as key to our long-term health and vitality.

    The request enhances, protects, and preserves neighborhoods and traditional communities by clarifying standards and regulations that are unclear. This will improve the implementation of the original goals and intent of the regulations as adopted through Sector Development Plans and the IDO. The proposed new regulations, including expanding the height restriction area and adding new use restrictions in the Northwest Mesa VPO, are intended to protect and enhance the existing character of those areas.

12. The request generally furthers the following, applicable Goa and policies in Chapter 5- Land Use:

    A. Goal 5.1 – Centers & Corridors: Grow as a community of strong Centers connected by a multi-modal network of Corridors.

The IDO is the regulatory tool to realize and implement the "Centers and Corridors" community vision set out in the Comprehensive Plan in a coordinated, citywide context so that existing communities can benefit from appropriate new development, while being protected from potential adverse effects. The IDO regulations operationalize the City's Development Areas – Areas of Change and Consistency – that work together to direct growth to appropriate locations and ensure protections for low-density residential neighborhoods, parks, and Major Public Open Space. The IDO implements the Comprehensive Plan through regulations tailored to the City's designated Centers and Corridors..

B. Policy 5.1.2 - Development Areas: Direct more intense growth to Centers and Corridors and use Development Areas to establish and maintain appropriate density and scale of development within areas that should be more stable.

The request generally controls and restricts development in areas near Major Public Open Space and along view corridors, and allows more development intensity in designated centers.

C. Goal 5.3 - Efficient Development Patterns: Promote development patterns that maximize the utility of existing infrastructure and public facilities and the efficient use of land to support the public good.

The intent of many of the proposed changes is to clarify how to read and apply provisions in the IDO, which will result in a more predictable development outcomes and consistent decision-making. The request promotes efficient development patterns by clarifying standards and regulations that are unclear. The request generally directs more intense growth to designated Centers and Corridors and limits development near sensitive lands.

D. Policy 5.3.1 – Infill Development: Support additional growth in areas with existing infrastructure and public facilities.

The proposed text amendments, as a whole, would generally help promote development patterns that maximize the utility of existing infrastructure and public facilities and the efficient use of land. The request furthers Goal 5.3 – Efficient Development Patterns and Policy 5.3.1-Infill Development.

E. Goal 5.6 – City Development Areas: Encourage and direct growth to Areas of Change where it is expected and desired and ensure that development in and near Areas of Consistency reinforces the character and intensity of the surrounding area.

The intent of many of the proposed changes is to clarify how to read and apply provisions in the IDO, which will help reinforce the character and intensity of development Areas of Consistency. The request generally directs more intense growth to designated Centers and Corridors, which are designated as Areas of Change, and limits development near sensitive lands and existing residential neighborhoods and historic districts, which are designated as Areas of Consistency.

F. Policy 5.6.2 – Areas of Change: Direct growth and more intense development to Centers, Corridors, industrial and business parks, and Metropolitan Redevelopment Areas where change is encouraged.

G. Policy 5.6.3- Areas of Consistency: Protect and enhance the character of existing single-family neighborhoods, areas outside of Centers and Corridors, parks, and Major Public Open Space.

b. Ensure the development reinforces the scale, intensity and setbacks of the immediately surrounding context.

The proposed text amendments would increase current parking requirements in Areas of Change along Coors Boulevard VPO-1 in order to protect views and character and the determination that parking requirements are not appropriate in the Downtown Area.

H. Goal 5.7 Implementation Process: Employ procedures and processes to effectively and equitably implement the Comprehensive Plan.

The intent of many of the proposed changes is to clarify how to read and apply provisions in the IDO, which will result in a more predictable development outcomes and consistent decision-making.

I. Policy 5.7.2 - Regulatory Alignment: Update regulatory frameworks to support desired growth, high quality development, economic development, housing, a variety of transportation modes, and quality of life priorities.

The IDO's procedures and processes in Part 6 have been developed to effectively and equitably implement the Comprehensive Plan. In order for the City's land use, zoning, and development regulations to stay up-to-date, the IDO established an annual update requirement into the regulatory framework. Changes proposed are intended to continually improve how the IDO implements the comp Plan by aligning regulations with Comp Plan goals and policies.

J. Policy 5.7.5 – Public Engagement: Provide regular opportunities for residents and stakeholders to better understand and engage in the planning and development process.

The IDO Annual Update process was established to provide a regular cycle for discussion among residents, City staff, and decision makers to consider any needed changes that were identified over the course of the year. Changes proposed for Part 6 of the IDO are intended to improve public agency engagement opportunities in the planning and development process.

K. Policy 5.7.6 – Development Services: Provide high-quality customer service with transparent approval and permitting processes.

The intent of many of the proposed changes is to clarify how to read and apply provisions in the IDO, which will result in a more predictable development outcomes and consistent decision-making.

13. The request generally furthers the following Goals and policies in Chapter 7- Urban Design:

A. Goal 7.1 Streetscapes & Development Form: Design streetscapes and development form to create a range of environments and experiences for residents and visitors.

IDO implements this Comprehensive Plan goal through zoning standards that are appropriate in each zone district (Part 14-16-2); in specific small areas (Part 14-16-3); and in different contexts, such as next to residential neighborhoods, next to major Public Open Space, in Centers/Corridors, or in Areas of Change/Consistency in use-specific standards (Part 14-16-4) and development standards in Part 5. Changes proposed for rooftop signs in and near Downtown, screening of parking garages at the street edge in East Downtown area, and clarifications to the view protection regulations along Coors Boulevard are intended to establish high-quality standards in appropriate context.

B. Goal 7.3.- Sense of Place: Reinforce sense of place through context-sensitive design of development and streetscapes.

Policy 7.3.1 – Natural and Cultural Features: Preserve, enhance, and leverage natural features and C. views of cultural landscapes.

The proposed text amendments include changes that would reinforce sense of place through context-sensitive design and would help to preserve and protect natural features and views of cultural landscapes.

D. Policy 7.3.2 – Community Character: Encourage design strategies that recognize and embrace the character differences that give communities their distinct identities and make them safe and attractive places.

a. Design development to reflect the character of the surrounding area and protect and enhance views.

The intent of the amendments to the 14 small areas is to improve implementation of the design standards that apply in specific small areas to protect and maintain the unique character and differences in those areas that contribute to their distinct identities.

E. Goal 7.4 – Context-Sensitive Parking: Design parking facilities to match the development context and complement the surrounding built environment.

Changes proposed to the East Downtown CPO and HPO address parking structure walls and requires it to be screened or to have a wall that defines the street edge. This rule will result in new development that better complements the surrounding built environment.

F. Policy 7.4.2 – Parking Requirements: Establish off-street parking requirements based on development context.

The proposed text amendments include changes that would remove the parking reductions associated with Coors Boulevard in order to maintain the lower intensity of building development and protect views. The proposed text amendments would also make off-street parking exemptions only apply within the Comprehensive Plan designated Downtown Center. Both changes will require more parking that necessary in order to protect views and provide transitions to residential neighborhoods.

G. Policy 7.5.1 - Landscape Design: Encourage landscape treatments that are consistent with the high desert climate to enhance our sense of place.

The proposed text amendment would increase required site landscaping for multi-family, mixed-use, and non-residential development in the Volcano Mesa Area, but in a manner consistent with the high-desert climate. The scale and intensity of development would be reduced on the mesa top, which could preserve more of the high-desert landscape and enhance a sense of place.

14. The request furthers and partially furthers the following, applicable policies from Chapter 8- Economic Development:

A. Policy 8.1.1 – Diverse Places: Foster a range of interesting places and contexts with different development intensities, densities, uses, and building scale to encourage development opportunities.

The IDO implements the Comprehensive Plan by establishing zoning standards tailored to different zone districts and different contexts. Proposed changes in Part 14-16-4 and Part 14-16-5 generally furthers this Comprehensive Plan goal and policy.

B. Policy 8.1.2 – Resilient Economy: Encourage economic development efforts that improve quality of life for new and existing residents and foster a robust, resilient, and diverse economy.

The proposed text amendment would allow drive-throughs for restaurants within 1,320 feet of I-40 in the Uptown Urban Center to respond to COVID-19 and encourage economic development. The proposed quarter mile would capture about half of Uptown and extend further than close to I-40. The use-specific standards would continue to apply to specific sites, but cannot address cumulative effects of multiple drive-throughs on the intent that Uptown be a more urban and walkable area than other parts of town. The request partially furthers Policy 8.1.2-Resilient Economy.

15. The request furthers the following, applicable policy from Chapter 9- Housing:

Policy 9.2.1 – Compatibility: Encourage housing development that enhances neighborhood character, maintains compatibility with surrounding land uses, and responds to its' development context – i.e. urban, suburban, or rural – with appropriate densities, site design, and relationship to the street.

The proposed text amendment includes a change to the building setbacks in Los Duranes and adds duplexes to the dwelling types that require context-sensitive setbacks. The proposed text amendment to the Nob Hill CPO require a ground floor false storefront. Both proposed text amendments will enhance the character of the neighborhood while maintaining compatibility with surrounding development and relationships to the street.

16. The request furthers the following, applicable Goal and policy from Chapter 11- Heritage Conservation:

    A. Goal 11.3 – Cultural Landscapes: Protect, reuse, and/or enhance significant cultural landscapes as important contributors to our heritage and rich and complex identities.

    The proposed changes to the View Protection Overlays and Historic Protection Overlay zone are intended to enhance implementation of the intent of these overlays. Many of the changes proposed clarify how to read and apply provisions in the IDO, which will result in better protection and enhancement of our significant cultural landscapes.

    B. Policy 11.3.1 – Natural and Cultural Features: Preserve and enhance the natural and cultural characteristics and features that contribute to the distinct identity of communities, neighborhoods, and cultural landscapes.

    a. Minimize negative impacts and maximize enhancements and design that complement the natural environment, particularly features unique to Albuquerque, in development and redevelopment.

    The proposed text amendments would add protections that would facilitate preservation and enhancement of natural characteristics and features, which contribute to distinct identity of communities and cultural landscapes. The protections would help minimize negative impacts to the views of small areas near Major Public Open Sp**ace** and would add regulatory protections for these natural and cultural landscapes.

17. Council Amendment A furthers the following applicable Comprehensive Plan policies:

    A. Goal 5.3 - Efficient Development Patterns: Promote development patterns that maximize the utility of existing infrastructure and public facilities and the efficient use of land to support the public good.

    B. Policy 8.1.2. Resilient Economy: Encourage economic development efforts that improve quality of life for new and existing residents and foster a robust, resilient, and diverse economy.

    The amendment would allow drive-through or drive-ups for restaurants located in the Uptown Area when located 1,320 feet of the public right-of-way of I-40. Currently, drive through and drive up facilities are prohibited for restaurants in order to create a walkable, more dense, and urban environment in the Uptown Area. Drive-through and drive-ups are allowed for banks and pharmacies under the IDO in Uptown. The intent of the previous regulation was to minimize conflicts between vehicles and pedestrians and to support Uptown as an Urban Center- one of the two designated in the entire City. However, the areas in close proximity to I-40 are not generally walkable.

18. Council Amendment A conflicts with the following applicable Comprehensive Plan policies:

Policy 4.1.2 - Identity and Design: Protect the identity and cohesiveness of neighborhoods by ensuring the appropriate scale and location of development, mix of uses, and character of building design.

Policy 5.1.4.b. Urban Centers: Encourage pedestrian-oriented design, transit-oriented development, and infrastructure improvements that make Urban Centers more walkable over time.

Policy 5.1.9 Main Streets: Promote Main Streets that are lively, highly walkable streets lined with neighborhood-oriented businesses.

Policy 6.1.3 Auto Demand: Reduce the need for automobile travel by increasing mixed-use development, infill development within Centers, and travel demand management (TDM) programs.

Goal 7.2 Pedestrian-Accessible Design: Increase walkability in all environments, promote pedestrian-oriented development in urban contexts, and increase pedestrian safety in auto-oriented contexts.

Policy 7.2.1 Walkability: Ensure convenient and comfortable pedestrian travel.

Policy 7.2.2 Walkable Places: Promote high-quality pedestrian-oriented neighborhoods and districts as the essential building blocks of a sustainable region.

Policy 7.2.2.b: Encourage building and site design that activates the pedestrian environment through building frontage, entrances, parking areas, and gathering spaces.

Policy 7.3.5 Development Quality: Encourage innovative and high-quality design in all development.

Adding drive-through uses for 1,320 feet would impact almost half of the Uptown Urban Center. There are only two urban centers in the City- and the proposed amendment would adversely impact the ability of the Uptown Center to develop a more urban, dense, and pedestrian supportive character. By their nature, drive-through and drive-up facilities do not promote pedestrian activity, though they can implement some minor improvements on the surface to address pedestrian safety issues, they are fundamentally an auto-oriented use.

19. Council Amendment B furthers the following applicable Comprehensive Plan goals and policies:

    a. Policy 4.1.2 - Identity and Design: Protect the identity and cohesiveness of neighborhoods by ensuring the appropriate scale and location of development, mix of uses, and character of building design.

    b. Policy 5.1.1 - Desired Growth: Capture regional growth in Centers and Corridors to help shape the built environment into a sustainable development pattern.

       Goal 5.3 - Efficient Development Patterns: Promote development patterns that maximize the utility of existing infrastructure and public facilities and the efficient use of land to support the public good.

       Policy 5.6.2 – Areas of Change: Direct growth and more intense development to Centers, Corridors, industrial and business parks, and Metropolitan Redevelopment Areas where change is encouraged.

c. Goal 7.1 Streetscapes & Development Form: Design streetscapes and development form to create a range of environments and experiences for residents and visitors.

Policy 7.3.5 Development Quality: Encourage innovative and high-quality design in all development.

Policy 7.3.2 – Community Character: Encourage design strategies that recognize and embrace the character differences that give communities their distinct identities and make them safe and attractive places.

The amendment would further the Identity and Design Policy (4.1.2), Desired Growth Policy (5.1.1), Efficient Development Patterns Policy (5.3), Areas of Change Policy (5.6.2), Streetscapes & Development Form Goal (7.1), Development Quality Policy (7.3.5), and Community Character Policy (7.3.2). This amendment reduces the rear setback minimum to 0 feet where the rear lot line abuts a street or alley in the Mixed Use-Form Based Zone District sub-zones (MX-FB-ID, MX-FB-FX, and MX-FB-AC). The MX-FB zone district includes subzones that allow a wide range of residential, commercial, and institutional uses subject to form-based zoning controls to ensure that the buildings they occupy, establish or reinforce a well-defined urban character. Context sensitive development is encouraged on sites in developed areas along streets designated as collectors or arterials. The MX-FB-ID subzone provides opportunities to introduce neighborhood-scale uses to serve nearby residents. MX-FB-FX supports pedestrian-scale mixed-use development in Areas of Change while the MX-FB-AC subzone provides community-scale non-residential and high-density residential development in areas designated as Activity Centers.

20. Council Amendment C & D furthers the following Comprehensive Plan policies:

A. Policy 4.1.2 - Identity and Design: Protect the identity and cohesiveness of neighborhoods by ensuring the appropriate scale and location of development, mix of uses, and character of building design.

B. Policy 5.1.1 - Desired Growth: Capture regional growth in Centers and Corridors to help shape the built environment into a sustainable development pattern.

Policy 5.7.2 Regulatory Alignment: Update regulatory frameworks to support desired growth, high quality development, economic development, housing, a variety of transportation modes, and quality of life priorities.

The amendment would further the Identity and Design Policy (4.1.2), Desired Growth Policy (5.1.1), and Regulatory Alignment Policy (5.7.2). The allowance of rooftop signs to the Near Downtown Area is in line with allowances to similar areas in the Downtown Core and appropriate given the character of the area. During the 1910's and 1920"s advertising became increasingly focused on automobile traffic, specifically along Central Avenue. Signs in the past have played an important role in the activity of the areas they are located in. The request would further the Identity and Design Policy (4.1.2) by making the use of signs compatible to the area but the while protected by the Development Standards in the IDO related to Small Areas. The proposed amendment Development Standards are similar to the East Downtown CPO-4 and HPO-1 Small Areas.

21. Council Amendment E furthers the following applicable Comprehensive Plan goal and policy:

    A. Goal 7.3 - Sense of Place: Reinforce sense of place through context-sensitive design of development and streetscapes.

    Policy 7.3.1 - Natural and Cultural Features: Preserve, enhance, and leverage natural features and views of cultural landscapes.

    B. Policy 11.3.1 - Natural and Cultural Features: Preserve and enhance the natural and cultural characteristics and features that contribute to the distinct identity of communities, neighborhoods, and cultural landscapes.

    Sub-policy 11.3.1.a - Natural and Cultural Features: Minimize negative impacts and maximize enhancements and design that complement the natural environment, particularly features unique to Albuquerque, in development and redevelopment**.**

    The amendment would establish an additional area where regulations would apply that limit the scale and intensity of development next to a natural and cultural features – the Petroglyph National Monument, Northwest Mesa Escarpment, and Major Public Open Space (7.3, 7.3.1, 11.3.1, 11.3.1a). The regulations require more of a site to be dedicated to landscaping, reducing the hardscape and therefore runoff potential, which negatively impacts the Petroglyph National Monument and Northwest Mesa Escarpment (11.3.1.a). The amendment would limit or prohibit uses that could have negative impacts on the Petroglyph National Monument and Northwest Mesa Escarpment (11.3.1.a).

22. Council Amendment F would further the following Comprehensive Plan goal and policies:

    A. Policy 4.1.3 Placemaking: Protect and enhance special places in the built environment that contribute to distinct identity and sense of place.

    B. Policy 5.1.1 - Desired Growth: Capture regional growth in Centers and Corridors to help shape the built environment into a sustainable development pattern.

    C. Goal 7.2 Pedestrian-Accessible Design: Increase walkability in all environments, promote pedestrian-oriented development in urban contexts, and increase pedestrian safety in auto-oriented contexts.

    D. Policy 7.2.1 Walkability: Ensure convenient and comfortable pedestrian travel.

    E. Policy 7.2.2 Walkable Places: Promote high-quality pedestrian-oriented neighborhoods and districts as the essential building blocks of a sustainable region.

    F. Policy 7.2.2.b: Encourage building and site design that activates the pedestrian environment through building frontage, entrances, parking areas, and gathering spaces.

The amendment would establish regulations along Coors Boulevard that limit the scale and intensity of building heights and structured parking along Coors Boulevard (VPO-1), A Major Transit Corridor. The amendment would further the Placemaking Policy (4.1.3), , Desired Growth Policy (5.1.1), Pedestrian Accessible Design Goal (7.2), Walkability Policy (7.2.1), and Walkable Places (7.2.2). While the encouragement of development was the reason for the building height bonus, the suitability of such along a heavily traversed corridor needs to be reconsidered. The height bonuses are more appropriate in mixed-use zones and subzones as there is the potential for stormwater management practices.

23. Council Amendment G furthers the following applicable Comprehensive Plan goal and policies:

A. Policy 4.1.3 Placemaking: Protect and enhance special places in the built environment that contribute to distinct identity and sense of place.

B. Goal 7.2 Pedestrian-Accessible Design: Increase walkability in all environments, promote pedestrian-oriented development in urban contexts, and increase pedestrian safety in auto-oriented contexts.

C. Policy 7.2.1 Walkability: Ensure convenient and comfortable pedestrian travel.

D. Policy 7.2.2 Walkable Places: Promote high-quality pedestrian-oriented neighborhoods and districts as the essential building blocks of a sustainable region.

E. Policy 7.2.2.b: Encourage building and site design that activates the pedestrian environment through building frontage, entrances, parking areas, and gathering spaces.

F. Goal 7.4 - Context-Sensitive Parking: Design parking facilities to match the development context and complement the surrounding built environment.

The amendment would establish regulations that remove the parking reductions along Coors Boulevard, a Major Transit Corridor. The amendment would further the Placemaking Policy (4.1.3), Pedestrian Accessible Design Goal (7.2), Walkability Policy (7.2.1), Walkable Places Policy (7.2.2), and Context Sensitive Parking Goal (7.4). The increased development has not encouraged pedestrian activity in neighborhoods as had been anticipated and has resulted in denser development that is inappropriate to the area. Innovative designs could be implemented in order to allow for parking areas to become walkable where it would be ideal to park-once and then walk furthering the Pedestrian-Accessible Design Goal (7.2).

24. Council Amendment H furthers the following Comprehensive Plan goals and policies:

A. Policy 4.1.3 Placemaking: Protect and enhance special places in the built environment that contribute to distinct identity and sense of place.

B. Goal 7.2 Pedestrian-Accessible Design: Increase walkability in all environments, promote pedestrian-oriented development in urban contexts, and increase pedestrian safety in auto-oriented contexts.

Policy 7.2.1 Walkability: Ensure convenient and comfortable pedestrian travel.

Policy 7.2.2 Walkable Places: Promote high-quality pedestrian-oriented neighborhoods and districts as the essential building blocks of a sustainable region.

Policy 7.2.2.b: Encourage building and site design that activates the pedestrian environment through building frontage, entrances, parking areas, and gathering spaces.

Goal 7.4 - Context-Sensitive Parking: Design parking facilities to match the development context and complement the surrounding built environment.

The amendment would establish regulations that remove the parking reductions along Coors Boulevard, a Major Transit Corridor. The amendment would further the Placemaking Policy (4.1.3), , Pedestrian Accessible Design Goal (7.2), Walkability Policy (7.2.1), Walkable Places Policy (7.2.2), and Context Sensitive Parking Goal (7.4). The increased development has not encouraged pedestrian activity in neighborhoods as had been anticipated and has resulted in denser development that is inappropriate to the area. Future development along Coors Blvd should be encouraged as long as it is in areas that do not conflict with the character of the area in order to meet the Goals and Policies of the IDO.

25. In cases of conflict between a proposed text amendment and applicable Comprehensive Plan Goals and/or policies, Staff has provided conditions for recommendation of approval that address the conflicts.

26. For an Amendment to IDO Text, the required notice must be published, mailed, and posted on the web (see Table 6-1-1). A neighborhood meeting was required and held on November 23, 2020 via Zoom. The City published notice of the EPC hearing as a legal ad in the ABQ Journal newspaper. First class mailed notice was sent to the two representatives of each Neighborhood Association and Coalition registered with the Office of Neighborhood Coordination (ONC) as required by IDO Subsection 14-16-6-4(K)(2)(a). Notice was posted on the Planning Department website and on the project website.

27. In addition to the required notice, on December 7, 2020 e-mail notice was sent to the approximately 10,000 people who subscribe to the ABC-Z project update email list. Staff also recorded a line-by-line reading, as requested by a neighborhood representative, of the proposed amendments and posted the recording on the project webpage.

28. On December 17, 2020, the Planning Department hosted a public open house meeting via Zoom to review the proposed 2020 Annual Updates. Planning Staff presented the proposed amendments and hosted breakout rooms, where people could ask questions and discuss with Staff. Both the email notice and the required neighborhood association notification letter included information about the public open house.

29. The EPC held a study session regarding the proposed 2020 IDO amendments on January 14, 2020. This was a publically-noticed meeting.

30. As of this writing, Staff has received multiple comments, expressing support, opposition, and recommended changes. While there are comments in opposition to individual Tech Edits and Council Amendments, there is general support for this request as a whole. The recommended Conditions of Approval address some of the issues raised in public and agency comments.

31. In response to comments submitted for Nob Hill/Highland CPO-8:

    A. Optional: Nob Hill/Highland Sector Plan has long required the ground-floor to have 60% glazing. The existing requirements for this level of glazing should remain unchanged.

    B. Recommended: In the Nob Hill/Highland CPO-8, the City should make changes to implement the centers and corridors policies and policies guiding development to locations served by transit, to respond to current market realities, and to create more safe and livable urban dwelling units.

RECOMMENDATION – RZ-2020-00048 – January 21, 2021 - Text Amendment to the IDO – Small Areas

That a recommendation of APPROVAL of Project #: 2018-001843, RZ-2020-00048, a request for Amendment to IDO Text- Small Areas, be forwarded to the City Council based on the preceding Findings and subject to the following Conditions for recommendation of approval.

RECOMMENDED CONDITIONS FOR RECOMMENDATION OF APPROVAL– RZ-2020-00048 – January 21, 2021 – Amendment to IDO Text – Small Areas

1. The proposed amendments included in the spreadsheet "City-wide Text Amendments" (see attachment) shall be adopted, except as modified by the following conditions:

    A. On page 75, Subsection 3-4(C)(5)(c). Parking reductions associated with proximity to Major Transit shall continue to apply to Coors Boulevard VPO-1.

    B. On page 133, Subsection 3-6(D)(9). New subsection shall not be added: parking reductions associated with proximity to Major Transit shall continue to apply to Coors Boulevard, as they apply to other streets classified as Major Transit.

    C. On page 345, Subsection 5-12(H)(2)(f), add a new subsection 5 that reads as follows: "Volcano Mesa – CPO-13, except electronic signs are allowed within the Urban Center."

    D. Page 193, Subsection 4-3(F)(4)(9)(e). Drive-through or drive-up facilities accessory to a restaurant use remain prohibited within the boundaries of the Uptown Urban Center.

    OR, alternatively….

    E. Page 193, Subsection 4-3(F)(4)(9)(e). Language to read as follows: "…or located within ~~1,320 feet (1/4)~~ 660 feet (1/8) mile in any direction of the right-of-way of Interstate Highway 40".

2. To respond to public comments submitted regarding Nob Hill/Highland CPO-8:

   A. On page 97, Subsection 3-4(I)(5)(b)(1)(b), revise as follows: "Contain a minimum of 60 percent of its surfaces in transparent windows and/or doors, as measured to include the first 12 feet of building height above the sidewalk, with the lower edge of window sills no higher than 30 inches above the finished floor. Urban residential frontages that are occupied with multi-family residential uses shall provide 20% of the ground floor with transparent windows and/or doors."

   B. On page 98, Subsection 3-4(I)(5)(b)(4)(c), revise as follows: "Contain a minimum of 60 percent of its surfaces in transparent windows and/or doors, as measured to include the first 12 feet of building height above the sidewalk, with the lower edge of window sills no higher than 30 inches above the finished floor. Urban residential frontages that are occupied with multi-family residential uses shall provide 20% of the ground floor with transparent windows and/or doors."

Catalina Lehner, AICP
Current Senior Planner

Form Z: Policy Decisions

Please refer to the EPC hearing schedule for public hearing dates and deadlines. Your attendance is required.

A single PDF file of the complete application including all plans and documents being submitted must be emailed to PLNDRS@cabq.gov prior to making a submittal. Zipped files or those over 9 MB cannot be delivered via email, in which case the PDF must be provided on a CD.

☒ ***INFORMATION REQUIRED FOR ALL POLICY DECISIONS (Except where noted)***

__ Interpreter Needed for Hearing? no if yes, indicate language: _____

02 Proof of Pre-Application Meeting with City staff per IDO Section 14-16-6-4(B)

n/a Letter of authorization from the property owner if application is submitted by an agent

n/a Traffic Impact Study (TIS) form *(not required for Amendment to IDO Text)*

03 Zone Atlas map with the entire site/plan amendment area clearly outlined and labeled *(not required for Amendment to IDO Text)* NOTE: For Annexation of Land, the Zone Atlas must show that the site is contiguous to City limits.

❑ **ADOPTION OR AMENDMENT OF COMPREHENSIVE PLAN**

❑ **ADOPTION OR AMENDMENT OF FACILITY PLAN**

__ Plan, or part of plan, to be amended with changes noted and marked

__ Letter describing, explaining, and justifying the request per the criteria in IDO Sections 14-16-6-7(A)(3) or 14-16-6-7(B)(3), as applicable

__ Required notices with content per IDO Section 14-16-6-4(K)(6)

__ Office of Neighborhood Coordination notice inquiry response, notifying letter, and proof of first class mailing

__ Proof of emailed notice to affected Neighborhood Association representatives

__ Buffer map and list of property owners within 100 feet (excluding public rights-of-way), notifying letter, and proof of first class mailing

☒ **AMENDMENT TO IDO (TEXT) – Amendment to IDO Text – Small Area**

04 Section(s) of the Integrated Development Ordinance to be amended with changes noted and marked

05 Proof of Pre-submittal Neighborhood Meeting per IDO Section 14-16-6-4(C)

06 Letter describing, explaining, and justifying the request per the criteria in IDO Section 14-16-6-7(F)(3) or Section 14-16-6-7(G)(3), as applicable

07 Required notices with content per IDO Section 14-16-6-4(K)(6)

X Office of Neighborhood Coordination notice inquiry response, notifying letter, and proof of first-class mailing

X Proof of emailed notice to affected Neighborhood Association representatives

X Buffer map and list of property owners within 100 feet (excluding public rights-of-way), notifying letter, and proof of first-class mailing (to property owners)

❑ **ZONING MAP AMENDMENT – EPC**

❑ **ZONING MAP AMENDMENT – COUNCIL**

__ Justification letter describing, explaining, and justifying the request per the criteria in IDO Section 14-16-6-7(D)(3)

__ Required notices with content per IDO Section 14-16-6-4(K)(6)

_ Office of Neighborhood Coordination notice inquiry response, notifying letter, and proof of first class mailing

_ Buffer map and list of property owners within 100 feet (excluding public rights-of-way), notifying letter, and proof of first-class mailing

__ Sign Posting Agreement

❑ **ANNEXATION OF LAND**

__ Application for Zoning Map Amendment *Establishment of zoning must be applied for simultaneously with Annexation of Land.*

__ Petition for Annexation Form and necessary attachments

__ Letter describing, explaining, and justifying the request per the criteria in IDO Section 14-16-6-7(E)(3)

__ Board of County Commissioners (BCC) Notice of Decision

I, the applicant or agent, acknowledge that if any required information is not submitted with this application, the application will not be scheduled for a public meeting or hearing, if required, or otherwise processed until it is complete.

January 4, 2021

Dan Serrano, Chair
Environmental Planning Commission
c/o City of Albuquerque
600 Second Street NW
Albuquerque, NM 87102

Dear Chair Serrano,

Please accept this **REVISED** letter of justification, required by IDO Subsection 14-16-6-7(E)(3)(a), of the request for an Amendment to IDO Text – Small Area, submitted for the Environmental Planning Commission's review and recommendation to the City Council as part of the annual update required by IDO Subsection 14-16-6-3(D).

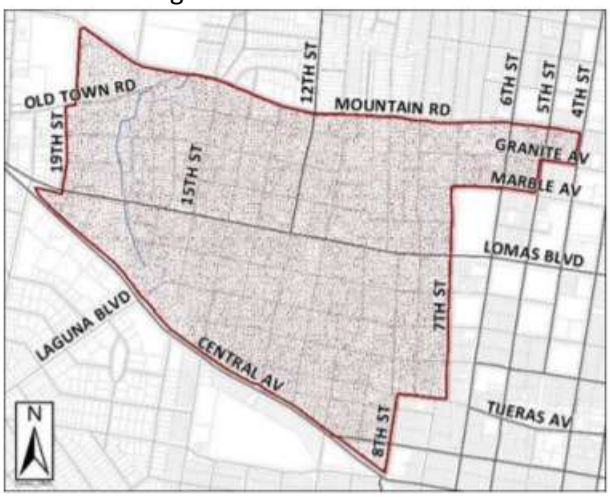

The IDO is the regulatory tool to realize and implement the "Centers and Corridors" community vision set out in the Albuquerque-Bernalillo County Comprehensive Plan ("Comp Plan") in a coordinated, citywide context where existing communities can benefit from appropriate new development, while being protected from potential adverse effects. The IDO regulations coordinate with the City's Development Areas – Areas of Change and Consistency – that work together to direct growth to appropriate locations and ensure protections for low-density residential neighborhoods, parks, and Major Public Open Space. The IDO implements the Comp Plan through regulations tailored to each of the City's designated Centers and Corridors and to many small areas. The IDO regulations are also coordinated with transportation and urban design policies in the updated Comp Plan, as well as updated technical standards for infrastructure in the Development Process Manual (DPM).

The IDO annual update process was established to require a regular cycle for discussion among residents, City staff, businesses, and decision-makers to consider any needed changes that were identified over the course of the year. Over the course of the two-and-a-half years that the IDO has been effective, staff identified changes to 14 small areas standards that are needed to improve the clarity and intended implementation of the adopted regulations.

These clarifications and adjustments were requested by neighbors, developers, and staff and are compiled into a table of "Small Area Proposed Text Amendments." Each proposed change provides the page and section of the adopted IDO that would be modified, the text that is proposed to change, along with an explanation of the purpose or intent of the change. This document is the main body of the application for Amendments to IDO Text – Small Area. These small areas include the Mixed-use - Form-based (MX-FB) Zone District - 2-4(E)(3)(c); Downtown Neighborhood Area - CPO-3; East Downtown – CPO-4; Los Duranes - CPO-6; Nob Hill/Highland - CPO-8; Rio Grande Blvd. - CPO-11; Sawmill/Wells Park - CPO-12; Volcano Mesa – CPO-13; East Downtown - HPO-1; Coors Blvd. - VPO-1; Northwest Mesa - VPO-2; Downtown Area - 5-5(B)(2)(a)1; Downtown Center - 5-12(E)(4)(d); and Uptown Area - 5-5(I)(2).

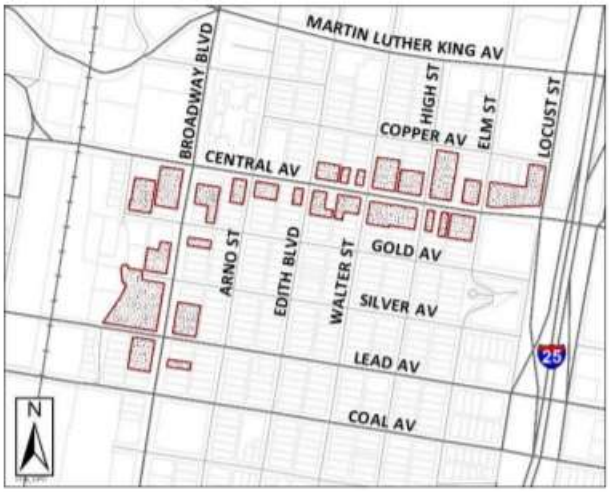

Summary of Proposed Changes, by small area

Downtown Neighborhood Area - CPO-3

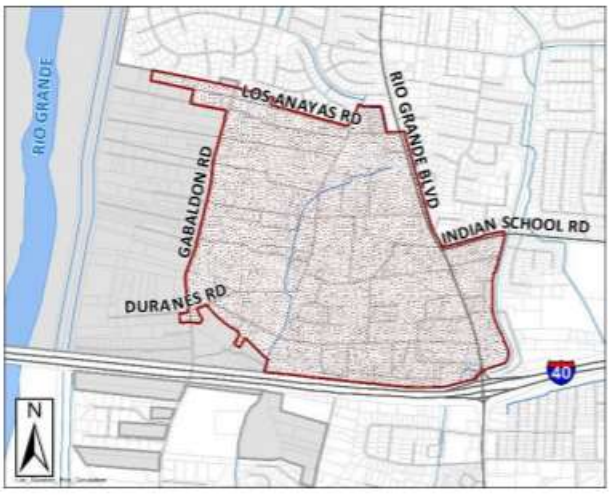

Add a setback standard for garages that requires garages facing a street to be set back 5 feet behind the façade of the building and garages accessed from an alley to be set back 5 feet from the property line, which is consistent with the rescinded Downtown Neighborhood Area Sector Plan. (3-4(D)(5)(a)1 and (D)(5)(a)1.b.)

East Downtown - CPO-4

Provide an option for screening parking structures that do not include ground floor commercial uses and clarify if the standard applies to the required street wall or the parking structure wall. This adds consistency with changes made to parking requirements in the EDo HPO (5-5(F)(4)(a)) as part of this 2020 Annual Update. (5-5(F)(4)(a)(3).)

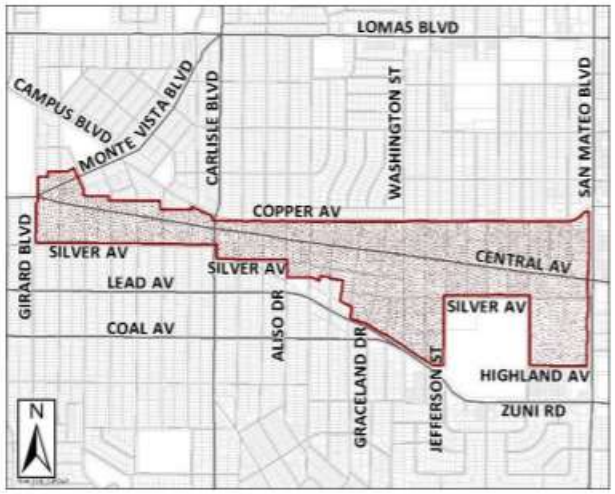

Los Duranes - CPO-6

Expand the front setback standard to apply to both single-family and duplex, so that new duplex subdivisions also follow the same setback standard. (3-4(G)(3)(a)1.b.)

Clarify that building heights in the MX-M zone are allowed to be 35 feet if they are within 450 feet of the I-40 right-of-way. (3-4(G)(4)(b).)

Nob Hill/Highland - CPO-8

Revise the building frontage types to allow a storefront or an urban residential frontage. This change clarifies what a residential façade is and links the regulation to defined terms. Currently residential developments also must use the storefront building frontage type, which is not appropriate for that use. (3-4(I)(5)(b)(4)b.)

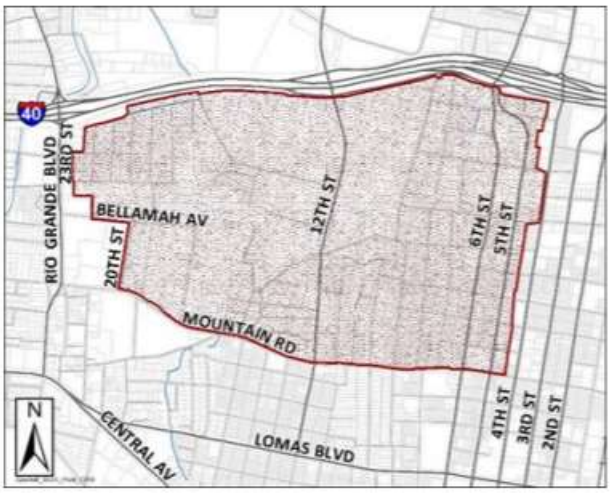

Rio Grande Blvd. - CPO-11

Revise the setback standard to be consistent with the Rio Grande Corridor Plan to apply only to the setback from Rio Grande (not all sides of the lot) to be consistent with the rescinded Rio Grande Corridor Plan and makes the language structure parallel with the Coors Blvd. CPO-2. (3-4(L)(3).)

Revise the parking lot standard to apply to mixed use and non-residential development, which is consistent with the intent of the Rio Grande Corridor Plan. (3-4(L)(5)(b)3.)

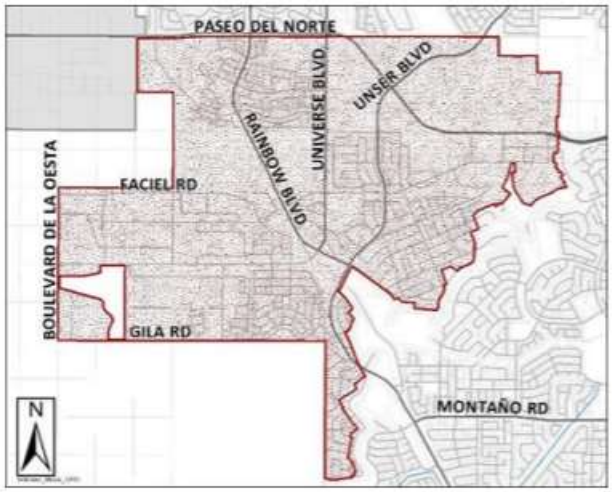

Sawmill/Wells Park - CPO-12

Revise the building design standard to apply to all building types in all zones, and to apply based on the proposed use (residential vs. mixed-use/non-residential uses). (3-4(M)(5)(b)8 and (M)(5)(c).)

Revise the building façade standards for Mountain Rd. and adjacent residential zones to require more articulation, which is consistent with the rescinded Sawmill-Wells Park Sector Plan. (3-4(M)(5)(c)5.)

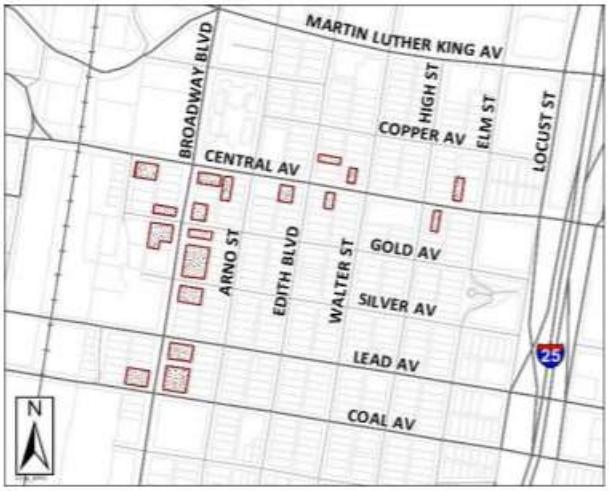

Volcano Mesa - CPO 13

Clarify the intent of the standard relating to "side streets" to be consistent with the Volcano Cliffs Sector Plan. (3-4(N)(5)(c).)

Revise the garage standards to apply to 3-car garages that are street-facing. (3-4(N)(5)(d)2.)

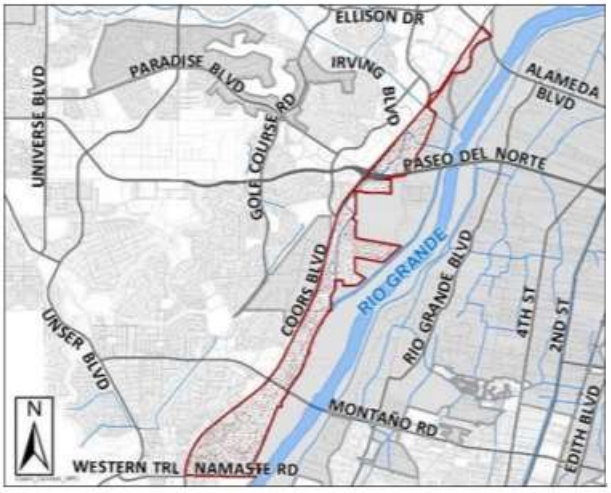

East Downtown - HPO-1

Clarify the intent of the standard relating to "side streets" to be consistent with the East Downtown Regulatory Plan. (5-5(F)(4)(a)3.)

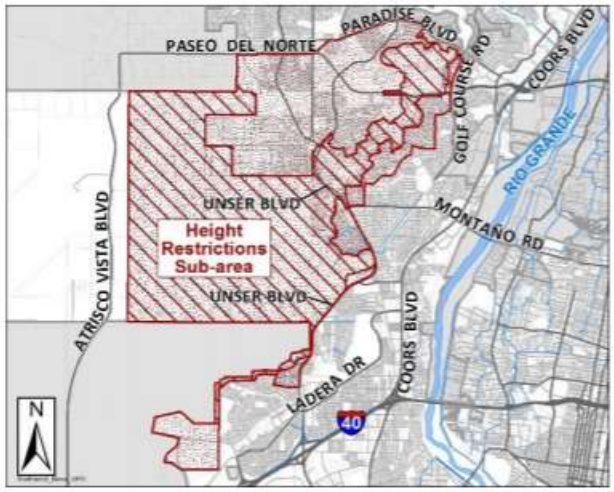

Provide an option for screening parking structures that do not include ground floor commercial uses and clarify if the standard applies to the required street wall or the parking structure wall. (5-5(F)(4)(a)(3).)

Coors Blvd. - VPO-1

Revisions throughout the VPO to add consistency with the protected view and the new defined term "view point." The revisions clarify how to perform the analysis of the 3 view protection tests and revise the graphics for consistency. Finally, the protection of views along the entire ridgeline is added back to be consistent with the prior Coors Corridor Sector Plan. (6-6(D).)

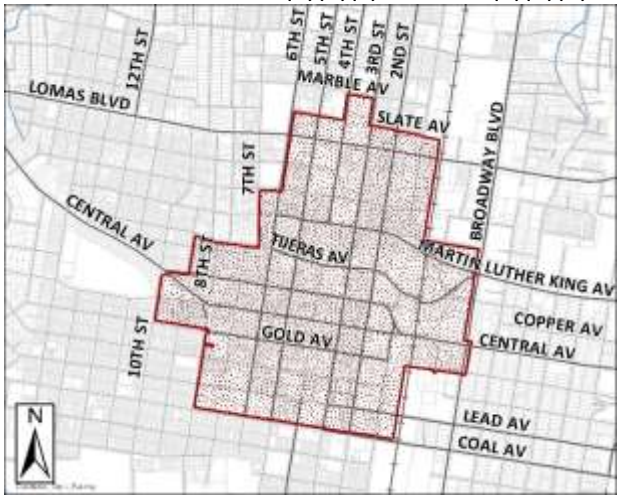

Northwest Mesa - VPO-2

Move the "techniques" for minimizing the visual impact of taller buildings to the decision criteria for this EPC approval of a height variance, apply it to any new structure, and specify where the protected view is to be taken from. (3-6(E)(3)(c)2.)

Add a second Height Restrictions subarea and enhance the Use Specific Standards for the Height Restrictions subareas to expand the area of transition and decrease the intensity of development near MPOS. Portions of this amendment were submitted by Council Services. (3-6(E)(3).)

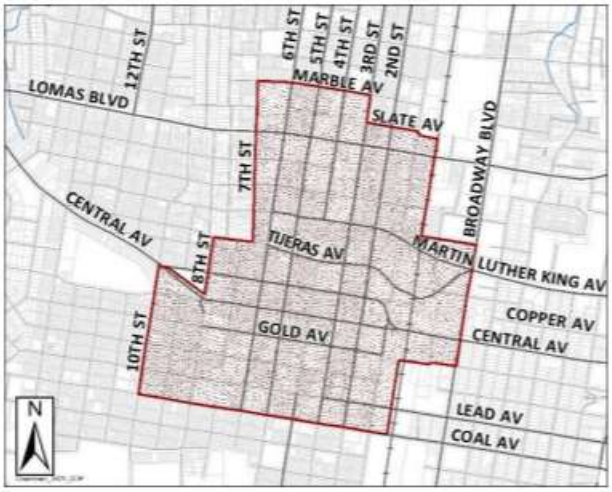

Downtown Center - 2-4(E)(3)(c) and 5-12(E)(4)(d)

Revise Table 2-4-11, in Subsection 2-4(E)(3)(c), to allow a 0-foot rear setback in all MX-FB zones where a rear lot line abuts a street or an alley. This amendment was submitted by Council Services. (Table 2-4-11.)

Add the Downtown Center and Mixed-use or Non-residentially zoned properties within 330 feet of the Center as a location where rooftop signs are allowed. Currently the East Downtown CPO and HPO are the only locations that allows rooftop signs. This amendment was submitted by Council Services. (5-12(E)(4)(d).)

Downtown Area - 5-5(B)(2)(a)1

Revise to apply to the Downtown Center and delete the existing map. This change makes the parking exemption only apply within the Comp Plan Downtown Center, with MX-Form Based zoning, and removes overlap with other CPOs that did not have the parking exemption. (5-5(B)(2)(a)1.)

Uptown Area - 5-5(I)(2)

Remove the drive-through prohibition for restaurants in any portion of the Uptown Urban Center that is within 1,320 feet of the I-40 right-of-way. This amendment was submitted by Council Services. (5-5(I)(2).)

Background

Unlike the 2019 IDO annual update, the 2020 IDO Annual Update is purposefully broken down into two cases instead of one. This is because the City-wide text amendments to the IDO are legislative in nature and the Small Area amendments are quasi-judicial in nature. There are two different application types for text amendments to the IDO, and this request is reviewed and decided according to IDO Subsection 14-16-6-7(E), Amendment to IDO Text – Small Area.

Justification for a Character Protection Overlay Zone under the Criteria in 6-7(E)(3)

Overview

These proposed amendments to the IDO text are consistent with the required Annual Update process described in IDO Subsection 14-16-6-3(D). The Planning Department has compiled the recommendations, performed analyses of the proposed changes, and is now submitting the proposed amendments for EPC's review and recommendation. These proposed amendments to the IDO text meet the Review and Decision Criteria in IDO Subsection 14-16-6-7(E)(3).

Review and Decision Criterion 14-16-6-7(E)(3)

6-7(E)(3)(a) The proposed small area amendment is consistent with the health, safety, and general welfare of the city as shown by furthering (and not being in conflict with) a preponderance of applicable Goals and Policies in the ABC Comp Plan, as amended, and other applicable plans adopted by the City.

Response: ABC Comp Plan policies support this criterion for amendment of small area regulations and furthers the following applicable Goals and Policies in the ABC Comprehensive Plan.

These proposed amendments to the IDO text are consistent with Comp Plan policies that direct the City to adopt and maintain an effective regulatory system for land use, zoning, and development review. Changes proposed via the memo and exhibit from City Council, in particular, are consistent with adopted policies to protect and enhance the quality of the City's unique views, open spaces, neighborhoods, and commercial districts. These amendments further the following applicable goals and policies of the ABC Comprehensive Plan and protect the public health, safety, and welfare.

Chapter 4: Community Identity

Goal 4.1 - Character: Enhance, protect, and preserve distinct communities.

Response: If approved, the request would further the Community Identity Character Goal (4.1), the Identity and Design policy (4.1.2), and the Neighborhoods policy (4.1.4). The IDO is intended to make zoning and land use entitlements in our community more transparent, accurate, and contextually compatible in order to enhance, protect, and preserve distinct communities, neighborhoods, and traditional communities. The IDO provides protections for residential neighborhoods through dimensional standards specific to residential zone districts in Part 2, tailored regulations in Overlay zones in Part 3, use-specific standards that require distance separations between non-residential and residential uses and zone districts in Part 4, and development standards that apply adjacent to residential uses or zone district, especially edge buffers and Neighborhood Edges in Part 5.

Policy 4.1.2 Identity and Design: Protect the identity and cohesiveness of neighborhoods by ensuring the appropriate scale and location of development, mix of uses, and character of building design.

Response: If approved, the request would further the Identity and Design policy (4.1.2). The request protects the identity of neighborhoods and commercial districts by clarifying standards and regulations that are unclear. This will better ensure appropriate scale, deisgn, and location of development. Revisions to the structure and implementation of the Coors VPO-1 and Northwest Mesa Escarpment VPO-2 regulations will help ensure the appropriate scale and location of development that protects views. The proposed new regulations, including allowing rooftop signs in and near Downtown and removing the transit parking reduction along Coors Blvd., are intended to ensure appropriate scale and character of development.

Policy 4.1.4 Neighborhoods: Enhance, protect, and preserve neighborhoods and traditional communities as key to our long-term health and vitality.

Response: If approved, the request would further the Neighborhoods policy (4.1.4). The request enhances, protects, and preserves neighborhoods and traditional communities by clarifying standards and regulations that are unclear. This will improve the implementation of the original goals and intent of the regulations as adopted through Sector Development Plans and the IDO. The proposed new regulations, including expanding the height restriction area and adding new use restrictions in the Northwest Mesa VPO, are intended to protect and enhance the existing character of those areas.

Chapter 5: Land Use

Goal 5.1 - Centers & Corridors: Grow as a community of strong Centers connected by a multi-modal network of Corridors.

Response: If approved, the request would further the Centers and Corridors Goal (5.1). The IDO is the regulatory tool to realize and implement the "Centers and Corridors" community vision set out in the Comprehensive Plan in a coordinated, citywide context so that existing communities can benefit from appropriate new development, while being protected from

potential adverse effects. The IDO regulations operationalize the City's Development Areas – Areas of Change and Consistency – that work together to direct growth to appropriate locations and ensure protections for low-density residential neighborhoods, parks, and Major Public Open Space. The IDO implements the Comprehensive Plan through regulations tailored to the City's designated Centers and Corridors. The IDO regulations are also coordinated with transportation and urban design policies in the updated Comprehensive Plan, as well as updated technical standards for infrastructure in the Development Process Manual.

Policy 5.1.1 Desired Growth: Capture regional growth in Centers and Corridors to help shape the built environment into a sustainable development pattern.

Response: If approved, the request would further the the Desired Growth policy (5.1.1). There are changes proposed for the following IDO subsections that would specifically apply in designated Centers & Corridor locations and generally implement this policy.

- Table 2-4-11 Setbacks in MX-FB zones (currently mapped DT and a MS location)
- 3-4(C)(5)(c) Remove transit parking reduction for VPO-1 (MT)
- 4-3(F)(4)(e) Restaurant Drive-throughs in Uptown (UC)
- 5-1(C)(2)(b) Contextual Residential infill standards in Downtown (DT)
- 5-5(B)(2)(a) Parking exemption in the Downtown Center (DT)
- 5-12(E)(4)(d) and 5-12(F)(3) Rooftop signs in and near Downtown Center (DT)

Policy 5.1.2 Development Areas: Direct more intense growth to Centers and Corridors and use Development Areas to establish and maintain appropriate density and scale of development within areas that should be more stable.

Response: If approved, the request would further the Development Areas policy (5.1.2). The request generally controls and restricts development in areas near Major Public Open Space and along view corridors, and allows more development intensity in designated centers.

Goal 5.3 Efficient Development Patterns: Promote development patterns that maximize the utility of existing infrastructure and public facilities and the efficient use of land to support the public good.

Response: If approved, the request would further the Efficient Development Patterns Goal (5.3). The intent of many of the proposed changes is the clarify how to read and apply provisions in the IDO, which will result in a more predictable development outcomes and consistent decision-making. The request promotes efficient development patterns by clarifying standards and regulations that are unclear. The request generally directs more intense growth to designated Centers and Corridors and limits development near sensitive lands.

Policy 5.3.1 - Infill Development: Support additional growth in areas with existing infrastructure and public facilities.

Response: If approved, the request would further the Infill Development policy (5.3.1). Reducing setbacks in urban locations and allowing more flexible infill opportunities through

changes to the Contextual Residential Development standards encourage development in infill locations served with existing infrastructure and public facilities.

Goal 5.6 City Development Areas
Encourage and direct growth to Areas of Change where it is expected and desired and ensure that development in and near Areas of Consistency reinforces the character and intensity of the surrounding area.

Response: If approved, the request would further the City Development Areas Goal (5.6). The intent of many of the proposed changes is the clarify how to read and apply provisions in the IDO, which will help reinforce the character and intensity of development in Areas of Consistency. The request generally directs more intense growth to designated Centers and Corridors, which are designated as Areas of Change, and limits development near sensitive lands and existing residential neighborhoods and historic districts, which are designated as Areas of Consistency.

Policy 5.6.2 Areas of Change: Direct growth and more intense development to Centers, Corridors, industrial and business parks, and Metropolitan Redevelopment Areas where change is encouraged.

Response: If approved, the request would generally further the Areas of Change policy (5.6.2). Two of the proposed amendments would increase the current parking requirements in Areas of Change. While lower parking requirements in center and corridor areas generally promotes more development opportunity and intensity, in both of these locations, there are competing policies that would argue that the standard parking requirements and slightly less development intensity is more appropriate. In the Coors Boulevard VPO-1, lower intensity development is favored as a way to protect views and in the Downtown area, the parking exemption may not be appropriate outside the Downtown center to prevent impacts on existing residential neighborhoods.

Policy 5.6.3 Areas of Consistency: Protect and enhance the character of existing single-family neighborhoods, areas outside of Centers and Corridors, parks, and Major Public Open Space.

b) Ensure that development reinforces the scale, intensity, and setbacks of the immediately surrounding context.

Response: If approved, the request would further the Areas of Consistency policy (5.6.3). The majority of the proposed amendments apply in Areas of Consistency. Changes proposed generally protect and enhance the existing character of those areas, and to clarify how to apply the regulation in a way that is consistent with the intent.

Goal 5.7 Implementation Processes: Employ procedures and processes to effectively and equitably implement the Comp Plan.

Response: If approved, the request would further the Implementation Process Goal (5.7). The intent of many of the proposed changes is to clarify how to read and apply provisions in the IDO, which will result in a more predictable development outcomes and consistent decision-making.

Policy 5.7.2 Regulatory Alignment: Update regulatory frameworks to support desired growth, high quality development, economic development, housing, a variety of transportation modes, and quality of life priorities.

Response: If approved, the request would further the Regulatory Alignment policy (5.7.2). The IDO's procedures and processes in Part 6 have been developed to effectively and equitably implement the Comprehensive Plan. In order for the City's land use, zoning, and development regulations to stay up-to-date, the IDO established an annual update requirement into the regulatory framework. Changes proposed are intended to continually improve how the IDO implements the comp Plan by aligning regulations with Comp Plan goals and policies.

Policy 5.7.5 - Public Engagement: Provide regular opportunities for residents and stakeholders to better understand and engage in the planning and development process.

Response: If approved, the request would further the Public Engagement policy (5.7.5). The IDO Annual Update process was established to provide a regular cycle for discussion among residents, City staff, and decision makers to consider any needed changes that were identified over the course of the year. Changes proposed for Part 6 of the IDO are intended to improve public agency engagement opportunities in the planning and development process.

Policy 5.7.6 - Development Services: Provide high-quality customer service with transparent approval and permitting processes.

Response: If approved, the request would further the Development Services policy (5.7.6). The intent of many of the proposed changes is to clarify how to read and apply provisions in the IDO, which will result in a more predictable development outcomes and consistent decision-making.

Chapter 7: Urban Design

Goal 7.1 Streetscapes & Development Form: Design streetscapes and development form to create a range of environments and experiences for residents and visitors.

Response: If approved, the request would further the Streetscapes & Development Form Goal (7.1). The IDO implements this Comp Plan goal through zoning standards that are appropriate in each zone district (Part 14-16-2); in specific small areas (Part 14-16-3); and in different contexts, such as next to residential neighborhoods, next to Major Public Open Space, in Centers/Corridors, or in Areas of Change/Consistency in use-specific standards (Part 14-16-4) and development standards in Part 5. Changes proposed for rooftop signs in and near Downtown, screening of parking garages at the street edge in East Downtown area, and clarifications to the view protection regulations along Coors Boulevard are intended to establish high-quality standards in the appropriate context.

Goal 7.3 - Sense of Place: Reinforce sense of place through context-sensitive design of development and streetscapes.

Response: If approved, the request would further the Sense of Place Goal (7.3). This request provides clarification for existing rules so that their implementation is consistent with the intent of the regulation. Proposed rules that carry forward provisions from rescinded Sector Plans honor the intent of those prior planning efforts and reflect the vision for those small areas. Proposed new rules, such as the drive-through allowance for restaurants in Uptown, are crafted to limit the applicability to appropriate locations while preserving the sense of place in the remainder of the Urban Center.

Policy 7.3.1 Natural and Cultural Features: Preserve, enhance, and leverage natural features and views of cultural landscapes.

Response: If approved, the request would further the Natural and Cultural Features policy (7.3.1). The IDO establishes regulations that apply in particular contexts (Centers/Corridors, next to residential development, next to Major Public Open space, on sensitive lands, etc.). Changes proposed for the Los Duranes and Rio Grande Boulevard CPOs are intended to maintain the semi-rural and agricultural cultural landscapes in those areas. Changes proposed to the Volcano Mesa CPO and the two View Protection Overlay zones are intended to preserve, enhance, and leverage natural features and views toward geographical features that figure prominently in our cultural landscapes.

Policy 7.3.2 Community Character: Encourage design strategies that recognize and embrace the character differences that give communities their distinct identities and make them safe and attractive places.

a) Design development to reflect the character of the surrounding area and protect and enhance views.

Response: If approved, the request would further the Community Character policy (7.3.2). the intent of the amendments to the 14 small areas is to improve implementation of the design standards that apply in specific small areas to protect and maintain the unique character and differences in those areas that contribute to their distinct identities.

Goal 7.4 - Context-Sensitive Parking: Design parking facilities to match the development context and complement the surrounding built environment.

Response: If approved, the request would further the Context-Sensitive Parking Goal (7.4). Changes proposed to the East Downtown CPO and HPO address parking structure walls and requires it to be screened or to have a wall that defines the street edge. This rule will result in new development that better complements the surrounding built environment.

Policy 7.4.2 - Parking Requirements: Establish off-street parking requirements based on development context.

Response: If approved, the request would further the Parking Requirements policy (7.4.2). The IDO regulates parking in Section 14-15-5-5 based on uses and context, including requirements tailored for Centers/Corridors versus elsewhere in the city. Changes proposed along Coors Boulevard would eliminate parking reductions associated with proximity to Major Transit corridors in an effort to maintain the lower intensity of building

development in the View Protection Overlay to better protect views. Proposed changes in the Downtown Area make the off-street parking exemption only apply within the Comp Plan designated Downtown Center, while adding back required parking to other portions of the downtown area that are outside of the Center. Existing neighborhoods surrounding downtown have had a long history of accommodating on-street parking for uses in the greater downtown area. Both of these changes require more parking in areas that might be appropriate, in order to protect views and provide transitions to existing residential neighborhoods.

Policy 7.5.1 - Landscape Design: Encourage landscape treatments that are consistent with the high desert climate to enhance our sense of place.

Response: If approved, the request would further the Landscape Design Policy (7.5.1). The IDO implements this Comp Plan goal and policy by increasing the required site landscaping for multi-family, mixed-use, and non-residential development in the Volcano Mesa Area. This change is intended to reduce the scale and intensity of development on the mesa top and to reduce the amount of impermeable land, which creates drainage and stormwater runoff problems. Requiring more landscaping could preserve more of the high-desert landscape and enhance a sense of place.

Chapter 8: Economic Development

Policy 8.1.1 - Diverse Places: Foster a range of interesting places and contexts with different development intensities, densities, uses, and building scale to encourage economic development opportunities.

Response: If approved, the request would further the Diverse Places Policy (8.1.1). The IDO implements the Comp Plan by establishing zoning standards tailored to different zone districts and different contexts. Proposed changes in Part 14-16-4 and Part 14-16-5 generally further this Comp Plan goal and policy.

Policy 8.1.2 - Resilient Economy: Encourage economic development efforts that improve quality of life for new and existing residents and foster a robust, resilient, and diverse economy.

Response: If approved, the request would further the Resilient Economy Policy (8.1.1). The IDO implements the Comp Plan by establishing zoning standards that set the bar for high-quality development while still allowing a range of uses in appropriate contexts. The proposed change to allow drive-throughs for restaurants within 11,320 feet of I-40 in the Uptown Urban Center is intended to provide an incentive for development that responds to the new COVID-19 conditions.

Chapter 9: Housing

Policy 9.2.1 - Compatibility: Encourage housing development that enhances neighborhood character, maintains compatibility with surrounding land uses, and responds to its development context – i.e. urban, suburban, or rural – with appropriate densities, site design, and relationship to the street.

Response: If approved, the request would further the Compatibility Policy (9.2.1). The proposed change to building setbacks in Los Duranes adds duplexes to the dwelling types that require a context sensitive setback (within 5' of the setback on an abutting lot). Changes proposed in the Nob Hill CPO allows residential building frontage types so that multi-family developments are not required to have a false storefront window at the ground floor. Both of these changes will enhance neighborhood character, maintain compatibility with surrounding development, and maintain an appropriate relationship to the street.

Chapter 11: Heritage Conservation

Goal 11.3 - Cultural Landscapes: Protect, reuse, and/or enhance significant cultural landscapes as important contributors to our heritage and rich and complex identities.

Response: If approved, the request would further the Heritage Conservation Goal (11.3). The proposed changes to the View Protection Overlays and Historic Protection Overlay zone are intended to enhance implementation of the intent of these overlays. Many of the changes proposed clarify how to read and apply provisions in the IDO, which will result in better protection and enhancement of our significant cultural landscapes.

Policy 11.3.1 - Natural and Cultural Features: Preserve and enhance the natural and cultural characteristics and features that contribute to the distinct identity of communities, neighborhoods, and cultural landscapes.

a) Minimize negative impacts and maximize enhancements and design that complement the natural environment, particularly features unique to Albuquerque, in development and redevelopment

Response: If approved, the request would further the Natural and Cultural Features Policy (11.3.1) and sub-policy (11.3.1.a). The IDO includes many protections for Major Public Open Space and Sensitive Lands in Part 14-16-4 and Part 14-16-5. Changes proposed for small areas that are near Major Public Open Space and have views of significant environmental and cultural features would further this policy by adding regulatory protections for these natural and cultural landscapes.

6-7(E)(3)(b) If the proposed small area amendment is located partially or completely in an Area of Consistency (as shown in the ABC Comp Plan, as amended), the applicant must demonstrate that the proposed amendment would clearly reinforce or strengthen the established character of the surrounding Area of Consistency and would not allow development that is significantly different from that character. The applicant must also demonstrate that the existing zoning regulations are inappropriate because they meet any of the following criteria: 1. There has been a significant change in neighborhood or community conditions affecting the small area. 2. The proposed zoning regulations are more advantageous to the community as articulated by the ABC Comp Plan, as amended (including implementation of patterns of land use, development density and intensity, and connectivity), and other applicable adopted City plan(s).

Response: This request would clearly reinforce the established character of the surrounding area and would result in development that is consistent with that character based on the ABC Comp Plan Goals and Policies cited above. These same Goals and Policies demonstrate that the proposed development standards are more advantageous to the Community as articulated by the ABC Comp Plan by implementing development patterns and densities desired by the community.

6-7(E)(3)(c) If the proposed small area amendment is located wholly in an Area of Change (as shown in the ABC Comp Plan, as amended) and the applicant must demonstrate that the existing zoning regulations are inappropriate because they meet at least one of the following criteria: 1. There has been a significant change in neighborhood or community conditions affecting the small area that justifies this request. 2. The proposed zoning regulations are more advantageous to the community as articulated by the ABC Comp Plan, as amended (including implementation of patterns of land use, development density and intensity, and connectivity), and other applicable adopted City plan(s).

Response: This criterion does not apply. The small areas are partially within areas designated as an Area of Change; however, there are portions that are designated as an Area of Consistency, so the criterion above applies to the whole small area.

6-7(E)(3)(d) If the proposed amendment changes allowable uses, the proposed amendment does not allow permissive uses that would be harmful to adjacent property, the neighborhood, or the community, unless the Use-specific Standards in Section 16-16-4-3 associated with that use will adequately mitigate those harmful impacts.

Response: This small area amendment does not propose to change any allowable uses.

6-7(E)(3)(e) The applicant's justification is not based completely or predominantly on the cost of land or economic considerations.

Response: The City's existing infrastructure and public improvements, including but not limited to its street, trail, and sidewalk systems have adequate capacity to serve the development made possible by the change of zoning standards. This small area amendment does not change any allowable uses or cause new development to happen, rather, it changes development standards for new development within the small area boundaries.

Public Outreach / Pre-submittal Neighborhood Meeting

The City's Alternative Dispute Resolution (ADR) facilitated a pre-submittal Neighborhood Meeting, as required by IDO Subsection 14-16-6-4(C). There were two opportunities to hear the same presentation and ask questions. These meetings were held on November 23, 2020. There was an approximately half-hour presentation followed by an hour-long question and answer session broken out into multiple break out rooms. The presentation is posted on the project website at:

- Pre-submittal Neighborhood Meeting Presentation (PDF)
- Pre-submittal Neighborhood Meeting Summary

The full facilitated meeting notes are included with this application, along with the Proof of Pre-submittal Neighborhood Meeting content analysis, as required by 14-16-6-4(C). The meeting report was sent out to all attendees who provided an email in the meeting or are on the project email list for newsletters. It was also sent out to all of the Neighborhood Association representatives who received notice of the meetings.

One major change that was made as a result of these meetings is that one proposed amendment in the Volcano Mesa CPO, which had a broader impact than originally intended, was removed from the application. There were public comments in opposition to this change, and additional comments requesting that there be additional building height restrictions on the mesa top. It would be more appropriate to consider changes to building height and massing during the Community Planning Area Assessment process. There were several other comments that require more analysis; they will be considered during the City's review and decision process and discussed in the EPC staff report.

The Planning Department also held an open house meeting on December 17, 2020 to review and discuss any questions about the Citywide and Small Area Proposed Text Amendments. Staff recommended that any public comments be submitted in writing or provided verbally at the EPC hearing.

Notification

Property Owner Mailed Notice

The IDO requires mailed notice of the application submittal and EPC hearing to each affected property owner and property owners within 100 feet of those areas, pursuant to IDO Subsection 14-16-6-4(K)(3)(d) Notice for Amendment to IDO Text – Small Area. A map of affected property owners was created by AGIS staff. This Small Area Text Amendment Map shows all of the affected properties that received notice of this amendment.

Notification letters of the application were sent out between November 25 and 30, 2020. They were mailed to 20,419 property owners within or adjacent to the small areas that are included in this application. The project memo asked if subject line of the mailed affidavit was not updated. This is correct, a description of a prior request is inadvertently shown in the subject line, but the number of letters mailed and the signed date of 11-25-2020 confirm that this was prepared this year for this 2020 Annual Update.

After completing the mass mailing to property owners, staff realized that an error was made in using the 2019 property owner data from Bernalillo County Assessor's Office. AGIS staff created a list of 2,808 properties that had a different owner mailing address in the 2020 Assessor's property owner data. Planning staff sent out the mailed notice to these addresses starting on December 31, 2020.

Neighborhood Association Notice

Table 6-1-1 indicates that written (hard-copy) and e-mail notification is required. For an application for Amendment to IDO Text – Small Area, notice was provided pursuant to 14-16-6-4(K)(3)(b)(3). This section states: "For all other applications: any Neighborhood Association whose boundaries include or are adjacent to the subject property or small area." This application is considered to be "all other applications" because it is not for applications (1) related to a citywide Policy Decision, or (2) related to a Wireless Telecommunications Facility. The list of Neighborhood Associations that are required to be

notice was provided by the Office of Neighborhood Coordination (attached to application), and created by AGIS geographic analysis of the small area boundaries and neighborhood association and coalitions data.

Electronic mailed notice is required, and mailed notice to Neighborhood Association representatives is only required if there is no e-mail address on file for that representative. Letters were mailed to any Neighborhood Representative who does not have an e-mail address on file with the Office of Neighborhood Coordination (IDO 6-4(K)(3)(b)(4)).

Neighborhood Associations that include or abut any of the small areas included in this application received emailed notice on November 27, 2020. There were 10 neighborhood representatives who either did not have an email address on file with the Office of Neighborhood Coordination or their mailbox was full and could not accept new messages. These individuals received mailed notice.

Property Owner and Neighborhood Association Notification Letter Content
The notification letters included links to the project website - https://abc-zone.com/ido-annual-update-small-area-text-amendments - where complete information on the application, the proposed amendments, the review and decision process, and scheduled meetings are posted. The letter also included information about a public Open House meeting held on December 17, 2020. There was an approximately hour-long presentation that was focused on citywide changes, followed by an hour-long question and answer session broken out into multiple break out rooms, including two designated for small area discussions.

Long Range staff have not received a request for a post-application facilitated meeting. If one is requested, Long Range staff will be happy to work with ADR to respond. Please note, however, that Citywide Policy Decisions are not listed in the section that would require a delay in the decision on the application to allow a post-submittal facilitated meeting (IDO 14-16-6-4(L)(2)). This is because the EPC is a review and recommending body, and continued opportunity for discussion and commenting is provided through the City Council review and decision process.

Conclusion

This request promotes public health, safety, and welfare by improving the quality and the enforceability of the existing land use and zoning regulations. These proposed amendments to the IDO text will promote economic growth and investment in the City as a whole. The proposed changes respond to challenges in implementing new regulations and neighborhood protections in a real-world context with real-world projects. Changes in market demands for housing and business needs, coupled with the imperative of protecting existing neighborhoods are addressed in the proposed edits and amendments.

Sincerely,

Mikaela Renz-Whitmore, Long Range Planning Manager

City Planning Department

PRE-APPLICATION REVIEW TEAM (PRT) MEETING REQUEST

Pre-application Review Team (PRT) Meetings are available to help applicants identify and understand the allowable uses, development standards, and processes that pertain to their request. ***PRT Meetings are for informational purposes only; they are non-binding and do not constitute any type of approval.*** Any statements regarding zoning at a PRT Meeting are not certificates of zoning. The interpretation of specific uses allowed in any zone district is the responsibility of the Zoning Enforcement Officer (ZEO).

When you submit PRT notes to meet a Pre-application Meeting requirement in Table 6-1-1, you will be charged a $50 PRT fee.

Official Use only

New Public Notice Forms

We have created forms for all email/mailed public notice and for Pre-submittal Neighborhood Meetings. Please complete these forms for public notice:

- Neighborhood Meeting or http://www.cabq.gov/planning/urban-design-development/neighborhood-meeting-requirement-in-the-integrated-development-ordinance
- Public Notice or http://www.cabq.gov/planning/urban-design-development/public-notice

Records requests

To request a site plan and/or Notice of Decision, please use ABQ Records web page:

https://www.cabq.gov/clerk/public-records

Please include the site's address and the Case Tracking #s (see Zoning Comments) in your request.

Requests to Inspect Public Records

Any person may submit their request to inspect public records to the Office of the City Clerk by clicking on the following link to request records using our ABQ Records portal. https://cabq.nextrequest.com/

This enables us to respond to requests in the order in which they are received. Plus, it's a better way to share large files.

- Linda Rumpf, lrumpf@cabq.gov

File Submittal

For Administrative Amendments, DRB, EPC, hydrology and traffic submittals, e-mail electronic files to PLNDRS@cabq.gov. For questions about an application submittal or the submittal process itself, please contact Jay Rodenbeck at jrodenbeck@cabq.gov and/or to Maggie Gould at mgould@cabq.gov.

For other questions, please contact the Planning representative at the top of the PRT Notes.

For Building Safety Plan Review, contact Building Safety at 924-3963. Website: https://www.cabq.gov/planning/building-safety-permits

EXHIBIT A

Exhibit A to the
Memo for the IDO Annual Update 2020 –
Application for Amendment to the IDO Text – Small Area

Northwest Mesa Escarpment – View Protection Overlay (VPO-2)
Actions:

1. Create a new Height Sub-area 2 within VPO-2 that is within 660 feet of the existing Height Sub-area. This area shall not include the Volcano Heights Urban Center. The existing VPO-2 Height Sub-area shall be referenced as VPO-2 Height Restrictions Sub-area 1.
2. Revise the VPO-2 boundary to include any areas where the proposed VPO-2 Height Restrictions Sub-area 2 is outside of the existing VPO-2 boundaries.
3. Revise Subsection 3-4(N)(4) Volcano Mesa – CPO-13 to read as follows: "Standards in this Subsection 14-16-3-4(N)(4) apply only outside of the sub-areas indicated in Subsection 14-16-3-6(E)(2) as the Northwest Mesa VPO-2 Height Restrictions Sub-area 1 and Sub-area 2.
4. Move existing content in 3-6(E)(3) to a new subsection (a) with heading VPO-2 Subarea 1 and create a new subsection (b) VPO-2 Subarea 2 as follows:
   Structure height shall not exceed 30 feet, as measured from natural grade, or the maximum height of the underlying zone district, whichever is lower.
5. Create a new subsection 3-4(N)(5)(c) Landscaping as follows and renumber subsequent subsections accordingly:
   "Within VPO-2 Sub-area 1 and 2, a minimum of 25 percent of the net lot area of each multi-family, mixed-use, or non-residential development shall contain landscaping."
6. Add the VPO-2 Height Restriction Sub-areas 1 and 2 to the MPOS Use Specific Standards:
   - Car Wash

   4-3(D)(15)(b) Within 330 feet of Major Public Open Space or within VPO-2 Height Restrictions Sub-areas 1 or 2, this use shall require a Conditional Use Approval pursuant to Subsection 14-16-6-6(A).

   4-3(D)(15)(c) Notwithstanding Subsection (a) above, this use is prohibited adjacent to Major Public Open Space.
   - Heavy Vehicle Sales, Rental, Fueling, and Repair

   4-3(D)(16)(h) This use is prohibited within 330 feet of Major Public Open Space or within VPO-2 Height Restrictions Sub-areas 1 or 2.
   - Light Vehicle Fueling

   4-3(D)(17)(m) This use is prohibited within 330 feet of Major Public Open Space or within VPO-2 Height Restrictions Sub-areas 1 or 2. .
   - Light Vehicle Repair

   4-3(D)(18)(e) This use is prohibited within 330 feet of Major Public Open Space or within VPO-2 Height Restrictions Sub-areas 1 or 2.
   - Light Manufacturing

   4-3(E)(2)(f) Within 330 feet of Major Public Open Space or within VPO-2 Height Restrictions Sub-areas 1 or 2, this use shall require a Conditional Use Approval pursuant to Subsection 14-16-6-6(A).

- Heavy Manufacturing

4-3(E)(3)(e) This use is prohibited in the following locations:
1. Within 330 feet of Major Public Open Space or within VPO-2 Height Restrictions Sub-areas 1 or 2.
2. Within 660 feet of a lot containing a religious institution or elementary, middle, or high school.
3. Within 1,000 feet of a lot containing a residential use other than an accessory dwelling unit used as a caretakers dwelling for a non-residential property.

- Natural Resource Extraction

4-3(E)(4)(d) This use is prohibited in the following locations:
1. Within 330 feet of Major Public Open Space or within VPO-2 Height Restrictions Sub-areas 1 or 2.
2. Within 1,000 feet of a lot containing a religious institution; elementary, middle, or high school; or residential use other than an accessory dwelling unit used as a caretakers dwelling for a non-residential property.

- Solid Waste Convenience Center

4-3(E)(12) Solid Waste Convenience Center This use is prohibited within 330 feet of Major Public Open Space or within VPO-2 Height Restrictions Sub-areas 1 and 2,.

- Waste Transfer Center

4-3(E)(14) Waste and/or Recycling Transfer Station This use is prohibited within 330 feet of Major Public Open Space or within VPO-2 Height Restrictions Sub-areas 1 or 2.

- Warehousing

4-3(E)(16) Warehousing Within 330 feet of Major Public Open Space or within VPO-2 Height Restrictions Sub-areas 1 or 2, this use shall require a Conditional Use Approval pursuant to Subsection 14-16-6-6(A).

- Wholesaling and Distribution Center

4-3(E)(17)(b) Within 330 feet of Major Public Open Space or within VPO-2 Height Restrictions Sub-areas 1 or 2, this use shall require a Conditional Use Approval pursuant to Subsection 14-16-6-6(A).

- Drive-through or drive-up Facility

4-3(F)(4)(c) Within 330 feet of Major Public Open Space or within VPO-2 Height Restrictions Sub-areas 1 or 2, this use shall require a Conditional Use Approval pursuant to Subsection 14-16-6-6(A).
4-3(F)(4)(d) Notwithstanding Subsection (a) above, this use is prohibited adjacent to Major Public Open Space.

LIST OF PROPOSED AMENDMENTS

2020 Annual Update - Small Areas

EPC Review - Hearing January 21, 2021

Page	Section	Change / Discussion	Explanation
36	Table 2-4-11	Revise Table 2-4-11 to add the following as a sub-line in the Setback Standard, Rear Minimum line for the MX-FB-ID, MX-FB-FX, and MX-FB-AC subzones: 0 feet where rear lot line abuts a street or alley.	Reduces the rear setback minimum in the Form-based zone district sub-zones (MX-FB-ID, MX-FB-FX, and MX-FB-AC) where the rear lot line abuts a street or an alley to 0 feet. This change is consistent with the 2019 revision for UC-MS-PT areas and the previous Downtown 2025 Sector Development Plan. See additional explanation in the Council Services Memo - Small Areas.
75	3-4(C)(5)(c) [new]	Add a new Subsection Parking Reductions with text as follows: "Parking reductions associated with proximity to Major Transit are not applicable in the Coors Boulevard VPO-1."	Exempts Coors Boulevard CPO from reduced parking requirements associated with Major Transit corridors. Reduced parking can result in more dense development patterns that could be contrary to the intentions of the Coors Boulevard CPO. See additional explanation in Council Services Memo - Small Areas.
79	3-4(D)(5)(a)1	Revise Subsection b. to move the second sentence to be a new Subsection d. and add a new Subsection c. as follows: "c. A garage door facing the street shall be set back a minimum of an additional 5 feet beyond the horizontal plane of the front façade, which includes a porch façade."	Carries forward a regulation adopted in the Downtown Neighborhood Area Sector Development Plan. First submitted with the 2019 Annual Update, which was legislative, but was re-submitted with notice to property owners.
79	3-4(D)(5)(a)1	Add a new subsection b. with text as follows: "The minimum rear yard setback for attached or detached garages off an alley is 5 feet."	Carries forward a regulation adopted in the Downtown Neighborhood Area Sector Development Plan. First submitted with the 2019 Annual Update, which was legislative, but was re-submitted with notice to property owners.
83	3-4(E)(5)(a)3	Add a new Subsection b with text as follows: "Parking structures shall have uses from Table 4-2-1 on the ground floor along at least 50 percent of the street-facing façade of the parking structure. a. Where ground floor uses aren't provided, opaque walls at least 3 feet high or vegetative screens at least 3 feet high at the time of planting shall be provided. b. Walls provided pursuant to Subsection a. above may be part of the structure of the building or may be a separate wall constructed between the building and the sidewalk."	Adds consistency with changes made to parking requirements in the EDo HPO (5-5(F)(4)(a)) as part of this 2020 Annual Update.

2020 Annual Update - Small Areas

EPC Review - Hearing January 21, 2021

Page	Section	Change / Discussion	Explanation
90	3-4(G)(3)(a)1.b	Revise text to read: "In new developments of 5 or more single-family and/or two-family detached dwellings, front setbacks shall be within 5 feet of the front setback of 1 existing single-family or two-family detached dwelling located on an abutting lot facing the same street as the subject property."	Clarifies that both options in this standard should apply to single-family homes and duplexes. As written in the IDO, a new subdivision of 5 or more duplexes wouldn't have any applicable setback rules.
90	3-4(G)(4)(b)	Revise to read: "Building height, maximum: 35 feet for buildings located more than 450 feet from the right-of-way of Interstate Highway 40."	Clarifies where the distance is to be measured from.
98	3-4(I)(5)(b)(4)b	Revise as follows: "Be built to function as or appear as a storefront or urban residential building frontage type."	Clarifies what a residential façade is and links the regulation to defined terms.
105	3-4(L)(3)	Replace text to read as follows: "Setback from the right-of-way of Rio Grande Boulevard between Indian School Road and Montano Road, minimum: 25 feet in the R-A zone and 20 feet in all other zones."	Revises the standard to be consistent with the Rio Grande Corridor Plan to apply only to the setback from Rio Grande and makes the structure parallel with the Coors Blvd. CPO-11. First submitted with the 2019 Annual Update, which was legislative, but was re-submitted with notice to property owners.
106	3-4(L)(5)(b)3	Replace "non-residential development" with "mixed-use or non-residential development."	Maintains the intent of the original regulation from the Rio Grande Corridor Plan now that mixed-use development is allowed. First submitted with the 2019 Annual Update, which was legislative, but was re-submitted with notice to property owners.
109	3-4(M)(5)(b)8	Revise as follows: "Street-facing façades over 35 feet long ~~on residential buildings~~ must be designed to appear as a collection of smaller buildings."	Applies standard to all residential development based on the Subsection title. Eliminates the term "residential buildings," which is not defined in the IDO. First submitted with the 2019 Annual Update, which was legislative, but was re-submitted with notice to property owners.

2020 Annual Update - Small Areas

EPC Review - Hearing January 21, 2021

Page	Section	Change / Discussion	Explanation
109	3-4(M)(5)(c)	Replace header and text to read as follows: "Building Design for Mixed-use and Non-residential Development" "In Mixed-use and Non-residential zone districts, the following building design regulations apply:"	Applies building design standards to MX development, as well as NR development. Applies the standards to all zones (not just zones existing currently in the CPO area). This will ensure that even if a property owner got a zone change to a different MX or NR zone, the building design standards would apply. First submitted with the 2019 Annual Update, which was legislative, but was re-submitted with notice to property owners.
109	3-4(M)(5)(c)5	Revise to read as follows: "Street-facing façades on buildings in non-residential development on Mountain Road or adjacent to a Residential zone district must be designed to appear as a collection of smaller buildings by incorporating variations in massing, building height, or building material at least every 35 feet of facade length."	Reinstates language from the Sawmill/Wells Park Sector Development Plan. Provides options for compliance that are consistent with other building design standards. First submitted with the 2019 Annual Update, which was legislative, but was re-submitted with notice to property owners.
111	3-4(N)(4)	Revise the first sentence to read as follows: "Standards in this Subsection 14-16-3-4(N)(4) apply only outside of the sub-areas indicated in Subsection 14-16-3-6(E)(2) as the Northwest Mesa VPO-2 Height Restrictions Sub-area 1 and Sub-area 2.	Editorial addition related to proposal to add a VPO-2 Height Restriction Sub-area 2. See related item for change to Northwest Mesa Escarpment VPO-2 in Subsection 3-6(E)(3). See additional explanation in Council Services Memo - Small Areas and Exhibit A.
112	3-4(N)(5)(c)	Revise to read as follows: "On streets designated as a local or collector, residential garages on corner lots shall be accessed from the side or rear lot line or alley."	Clarifies the intent of the garage setback regulations from the Volcano Cliffs Sector Development Plan to require driveway access for corner lots to be from the side of the lot, not the front of the lot.
112	3-4(N)(5)(c) [new]	Create a new subsection 3-4(N)(5)(c) Landscaping with text as follows and renumber subsequent subsections accordingly: "Within VPO-2 Sub-areas 1 and 2, a minimum of 25 percent of the net lot area of each multi-family, mixed-use, or non-residential development shall contain landscaping."	Requires more landscaping in the existing VPO-2 sub-area and a new sub-area to reduce the scale and intensity of a multi-family, mixed-use, or non-residential development; reduce the amount of the property with an impermeable surface; and reduce run-off near the Petroglyph National Monument. See additional explanation in the Council Services Memo - Small Areas.
114	3-4(N)(5)(d)2	Revise to read: "Three-car garages are only allowed on lots over 55 feet wide, and the third garage shall be set back a minimum of 2 feet from the façade of the other garages for any front-access garage."	Clarifies the intent of the garage set back to apply to garages that face the street. Garages that are turned to the side or accessed from an alley would not have to set back the third garage façade.

2020 Annual Update - Small Areas

EPC Review - Hearing January 21, 2021

Page	Section	Change / Discussion	Explanation
130	3-6(D)	Coors Boulevard VPO-2 Revise as shown in Exhibit 3-6(D) - Coors Boulevard VPO-2.	Incorporates changes proposed with the 2019 IDO update and clarifies issues raised during the EPC process in 2020. Generally, these changes specify what view is protected, the view point that view is taken from, defined terms, and more specific methodology about how to perform the view analysis. The changes clarify that the sight line is used for both the building height and bulk analyses and that more than one sight line may be required. Finally, minor revisions to the graphics are proposed to add clarity. See Exhibit 3-6(D).
132	3-6(D)(5)	Add a new Subsection with text as follows and renumber subsequent subsections accordingly: "No height bonuses allowed by Table 5-1-2 for Workforce Housing or Structured Parking are allowed."	Removes the bonus height available on Major Transit (MT) corridors, added in the 2019 IDO annual update. While the VPO-1 regulations would prevail any underlying zoning allowances, this provision makes it explicit that the 12-foot Workforce Housing Height Bonus is not applicable in the Coors VPO-1. See additional explanation in Council Services Memo - Small Areas.
133	3-6(D)(9) [new]	Add a new Subsection Parking Reductions with text as follows: "Parking reductions associated with proximity to Major Transit are not applicable in the Coors Boulevard VPO-1."	Exempts Coors Boulevard VPO-1 from reduced parking requirements associated with Major Transit corridors. Reduced parking can result in more dense development patterns that could be contrary to the intentions of the Coors Boulevard VPO. See additional explanation in Council Services Memo - Small Areas.
134	3-6(E)	Northwest Mesa Escarpment VPO-2. Revise as shown in Council Memo - Small Area Exhibit A.	Adds a second Height Restrictions sub-area and expands the Use Specific Standards in proximity to Major Public Open Space to both the existing and proposed Height Restriction sub-areas in VPO-2 in order to decrease the intensity of development in proximity to the NW Mesa Escarpment and the surrounding Petroglyph National Monument. The revised area does not include the Volcano Heights Urban Center, where more intense development is appropriate. See additional explanation in Council Services Memo - Small Areas and Exhibit A. See also related item for use-specific standards in Subsection 4-3.
135	3-6(E)(3)(c)2.b.	Revise as follows: "Structures that are ~~Two-story construction that is~~ located and designed so that…"	Deletes "Two-story," as this criterion should apply to any construction, not just two-story buildings. First submitted with the 2019 Annual Update, which was legislative, but was re-submitted with notice to property owners.

2020 Annual Update - Small Areas

EPC Review - Hearing January 21, 2021

Page	Section	Change / Discussion	Explanation
Multiple	4-3	Add "or within VPO-2 Sub-areas 1 or 2" to the use-specific standards for the following uses after "Within 330 feet of Major Public Open Space": Car Wash Heavy Vehicle Sales, Rental, Fueling, and Repair Light Vehicle Fueling Light Vehicle Repair Light Manufacturing Heavy Manufacturing Natural Resource Extraction Solid Waste Convenience Center Waste Transfer Center Warehousing Wholesaling and Distribution Center Drive-through or Drive-up Facility	Extends use restrictions for Major Public Open Space to the existing VPO-2 sub-area and a new sub-area to limit the intensity of development in these sub-areas. See related items to revise the Northwest Mesa Escarpment VPO-2 in Subsection 3-6(E). See additional explanation in Council Services Memo - Small Area and Exhibit A.
154	4-3(B)(7)(d)	Revise to read as follows: "This use shall require a Conditional Use Approval pursuant to Subsection 14-16-6-6(A) if located on the ground floor of any building in the Downtown Center <u>in any zone district other than MX-FB-ID</u> or Volcano Heights Urban Center areas."	Eliminates a conflict between this regulation, which requires conditional use approval for residential on the ground floor, and a small area zoned MX-FB-ID in the Downtown Center. This area previously had a housing focus in the Downtown 2025 Sector Development Plan.
193	4-3(F)(4)(e)9	Revise to read as follows: “This use is prohibited in the following mapped area (which includes all of the Uptown Urban Center as mapped in the ABC Comp Plan, as amended) unless accessory to a use other than a restaurant <u>or located within 1,320 feet (1/4 mile) in any direction of the right-of-way of Interstate Highway 40.</u>”	Allows drive-through or drive-up facilities that are accessory to a restaurant within the Uptown Area when located within 1,320 feet of the public right-of-way of I-40. Development Standards for Drive-through or Drive-up Facility Design in Subsection 5-5(I)(2) would still apply to minimize potential conflicts between pedestrians and vehicles. See additionl explanation in Council Services Memo - Small Area.
212	5-1(C)(2)(b)2	Revise to read: "Within UC-MS-PT areas or within 1,320 feet (¼ mile) of <u>DT-</u>UC-MS-PT areas, new low-density residential development…"	Extends the allowance for more flexible infill opportunities in more urban areas to also apply within 1/4 mile of the Downtown Center.

2020 Annual Update - Small Areas

EPC Review - Hearing January 21, 2021

Page	Section	Change / Discussion	Explanation
250	5-5(B)(2)(a)1	Revise as follows: "~~Downtown Area~~ Downtown Center" Delete map.	Makes the off-street parking exemption apply only within the Downtown Center as established by the Comprehensive Plan. The existing map in the IDO is the boundary of the Downtown 2025 Sector Development Plan, which included some blocks from the Downtown Neighborhood Area SDP, Huning Castle Raynolds Addition SDP, and McClellan Park SDP. Those areas were not converted to MX-FB zones, and this edit would make off-street parking requirements apply per Table 5-5-1 in those areas.
270	5-5(F)(4)(a)3	Revise text to read as follows: "Parking structures shall have uses from Table 4-2-1 on the ground floor along at least 50 percent of the street-facing façade of the parking structure. a. Where ground floor uses aren't provided, opaque walls at least 3 feet high or vegetative screens at least 3 feet high at the time of planting shall be provided. b. Walls provided pursuant to Subsection a. above may be part of the structure of the building or may be a separate wall constructed between the building and the sidewalk."	Adds consistency with changes made to parking requirements in the EDo CPO as part of the 2019 Annual Update and as part of this 2020 Annual Update. See related item for a change to the East Downtown CPO in Subsection 3-4(E)(5)(a)3.
332	5-12(E)(4)(d)	Add a new subsection 1. and renumber accordingly: "Near Downtown Center. Rooftop signs are allowed pursuant to Subsection 14-16-5-12-(F)(3)(a) (Standards Applicable in Small Areas)."	Editorial change related to proposal for changes to Subsection 5-12(F)(3). See additional explanation in the Council Services Memo - Small Areas.
336	5-12(F)(3)	Add a new subsection (a) and renumber accordingly: "Near Downtown Center. Rooftop signs are allowed in any Mixed-use or Non-residential zone district in the Downtown Center or in any Mixed Use or Non Residential zone district within 330 feet of the Downtown Center. 1. Only 30 percent of the sign area shall consist of channel letters, channel graphics, open lighting elements, or a solid panel. 2. The structural framework of the sign shall be visible for the remaining 70 percent of the sign area."	Allows rooftop signs in and within 330 feet of the Downtown Center. Historically rooftop signs were located in the downtown core and along Central Avenue on commercial buildings. See additional explanation in the Council Services Memo - Small Areas.

2020 Annual Update - Small Areas

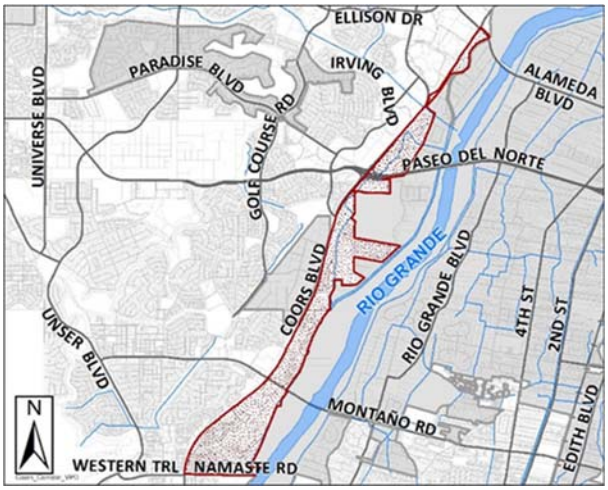

EPC Review - Hearing January 21, 2021

Page	Section	Change / Discussion	Explanation
345	5-12(H)(2)(f)	Add a new Subsection 5 to prohibit electronic signs in Volcano Mesa CPO-13.	Carries forward an electronic sign prohibition from Volcano Cliffs Sector Plan that was inadvertently omitted and extends it to the entire Volcano Mesa CPO area.
378	6-4(J)(5) [new]	National Park Service and Open Space Division of the City Parks and Recreation Department for applications that include development within 660 feet of the Petroglyph National Monument.	The Petroglyph National Monument of the National Park Service requested early notification of development that is near the park boundary, which could impact how access is managed. Early notification could improve implementation of the Sensitive Lands standards.
459	6-6(N)(3)(c)	Revise to read: "...because of physical and/or engineering constraints (e.g. rock outcroppings, street grades, drainage requirements, ADA compliance, utility design, etc.)."	Stormwater is not allowed to drain into the Petroglyph National Monument, so building sites need to drain towards streets. Where streets are constructed and street elevations therefore already set, properties often need variances to the 15-foot building height because fill is needed to ensure that the site drains to the road.

3-6(D) COORS BOULEVARD – VPO-1

3-6(D)(1) Applicability

The VPO-1 standards apply in the following mapped area. Where the VPO-1 boundary crosses a lot line, the entire lot is subject to these standards.

3-6(D)(2) Protected Views

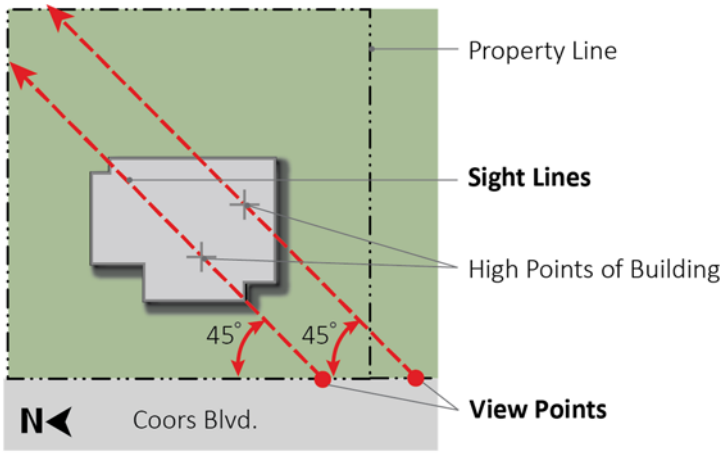

Views protected by this VPO-1 are from Coors Boulevard, along the segment between Western Trail/Namaste Road and Alameda Boulevard, looking toward the Rio Grande Bosque and the ridgeline of the Sandia Mountains from each view point.

3-6(D)(3) Definitions

The terms defined and illustrated below are used in the standards of this VPO-1.

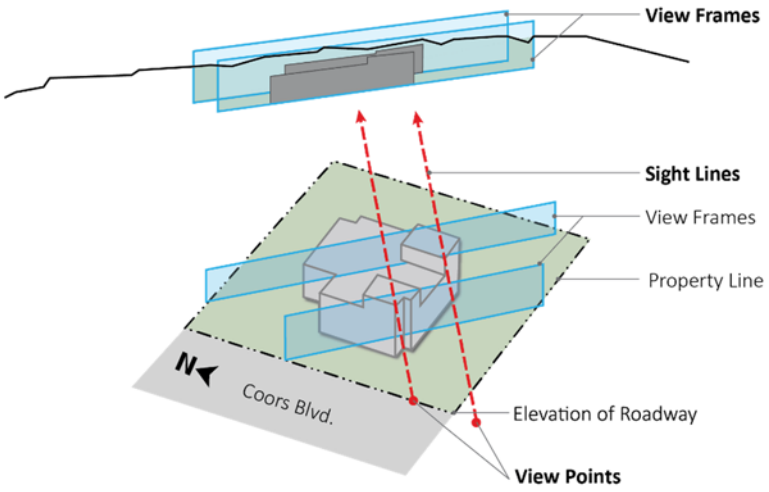

3-6(D)(3)(a) Sight Lines

1. Lines that begin at each view point along Coors Boulevard, looking toward the ridgeline of the Sandia Mountains at a 45 degree angle from the east edge of the roadway.
2. Sight lines are required to intersect the highest point(s) of the proposed building(s) on the site. If the building ~~has no higher point~~ is all the same height, a sight line shall begin at a view point at the lowest elevation(s) of the ~~public right-of-way~~ of Coors Boulevard abutting or nearest to the site that allows the sight line to pass through the building.
3. The sight line is used as the perspective for the analysis in Subsections 14-16-3-6(D)(5)(a) (Building Height) and 14-16-3-6(D)(5)(b) (Building Bulk). Multiple sight lines may be required depending on the size of the site and shape of the building(s). (See figure below.)

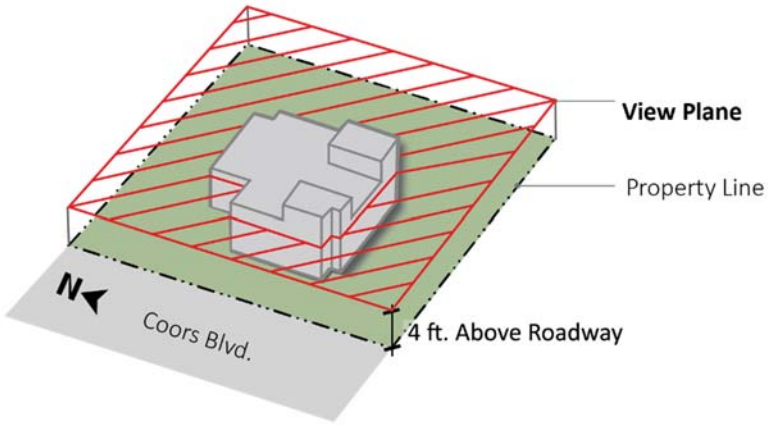

3-6(D)(3)(b) View Frame

A vertical rectangular frame drawn perpendicular (i.e. 90 degrees) to a given sight line ~~through the highest point of the proposed building~~. The top of the view frame is established by the highest visible point of the Sandia ridgeline within the view frame. The bottom of the view frame is the elevation of the public right-of-way of Coors Boulevard where the sight line begins. The left and right edges of the view frame are an upward projection of the property lines at the site boundary where the view frame intersects the property lines. As many view frames as necessary to capture all the sight lines on a site are required. (See figure below.)

3-6(D)(3)(c) View Plane

A horizontal ~~view~~ plane 4 feet above the elevation of the east edge of the east driving lane on Coors Boulevard, based on the elevation of the view point for a given sight line, and ~~extending horizontally above the sites located east of Coors Boulevard~~ considering the perspective that would be seen along the sight line. Multiple view planes may be required if the elevation of Coors Boulevard varies across the site. (See figure below.)

3-6(D)(3)(d) View Point

The location that the views from Coors Boulevard are protected from, representing the approximate position of a passenger in a vehicle traveling north along Coors Boulevard. A view point is set at the east edge of the east driving lane on Coors Boulevard and is 4 feet above the elevation of Coors Boulevard at that location. The view point is the starting point for the sight line.

3-6(D)(4) Setback Standards

Within this VPO-1, the setback standards in Subsection 14-16-3-4(C)(3)(b) (Setback from Coors Boulevard) shall apply for lots abutting Coors Boulevard.

3-6(D)(5) Structure Height, Bulk, and Massing

All development within this VPO-1 shall meet all of the following requirements.

3-6(D)(5)(a) Structure Height (Zone District)

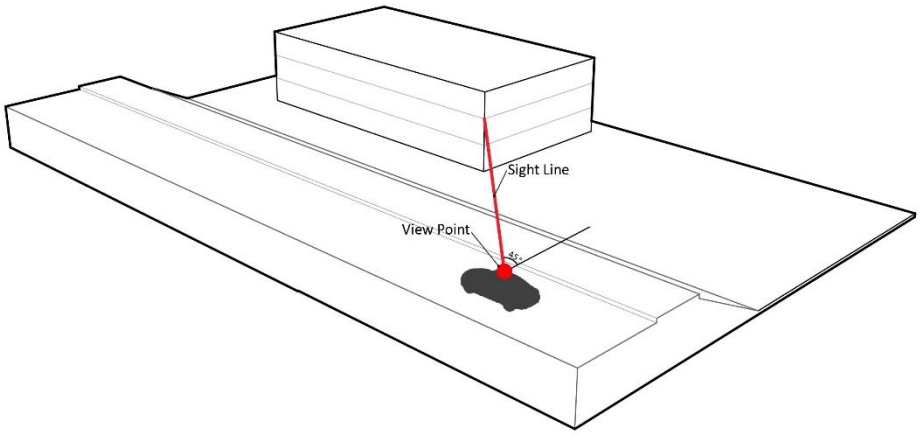

If the maximum height allowed by the zone district is lower than what would otherwise be allowed by the height, bulk, and massing regulations, the maximum height of the zone district shall apply.

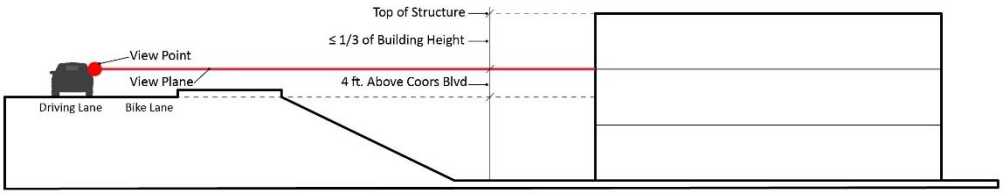

3-6(D)(5)(b) Structure Height (View Plane)

No more than 1/3 of the height of structures (including building parapets, mechanical equipment and associated screening, walls, and fences) shall be allowed to penetrate above the view plane as seen along each sight line and as shown in section diagram below, with the following exceptions:

1. For low-density residential development, a total height of 16 feet is allowed for structures other than walls on a lot ~~with developable area that is constrained because~~ where, because of site constraints, any portion of a structure is proposed in a location where the natural grade (or finished grade, if infrastructure is already installed) is less than or equal to 10 feet below the elevation of the east edge of the public right-of-way of Coors Boulevard. ~~may also include sensitive lands (see Subsection 14-16-**Error! Reference source not found.**)~~.

2. For development other than low-density residential development, a total height of 20 feet is allowed for structures other than walls on a lot where, because of site constraints, any portion of a structure is proposed in a location where the natural grade (or finished grade, if infrastructure is already installed) is less than or equal to 10 feet below the elevation of the east edge of Coors Boulevard.

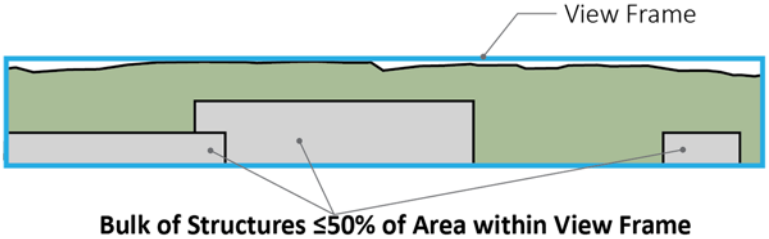

Note: This section is taken along a sight line or parallel to the closest sight line.

3-6(D)(5)(c) Structure Bulk (View Frame)

Looking from the view point, no more than 50 percent of the area within any view frame for a property shall be obscured by the bulk of the structure(s) (including walls and fences) placed on the property. No portion of a structure shall extend above the ridgeline of the Sandia Mountains that is visible within any view frame for a property. (See figure below.)

Bulk of Structures ≤50% of Area within View Frame

3-6(D)(5)(d) Building Massing (Site Layout)

Projects containing several buildings shall provide variety in building size and massing. Lower, smaller buildings shall be located closer to Coors Boulevard, with larger, taller buildings located farther back on the property. (See figure below.)

3-6(D)(6) Colors

The exterior surfaces of structures, including but not limited to mechanical devices, roof vents, and screening materials, shall be colors with light reflective value (LRV) ranging from 20 percent to 50 percent. This middle range of reflectance is intended to avoid very light and very dark colors.

3-6(D)(6)(a) Allowable colors include the browns and greens existing within the Bosque.

3-6(D)(6)(b) Trim materials on façades constituting less than 10 percent of the façade's opaque surface may be any color.

3-6(D)(7) Site Landscaping Within Coors Boulevard Setback

3-6(D)(7)(a) Any private landscaping other than trees shall not be higher at maturity than the view plane.

3-6(D)(7)(b) Tree varieties shall be selected for small "see through" type foliage texture and shall be planted singularly or in small groupings with concern for enhancing, not blocking, views to the east.

3-6(D)(8) Variances

Variances to standards for setback, structure height, or structure bulk and massing in this Coors Boulevard – VPO-1 shall be reviewed and decided by the Environmental Planning Commission (EPC) pursuant to Subsection 14-16-6-6(N) (Variance – EPC).

3-6(D)(9) Cross-references

3-6(D)(9)(a) Subsection 14-16-3-4(C) (Coors Boulevard – CPO-2).

3-6(D)(9)(b) Subsection 14-16-3-4(C)(3) (Coors Boulevard – CPO-2 Setback Standards).

3-6(D)(9)(c) Subsection 14-16-5-12(G)(1)(e) (Off-premises Signs Prohibited).

3-6(D)(9)(d) Subsection 14-16-6-4(P)(3)(e) (Deviations to Overlay Standards Not Allowed).

3-6(D)(9)(e) Subsection 14-16-6-6(N) (Variance – EPC).

Exhibit A to the
Memo for the IDO Annual Update 2020 –
Application for Amendment to the IDO Text – Small Area

Northwest Mesa Escarpment – View Protection Overlay (VPO-2)
Actions:

1. Create a new Height Sub-area 2 within VPO-2 that is within 660 feet of the existing Height Sub-area. This area shall not include the Volcano Heights Urban Center. The existing VPO-2 Height Sub-area shall be referenced as VPO-2 Height Restrictions Sub-area 1.
2. Revise the VPO-2 boundary to include any areas where the proposed VPO-2 Height Restrictions Sub-area 2 is outside of the existing VPO-2 boundaries.
3. Revise Subsection 3-4(N)(4) Volcano Mesa – CPO-13 to read as follows: "Standards in this Subsection 14-16-3-4(N)(4) apply only outside of the sub-areas indicated in Subsection 14-16-3-6(E)(2) as the Northwest Mesa VPO-2 Height Restrictions Sub-area 1 and Sub-area 2.
4. Move existing content in 3-6(E)(3) to a new subsection (a) with heading VPO-2 Subarea 1 and create a new subsection (b) VPO-2 Subarea 2 as follows:
   Structure height shall not exceed 30 feet, as measured from natural grade, or the maximum height of the underlying zone district, whichever is lower.
5. Create a new subsection 3-4(N)(5)(c) Landscaping as follows and renumber subsequent subsections accordingly:
   "Within VPO-2 Sub-area 1 and 2, a minimum of 25 percent of the net lot area of each multi-family, mixed-use, or non-residential development shall contain landscaping."
6. Add the VPO-2 Height Restriction Sub-areas 1 and 2 to the MPOS Use Specific Standards:
   - Car Wash

   4-3(D)(15)(b) Within 330 feet of Major Public Open Space or within VPO-2 Height Restrictions Sub-areas 1 or 2, this use shall require a Conditional Use Approval pursuant to Subsection 14-16-6-6(A).

   4-3(D)(15)(c) Notwithstanding Subsection (a) above, this use is prohibited adjacent to Major Public Open Space.
   - Heavy Vehicle Sales, Rental, Fueling, and Repair

   4-3(D)(16)(h) This use is prohibited within 330 feet of Major Public Open Space or within VPO-2 Height Restrictions Sub-areas 1 or 2.
   - Light Vehicle Fueling

   4-3(D)(17)(m) This use is prohibited within 330 feet of Major Public Open Space or within VPO-2 Height Restrictions Sub-areas 1 or 2. .
   - Light Vehicle Repair

   4-3(D)(18)(e) This use is prohibited within 330 feet of Major Public Open Space or within VPO-2 Height Restrictions Sub-areas 1 or 2.
   - Light Manufacturing

   4-3(E)(2)(f) Within 330 feet of Major Public Open Space or within VPO-2 Height Restrictions Sub-areas 1 or 2, this use shall require a Conditional Use Approval pursuant to Subsection 14-16-6-6(A).

- Heavy Manufacturing

4-3(E)(3)(e) This use is prohibited in the following locations:
1. Within 330 feet of Major Public Open Space or within VPO-2 Height Restrictions Sub-areas 1 or 2.
2. Within 660 feet of a lot containing a religious institution or elementary, middle, or high school.
3. Within 1,000 feet of a lot containing a residential use other than an accessory dwelling unit used as a caretakers dwelling for a non-residential property.

- Natural Resource Extraction

4-3(E)(4)(d) This use is prohibited in the following locations:
1. Within 330 feet of Major Public Open Space or within VPO-2 Height Restrictions Sub-areas 1 or 2.
2. Within 1,000 feet of a lot containing a religious institution; elementary, middle, or high school; or residential use other than an accessory dwelling unit used as a caretakers dwelling for a non-residential property.

- Solid Waste Convenience Center

4-3(E)(12) Solid Waste Convenience Center This use is prohibited within 330 feet of Major Public Open Space or within VPO-2 Height Restrictions Sub-areas 1 and 2,.

- Waste Transfer Center

4-3(E)(14) Waste and/or Recycling Transfer Station This use is prohibited within 330 feet of Major Public Open Space or within VPO-2 Height Restrictions Sub-areas 1 or 2.

- Warehousing

4-3(E)(16) Warehousing Within 330 feet of Major Public Open Space or within VPO-2 Height Restrictions Sub-areas 1 or 2, this use shall require a Conditional Use Approval pursuant to Subsection 14-16-6-6(A).

- Wholesaling and Distribution Center

4-3(E)(17)(b) Within 330 feet of Major Public Open Space or within VPO-2 Height Restrictions Sub-areas 1 or 2, this use shall require a Conditional Use Approval pursuant to Subsection 14-16-6-6(A).

- Drive-through or drive-up Facility

4-3(F)(4)(c) Within 330 feet of Major Public Open Space or within VPO-2 Height Restrictions Sub-areas 1 or 2, this use shall require a Conditional Use Approval pursuant to Subsection 14-16-6-6(A).
4-3(F)(4)(d) Notwithstanding Subsection (a) above, this use is prohibited adjacent to Major Public Open Space.

MEMO COUNCIL SERVICES

CITY OF ALBUQUERQUE
CITY COUNCIL

INTEROFFICE MEMORANDUM

TO: **Brennon Williams, Planning Department Director**
Mikaela Renz-Whitmore, Long Range Manager

FROM: **Stephanie Yara, Director of Council Services**

SUBJECT: **IDO Annual Update 2020 – Application for Amendment to the IDO Text – Small Area**

DATE: **October 19th, 2020, revised November 19th, 2020**

Director Williams and Ms. Renz-Whitmore,

Please include the following Amendments to the IDO Text – Small Area as part of the 2020 IDO Annual Update application materials to be submitted to the Environmental Planning Commission in November 2020. The proposed amendments are located in the following four small areas:

- Uptown Area
- Form Based Zone District and Subzones
- Downtown Center
- Northwest Mesa Escarpment – View Protection Overlay (VPO-2)
- Coors Boulevard – View Protection Overlay (VPO-1)
- Coors Boulevard – Character Protection Overlay (CPO-2)

* Please note that the following sections and page numbers are from the May 2018 IDO version of the IDO, please update the sections and page numbers once the November 2019 IDO is available as that will be the version of the IDO in effect when the application is submitted.

<u>Uptown Area</u>

- **Topic:** Uptown Area
- **IDO Page #:** 175
- **IDO Section:** 4-3(F)(4)(e)9.
- **Change/ Discussion:** Revise as follows “This use is prohibited in the following mapped area (which includes all of the Uptown Urban Center as mapped in the ABC Comp Plan, as amended) unless accessory to a use other than a restaurant

or located within 1,320 feet in any direction of the right-of-way of Interstate Highway 40."

- **Explanation:** This allows drive through or drive up facilities that are accessory to a restaurant within the Uptown Area when located within 1,320 feet of the public right-of-way of I-40. The previous Uptown Sector Development Plan had included a prohibition on drive through or drive up restaurants in order to encourage walkable urban design for Uptown. Drive through or drive up facilities for other uses such as banks and pharmacies were allowed under the previous plan, and are allowed under the IDO in Uptown. However, the areas in close proximity to I-40 are not walkable, given the heavy traffic volumes in these immediate areas. The allowance for drive through or drive up facilities in association with a restaurant in this area is appropriate given the character of the area. While this revision would allow for a drive through or drive up facility, the Development Standards for Drive Through or Drive Up Facility Design in Subsection 5-5(I)(2) would still apply. These standards ensure that the design of the facility minimizes the potential conflicts between pedestrians and vehicles.

Form Based Zone District and Subzones

- **Topic:** Form Based Zone District and Subzones
- **IDO Page #:** 34
- **IDO Section:** Table 2-4-11
- **Change/ Discussion:** Revise Table 2-4-11 to add the following note or sub-line in the Setback Standard, Rear Minimum line for the MX-FB-ID, MX-FB-FX, and MX-FB-AC subzones: 0 feet where rear lot line abuts a street or alley.
- **Explanation:** This reduces the rear setback minimum in the Form Based Zone District subzones (MX-FB-ID, MX-FB-FX, and MX-FB-AC) where the rear lot line abuts a street or an alley to 0 feet. This is consistent with the 2019 revision for UC-MS-PT areas that reduced the rear setback minimum to 0 feet where the rear lot line abuts a street or alley. It is also consistent with the previous Downtown 2025 Sector Development Plan which allowed a 0 feet rear setback when the lot had an alley or street to the rear. At present the Form Based Zone Districts are mapped only within the boundaries of the former Downtown 2025 Sector Development Plan.

Near Downtown Center

- **Topic:** Signs
- **IDO Page #:** 299
- **IDO Section:** 5-12(E)(4)(d)
- **Change/ Discussion:** Add a new subsection 1. and renumber accordingly: Near Downtown Center. Rooftop signs are allowed pursuant to Subsection 14-16-5-12-(F)(3)(a) (Standards Applicable in Mapped Areas).
- **Explanation:** Rooftop signs were added as sign type during the adoption of the IDO in 2018, but allowed the signs only within the East Downtown CPO and HPO. Historically rooftop signs were located in the downtown core and along Central Avenue on commercial buildings. This would extend the allowance to the Downtown Center and lots within 330 feet of the Downtown Center.

Near Downtown Center

- **Topic:** Signs
- **IDO Page #:** 304
- **IDO Section:** 5-12(F)(3)
- **Change/ Discussion:** Add a new subsection (a) and renumber accordingly: Downtown Center. Rooftop signs are allowed in any Mixed-use or Non-residential zone district in the Downtown Center or in any Mixed Use or Mixed-use or Non-residential zone district within 330 feet of the Downtown Center: 1. Only 30 percent of the sign area shall consist of channel letters, channel graphics, open lighting elements, and/or a solid panel. 2. The structural framework of the sign shall be visible for the remaining 70 percent of the sign area.
- **Explanation:** See row *above*

Northwest Mesa Escarpment – View Protection Overlay (VPO-2)

- **Topic:** Northwest Mesa Escarpment VPO-2
- **IDO Page #:** Multiple
- **IDO Section:** Multiple
- **Change/ Discussion:** See Exhibit A (Note: please renumber if necessary in application)
- **Explanation:** The proposed revisions to the NWME VPO-2 add a second Height Restrictions subarea and expands the Use Specific Standards in proximity to MPOS to both the existing and proposed Height Restriction subareas in VPO-2. This is intended to add an additional area of transition and to decrease the intensity of development in proximity to the Escarpment and the surrounding Petroglyph National Monument. The revised area does not include the Volcano Heights Urban Center, which the Comprehensive Plan has designated as being an area where more intense development is appropriate. Within the proposed new Height Restrictions subarea heights would be limited to 30 feet, or the maximum of the underlying zone, whichever is lower, and requires an increased level of landscaping. In general, when a property is developed the land is used for one of three things: parking, buildings/ structures, and landscaping. By increasing the landscaping area requirement from 15% to 25% of the net lot area, the scale and intensity of a multifamily, mixed use, or nonresidential development is reduced. In addition, this reduces the amount of the property that can be developed with an impermeable surface and reduces the run off volumes from each site. The Petroglyph National Monument has expressed concerns over the years about the impact of adjacent development, and run off is a component of that concern. These design regulations are intended to limit the intensity of development within the area. In addition, the MPOS Use Specific standards are extended to encompass both of the Height Restriction Subareas.

Coors Boulevard – View Protection Overlay (VPO-1)

- **Topic:** Building Height Bonus Prohibition

- **IDO Page #:** 121
- **IDO Section:** 3-6(D)(5)
- **Change/ Discussion:** Revise the first part of the section as follows:
  3-6(D)(5) **Height, Bulk, and Massing** No height bonuses allowed by Table 5-1-2 for Workforce Housing or Structured Parking are allowed. All development within this VPO-1 shall meet all of the following requirements.
- **Explanation:** With the adoption of the 2019 IDO Annual Update the Workforce Housing 12-foot Building Height bonus was applied to Major Transit Corridors. Coors is designated a Major Transit Corridor. The Coors Boulevard VPO-1 regulates building placement and height in relation to views. While the VPO-1 regulations would supersede any underlying zoning allowances, this provision makes it explicit that the 12-foot Workforce Housing Height Bonus is not applicable in the Coors VPO-1.

Coors Boulevard – View Protection Overlay (VPO-1)

- **Topic:** Major Transit Parking reduction exemption
- **IDO Page #:** 123
- **IDO Section:** 3-6(D)
- **Change/ Discussion:** Create a new section as follows:
  3-6(D)(9) **Parking Reductions**
  (a) Parking reductions associated with proximity to Major Transit are not applicable in the Coors Boulevard VPO-1.
- **Explanation:** With the adoption of the 2019 IDO Annual Update a 20% reduction in parking in proximity to Major Transit was applied. Coors Boulevard is a Major Transit Corridor. This revision would exempt Coors Boulevard VPO-1 from the reduction in parking. Reduced parking can result in more dense development patterns that could be contrary to the intentions of the Coors Boulevard VPO.

Coors Boulevard – Character Protection Overlay (CPO-2)

- **Topic:** Major Transit Parking reduction exemption
- **IDO Page #:** 72
- **IDO Section:** 3-4(C)(5)
- **Change/ Discussion:** Add a new Section 3-4(5)(g):
  3-4(C)(5)(g) **Parking Reductions**
  Parking reductions associated with proximity to Major Transit are not applicable in the Coors Boulevard CPO-2.
- **Explanation:** With the adoption of the 2019 IDO Annual Update a 20% reduction in parking in proximity to Major Transit was applied. Coors Boulevard is a Major Transit Corridor. This revision would exempt Coors Boulevard CPO-2 from the reduction in parking. Reduced parking can result in more dense development patterns that could be contrary to the intentions of the Coors Boulevard CPO.

NEIGHBORHOOD MEETING

Proof of Pre-submittal Neighborhood Meeting per IDO Section 14-16-6-4(C)

1. An application for Amendment to IDO Text – Small Area requires an offer of a pre-submittal neighborhood meeting, per Table 6-1-1.
2. The attached documentation demonstrates that a meeting was offered to all of the Neighborhood Association representatives on file with the Office of Neighborhood Coordination, along with the list of individuals who received notice.
3. Two facilitated meetings were held to satisfy this requirement. The following is proof that the meeting occurred:
    a. The attached facilitated meeting notes, provided by an independent, third-party facilitator are proof that a meeting occurred.
    b. The following email addresses were provided via chat during the meeting:
        i. marwan.christina@gmail.com
        ii. peggyd333@yahoo.com
        iii. Jane.Baechle@gmail.com
    c. Additional attendees are listed in the facilitated meeting notes.
4. Meeting location, date, and time:
    a. Zoom Meeting on Monday, November 23, 2020 at 12:30 pm
        i. https://cabq.zoom.us/j/95955113339
        ii. Phone: +1-346-248-7799, Meeting ID: 959 5511 3339
    b. Zoom Meeting on Monday, November 23, 2020 at 5:30 pm
        i. https://cabq.zoom.us/j/97337147540
        ii. Phone: +1-346-248-7799, Meeting ID: 973 3714 7540
5. Summary of discussion, including concerns raised, areas of agreement and disagreement, and next steps identified, if any:
    a. The facilitated meeting report includes a summary of discussion, concerns raised, and areas of agreement and disagreement.
6. Identification of any design accommodations that may have been made as a result of the meeting.
    a. This is an Amendment to IDO Text – Small Area, and does not include any proposed development or design.
    b. In terms of accommodations made in the application, the main change includes removing the proposed amendment to the Volcano Mesa CPO-13 to allow cluster developments to have up to 75% of the building footprint as a second story. This item received the most discussion and opposition. Council staff pointed out that this rule in the Sector Plan only applied to one zone. Staff research after the first meeting identified that there is a very limited area within the CPO that could have applied this rule prior to adoption of the IDO; adoption of the rule would have extended the applicability throughout the CPO. As a substantial change, it would be more appropriate to consider this during the CPA process.
7. If the concerns raised at the meeting have not been accommodated, the applicant must identify the site or project constraints that limit the ability to address those concerns. The following concerns raised at the meeting were not accommodated:

a. Rio Grande Blvd. CPO: The minimum setback from the right-of-way between Indian School and Montano should be 20 feet, not 25 feet.
    i. Response: This comment will be considered during the City's review/decision process.
b. Los Duranes CPO: The setback requirement should include the term "duplexes."
    i. Response: This comment will be considered during the City's review/decision process.
c. Downtown Area: The person in attendance did not agree with changing the term "Downtown Area" to "Downtown Center," then limiting the parking exemption for new developments to that in the Downtown Center. This would shrink the current parking exemption for developers.
    i. Response: Many residents have called for this change because of limited parking for multi-family developments outside of the Downtown Center in the residential neighborhoods. Existing developments would be allowed as nonconforming. New development would have to provide parking on-site, on-street, or via shared parking.
d. Northwest Mesa VPO: The new sub-area proposed height cap of 30 feet within 660' of the current height restriction area is still too high and should be negotiated before the City submits the application.
    i. Response: Staff believes that this amendment would add a new height limitation, which is consistent with the desired goal of lowering building heights near the Petroglyph National Monument. Delaying consideration of this would allow taller buildings to come in, so delaying this amendment would be counter to the desired goal of Council and meeting attendees.
e. Northwest Mesa VPO: Miscellaneous comments provided in the chat discussion.
    i. Response: These comments will be considered during the City's review/decision process.
f. Coors Corridor VPO: The current regulations do not consider the impact that buildings on abutting sites may have within a view frame, which would further restrict views.
    i. Response: This comment will be considered during the City's review/decision process.
g. Volcano Mesa CPO: One resident had concerns about the urban center as too dense for the mesa top. The same resident is concerned that the City is not planning parks on the west side.
    i. Response: None of the proposed changes affect these concerns. The Volcano Heights Urban Center is adopted in the Comprehensive Plan, which would have to be amended to change the designation of this area. Park planning is the purview of the City Parks and Recreation Department and is constrained by the Impact Fee Ordinance, which gathers money for parks and sets a geography within which those funds must be spent.

8. The Facilitated Meeting Report is posted on the project website at this address, under the section Pre-submittal Neighborhood Meeting: https://abc-zone.com/ido-annual-update-small-area-text-amendments

Pre-submittal Neighborhood Meeting

The City's Alternative Dispute Resolution (ADR) will facilitate a pre-submittal Neighborhood Meeting, as required by IDO Subsection 14-16-6-4(C). There will be two opportunities to hear the same presentation.

WHEN: Monday, November 23, 2020, 12:30 - 2 p.m. via Zoom

WHEN: Monday, November 23, 2020, 5:30 -7:00 p.m. via Zoom

WHERE: Online via Zoom

WHO: All affected Neighborhood Associations

- Pre-submittal Neighborhood Meeting Request
- Pre-submittal Meeting Request Notice Checklist
- Pre-submittal Neighborhood Meeting Presentation
- Pre-submittal Neighborhood Meeting Summary

Other participants with email addresses on file:

- Chanteil Walter: Chanteil_Walter@nps.gov
- Pat Gallagher: patgllgr@aol.com
- Mike Voorhees: mike@cyonic.com
- Rene Horvath: aboard10@juno.com
- Tricia Keffer: tkeffer@cabq.gov
- Michael Vos: vos@consensusplanning.com
- Joshua Beutler: jlbeutler@gmail.com

The meeting report was sent on November 27, 2020 by the meeting facilitator to all of the Neighborhood Association representatives who received notice of the meeting.

CITY OF ALBUQUERQUE FACILITATION PROGRAM
MEETING SUMMARY REPORT

Project:	IDO Small Area Text Amendments Community Meetings
Facilitators:	Philip Crump, Jessie Lawrence, Jocelyn Torres
Report Submitted By:	Jessie Lawrence
Meeting Date/Time:	November 23, 2020, 12:30 PM and 5:30 PM
Meeting Location:	Via Zoom
Number of Participants:	Approximately 30 over two meetings, plus City staff participants

Background and Summary:
CABQ long-range planning staff hosted two community meetings to share information and get community members' input about submitted text amendments to the IDO affecting 14 small areas in the city. Staff presented the proposed amendments and received questions and feedback.

Most questions and concerns were about proposed changes to the Volcano Mesa Character Protection Overlay (CPO) and the Coors Blvd. View Protection Overlay (VPO). In particular, neighbors were concerned about a proposed change to increase height to 26 feet on a maximum of 75% of the building footprint in cluster development in the Volcano Mesa CPO, and staff said that they would revisit this. Neighbors in Northwest ABQ were also most concerned about other height regulations and the view protections along the Coors Corridor. There were only a few comments about changes in other areas of the city.

Other questions and concerns, submitted both verbally and via Zoom chat, are included in the Meeting Specifics section. The meetings were also recorded via Zoom to be posted on the Planning website. Updates will be posted on the IDO website at https://abc-zone.com/ido-annual-update-small-area-text-amendments. Staff said that they welcomed other comments by email or other meetings with residents.

Meeting Specifics:

1. **Introduction and Overview – Both Meetings**
    a. Carrie Barkhurst, CABQ Planner, introduced the other members of City staff in attendance and provided an overview of the IDO, the types of amendments being proposed, and the process.
        i. Slides are posted online at https://abc-zone.com/node/1173.
    b. Staff plans to submit the annual update on November 30, 2020.
        i. It is expected to be heard by the EPC at the January 2021 meeting.
    c. Questions and comments received during the Introduction and Overview:
        i. Neighbor (N): Are chats part of the record?
            1. Staff (S): Yes, chats are part of the record.

ii. N: Is there a goal for these meetings regarding how many community participants would be an expected outcome to actually call it a public meeting?
    1. S: Participation is voluntary for all interested.
    2. N: So no goals for community participation. Ok, how can communities access the new purpose of protecting communities to argue against over development and liberalizations of densities and height restrictions across the city? What type of argument would hold up at EPC for communities, relying on this newly amended IDO purpose of protecting communities, to challenge amendments that remove more of the established visioning of their areas?

d. Staff shared their contact information for additional comments and communication:
    i. Carrie Barkhurst: kcbarkhurst@cabq.gov
    ii. Mikaela Renz-Whitmore: mrenz@cabq.gov
    iii. Staff Project Team: abctoz@cabq.gov

2. Northwest Albuquerque Breakout Room – 12:30 Meeting

a. Carrie Barkhurst presented the changes, starting with the Volcano Mesa CPO.
    i. In the Volcano Mesa CPO:
        1. The first change presented was a change to building height for cluster development.
        2. The second change was a clarification re garage access and a change to three-car garage design.
        3. The third change was to the amount of landscaping on multi-family, mixed-use, or non-residential development.
    ii. In the Northwest Mesa VPO:
        1. The first change presented was a new height restriction sub-area, with an additional height restriction of 30 feet in a 660-foot sub-area at the edge of the Northwest Mesa Escarpment Plan Area. There are also new use standards for this area.
        2. The second change includes two clarifications, one on view corridors and one on drainage as a potential hardship in variance criteria.
    iii. In the Coors Blvd. VPO:
        1. Definitions of sight line, view plane, and view point are modified.
        2. Structure height and structure bulk standards are clarified.

b. Questions and comments related to Volcano Mesa CPO height changes:
    i. N: Is this guaranteed?
        1. S: This is a proposal for a change. It was requested, and when there's a request, the Planning Department takes them and puts

them on a list for discussion. Through the review process, the Planning Department listens to concerns and there are public hearings.

ii. N: Who requested this change?
iii. N: How can we oppose it?
    1. S: We received a request from Pulte. It is based on a rule that was adopted by City Council in November 2014.
    2. N2: We recently opposed Pulte's request.
    3. N3: We already won the opposition.
    4. N4: Pulte lost two different hearings on this.
iv. N: The Volcano Cliffs plan said 50%, which it should stay. Pulte put in a variance that was opposed and denied. Residents are against this.
v. N: Pulte was denied on this. Now they're coming to the city to request the whole law to be changed. What do we need to do to prove our point? Pulte builds in so many locations, they didn't have to do this here.
vi. N: Completely in opposition.
vii. N: Pulte has several single lots. Nothing together. I do not support this at all.
viii. N: I also oppose.
ix. N: Favors Pulte over custom builders who adhere to the rules.
x. N: Counter proposal should be to stay as it is.
    1. S: People who are opposed, their comments will be recorded. They can also submit comments. City staff will also have another meeting with those who are interested.
xi. N: Can anyone speak to metrics that are being drafted to support the newly established purpose of the IDO: "protecting communities"? Well I'd hope they are being drafted, but as most things are done in secret at the PD, we don't get info on this. But metrics that would address the protection of communities are needed at EPC, DRB and CC.
    1. S: The city recently adopted numerous metrics. As the City begins the Community Planning Area assessments next year, they will begin evaluating that data and tracking whether we're moving toward the vision of the Comprehensive Plan. That's a longer timeline.
    2. N: Where can we review these? Can we apply anything to these issues where communities feel that amendments are going to hurt them?
    3. S: If this is tied to the review and decision criteria for this decision type, there are criteria that decision-makers will be weighing. That is available in in Subsection 6-7(E)(3) on page 474.
xii. N: In the agenda, it stated, "consistent with the Volcano Cliffs Sector Plan." It is not consistent with the SDP, which always had 50% as a limit.

It goes back to Pulte coming into neighborhoods and trying to force certain designs through. This changes the character from the SDP. How did this language get in here?

1. S: This is why we're having the neighborhood meeting, to see what the public perception is. We want to listen and continue this conversation.
2. Petra Morris, Council Staff: In the Volcano Cliffs SDP, in the large lot zone, the point that the neighbors are concerned about is that in the SDP this applied to one area where there are large pieces of land. We might want to think about where this would apply, rather than all of Volcano Mesa. It can match more closely to what was originally in the Volcano Cliffs plan.
    a. S: It does sound like this needs more work, and we're happy to have continued conversations.

xiii. N: If Pulte would like to build here then they should abide by the same standards we adhered to. Ron Montoya charges $1.25 sq/ft for designs. I'm sure Pulte could pony up that amount to offer floor plans that are in accordance with what we signed up for.

xiv. N: Citing SDP:

1. On page 57 to left: "large lots consist of single family homes....built in a way that compliments natural environment."
2. On page 59 to left: "Clustered housing is encouraged to conserve the area's natural terrain and beauty..."
3. On page 59: "This unique location deserves appropriate development standards that reflect the distinctive context."

xv. N: What we are saying is that you are losing the trust of the public that you are actually working to uphold communities visions.

c. Questions and comments related to Northwest Mesa VPO changes:

i. N: Would there be a separate height stipulation when the development would be near MPOS/Petroglyph National Monument?

ii. N: Why does the line go through the Northern Geologic Window? Is that a map error?

1. S: I don't believe that it is a mapping error, but we will look at it.

iii. N: A 30-foot height? That's pretty high.

1. S: Right now there is no height limitation in this area, and some of these zones have higher heights. The goal is to create a buffer area between these areas and the Petroglyph area.
2. N: I think these height areas need to be figured out before the EPC. That's what good planning is about.
    a. S: We could put a pause on this and wait until the Community Planning Area assessment, or we can have side meetings with people who are interested.

b. N: When are these submitted?
c. S: These are submitted November 30. These are not set in stone at that point, and we can keep meeting and changing things outside of the hearing process.
d. N: I think this should be held up.

iv. N: Are there any stipulations for night lighting - to protect the dark night skies in these areas - in these commercial use areas?
v. N: There are a few lots in Petroglyph estates whose pads are significantly higher than street level or even adjoining lots. Is there a standard that these lot owners should be adhering to?
vi. N: Clarify that more restrictive 26' in LL 3-4(N) (1) would apply, is there confusion?
1. S: Yes, the height limit is 30 feet, the zone limit, or the height sub-area limit, whichever is less.
vii. N: How will increased height mitigate drainage? Someplace to find examples? Drainage is a significant issue for downstream neighborhoods.
viii. N: Does this mean that an applicant who wants a variance to height can get it if there are drainage issues?
1. S: There is a process at the EPC for a height variance. In addition to the normal criteria, this is a list describing the types of physical constraints.
2. N: I don't know why you would get a variance for a drainage area. Everyone needs to deal with that. I don't know why you need to add any more. Preserving the views is the greatest asset we have here.

d. Questions and comments related to Coors Blvd. VPO changes:
i. N: Does the view of the Bosque have the same protection, or just the Sandias in the View Frame?
1. S: Views towards the bosque are part of what we want to protect. The building massing and structure bulk requirements are how we try to get at it.
ii. N: Good changes.
iii. N: Take some heart, views along Tramway, Paseo, Alameda, San Pedro are for sale with no protections at all!
iv. N: Was the word "view" crossed out on the definition of view plane?
1. S: Yes, because that was using the term in its own definition.

3. Northwest Albuquerque Breakout Room – 5:30 Meeting

a. Carrie Barkhurst presented the changes, starting with the Coors Blvd. VPO.
i. In the Coors Blvd. VPO:
1. These edits are reflecting some changes that the community loved that were missed earlier.

2. Definitions of sight line, view plane, and view point are modified.
3. Structure height and structure bulk standards are clarified.

ii. In the Northwest Mesa VPO:
1. The first change presented was a new height restriction sub-area, with an additional height restriction of 30 feet in a 660-foot sub-area at the edge of the Northwest Mesa Escarpment Plan Area. There are also new use standards for this area.
2. The second change includes two clarifications, one on view corridors and one on drainage as a potential hardship in variance criteria.

iii. In the Volcano Mesa CPO:
1. The first change presented was a change to building height for cluster development. Staff said that based on the feedback at the earlier meeting, they would be revising their analysis on this item. The cluster development only applies in one small area, and staff heard strong opposition to expanding this.
2. The second change was a clarification re garage access and a change to three-car garage design.
3. The third change presented was about a prohibition on electronic signs.

b. Questions and comments related to Coors Blvd. VPO changes:
i. N: Has the text of the proposed amendments been shared?
1. S: This presentation is on the website, so you can see what Carrie is projecting: https://abc-zone.com/node/1173. Notice will go out to Neighborhood Associations for the submittal, and we'll post the final language on the website.

ii. N: When you say the ridgeline, it's along the whole length of the Sandias, and the goal is to see the bosque treetops and the mountains, correct?
1. S: Yes.
2. N: We're measuring from 4 feet above Coors, extended horizontally perpendicular to the site. It's constantly being challenged, and we're getting taller buildings that aren't following the rules well.

iii. N: Re the 20-foot and 16-foot building heights, that's mostly north of Paseo del Norte, right?
1. S: Yes.

iv. N: One of the problems with the massing is that one lot may comply, but then you add other buildings around it, and you lose the view.
1. S: That's a good point. If your neighbor is obstructing part of your view frame, I don't know how that's interpreted.

2. N: It would be nice if the planning department would encourage applicants to see that this is a community asset and there's value in following these rules.

v. N: In view frame, part of 50 % can be above the view frame!
   1. S: In the bulk massing, part can be taller if you're leaving open areas in other places. There are also the overall height restrictions. Part of the intent is also protecting the views of the bosque, but in some locations it is harder.

vi. N: Re where the view is supposed to be measured. It's supposed to be a 45 degree angle from the northbound right-hand lane of Coors. It's inaccurate to say that you want to protect views from up high, because it's street-level views.

vii. N: People on the west side spent a lot of time in hearings expressing their concerns before the IDO. We were under the impression that our concerns would be heard and addressed in the language, and this did not occur. I want to make sure that now the language reflects the original intent.

viii. N: Who are the parties interpreting this VPO?
   1. S: Code enforcement interprets all of the zoning codes.
   2. N: How will we be guaranteed that we don't encounter a situation where the person approving plans makes approvals that violate what is supposed to be there?
      a. S: If you let us know what that specific case was, we can look into it and discuss why that might have happened.

c. Questions and comments related to Northwest Mesa VPO changes:

i. N: Did the IDO update reduce the size of the areas to which the protection ordinances apply?
   1. S: No, the IDO carried over the geographies established prior to the IDO.
   2. S: The proposed update is to expand the area. The 2019 update proposed to amend multiple small areas, but because the planning department needed to notify property owners, those were pulled out of the 2019 update.
   3. N: It seems like there's an intent to reduce the areas covered by protections.

ii. N: It seems like we should be capping the height of these homes more. This is a residential area.
   1. S: The residential zones will still have their height limitations, which may be greater. This limitation will affect the areas that have higher height limitations.
   2. N: I think the limit should be 26 feet.

iii. N: If someone asks for a height variance, how much higher than 15 feet is it?
    1. S: I believe it's currently 19 feet measured from natural grade.

d. Questions and comments related to Volcano Mesa VPO changes:
    i. N: I live in an area where there are one-story cluster developments happening now. Is this really a good idea? Cluster developments have so many exceptions already. And what's considered open space is poorly defined. I worry that this could be abused.
        1. Petra Morris: There is a proposal to tighten up the language in the common open space definition. It's about preserving what's on the site before the development occurs. This will be in the annual update.
        2. N: If it is possible to say 30% of the site should be preservation of virgin lands, that would be better to me.
    ii. N: I have concerns about the urban center, because it's pretty dense for the mesa top. I see a lot more density being proposed up there, and we're also not planning parks any more on the west side, and I think that's a mistake.
    iii. N: When will the new wording be available? Will area for 75% only be for VCRR?
        1. S: Notice will go out to Neighborhood Associations for the submittal, and we'll post the final language on the webpage here: https://abc-zone.com/ido-annual-update-small-area-text-amendments.
        2. N: Will the 75% language be changed for the draft being submitted Monday?
    iv. N: Get those improper "open spaces" removed from the open space definition.
    v. N: I believe that what you show here as written is wrong. In reference to the 75% massing proposal. The changes characterized in the announcement as "consistent with the Volcano Cliffs Sector Plan" is in error. The Volcano Cliffs Sector Development Plan (The last amended and in force version of 7-9-2015) clearly limits second story building to 50% of the building footprint in 4 of the 5 zones described in the Plan. Only for the VCRR zone, and only for Private Commons Development (PCD)/Cluster Development per City Zoning Code Section 14-16-3-16, is a 75% standard applicable.
    vi. N: I think that no setback in a rear facing garage only makes sense.
    vii. N: Planning still does not have a glossary definition of density.
    viii. N: Thank you for the opportunity to participate and keeping neighborhood association informed.

CITY OF ALBUQUERQUE FACILITATION PROGRAM
MEETING SUMMARY REPORT

4. **Central/Eastern Albuquerque Breakout Room – 12:30 Meeting**
    a. One person was in attendance in this room and wanted to understand the proposed changes.
    b. Planning staff explained all of the changes.
    c. The person in attendance had no objections to the proposed changes.
    d. The next comprehensive review of the Rio Grande area will occur in 2023.

5. **Central/Eastern Albuquerque Breakout Room – 5:30 Meeting**
    a. One person was in attendance in this room, with an interest in the Downtown area.
    b. Planning staff explained the proposed changes to the Downtown area.
    c. Outcomes of the discussion:
        i. Rio Grande Blvd. CPO: The minimum setback from the right-of-way between Indian School and Montano should be 20 feet, not 25 feet.
        ii. Los Duranes CPO: The setback requirement should include the term "duplexes."
        iii. Downtown Area: The person in attendance did not agree with changing the term "Downtown Area" to "Downtown Center," then limiting the parking exemption for new developments to that in the Downtown Center. This would shrink the current parking exemption for developers.

Names/Zoom IDs of Attendees:

- Meeting 1, 12:30 PM:
    - Marwan
    - Mb422
    - Randy Chavez
    - Eleanor
    - Chanteil Walter
    - Jane Baechle
    - Pat Gallagher
    - Marina and Chuck

Subject: CABQ Facilitated Meeting Report: IDO Small Area Amendments Meeting, November 23
Attachments: 2020-11-23 Meeting Report.pdf; ATT00001.htm

External

Hi all,

Thanks to those of you who attended the November 23 meetings on the IDO small area text amendments. I'm attaching the meeting summary report. Should you read something in the report that you believe is an inaccurate representation of what was said in the meeting, please refer to the amendment parameters at the bottom of this page and feel free to contact me.

If you have additional communication about this topic, please contact City planning staff directly. Contact information is included in the report, and they are cc'ed here.

I'm including a link to the applicant survey for the city staff, and a link to the participant survey for everyone else who attended the meeting:

Applicant survey: http://www.cabq.gov/legal/adr/luf/land-use-facilitation-program-applicant-survey

Participant survey: http://www.cabq.gov/legal/adr/luf/land-use-facilitation-program-participant-survey

Thank you for your participation in these meetings. I enjoyed working with you.

Sincerely,
Jessie Lawrence
CABQ Contract Facilitator

Re: Neighborhood Meeting about Future Development Application

Dear Neighborhood Association Representative,

In accordance with the procedures of the City of Albuquerque's Integrated Development Ordinance (IDO) Subsection 14-16-6-4(C) Neighborhood Meeting, we are providing you an opportunity to discuss the following application(s) we will be making for a project proposed in or near your neighborhood: **Amendment to IDO Text – Small Area.**

There will be a Neighborhood Meeting facilitated by the City's Alternative Dispute Resolution Office where the City of Albuquerque Planning Department will present the proposal, and we can discuss any ideas or concerns you may have.

Contact Information
Mikaela Renz-Whitmore, Planning Manager, 505-924-3932, mrenz-whitmore@cabq.gov

Project or Development Proposal
Site Address and/or Location: Citywide

Name(s) of Agent/Developer/Property Owner, if different from Contact Name above: The amendment will impact all property and all property owners within these small area boundaries. These areas are shown in the maps that follow.

Short Description of Proposal: The City of Albuquerque intends to submit an application for an Amendment to IDO Text – Small Area to be reviewed and recommended by the Environmental Planning Commission, which will be decided by City Council. One or more of the small areas that are proposed to be amended with the 2020 Integrated Development Ordinance (IDO) annual update are within or abutting your neighborhood association or coalition. You are receiving notice about the following small area rule change: **NW Mesa Escarpment - VPO-2**

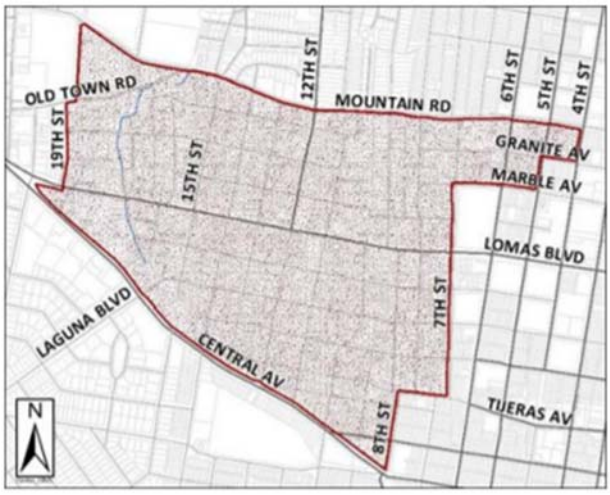

The application is for the amendment of the text for 14 small areas, including the Mixed-use - Form-based Zone District - 2-4(E)(3)(c); Downtown Neighborhood Area - CPO-3; Los Duranes - CPO-6; Nob Hill/Highland - CPO-8; Rio Grande Blvd. - CPO-11; Sawmill/Wells Park - CPO-12; Volcano Mesa - CPO 13; East Downtown - HPO-1; Old Town - HPO-5; Coors Blvd. - VPO-1; Northwest Mesa - VPO-2; Downtown Area - 5-5(B)(2)(a)1; Downtown Center - 5-12(E)(4)(d); and Uptown Area - 5-5(I)(2).

2-4(E)(3)(c) Form-based Zone District Dimensional Standards (Downtown Center)

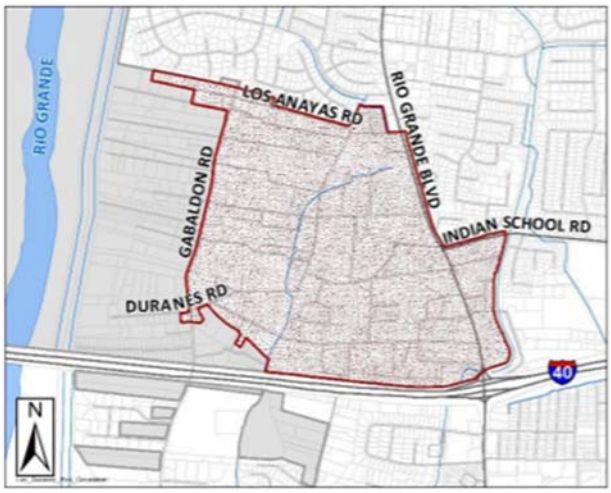

Revise Table 2-4-11, in Subsection 2-4(E)(3)(c), to allow a 0-foot rear setback in all MX-FB zones where a rear lot line abuts a street or an alley. This amendment was submitted by Council Services. (Table 2-4-11.)

3-4(D) Downtown Neighborhood Area - CPO-3

Add a setback standard for garages that requires garages facing a street to be set back 5 feet behind the façade of the building and garages accessed from an alley to be set back 5 feet from the property line, which is consistent with the Downtown Neighborhood Area Sector Plan. (3-4(D)(5)(a)1 and (D)(5)(a)1.b.)

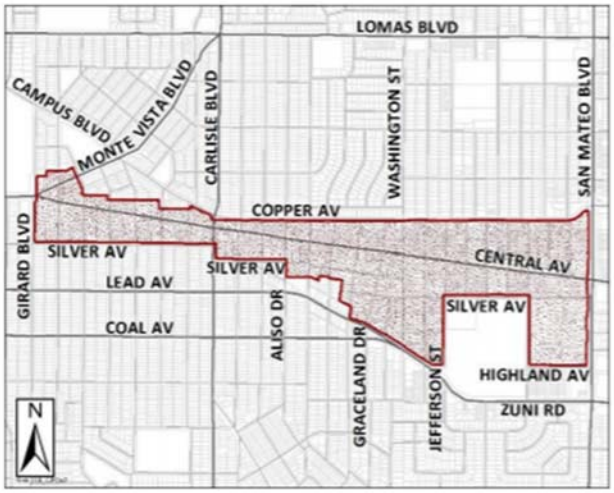

3-4(G) Los Duranes - CPO-6

Expand the front setback standard to apply to both single-family and duplex, so that new duplex subdivisions also follow the same setback standard. (3-4(G)(3)(a)1.b.)

Clarify that building heights in the MX-M zone are allowed to be 35 feet if they are within 450 feet of the I-40 right-of-way. (3-4(G)(4)(b).)

3-4(I) Nob Hill/Highland - CPO-8

Revise the building frontage types to allow a storefront or an urban residential frontage. This change clarifies what a residential façade is and links the regulation to defined terms. Currently residential developments also must use the storefront building frontage type, which is not appropriate for that use. (3-4(I)(5)(b)(4)b.)

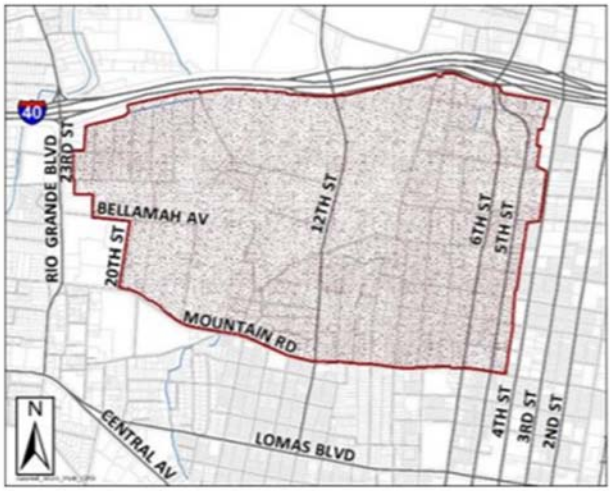

3-4(L) Rio Grande Blvd. - CPO-11

Revise the setback standard to be consistent with the Rio Grande Corridor Plan to apply only to the setback from Rio Grande (not side streets) and makes the structure parallel with the Coors Blvd. CPO-2. (3-4(L)(3).)

Revise the parking lot standard to apply to mixed use and non-residential development, which is consistent with the intent of the Rio Grande Corridor Plan. (3-4(L)(5)(b)3.)

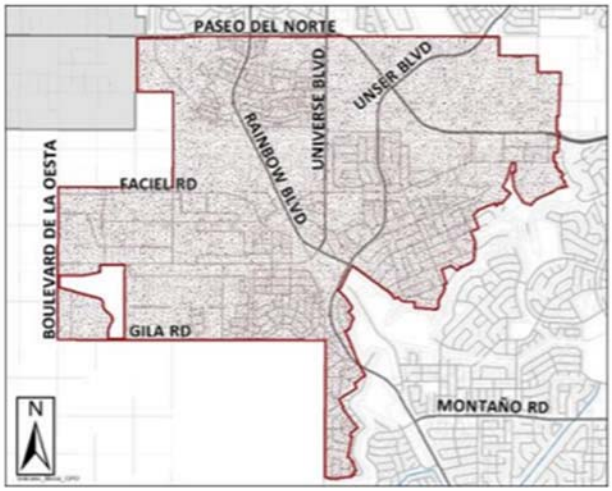

3-4(M) Sawmill/Wells Park - CPO-12

Revise the building design standard to apply to all building types in all zones, and to apply based on the proposed use (residential vs. mixed-use/non-residential uses). (3-4(M)(5)(b)8 and (M)(5)(c).)

Revise the building façade standards for Mountain Rd. and adjacent residential zones to require more articulation. (3-4(M)(5)(c)5.)

3-4(N) Volcano Mesa - CPO 13

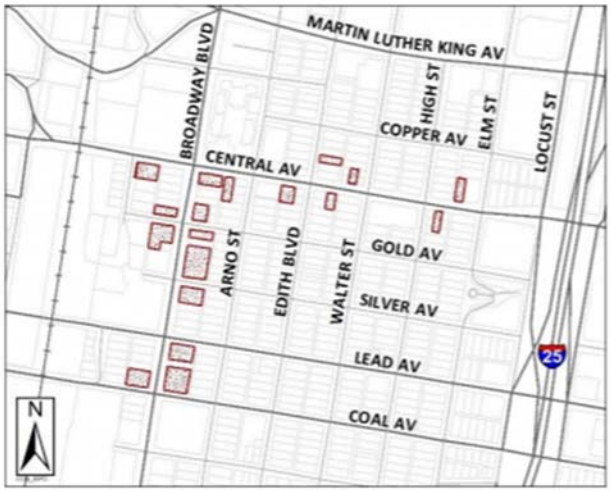

Add a building massing standard that allows cluster development to have a second story on 75% of the building footprint, which is consistent with the Volcano Cliffs Sector Plan. (3-4(M)(4)(b).)

Clarify the intent of the standard relating to "side streets" to be consistent with the Volcano Cliffs Sector Plan. (3-4(N)(5)(c).)

Revise the garage standards to apply to 3-car garages that are street-facing. (3-4(N)(5)(d)2.)

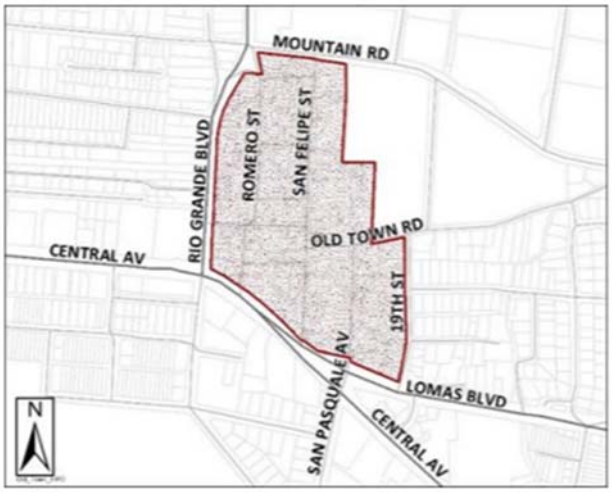

3-5(F) East Downtown - HPO-1

Clarify the intent of the standard relating to "side streets" to be consistent with the East Downtown Regulatory Plan. (5-5(F)(4)(a)3.)

Provide an option for screening parking structures that do not include ground floor commercial uses and clarify if the standard applies to the required street wall or the parking structure wall. (5-5(F)(4)(a)(3).)

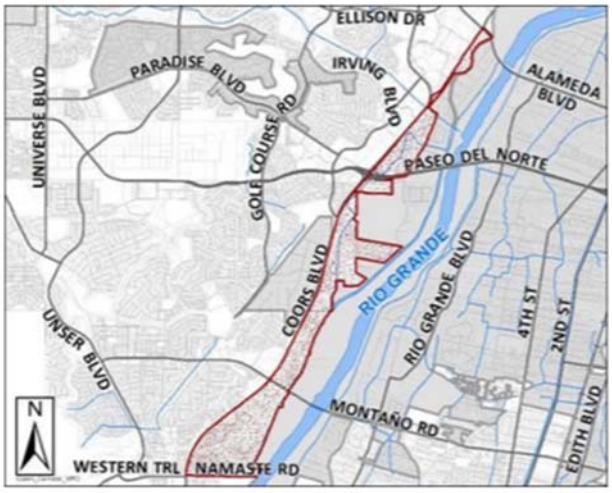

3-5(J) Old Town - HPO-5

Revise the sign standards to be more consistent with the typical IDO structure and clarify the intent to be consistent with the prior zoning. (3-5(J)(3)(c).)

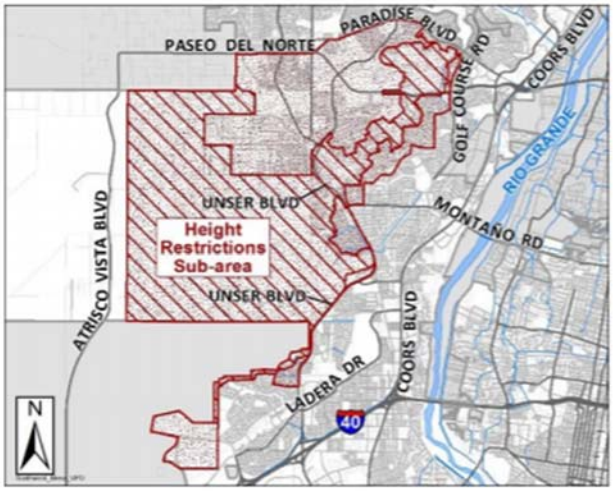

Revise Subsection 3-5(J)(3)(c) to specify Old Town Plaza Park as the intended "adjacent property" mentioned in this standard.

3-6(D) Coors Blvd. - VPO-1

Revisions throughout the VPO to add consistency with the protected view and the new defined term "view point." The revisions clarify how to perform the analysis of the 3 view protection tests and revise the graphics for consistency. Finally, the protection of views along the entire ridgeline is added back to be consistent with the prior Coors Corridor Sector Plan. (6-6(D).)

3-6(E) Northwest Mesa - VPO-2

Move the "techniques" for minimizing the visual impact of taller buildings to the decision criteria for this EPC approval of a height variance, apply it to any new structure, and specify where the protected view is to be taken from. (3-6(E)(3)(c)2.)

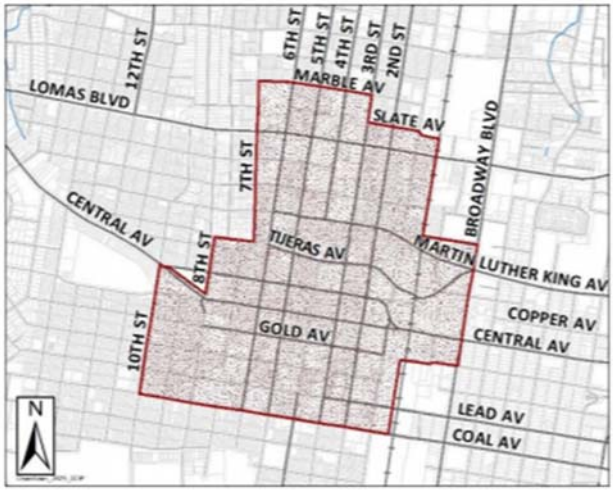

Add a second Height Restrictions subarea and enhance the Use Specific Standards for the Height Restrictions subareas to expand the area of transition and decrease the intensity of development near MPOS. Portions of this amendment were submitted by Council

5-5(B)(2)(a)1 Downtown Center – Parking and Loading (Exemptions and Reductions)

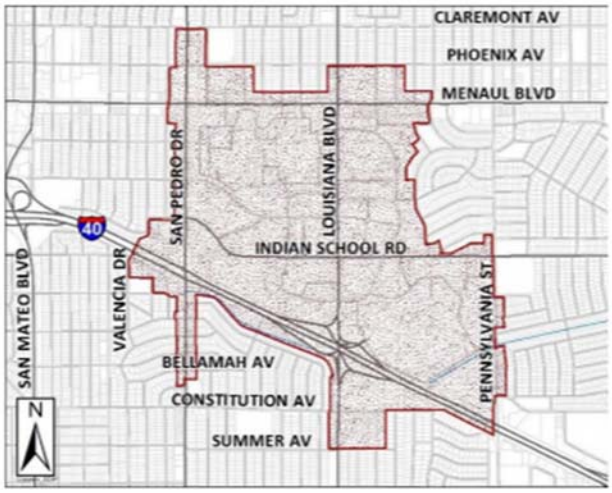

Revise to apply to the Downtown Center and delete the existing map. This change makes the parking exemption only apply within the Comp Plan Downtown Center, with MX-Form Based zoning, and removes overlap with other CPOs that did not have the parking exemption. (5-5(B)(2)(a)1.)

5-12(E)(4)(d) Downtown Center – Sign Standards Applicable in Mapped Areas

Revise Subsection 5-12(E)(4)(d) to add the Downtown Center and Mixed-use or Non-residentially zoned properties within 330 feet of the Center as a location where rooftop signs are allowed. Currently the East Downtown CPO and HPO are the only locations that allows rooftop signs. This amendment was submitted by Council Services.

5-5(I)(2) Uptown Area – Drive-through circulation design

Remove the drive-through prohibition for restaurants in any portion of the Uptown Urban Center that is within 1,320 feet of the I-40 right-of-way. This amendment was submitted by Council Services.

The City Planning Department will be offering a Neighborhood Meeting to discuss these changes with interested stakeholders. This meeting will be conducted as a Zoom meeting, which will be recorded and posted on the City's website. There are 2 pre-application neighborhood meetings scheduled:

- Monday, November 23, 2020 at 12:30 pm
  - https://cabq.zoom.us/j/95955113339
  - +1-346-248-7799, Meeting ID: 959 5511 3339
- Monday, November 23, 2020 at 5:30 pm
  - https://cabq.zoom.us/j/97337147540
  - +1-346-248-7799, Meeting ID: 973 3714 7540

Before submitting our application, we will send Mailed and/or Emailed Public Notice as required by IDO Table 6-1-1 to make you aware of the public Environmental Planning Commission hearing at which the project will be reviewed and decided by the City.

The intent is for this request to be heard by the EPC on January 14, 2021, beginning at 8:30 am, and it will be held as a Zoom meeting. The phone number and web address will be provided in the January agenda, posted on January 7, 2021 at: http://www.cabq.gov/planning/boards-commissions/environmental-planning-commission/epc-agendas-reports-minutes

Additional information about this request will be posted on the following websites, as it becomes available: https://abc-zone.com/ido-annual-update-2020

Sincerely,

Mikaela Renz-Whitmore, Long Range Planning Manager

City of Albuquerque Planning Department

[Note: Items with an asterisk (*) are required.]

Neighborhood Meeting Request for a Proposed Project in the City of Albuquerque

Date of Request*: November 4, 2020

This request for a Neighborhood Meeting for a proposed project is provided as required by Integrated Development Ordinance (IDO) **Subsection 14-16-6-4(K) Public Notice** to:

Neighborhood Association (NA)*: _____

Name of NA Representative*: _____

Email Address* or Mailing Address* of NA Representative[1]: _____

The application is not yet submitted. If you would like to have a Neighborhood Meeting about this proposed project, please respond to this request within 15 days.[2]

Email address to respond yes or no: RSVP to abctoz@cabq.gov

The applicant may specify a Neighborhood Meeting date that must be at least 15 days from the Date of Request above, unless you agree to an earlier date.

Meeting Date / Time / Location:

Scheduled on November 19, 2020 at 12:30 pm and 5:30 pm on Zoom at:

- Monday, November 23, 2020 at 12:30 pm
  - https://cabq.zoom.us/j/95955113339
  - +1-346-248-7799, Meeting ID: 959 5511 3339
- Monday, November 23, 2020 at 5:30 pm
  - https://cabq.zoom.us/j/97337147540
  - +1-346-248-7799, Meeting ID: 973 3714 7540

Project Information Required by IDO Subsection 14-16-6-4(K)(1)(a)

1. Subject Property Address* small areas, city-wide
   Location Description NW Mesa Escarpment - VPO-2
2. Property Owner* miscellaneous property owners
3. Agent/Applicant* *[if applicable]* City of Albuquerque
4. Application(s) Type* per IDO Table 6-1-1 *[mark all that apply]*

[1] Pursuant to IDO Subsection 14-16-6-4(K)(5)(a), email is sufficient if on file with the Office of Neighborhood Coordination. If no email address is on file for a particular NA representative, notice must be mailed to the mailing address on file for that representative.

[2] If no one replies to this request, the applicant may be submitted to the City to begin the review/decision process.

[Note: Items with an asterisk (*) are required.]

- ☐ Conditional Use Approval
- ☐ Permit _____ (Carport or Wall/Fence – Major)
- ☐ Site Plan
- ☐ Subdivision _____ (Minor or Major)
- ☐ Vacation _____ (Easement/Private Way or Public Right-of-way)
- ☐ Variance
- ☐ Waiver
- ☐ Zoning Map Amendment
- ☐ Other: Amendment to IDO Text – Small Area

Summary of project/request[3]*:

See attached letter

5. This type of application will be decided by*: ☐ City Staff

   OR at a public meeting or hearing by:

   ☐ Zoning Hearing Examiner (ZHE) ☐ Development Review Board (DRB)

   ☐ Landmarks Commission (LC) ☐ Environmental Planning Commission (EPC)

   X City Council

6. Where more information about the project can be found*[4]: https://abc-zone.com/ido-annual-update-2020

Project Information Required for Mail/Email Notice by IDO Subsection 6-4(K)(1)(b):

1. Zone Atlas Page(s)*[5] multiple, citywide, see accompanying project letter
2. Architectural drawings, elevations of the proposed building(s) or other illustrations of the proposed application, as relevant*: Not applicable
3. The following exceptions to IDO standards will be requested for this project*:

   ☐ Deviation(s) ☐ Variance(s) ☐ Waiver(s)

   Explanation:

   N/A

4. An offer of a Pre-submittal Neighborhood Meeting is required by Table 6-1-1*: X Yes ☐ No

[3] Attach additional information, as needed to explain the project/request. Note that information provided in this meeting request is conceptual and constitutes a draft intended to provide sufficient information for discussion of concerns and opportunities.

[4] Address (mailing or email), phone number, or website to be provided by the applicant

[5] Available online here: *http://data.cabq.gov/business/zoneatlas/*

[Note: Items with an asterisk (*) are required.]

5. ***For Site Plan Applications only****, attach site plan showing, at a minimum:
   - ☐ a. Location of proposed buildings and landscape areas.*
   - ☐ b. Access and circulation for vehicles and pedestrians.*
   - ☐ c. Maximum height of any proposed structures, with building elevations.*
   - ☐ d. **For residential development***: Maximum number of proposed dwelling units.
   - ☐ e. **For non-residential development***:
     - ☐ Total gross floor area of proposed project.
     - ☐ Gross floor area for each proposed use.

Additional Information:

1. From the IDO Zoning Map[6]:
   a. Area of Property *[typically in acres]* _multiple, miscellaneous_____
   b. IDO Zone District _multiple, miscellaneous_____
   c. Overlay Zone(s) *[if applicable]* _multiple, miscellaneous_____
   d. Center or Corridor Area *[if applicable]* _multiple, miscellaneous_____
2. Current Land Use(s) [*vacant, if none*] _multiple, miscellaneous_____

Re: Neighborhood Meeting about Future Development Application

Dear Neighborhood Association Representative,

In accordance with the procedures of the City of Albuquerque's Integrated Development Ordinance (IDO) Subsection 14-16-6-4(C) Neighborhood Meeting, we are providing you an opportunity to discuss the following application(s) we will be making for a project proposed in or near your neighborhood: **Amendment to IDO Text – Small Area.**

There will be a Neighborhood Meeting facilitated by the City's Alternative Dispute Resolution Office where the City of Albuquerque Planning Department will present the proposal, and we can discuss any ideas or concerns you may have.

Contact Information
Mikaela Renz-Whitmore, Planning Manager, 505-924-3932, mrenz-whitmore@cabq.gov

Project or Development Proposal
Site Address and/or Location: Citywide

Name(s) of Agent/Developer/Property Owner, if different from Contact Name above: The amendment will impact all property and all property owners within these small area boundaries. These areas are shown in the maps that follow.

Short Description of Proposal: The City of Albuquerque intends to submit an application for an Amendment to IDO Text – Small Area to be reviewed and recommended by the Environmental Planning Commission, which will be decided by City Council. One or more of the small areas that are proposed to be amended with the 2020 Integrated Development Ordinance (IDO) annual update are within or abutting your neighborhood association or coalition. You are receiving notice about the following small area rule change: **«Small_Area»**

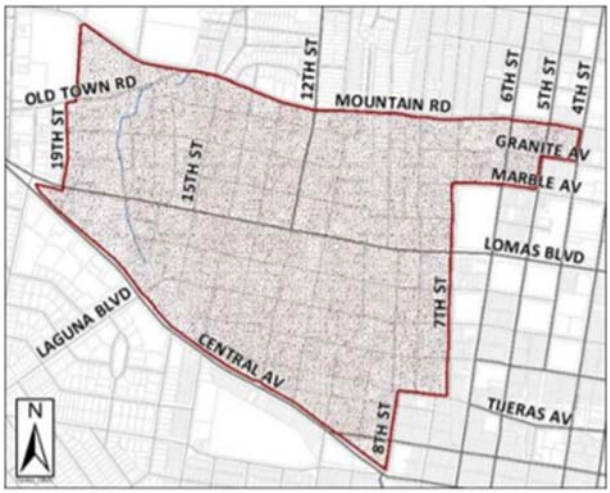

The application is for the amendment of the text for 14 small areas, including the Mixed-use - Form-based Zone District - 2-4(E)(3)(c); Downtown Neighborhood Area - CPO-3; Los Duranes - CPO-6; Nob Hill/Highland - CPO-8; Rio Grande Blvd. - CPO-11; Sawmill/Wells Park - CPO-12; Volcano Mesa - CPO 13; East Downtown - HPO-1; Old Town - HPO-5; Coors Blvd. - VPO-1; Northwest Mesa - VPO-2; Downtown Area - 5-5(B)(2)(a)1; Downtown Center - 5-12(E)(4)(d); and Uptown Area - 5-5(I)(2).

2-4(E)(3)(c) Form-based Zone District Dimensional Standards (Downtown Center)

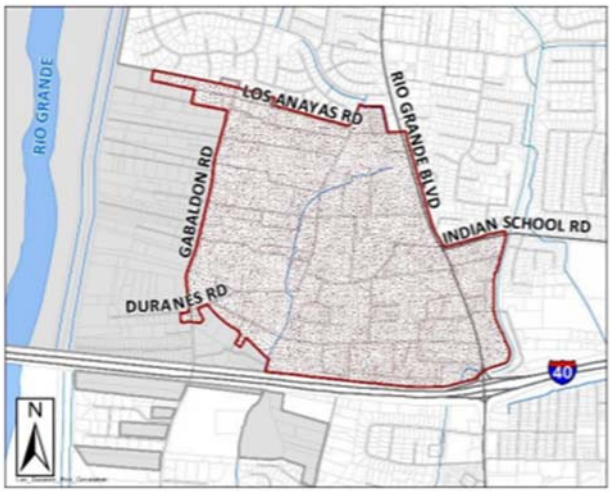

Revise Table 2-4-11, in Subsection 2-4(E)(3)(c), to allow a 0-foot rear setback in all MX-FB zones where a rear lot line abuts a street or an alley. This amendment was submitted by Council Services. (Table 2-4-11.)

3-4(D) Downtown Neighborhood Area - CPO-3

Add a setback standard for garages that requires garages facing a street to be set back 5 feet behind the façade of the building and garages accessed from an alley to be set back 5 feet from the property line, which is consistent with the Downtown Neighborhood Area Sector Plan. (3-4(D)(5)(a)1 and (D)(5)(a)1.b.)

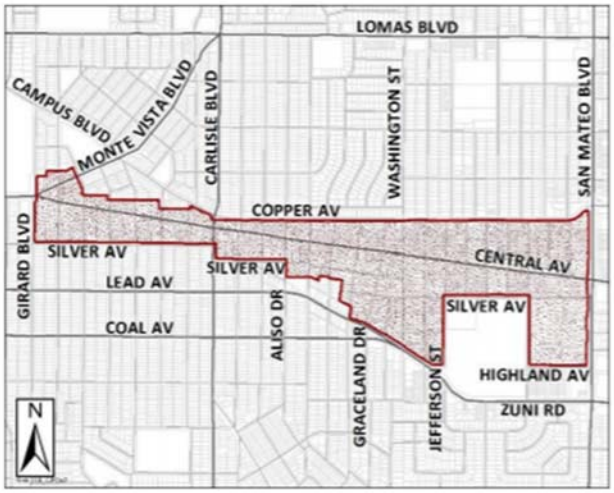

3-4(G) Los Duranes - CPO-6

Expand the front setback standard to apply to both single-family and duplex, so that new duplex subdivisions also follow the same setback standard. (3-4(G)(3)(a)1.b.)

Clarify that building heights in the MX-M zone are allowed to be 35 feet if they are within 450 feet of the I-40 right-of-way. (3-4(G)(4)(b).)

3-4(I) Nob Hill/Highland - CPO-8

Revise the building frontage types to allow a storefront or an urban residential frontage. This change clarifies what a residential façade is and links the regulation to defined terms. Currently residential developments also must use the storefront building frontage type, which is not appropriate for that use. (3-4(I)(5)(b)(4)b.)

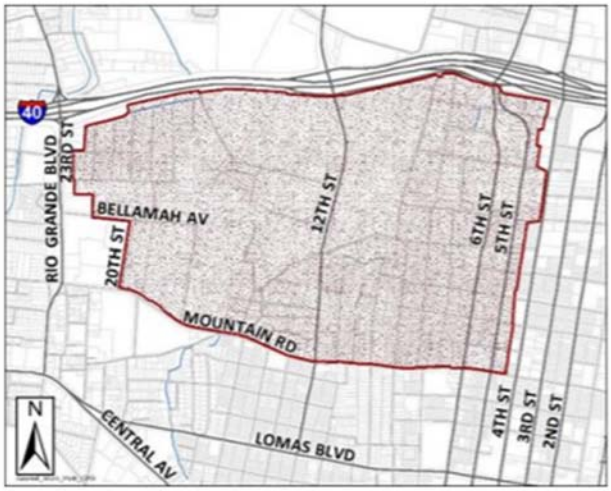

3-4(L) Rio Grande Blvd. - CPO-11

Revise the setback standard to be consistent with the Rio Grande Corridor Plan to apply only to the setback from Rio Grande (not side streets) and makes the structure parallel with the Coors Blvd. CPO-2. (3-4(L)(3).)

Revise the parking lot standard to apply to mixed use and non-residential development, which is consistent with the intent of the Rio Grande Corridor Plan. (3-4(L)(5)(b)3.)

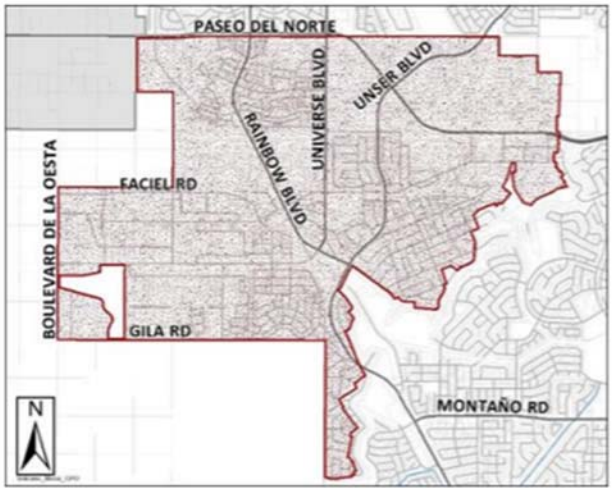

3-4(M) Sawmill/Wells Park - CPO-12

Revise the building design standard to apply to all building types in all zones, and to apply based on the proposed use (residential vs. mixed-use/non-residential uses).
(3-4(M)(5)(b)8 and (M)(5)(c).)

Revise the building façade standards for Mountain Rd. and adjacent residential zones to require more articulation. (3-4(M)(5)(c)5.)

3-4(N) Volcano Mesa - CPO 13

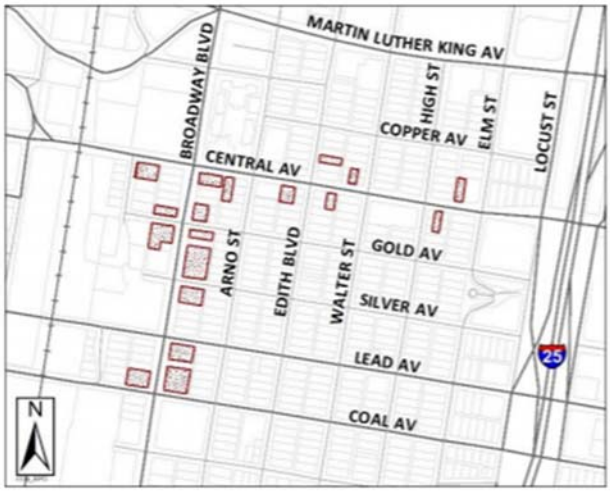

Add a building massing standard that allows cluster development to have a second story on 75% of the building footprint, which is consistent with the Volcano Cliffs Sector Plan. (3-4(M)(4)(b).)

Clarify the intent of the standard relating to "side streets" to be consistent with the Volcano Cliffs Sector Plan. (3-4(N)(5)(c).)

Revise the garage standards to apply to 3-car garages that are street-facing. (3-4(N)(5)(d)2.)

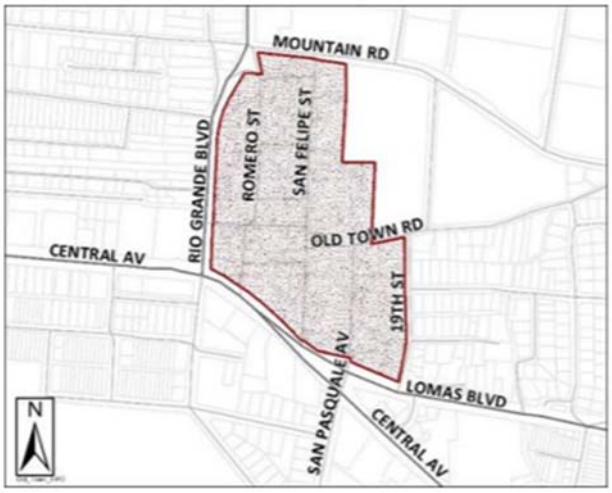

3-5(F) East Downtown - HPO-1

Clarify the intent of the standard relating to "side streets" to be consistent with the East Downtown Regulatory Plan. (5-5(F)(4)(a)3.)

Provide an option for screening parking structures that do not include ground floor commercial uses and clarify if the standard applies to the required street wall or the parking structure wall. (5-5(F)(4)(a)(3).)

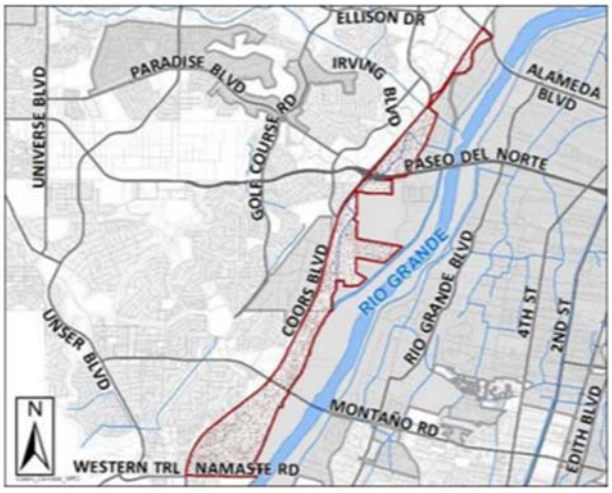

3-5(J) Old Town - HPO-5

Revise the sign standards to be more consistent with the typical IDO structure and clarify the intent to be consistent with the prior zoning. (3-5(J)(3)(c).)

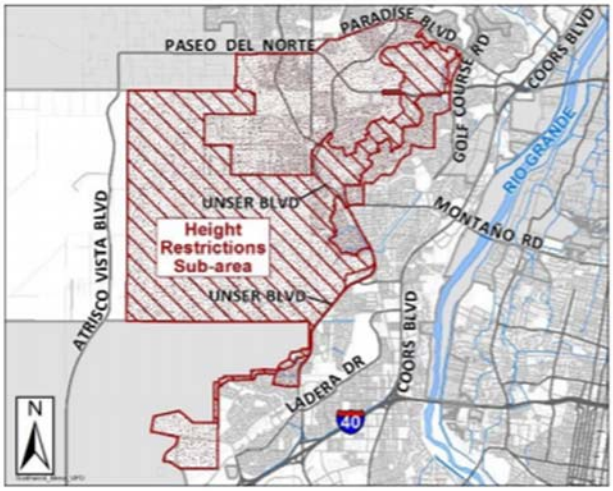

Revise Subsection 3-5(J)(3)(c) to specify Old Town Plaza Park as the intended "adjacent property" mentioned in this standard.

3-6(D) Coors Blvd. - VPO-1

Revisions throughout the VPO to add consistency with the protected view and the new defined term "view point." The revisions clarify how to perform the analysis of the 3 view protection tests and revise the graphics for consistency. Finally, the protection of views along the entire ridgeline is added back to be consistent with the prior Coors Corridor Sector Plan. (6-6(D).)

3-6(E) Northwest Mesa - VPO-2

Move the "techniques" for minimizing the visual impact of taller buildings to the decision criteria for this EPC approval of a height variance, apply it to any new structure, and specify where the protected view is to be taken from. (3-6(E)(3)(c)2.)

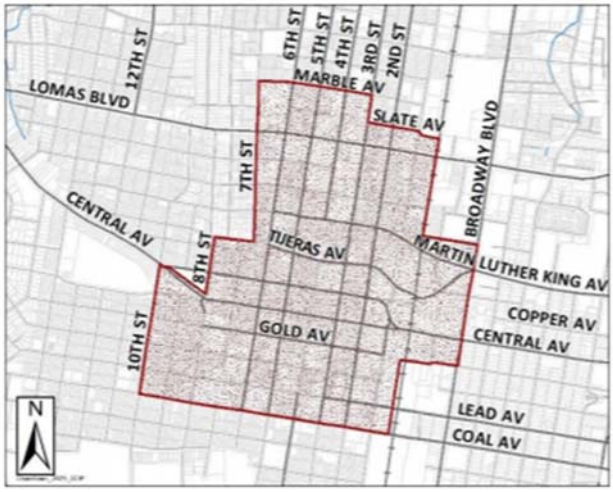

Add a second Height Restrictions subarea and enhance the Use Specific Standards for the Height Restrictions subareas to expand the area of transition and decrease the intensity of development near MPOS. Portions of this amendment were submitted by Council

5-5(B)(2)(a)1 Downtown Center – Parking and Loading (Exemptions and Reductions)

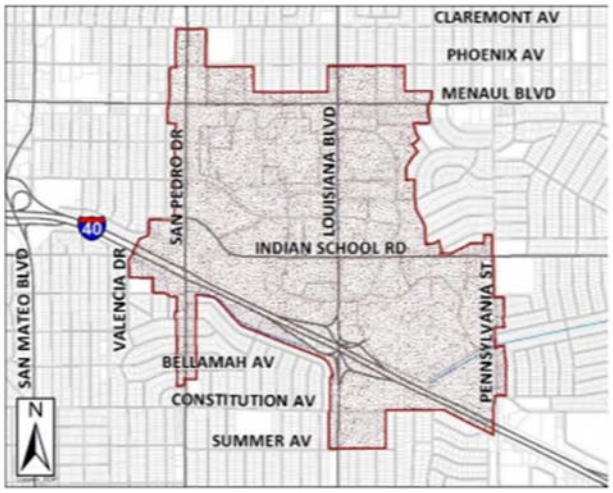

Revise to apply to the Downtown Center and delete the existing map. This change makes the parking exemption only apply within the Comp Plan Downtown Center, with MX-Form Based zoning, and removes overlap with other CPOs that did not have the parking exemption. (5-5(B)(2)(a)1.)

5-12(E)(4)(d) Downtown Center – Sign Standards Applicable in Mapped Areas

Revise Subsection 5-12(E)(4)(d) to add the Downtown Center and Mixed-use or Non-residentially zoned properties within 330 feet of the Center as a location where rooftop signs are allowed. Currently the East Downtown CPO and HPO are the only locations that allows rooftop signs. This amendment was submitted by Council Services.

5-5(I)(2) Uptown Area – Drive-through circulation design

Remove the drive-through prohibition for restaurants in any portion of the Uptown Urban Center that is within 1,320 feet of the I-40 right-of-way. This amendment was submitted by Council Services.

The City Planning Department will be offering a Neighborhood Meeting to discuss these changes with interested stakeholders. This meeting will be conducted as a Zoom meeting, which will be recorded and posted on the City's website. There are 2 pre-application neighborhood meetings scheduled:

- Monday, November 23, 2020 at 12:30 pm
  - https://cabq.zoom.us/j/95955113339
  - +1-346-248-7799, Meeting ID: 959 5511 3339
- Monday, November 23, 2020 at 5:30 pm
  - https://cabq.zoom.us/j/97337147540
  - +1-346-248-7799, Meeting ID: 973 3714 7540

Before submitting our application, we will send Mailed and/or Emailed Public Notice as required by IDO Table 6-1-1 to make you aware of the public Environmental Planning Commission hearing at which the project will be reviewed and decided by the City.

The intent is for this request to be heard by the EPC on January 14, 2021, beginning at 8:30 am, and it will be held as a Zoom meeting. The phone number and web address will be provided in the January agenda, posted on January 7, 2021 at: http://www.cabq.gov/planning/boards-commissions/environmental-planning-commission/epc-agendas-reports-minutes

Additional information about this request will be posted on the following websites, as it becomes available: https://abc-zone.com/ido-annual-update-2020

Sincerely,

Mikaela Renz-Whitmore, Long Range Planning Manager

City of Albuquerque Planning Department

Neighborhood Meeting Request for a Proposed Project in the City of Albuquerque

Date of Request*: November 4, 2020

This request for a Neighborhood Meeting for a proposed project is provided as required by Integrated Development Ordinance (IDO) **Subsection 14-16-6-4(K) Public Notice** to:

Neighborhood Association (NA)*: «Association_Name»

Name of NA Representative*: «First_Name» «Last_Name»

Email Address* or Mailing Address* of NA Representative[1]: «Email»

The application is not yet submitted. If you would like to have a Neighborhood Meeting about this proposed project, please respond to this request within 15 days.[2]

Email address to respond yes or no: RSVP to abctoz@cabq.gov

The applicant may specify a Neighborhood Meeting date that must be at least 15 days from the Date of Request above, unless you agree to an earlier date.

Meeting Date / Time / Location:

Scheduled on November 19, 2020 at 12:30 pm and 5:30 pm on Zoom at:

- Monday, November 23, 2020 at 12:30 pm
  - https://cabq.zoom.us/j/95955113339
  - +1-346-248-7799, Meeting ID: 959 5511 3339
- Monday, November 23, 2020 at 5:30 pm
  - https://cabq.zoom.us/j/97337147540
  - +1-346-248-7799, Meeting ID: 973 3714 7540

Project Information Required by IDO Subsection 14-16-6-4(K)(1)(a)

1. Subject Property Address* small areas, city-wide
   Location Description «Small_Area»
2. Property Owner* miscellaneous property owners
3. Agent/Applicant* *[if applicable]* City of Albuquerque
4. Application(s) Type* per IDO Table 6-1-1 *[mark all that apply]*

[1] Pursuant to IDO Subsection 14-16-6-4(K)(5)(a), email is sufficient if on file with the Office of Neighborhood Coordination. If no email address is on file for a particular NA representative, notice must be mailed to the mailing address on file for that representative.

[2] If no one replies to this request, the applicant may be submitted to the City to begin the review/decision process.

[Note: Items with an asterisk (*) are required.]

- ☐ Conditional Use Approval
- ☐ Permit _____ (Carport or Wall/Fence – Major)
- ☐ Site Plan
- ☐ Subdivision _____ (Minor or Major)
- ☐ Vacation _____ (Easement/Private Way or Public Right-of-way)
- ☐ Variance
- ☐ Waiver
- ☐ Zoning Map Amendment
- ☐ Other: Amendment to IDO Text – Small Area

Summary of project/request[3]*:

See attached letter

5. This type of application will be decided by*: ☐ City Staff

   OR at a public meeting or hearing by:

   ☐ Zoning Hearing Examiner (ZHE) ☐ Development Review Board (DRB)

   ☐ Landmarks Commission (LC) ☐ Environmental Planning Commission (EPC)

   X City Council

6. Where more information about the project can be found*[4]: https://abc-zone.com/ido-annual-update-2020

Project Information Required for Mail/Email Notice by IDO Subsection 6-4(K)(1)(b):

1. Zone Atlas Page(s)*[5] multiple, citywide, see accompanying project letter
2. Architectural drawings, elevations of the proposed building(s) or other illustrations of the proposed application, as relevant*: Not applicable
3. The following exceptions to IDO standards will be requested for this project*:

   ☐ Deviation(s) ☐ Variance(s) ☐ Waiver(s)

   Explanation:

   N/A

4. An offer of a Pre-submittal Neighborhood Meeting is required by Table 6-1-1*: X Yes ☐ No

[3] Attach additional information, as needed to explain the project/request. Note that information provided in this meeting request is conceptual and constitutes a draft intended to provide sufficient information for discussion of concerns and opportunities.

[4] Address (mailing or email), phone number, or website to be provided by the applicant

[5] Available online here: *http://data.cabq.gov/business/zoneatlas/*

[Note: Items with an asterisk (*) are required.]

5. ***For Site Plan Applications only****, attach site plan showing, at a minimum:
   - ☐ a. Location of proposed buildings and landscape areas.*
   - ☐ b. Access and circulation for vehicles and pedestrians.*
   - ☐ c. Maximum height of any proposed structures, with building elevations.*
   - ☐ d. **For residential development***: Maximum number of proposed dwelling units.
   - ☐ e. **For non-residential development***:
     - ☐ Total gross floor area of proposed project.
     - ☐ Gross floor area for each proposed use.

Additional Information:

1. From the IDO Zoning Map[6]:
   a. Area of Property *[typically in acres]* _multiple, miscellaneous_____
   b. IDO Zone District _multiple, miscellaneous_____
   c. Overlay Zone(s) *[if applicable]* _multiple, miscellaneous_____
   d. Center or Corridor Area *[if applicable]* _multiple, miscellaneous_____
2. Current Land Use(s) [*vacant, if none*] _multiple, miscellaneous_____

Re: City application to amend zoning regulations for small areas

Dear Property Owner,

The City of Albuquerque is submitting an application for an Amendment to Integrated Development Ordinance (IDO) Text – Small Area to be reviewed and recommended by the Environmental Planning Commission (EPC) and decided by City Council. This letter is mailed notice to property owners who own land in or abutting one of 14 small areas in Albuquerque that would be subject to area-specific zoning regulations proposed as text amendments to the IDO.

This letter serves as official mailed notice to the property owner addressed on this envelope for the small areas identified below, in accordance with the procedures of IDO Subsection 14-16-6-4(K)(3)(d) Notice for Amendment to IDO Text – Small Area. A complete list of affected properties and maps of the small areas are available on the project webpage: https://abc-zone.com/ido-annual-update-small-area-text-amendments

The application includes text amendments for the Downtown Neighborhood Area Character Protection Overlay (CPO) Zone:

3-4(D) Downtown Neighborhood Area – CPO-3

Add a setback standard for garages that requires garages facing a street to be set back 5 feet behind the façade of the building and garages accessed from an alley to be set back 5 feet from the property line, which is consistent with the Downtown Neighborhood Area Sector Plan. (3-4(D)(5)(a)1 and (D)(5)(a)1.b.)

This request will be heard by the EPC on **January 21, 2021**, beginning at **8:30 am** online via Zoom.

Zoom link: https://cabq.zoom.us/j/96997162697
To dial in by phone: (346) 248-7799, Meeting ID: 969 9716 2697

Additional information about this request will be posted on the following webpage, as it becomes available: https://abc-zone.com/ido-annual-update-2020

Sincerely,

K. Carrie Barkhurst, Senior Planner, 505-924-3879, kcbarkhurst@cabq.gov
City of Albuquerque Planning Department

Re: City application to amend zoning regulations for small areas

Dear Property Owner,

The City of Albuquerque is submitting an application for an Amendment to Integrated Development Ordinance (IDO) Text – Small Area to be reviewed and recommended by the Environmental Planning Commission (EPC) and decided by City Council. This letter is mailed notice to property owners who own land in or abutting one of 14 small areas in Albuquerque that would be subject to area-specific zoning regulations proposed as text amendments to the IDO.

This letter serves as official mailed notice to the property owner addressed on this envelope for the small areas identified below, in accordance with the procedures of IDO Subsection 14-16-6-4(K)(3)(d) Notice for Amendment to IDO Text – Small Area. A complete list of affected properties and maps of the small areas are available on the project webpage: https://abc-zone.com/ido-annual-update-small-area-text-amendments

The application includes text amendments for the East Downtown Character Protection Overlay (CPO) Zone:

3-4(E) East Downtown CPO-4

For consistency with changes made to parking requirements in the EDo HPO as part of this 2020 Annual Update to provide clarity about the parking screening requirements.

This request will be heard by the EPC on **January 21, 2021**, beginning at **8:30 am** online via Zoom.

Re: City application to amend zoning regulations for small areas

Dear Property Owner,

The City of Albuquerque is submitting an application for an Amendment to Integrated Development Ordinance (IDO) Text – Small Area to be reviewed and recommended by the Environmental Planning Commission (EPC) and decided by City Council. This letter is mailed notice to property owners who own land in or abutting one of 14 small areas in Albuquerque that would be subject to area-specific zoning regulations proposed as text amendments to the IDO.

This letter serves as official mailed notice to the property owner addressed on this envelope for the small areas identified below, in accordance with the procedures of IDO Subsection 14-16-6-4(K)(3)(d) Notice for Amendment to IDO Text – Small Area. A complete list of affected properties and maps of the small areas are available on the project webpage: https://abc-zone.com/ido-annual-update-small-area-text-amendments

The application includes text amendments for the Nob Hill/Highland Character Protection Overlay (CPO):

3-4(I) Nob Hill/Highland – CPO-8

Revise the building frontage types to allow a storefront or an urban residential frontage. This change clarifies what a residential façade is and links the regulation to defined terms. Currently residential developments also must use the storefront building frontage type, which is not appropriate for that use. (3-4(I)(5)(b)(4)b.)

This request will be heard by the EPC on **January 21, 2021**, beginning at **8:30 am** online via Zoom.

Re: City application to amend zoning regulations for small areas

Dear Property Owner,

The City of Albuquerque is submitting an application for an Amendment to Integrated Development Ordinance (IDO) Text – Small Area to be reviewed and recommended by the Environmental Planning Commission (EPC) and decided by City Council. This letter is mailed notice to property owners who own land in or abutting one of 14 small areas in Albuquerque that would be subject to area-specific zoning regulations proposed as text amendments to the IDO.

This letter serves as official mailed notice to the property owner addressed on this envelope for the small areas identified below, in accordance with the procedures of IDO Subsection 14-16-6-4(K)(3)(d) Notice for Amendment to IDO Text – Small Area. A complete list of affected properties and maps of the small areas are available on the project webpage: https://abc-zone.com/ido-annual-update-small-area-text-amendments

The application includes text amendments for the Rio Grande Blvd. Character Protection Overlay (CPO) zone

3-4(L) Rio Grande Blvd. – CPO-11

Revise the setback standard to be consistent with the Rio Grande Corridor Plan to apply only to the setback from Rio Grande (not side streets) and makes the structure parallel with the Coors Blvd. CPO-2. (3-4(L)(3).)

Revise the parking lot standard to apply to mixed use and non-residential development, which is consistent with the intent of the Rio Grande Corridor Plan. (3-4(L)(5)(b)3.)

This request will be heard by the EPC on **January 21, 2021**, beginning at **8:30 am** online via Zoom.

Re: City application to amend zoning regulations for small areas

Dear Property Owner,

The City of Albuquerque is submitting an application for an Amendment to Integrated Development Ordinance (IDO) Text – Small Area to be reviewed and recommended by the Environmental Planning Commission (EPC) and decided by City Council. This letter is mailed notice to property owners who own land in or abutting one of 14 small areas in Albuquerque that would be subject to area-specific zoning regulations proposed as text amendments to the IDO.

This letter serves as official mailed notice to the property owner addressed on this envelope for the small areas identified below, in accordance with the procedures of IDO Subsection 14-16-6-4(K)(3)(d) Notice for Amendment to IDO Text – Small Area. A complete list of affected properties and maps of the small areas are available on the project webpage: https://abc-zone.com/ido-annual-update-small-area-text-amendments

The application includes text amendments for the East Downtown Historic Protection Overlay (HPO) Zone:

3-5(F) East Downtown HPO-1

Clarify the intent of the standard relating to "side streets" to be consistent with the East Downtown Regulatory Plan. (5-5(F)(4)(a)3.)

Provide an option for screening parking structures that do not include ground floor commercial uses and clarify if the standard applies to the required street wall or the parking structure wall. (5-5(F)(4)(a)(3).)

This request will be heard by the EPC on **January 21, 2021**, beginning at **8:30 am** online via Zoom.

Re: City application to amend zoning regulations for small areas

Dear Property Owner,

The City of Albuquerque is submitting an application for an Amendment to Integrated Development Ordinance (IDO) Text – Small Area to be reviewed and recommended by the Environmental Planning Commission (EPC) and decided by City Council. This letter is mailed notice to property owners who own land in or abutting one of 14 small areas in Albuquerque that would be subject to area-specific zoning regulations proposed as text amendments to the IDO.

This letter serves as official mailed notice to the property owner addressed on this envelope for the small areas identified below, in accordance with the procedures of IDO Subsection 14-16-6-4(K)(3)(d) Notice for Amendment to IDO Text – Small Area. A complete list of affected properties and maps of the small areas are available on the project webpage: https://abc-zone.com/ido-annual-update-small-area-text-amendments

The application includes text amendments for the Coors Blvd. View Protection Overlay (VPO) Zone:

3-6(D) Coors Blvd. VPO-1

Revisions throughout the VPO to add consistency with the protected view and the new defined term "view point." The revisions clarify how to perform the analysis of the 3 view protection tests and revise the graphics for consistency. Finally, the protection of views along the entire ridgeline is added back to be consistent with the prior Coors Corridor Sector Plan. (6-6(D).)

This request will be heard by the EPC on **January 21, 2021**, beginning at **8:30 am** online via Zoom.

Re: City application to amend zoning regulations for small areas

Dear Property Owner,

The City of Albuquerque is submitting an application for an Amendment to Integrated Development Ordinance (IDO) Text – Small Area to be reviewed and recommended by the Environmental Planning Commission (EPC) and decided by City Council. This letter is mailed notice to property owners who own land in or abutting one of 14 small areas in Albuquerque that would be subject to area-specific zoning regulations proposed as text amendments to the IDO.

This letter serves as official mailed notice to the property owner addressed on this envelope for the small areas identified below, in accordance with the procedures of IDO Subsection 14-16-6-4(K)(3)(d) Notice for Amendment to IDO Text – Small Area. A complete list of affected properties and maps of the small areas are available on the project webpage: https://abc-zone.com/ido-annual-update-small-area-text-amendments

The application includes text amendments for the Uptown Area:

5-5(I)(2) Uptown Area
Drive-through circulation design

Remove the drive-through prohibition for restaurants in any portion of the Uptown Urban Center that is within 1,320 feet of the I-40 right-of-way. This amendment was submitted by Council Services.

This request will be heard by the EPC on **January 21, 2021**, beginning at **8:30 am** online via Zoom.

Re. May 2019 EPC Submittal – Public Mailed Notice Certification
Amendment to Integrated Development Ordinance (IDO) Map – Phase 2 Zoning Conversions (Batch 2)

Dear Mr. Biazar,

Please accept this letter as certification of Mailed Notice as required by the IDO.

I, Geraldine Delgado, do hereby certify and attest that I delivered 20,419 letters to the City of Albuquerque's mail room for first class stamping and delivery to the U.S. Post Office on November 30, 2020. Of these, 20, 409 letters were to property owners within or within 100 feet of the small area for which a zoning regulation is proposed to change, as required by IDO Subsection 14-16-6-4(K)(3)(d). An additional 10 letters were addressed to Neighborhood Association representatives without email addresses on file with the Office of Neighborhood Coordination for both the city-wide request and the small area request as required by IDO Subsection 14-16-6-4(K)(3)(b) and as shown on the attached exhibits.

Sincerely,
Geraldine Delgado

Subject: Changes proposed by City for North Coors View plane.
Attachments: 2020 Nov COA Proposed IDO Changes Exhibit-3-6D-CoorsBoulevard-VPO-2.pdf

External

Please do not change the existing View Plane Ordinance on all the remaining vacant commercial lots in the Black Ranch subdivision on the east side of Coors between Irving Blvd. and the AMAFCA regional drainage pond at Paseo del Norte and Coors. All these lots (Lots 3F, 3G, 3H, and 3 I). The final grades are set in this existing subdivisions and cannot be lowered. Our streets, and underground storm drains, water and wastewater lines, and dry utilities are in this 1990's approved city subdivision. Most of lots in this subdivision are already built on and their elevations and view plane approvals cannot be altered.

I am an owner of one of the lots, through TB Consultants LLC, and have NOT received notice of proposed changes. I received the notice through another property owner

December 30, 2020

Dear Mrs. Jane Carlton,

Thank you for your call on December 18, 2020 requesting clarification on the zoning for your property at 918 Tijeras NW. This letter covers a short summary of the zoning for the property prior to the adoption of the Integrated Development Ordinance (IDO), and the zoning for the property today under the IDO. Here is a screen shot from the City GIS website. This shows your property circled, the R-ML Zone District, and that the Fourth Ward Historic Overlay Zone does not include your property:

Prior to the adoption of the IDO your property was zoned SU-2 DNA MR (Mixed Residential) per the Downtown Neighborhood Area Sector Development Plan. This zone district allowed the following:

- Height: 40 feet.
- Setbacks:
  - Front up to 15 feet,
  - Side 5 feet or 10 feet if adjacent to SU-2 DNA SF or SU-2 DNA TH,
  - Rear 15 feet.
- Uses: Single Family residential, townhouse, multifamily, and non-residential uses:

- "For properties that do not abut properties zoned SU-2/DNA-SF, nonresidential uses permitted in the SU-2/DNA-MUL zone, provided they do not exceed 10% of the gross floor area of the business."

Today your property is zoned R-ML and is located within the Downtown Neighborhood Area (DNA) CPO (Character Protection Overlay). Please note that the sector plans were converted into Character Protection Overlays to carry over the special provisions of those plans. The zoning for your property today allows the following:

- Height: 40 feet per the DNA CPO
- Setback:
  - Front 15 feet per IDO
  - Side 5 feet; 10 feet if adjacent to an R-1A, R-1B or R-T zone district per the DNA CPO
  - Rear 15 feet per the DNA CPO
- Uses: Single Family residential, townhouse, multifamily, and some Civic and Institutional Uses.

Attached for your reference to this letter are copies of the Downtown Neighborhood Area Sector Development Plan SU-2 DNA MR zone district and SU-2 DNA MUL zone district, and the IDO sections for the DNA CPO and the IDO Use Table.

All of the materials provided in this letter are also available online:

- AGIS Mapping: https://www.cabq.gov/gis/advanced-map-viewer
- Downtown Sector Development Area Plan: http://documents.cabq.gov/planning/UDD/CompPlan2017/SectorPlans/DowntownNeighborhoodAreaSDP-REPEALED.pdf
- Integrated Development Ordinance: https://www.cabq.gov/planning/codes-policies-regulations/integrated-development-ordinance

Kind regards,

Do you have her address/CPO off hand? So I can document this comment.

Subject: RE: Message from ELEANOR CARLTON (+15054504989)

Ms. Carlton would like to formally state that they are not in favor of any changes that impact their zoning. After our conversation, she is feeling a lot better about it. They've been hoping to build a particular project for awhile, so it does seem likely that the changes aren't going to adversely impact that project.

Hi Mikaela,

Thank you for the great discussions today. The one item that caught me off guard was the CPO-13 change on page 345 regarding prohibiting electronic signs. My concerns are:

1) This change was not included in the mailing notifications I received which is why it caught me off guard.
2) It is not clear to me that adding an omission from Volcano Cliffs (largely residential) to extend to Volcano Heights (largely commercial) is appropriate. There was a lot of discussion for the VHSDP regarding signs, including the Unser Overlay Zone, that should have already carried over into the IDO.

In the breakout room I asked if Staff could prepare a side by side comparison of the Volcano Cliffs electronic sign provision vs. the Volcano Heights sign restrictions that should have carried over to the IDO. It would be best for Staff to do this as this will provide a common basis for discussion vs. individual landowners doing their own comparison, especially since this change was not included in the mailing notification.

Page	Section	Change / Discussion	Explanation
345	5-12(H)(2)(f)	**Volcano Mesa CPO-13** Add a new Subsection 5 to prohibit electronic signs in Volcano Mesa CPO-13.	Carries forward an electronic sign prohibition from Volcano Cliffs Sector Plan that was inadvertently omitted and extends it to the entire Volcano Mesa CPO area.

Thank you for your consideration

Cc: Jim Strozier & Michael Vos, Consensus Planning
Cc: Jim Clark, Masterworks Architects

Dear Carrie Barkhust & The Planning Department,

I'm writing in regard to the proposed IDO amendment:

3-4(I)(5)(b) Façade Design

The following articulation standards apply to all properties within the sub-area of Nob Hill/Highland – CPO-8 mapped below.

Effective IDO Text

4. On streets that intersect Central Avenue, each ground floor street-facing façade within 150 feet of or to the first alley or street from Central Avenue, whichever occurs first, shall do all of the following:
   a. Have at least 1 entrance within 40 feet of Central Avenue.
   b. Be built to function as or appear as storefronts or urban residential building frontage type.

I believe that this change to allow urban residential building frontage types instead of storefronts is a step in the right direction. However, the percentage of glazing required in urban areas needs to be addressed. Although I am writing this in response to the amendment in Nob Hill, I feel that this should apply wherever there is a minimum glazing requirement in the UC-MS-PT areas.

The following Exhibit 5-11(D) shows the proposed amendment for multifamily glazing outside of UC-MS-PT areas:

Exhibit 5-11(D)

5-11(D) MULTI-FAMILY RESIDENTIAL DEVELOPMENT

All multi-family residential development outside UC-MS-PT areas containing more than 25 dwelling units shall comply with all of the standards in this Subsection 14-16-5-11(D). Standalone parking structures and the above-ground portion of parking structures incorporated into a building with multi-family residential uses shall comply with the design standards in Subsection 14-16-5-5(G) (Parking Structure Design).

5-11(D)(1) Building Entrances

Primary pedestrian entrances to each primary building shall be emphasized and provide weather protection through variations in the façade, porticos, roof variations, recesses or projections, or other integral building forms.

5-11(D)(2) Façade Design

Façades shall be designed to provide a sense of human scale. Building facades shall meet all of the following requirements or provide justification that the intent of this section is achieved by an alternative design approach.

5-11(D)(2)(a) Windows

A façade shall have windows as a prominent feature.

1. The ground floor of each street-facing façade shall contain a minimum of 20 percent of its surfaces in transparent display windows and/or doors.
2. Windows on the ground floor for portions of the building that are not residential dwellings, i.e., halls and common spaces, must have interior space visible to a depth of 2 feet from the façade.
3. Windows on the upper floors shall be recessed not less than 2 inches and/or shall be surrounded by a window casing not less than 2 inches wide except for portions of the façade that are curtain walls.
4. Windows facing west shall use sun blocking features.

5-11(D)(2)(b) Articulation

Facades shall change in massing and form as specified below to visually break up the building. Each front and side façade shall meet all of the following requirements or provide justification that the intent of this section is achieved by an alternative design approach.

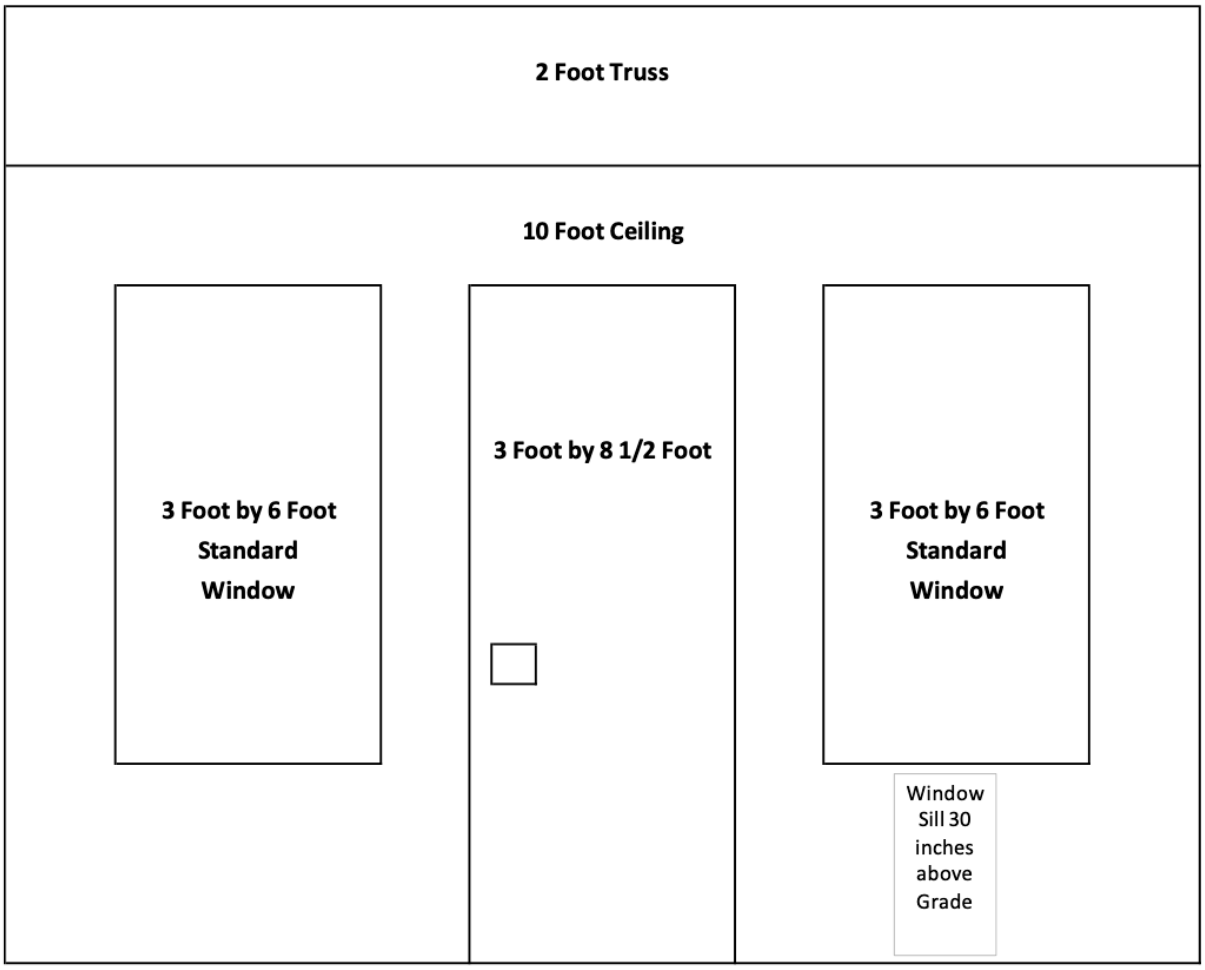

1. The façade shall have at least one recessed or projecting element of 2 feet in dimension for every 30 feet of facade length.

This amendment proposes a 20% glazing requirement in non-UC-MS-PT areas. I believe that the 20% glazing requirement should apply to residential developments of all sizes in UC-MS-PT areas that have minimum glazing requirements. Below are some commonsense reasons why:

For example, in the Nob Hill Overlay Section of the IDO, the glazing requirement states that the ground floor "contain a minimum of 60 percent of its surfaces in clear, transparent windows and/or doors, as measured to include the first 12 feet of building height above the sidewalk, with the lower edge of windowsills no higher than 30 inches above the finished floor."

The following two diagrams represent actual residential townhomes under development:

This first diagram shows what a 20% ground floor residential glazing requirement would look like. This residential unit is 13.5 feet wide. It has a 10-foot ceiling and a 2-foot truss for a total of 12 feet on the ground floor. The windowsill begins 30 inches above the finished floor. The windows are of an urban residential character in that they are twice as tall as they are wide.

Residential Glazing at 20% Requirement

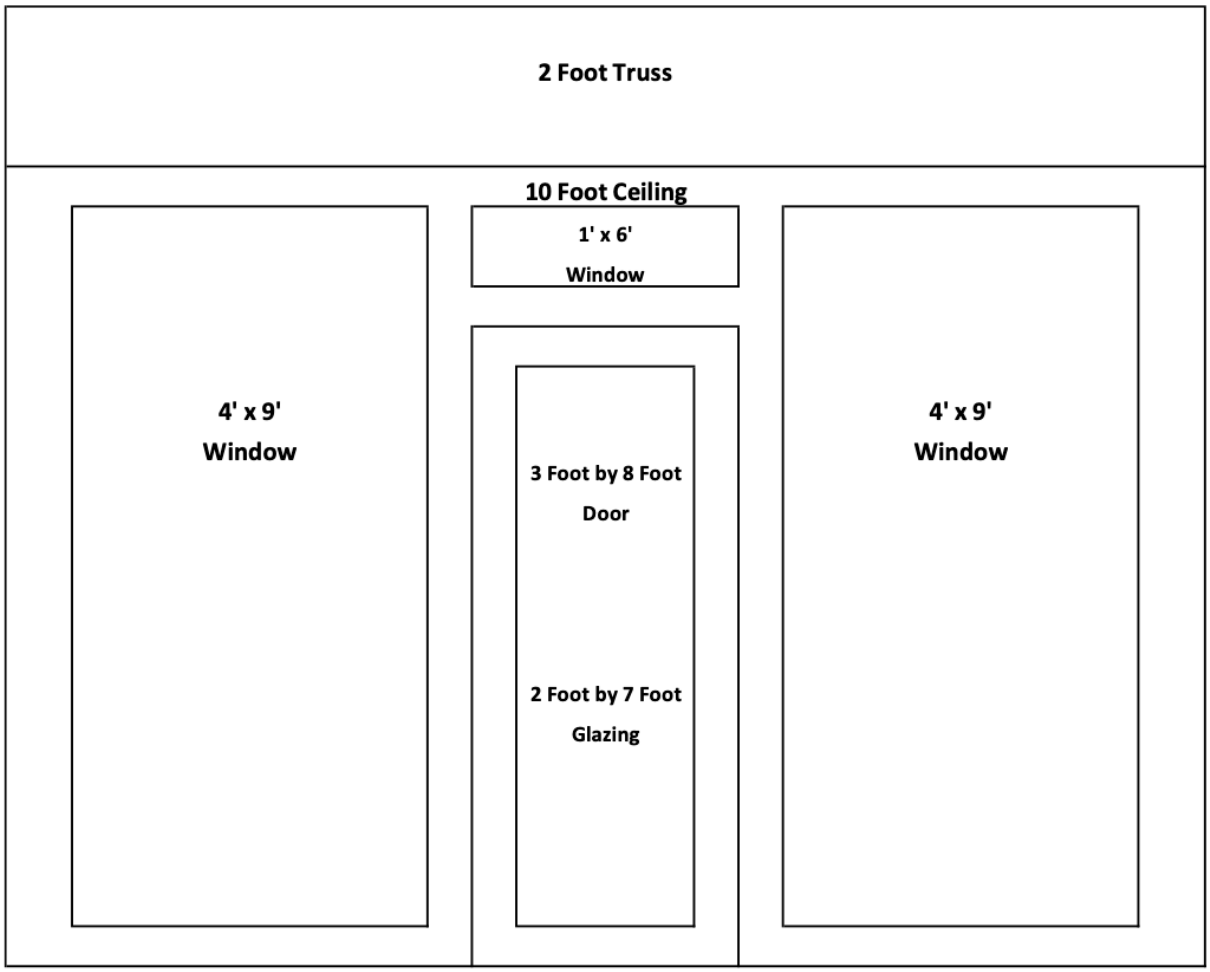

13.5' Width x 12' Height = 162 Sqft Front

32 Sqft Required Glazing

18 sqft + 18 sqft = 36 Sqft Glazing as Shown

Even for this relatively narrow unit, the two large windows shown on the ground floor provide ample light, eyes on the street, an attractive design, and some privacy and safety.

In contrast, here is an example of a 60% residential glazing requirement on the ground floor:

Residential Glazing at 60% Requirement

13.5' Width x 12' Height = 162 Sqft Front

97.2 Sqft Required Glazing

36 Sqft + 36 Sqft + 6 Sqft + 14 Sqft = 92 Sqft Glazing as Shown

Even with glazing throughout the ground floor frontage and a glass front door, only 56.7% of the front is effectively glazed. This also only leaves 6-9 inches of border around clear areas, scarcely enough for structural support.

This type of frontage in an urban area would be undesirable because of security and privacy concerns. Urban residences are closer to major streets than residential developments but still have higher glazing requirements. How many individuals would want to live in a home with this much exposure?

In urban parts of Albuquerque, you can see the consequence of having too much glazing on buildings. Here is an example of one of the many storefront windows which were destroyed and then had to be boarded up. Six months later, many of the buildings are still boarded up. Even without civil unrest, crime and vandalism on large windows is an ongoing concern.

Albuquerque Journal – July 2020

Similarly, some buildings including the Kimo Theater (which is owned by the City of Albuquerque) chose to stop repairing repeatedly broken windows. Instead, they put metal roll down gates over the windows which is not desirable and aesthetically unpleaseing. Unlike a business, residences can't just be closed; they and are occupied at night when safety is even more important.

Kimo Theater in Downtown with metal gates over windows

When onerous glazing requirements are pushed onto on residential buildings, you often see false storefronts added to meet these requirements. This “Disneyfication” of buildings is inauthentic and does not provide eyes on the street nor business activities on the ground floor.

Some may feel that glazing requirements help promote mixed use development. In the right areas, mixed use development could be beneficial. However, especially for the smaller lot sizes, that is not the case. All developments are based on need and have to be financially feasible. Mixed use developments require additional parking, structural support, waste management, etc. They are much harder to finance and bring up the cost of the included residential units.

Homes are in short supply and occupancy levels in Albuquerque continue to remain high. New residential units are also essential because they make overall housing costs more affordable. When new units are built, downward pressure is applied to older units which helps with affordability and homelessness issues. In contrast, commercial and retail buildings remain unoccupied and that trend is expected to accelerate. Constructing empty storefronts make areas appear even more deserted. In contrast, urban residential developments such as townhomes could include ground floor uses such as the now essential home office as well as home-based businesses.

For the reasons above, I am asking the Planning Department and the City of Albuquerque to consider requiring residential buildings in the UC-MS-PT areas where minimum glazing requirements apply to institute a minimum 20% glazing requirement on the ground floor. This would certainly be a way to balance the safety and security of residences with the need for appealing urban spaces.

Sincerely,

Rahim Kassam

Hi there,

I'm forwarding this draft of a proposed amendment for the North I-25 CPO 10. Please can you tell me what the process is to get the Planning Department to sponsor an amendment? This, I hope, was an oversight, and in that, it should be simple to get one of you all to carry it through to EPC, even if Brook decides not to..

Please can I know how you all determine which issues you pick and choose to put forward? What are the measures used to test if an amendment is going to protect a community?

Also, another protection that was placed in design standards surrounding the balloon fiesta area was the restriction of fence posts that had sharp points on them. Is there a way to get this back into the IDO's CPO 10?

Thank you,

Peggy

> Participating in the small Area NA Meeting this morning, I had a chance to review the North I-25 CPO - 10. When the IDO was first shared with my community, I met with Planning Staff to make a personal effort to save some of the protections that we had established in the North I-25 Sector Plan. We were told that building heights as agreed to in the sector plan would be saved in the CPO that was created to cover the balloon fiesta area. Unfortunately without oversight, we see that this has been tweaked to allow 10 stories in an area that should not have this exemption.
>
> Perhaps you might be willing to help rebuild one of those protections?
>
> If you compare the sector plan and the new map of the North I-25 CPO building heights. The most northern sub area zone that is overlaid at I-25 and San Diego as #4, should have been limited to 65ft, without the exemption. In a sincere translation of the sector plan this would not have been given the exception of "for hotel motel uses, which are limited to 120 feet".

You can read the exception defined under 4.3 Height Overlay in the North I-25 Sector Plan. The exception exists at commercial nodes of I-25, building heights of 10 stories are allowed for hospitality uses located within 600 ft of the Interstate. In that there are no commercial interstate nodes north of Alameda, this 10 stories exemption should not be allowed.

I would suggest, to make things clear, strike the exception as noted below and add a reference to the exception as 4* AND relabel the map so that the asterisk is applied at other areas labeled as #4, but not the one at San Diego.

This protects one area and reinforces area of consistency concept. Not sure who crafted this new sub-area map, but it did not take the directions from the Sector Plan nor in collaboration with Dist. 4. NA's.

So here is a stab at a new amendment:

Amend the IDO as follows: (Strike = ~~strike, text that has a strike through it~~ and Add = Add, text that is in red)

3-4(K)(3)(b) Maximum Building Height Maximum building height for each sub-area within the North I-25 – CPO-10 is pursuant to this Subsection 14-16-3-4(K)(3)(b).

1. In sub-area 1: 26 feet.
2. In sub-area 2: 39 feet.
3. In sub-area 3: 52 feet.
4. In sub-area 4: 65 feet~~, except for hotel or motel uses, which are limited to 120 feet (10 stories).~~

4*. In sub-area 4 an exception is provided for hotel motel uses, limited to 120 feet, for sites within 600 feet at commercial nodes along I-25.

I'm working on others, hoping that you will be able to carry some forward. Please let me have your thoughts on this one.

Whatever we can do to rebuild the protections that Sector Plans provided, gives hope to others who have lost their protections.

I very much would like to craft a View Overlay Protection for Paseo and Alameda going forward - is there any will on your side to walk through this work? I look forward to hearing from you.

Kind regards,

Peggy

Hi Peggy,

Thanks for your question. The Planning Department doesn't sponsor amendments, in the way that City Councilors do. Planning gathers requests for changes from residents, property owners, and staff. We then work through proposals for changes with Council staff and Planning staff to ensure consistency with the IDO and policy intent in the Comprehensive Plan.

The small area changes that are proposed to be part of the submittal for the IDO Annual Update 2020 were items that were identified as inadvertent omissions when we carried over provisions from the Sector Development Plans (SDP) into the IDO or items that needed clarification to meet the original policy intent.

Councilors have also forwarded requests for new regulations with new policy intent.

In the case of the North I-25 CPO, that overlay was added to the IDO late in the adoption process following a discussion with you about the need to carry over provisions from the North I-25 SDP. Councilor Winter revised the Overlay to only apply west of I-25 and to address the items that now make up the CPO. From what I understand, this was a carefully considered decision that took into account development projects that were already underway east of I-25 while acknowledging the policy intent to limit the height of development west of the Balloon Fiesta Park. As the CPO content represents the content negotiated by the Councilor at the time, we did not identify any omissions that needed to be added in 2020.

There are 2 main ways that proposed changes based on new policy intent will be included in the IDO Annual Update. One is to be proposed/sponsored by a City Councilor. The other is to be recommended through the Community Planning Area assessment process, which is intended to be a forum for discussions among community members about what's working, what's not working, and what is needed in the future.

The Text Amendment IDO for Small Areas requires notice to each property owner in the small area + property owners within 100 feet. As you might imagine, this is a very large logistical undertaking that takes some time. There's no way to do that mailing by this Monday, when we intend to submit the 2020 Annual Update.

If Councilor Bassan would like to propose the changes you would like to see in the North I-25 CPO, she can certainly do so at any time by submitting an application for an IDO Text Amendment – Small Area, following the full process required by the IDO in Table 6-1-1 and Subsection 14-16- 6-7(E). The proposed change to prohibit pointy fence posts seems appropriate to add to the CPO.

You asked what are the measures for protecting the community. While that is now a purpose of the

IDO, the review decision criteria in Subsection 14-16- 6-7(E)(3) is what decision-makers must use in considering whether to adopt a change to IDO text for small areas. Generally, that criteria is the health, safety, and general welfare of the city as shown by the vision, goals, and policies in the ABC Comp Plan. Testimony and comments from the public are very helpful to decision-makers in these discretionary policy decisions about new regulations.

Best,

MIKAELA RENZ-WHITMORE

Dear Mikaela:

I am a property owner at 7909 Tiburon Hills Drive NW and I am writing to lodge a formal complaint against the city application to amend zoning regulations for small areas.

I am highly opposed to changing zoning restrictions under which I purchased my property. These changes would obstruct my view and I do not support these changes. I am opposed to changing to planning for the neighborhood to facilitate developer interests at the exclusion of existing property owners.

I am in full support and alignment with the Petroglyph neighborhood association opposition to this proposal and would like my complaint registered in formal public comments.

Wendy Rebmann
wendyrebmann@icloud.com

Also since the spreadsheet link doesn't work and the maps unreadable what properties near my property specifically are you attempting to change the zoning on. Our properties were bought with the understanding that with current zoning views would not be blocked so you would be damaging the value of my property and I would have to consider class action litigation against the city for these actions if these efforts are approved without prior property owner consent.

Ms. Rebmann,

I'm sorry you're having issues downloading the spreadsheet.

There are no changes proposed that would allow taller houses. In fact, the proposals would limit building heights for an additional 660 feet from the existing building height restriction area.

Here's the link to the spreadsheet again, just in case it works from email better than from the website:
https://abc-zone.com/sites/abc-zone.com/files/media/04-ListofAmendments.pdf

It opens and downloads for me using the Chrome browser.

I'm cutting and pasting the items included for the Volcano Mesa CPO and Northwest Mesa VPO for your convenience.

Subject: Registration of complain to amend small areas near my property

External

Dear Mikaela:

I am a property owner at 7909 Tiburon Hills Drive NW and I am writing to lodge a formal complaint against the city application to amend zoning regulations for small areas.

I am highly opposed to changing zoning restrictions under which I purchased my property. These changes would obstruct my view and I do not support these changes. I am opposed to changing to planning for the neighborhood to facilitate developer interests at the exclusion of existing property owners.

I am in full support and alignment with the Petroglyph neighborhood association opposition to this proposal and would like my complaint registered in formal public comments.

Wendy Rebmann
wendyrebmann@icloud.com

Also since the spreadsheet link doesn't work and the maps unreadable what properties near my property specifically are you attempting to change the zoning on. Our properties were bought with the understanding that with current zoning views would not be blocked so you would be damaging the value of my property and I would have to consider class action litigation against the city for these actions if these efforts are approved without prior property owner consent.

Hi Kathryn. Thanks for your reply and your information. Yes, that's my garage with the solar panels on the roof. Hmmm....a 25 ft. setback that the City really wants.....I guess I'll have to abandon my thoughts about building that third stall. It would have been much safer for my vehicle, and the space between the garage and the adobe fence isn't going to be used for anything other than parking a vehicle. But I guess that's the way it goes! Thanks again.....Steve Snider

Hello Stephen,

The City is proposing to amend the setback rules that apply to your property to make them more consistent with how they were applied in the Rio Grande Blvd. Corridor Plan. This plan required a 25 foot setback from Rio Grande Blvd. in the RA-2 zone and 20 feet in all other zones. This setback was required even if the side of your lot or rear of a lot was abutting Rio Grande. This rule was made to keep the sense of open space and rural character along the road. Without the rule (and in some subdivisions before this rule was adopted), the side or rear setback could be much smaller. This development form was changing the character or Rio Grande Blvd.

When the City replaced the Rio Grande Blvd. Corridor Plan with the new zoning code – the Integrated Development Ordinance (IDO) – the language of the rule changed slightly. And unintentionally.

The result is that that 25 foot setback would be required for all your property lines, not just the one abutting Rio Grande Blvd. The proposed change you received notice about makes it clear that you only have to do the large setback from Rio Grande.

- See page 24 of this presentation for more information about this change.
- See Section 3-4(L)(3) of the IDO for the rule as it's currently written.

Since you have an existing home, it would be considered nonconforming, AKA "grandfathered," if it doesn't meet any rules that were adopted/changed after construction of your home. This means that even if the City changes the rules, your existing property does not need to change to comply with the new rules. If you would like to review the Nonconforming rules to confirm this, click on this link: Nonconforming Regulations.

This means that the current rules and the proposed change only apply to your property if you demolish the dwelling and rebuild again later. The proposed change would allow you to build something similar to the way your site is laid out now.

Now shifting to your question, if that is your garage with the solar panels on the roof, it does not look like it could be built out any closer to Rio Grande. It looks close to 20 feet from the edge of your property, and the required setback is 25 feet. You could request a variance, which it sounds like you tried several years ago. To obtain a variance, you have to show no harm is being done to the surrounding area. Because there is a specific rule about setbacks from Rio Grande, that indicates the City has an interest in maintaining the larger setbacks.

Best regards,

Carrie

Hi Carrie. I'm Stephen Snider, the owner of the property at 2401 Kestrel Ct. NW, right off of Rio Grande south of Candelaria. I received the application notice today and have a question. The notice states the text amendment for 3-4(L) Rio Grande Blvd. - CPO-11 is "Revise the setback standard to be consistent with the Rio Grande Corridor Plan to apply only to the setback from Rio Grande (not side streets) and makes the structure parallel with the Coors Blvd. CPO-2."

What does this mean? What is the current setback requirement (in feet) and what would the above change it to?

The reason I'm asking.....a couple of years ago, I attempted to get a setback variance to enable me to build a 3rd stall for my garage. I attended the hearing, but met resistance from the "North Rio Grande Planning Association," an organization I had never heard of. But I would still like to build that 3rd stall. Would the above amendment allow me to do so? Thanks much.....Steve Snider

Carrie,

I appreciate the Zoom briefing today, and the opportunity for the limited Q & A session. With so many proposed changes at once, it is hard to know what other changes may of be concern. However, based upon the Volcano Mesa breakout session, I can say I and many neighbors are ardently opposed to the proposed change to the building massing standard.

The inclusion of a developer-submitted request in the Planning Department's proposed changes to the IDO—which are clearly designed to overcome existing protections that the developer unsuccessfully attempted to skirt via improper variance requests and against which the ZHE definitively ruled—is troubling. That the changes were characterized in the announcement as ***"consistent with the Volcano Cliffs Sector Plan"*** is also troubling, as this is in error. As I pointed out, and was further clarified out by Council Staff, the Volcano Cliffs Sector Development Plan (The last amended and in force version of 7-9-2015) clearly limits second story building to 50% of the building footprint in 4 of the 5 zones described in the Plan. Only for the VCRR zone, and ***only*** for Private Commons Development (PCD)/Cluster Development per City Zoning Code Section 14-16-3-16, is a 75% standard applicable.

In both versions of the IDO (IDO-Effective-2018-05-17.pdf and the Interactive IDO online) there is no reference to cluster development within the Volcano Mesa Character Protection Overlay Zone (Designated as CPO-12 in the former and CPO-13 in the latter).

In no way is applying a CPO-wide change to the building massing standard consistent with the VCSDP. For your convenience I have provided below the specific wording from the VCSDP for each of the areas where the standard remains 50%.

SU-2/Volcano Cliffs Village Center (VCVC)

Height

1. Building height limits as follows:
    c. Square footage above 26 feet is limited to 50% of the building footprint. (Page 65. VCSDP, Amended 7-9-15)

SU-2/Volcano Cliffs Mixed-use (VCMX)

Height

1. Building height limits as follows:
    c. Square footage above 26 feet is limited to 50% of the building footprint. (Page 68. VCSDP, Amended 7-9-15)

SU-2/Volcano Cliffs Urban Residential (VCUR)

Height

1. Building height limits are as follows:

e. Square footage above 26 feet is limited to 50% of the building footprint. (Page 70. VCSDP, Amended 7-9-15)

SU-2/Volcano Cliffs Large Lot (VCLL)

Height

1. Building height limits are as follows:

b. Maximum: 18 feet; however, height can be increased to 26 feet on a maximum of 50% of the building footprint. (Page 71. VCSDP, Amended 7-9-15)

***ONLY* SU-2/Volcano Cliffs Rural Residential (VCRR)** has different language.

Height

1. Building height limits are as follows:

b. Maximum: 18 feet; however, height can be increased to 26 feet on a maximum of 50% of the building foot- print.

c. If developed as Private Commons Development (PCD)/Cluster Development per City Zoning Code Section 14-16-3-16, height can be increased to 26 feet on a maximum of 75% of the building footprint. [Amended November 5, 2014]

(Page 74. VCSDP, Amended 7-9-15)

This proposed change is inconsistent with the intent of the VCSDP, is detrimental to the character of the neighborhoods in the Volcano Mesa CPO zone, will potentially degrade the view corridors, and is unnecessary. If it is included in the proposal going forward, you may anticipate significant opposition from Petroglyph Estates residents and property owners specifically, and probably others within the CPO as well. Due to the large sums paid by each of the property owners within Special Assessment District 228—sums which were paid in part in consideration for the building standards adopted in the VCSDP—any such changes could be considered an uncompensated taking by the City and present an actionable cause of action. We hope it need not get to that point.

I urge you to remove this item from the IDO amendment proposal, and to avoid including developer-requested language without first applying greater scrutiny in the future.

Respectfully,
Mike T. Voorhees
