The following policies for deciding zone map change applications pursuant to the Comprehensive City Zoning Code are hereby adopted:

(A) A proposed zone change must be found to be consistent with the health, safety, morals, and general welfare of the city.

(B) Stability of land use and zoning is desirable; therefore the applicant must provide a sound justification for the change. The burden is on the applicant to show why the change should be made, not on the city to show why the change should not be made.

(C) A proposed change shall not be in significant conflict with adopted elements of the Comprehensive Plan or other city master plans and amendments there, to, including privately developed area plans which have been adopted by the city.

(D) The applicant must demonstrate that the existing zoning is inappropriate because:
   1. There was an error when the existing zone map pattern was created; or
   2. Changed neighborhood or community conditions justify the change; or
   3. A different use category is more advantageous to the community, as articulated in the Comprehensive Plan or other city master plan, even though (D)1. or (D)2. above do not apply.

(E) A change of zone shall not be approved where some of the permissive uses in the zone would be harmful to adjacent property, the neighborhood, or the community.

(F) A proposed zone change which, to be utilized through land development, requires major and unprogrammed capital expenditures by the city may be:
   1. Denied due to lack of capital funds; or
   2. Granted with the implicit understanding that the city is not bound to provide the capital improvements on any special schedule.

(G) The cost of land or other economic considerations pertaining to the applicant shall not be the determining factor for a change of zone.

(H) Location on a collector or major street is not in itself sufficient justification for apartment, office, or commercial zoning.

(I) A zone change request which would give a zone different from surrounding zoning to one small area, especially when only one premise is involved, is generally called a “spot zone.” Such a change of zone may be approved only when:
   1. The change will clearly facilitate realization of the Comprehensive Plan and any applicable adopted sector development plan or area development plan; or
   2. The area of the proposed zone change is different from surrounding land because it could function as a transition between adjacent zones; because the site is not suitable for the uses allowed in any adjacent zone due to topography, traffic, or special adverse land uses nearby; or because the nature of structures already on the premises makes the site unsuitable for the uses allowed in any adjacent zone.

(J) A zone change request which would give a zone different from surrounding zoning to a strip of land along a street is generally called “strip zoning.” Strip commercial zoning will be approved only where:
   1. The change will clearly facilitate realization of the Comprehensive Plan and any adopted sector development plan or area development plan; and
   2. The area of the proposed zone change is different from surrounding land because it could function as a transition between adjacent zones or because the site is not suitable for the uses allowed in any adjacent zone due to traffic or special adverse land uses nearby.
