Environmental Planning Commission

Staff Report

Agenda Number: 2
Project #: 2018-001843
Case #: RZ-2022-00056
Hearing Date: December 8, 2022

Applicant	City of Albuquerque Counsel Services
Agent	City of Albuquerque Planning Department
Request	Amendment to the Integrated Development Ordinance (IDO) Text – Small Areas for the 2022 Annual Update
Location	Northwest Mesa Escarpment View Protection Overlay Zone (VPO-2)

Staff Recommendation

That a recommendation of DENIAL of Project 2018-001843, Case RZ-2022-00056 based on the FINDINGS beginning on page 20, be forwarded to the City Council.

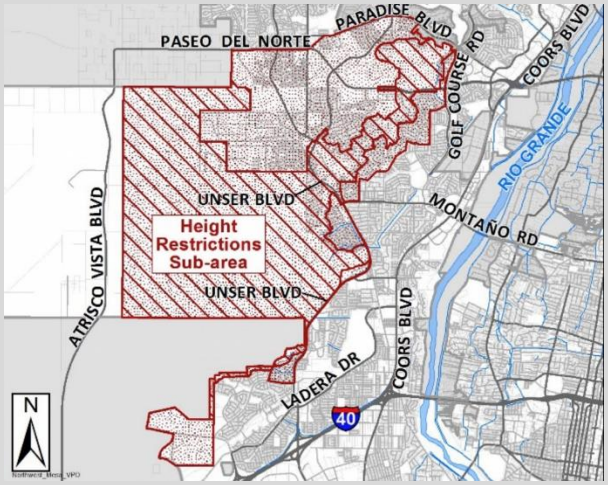

Staff Planner
Megan Jones, Senior Planner

Summary of Analysis

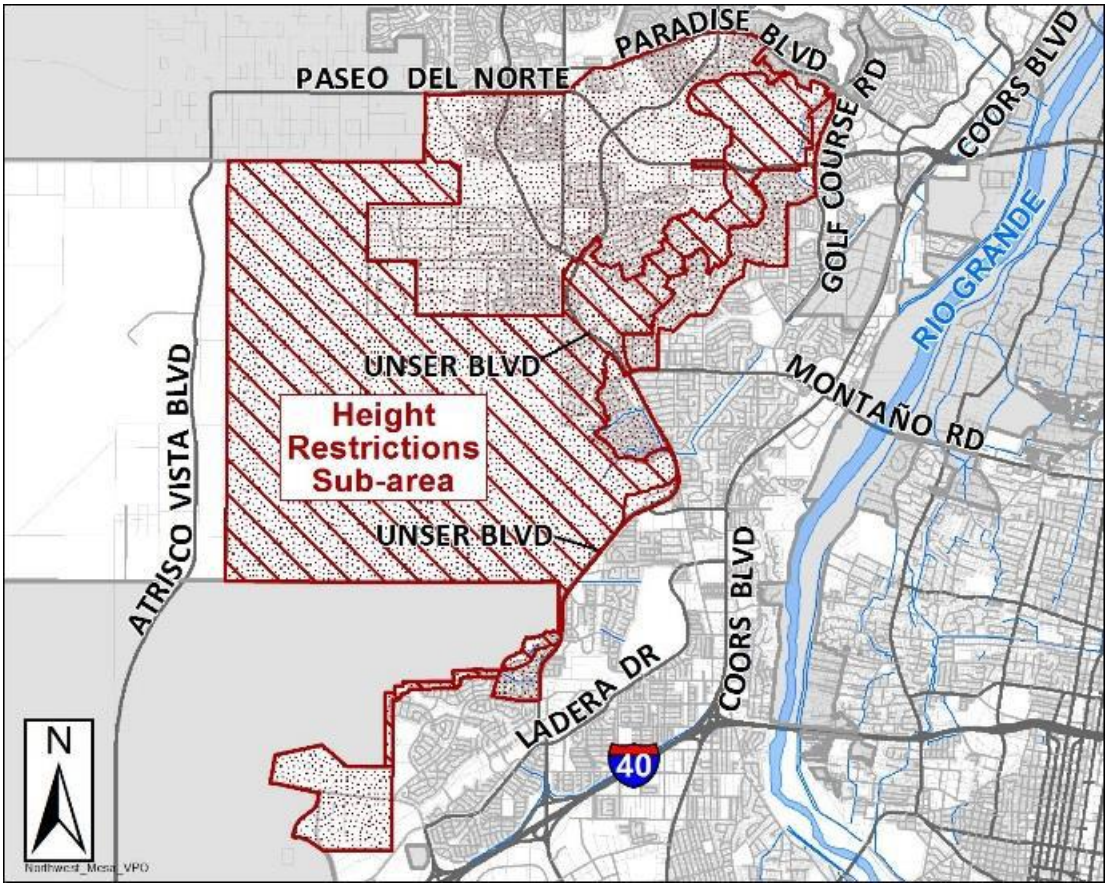

The request is for text amendments to the Integrated Development Ordinance (IDO) pertaining to a Small Area designated as a View Protection Overlay Zone for the Northwest Mesa Escarpment (VPO-2). The proposed change was identified as part of the Annual Update process, and would change the requirements for lots with mixed-use or non-residential zoning within the Height Restrictions Sub-Area in VPO-2.

The request has not been adequately justified pursuant to the IDO Review and Decision Criteria for Small-Area Text Amendments in IDO 14-16-6-7(E)(3) and conflicts with criteria A and B. The request would be harmful to the health and general welfare of the surrounding community; it is inconsistent with the intention of the Northwest Mesa Escarpment View Protection Overlay zone; presents significant conflicts with several, applicable Goals and policies in the Comprehensive Plan; is not more advantageous to the community; and is incompatible with standard City zoning practice.

As of this writing, Staff has received several comments that express concern about the proposed changes; there is general opposition to the request. Staff recommends that a recommendation of denial be forwarded to the City Council.

Comments received before November 28th at 9 am are attached to and addressed in this Staff Report. Comments received before December 1st at 9 am are attached, but not addressed. Comments received before December 8th at 9 am (after publication of this report and more than 48 hours before the hearing) are provided to the EPC, but not attached to this report.

I. INTRODUCTION

Request

This request is for an Amendment to the Integrated Development Ordinance (IDO) Text – Small Areas for the Annual Update required by IDO Subsection 14-16-6-3(D). The proposed text amendments affecting the Northwest Mesa Escarpment View Protection Overlay Zone (VPO-2) are accompanied by city-wide text amendments to the IDO, which were submitted separately pursuant to Subsection 14-16-6-7(E) and are the subject of another Staff report (RZ-2022-00054). The proposed small area amendments, when combined with the proposed city-wide amendments, are collectively known as the 2022 IDO Annual Update.

The proposed amendments would change the requirements for lots with mixed-use or non-residential zoning within the Height Restrictions Sub-Area in VPO-2. The height restriction would only be applied to the portion of a lot that is within the sub-area boundary, and would no longer apply to the entire lot. This change would not apply to any residential zone districts within the sub-area boundary.

The small area amendments were reviewed during two pre-submittal Neighborhood Meetings, which were held on October 17, 2022 and October 19, 2022 as required by Table 6-1-1 for Amendment to IDO Text – Small Area and as specified in IDO Subsection 14-16-6-4(C). See section V of the report.

The application was submitted October 27, 2022 and is being reviewed using the December 2022 version of the Integrated Development Ordinance (IDO).

Background

Upon adoption in May 2018, the Integrated Development Ordinance (IDO) established a process through which it can be updated on an annual basis. IDO Subsection 14-16-6-3(D) requires Annual Updates, stating that the Planning Department shall prepare amendments to the text of the IDO and submit them every year for an EPC hearing in December. The IDO annual update process established a regular, required cycle for discussion among residents, businesses, City Staff, and decision-makers to consider any needed changes that were identified over the course of the year.

Two types of annual IDO updates were established in November 2020: Amendment to IDO Text-Citywide [Subsection 14-16-6-7(D)] and Amendment to IDO Text-Small Areas [Subsection 14-16-6-7(E)]. City-wide text amendments apply generally throughout the City and are reviewed using a legislative process. Text amendments to smaller areas within the City apply only to those areas and require a quasi-judicial review process.

History & Purpose

The Northwest Mesa Escarpment (VPO-2) is part of the Petroglyph National Monument. In 1988 the City established the Petroglyph National Monument as an important archeological site and cultural property in the Comprehensive Plan. Petroglyphs are found in clusters along the Northwest Mesa Escarpment and are of importance in meaning and use for Native American Pueblos (Comp Plan 11-15). The Petroglyph National Monument was authorized by the U.S. Congress in 1990 as a unit of the

national park system. The 17-mile escarpment is managed in part by the City Open Space Division and the National Parks Service. The character and identity of the area is protected by the VPO-2 protection overlay zone and Height Restriction Sub-Area which was formed to protect the views looking to and from the Petroglyph National Monument.

VPO-2 was added to the IDO upon initial adoption of the document in 2018. VPO-2 offers unique protections that are not applicable to the rest of development in the City in an effort to maintain an established character on the corridor. Its provisions are based on previously adopted plans (the Northwest Mesa Escarpment Plan, Volcano Cliffs SDP, and Volcano Trails SDP), including regulations related to building and structure height, color, reflectivity, and roof-mounted equipment.

The Northwest Mesa Escarpment Plan was originally approved in 1987 and last amended in 2016. Although repealed upon adoption of the IDO in 2018, the Escarpment Plan also included height regulations for the design overlay zone and view preservation area. Structures were not to exceed 15 feet in residential zone districts, up to 4 feet of additional height was allowed in non-residential zones through a variance, and residential structures more than 200 feet from the Petroglyph National Monument were allowed a height up to 26 feet. Where height allowances were approved within the 200-foot escarpment area, the EPC could not allow more than 19 feet of height from the natural grade.

The Volcano Cliffs and Volcano Trails Sector Development Plans (SDP), are no longer in effect, although some height provisions originally included in the SDPs were carried over with the adoption of the IDO. The Volcano Cliffs SDP included a provision which limited 50% of a building footprint to be above 26 feet and up to 35 feet maximum. The Volcano Trails SDP had a maximum height of 18 feet within 200 feet of the Petroglyph National Monument or Major Public Open Space and a 26 feet maximum outside of that area. A 35-foot maximum height was allowed in some SU areas.

Upon adoption of the IDO, VPO-2 was approved and the Height Restriction Sub-area that was originally formed in the 1980s was implemented. VPO-2 includes a height restriction of 15 feet, as measured from the natural grade was included (IDO 14-16-3-6(E)).

The 2020 IDO approved update includes an amendment to the VPO-2 small area which included the creation of an expanded Height Restriction-Sub Area. This amendment was created with the intention to limit building heights to 30 feet, or the maximum height allowed by the underlying zone district, whichever was lower, in order to decrease the intensity of development near the Escarpment and the surrounding Petroglyph National Monument.

Applicability

The proposed IDO text amendments apply land within the City of Albuquerque municipal boundaries. The IDO does not apply to lands controlled by another jurisdiction, such as the State of New Mexico,

or to Federal lands. Properties in unincorporated Bernalillo County or other municipalities, such as the Village of Los Ranchos and City of Rio Rancho, are also not subject to the IDO.

Environmental Planning Commission (EPC) Role

The EPC is hearing this case pursuant to IDO Subsection 14-16-6-7(E), Amendment to IDO Text – Small Area.

The EPC is hearing this case because the EPC is required to review the changes proposed and make a recommendation to the City Council regarding the proposed IDO Small Area text amendment as a whole. As the City's Planning and Zoning Authority, the City Council will make the final decision. The EPC is the Council's recommending body with review authority for the IDO Text Amendment. This is a quasi-judicial matter.

II. ANALYSIS OF ORDINANCES, PLANS, AND POLICIES

Charter of the City of Albuquerque

The Citizens of Albuquerque adopted the City Charter in 1971. Applicable articles include:

Article I, Incorporation and Powers
The municipal corporation now existing and known as the City of Albuquerque shall remain and continue to be a body corporate and may exercise all legislative powers and perform all functions not expressly denied by general law or charter. Unless otherwise provided in this Charter, the power of the city to legislate is permissive and not mandatory. If the city does not legislate, it may nevertheless act in the manner provided by law. The purpose of this Charter is to provide for maximum local self-government. A liberal construction shall be given to the powers granted by this Charter.

> ***Amending the IDO via text amendments is inconsistent with the purpose of the City Charter to provide for maximum local self-government. The revised regulatory language and process in the IDO will not help implement goals and policies within the Comprehensive Plan or help guide future legislation.***

Article IX, Environmental Protection
The Council (City Commission) in the interest of the public in general shall protect and preserve environmental features such as water, air and other natural endowments, ensure the proper use and development of land, and promote and maintain an aesthetic and humane urban environment. To affect these ends the Council shall take whatever action is necessary and shall enact ordinances and shall establish appropriate Commissions, Boards or Committees with jurisdiction, authority and staff sufficient to effectively administer city policy in this area.

> ***The IDO is an instrument to help promote and maintain an aesthetic and humane urban environment for Albuquerque's citizens, and thereby promote improved quality of life. The proposed Small Area text amendments to the IDO would not ensure that land is developed and used properly. The VPO-2 Small Area was established to protect and preserve the Northwest Mesa Escarpment features; therefore Commissions, Boards, and Committees would not be able to facilitate effective administration of City policy in this area with the approval of this amendment.***

Article XVII, Planning
Section 1. The Council is the city's ultimate planning and zoning authority, including the adoption and interpretation of the Comprehensive Plan and the Capital Improvement Plan. The Council is also the city's ultimate authority with respect to interpretation of adopted plans, ordinances, and individual cases.

Amending the IDO through the annual update process is an instance of the Council exercising its role as the City's ultimate planning and zoning authority. The IDO will help implement the Comprehensive Plan and ensure that development in the City is consistent with the intent of any other plans and ordinances that the Council adopts.

Section 2. The Mayor or his designee shall formulate and submit to the Council the Capital Improvement Plans and shall oversee the implementation, enforcement, and administration of land use plans.

Amending the IDO through the annual update process will help the Administration to implement the Comprehensive Plan vision for future growth and development, and will help with the enforcement and administration of land use plans.

Albuquerque / Bernalillo County Comprehensive Plan (Rank 1)

The Comprehensive Plan and the IDO were developed together and are mutually supportive. The purpose of the IDO [see 14-16-1-3], in the most overarching sense, is to implement the Comprehensive

The request for a text amendment to the IDO-Small Areas does not further a preponderance of applicable Comprehensive Plan Goals and Policies, and some conflicts emerge and are explained below in the Staff analysis. Citations are in regular text; Staff analysis follows in bold italics. Ordinance citations are in regular text; ***Staff analysis follows in bold italics.***

Chapter 4: Community Identity

Policy 4.1.2 - Identity and Design: Protect the identity and cohesiveness of neighborhoods by ensuring the appropriate scale and location of development, mix of uses, and character of building design.

The request would not facilitate appropriate scale and location of devlopment and the chatacter of building design on non-residential and mixed-use tracts that are partially outside of the VPO-2 Sub Area. If approved, building height restrictions would continue to apply on portions of the lots within the view protection overlay zone and building height restrictions would be subject to IDO requirements outside of the VPO-2 area. This would allow for less stringent development standards than what is currently required on non-residential and mixed-use tracts that are partially outside of the VPO-2 area. The requested change may cause inconsistencies in development with the adjacent residentially zoned tracts and within the surounding VPO-2 area. The Northwest Mesa Escarpment Plan of 1986 originally protected the views within 650 feet of the escarpment, but this has been extended to the entire boundary of the VPO-2. The request would allow development outside of the VPO-2 boundary to follow IDO standards, therefore creating an inconcistency in the scale of development and character of building design with adjacent tracts within the VPO-2 boundary. The request does not protect the identity and

cohesiveness of the Northwest Mesa neighborhood, therefore Policy 4.1.2-Identity and Design is not furthered.

Policy 4.1.3 Placemaking: Protect and enhance special places in the built environment that contribute to distinct identity and sense of place.

The request to raise the allowable height on non-residential and mixed-use lots where the VPO-2 boundary crosses a lot line, would not protect or enhance the distinct identity or sense of place of the Northwest Mesa Escarpment. The purpose of the VPO-2 Small Area is to protect the views of the Petroglyph National Monument and the Northwest Mesa Escarpment and if approved, the request would not protect the views within this distinct community. Since the request is to remove the height restriction on portions of lots outside of the VPO-2 boundary, development on those tracts outside of the Sub-area would be subject to IDO standards which would create an inconsistency in development standards, therefor Policy 4.1.3 -Placemaking is not furthered.

Policy 4.1.4 - Neighborhoods: Enhance, protect, and preserve neighborhoods and traditional communities as key to our long-term health and vitality.

The request would not enhance, protect, and preserve the surrounding neighborhood within the Northwest Mesa Escparment (VPO-2). VPO-2 is a designated view protection overlay zone established to enhance and protect the views and preservation of the Northwest Mesa Escarpment/Petroglyph National Monument. The request to remove the height restriction on portions of a lot partially outside the VPO-2 boundary may cause a distruption in development patterns on lots adjacent to the VPO-2 area and on portions of lots within the Sub-area. The request would allow development on large mixed-use and non-resdiential lots outside of the VPO-2 to occur pursuant to the IDO standards; therefore causing an inconsistency with development on adjacent lots within the VPO-2 Sub-area and surrounding residential neighborhoods, which cuold be dversely impacted. The request would not protect the views within Northwest Mesa Escparment neighbrohood or preserve their long-term health and vitalitiy. Policy 4.1.4 – Neighborhoods is not furthered.

Policy 4.1.5 Natural Resources: Encourage high-quality development and redevelopment that responds appropriately to the natural setting and ecosystem functions.

The Northwest Mesa Escarpment View Protection overlay zone was created to protect the views looking to and form the Petroglyph National Monument. The requested text amendments would not change any height restriction standards within the VPO-2 Small Area, although it would allow development and redevelopment on lots that are partialy outside of the overlay zone to be developed subject to IDO development standards, which may disrupt development patterns between non-resdientian and mixed-use lots and adjacent tracts. The request would facilitate development and redeveopment that would disrupt the views of the Northwest Mesa Escaprment as intended within the VPO-2 boundary, threfore, Policy4.1.5 is not furthered.

Chapter 5: Land Use

Goal 5.4 Jobs-Housing Balance: Balance jobs and housing by encouraging residential growth near employment across the region and prioritizing job growth west of the Rio Grande.

The request would remove height restrictions on mixed-use, non -residential lots that are partially outside of the VPO-2 Small Area overlay zone. Approval of this request would facilitate mixed-use, non-residential development subject to IDO standards, but does not guarantee job growth nor does it encourage residential growth near employment across the region. Goal 5.4 does not apply.

Policy 5.4.2 West Side Jobs: Foster employment opportunities on the West Side.

The request would remove height restrictions on mixed-use, non -residential lots that are partially outside of the VPO-2 Small Area overlay zone. Although approval of this request could facilitate mixed-use, non-residential development subject to IDO standards, it does not foster employment opportunities. Policy 5.4.2 does not apply.

Policy 5.7.2 - Regulatory Alignment: Update regulatory frameworks to support desired growth, high quality development, economic development, housing, a variety of transportation modes, and quality of life priorities.

The IDO's procedures and processes in Part 6 have been developed to effectively and equitably implement the Comprehensive Plan. In order for the City's land use, zoning, and development regulations to stay up-to-date, the IDO established an annual update requirement into the regulatory framework. Changes proposed are intended to continually improve how the IDO implements the comp Plan by aligning regulations with Comp Plan goals and policies.

The annual amendment process for the IDO – Small Areas is a procedure to continue to effectively and equitably implement the Comprehensive Plan that results in an updated regulatory framework. The proposed text amendments would not further applicable Comprehensive Plan Goals and policies or improve the IDO, the implementation mechanism because the request would not support growth desired by residents within or adjacent to the VPO-2 area. The VPO-2 area has been regulated by the height provision since the 1980's, therefore the request does not support desired growth or quality of life priorities. The request does not further the Regulatory Alignment policy 5.7.2.

Chapter 7: Urban Design

Policy 7.3.2 Community Character: Encourage design strategies that recognize and embrace the character differences that give communities their distinct identities and make them safe and attractive places.

Sub-policy a) Design development to reflect the character of the surrounding area and protect and enhance views.

The request would facilitate development on mixed-use and non-resdiential lots within and partially outside of the VPO-2 height restrictions sub-area that would create inconsistiencies with the height limitations that are required within the VPO-2 area. The VPO-2 was created to protect and enchance the views to and from the Petroglph National Monument within the Northwest Mesa Escarpment. The request would change the IDO to allow development standards, specifically related to height provisions, to be pursuant to the IDO on non-resiential and mixed-use tracts where the VPO-2 boundary crosses a lot line. The request would not continue to protect the views of the Northwest Mesa Escaprment and it would affect lots adjecent to the VPO-2 boundary. The height limitations were created as a design strategy to protect the distinct identity of the Northwest Mesa escarpment and make it an attractive place, therefore Policy 7.3.2 Community Character, Subpolicy a is not furthered.

Chapter 8: Economic Development

Policy 8.1.1 – Diverse Places: Foster a range of interesting places and contexts with different development intensities, densities, uses, and building scale to encourage economic development opportunities.

The proposed text amendments include changes that would facilitate development of different development intensities and densities that would not continue to preserve the Northwest Mesa Escarpment (VPO-2). VPO-2 was originally created in the 1980s to protect the views of the Petroglyph National Monument and placed height limitations within 660 feet of the escarpment. The VPO-2 Small Area has a provision that places height restrictions on all lots that the VPO-2 boundary passes through. The request would foster different building scale and intensities that would be inconsistent with the surrounding community, but may encourage economic development opportunities on mixed-use and non-residential lots partially within and adjacent to the Northwest Mesa Escarpment VPO-2. The request partially furthers Policy 8.1.1 – Diverse Places.

Chapter 11: Heritage Conservation

Policy 11.3.1 Natural and Cultural Features: Preserve and enhance the natural and cultural characteristics and features that contribute to the distinct identity of communities, neighborhoods, and cultural landscapes.

Subpolicy a) Minimize negative impacts and maximize enhancements and design that complement the natural environment, particularly features unique to Albuquerque, in development and redevelopment in light of the relationship to and effect upon the following:

v. Scenic views from the public right-of-way

Subpolicy b) Minimize the visibility of structures in highly scenic areas and on the western horizon as seen throughout the city through building design and materials that blend with the natural colors of the landscape and limit reflectivity.

Subpolicy c) Protect important views from public rights-of-way through regulations on street orientation, site layout, building height, and signs.

Subpolicy d) Encourage site design that enhances and leverages views to cultural landscapes.

Subpolicy e) Encourage appropriate edge treatments, transitions, and buffers through site design and development standards for development adjacent to Open Space.

The proposed text amendments would partially preserve the views of the Petroglyph National Monument within the Northwest Mesa Escarpment because the changes would only affect mixed-use or non-residential parcels within the VPO-2 Small area. Development on parcels that are partially outside of the overlay zone would not be subject to the height restrictions that protect the Northwest Mesa Escarpment, but would be subject to height standards pursuant to the IDO. The IDO has development standards in place to protect the public right of way and encourages appropriate edge treatments, transitions, and buffers through site design and development standards for development adjacent to Open Space.

The request would not minimize negative impacts or maximize enhancements and design that complement the natural environment, particularly features unique to Albuquerque. The request would create inconsistencies in development standards on portions of mixed-use and nonresidential tracts that are within the VPO-2 boundary and subject to height limitations, as well as residential tracts that are adjacent to the zone district subject to this amendment. Additionally, the request would not complement the Northwest Mesa Escarpment, which has had view protections since 1986, which the surrounding community has relied on for site design that enhances and leverages views to the Petroglyph National Monument. For these reasons, the request would not further Policy 11.3.1 Natural and Cultural Features or subpolicies a, b or d. Subpolicies c and e are partially furthered.

Policy 11.3.4 Petroglyph National Monument: Regulate adjacent development to protect and preserve the Petroglyph National Monument – its volcanoes, petroglyphs, and Northwest Mesa Escarpment – as a priceless cultural landscape and community resource that provides physical, cultural, and economic benefits.

Subpolicy b) Preserve and protect the Monument from growth and development pressures on the West Side.

Subpolicy c) Conserve and protect the Monument and surrounding lands through regulations associated with the Volcano Mesa and Northwest Mesa Escarpment Areas.

The requested text amendments would facilitate development of mixed-use and non-residential lots partially within the VPO-2 Sub-area to be developed subject to IDO standards. The request would not affect development within the VPO-2 Small Area, which was created to preserve and protect the Petroglyph National Moment. Height limitations would remain unaffected within the VPO-2, but height limits on lots adjacent to the VPO-2 would be lifted. The request does not regulate adjacent building heights on development to near the Petroglyph National Monument nor does it protect or preserve the Monument from growth or development. The request, in fact,

would facilitate development on mixed-use and non-residential tracts within the VPO-2. The request does not further Policy 11.3.4 -Petroglyph National Monument or Subpolicy b and c.

Policy 11.3.6 Volcano Mesa: Preserve open space, natural and cultural landscapes, and other features of the natural environment within Volcano Mesa.

Subpolicy a) Respect Albuquerque's culture and history, including Hispanic and Native American, through context-sensitive development.

Subpolicy b) Encourage development that is sensitive to the open, natural character of the area and geological and cultural conditions.

Subpolicy c) Protect important views, vistas, and view corridors from within Volcano Mesa to the Rio Grande basin, across the city of Albuquerque, and to the Sandia Mountains.

The request would remove height restrictions on mixed-use, non -residential lots that are partially outside of the VPO-2 Small Area overlay zone. Approval of this request could facilitate mixed-use, non-residential development subject to IDO standards, which would not protect views of the Volcano Mesa or regulate development near it. The proposed text amendments would not protect and enhance cultural landscapes by proposing changes to the Northwest Mesa Escarpment Protection Overlay zone (VPO-2). The request does not further Policy 11.3.6-Volcano Mesa or Subpolicies a-c.

Integrated Development Ordinance (IDO) – 14-16-6-7(E) Amendment to IDO Text – Small Areas

City Councilor, Dan Lewis, requested the proposed amendment to the IDO Text for the VPO-2 Small Area to provide property owners of non-residential lots flexibility in building design standards. Planning Department Staff submitted this proposed amendment for EPC's review and recommendation in tandem with the citywide changes proposed for the 2022 IDO Annual Update.

The proposed small area text amendment generally meets the review and decision criteria for Amendment to IDO Text – Small Area in IDO Subsection 14-16-6-7(E)(3) (a-e). The requirement and the applicant's response are in plain text; Staff analysis follows in ***bold italic text.***

Criterion 14-16-6-7(E)(3)(a)
The proposed small area amendment is consistent with the health, safety, and general welfare of the city as shown by furthering (and not being in conflict with) a preponderance of applicable Goals and Policies in the ABC Comp Plan, as amended, and other applicable plans adopted by the City.

Response (summarized by Staff): ABC Comprehensive Plan policies support this criterion for amendment of small area regulations and generally furthers applicable Goals and Policies in the ABC Comprehensive Plan. Because the building height limits will apply within the boundary of the Height Restriction Sub-area, while allowing more flexibility for non-residential and mixed-use development, the proposed change furthers applicable Goals and Policies in the ABC Comprehensive Plan, specifically form chapter 4 Community Identity, Chapter 5 Land Use, Chapter 7 Urban Design, Chapter 8 Economic Development, and Chapter 11 Heritage Conservation.

As demonstrated in the policy analysis above, the request is not consistent with applicable Comprehensive Plan goals and policies.

The proposed amendments to the Height Restriction Sub-area in VPO-2, are inconsistent with adopted goals and policies that were established to protect the identity and design of distinct communities and the views and cultural landscape of the Northwest Mesa. Changes proposed via the memo and exhibit from City Council are mostly inconsistent with adopted policies to protect and enhance the quality of the City's neighborhoods and quality of life. The request is not consistent with adopted goals and policies to protect the City's unique Views and Open Space, Community Character, heritage Conservation, or Placemaking. Therefore, the proposed amendments do not meet Criterion 14-16-6-7(a).

Criterion 14-16-6-7(E)(3)(b)
If the proposed small area amendment is located partially or completely in an Area of Consistency (as shown in the ABC Comp Plan, as amended), the applicant must demonstrate that the proposed amendment would clearly reinforce or strengthen the established character of the surrounding Area of Consistency and would not allow development that is significantly different from that character. The applicant must also demonstrate that the existing zoning regulations are inappropriate because they meet any of the following criteria:

1. There has been a significant change in neighborhood or community conditions affecting the small area.

2. The proposed zoning regulations are more advantageous to the community as articulated by the ABC Comp Plan, as amended (including implementation of patterns of land use, development density and intensity, and connectivity), and other applicable adopted City plan(s).

Response: This request would clearly reinforce the established character of the surrounding area and would result in development that is consistent with that character based on the ABC Comp Plan Goals and Policies cited above. These same Goals and Policies demonstrate that the proposed development standards are more advantageous to the Community as articulated by the ABC Comp Plan by implementing development patterns and densities desired by the community.

The proposed IDO text amendments-Small Areas consist of changes that would result in development that is not more advantageous to the surrounding Northwest Mesa Escarpment community.

The Northwest Mesa Escarpment (VPO-2) is a part of the Petroglyph National Monument. This preservation area was recognized by the City in 1988 as an important cultural property within the Comprehensive Plan. The VPO-2 was created to protect views of the Petroglyph National Monument. The proposed text amendments single out properties designated with non-residential zoning and would implement development patterns within those zone districts that may cause higher density in an established community. The proposed changes to specific areas (non-residential zone districts and mixed-use zones and subzones) would apply equally in all areas

with the same designation. The proposed text amendments are quasi-judicial in nature. The request does not meet Criterion 14-16-6-7(E)(3)(b).

Criterion 14-16-6-7(E)(3)(c)
If the proposed small area amendment is located wholly in an Area of Change (as shown in the ABC Comp Plan, as amended), the applicant must demonstrate that the existing zoning regulations are inappropriate because they meet at least one of the following criteria:

1. There has been a significant change in neighborhood or community conditions affecting the small area that justifies this request.

2. The proposed zoning regulations are more advantageous to the community as articulated by the ABC Comp Plan, as amended (including implementation of patterns of land use, development density and intensity, and connectivity), and other applicable adopted City plan(s).

Response: This criterion does not apply. The small areas are partially within areas designated as an Area of Change; however, there are portions that are designated as an Area of Consistency, so the criterion above applies to the whole small area.

Staff agrees that Criterion 14-16-6-7(E)(3)(c) does not apply because the proposed amendments are not located wholly in an Area of Change.

Criterion 14-16-6-7(E)(d)
If the proposed amendment changes allowable uses, the proposed amendment does not allow permissive uses that would be harmful to adjacent property, the neighborhood, or the community, unless the Use-specific Standards in Section 16-16-4-3 associated with that use will adequately mitigate those harmful impacts.

Response: This small area amendment does not propose to change any allowable uses.

Staff agrees that Criterion 14-16-6-7(E)(3)(d) does not apply because the proposed amendments do not propose to change any allowable uses. The request would affect height restrictions in mixed-use and non-residential zone districts.

Criterion 14-16-6-7(E)(3)(e)
The applicant's justification is not based completely or predominantly on the cost of land or economic considerations.

Response: This small area amendment does not change any allowable uses or cause new development to happen, rather, it changes development standards for new development within the small area boundaries.

The small area amendments are not based completely or predominantly on the cost of land or economic considerations, although the applicant has stated that the request would allow

flexibility for the development of land on properties that could be developed for commercial purposes. The request generally meets Criterion 14-16-6-7(E)(3)(e).

III. DISCUSSION/IMPLEMENTATION ISSUES

2022 Annual Updates – Small Area – Northwest Mesa Escarpment (VPO-2)

The purpose of the proposed amendments is to allow some flexibility in how the height provisions are applied on mixed-use and non-residential lots partially within VPO-2. The specific proposed changes are notated below, where [underlined] text depicts new language and ~~strikethrough~~ language depicts language proposed for deletion.

3-6(E)(1) **Applicability**

The VPO-2 standards apply to all development in the following mapped area. Where the VPO-2 boundary crosses a lot line, the entire lot is subject to these standards [unless otherwise specified].

3-6(E)(3) **Building and Structure Height**

The following standards apply in the Height Restrictions Sub-area shown in the map above. [In mixed-use and non-residential zone districts, where the height-restriction sub-area crosses a lot line, only the portion of the lot within the sub-area boundary is subject to these standards.]

Explanation of Content

	Page	***Section***	***Change***
1	136	3-6(E)(1) Applicability	Add "unless otherwise specified" to the descriptive sentence.
2	136	3-6(E)(3) Building and Structure Height	Add "In mixed-use and non-residential zone districts, where the height-restriction sub-area crosses a lot line, only the portion of the lot within the sub-area boundary is subject to these standards" after the first sentence.

The 2022 IDO states that building and structure height shall not exceed 15 feet within the Height restrictions Sub-area. Variances to this height maximum are not to exceed 19 feet from finished grade.

The proposed change will affect lots with mixed-use or non-residential zoning within the VPO-2 height sub-area, which includes a total of 18 parcels, some of which are adjacent to residential zone-districts (See attached map).

This provision in IDO 14-16-3-6(E) requires that any property owner comply with the height restrictions on their lot if the sub-area boundary crosses any portion of their lot. This means that the entire tract, even outside of where the sub-area boundary ceases, must comply with the height

restrictions. This height restriction is currently applicable to all zone districts within the Sub-area, including non-residential or mixed-use zoning regardless of the size of the tract.

Key Issues

The applicant is requesting this change because it will allow property owners with large lots zoned as non-residential or mixed-use more flexibility in building design. However, the proposed text amendments would create a myriad of inconsistencies with the way planning and zoning has been practiced for decades. For example, the intention of the Northwest Mesa View Protection Overlay within the IDO was carried over from previous plans that were put in place to protect the views and distinct character of the Northwest Mesa Escarpment. The request would allow portions of non-residential and mixed-use lots where the VPO-2 boundary crosses their lot line, to follow building design standards for their associated zone district, instead of the VPO-2 provisions on the portion of the lot outside of the Height Restriction Sub-area.

It is standard practice for the City to include the entire lot where an overlay zone or boundary crosses a lot line. If the request is approved, this will be the only area within the City that this standard is not followed. The intention of the IDO is to provide consistency for development throughout the City that is directly correlated with the goals and policies of the Comprehensive Plan. The approval of this text amendment would create an inconsistency in development standards and goals and policies within the Comprehensive Plan.

Furthermore, the amendment could negatively affect the character, identity, and design of the surrounding neighborhood and Northwest Mesa Escarpment due to height allowances that are greater than the allowable 15 feet on the portion of a lot where the boundary ceases to exist. In many mixed-use and non-residential zone districts building height maximums vary. The zone districts that would currently be affected within the sub-area, in which the VPO-2 boundary crosses a lot line consist of MX-T, MX-L, MX-M, and NR-BP. The building height maximums allowed in the IDO within these zone districts are as follows:

Zone District	***Building Height Maximum***
MX-T	30 feet
MX-L	38 feet (up to 55 ft. in UC-MS-PT areas)
MX-M	48 feet (up to 65 ft. in UC-MS-PT areas)
NR-BP	65 feet (>100 ft. from front lot line: N/A)

Although the proposed change would not be applicable to residentially zoned properties, some mixed-use and non-residential parcels are adjacent to residential tracts currently zoned R-1A, R-1C, R-ML, and R-T. The request would cause view obstructions for adjacent properties that are within the VPO-2 boundary. Residents have relied on the existing regulations to protect and preserve their property values, decision making, and the distinct identity of the northwest Mesa and views of the Petroglyph Nation Monument for decades. The proposed change would facilitate development that is inconsistent

with the surrounding community character and building design, which many community members have come forward with concerns about (See section VII and attached letters).

The proposed change would not be more advantageous to the community and would negatively affect the adjacent properties because of incompatibilities, therefore negatively affecting the distinct character and general welfare of the community.

IV. PUBLIC OUTREACH

Meetings and Presentations

The proposed 2022 annual updates were reviewed at two online public study sessions in October 2022 via Zoom, prior to application submittal for the EPC process. One session was held on October 20th in the evening and another session on October 21st over the lunch hour (same content). Planning Staff presented the proposed text amendments and answered questions from participants for both the City-wide and the small area amendments.

The presentations, in .pdf format and video format, are posted on the project webpage at: https://abc-zone.com/document/ido-annual-update-2022-pre-epc-review

A public meeting to review and discuss the proposed changes was held on November 18, 2022. A link to the presentation, in .pdf format and video format, is here: https://abc-zone.com/ido-annual-update-2022#Meetings

The proposed Small Area text amendments were specifically reviewed at public meetings on October 17, 2022 and October 19, 2022 for the 2022 IDO Annual Update where the City's Alternative Dispute Resolution (ADR) facilitated the pre-submittal meeting, as required by Table 6-1-1 for Amendment to IDO Text – Small Area and IDO Subsection 14-16-6-4(C) (see attachments). City Staff presented the proposed amendments, solicited input for new changes, and listened to participants' feedback about the proposed changes.

A Public review meeting was also held on November 18, 2022 via Zoom, after the application submittal, to review and discuss any questions about the proposed text amendments.

The EPC held a study session regarding the proposed 2022 IDO amendments on December 1, 2022. This was a publically-noticed meeting, although no public input is received during Study Sessions (see EPC Rules of Practice and Procedure, Article II, Section V).

V. NOTICE

The required notice for an Amendment to IDO Text is published, mailed, and posted on the web. (See Table 6-1-1: Summary of Development Review Procedures.) A neighborhood meeting is required for an Amendment to IDO Text – Small Area. The City published notice of the EPC hearing on November 23, 2022 the legal ad, in the ABQ Journal newspaper.

First class mailed notice was sent to the two representatives of each Neighborhood Association and Coalition registered with the Office of Neighborhood Coordination pursuant to the requirements of IDO Subsection 14-16-6-4(K)(2)(a) (see attachments).

The City posted notice of the EPC hearing on the Planning Department website at this address: https://www.cabq.gov/planning/boards-commissions/environmental-planning-commission/epc-agendas-reports-minutes

The City also posted notice of the application and EPC hearing as well as all proposed changes to the IDO on the project website at this address: https://abc-zone.com/ido-annual-update-2022

Property Owner Mailed Notice
The IDO requires mailed notice of the application submittal and EPC hearing to each affected property owner and property owners within 100 feet of those areas, pursuant to IDO Subsection 14-16-6-4(K)(3)(d) Notice for Amendment to IDO Text – Small Area. A map of affected property owners was created by AGIS staff.

Notification letters of the application were sent out November 3, 2022. They were mailed to 13,360 property owners within or adjacent to the Northwest mesa Escarpment VPO-2 (See attached).

Neighborhood Association Notice
Table 6-1-1 indicates that written (hard-copy) and e-mail notification is required. For an application for Amendment to IDO Text – Small Area, notice was provided pursuant to 14-16-6-4(K)(3)(b)(3). This section states: "For all other applications: any Neighborhood Association whose boundaries include or are adjacent to the subject property or small area." This application is considered to be "all other applications" because it is not for applications (1) related to a citywide Policy Decision, or (2) related to a Wireless Telecommunications Facility. The list of Neighborhood Associations that are required to be notice was provided by the Office of Neighborhood Coordination (attached to application), and created by AGIS geographic analysis of the small area boundaries and neighborhood association and coalitions data.

Electronic mailed notice is required, and mailed notice to Neighborhood Association representatives is only required if there is no e-mail address on file for that representative. Letters were mailed to any Neighborhood Representative who does not have an e-mail address on file with the Office of Neighborhood Coordination (IDO 6-4(K)(3)(b)(4)).

Neighborhood Associations that include or are adjacent to the Northwest Mesa escarpment VPO-2 received an emailed notice on October 27, 2022 (See attached).

Property Owner and Neighborhood Association Notification Letter Content
The notification letters included links to the project website – https://abc-zone.com/ido-annual-update-2022 - where complete information on the application, the proposed amendments, the review and decision process, and scheduled meetings are posted. The letter also included information about public meetings held in October 2022. There was an approximately hour-long presentation that was focused on the changes proposed for the Small Area – Northwest Mesa Escarpment VPO-2.

Planning staff have not received a request for a post-application facilitated meeting.

VI. AGENCY & NEIGHBORHOOD COMMENTS

Reviewing Agencies

Few agency comments were received regarding the Small Area text amendments.

PNM would like the applicant to make it clear that the VPO-2 height restrictions do not apply to any existing or proposed electric utility uses or facilities. See agency comments beginning on page 29.

Neighborhood/Public

Mailed and email notice was sent to every neighborhood organization registered with the Office of Neighborhood Coordination. Mailed notice was sent to all property owners within and abutting the small areas with proposed text amendments (see attachments). As of this writing, Staff has received several comments from community members who are in opposition to the request and several comments with concerns about how the request will affect individual property owners. See summary of public comments below and attached letters.

Summary of Public Comments

Northwest Mesa VPO-2
During the public meetings held in October 2022, community members expressed concerns related to allowing additional building height, which may result in additional density in the area, cause an obstruction of views, and disrupt the surrounding MPOS (Major Public Open Space) areas. Overall, neighbors oppose the text amendments to the VPO-2 Small Area (See attached facilitated meeting reports and letters received).

As of this writing, Council Staff has received approximately 12 inquiries about the proposed changes. Generally, property owners were unsure about if their particular property would be impacted or not and had general questions about ongoing development in the area. After confirming addresses with callers and describing the proposed change in detail, all property owners that council staff spoke to were not concerned with the proposed change.

On November 21, 2022 Staff received a comment from the Inter-Coalition Council of Albuquerque and Bernalillo County neighborhood Associations stating that they are in opposition to this Small Area Amendment. (See attached letter).

On November 26, 2022 Staff received a letter from the District 6 Coalition (D6) and the Victory Hills Neighborhood Association (VHNA), who support comments submitted by both the Inter-Coalition Council (ICC) and the Parkland Hills Neighborhood Association (PHNA). Their concern is that the VPO-2 Small Area Amendment could lead to 4-story buildings in an area where height limitations are a major issue; therefore, they are in opposition to the amendment. The VHNA President submitted a second letter in opposition to the request. (See attached letters).

Staff received a letter from The Santa Fe Village Neighborhood Association (SFVNA) on November 26th in opposition to the VPO-2 text amendments in the IDO. The SFVNA outlined several conflicting policies within the Comprehensive Plan that are related to protecting the views and the cultural landscapes of the Petroglyph National Monument. (See attached letter.)

On November 28, 2022 Staff received a letter from the Land Use Director for the Westside coalition of Neighborhood Associations (WSCONA) and the Taylor Ranch Neighborhood Association (TRNA) which stated that the community is in opposition for this amendment because it would weaken the view protection along the escarpment. The director also expressed concerns about impacts on the cultural landscape and how certain groups of people may be impacted that utilize the mesa top for religious purposes. There is concern that the amendment is being requested for the benefit of a single developer.

VII. CONCLUSION

The request is for an Amendment to IDO Text-Small Area VPO-2, which meets all the application and procedural requirements in IDO Subsection 14-16-6-7(D). The IDO text amendment is consistent with the Annual Update process established by IDO Subsection 6-3(D). The request for amendment to the IDO text partially meets the review and decision criteria in Section 6-7(E)(3).

The request has not been adequately justified pursuant to the IDO Review and Decision Criteria for Small-Area Text Amendments in IDO 14-16-6-7(E)(3) and conflicts with criteria A and B. The request would be harmful to the health and general welfare of the surrounding community; it is inconsistent with the intention of the Northwest Mesa Escarpment View Protection Overlay zone; presents significant conflicts with several, applicable Goals and policies in the Comprehensive Plan; is not more advantageous to the community; and is incompatible with City standard practices for development. Additionally, the proposed changes are inconsistent with Comprehensive Plan policies that direct the City to adopt and maintain an effective regulatory system for land use, zoning, and development review

The proposed text amendments were first reviewed at public meetings in October 2022. City Staff presented the proposed amendments, solicited input for new changes, and listened to participants' feedback about the proposed changes. There was one post submittal review meeting held for community members to ask questions about the text amendments. Overall, there is opposition to the request.

Staff recommends that the EPC forward a recommendation of DENIAL to the City Council, subject to the recommended Findings of approval herein.

RECOMMENDED FINDINGS – RZ-2022-00056, December 8, 2022 - Text Amendments to the IDO – Small Areas

1. The request is for Small Area amendments to the text of the Integrated Development Ordinance (IDO) for the Annual Update required by IDO Subsection 14-16-6-3(E). The proposed Small-area amendments, when combined with the proposed City-wide amendments, are collectively known as the 2022 IDO Annual Update.

2. These text amendments to specific Small Areas in the City are accompanied by proposed City-wide text amendments, which were submitted separately pursuant to Subsection 14-16-6-7(D) and are the subject of another Staff report (RZ-2022-00054).

3. The Small Area text amendments include proposed changes requested by City Council Services that affect the following Small Area: Northwest Mesa Escarpment VPO-2

4. The IDO applies City-wide to land within the City of Albuquerque municipal boundaries. The IDO does not apply to properties controlled by another jurisdiction, such as the State of New Mexico, Federal lands, and lands in unincorporated Bernalillo County or other municipalities.

5. The EPC's task is to make a recommendation to the City Council regarding the proposed amendments to IDO text. As the City's Planning and Zoning Authority, the City Council will make the final decision. The EPC is a recommending body to the Council and has important review authority. This is a quasi-judicial matter.

6. The Albuquerque/Bernalillo County Comprehensive Plan and the City of Albuquerque Integrated Development Ordinance (IDO) are incorporated herein by reference and made part of the record for all purposes.

7. The request meets the Review and Decision Criteria in Subsection 14-16-6-7(E) of the IDO, as follows:

   A. Criterion A: The proposed small area amendment is consistent with the health, safety, and general welfare of the city as shown by furthering (and not being in conflict with) a preponderance of applicable Goals and Policies in the ABC Comp Plan, as amended, and other applicable plans adopted by the City.

      The proposed IDO text amendments-Small Areas are inconsistent with the health, safety, and general welfare of the City and are incompatible with a preponderance of applicable goals and policies in the Comprehensive Plan, and other policies and plans adopted by the City.

The proposed amendments to the Height Restriction Sub-area in VPO-2, are inconsistent with adopted goals and policies that were established to protect the identity and design of distinct communities and the views and cultural landscape of the Northwest Mesa. Changes proposed via the memo and exhibit from City Council are mostly inconsistent with adopted policies to protect and enhance the quality of the City's neighborhoods and quality of life. The request is not consistent with adopted goals and policies to protect the City's unique Views and Open Space, Community Character, heritage Conservation, or Placemaking.

B. Criterion B: If the proposed small area amendment is located partially or completely in an Area of Consistency (as shown in the ABC Comp Plan, as amended), the applicant must demonstrate that the proposed amendment would clearly reinforce or strengthen the established character of the surrounding Area of Consistency and would not allow development that is significantly different from that character. The applicant must also demonstrate that the existing zoning regulations are inappropriate because they meet any of the following criteria:

1. There has been a significant change in neighborhood or community conditions affecting the small area.
2. The proposed zoning regulations are more advantageous to the community as articulated by the ABC Comp Plan, as amended (including implementation of patterns of land use, development density and intensity, and connectivity), and other applicable adopted City plan(s).

   The proposed IDO text amendments-Small Areas consist of changes that would result in development that is not more advantageous to the surrounding Northwest Mesa Escarpment community.

   The Northwest Mesa Escarpment (VPO-2) is a part of the Petroglyph National Monument. This preservation area was recognized by the City in 1988 as an important cultural property within the Comprehensive Plan. The VPO-2 was created to protect views of the Petroglyph National Monument. The proposed text amendments single out properties designated with non-residential zoning and would implement development patterns within those zone districts that may cause higher density in an established community. The proposed changes to specific areas (non-residential zone districts and mixed-use zones and subzones) would apply equally in all areas with the same designation. The proposed text amendments are quasi-judicial in nature.C.

C. Criterion C: If the proposed small area amendment is located wholly in an Area of Change (as shown in the ABC Comp Plan, as amended), the applicant must demonstrate that the existing zoning regulations are inappropriate because they meet at least one of the following criteria:

1. There has been a significant change in neighborhood or community conditions affecting the small area that justifies this request.
2. The proposed zoning regulations are more advantageous to the community as articulated by the ABC Comp Plan, as amended (including implementation of patterns of land use, development density and intensity, and connectivity), and other applicable adopted City plan(s).

Criterion 14-16-6-7(E)(3)(c) does not apply because the proposed amendments are not located wholly in an Area of Change.

D. Criterion D: If the proposed amendment changes allowable uses, the proposed amendment does not allow permissive uses that would be harmful to adjacent property, the neighborhood, or the community, unless the Use-specific Standards in Section 16-16-4-3 associated with that use will adequately mitigate those harmful impacts.

Criterion 14-16-6-7(E)(3)(d) does not apply because the proposed amendments do not propose to change any allowable uses. The request would affect height restrictions in mixed-use and non-residential zone districts.

E. Criterion E: The applicant's justification is not based completely or predominantly on the cost of land or economic considerations.

The small area amendments are not based completely or predominantly on the cost of land or economic considerations. The request furthers Criterion 14-16-6-7(E)(3)(e).

8. The request does not further the following relevant City Charter articles:

a. Article I, Incorporation and Powers. Amending the IDO via text amendments is inconsistent with the purpose of the City Charter to provide for maximum local self-government. The revised regulatory language and process in the IDO will not help implement goals and policies within the Comprehensive Plan or help guide future legislation.

b. Article IX, Environmental Protection. The IDO is an instrument to help promote and maintain an aesthetic and humane urban environment for Albuquerque's citizens, and thereby promote improved quality of life. The proposed Small Area text amendments to the IDO would not ensure that land is developed and used properly. The VPO-2 Small Area was established to protect and preserve the Northwest Mesa Escarpment features; therefore Commissions, Boards, and Committees would not be able to facilitate effective administration of City policy in this area with the approval of this amendment.

9. The request generally furthers the following relevant City Charter articles:

a. Article XVII, Planning. Amending the IDO through the annual update process is an instance of the Council exercising its role as the City's ultimate planning and zoning authority. The IDO will help implement the Comprehensive Plan and ensure that development in the City is consistent with the intent of any other plans and ordinances that the Council adopts.

b. Section 2. The Mayor or his designee shall formulate and submit to the Council the Capital Improvement Plans and shall oversee the implementation, enforcement, and administration of land use plans:

Amending the IDO through the annual update process will help the Administration to implement the Comprehensive Plan vision for future growth and development, and will help with the enforcement and administration of land use plans.

10. The request conflicts significantly with the following, applicable Goal and Policies from Chapter 4: Community Identity:

    A. Policy 4.1.2 - Identity and Design: Protect the identity and cohesiveness of neighborhoods by ensuring the appropriate scale and location of development, mix of uses, and character of building design.

    The request would not facilitate appropriate scale and location of devlopment and the chatacter of building design on non-residential and mixed-use tracts that are partially outside of the VPO-2 Sub Area. If approved, building height restrictions would continue to apply on portions of the lots within the view protection overlay zone and building height restrictions would be subject to IDO requirements outside of the VPO-2 area. This would allow for less stringent development standards than what is currently required on non-residential and mixed-use tracts that are partially outside of the VPO-2 area. The requested change may cause inconsistencies in development with the adjacent residentially zoned tracts and within the surounding VPO-2 area. The Northwest Mesa Escarpment Plan of 1986 originally protected the views within 650 feet of the escarpment, but this has been extended to the entire boundary of the VPO-2. The request would allow development outside of the VPO-2 boundary to follow IDO standards, therefore creating an inconcistency in the scale of development and character of building design with adjacent tracts within the VPO-2 boundary. The request does not protect the identity and cohesiveness of the Northwest Mesa neighborhood

    B. Policy 4.1.3 Placemaking: Protect and enhance special places in the built environment that contribute to distinct identity and sense of place.

    The request to raise the allowable height on non-residential and mixed-use lots where the VPO-2 boundary crosses a lot line, would not protect or enhance the distinct identity or sense of place of the Northwest Mesa Escarpment. The purpose of the VPO-2 Small Area is to protect the views of the Petroglyph National Monument and the Northwest Mesa Escarpment and if approved, the request would not protect the views within this distinct community. Since the request is to remove the height restriction on portions of lots outside of the VPO-2 boundary, development on those tracts outside of the Sub-area would be subject to IDO standards which would create an inconsistency in development standards.

    C. Policy 4.1.4 – Neighborhoods: Enhance, protect, and preserve neighborhoods and traditional communities as key to our long-term health and vitality.

    The request would not enhance, protect, and preserve the surrounding neighborhood within the Northwest Mesa Escarpment (VPO-2). VPO-2 is a designated view protection overlay zone established to enhance and protect the views and preservation of the Northwest Mesa Escarpment/Petroglyph National Monument. The request to remove the height restriction on portions of a lot partially outside the VPO-2 boundary may cause a disruption in development patterns on lots adjacent to the VPO-2 area and on portions of lots within the Sub-area. The request would allow development on large mixed-use and non-residential lots outside of the VPO-2 to occur pursuant to the IDO standards; therefore causing an inconsistency with development on adjacent lots within the VPO-2 Sub-area and surrounding residential neighborhoods, which could be adversely impacted. The request would not protect the views

within Northwest Mesa Escarpment neighborhood or preserve their long-term health and vitality.

D. Policy 4.1.5 Natural Resources: Encourage high-quality development and redevelopment that responds appropriately to the natural setting and ecosystem functions.

The Northwest Mesa Escarpment View Protection overlay zone was created to protect the views looking to and form the Petroglyph National Monument. The requested text amendments would not change any height restriction standards within the VPO-2 Small Area, although it would allow development and redevelopment on lots that are partialy outside of the overlay zone to be developed subject to IDO development standards, which may disrupt development patterns between non-resdientian and mixed-use lots and adjacent tracts. The request would facilitate development and redeveopment that would disrupt the views of the Northwest Mesa Escaprment as intended within the VPO-2 boundary.

11. The request conflicts significantly with the following, applicable Goal and Policies from Chapter 5: Land Use:

A. Goal 5.4 Jobs-Housing Balance: Balance jobs and housing by encouraging residential growth near employment across the region and prioritizing job growth west of the Rio Grande.

The request would remove height restrictions on mixed-use, non -residential lots that are partially outside of the VPO-2 Small Area overlay zone. Approval of this request would facilitate mixed-use, non-residential development subject to IDO standards, but does not guarantee job growth nor does it encourage residential growth near employment across the region.

B. Policy 5.4.2 West Side Jobs: Foster employment opportunities on the West Side.

The request would remove height restrictions on mixed-use, non -residential lots that are partially outside of the VPO-2 Small Area overlay zone. Although approval of this request could facilitate mixed-use, non-residential development subject to IDO standards, it does not foster employment opportunities.

C. Policy 5.7.2 - Regulatory Alignment: Update regulatory frameworks to support desired growth, high quality development, economic development, housing, a variety of transportation modes, and quality of life priorities.

The IDO's procedures and processes in Part 6 have been developed to effectively and equitably implement the Comprehensive Plan. In order for the City's land use, zoning, and development regulations to stay up-to-date, the IDO established an annual update requirement into the regulatory framework. Changes proposed are intended to continually improve how the IDO implements the comp Plan by aligning regulations with Comp Plan goals and policies.

The annual amendment process for the IDO – Small Areas is a procedure to continue to effectively and equitably implement the Comprehensive Plan that results in an updated regulatory framework. The proposed text amendments would not further applicable Comprehensive Plan Goals and policies or improve the IDO, the implementation mechanism because the request would not support growth desired by residents within or adjacent to the VPO-2 area. The VPO-2 area has been regulated by the height provision since the 1980's, therefore the request does not support desired growth or quality of life priorities.

11. The request conflicts significantly with the following Goal and Policies regarding city development areas in chapter 5-Land Use.

    Policy 7.3.2 Community Character: Encourage design strategies that recognize and embrace the character differences that give communities their distinct identities and make them safe and attractive places.

    Sub-policy a) Design development to reflect the character of the surrounding area and protect and enhance views.

    The request would facilitate development on mixed-use and non-residential lots within and partially outside of the VPO-2 height restrictions sub-area that would create inconsistencies with the height limitations that are required within the VPO-2 area. The VPO-2 was created to protect and enhance the views to and from the Petroglyph National Monument within the Northwest Mesa Escarpment. The request would change the IDO to allow development standards, specifically related to height provisions, to be pursuant to the IDO on non-residential and mixed-use tracts where the VPO-2 boundary crosses a lot line. The request would not continue to protect the views of the Northwest Mesa Escarpment and it would affect lots adjacent to the VPO-2 boundary. The height limitations were created as a design strategy to protect the distinct identity of the Northwest Mesa escarpment and make it an attractive place

12. The request partially furthers the following, applicable policy from Chapter 8 – Economic Development:

    Policy 8.1.1 – Diverse Places: Foster a range of interesting places and contexts with different development intensities, densities, uses, and building scale to encourage economic development opportunities.

    The proposed text amendments include changes that would facilitate development of different development intensities and densities that would not continue to preserve the Northwest Mesa Escarpment (VPO-2). VPO-2 was originally created in the 1980s to protect the views of the Petroglyph National Monument and placed height limitations within 660 feet of the escarpment. The VPO-2 Small Area has a provision that places height restrictions on all lots that the VPO-2 boundary passes through. The request would foster different building scale and intensities that would be inconsistent with the surrounding community, but may encourage economic development opportunities on mixed-use and non-residential lots partially within and adjacent to the Northwest Mesa Escarpment VPO-2.

13. The request partially furthers, but is mostly inconsistent with, the following, policies and subpolicies from Chapter 11: Heritage Conservation:

Policy 11.3.1 Natural and Cultural Features: Preserve and enhance the natural and cultural characteristics and features that contribute to the distinct identity of communities, neighborhoods, and cultural landscapes.

Subpolicy a) Minimize negative impacts and maximize enhancements and design that complement the natural environment, particularly features unique to Albuquerque, in development and redevelopment in light of the relationship to and effect upon the following:

v. Scenic views from the public right-of-way

Subpolicy b) Minimize the visibility of structures in highly scenic areas and on the western horizon as seen throughout the city through building design and materials that blend with the natural colors of the landscape and limit reflectivity.

Subpolicy c) Protect important views from public rights-of-way through regulations on street orientation, site layout, building height, and signs.

Subpolicy d) Encourage site design that enhances and leverages views to cultural landscapes.

Subpolicy e) Encourage appropriate edge treatments, transitions, and buffers through site design and development standards for development adjacent to Open Space.

The proposed text amendments would partially preserve the views of the Petroglyph National Monument within the Northwest Mesa Escarpment because the changes would only affect mixed-use or non-residential parcels within the VPO-2 Small area. Development on parcels that are partially outside of the overlay zone would not be subject to the height restrictions that protect the Northwest Mesa Escarpment, but would be subject to height standards pursuant to the IDO. The IDO has development standards in place to protect the public right of way and encourages appropriate edge treatments, transitions, and buffers through site design and development standards for development adjacent to Open Space.

The request would not minimize negative impacts or maximize enhancements and design that complement the natural environment, particularly features unique to Albuquerque. The request would create inconsistencies in development standards on portions of mixed-use and nonresidential tracts that are within the VPO-2 boundary and subject to height limitations, as well as residential tracts that are adjacent to the zone district subject to this amendment.. Additionally, the request would not complement the Northwest Mesa Escarpment, which has had view protections since 1986, which the surrounding community has relied on for site design that enhances and leverages views to the Petroglyph National Monument.

14. The request conflicts significantly with the following Policies and Subpolicies regarding the Petroglyph National Monument and Volcano Mesa, from Chapter 11, Heritage Conservation:

A. Policy 11.3.4 Petroglyph National Monument: Regulate adjacent development to protect and preserve the Petroglyph National Monument – its volcanoes, petroglyphs, and Northwest Mesa Escarpment – as a priceless cultural landscape and community resource that provides physical, cultural, and economic benefits.

Subpolicy b) Preserve and protect the Monument from growth and development pressures on the West Side.

Subpolicy c) Conserve and protect the Monument and surrounding lands through regulations associated with the Volcano Mesa and Northwest Mesa Escarpment Areas.

The requested text amendments would facilitate development of mixed-use and non-residential lots partially within the VPO-2 Sub-area to be developed subject to IDO standards. The request would not affect development within the VPO-2 Small Area, which was created to preserve and protect the Petroglyph National Moment. Height limitations would remain unaffected within the VPO-2, but height limits on lots adjacent to the VPO-2 would be lifted. The request does not regulate adjacent building heights on development to near the Petroglyph National Monument nor does it protect or preserve the Monument from growth or development. The request, in fact, would facilitate development on mixed-use and non-residential tracts within the VPO-2.

B. Policy 11.3.6 Volcano Mesa: Preserve open space, natural and cultural landscapes, and other features of the natural environment within Volcano Mesa.

Subpolicy a) Respect Albuquerque's culture and history, including Hispanic and Native American, through context-sensitive development.

Subpolicy b) Encourage development that is sensitive to the open, natural character of the area and geological and cultural conditions.

Subpolicy c) Protect important views, vistas, and view corridors from within Volcano Mesa to the Rio Grande basin, across the city of Albuquerque, and to the Sandia Mountains.

The request would remove height restrictions on mixed-use, non -residential lots that are partially outside of the VPO-2 Small Area overlay zone. Approval of this request could facilitate mixed-use, non-residential development subject to IDO standards, which would not protect views of the Volcano Mesa or regulate development near it. The proposed text amendments would not protect and enhance cultural landscapes by proposing changes to the Northwest Mesa Escarpment Protection Overlay zone (VPO-2).

15. For an Amendment to IDO Text, the required notice must be published, mailed, and posted on the web (see Table 6-1-1). A neighborhood meeting was required and held on October 17, 2022 and October 19, 2022 via Zoom. The City published notice of the EPC hearing as a legal ad in the ABQ Journal newspaper. First class mailed notice was sent to the two representatives of each Neighborhood Association and Coalition registered with the Office of Neighborhood Coordination (ONC) as required by IDO Subsection 14-16-6-4(K)(2)(a). Notice was posted on the Planning Department website and on the project website.

16. In addition to the required notice, on October 27, 2022, notification letters, were mailed 13,360 property owners within or adjacent to the Northwest mesa Escarpment VPO-2.

17. On November 18, 2022, the Planning Department hosted a public meeting via Zoom to review the proposed Citywide Amendments and the Small Area Amendments including the Northwest Mesa Escarpment VPO-2.

18. PNM would like the applicant to make it clear that the VPO-2 height restrictions do not apply to any existing or proposed electric utility uses or facilities.

19. The EPC held a study session regarding the proposed 2021 IDO amendments on December 1, 2022. This was a publically-noticed meeting.

20. As of this writing, Council Staff has received approximately 12 inquiries about the proposed changes. Generally, property owners were unsure about if their particular property would be impacted and had questions about ongoing development in the area. After confirming addresses with callers and describing the proposed change in detail, all property owners that council staff spoke to were not concerned about the proposed change.

21. City Staff has received various public comments in opposition of the request due to the impact that it could have on views of the Northwest Mesa Escarpment.

RECOMMENDATION – RZ-2022-00056 – December 8, 2022 - Text Amendment to the IDO – Small Areas

That a recommendation of DENIAL of Project #: 2018-001843, RZ-2022-00056 a request for Amendment to IDO Text- Small Areas, be forwarded to the City Council based on the preceding Findings.

Megan Jones

HISTORY

CITY of ALBUQUERQUE
TWENTY SECOND COUNCIL

COUNCIL BILL NO. C/S R-16-127 ENACTMENT NO. R-2016-115

SPONSORED BY: Ken Sanchez, by request

RESOLUTION

AMENDING THE NORTHWEST MESA ESCARPMENT PLAN TO ALLOW EXCEPTIONS TO THE MAXIMUM ALLOWED BUILDING HEIGHT OF 19 FEET ABOVE THE NATURAL GRADE FOR LOTS THAT WOULD BE UNDEVELOPABLE IF THE EXISTING HEIGHT RESTRICTION IS APPLIED; ESTABLISHING A PROCESS FOR EXCEPTIONS.

WHEREAS, the Council, the Governing Body of the City of Albuquerque, has the authority to adopt and amend plans for the physical development of areas within the planning and platting jurisdiction of the City authorized by statute, § 3-19-5, NMSA 1978, and by its home rule powers; and

WHEREAS, the Council has the authority to adopt, amend, or repeal such a sector development plan; and

WHEREAS, the City of Albuquerque adopted the Northwest Mesa Escarpment Plan (NWMEP) in 1987 through Council Resolution C/S R-383, Enactment Number 97-1989; and

WHEREAS, the NWMEP was adopted to maintain the volcanic West Mesa Escarpment as open space for public enjoyment, and to regulate urban form in the area to protect views of the escarpment; and

WHEREAS, the NWMEP establishes an Impact Area, generally located around the perimeter of the Petroglyph National Monument and City Open Space lands comprising the West Mesa Escarpment; and

WHEREAS, structures in this area are currently limited to 15 feet from natural grade, with a variance procedure allowing up to 19 feet above natural grade; and

WHEREAS, the plan does not currently permit exceptions to the maximum allowed building height of 19 feet above the natural grade; and

[Bracketed/Underscored Material] - New
[Bracketed/~~Strikethrough Material~~] - Deletion

WHEREAS, strict enforcement of this height limit may render some properties undevelopable due to elevation changes, rock outcroppings, abutting street grades or other constraints; and

WHEREAS, the Environmental Planning Commission found that this request generally furthers Comprehensive Plan policies by requiring review of individual applications, by furthering site design that maintains unique vistas, and by allowing vacant, developable land contiguous to existing or programmed urban facilities to be developed; and

WHEREAS, the Environmental Planning Commission found that this request conforms to the West Side Strategic Plan's policy requiring land use and design decisions that minimize negative effects on the National Monument by preserving views while allowing some flexibility in unique situations; and

WHEREAS, an exception to the height limit will only impact a limited number of properties, primarily those that have undulating terrain and would require fill as part of site grading.

BE IT RESOLVED BY THE COUNCIL, THE GOVERNING BODY OF THE CITY OF ALBUQUERQUE:

SECTION 1: That NWMEP Policy 12-2, page 58 be amended as follows: "Application to allow exceptions to the 15' height limit will be reviewed as site plan submittals on a case-by-case basis by the Environmental Planning Commission. No exception will be allowed unless the applicant demonstrates that the impact of the proposed development on views to and from the escarpment as described in the plan (see Appendices C and N) will be the same as, or less than, the impact if the 15 foot height limit were met.

Heights shall in no case exceed 19' from natural grade, unless adherence to this policy would render the lot undevelopable. Applications for exceptions to the 19' height limit shall be reviewed and approved by the EPC and shall demonstrate both:

Hardship: The intent of the view regulations contained in Policy #12 must be met. The burden is upon the applicant to demonstrate that strict adherence to the policy would render the lot undevelopable because of physical and/or engineering constraints (rock outcroppings, street grades, ADA compliance,

[Bracketed/Underscored Material] - New
[Bracketed/Strikethrough Material] - Deletion

utility design, etc.). The application shall include a Grading and Drainage Plan that has been approved by the City Engineer.

Visual Impact: The resulting building shall not be taller than the tallest abutting building located within the Impact Area and shall not block views of the escarpment, as shown in the view plane exhibits as detailed in the exception submittals a. through c. No structure shall exceed 19 feet in height from the finished grade, even with an exception.

All exception submittals shall at a minimum include:

a. site plans, site elevations, and site sections showing the location of the major public views (generally taken from the site perimeter or nearest public road to the east, west, south and north, and the escarpment);

b. the relationship between slopes, building heights, setbacks, the height of the escarpment, and views as noted in "a" above; and

c. use of a combination of the techniques suggested in Appendix N – including A. Height/slope, B. View corridors, and C. Height/slope/setback – to minimize the impact on views to and from the escarpment.

"Natural grade" means the grade (as defined in the Zoning Code) based on the original site contours, prior to any grading."

SECTION 2: That NWMEP, page 77 be amended as follows:

"12-1 p.58 Structure heights limited to 15', or 19' with a variance if needed to screen rooftop equipment on non-residential structures. Exception granted for very low density developments (1 du/net acre or less) which reserve a minimum 200' setback from the Escarpment Face (9% or greater slopes) – maximum height is then 26'.

12-2 p. 58 Provides for exceptions to the 15' height limit on a case-by-case basis per site plan review by the EPC. See Policy 12-2 and Appendix N for Specifics. Heights shall not exceed 19' from natural grade, unless an exception is requested and approved through the Environmental Planning Commission, as part of an approved Site Development Plan."

SECTION 3: That NWMEP, Appendix N, Page N-1 be amended as follows:

"A. Height/Slope:

Allow an increase in height in response to slope. For example, 1' in increased height may be granted for every 3' to 4' drop in ground elevation from a base

[Bracketed/Underscored Material] - New
[Bracketed/Strikethrough Material] - Deletion

elevation established at the 9% slope line. This will provide a stepped-down effect and a smooth transition in scale. Buildings could also be depressed below the natural grade. (See regulation 11-7). The maximum height which may be granted within the Impact Area is 19' above natural grade, unless an exception is requested and approved through the Environmental Planning Commission, as part of an approved Site Development Plan, as identified in Policy 12-2."

SECTION 4: That NWMEP, Appendix N, Page N-2 be amended as follows:

B. (and B-1) View Corridors:

"Allow two-story construction provided that views to the escarpment are maintained at the perimeter of the site, or at the nearest public road (whichever offers the predominant public views) and views from the escarpment – primarily from public trails and access points- are also maintained. The intent is to preserve the maximum amount of unobstructed lateral views to the base of the escarpment. (If the site is located above the escarpment, the views will be to the top of the escarpment.) The maximum height which may be granted within the Impact Area is 19' above natural grade, unless an exception is requested and approved through the Environmental Planning Commission, as part of an approved Site Development Plan, as identified in Policy 12-2."

SECTION 5: NWMEP, Appendix N, Page N-4 be amended as follows:

"C. Height/Slope/Setback:

The closer a structure is to the viewer, the more it blocks the view. If structures are set back further from the predominant viewing areas (generally either the site perimeter of the nearest public road and public trails and access points along the escarpment), then it is conceivable that the building height could increase in proportion to the size of the setback and the slope without increasing the visual impact from a particular vantage point. Both slope and setback should be used to determine the appropriate building height, up to a maximum of 19' above the natural grade, unless an exception is requested and approved through the Environmental Planning Commission, as part of an approved Site Development Plan, as identified in Policy 12-2."

[Bracketed/Underscored Material] - New
[Bracketed/Strikethrough Material] - Deletion

SECTION 6: NWMEP, Appendix N, Page N-4 be amended as follows: insert illustration, exhibit A

SECTION 7: SEVERABILITY CLAUSE. If any section, paragraph, sentence, clause, word or phrase of this resolution is for any reason held to be invalid or unenforceable by any court of competent jurisdiction, such decision shall not affect the validity of the remaining provisions of this resolution. The Council hereby declares that it would have passed this resolution and each section, paragraph, sentence, clause, word or phrase thereof irrespective of any provision being declared unconstitutional or otherwise invalid.

CITY of ALBUQUERQUE
TWENTY-FIRST COUNCIL

COUNCIL BILL NO. C/S R-15-222 ENACTMENT NO. R-2015-108

SPONSORED BY: Ken Sanchez

RESOLUTION

AMENDING THE NORTHWEST MESA ESCARPMENT PLAN TO ALLOW THE HEIGHT OF LIGHT POLES (LUMINARIES) TO EXCEED 40 FEET FOR THE ATHLETIC FIELDS ON THE CITY-OWNED PROPERTY LOCATED AT 118TH STREET AND ARROYO VISTA BOULEVARD.

WHEREAS, the City Council, the Governing Body of the City of Albuquerque, has the authority to adopt and amend plans for the physical development of areas within the planning and platting jurisdiction of the City authorized by Statute, Section 3-19-1 et. seq., NMSA 1978, and by its home rule powers; and

WHEREAS, the City of Albuquerque adopted the Rank Three Northwest Mesa Escarpment Plan in 1998 through Council Resolution 339, Enactment No. 4-1988; and

WHEREAS, Policy 21-1 of the Northwest Mesa Escarpment Plan View Area restricts the height of structures to 40 feet; and

WHEREAS, the City's proposed Regional Sports Complex is within the Northwest Mesa Escarpment Plan View Area boundaries; and

WHEREAS, a light pole (luminary) is a type of structure; and

WHEREAS, the athletic fields will require light poles (luminaries) that are substantially taller than 40 feet; and

WHEREAS, the City has determined that a Regional Sports Complex provides a community benefit and is consistent with public health, safety, morals, and general welfare.

BE IT RESOLVED BY THE COUNCIL, THE GOVERNING BODY OF THE CITY OF ALBUQUERQUE:

[Bracketed/Underscored Material] - New
[Bracketed/Strikethrough Material] - Deletion

Section 1. Section 4 of the Northwest Mesa Escarpment Plan is hereby amended regarding lighting on the aforementioned property, as follows:

"21-1 The height of structures within the View Area shall comply with the requirements of the Comprehensive City Zoning Code, except that no structure shall exceed 40 feet 0 inches in height, except as noted below.

21-2 For the approximately 81-acre property located at the corner of Arroyo Vista Boulevard and 118th Street and legally described as Parcels C-2-A, C-3-A, and C-3-C Westland North, the light poles (luminaries) for the athletic fields are allowed to be up to 80 feet 0 inches in height from the finished grade of the field. Baffles, hoods or diffusers shall be used to minimize the visibility of any light point source from nearby development and/or the Petroglyph National Monument."

Section 2. SEVERABILITY CLAUSE. If any section, paragraph, sentence, clause, word, or phrase of this resolution is for any reason held to be invalid or unenforceable by any court of competent jurisdiction, such decision shall not affect the validity of the remaining provisions of this resolution. The Council hereby declares that it would have passed this resolution and each section, paragraph, sentence, clause, word or phrase thereof irrespective of any provisions being declared unconstitutional or otherwise invalid.

RESOLUTION

AMENDING THE NORTHWEST MESA ESCARPMENT PLAN CONCERNING BOUNDARIES OF THE CONSERVATION AREAS, AND ALLOWABLE BUILDING HEIGHTS.

WHEREAS, the boundaries of the Conservation and Impact Areas are in part based on the boundaries of public open space along the escarpment; and

WHEREAS, the City of Albuquerque is acquiring additional public open space within the Paradise Bluff Subdivision, creating a need to adjust boundaries of the Conservation and Impact Areas; and

WHEREAS, the acquisition of this additional open space area, combined with topographic conditions, eliminates the need for the Northwest Mesa Escarpment Plan's special building height restrictions within a portion of the Paradise Bluff Subdivision.

BE IT RESOLVED BY THE COUNCIL, THE GOVERNING BODY OF THE CITY OF ALBUQUERQUE:

Section 1. The boundaries of the Northwest Mesa Escarpment Plan boundaries of the Conservation Area and Impact Area, within the Paradise Bluff Subdivision, shall be amended as shown on Exhibit 1.

Section 2. A height variance be granted to eliminate the special building height restrictions within the Impact Area of the Northwest Mesa Escarpment Plan for a portion of the Impact Area within the Paradise Bluff Subdivision, as shown on Exhibit 2.

RESOLUTION

ADOPTING THE RANK THREE NORTHWEST MESA ESCARPMENT PLAN; AND ADOPTING A DESIGN OVERLAY ZONE.

WHEREAS, the Albuquerque/Bernalillo County Comprehensive Plan calls for preservation of the volcanoes and the volcanic escarpment as a unique and significant landform; and

WHEREAS, the Northwest Mesa Area Plan establishes protection of the nine percent slope to preserve the volcanic escarpment and requires that a continuous trail system be evaluated; and

WHEREAS, the Open Space Advisory Board has identified the volcanic escarpment as one of its first priorities for acquisition; and

WHEREAS, an archaeological survey completed in 1986 identified over 10,500 petroglyphs along the volcanic escarpment; and

WHEREAS, the volcanic escarpment is designated a historic district on the State Register of Cultural Properties and the National Register of Historic Districts; and

WHEREAS, the National Park Service has conducted an analysis of both the cultural and the natural resources of the area and has concluded that the area is of national significance; and

WHEREAS, the Northwest Mesa Escarpment Plan is the culmination of a planning effort that included technical staff, property owners and conservation groups; and

WHEREAS, the Environmental Planning Commission in their capacity as advisory to the City Council, has held public hearings on the Northwest Mesa Escarpment Plan and has recommended adoption of the

plan; and

WHEREAS, the Northwest Mesa Escarpment Plan constitutes a Rank Three plan detailing the Rank One Comprehensive Plan and the Rank Two Northwest Mesa Area Plan, specifying the area to be conserved as open space, design regulations for adjacent development and an acquisition and management program.

BE IT RESOLVED BY THE COUNCIL, THE GOVERNING BODY OF THE CITY OF ALBUQUERQUE:

Section 1. The Northwest Mesa Escarpment Plan attached as part of this resolution is adopted as a Rank Three Plan for the area within the planning jurisdiction of the City of Albuquerque.

Section 2. The Administration, in coordination with the Departments of Parks and Recreation and Planning, is instructed to:

A. Undertake a regulation and conservation program and begin phased acquisition of portions of the Conservation Area, all according to the implementation program and policies described in the plan.

B. Conduct a review of the progress made by the Federal, State and City governments towards implementation of the Plan twenty-four months after adoption of the Plan by City Council, and recommend any necessary changes to either the boundaries or the implementation program.

C. Develop a draft of the boundaries and design guidelines necessary to establish a Historic Overlay Zone for the Conservation Area described in the plan and present at the same time as the twenty-four month review.

Section 3. The Northwest Mesa Escarpment Plan design Overlay Zone, as specified in the attached plan, is hereby adopted; the zone map, adopted by Article 7-14 R.O. 1974 is hereby amended to reflect the boundaries shown on Figures 2 and 12 of the attached plan for the area within the zoning jurisdiction of the City of Albuquerque.

CITY OF ALBUQUERQUE
CITY COUNCIL

INTEROFFICE MEMORANDUM

TO: **Alan Varela, Planning Department Director**
Mikaela Renz-Whitmore, Urban Design and Development Division Manager

FROM: **Dan Lewis, City Councilor**

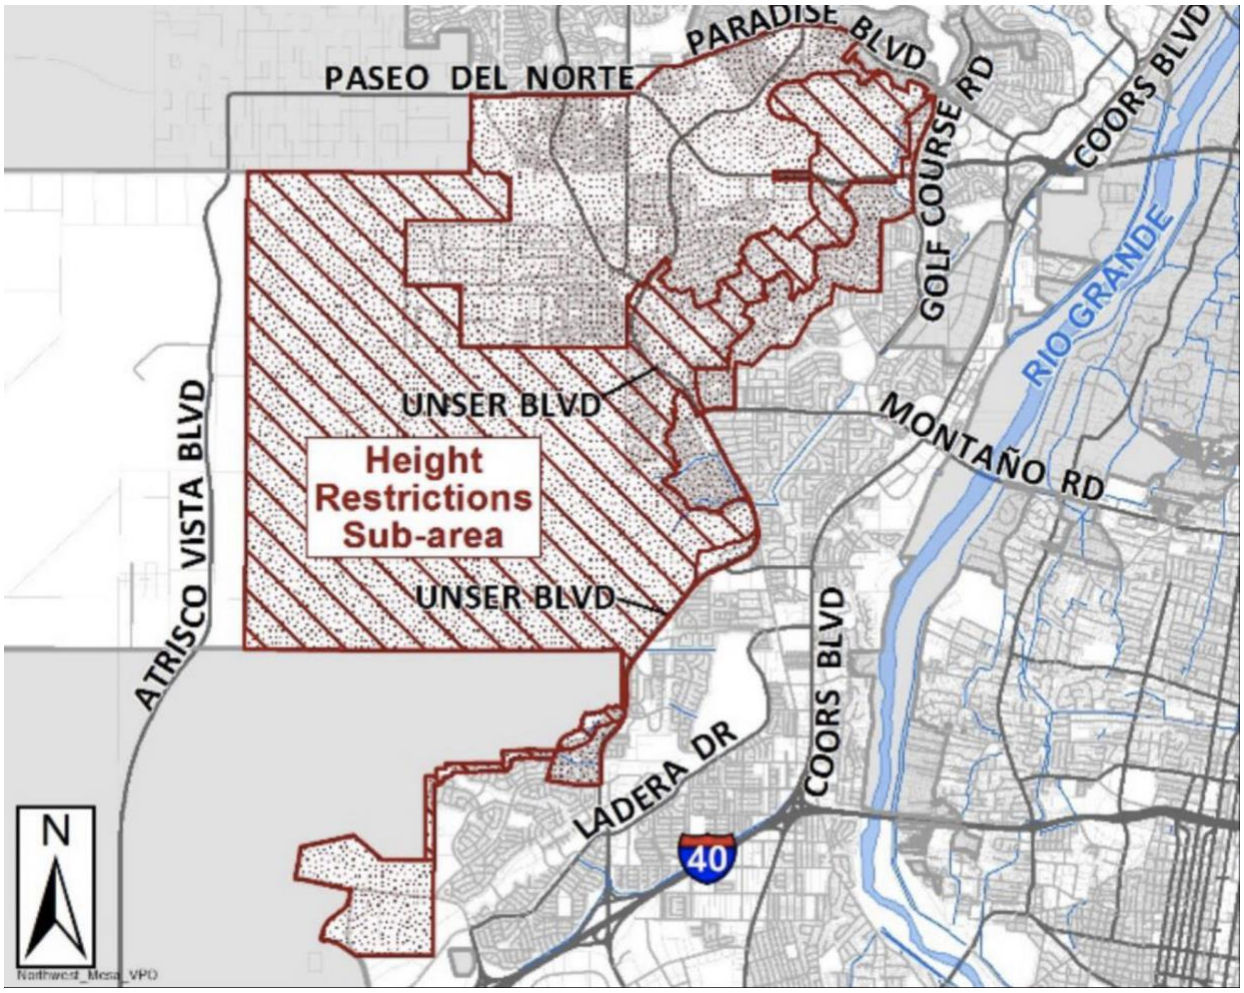

SUBJECT: **IDO Amendment – Northwest Mesa Escarpment View Protection Overlay Zone (VPO-2)**

DATE: **Wednesday, October 26th**

Director Varela and Mrs. Renz-Whitmore,

Please include the following proposed amendment in the packet of materials to be submitted to the Environmental Planning Commission for the 2022 IDO Annual Update.

- **Purpose**: The purpose of this requested amendment is to amend how the boundary of the Height Restrictions Sub-Area in the Northwest Mesa Escarpment View Protection Overlay Zone (VPO-2) is applied. The map below shows the entire boundary of the VPO, but only the red hatched area will be impacted by this change. The proposed change will affect lots with mixed-use or non-residential zoning within the VPO-2 height subarea. This provision as it exists in the text today requires that any property owner comply with the height restrictions on their lot if the sub-area boundary crosses any portion of their lot. Some properties with mixed-use or non-residential zoning have very large tracts of land and this provision requires the entire tract, even outside of where the sub-area boundary ceases, to comply with the height restrictions. The change to how the height restriction in the sub-area is applied will allow property owners with large lots more flexibility in building design. This change will not be applicable to residentially zoned properties, which typically are much smaller parcels that are not impacted in the same way.

- **Actions:**

  1. Amend section 3-6(D)(1) as follows:

  3-6(D)(1) Applicability

  The VPO-2 standards apply to all development in the following mapped area. Where the VPO-2 boundary crosses a lot line, the entire lot is subject to these standards [unless otherwise specified].

  3-6(E)(3) Building and Structure Height

  The following standards apply in the Height Restrictions Sub-area shown in the map above. [In mixed-use and non-residential zone districts, where the height-restriction sub-area crosses a lot line, only the portion of the lot within the sub-area boundary is subject to these standards.]

November 3, 2022

Timothy MacEachen, Chair
Environmental Planning Commission
c/o City of Albuquerque
600 Second Street NW
Albuquerque, NM 87102

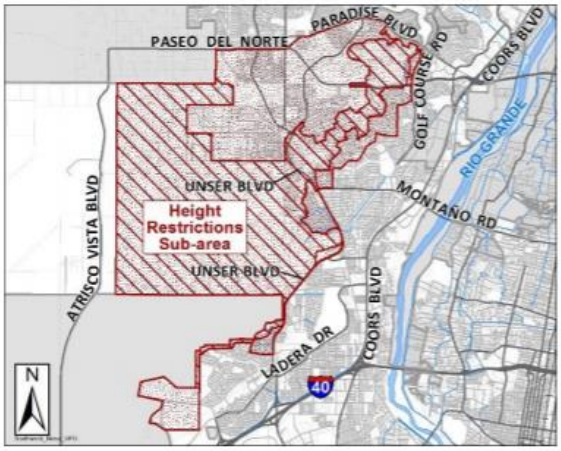

Dear Chair MacEachen,

Please accept this letter of justification, required by IDO Subsection 14-16-6-7(E)(3), of the request for an Amendment to IDO Text – Small Area, submitted for the Environmental Planning Commission's review and recommendation to the City Council as part of the annual update required by IDO Subsection 14-16-6-3(D).

The IDO is the regulatory tool to realize and implement the "Centers and Corridors" community vision set out in the Albuquerque-Bernalillo County Comprehensive Plan ("Comp Plan") in a coordinated, citywide context where existing communities can benefit from appropriate new development, while being protected from potential adverse effects. The IDO regulations coordinate with the City's Development Areas – Areas of Change and Consistency – that work together to direct growth to appropriate locations and ensure protections for low-density residential neighborhoods, parks, and Major Public Open Space. The IDO implements the Comp Plan through regulations tailored to each of the City's designated Centers and Corridors and to many small areas. The IDO regulations are also coordinated with transportation and urban design policies in the updated Comp Plan, as well as updated technical standards for infrastructure in the Development Process Manual (DPM).

The IDO annual update process was established to require a regular cycle for discussion among residents, City staff, businesses, and decision-makers to consider any needed changes that were identified over the course of the year. Councilor Dan Lewis requested an Amendment to IDO Text – Small Area for the Northwest Mesa View Protection Overlay (VPO-2). Council staff provided a memo that includes the page and section of the adopted IDO that would be modified, the text that is proposed to change, along with an explanation of the purpose or intent of the change. This memo is the main body of the application for the Amendment to IDO Text – Small Area.

Northwest Mesa - VPO-2

In mixed-use and non-residential zone districts with property in the hatched Height Restrictions Sub-area shown in this map, only portions of the property within the hatched area would be limited by building height restrictions established by this View Protection Overlay zone. [14-16-3-6(D)(1) and 14-16-3-6(E)(3)]

This changes the existing rule that when a property has even a portion within the Height Restriction Sub-area, the entire property is subject to the building height restriction.

Justification for a View Protection Overlay Zone under the Criteria in 6-7(E)(3)

The proposed amendment to the IDO text is consistent with the required Annual Update process described in IDO Subsection 14-16-6-3(D). These proposed amendments to the IDO text meet the Review and Decision Criteria in IDO Subsection 14-16-6-7(E)(3), as follows:

6-7(E)(3)(a) The proposed small area amendment is consistent with the health, safety, and general welfare of the city as shown by furthering (and not being in conflict with) a preponderance of applicable Goals and Policies in the ABC Comp Plan, as amended, and other applicable plans adopted by the City.

Response: Because the building height limits will apply within the boundary of the Height Restriction Sub-area, while allowing more flexibility for non-residential and mixed-use development, the proposed change furthers the following applicable Goals and Policies in the ABC Comprehensive Plan.

> **Policy 4.1.2 Identity and Design**: Protect the identity and cohesiveness of neighborhoods by ensuring the appropriate scale and location of development, mix of uses, and character of building design.
>
> *Response: View Protection Overlay zones are intended to preserve areas with unique and distinctive views worthy of conservation, and the Northwest Mesa Escarpment VPO-2 specifically is intended to protect views looking to and from the Petroglyph National Monument.*
>
> *The boundary for the Height Restrictions Sub-area is based upon boundaries first established in the former Northwest Mesa Escarpment Plan in 1987, which created height limitations for the area located within approximately 650 feet of the escarpment face. In some locations where the land was already subdivided in 1987 the Northwest Mesa Escarpment Plan boundary followed lot lines and public rights-of-way, but in other areas it followed a simple distance buffer from the escarpment face regardless of lot lines.*
>
> *Since 1987, much of this area has been subdivided into residential and non-residential lots, but the Height Restriction Sub-area boundary remains the same in the IDO. The IDO's definition of small area applies any regulations affecting a portion of the lot to the entire lot. This definition applies the building height restriction to areas not originally regulated by the Northwest Mesa Escarpment Plan. This height restriction is especially limiting for large mixed-use and non-residentially zoned lots, which tend to be larger than residential lots, and that may not be further subdivided like low-density residential areas.*
>
> *This request furthers Policy 4.1.2 because it balances the view protection goals of VPO-2 and long-held policy intent of the City to maintain views to and from the escarpment face, while also allowing for appropriately-scaled mixed-use and non-residential development per the underlying zoning designations outside of the Sub-area boundary.*
>
> **Policy 4.1.3 Placemaking:** Protect and enhance special places in the built environment that contribute to distinct identity and sense of place.

Response: The requested amendment furthers Policy 4.1.3 because it assures the continued protection of views to and from the Northwest Mesa Escarpment, while creating some nuance and additional flexibility for mixed-use and non-residential development.

Policy 4.1.4 Neighborhoods: Enhance, protect, and preserve neighborhoods and traditional communities as key to our long-term health and vitality.

Response: The proposed amendment only creates an exception for larger mixed-use and non-residential properties and does not affect low-density residential areas. The request furthers Policy 4.1.4 Neighborhoods because it maintains the limitations within residentially zoned areas, most of which are developed.

Policy 4.1.5 Natural Resources: Encourage high-quality development and redevelopment that responds appropriately to the natural setting and ecosystem functions.

Response: The request furthers Policy 4.1.5 because additional refinement of the applicability of the Height Restrictions Sub-area helps the development of larger mixed-use and non-residential parcels properly respond to their setting near the Northwest Mesa Escarpment. Limits on building heights near the escarpment edge will still apply, while allowing a stepping up of the height farther from the escarpment where taller heights may be more appropriate.

Goal 5.4 Jobs-Housing Balance: Balance jobs and housing by encouraging residential growth near employment across the region and prioritizing job growth west of the Rio Grande.

Response: Providing the requested flexibility for mixed-use and non-residential properties furthers Goal 5.4 because the request may make it easier to develop sites with commercial uses that will provide employment opportunities and job growth west of the Rio Grande.

Policy 5.4.2 West Side Jobs: Foster employment opportunities on the West Side.

Response: The Northwest Mesa Escarpment VPO-2 is located entirely on the West Side. The request furthers Policy 5.4.2 by providing additional flexibility for the development of non-residential and mixed-use properties that can help foster employment opportunities on the West Side.

Policy 5.7.2 Regulatory Alignment: Update regulatory frameworks to support desired growth, high quality development, economic development, housing, a variety of transportation modes, and quality of life priorities.

Response: The proposed amendment furthers Policy 5.7.2 because it supports economic development opportunities, and high-quality development and redevelopment of mixed-use and non-residential properties. The request balances these with the important view protection goals of the City, as well as appropriate development forms for Centers and Corridors.

Policy 7.3.2 Community Character: Encourage design strategies that recognize and embrace the character differences that give communities their distinct identities and make them safe and attractive places.

a) Design development to reflect the character of the surrounding area and protect and enhance views.

Response: The request furthers Policy 7.3.2 by encouraging design that balances the sometimes-competing needs of view protection with growth and development with a mix of uses and job opportunities in Centers and along Corridors. The amendment will maintain current height restrictions near the escarpment face to maintain views to and from the escarpment, while allowing taller buildings that are situated farther away thus reflecting the character of the area while continuing to protect and enhance views.

Policy 8.1.1 Diverse Places: Foster a range of interesting places and contexts with different development intensities, densities, uses, and building scale to encourage economic development opportunities.

Response: Policy 8.1.1 is furthered by the request because allowing an increase in building heights beyond the limits of the Height Restrictions Sub-area will help foster a greater variety of intensities, densities, uses, and building scale on mixed-use and non-residential properties.

Policy 11.3.1 Natural and Cultural Features: Preserve and enhance the natural and cultural characteristics and features that contribute to the distinct identity of communities, neighborhoods, and cultural landscapes.

a) Minimize negative impacts and maximize enhancements and design that complement the natural environment, particularly features unique to Albuquerque, in development and redevelopment in light of the relationship to and effect upon the following:
   v. Scenic views from the public right-of-way
b) Minimize the visibility of structures in highly scenic areas and on the western horizon as seen throughout the city through building design and materials that blend with the natural colors of the landscape and limit reflectivity.
c) Protect important views from public rights-of-way through regulations on street orientation, site layout, building height, and signs.
d) Encourage site design that enhances and leverages views to cultural landscapes.
e) Encourage appropriate edge treatments, transitions, and buffers through site design and development standards for development adjacent to Open Space.

Response: The request furthers Policy 11.3.1 because it creates additional nuance within VPO-2 to preserve and enhance the natural and cultural characteristics of the Northwest Mesa Escarpment. The intent of the Overlay is to protect the views to and from the escarpment, which is accomplished through the limitation of building height within the Height Restrictions Sub-area. Allowing additional flexibility for heights on larger mixed-use and non-residential properties beyond this Sub-area boundary is appropriate and encourages the placement of structures that enhance and leverage views to cultural landscapes from public rights-of-way. The amendment does not change any regulations regarding building colors, reflectivity, or landscaping and buffering requirements that will continue to apply to future development in the affected area.

Policy 11.3.4 Petroglyph National Monument: Regulate adjacent development to protect and preserve the Petroglyph National Monument – its volcanoes, petroglyphs, and Northwest Mesa

Escarpment – as a priceless cultural landscape and community resource that provides physical, cultural, and economic benefits.

b) Preserve and protect the Monument from growth and development pressures on the West Side.

c) Conserve and protect the Monument and surrounding lands through regulations associated with the Volcano Mesa and Northwest Mesa Escarpment Areas.

Response: The Northwest Mesa Escarpment VPO-2 is one mechanism in the Integrated Development Ordinance that directly implements Policy 11.3.4 by providing regulations specific to the Northwest Mesa Escarpment area. The request furthers this policy because it adjusts the regulations slightly to respond to the needs of mixed-use and non-residential development while continuing to maintain height limitations with the Height Restrictions Sub-area boundary as it was originally established, as well as continuing to provide other design requirements for new development near the Petroglyph National Monument.

Policy 11.3.6 Volcano Mesa: Preserve open space, natural and cultural landscapes, and other features of the natural environment within Volcano Mesa.

a) Respect Albuquerque's culture and history, including Hispanic and Native American, through context-sensitive development.

b) Encourage development that is sensitive to the open, natural character of the area and geological and cultural conditions.

c) Protect important views, vistas, and view corridors from within Volcano Mesa to the Rio Grande basin, across the city of Albuquerque, and to the Sandia Mountains.

Response: Many of the properties affected by the proposed amendment are within the Volcano Mesa area. The request furthers Policy 11.3.6 by providing flexibility for development while maintaining protections for important views, vistas, and view corridors, specifically those to and from the Northwest Mesa Escarpment as is the intent of the VPO-2 regulations.

6-7(E)(3)(b) If the proposed small area amendment is located partially or completely in an Area of Consistency (as shown in the ABC Comp Plan, as amended), the applicant must demonstrate that the proposed amendment would clearly reinforce or strengthen the established character of the surrounding Area of Consistency and would not allow development that is significantly different from that character. The applicant must also demonstrate that the existing zoning regulations are inappropriate because they meet any of the following criteria:

1. There has been a significant change in neighborhood or community conditions affecting the small area.

2. The proposed zoning regulations are more advantageous to the community as articulated by the ABC Comp Plan, as amended (including implementation of patterns of land use, development density and intensity, and connectivity), and other applicable adopted City plan(s).

Response: This request would clearly reinforce the established character of the surrounding area and would result in development that is consistent with that character based on the ABC Comp Plan Goals and Policies cited above. These same Goals and Policies demonstrate that the proposed development standards are more advantageous to the Community as articulated by the ABC Comp Plan by implementing development patterns and densities desired by the community.

6-7(E)(3)(c) If the proposed small area amendment is located wholly in an Area of Change (as shown in the ABC Comp Plan, as amended) and the applicant must demonstrate that the existing zoning regulations are inappropriate because they meet at least one of the following criteria:

1. There has been a significant change in neighborhood or community conditions affecting the small area that justifies this request.

2. The proposed zoning regulations are more advantageous to the community as articulated by the ABC Comp Plan, as amended (including implementation of patterns of land use, development density and intensity, and connectivity), and other applicable adopted City plan(s).

Response: This criterion does not apply. The small areas are partially within areas designated as an Area of Change; however, there are portions that are designated as an Area of Consistency, so the criterion above applies to the whole small area.

6-7(E)(3)(d) If the proposed amendment changes allowable uses, the proposed amendment does not allow permissive uses that would be harmful to adjacent property, the neighborhood, or the community, unless the Use-specific Standards in Section 16-16-4-3 associated with that use will adequately mitigate those harmful impacts.

Response: This small area amendment does not propose to change any allowable uses.

6-7(E)(3)(e) The applicant's justification is not based completely or predominantly on the cost of land or economic considerations.

Response: This small area amendment does not change any allowable uses or cause new development to happen, rather, it changes development standards for new development within the small area boundaries.

Public Outreach

The City's Alternative Dispute Resolution (ADR) facilitated a pre-submittal Neighborhood Meeting, as required by Table 6-1-1 and IDO Subsection 14-16-6-4(C). There were two opportunities to hear the same presentation and ask questions. These meetings were held on October 17, 2022 and October 19, 2022, one in the daytime and one in the evening. The full facilitated meeting notes are included with this application. The meeting report was sent out to all attendees who provided an email in the meeting or are on the project email list for newsletters. It was also sent out to all of the Neighborhood Association representatives who received notice of the meetings.

As required by 14-16-6-4(C)(8), the following discussion includes concerns raised and the constraint that limits the ability to address those concerns.

Community members expressed concerns related to allowing additional building height which may then allow additional density in the area. These concerns focused on the implication of potential obstruction of views in additional to potential disruption of the Major Public Open Space areas nearby. Community members also expressed concern related to the number of properties the proposed changed would be applicable to. City staff clarified that only certain zoning districts would be affected, not to include residential zoning, which would limit the scope of applicability overall. In response to this clarification, meeting attendees were concerned that the number of properties that would be affected is too small and targeted.

The Planning Department has scheduled a public review meeting on November 18, 2022 to review and discuss any questions about the Citywide and Small Area Proposed Text Amendments. Staff will recommend that any public comments be submitted in writing or provided verbally at the EPC hearing.

Notification letters of the application were sent out between on November 3, 2022. They were mailed to 11,720 property owners within or adjacent to the Northwest Mesa Escarpment VPO-2 boundary. Neighborhood Associations that include or abut any the small area boundary included in this application received emailed notice.

Conclusion

This request promotes public health, safety, and welfare by providing more flexibility for non-residential and mixed-use development west of the Rio Grande for the portions of lots that are not within the Height Restrictions Sub-area. This proposed amendment to the IDO text will promote economic growth and help to balance jobs and housing on the West Side. The proposed change responds to challenges in implementing regulations and view protections in a real-world context with real-world projects.

Sincerely,

Mikaela Renz-Whitmore, Division Manager

Urban Design & Development Division, City Planning Department

NOTIFICATION

November 2nd, 2022

Dear Neighborhood Association Leader,

You are invited to a public hearing before the Environmental Planning Commission (EPC) who will consider a Text Amendment - IDO (Small Mapped Area) within the Northwest Mesa Escarpment View Protection Overlay Zone (VPO-2) in the Integrated Development Ordinance. The details of the request, including a map of the boundary area, may be found on the reverse side of this notice.

The EPC will be a recommending body on this change and are not a final decision-making body. The City Council will ultimately be the final review and approval body for this request.

Hearing Information
Who: Environmental Planning Commission
Where: Zoom (link to be provided on agenda the Friday before the hearing)
When: December 8th, 2022 | 8:30 a.m.
The agenda will be posted here: http://www.cabq.gov/planning/boards-commissions

There were two facilitated meetings held on this matter on October 17th and October 19th. The notes from those meetings can be found at https://abc-zone.com/ido-annual-update-2022. Notice has been sent to property owners in or within 100 feet of the VPO-2 boundary.

If you have questions about this request or would like more information please reach out to **Shanna Schultz** at **smschultz@cabq.gov.**

Thank you,

Shanna Schultz, AICP | Council Planning Manager
Albuquerque City Council Services
Office: (505) 768-3185

- **Purpose**: The proposed change will affect lots with mixed-use or non-residential zoning within the VPO-2 height subarea (overall map provided below, but only properties with the applicable zoning in the red hatched area will be impacted). This provision as it exists in the text today requires that any property owner comply with the height restrictions on their lot if the sub-area boundary crosses <u>any portion</u> of their lot. Some properties with mixed-use or non-residential zoning have very large tracts of land and this provision requires the entire tract, even outside of where the sub-area boundary ceases, to comply with the height restrictions. The change to how the height restriction in the sub-area is applied will allow property owners with large lots more flexibility in building design. This change will not be applicable to residentially zoned properties, which typically are much smaller parcels that are not impacted in the same way.

- **Actions:**

1. Amend section 3-6(D)(1) as follows:

3-6(D)(1) Applicability

The VPO-2 standards apply to all development in the following mapped area. Where the VPO-2 boundary crosses a lot line, the entire lot is subject to these standards [<u>unless otherwise specified</u>].

3-6(E)(3) Building and Structure Height

The following standards apply in the Height Restrictions Sub-area shown in the map above. [<u>In mixed-use and non-residential zone districts, where the height-restriction sub-area crosses a lot line, only the portion of the lot within the sub-area boundary is subject to these standards.</u>]

PLEASE NOTE:
The City Council recently voted to update the Neighborhood Association Recognition Ordinance (NARO) and the Office of Neighborhood Coordination (ONC) is working to ensure all neighborhood associations and neighborhood coalitions are in compliance with the updated ordinance. There will likely be many updates and changes to association and coalition contact information over the next several months. With that in mind, please check with the ONC every two (2) weeks to ensure that the contact information you have for associations and coalitions is up to date.

Dear Applicant:

Please find the recognized neighborhood contact information listed below. Please make certain to read the information further down in this e-mail as it will help answer other questions you may have.

The ONC does not have any jurisdiction over any other aspect of your application beyond this neighborhood contact information. We can't answer questions about sign postings, pre-construction meetings, permit status, site plans, buffers, or project plans, so we encourage you to contact the Planning Department at: 505-924-3857 Option #1, e-mail: devhelp@cabq.gov, or visit: https://www.cabq.gov/planning/online-planning-permitting-applications with those types of questions.

Please note the following:

- You will need to e-mail each of the listed contacts and let them know that you are applying for an approval from the Planning Department for your project.
- Please use this online link to find the required forms you will need to submit your permit application. https://www.cabq.gov/planning/urban-design-development/public-notice.
- The Checklist form you need for notifying neighborhood associations can be found here: https://documents.cabq.gov/planning/online-forms/PublicNotice/CABQ-Official_public_notice_form-2019.pdf.
- The Administrative Decision form you need for notifying neighborhood associations can be found here: https://documents.cabq.gov/planning/online-forms/PublicNotice/Emailed-Notice-Administrative-Print&Fill.pdf
- Once you have e-mailed the listed contacts in each neighborhood, you will need to attach a copy of those e-mails AND a copy of this e-mail from the ONC to your application and submit it to the Planning Department for approval.

If your application requires you to offer a neighborhood meeting, you can click on this link to find required forms to use in your e-mail to the neighborhood association(s): http://www.cabq.gov/planning/urban-design-development/neighborhood-meeting-requirement-in-the-integrated-development-ordinance

If your application requires a pre-application or pre-construction meeting, please plan on utilizing virtual platforms to the greatest extent possible and adhere to all current Public Health Orders and

recommendations. The health and safety of the community is paramount.

If you have questions about what type of notification is required for your particular project or meetings that might be required, please click on the link below to see a table of different types of projects and what notification is required for each:
https://ido.abc-zone.com/integrated-development-ordinance-ido?document=1&outline-name=6-1%20Procedures%20Summary%20Table

Thank you.

Albuquerque, NM 87102

RE: December 2022 EPC Submittal – Public Mailed Notice Certification | Amendment to the IDO Text – Small Area

Dear Mr. Biazar,

Please accept this letter as certification of Mailed Notice as required by the IDO.

I, Shanna Schultz, do hereby certify and attest that Council Services has hired a mailing service to mail 13,360 notification letters. The letters will be delivered to the U.S. Postal Service on November 3rd, 2022.

- Of these, 1,740 letters were sent to property owners in or within 100 feet of the North 4th Character Protection Overlay Zone (CPO-9) boundary, as required by IDO Subsection 14-16-6-4(K)(3)(d).
- Of these, 11,720 letters were sent to property owners in or within 100 feet of the Northwest Mesa Escarpment View Protection Overlay Zone (VPO-9) boundary, as required by IDO Subsection 14-16-6-4(K)(3)(d).
- Notice to Neighborhood Associations was sent via e-mail as required.

Sincerely,

Shanna Schultz, AICP | **Council Planning Manager**

Yes, these are the boundaries WITH the 100 ft buffer applied. It's hard to tell from the screenshots because they are such large areas, but I included a new screenshot below with a zoomed-in approach for more context.

(Green represents everything included in the buffer, which does go 100 ft past the dark blue boundary line)

Subject: RE: Buffer requests

Shanna,

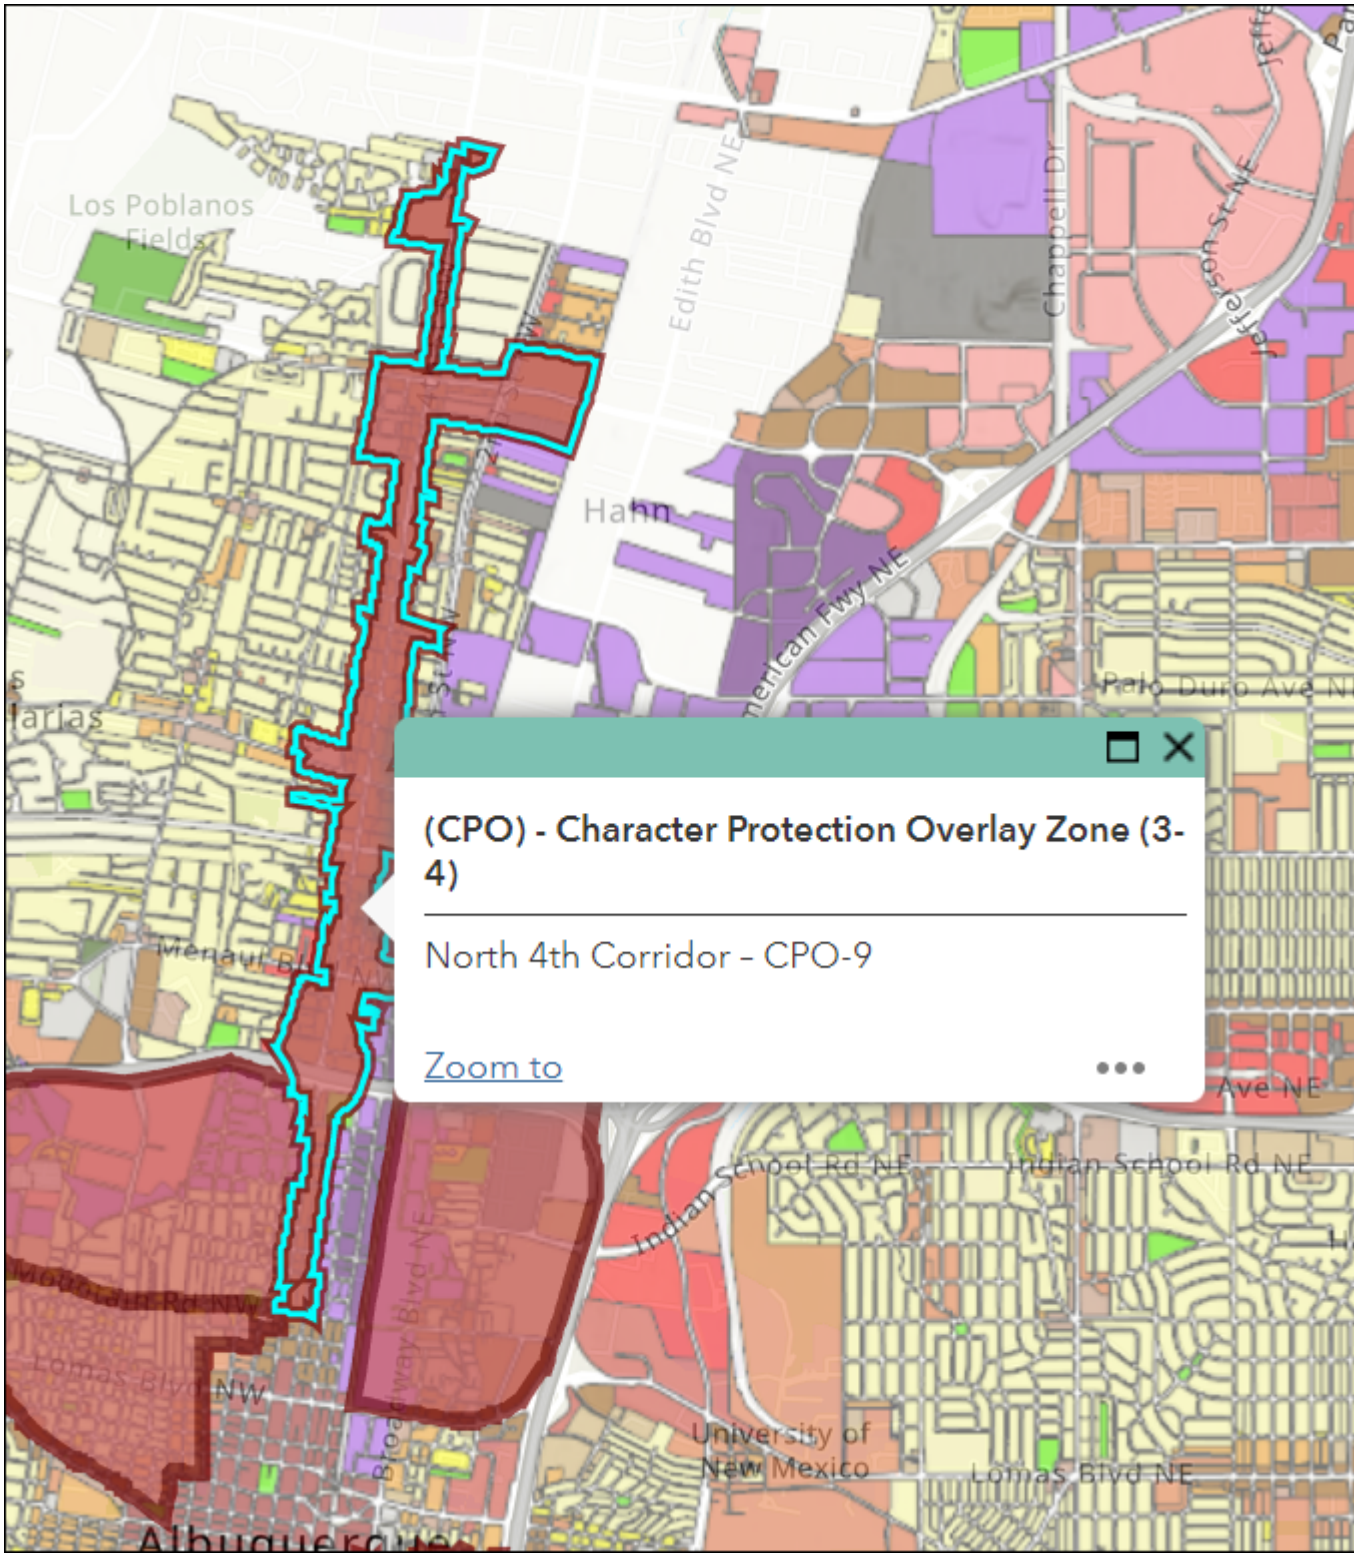

Devin (cc'd) will be assisting with this request and he should be able to get you these lists by noon tomorrow mid-morning. Will just the list of property owners and owner addresses suffice? Or do you also need mailing labels and maps? There may be duplicate property owners in these areas and/or City owned property that you might want to remove from the list, but we don't want to make that call for you. Not sure how many properties will be selected as those are much larger areas.

And to confirm these are the areas you need in separate lists:

Northwest Mesa Escarpment VPO-2

North 4th CPO (CPO-9)

Subject: RE: Buffer requests

Shanna,

Let me check in with the admin staff that have been handling them and check to see if they have started. Do you need to notify just the property owners within the boundaries? Or do you need to also have a buffer around the small area?

Subject: Buffer requests
Importance: High

Michelle,

I sent two requests today for addresses within a certain buffer (attached).

I'm sorry to request an expedited response – but is there any way I can get these addresses today or tomorrow? There was a hiccup with long-range staff regarding an application I'm assisting with and we are on an incredibly tight timeline.

Thanks for any help you can provide!
Shanna

FACILITATED MEETING REPORT

CITY OF ALBUQUERQUE

LAND USE FACILITATION PROGRAM PROJECT MEETING REPORT

VPO-2 Proposed City Council Amendment

Project: VPO-2 Proposed City Council Amendment
Property Description/Address: VPO-2 Escarpment
Date Submitted: October 28, 2022
Submitted By: Jocelyn M. Torres
Meeting Date/Time: October 19, 2022 5:30 p.m. – 6:30 p.m.
Meeting Location: Via Zoom
Facilitator: Jocelyn M. Torres
Applicant: CABQ City Council VP Dan Lewis
Agent: Shanna Schultz, CABQ
Neighborhood Associations/Interested Parties: *See* Attached Notice list for VPO-2 Text Amendment[i]

Background Summary:

The Integrated Development Ordinance (IDO) Northwest Mesa Escarpment View Protection Overlay zone (VPO-2) currently regulates building and structure height and colors, building reflectivity and roof-mounted equipment. VPO-2 standards and proposed amendments read as follows:[ii] (*See* attached CABQ PowerPoint Diagram by Shanna Schultz). The proposed building and structure height amendment does not apply to residential property.

3-6(D)(1) **Applicability**

The VPO-2 standards apply to all development in the following mapped area. Where the VPO-2 boundary crosses a lot line, the entire lot is subject to these standards [unless otherwise specified].

3-6(E)(3) **Building and Structure Height**

The following standards apply in the Height Restrictions Sub-area shown in the map above. [In mixed-use and non-residential zone districts, where the height-restriction sub-area crosses a lot line, only the portion of the lot within the sub-area boundary is subject to these standards.]

VPO-2 is designed to maintain views and to respect the nearby Petroglyph National Monument. The yellow boundary is VPO-2. [*See* attached Endnote ii CABQ PowerPoint Diagram]. Today, if the yellow VPO-2 line crosses any portion, the entire property is subject to the height restriction. The sample property appears to be fully developed and includes two buildings. Because VPO-2 covers a portion of the parcel, the entire parcel is subject to the height restrictions. A building situated closer to the street, and outside the yellow VPO-2 boundary, would still be subject to the height regulations covering a portion of that parcel.

The proposed language states that only the area of the parcel where VPO-2 actually exists would be required to implement the height restrictions. The picture depicts a triangular portion of VPO-2 that covers the most northern parcel. As amended, any building footprint within the yellow triangle would still be subject to the height restrictions. Buildings outside the triangle would not be subject to these restrictions, even if located within the same property.

Due to ex parte rules, participants may not speak directly with Councilor Lewis at this point in the process. The text will be finalized in October, 2022. The final product will be submitted to the Environmental Planning Commission (EPC) in November, 2022. The EPC will hear proposed changes to the Integrated Development Ordinance (IDO). In December, 2022, the EPC will hear proposed IDO changes. After December the process is more unpredictable depending on the number of EPC hearings. The EPC recommendations will then go to the City Council. Only the City Council can make a final decision on proposed IDO changes Participants may attend

the EPC hearing and contact all City Councilors at that stage in the process. This matter will likely be sent to the City Council in the Spring of 2023.

Outcomes:

1. **Areas of concern:**

   a. Neighbors expressed concern regarding their inability to speak directly with Councilor Lewis at this point in the process.
   b. Neighbors oppose the proposed VPO-2 Amendments.
   c. Neighbors expressed concern that the Petroglyph National Monument Director Nancy Hendricks was not notified at this point in the process.
   d. Neighbors are concerned about notice.

2. **Conclusions.**

   a. CABQ neighborhood association facilitated meetings were held on October 17 and 19, 2022.
   b. The Facilitated Meeting Reports summarize the content of each meeting.
   c. CABQ Agent Shanna Schultz will communicate neighborhood comments, questions and concerns to Councilor Lewis.
   d. Neighbors oppose the proposed VPO-2 Amendments.
   e. CABQ intends to follow through with its proposed "Next Steps."

Meeting Specifics (*Participant Questions and Comments are Italicized*):

1. **Participant Questions and Comments.**

   a. *C/Q. This property is fully developed. And if it wasn't developed, we would have a problem. If we look at Golf Course and Paseo, one of the points and the purpose of these building heights and view regulations is so we can see the Escarpment from the right of way at these roadways. That just gives a really nice perspective of that natural feature. Please show the map at the top of the mesa near Paseo and Kimmick.*

   That line splits that property. That view protection runs along Paseo. That also kind of opens up the view area so that you can see the road and the views. And here, if you cut that property in half based on that line you showed, then all that is lost. I mean, the whole purpose was to preserve these breathtaking views of our natural features. That was an important point of that.

   A: All the parcels that are brown and pink would be affected by this change. Anything that's orange and yellow would not.

   C: Along the roadside, now I see it. That's a big, drastic change. That kind of gives the benefit of preserving the views along there.

   This is the other question that was mentioned at the last meeting; this quasi-judicial thing. We can't talk to our Councilors about it, but this is a small area overlay zone. It has all the protections that we want as a community. We worked hard to preserve those views. With each IDO annual update, we get these amendments that undo all those protections, and then we can't talk to the Councilors. Somebody asked the Councilors to sponsor these to remove these protections. So all of our small area overlay zones are vulnerable to this IDO Annual update. I

just think that's unfair. I think we need a different process where we have all this discussion and review and thoroughly vet it to get neighborhood support before asking a Councilor to request these changes. I'm just saying this IDO process is removing all our small area protections on our landscapes that we value in Albuquerque. I think that's wrong and this IDO process is exploiting our protections. I want that recorded. Those are my comments.

b. *Q: I actually have two questions. The first question has to do with the impact of this change. So if this should be enacted, does it apply not only to undeveloped property, but also to the redevelopment of any property? For example, in your presentation, Shanna, you show us an area where the affected property already has a structure on it. If that property owner elected to redevelop that, could he or she then increase building heights in that particular zone? I think building height is 38 feet.*

A: Thanks for that question, Jane. Yes. If a property owner chose to redevelop, whether that was tearing down a building and constructing a new building, or adding to an existing building, or adding an additional building to their property, they would be able to use the benefit of this change, if applicable. If they have the right zoning and fall within the correct area.

Q: That's one thing I wanted to be clear about. My second question is, you've said that this change applies to no residentially zoned properties. Does that mean that R-ML and R-MH are not included in this? If a property in those zones falls within VPO-2, is that property then required to adhere to the height restrictions as they're currently written?

A: You're correct. All of the residential dash zones are not subject to this change. Any existing properties that have that R dash zoning would need to continue to comply with the height restrictions and the VPO as they exist today if this were to be approved.

c. *C: My name is Elizabeth Haley. I'm the president of the Westside Coalition of Neighborhood Associations. I'm also a member of the Paradise Hills Civic Association board. I'm the chair of the Paradise Hill Special Zoning district. I do have some feelings about the way you've communicated what the term ex parte means. Ex parte doesn't mean that you can't speak to your constituents. It means you must speak with all of the parties at interest at the same time. You can't have separate conversations. That's what that actually means. So I think it is always unusual for those of us who do zoning and actually do speak to why we think something is necessary in well-advertised public meetings prior to that process, why the City of Albuquerque, the City Council members do not. My questions have to do with concerns about how this particular legislation is impacting the property rights of parties with standing. Those people who would be included in any kind of quasi-judicial hearing. The state statute's notification requirements, including municipalities and home rural areas, is that the way of doing notification is not the way the City is doing it. It is much broader and more individual. Also, the measure of that standing is usually interpreted as anyone within 100 feet, not counting public ways. In all of the zoning that I've seen, the information that is in a comprehensive plan is important and is expected to be sustained until there is another comprehensive plan, unless there is ample notification and process to make change. I know that many of the constituents here have concerns. One of the reasons that I have a concern, from a different zoning district, is that the FAA has closed part of the ballooning space available to balloonists. They gave a waiver for this Balloon Fiesta. Most of ballooning has been pushed out to the far northwest area and is expected to occur over nonresidential areas. We're not only going to interrupt the views, the lands and the tourism industry, which is about photoshoots of the balloons coming*

up over the Escarpment, but we're also going to increase the height of commercial buildings within the area.

Q: Getting back to the issue of standing, could you throw up your map again, please?

A: The map is honed into a very small portion of the VPO.

C: You're actually changing the rules in terms of the state statute. You're saying if a part of the overlays that are in the Comprehensive Plan fall over a certain area, they don't count. You're also acting as though they don't count if there is a roadway; that the roadway is some sort of exception. It looks like all that the pink and the brown would be covered. Unless the City is going to decide that it does not need to follow the state statute, I think it's problematic. One thing that we know about in Paradise Hills is that we were actually sued by Bernalillo County, the State and the City of Albuquerque when our zoning district was created. One of the issues that they used as the basis of their suit was spot zoning. The Supreme Court found in our favor because we had followed the last comprehensive plan. They defined what spot zoning actually meant. Spot zoning is where you change a zoning classification so that it only improves the financial or other positive outcomes for certain landholders, where other existing landholders are going to have a perceived deficit.[1]

Many landholders developed here within the restrictions of the existing Comprehensive Plan for the views. Now you're going to contemplate changing the zoning ordinance to only advantage a couple of property owners. One wonders how that is fair or even follows the state prohibitions against spot zoning.

A: I will handle the notice question first. The meeting notice that neighborhood associations received today was for what's called a pre-application meeting, which is notice beyond what the state requires. It's something particular to the City of Albuquerque, particular to the IDO, where we require applicants to go have a conversation with affected neighborhood associations prior to an application being submitted. When the application is submitted, which was that November date on my timeline, we will be giving full notice per state statute to individual property owners within 100 feet of the VPO boundary. The meeting that we're at today certainly wouldn't constitute adequate notice. We're not quite to the stage of sending that notice, but we will be in a few short weeks. Then all those property owners will get that individualized mailed notice which honors their due process rights. They will then be able to come to the scheduled hearings to say whether they support or oppose the change and to participate in that review and approval process.

C: Excuse me. If I may just interject something there. Although the City of Albuquerque uses notification and is calling this strictly a quasi-judicial administrative hearing for a small, discreet area, the state statute actually says if many other property owners are impacted in a way they can perceive as a detriment, then the notification has to be much, much broader. I guess part of the problem here is that you don't have a new Comprehensive Plan with data to say that this does or does not advantage or disadvantage great groups of people or as part of the planning that's agreed upon by everyone who is impacted by this decision. What you are in fact doing is changing the prior Comprehensive Plan and it will actually be impacting only three, it looks like to me, property owners. Is that correct?

---

[1] *Albuquerque v. Paradise Hills Special Zoning*, 99 N.M. 630,661 P.2d 1329 (1983).

A: A couple of responses here. This doesn't propose any changes to the Comprehensive Plan, which is a standalone policy document adopted by the Council in 2017. The document we're talking about tonight is the Integrated Development Ordinance, which is the regulatory framework that seeks to put in place the policies and the vision that the Comprehensive Plan calls for. I just want to make sure that folks don't get confused between the Comprehensive Plan and the IDO. Those are two distinct topics and two distinct documents. The Comprehensive Plan is not on the table this evening.

C: I didn't suggest that it was. But in your interpretive document, which is the IDO, the regulatory structure to implement the existing Comprehensive Plan, you are actually changing the earlier recommendation based on the Comprehensive Plan to something else.

A: I see. I think I follow your train of logic now. I suppose that's correct. I suppose the proposed change is making a different interpretation of what the Comprehensive Plan calls for and there will need to be policy justification for the request once we get to the application stage.

C: I agree. The other issue is that it seems to advantage only three different property owners.

A: That's the other thing I wanted to address. Thanks for bringing that up. At Monday's session of the same meeting, there was a request for a more discreet map that shows exactly the affected properties because the maps I have shown tonight include several zoning districts that will not be affected by this change. Staff is working on a more explicit map that should show very specifically individual properties that will be impacted by this change. If we have your email address, either from the first meeting or this meeting, you will get that map in a follow up email once we have it. I can't speak tonight to how many properties are affected because I don't have that data yet, but we're getting it.

Q: Can you speak to the decision that when an overlay zone comes over a certain property that they can just not abide by it?

Q: Are you referencing the proposed language?

C: The proposed language that would allow properties that were within an overlay zone if just a portion of that property is in that overlay zone to ignore the overlay zone and the view and height requirements.

A: Okay, yeah, I'm going to show the map again to try to answer that question and use the zoomed in area as an example. So right now, the overlay zone comes into this pink parcel, it clearly doesn't cover the entire parcel, but it covers a portion. The way the VPO is regulated, all heights of buildings on this parcel are subject to the restrictions. This change proposes that only development within this yellow fragment would be subject to the height restrictions. So the rest of the parcel, which isn't within the yellow boundary, could develop to the allowed heights in the IDO, but just this yellow piece would not have to. So it's not that the entire VPO regulations get thrown out the window. It's only where the boundary actually falls over the parcel.

C/Q: I don't know what to say about that. Clearly Albuquerque depends on tourism and the film industry. They spend much more money here than any development entity. It would seem that they haven't been notified at all. I don't know if anyone has even looked at the idea that the Balloon Fiesta had to get FAA restrictions lifted for this Balloon Fiesta because they hadn't had enough time to actually deal with them. Most of those restrictions force the pilots up into the

northwest corridor. Then the Planning Department believes that it is okay, without ever having had any public comment from this community, the Balloon Fiesta organizers, or any other entities, including the FAA, as to whether this additional hype poses any problems.

A: I think that's correct. We don't engage with most of those stakeholders for development applications.

C: This is a very specific development application in a very specific place. That is the point. This is a specific place. It had provisions in place since 1987, when they did the West Mesa Escarpment plan to protect the unique geology and views of the City of Albuquerque. Those are going to be compromised in order to help a few businesses. I think that is amazing, especially since this isn't part of the Comprehensive Plan. It's a reinterpretation of the existing Plan, and it seems to negate federal statutes that would say an overlay zone affects the totality of the site. So those are all problematic issues and I don't think they've been addressed.

A: Just a couple of things. This first comment follows up on something Mark Jackson said at Monday's meeting. Mark referred to the plans to widen Paseo del Norte. There are meetings going on right now about those plans. The affected section of Paseo is already four lanes and will be widened along that stretch between Golf Course and Unser. There will be a median and multimodal lanes. So there's going to be eminent domain coming along pretty soon. They're going to be acquiring property they need for the right of way. Mark made the point that this seems a bad time to be doing rezoning. I thought about that. It's a very peculiar time to be doing anything that is going to increase the fair market value of property that the City is about to acquire via eminent domain, because anything that makes it possible to develop this parcel more intensively than it is now will increase the fair market value. Any commercial real estate appraiser is going to say that.

C: To be blunt, what's going to happen if this plan goes through, there's going to be money that is going to come from the taxpayers and go to whoever owns the parcel that has just had its height restrictions lifted. This is a ridiculous time to be considering rezoning this property for that very reason. I just wanted to make sure that that point was explicitly in the record.

Another thing, the City notifies people about rezoning and other things through neighborhood associations. In the map, you can see the brown parcels up there on Paseo and Kimmick. That neighborhood right next to the brown parcels is where I live.

That's La Cuentista II. This neighborhood was under construction, when the two darker parcels, applied to be rezoned from M-XL to M-XM. We didn't get any notice at all. It was because we didn't have a neighborhood association. I was one of the earlier residents of the neighborhood. We didn't have an association that the City recognized. When I looked into how we could go about getting one, there was a moratorium in place on recognizing new ones. So we had like, two weeks notice that this rezoning was going through. I don't think it's coincidental that we're talking about the same parcels. The same entities come up every time. The only reason that I know about this meeting is thanks to Renee Horvath. I will point out, and your record will reflect that at the Monday meeting, the Superintendent of Petroglyph National Monument complained because Petroglyph doesn't get notice of things that are affecting this parcel, I guess because Petroglyph isn't a neighborhood association.

The notification process for people who are most directly impacted by this is woefully inadequate. That is a larger issue. It certainly needs to be addressed at some point.

A: I don't think I have much in response. The Monument will be notified, because they own property within or near the VPO boundary, at the time we get to the application. Again, this pre-application meeting process was very explicitly designed for organized neighborhood associations. Once the request has been formally submitted, the Petroglyph National Monument will get that invitation and will be able to come to the public hearings to state their perspective.

Q: Do the individual property owners who are most directly affected get this notice? Because we haven't been getting notices.

A: They do, but what is defined as most directly affected comes from state statute, which tells us within 100 feet of the boundary.

If you look at the map, if you're within that 100 feet, you will certainly receive personalized mailed notice when the application is submitted.

A: To clarify that map, the height restriction subarea is just a part of the overall VPO boundary. La Cuentista II is within the VPO as a whole. Property owners there will be required to receive mailed notice within the area proposed for the change, or 100 feet, excluding public right of way per state statute. You should be receiving a mailed letter at the time the City Council submits an application to the Planning Department. We at the Planning Department will not accept an application unless proof is provided along with the application that that mailed notice went out to the list of property owners per the Bernardo County records.

d. *C/Q: I'm the president of the Valle Prado Neighborhood Association. I did get email notification. I haven't had a chance to talk to the people in my neighborhood, so I'll speak in general with where I imagine they would stand on this. Can you tell me who is the applicant behind this development application?*

A: When we do get to the point of submitting the formal application, which will be the first week of November, that will be on behalf of City Councilor Dan Lewis.

Q: So Dan Lewis is the applicant, then?

A: Yeah, and I will be the agent acting on his behalf.

Q: Why is it that he can submit stuff, but we can't talk to him? I understand there's a state law that says I can't talk to you about these matters. Why is he involved in matters he shouldn't be involved in? If we can't talk to him, he shouldn't be involved. Just for the record, you don't need to respond. That's just an absurdity. Another thing, can you tell me the date when we're all supposed to get together to talk about this? I thought it was December, 2022. Is that correct?

A: I believe you're referencing the first EPC case that will be scheduled for this first set of IDO updates. We are proposing a special hearing at the EPC for December 8.

C: A couple of things, since we haven't done it yet, scratch December, please. It's a horrible time to get people out. It's a busy time. People have a lot going on. My preference is to move to January. That way I can get people there to have a voice and say their piece. There should be

a better way to do this process. Doing this erodes so much trust between the neighborhoods, the communities and the City because we have a standard that we feel we can abide by and it keeps getting chipped away at every year. I call it the super variance season for the IDO. It is not a good way to do it. There has to be a better way.

I've looked closely on AJIS, at the area that's in question here, and I've identified a couple of key stakeholders. There's private, commercial, government, meaning City of Albuquerque, open space, Petroglyph and then residences. I have an issue with the fact that the only entity that would benefit from this in any way would be a very small number of commercial development sites. I don't think any of the government groups are coming forward saying: "hey, we need this and it's not going to affect any of the residences." It's affecting a very small piece of the pie; of the people that actually own property along this line. So, I'd say that 99 percent of people that own property aren't affected by this and don't gain anything from this at all. But one percent of the people, the entities, that own a linear length along this property stand to benefit from it.

The biggest problem is that Paseo and Kimmick is in an area where all of us will see it and have to deal with it. Essentially, what we're doing here, is trying to pass legislation that will benefit a very few. My biggest frustration is that when we have these hearings, no matter how much we try, I just feel like there's got to be a better way. With the way we're doing it right now, there's a few people that are defending this in a very underrepresented way. Most of those I represent on the mesa top are perfectly fine with the way things are. Most people would like to keep the views the way they are. Most people aren't going to be affected by this, but it will change the property for a few people.

Then we'll all have to deal with the views. I look at the Coors view area and I don't want to see that happen here. There are developments going in and they basically have three story apartment complexes suddenly cutting off one story views in the same development. Why is that? They've got to protect the views. It looks shoddy and bad. They should have kept it the same across the entire area and they didn't. I don't want to see that happen here. If you allow this to happen, you will have parking lots built in the commercial lots with height restrictions. Then there's going to be a three or four story building. I believe that the mesa top has areas that will allow for that type of zoning. They are for sale at the Unser intersection.

The VPO was put there for a purpose. We want to preserve that view. I'm opposed to this request. It's bad in so many ways. It's inflammatory because it's basically doing more damage in an area where there are already issues with the proposed three-story self-storage building. The best thing that could happen with this is, that if it needs to get pushed further, Councilor Lewis should come forward and talk to all of us in a meeting that's not in December. He can talk to us face to face and voice why this is such an important thing. We can voice why we disagree with him. Preferably Councilor Lewis realizes that this isn't a good idea. I don't support it. The people in the area are opposed to it. That concludes my comments..

e. *C: I went to the meeting today regarding the Paseo upgrade. No one on that project is aware of this proposed VPO change. They were actually very surprised by it. I think that points to a lack of communication within the City. I mentioned Shanna's name. A couple of people on that City project were interested in what was going on. I agree with all the comments. I looked at the map. I've gone around the entire perimeter for properties that are not yet developed. This will impact us fundamentally. Property owners along Paseo, Kimmick, Calle Norteña, Paradise, Unser and Universe will be affected but only a few will benefit. I see no point in this change*

being implemented. Especially now with the expansion of Paseo. This is a waste of government money and time. This is to benefit two or three developers. There is no benefit to the community.

f. *C: I just have a quick comment. It appears that there's a major shareholder here that hasn't been mentioned and probably not contacted. That consists of the 29 groups of Native Americans who consider the Petroglyph National Monument sacred territory. It's part of their religion and part of their culture and the view scape is an integral part of that. The proposed amendment would not destroy, but it would affect the view scape in a negative way. That's the view scape from inside the monument and approaching the monument. I think that should this amendment be passed, it will negatively affect the property values of all of the homeowners involved.*

2. **Action Items** (Target response date is 11/2/22)

   a. **Agent will respond regarding participant's request to Councilor Lewis's office about any ex parte communication that has occurred regarding height restrictions or building restrictions within the view protection overlay zone [VPO-2].** (Participant's notation: "…to include anything in the Escarpment or West Mesa area on the same subject. Because whether or not it was specific to the view protection overlay zone or whether it was with the character protection overlays, all of those have been under assault by clients of Consensus Planning. And so whatever the origin of that discussion was, that then clued Consensus Planning into how to present this to Council Services in a way where they didn't have to mention that they were talking to Dan Lewis about it. I want to know what communications occurred from the entities that were involved in this.").

   b. **Agent will provide a map including the precise VPO-2 locations affected by the proposed amendments.**

   c. **Agent will provide a list of properties that are affected by the proposed VPO-2 amendments.**

   d. **If available, NA participants in the 10/17/22 meeting will provide notes on the VPO-2 CABQ zoning meeting that occurred approximately two years ago.**

3. **Next Steps:**[iii]

OCTOBER 2022 -	Proposed changes will be finalized based on feedback
NOVEMBER 2022 -	Submittal of changes to Environmental Planning Commission (EPC)
DECEMBER 2022 -	EPC begins review and recommendation to the City Council
SPRING 2023 -	City Council begins their review of the EPC recommendation

LAND USE FACILITATION PROGRAM PROJECT MEETING REPORT

VPO-2 Proposed City Council Amendment

Project: VPO-2 Proposed City Council Amendment
Property Description/Address: VPO-2 Escarpment
Date Submitted: October 28, 2022
Submitted By: Jocelyn M. Torres
Meeting Date/Time: October 17, 2022 12:00 p.m. – 1:00 p.m.
Meeting Location: Via Zoom
Facilitator: Jocelyn M. Torres
Applicant: CABQ City Council VP Dan Lewis
Agent: Shanna Schultz, CABQ
Neighborhood Associations/Interested Parties: *See* Attached Notice list for VPO-2 Text Amendment[i]

Background Summary:

The Integrated Development Ordinance (IDO) Northwest Mesa Escarpment View Protection Overlay zone (VPO-2) currently regulates building and structure height and colors, building reflectivity and roof-mounted equipment. VPO-2 standards and proposed amendments read as follows:[ii] (*See* attached CABQ PowerPoint Diagram by Shanna Schultz). The proposed building and structure height amendment does not apply to residential property.

3-6(D)(1) **Applicability**

The VPO-2 standards apply to all development in the following mapped area. Where the VPO-2 boundary crosses a lot line, the entire lot is subject to these standards [unless otherwise specified].

3-6(E)(3) **Building and Structure Height**

The following standards apply in the Height Restrictions Sub-area shown in the map above. [In mixed-use and non-residential zone districts, where the height-restriction sub-area crosses a lot line, only the portion of the lot within the sub-area boundary is subject to these standards.]

VPO-2 is designed to maintain views and to respect the nearby Petroglyph National Monument. The yellow boundary is VPO-2. [*See* attached Endnote ii CABQ PowerPoint Diagram]. Today, if the yellow VPO-2 line crosses any portion, the entire property is subject to the height restriction. The sample property appears to be fully developed and includes two buildings. Because VPO-2 covers a portion of the parcel, the entire parcel is subject to the height restrictions. A building situated closer to the street, and outside the yellow VPO-2 boundary, would still be subject to the height regulations covering a portion of that parcel.

The proposed language states that only the area of the parcel where VPO-2 actually exists would be required to implement the height restrictions. The picture depicts a triangular portion of VPO-2 that covers the most northern parcel. As amended, any building footprint within the yellow triangle would still be subject to the height restrictions. Buildings outside the triangle would not be subject to these restrictions, even if located within the same property.

Due to ex parte rules, participants may not speak directly with Councilor Lewis at this point in the process. The text will be finalized in October, 2022. The final product will be submitted to the Environmental Planning Commission (EPC) in November, 2022. The EPC will hear proposed changes to the Integrated Development Ordinance (IDO). In December, 2022, the EPC will hear proposed IDO changes. After December the process is more unpredictable depending on the number of EPC hearings. The EPC recommendations will then go to the City Council. Only the City Council can make a final decision on proposed IDO changes Participants may attend

the EPC hearing and contact all City Councilors at that stage in the process. This matter will likely be sent to the City Council in the Spring of 2023.

Outcomes:

1. **Areas of concern:**

   a. Neighbors expressed concern regarding their inability to speak directly with Councilor Lewis at this point in the process.
   b. Neighbors oppose the proposed VPO-2 Amendments.
   c. Neighbors expressed concern that the Petroglyph National Monument Director Nancy Hendricks was not notified at this point in the process.

2. **Conclusions.**

   a. CABQ neighborhood association facilitated meetings were held on October 17 and 19, 2022.
   b. The Facilitated Meeting Reports summarize the content of each meeting.
   c. CABQ Agent Shanna Schultz will communicate neighborhood comments, questions and concerns to Councilor Lewis.
   d. Neighbors oppose the proposed VPO-2 Amendments.
   e. CABQ intends to follow through with its proposed "Next Steps."

Meeting Specifics (*Participant Questions and Comments are Italicized*)**:**

1. **Participant Questions and Comments.**

   a. *C/Q: You were using an example from a developed part of the overlay district, I think it's fair to say that most of us here are concerned about the portions that are undeveloped. Perhaps I wasn't reading the map that you put up correctly, but the escarpment part of the overlay district is on the mesa, correct? That's what we're talking about, I believe.*

   It's more along the lines of a comment because there are a number of us here who have been fighting the repeated efforts to increase the height of buildings up here on the mesa. Every time we think we have succeeded, something else happens. The bottom line on this proposal from Councilor Lewis, it will be easier to build higher buildings up here on the mesa. It's going to undercut the value of the overlay zone that we have. It's going to destroy some of the views up here. It is directly contrary to those of his constituents who live in this area and have been pushing back for the last several years. This whole area is newly developed, as we have repeatedly argued in different settings. We all bought houses and built houses up here where there was one set of rules in place and there was one set of zoning in place. Then as soon as we did, they started making these changes to increase the zoning intensity, to increase the height of buildings up here near the intersection of Kimmick and Paseo. I am extraordinarily irate about this. I understand that state law will not allow us to contact Councilor Lewis directly during this process. If this goes through, he's certainly going to hear about it afterwards. I'm extraordinarily upset about this because it's just one more example. Every time we turn around, somebody is pushing to build higher buildings up here and destroy the views from our neighborhoods.

   There are a number of us here who have been fighting the repeated efforts to increase the height of buildings on the mesa. Every time we think we have succeeded, something else happens. And

the bottom line on this proposal from Councilor Lewis is it's going to make it easier to build higher buildings up here on the mesa. It's going to undercut the value of the overlay zone that we have. It's going to destroy some of the views up here. It is directly contrary to those of his constituents who live in this area and have been pushing back for the last several years. This whole area is a newly developed area, as we have repeatedly argued in different settings. We all bought houses and built houses up here where there was one set of rules in place and there was one set of zoning in place. As soon as we did, they started making these changes to increase the zoning intensity, to increase the height of buildings up here near the intersection of Kimmick and Paseo and I for one am extraordinarily irate about this.

A: Jocelyn is taking notes on today's session and will be providing a report that Councilor Lewis will be able to review. He will be seeing some of these comments. As this request makes its way through the review and approval process and gets to the City Council, you will have an opportunity to speak directly to Councilor Lewis and to all nine City Councilors who will ultimately make a decision on this. At the start of the process, you can't have that direct interaction, but it is baked in a little later. I just wanted to make sure that folks knew that.

b. *C/Q: I would certainly reiterate everything that was said previously. I, too, am irate at this suggestion. My first question is what constituent of Dan Lewis asked for this amendment? I don't believe Counselor Lewis came up with it on his own. Since he's putting forth this suggestion, I would say that whoever requested this change, that he has now put forth, was in essentially an ex parte communication with that individual. He has to recuse himself on any vote in this quasi-judicial weighing of this proposed change. He should have no ability to weigh in when the Council does actually decide this issue. I'd like you to look into whatever communications were had with Councilor Lewis from whatever constituent, put this forth, and make that available to everyone who's participating in these meetings. See* Action Item 2a.

Councilor Lewis obviously had discussions with someone who requested that this change be submitted, and yet he sits on the council, which will function in a quasi-judicial role to decide whether the change actually gets submitted. None of us are allowed to communicate with Councilor Lewis on this issue, but yet he's already spoken. Unless he came up with this on his own for no apparent reason other than he just thought this was unfair to some developer and he decided to put it forward. That seems unlikely he can't play a role in it.

Facilitator: You're not saying that a constituent should be excluded. You're saying that Councilor Lewis should recuse himself?

C: Correct. And he should make available to all of us the name of whoever requested that this change be made. My guess, I can't prove it, is that it's Steve Metro, because he's been behind so many of the proposed developments that want to build three story and potentially larger developments in this area with the view protection overlay zone, that also are contrary to the Albuquerque Comprehensive Plan.

A: I think I can answer some of those questions. Thanks for that, Mike. This request came directly to Planning Staff, who then worked with Councilor Lewis. I'll tell you who the request came from. They knew well enough about the ex parte communication rule that they did not go to Counselor Lewis directly. So as far as communications that I personally am aware of, the ex parte rules have been followed, to my knowledge, because the requester chose to work through Planning Staff. The request came from Consensus Planning on behalf of clients that they represent. I don't know who those clients were because I was only working with the Planning

Firm. That answers, hopefully, the two questions about who it came from and if there was direct contact with Counselor Lewis.

Q: How is it that Counselor Lewis is putting forth the request as opposed to just coming as a request from Consensus Planning or their clients?

A: That's also a good question. Thanks for asking it. Part of my role at the City Council is to assist Councilors with this type of legislation. When a request from a constituent, any constituent, comes in, I make the Counselor aware of it. I help them understand what the request is and the implications of that request. Then they either direct me to proceed with that request, or if they don't support it from a policy perspective, they direct me to interact with the requester to say that they're not interested. So the process that this has gone through is pretty normal in terms of how we amend small maps areas from a Council perspective.

Q: So Councilor Lewis did support this?

A: He supported the request as it was described to him. Yes.

Q: My challenge back to you would be to ask Councilor Lewis if he has had any discussions whatsoever on this subject within the past year with Consensus Planning, with Steve Metro, with any of the other clients of Consensus Planning that might have been behind this, because I absolutely cannot imagine that he did not. And along those lines, if any of that happened, he needs to recuse himself from weighing in on this. So that's a request to you to get back to us to have him put down on the record whether or not he had any communications whatsoever with any of those entities separately.

Facilitator: It comes to mind that Councilor Lewis, or anybody else, could have spoken to these people at some point during the past year. Are you going to narrow down your question to ask if Councilor Lewis spoke to Consensus Planning regarding the proposed amendment during the past year? Then we can get a specific answer on that.

C: Spoke to about the restrictions on building heights, the view protection overlay, or ways to get around it, whether it was specifically this request or the substance that led to the creation of this request for an amendment. I don't want to narrow that request down to if they were able to skirt the regulations by speaking in euphemisms about how to get this forward as a proposed change where he wouldn't violate the ex parte communications rule?

Facilitator: I understand your point, but if we're going to make an action item, I think we need to know what the action needs to be. Shanna, I'm going to ask you to address this.

A: I think I'm understanding what Mike is asking for, which is a request to Counselor Lewis's office about any ex parte communication that has occurred regarding height restrictions or building restrictions within the view protection overlay zone. Does that sound right?

C: Or anything in the Escarpment or West Mesa area on the same subject. Because whether or not it was specific to the view protection overlay zone or whether it was with the character protection overlays, all of those have been under assault by clients of Consensus Planning. And so whatever the origin of that discussion was, that then clued Consensus Planning into how to present this to council services in a way where they didn't have to mention that they were talking

to Dan Lewis about it. I want to know what communications occurred from the entities that were involved in this and what the nature of that was.

Facilitator: That is pretty broad Mike. I'm going to ask Shanna to type in Chat what she understands the question to be. Then we'll make that the action item. If it's too broad, the problem is that it cannot be met. Let's try to do it that way. Did you have something else?

C: Yeah. That was just my question, my general overall comment that I've been having more and more lately with many other property owners up here, including owners that have large numbers of tracts who have all supported the view protection overlay zones. They look at any attempt to undermine that as a potential unlawful taking, an uncompensated taking from those property owners that would be grounds for a lawsuit against the city. When you look at the Special Assessment District, which collected over $27 million from property owners, with the understanding that these protections on the views were going to be enforced by the city, and we keep seeing them undermine that. The City is essentially putting itself in jeopardy for a multi-million dollar lawsuit because it continues to ignore the protections that were guaranteed to those landowners when they purchased property. When they paid these assessments. Because there is special consideration that went on over approximately $50,000 per lot in the Petroglyph Estates neighborhood were paid by property owners who agreed with the restrictions on the kinds of buildings that could go up the heights. The development requirements. It was a very restrictive process, but it was agreed to, and those funds exchanged hands.

There was consideration between the city and the property owners. So it's essentially a violation of that contract that was undertaken when all of this development went forward. And now to see that undermined by this constant erosion of the view protection overlay zone, as well as the other development that we've been fighting, it's really getting people to the point where they are seriously considering legal action. So I think that needs to be on the record.

Facilitator. I think we got the point, and we're halfway through the meeting and we've only gotten to a couple of questions, so I think we got the point on that. Okay, thank you. Mike, any response on that, Shannon?

A: It wouldn't be appropriate for me to comment on potential litigation. But Jocelyn, just make sure your report notes that and we'll make sure that the appropriate folks see that concern.

Facilitator. On Mike's first question, Shanna did indicate an action item in Chat. That is what's going to be reflected in the report. She narrowed it down so that we can at least have an action item. I'm asking for a two week turnaround time on the response so that everybody will know that..

c. *C:Q: I want to add my strong opposition to the notion that substantive zoning changes, including VPO elements, are subject to review in the IDO process annually so that people don't feel like they have any commitment to the zoning laws in place when they purchased property. Secondly, the gist of my comment is to support Sharon and Mike in that people, through the annual IDO process, there is the possibility that there will be substantive changes in zoning law which were in existence when people first purchased their properties.*

d. *Q: Is it possible to show this group the true extent of the properties affected by this change if it is enacted? I appreciate that Paseo and Kimmick is a particularly sensitive area. In my review of the entire IDO interactive map with the overlay, there are as many as a dozen properties that*

may fall to some degree in a category where they are affected by this change. And I think as much as I share the concern about the area of Kimmick and Paseo, I think it's not quite reflective of just how impactful this is going to be. If that is the only area people focus on, it's actually much larger than that.

A: Jocelyn, I think that could be an action item for your report. I'm hearing a request for a map to show properties that would be affected by this change if it were to be made as proposed.

Facilitator. That sounds great. The turnaround time on that one, Shanna?

A: I'll try for two weeks. Mapping requests are a little harder at the City. I'll do my best to get it in two weeks.

e. *C: Mark Jackson. I live in La Cuentista II and I'm the HOA president at the moment. First, I want to thank you, Shanna, for having a meeting and pulling up some maps. As we talked about it, I was looking at that corridor at the Paseo and Kimmick overlay. That is exactly the overlay of the project to expand Paseo. I went to an open house last week and there's a public meeting on that this week. It seems that we ought to worry about expanding Paseo before we worry about changing zoning of properties along Paseo. I agree with the previous comment that this is much larger than that. There's very specific land that you showed in that map that the City is actually in the process of acquiring as a right of way for expanding Paseo. It makes no sense from our perspective in this community to allow for different height buildings on the same lot. It serves no purpose specifically around that corridor that we talked about. I'm not familiar with some of the other areas that are west of Unser. That's more open space that I'm unfamiliar with.*

But specific to this area, it serves no purpose and we do not believe that it provides a benefit to the community. It only provides a benefit to a handful of developers that may or may not want to put higher buildings along Paseo or that corridor. So we do not support it for those reasons.

I would like to see, in two weeks, a list of the number and properties that are affected by this. I know the acquisition along Paseo will include over 30 property owners that will sell land to the City for this right of way. So it makes no sense to change the zoning at this time for that area. That's my comment.

Facilitator: Shanna, it sounds like Mark wants a list in addition to the map. What is your response?

A: It would be easy enough, I think, to pull a list of properties. I don't know that just a list of addresses will be as helpful as a visual map, but we can work on both, do both.

Facilitator: In two weeks?

A: Yeah.

f. *C: I believe it was two years ago. There was a comprehensive series of IDO amendments proposed by City Planning Staff. They affected property all over the place. There were 18 different amendments. One would have put some more height restrictions on the property at Kimmick and Paseo. Consensus Planning the one constant in all of the efforts to raise the height of the buildings around here, Consensus Planning argued against that on several grounds, one of which was there was already part of the property was already subject to this particular*

overlay. And so it wasn't necessary to protect all of the view because we had this overlay. And that was the only amendment proposed by city staff that year that was rejected. Everything else was approved. We came up and argued against it, but they rejected that. As I said, Consensus Planning said, look, you've already got part of it covered by this overlay that now Consensus Planning is in here trying to get rid of. And Consensus Planning was the entity that came in and argued for the intensification of the zoning, like right after we had all moved in.

The one constant it does seem to be here is Consensus Planning. And that whoever it is representing is pushing really, really hard to basically ruin the views for all of the people who live up here and all the other people who are looking up. I mean, this is not just about our neighborhood. It's looking anywhere from the East Side looking up to the Escarpment right now. I mean, the views are precious here. This is really a beautiful area, and Consensus Planning seems to be determined to destroy that. And I'm really disappointed that Commissioner Councilman Lewis is facilitating that. That's all I had to say. Thank you.

A: Just a couple of clarifications. It was not Planning Staff that proposed that potential extension of the VPO. It was Councilor Borrego when she held the District Five office last year. That came directly from a policy maker not Planning Staff. I think that's a worthwhile clarification. I just want to be clear that there were several amendments that were not approved last year. The comment suggests that the VPO kind of went down in flames, but there were others.

C: Excuse me, I think I said two years ago. This was not a proposal from Council Member Borrego. It was a proposal. It was a big series of amendments to the IDO, and it did come from Planning Staff. I'm prepared to be corrected on that, but I have the records on that somewhere and I think Renee Horvath can probably speak to that.

C: Sharon's right.it was two years ago.

A: I'm sorry. It wasn't in this last year's IDO annual update. But I do stand by my other clarifications.

Facilitator: We should get that question resolved for the record. How would we go about doing that? Do you have the information, Sharon and Renee? How would you like to resolve that question?

C: Sharon is talking about the zone change. Consensus Planning was requesting a zone change two years ago. It went before City Council, and one of the arguments was that this area would be protected because there was an overlay zone. That if even if a portion of the overlay extends into the property, then they're protected. That we don't have to worry about building heights. That was expressed at that City Council meeting.

C: I'll go back and see if I can find notes on it. If so, I'll provide it in an email.

Facilitator: I'll make this an aspirational goal just in case you can't find your notes. Let me know either way. I'll make that an action item. Then, like I said, aspirational, because you may not be able to find your notes.

g. *C: Thanks to the neighbors for contacting us about this meeting. And I have a formal request that Federalist National Monument be included in any future correspondence concerning this proposed BPO change. I have made that request before, so I'm not quite sure why we weren't*

included as we would be affected by this proposed change. Shannon, I don't know why we aren't contacted for things like this. If you can look into that for me, I would appreciate it.

I also appreciate that the VPO was established to protect the values of Petroglyph National Monument and the view shed of the West Mesa. Any change to that VPO is going to impact the Monument, the resources in the Monument, the views to and from the Monument and the cultural integrity of the Monument. We would be opposed to this change. I agree with the statement and question that Jane made about getting a map to better understand the effects, what are the vacant lots that could be affected by this change in the VPO?

A: I've got a couple of things I can mention. The IDO procedure calls for a pre-application meeting to be conducted with the affected neighborhood associations. The IDO and the Neighborhood Association Recognition Ordinance are very explicit about the groups that we are required to notify prior to submitting the application. However, Nancy, there is language in the IDO about contacting your agency when the application is submitted. So the IDO kind of nuances out who we talk to while we're still thinking about ideas and who we contact when the idea has been formalized. You will be on the contact list for when the formal idea is submitted. You will be getting formal contact from the city in the next couple of weeks, once that application goes in. Your second question, I think, will be answered when I get that map pulled together about the affected properties.

C: I wish we could be on there. For this advanced notification. I'll just ask our neighbors to keep sending us information. I really appreciate it.

h. *C: I'm going to circle back a little bit to the discussion around the proposed changes to the Northwest Mesa Escarpment VPO-2. I was involved in those from the pre-application meetings all the way up to every last EPC and Council meeting. So I have pretty much memorized two things. One is my memory is that Councilor Borrego did sponsor it, so she did introduce it into the discussion. Other than that, there were no discussions. I do think that she supported it by introducing it. Secondly, I recall many times that our discussion in those meetings had to do with just how critical it was to protect the views of individual residents and to protect the sensitive nature of the entire Escarpment, whether it's within the boundaries or adjacent to it. This is sacred land to Native American people. If you don't believe me, go down to the visitor center and listen to the video where Native American elders talk about just how meaningful this land is in a deeply spiritual way to them. That's another reason why I react very strongly to the idea that we'll just move this a little and fudge this piece. It's actually a much larger issue than that.*

i. Q: This facilitated meeting report, will it go straight to Dan Lewis immediately?

A: Yes. As soon as I receive it, I'll be forwarding it to his office, to him and his policy analyst.

Q: If he sees it and he sees that the community is really unhappy about this amendment, would he be willing to remove it?

A: I can't speak to what he might do in the future. But he does have the option to not submit this change leading up to the application deadline.

C: As Cynthia Borrego was trying to expand the boundaries. Why don't we expand the VPO-2 boundaries since some of this already enters into properties. Which includes the entire property.

Why don't we just expand it to include the whole property instead of trying to minimize it? And also, why isn't the Planning Department standing up for our View Protections in Albuquerque, which is one of the greatest assets that we have? This is a natural feature of the West Side, just like the mountains are. We don't put all these tall buildings on the foothills of the mountains. Why are we doing it here on the mesa top? So that it can be viewed from everybody in town. It gives the impression that Albuquerque is being stupid and not recognizing the unique assets that we have. We should be showcasing our views, not getting rid of them. We need to protect them better.

Why is the Planning Department not standing up for our View Protection? Why are they willing to ask Councilor Lewis to sponsor this amendment?

A: I'd like to dive into a little more detail about the process. This proposal and this request is coming explicitly from Councilor Lewis's office. When it enters the review and approval process, it goes to the Environmental Planning Commission. The Planning Department Staff, who are distinct from Councilor Lewis's office, a completely separate branch of government, will review and consider the request against comprehensive plan policies, City policies, and will make a recommendation to the EPC on whether the request should be approved or not. So the Planning Department has not had an opportunity to weigh in on whether they support this request or not. That will be baked into the process once we get to that EPC hearing in December. Mike, is that along the lines of what you wanted to clarify, and do you have anything else?

A: This is Michael Vos, a Principal Planner in the Planning Department. That is exactly what I was going to clarify. This request has not been circulated through the Planning Department for any sort of review or recommendation at this point in time. If Councilor Lewis makes the submittal and it goes forward through the EPC and City Council process, our staff here will review that and make a recommendation at that time.

C: I want to comment on that. Every year we go through the IDO process. We review hundreds of amendments in the EPC from October through December. Then it goes to City Council in the spring, and then it finishes up in the summertime. The communities are spending all their time trying to review these IDO amendments to make sure that our protections are not eliminated. I do not understand why we have to spend so much time making sure our protections are not removed by this IDO process. I think we need a different process. We had community Planning meetings where we discussed these things before they were even proposed. I think we need a better IDO process instead of having to stand guard constantly to protect these protections.

A: I don't have a response to that.

C: The interactive map cuts right through the middle of Petroglyph Estates. So there could be, based on this proposed change, if it was enacted, there could be homes that were built that could be significantly taller than other homes across the street because it goes literally right down a couple of streets in the neighborhood. The comment I added about Kimchi is even more significant for the existing development in Petroglyphs states where homes are being built and individual property owners may or may not try to build taller houses than are currently allowed there if this isn't active. So, again, just to comment that it makes no sense, you need to move the boundary of the VPO, not change the requirements of the VPO. Thank you.

A: There's a point of clarification that I should have made during my presentation that wasn't clear, and I'm sorry for not making this point clear. The proposed change as it exists today would only affect properties that have mixed use zoning or nonresidential zoning. So any of the kind of established subdivisions that have some kind of residential zoning, typically that's r one, those would not be subject to this change. And that is my fault for not saying that upfront. That was a good catch, Mark. Thank you for bringing that up.

2. **Action Items** (Target response date is 11/2/22)

   a. **Agent will respond regarding participant's request to Counselor Lewis's office about any ex parte communication that has occurred regarding height restrictions or building restrictions within the view protection overlay zone [VPO-2].** (Participant's notation: "…to include anything in the Escarpment or West Mesa area on the same subject. Because whether or not it was specific to the view protection overlay zone or whether it was with the character protection overlays, all of those have been under assault by clients of Consensus Planning. And so whatever the origin of that discussion was, that then clued Consensus Planning into how to present this to Council Services in a way where they didn't have to mention that they were talking to Dan Lewis about it. I want to know what communications occurred from the entities that were involved in this.").

   b. **Agent will provide a map including the precise VPO-2 locations affected by the proposed amendments.**

   c. **Agent will provide a list of properties that are affected by the proposed VPO-2 amendments.**

   d. **If available, NA participants will provide notes on the VPO-2 CABQ zoning meeting that occurred approximately two years ago.**

3. **Next Steps:**[iii]

OCTOBER 2022 -	Proposed changes will be finalized based on feedback
NOVEMBER 2022 -	Submittal of changes to Environmental Planning Commission (EPC)
DECEMBER 2022 -	EPC begins review and recommendation to the City Council
SPRING 2023 -	City Council begins their review of the EPC recommendation

In Opposition

ICC Inter-Coalition Council

The ICC is a Council of Coalitions of Albuquerque and Bernalillo County Neighborhood Associations that has been meeting since May 2014 to reach consensus on broad, common concerns. Its purpose is to promote stronger, better neighborhoods and communities through group action and interfacing with the governmental, social, environmental, cultural and historic needs and interests of all residents.

Re: RZ-2022-00054 – Text Amendments to IDO – Citywide
RZ-2022-00059 – Text Amendments to IDO – Citywide (Housing Forward)
RZ-2022-00055 – Text Amendments to IDO – CPO 9 – North Fourth Street
RZ-2022-00056 – Text Amendments to IDO – VPO-2 – Northwest Mesa

Chairman MacEachen,

The Inter-Coalition Council (ICC) respectfully submits the following comments regarding the above-mentioned cases to be heard by the Environmental Planning Commission on December 8, 2022. This year's review is complicated by the addition of O-22-54, as it includes five major, substantive changes that do not appear on the City's online interactive spreadsheet—thus making it very difficult for community members to respond to those proposed changes.

• RZ-2022-00054 – Text Amendments to IDO – Citywide
The ICC has a dedicated committee of volunteers—we have desperately requested changes to the Annual Update Process, asking for specific source data, examples, beneficiary information, risk analysis, impact statements and summaries of public comment. Those requests not withstanding, this year we ask that you listen to the comments submitted online. For example, there are currently eleven comments pinned to the Walls & Fences amendment—none of them in favor of this change. This was soundly defeated last year; why are we being forced to review it again?

• RZ-2022-00059 – Text Amendments to IDO – Citywide (Housing Forward)
This ordinance presents 'transformative' changes intended to mitigate the City's housing crisis, as outlined at Housing Forward ABQ https://www.cabq.gov/family/housing-forward-abq-1. We have questions about the data and the unintended consequences of these dramatic proposals. The ICC opposes the adoption of these Amendments.

There are discrepancies in numbers from one place to another: the number of housing units needed (broadly identified at various amounts from 13,000 to over 33,0000); the number of unhoused households needing PSH (22,000 in one place, 2,200 in another). The referenced Needs Assessment (Appendix 1) presents a thorough and detailed history of disparity amongst different communities; however, much of the graphic data presented is based on a very small survey sample. The Affordable and Supportive Housing Strategies Plan (Appendix 2) seems to be a better path to creating more affordable housing—we all know that developers cannot (or will not) build affordable housing without subsidies.

Every presentation from Planning includes the slide entitled "What is Zoning"; it shows the Constitutional balance between the 5th Amendment: Property Rights and the 14th Amendment: Police Power for public health, safety, and welfare. Whether one has owned a home for a few years or a few generations, there is an expectation of value, of a quality of life, historical and cultural structure of the neighborhood, of a financial contract with the city regarding the zoning of their home. There may be a gentler, more gradual way to transition this change. There is a quote in the Needs Assessment from a community member: ***"You have to move at the speed of trust."***

The City needs to slow down and answer the following questions:

- How many casitas are there in the Small Areas where allowed?
- Where casitas are currently allowed in the city, what percentage are used for family dwellings and what percentage are used for long term rentals?
- What data does the city have on casitas used for long-term rentals regarding affordability?
- What percentage of casitas is used for vacation or short-term rental?
- In the city report "Housing Forward ABQ" the city states "We are working with property owners and community members to determine the most equitable and effective way to limit short-term rentals." Without a policy in place on short-term rentals, how can the city move forward with plans for changes in R-1? No policy, no enforcement in place. How would the city plan to force current short-term rentals into long term housing rentals?
- What study and analysis has the city done regarding infrastructure impacts created by increased density and its effect on utilities—water, electricity, gas, roads, transportation, traffic, trash and recycling.
- What study and analysis has the city done on the effects of changes in parking in R-1 areas? Narrow streets with additional on-street parking effects on first responders' access?
- Zoning ordinances are not currently being monitored, inspected and enforced adequately. Will the Planning Department Director and the Mayor certify that zoning is fully staffed to complete inspections, process complaints and issue compliance remedies in a timely way?
- What is the plan for review of current zoning violations and complaint backlog?
- With many zoning violations not being enforced, what review has/is being done of current casitas within the allowed areas for compliance with zoning and what is being done to correct violations?

RZ-2022-00055 – Text Amendments to IDO – CPO 9 – North Fourth Street
The ICC Committee has not yet reviewed this Small Area Amendment.

RZ-2022-00056 – Text Amendments to IDO – VPO-2 – Northwest Mesa
The ICC is in opposition to this Small Area Amendment.

We appreciate the efforts by the Planning Department—the presentations available online are helpful—but it takes time to go through the 84 pages of slides and watch hours of video. We will submit additional comments if time permits.

Sincerely,

Michael Brasher

Re: 2022 Annual Review of the IDO

The following comments reflect my recommendations to the Santa Fe Village Neighborhood Association (SFVNA) Board regarding selected proposed amendments to the Integrated Development Ordinance (IDO) put forth for consideration during the 2022 Annual Review. Currently, a majority of the SFVNA Board has indicated their support of these positions (6 of 7 Board members; one has not yet responded).

Prior to outlining our positions on specific proposals, I again note that the IDO Annual Review Process continues to be used by City Council and the City administration to make durable and substantial changes in zoning law in a manner that effectively circumvents the goals and policies of the ABC Comp Plan and significantly limits public engagement regarding consequential changes to neighborhood character and quality of life. The first purpose statement of the IDO calls for the IDO to "Implement the adopted Albuquerque/Bernalillo County Comprehensive Plan (ABC Comp Plan), as amended", 1-3(A). Instead, the IDO Annual Review process is used to alter fundamental goals and policies of the Comp Plan yearly and ignores the Comp Plan's stated intent to update it every five years through a process of Community Planning Assessments where Albuquerque residents had the opportunity to address their views and priorities.

Specific 2022 Amendment Proposals, SFVNA Position and Rationale

Northwest Mesa Escarpment View Protection Overlay VPO-2
SFVNA Position-*Oppose*
Rationale: The ABC Comp Plan calls for the protection of cultural landscapes. Policy 11.3.4 cites the Petroglyph National Monument as one example with the following Policy Statement, "Petroglyph National Monument: Regulate adjacent development to protect and preserve the

Petroglyph National Monument – its volcanoes, petroglyphs, and Northwest Mesa Escarpment – as a priceless cultural landscape and community resource that provides physical, cultural, and economic benefits."
Specifically, Policy 11.3.4 calls for the following:

- "Preserve and protect the Monument from growth and development pressures on the West Side"
- "Conserve and protect the Monument and surrounding lands through regulations associated with the Volcano Mesa and Northwest Mesa Escarpment Area" and
- "Protect views to and from the black Escarpment face, which gives physical order to the community and acts as a visual reference point."

The proposed change to the NW Mesa Escarpment VPO-2 conflicts with every one of these policy statements. It effectively guts the view protection overlay by limiting the applicability of the height restriction sub-area to a sliver of affected properties. Many of these properties are quite large and cover extensive acreage on the mesa. This change would block views across the entire mesa top, views to the east of the mountains and valley and views to the west of the volcanoes which represent a profoundly sacred landscape to Native people and are integral to understanding the cultural significance of the Petroglyph National Monument and the surrounding landscape. While affected properties at the base of the escarpment are largely developed, if approved, this amendment would permit redevelopment that would entirely block views of the escarpment from its base.

Council ordinance O-22-54-SECTION 1. AMEND THE INTEGRATED DEVELOPMENT ORDINANCE TO ALLOW TWO-FAMILY DWELLINGS PERMISSIVELY IN THE R-1 ZONE DISTRICT CITYWIDE.
SFVNA Position-*Oppose*
Rationale: The ABC Comp Plan again informs our SFVNA position. Santa Fe Village (SFV) is an entirely residential neighborhood of households zoned R-1A, R-1B and R-T. As such, it is in an Area of Consistency, defined by the the Comp Plan as an area "where significant growth is unlikely or *undesirable* and where any new development or redevelopment will need to be consistent with the established character of the surrounding context." (Italics mine). SFV contains more than 1000 households in an area bounded on the east by Unser Boulevard and otherwise surrounded by the Petroglyph National Monument. It is already a geographically small and densely built neighborhood. This amendment would potentially come close to doubling the number of residences, profoundly changing the character of SFV. As a permissive use, SFV residents and neighborhood association would have no option to engage in the development process, identify harms to SFV or negotiate for changes to mitigate any perceived harms. Clearly, this zoning change represents a highly undesirable change, entirely inconsistent with the established character of SFV.

Finally, SFV is unlikely to be the only low density residential neighborhood profoundly and deleteriously affected by this change. In addition to fundamental changes to neighborhood character, such a significant change makes no provision for consequent increased traffic flow, the need for parking and pedestrian safety on residential streets now carrying significantly increased traffic. If the City of Albuquerque is serious about strategies to provide additional housing units

within established neighborhoods, any proposal should be a conditional use and include stringent development standards which protect neighborhood character and assure adherence to all elements of IDO development standards identified in IDO 14-16-5.

Council Ordinance O-22-54-SECTION 2. AMEND THE INTEGRATED DEVELOPMENT ORDINANCE TO ALLOW DETACHED ACCESSORY DWELLING UNITS WITH KITCHENS PERMISSIVELY IN THE R-1 ZONE DISTRICT CITYWIDE, EXCEPT IN SMALL AREAS WHERE SPECIAL REGULATIONS APPLY.
SFVNA Position-*Oppose*
Rationale: All of the points cited above that inform our opposition to Section 1 of the proposed ordinance O-22-54 are central to our opposition to the changes that accompany the permissive inclusion of Accessory Dwelling Units (ADUs) with a kitchen in all R-1 zones with a very few notable exceptions in Section 2. These include protection of neighborhood character, assurance of public engagement and assurance of adherence to rigorous design standards.

In addition, the allowed size of ADUs in all R-1 zone districts of 750 ft (with a garage that is not included in the allotted size), reflects no acknowledgement of the size of the lot on which one is planned and its visual and spacial impact on adjacent property. This conflicts with current IDO requirements in Section 5-11(C)(4)(a) which limit ADUs to 25% of the side and rear yards combined.

Council Ordinance O-22-54-SECTION 4. AMEND THE INTEGRATED DEVELOPMENT ORDINANCE TO ELIMINATE BUILDING HEIGHT MAXIMUMS FOR MULTI-FAMILY RESIDENTIAL DEVELOPMENT AND MIXED-USE DEVELOPMENT.
SFVNA Position-*Oppose*
Rationale-Mixed-use zones are frequently in close proximity to low density residential neighborhoods. Removing height restrictions would profoundly alter the city scape and particularly disadvantage nearby residential areas.

Council Ordinance O-22-54-SECTION 5. AMEND THE INTEGRATED DEVELOPMENT ORDINANCE TO EXEMPT AFFORDABLE HOUSING FROM OFF-STREET PARKING REQUIREMENTS and SECTION 6. ADD A PARKING REDUCTION FOR MULTI-FAMILY DWELLINGS IN MIXED-USE ZONE DISTRICTS. This parking reduction would reduce required off-street parking for residential housing by 75% of currently required off-street parking.
SFVNA Position-*Oppose*
Rationale-The City provides no evidence that the impact of these reductions would be workable, sustainable or exempt low density, nearby residential areas from becoming the on-street parking default for residents unable to park near their housing. Instead, the City appears to rely on assumptions that those who need affordable housing do not own or need a personal vehicle, that housing developed under these amendments will only be located near accessible public transit, that ABQ public transit is adequate to assure one can reasonably travel to work and activities of daily living and developers and property owners will provide adequate parking for all property under these rules.

IDO Citywide Amendments, Item 26, IDO 5-7(D)(3)(a), **Walls and Fences-Front Yard Wall**
Permissively allows front yard walls of 5 ft with the top two feet of view fencing and a setback of at least 2 ft.
SFVNA Position-*Oppose*
Rationale: Santa Fe Village is a low density residential neighborhood with small to medium lots on curving streets which follow the natural contour of the land. The addition of view fencing on the upper 2 ft of a 5 ft foot wall still impede clear lines of sight, have a deleterious effect on the streetscape and sense of place and limit comfortable walking for 2 people at a time on 4 ft sidewalks. That will be the case with even a 2 ft setback. If individuals desire a taller wall for privacy, containment of children or pets or a perceived belief that this will increase personal safety, any taller wall should be set back a minimum of 5 ft.

Watching a hearing of the ZHE, it is certainly possible to feel sympathy for the administrative burden of hearing multiple permits for a taller wall or variances for a non-conforming wall. Clearly, many ABQ residents are trying to protect their property and homes from unwelcome incursions and are unaware of the IDO regulations or permitting requirements. That is not, however, a reason to enact durable changes in the IDO, particularly changes which have been consistently opposed by residents and neighborhood associations and for which there has been no public comment in support.

In summary, SFVNA opposition outlined here reflects our assessment that these proposals will have deleterious impacts on Santa Fe Village, its residents and homeowners, on the unique and sensitive lands along the escarpment and on the experience of the City, its neighborhoods and cultural landscapes, for ABQ residents and visitors. We respectfully ask the EPC to support the central purpose of the IDO, i.e. to implement the goals and policies of the ABC Comp Plan.

EPC Chair Timothy MacEachen

Re: RZ-2022-00054 – Text Amendments to IDO – Citywide
RZ-2022-00059 – Text Amendments to IDO – Citywide (Housing Forward)
RZ-2022-00055 – Text Amendments to IDO – CPO 9 – North Fourth Street
RZ-2022-00056 – Text Amendments to IDO – VPO-2 – Northwest Mesa

Chairman MacEachen,

Both the District 6 Coalition (D6) and the Victory Hills Neighborhood Association (VHNA) support comments submitted by both the Inter-Coalition Council (ICC) and the Parkland Hills Neighborhood Association (PHNA)—even though those documents are not in complete agreement!

• RZ-2022-00054 – Text Amendments to IDO – Citywide
The ICC requests that the Annual Update Process include specific source data, examples, beneficiary information, risk analysis, impact statements and summaries of public comment. Last year's update included a watered-down version of this request—which is much appreciated—however, the addition of a column labeled 'Source' and identifying 'Staff', 'Admin', 'Public', etc., is hardly enough. Even so, we ask that you LISTEN to the comments submitted online; for example, there are currently sixteen comments pinned to the Walls & Fences amendments—all are in OPPOSITION. This was soundly defeated last year; why must we review it again?

• RZ-2022-00059 – Text Amendments to IDO – Citywide (Housing Forward)
This ordinance presents 'transformative' changes intended to mitigate the City's housing crisis. The ICC posed questions about the data and the unintended consequences of these dramatic proposals and stands in OPPOSITION to the adoption of these Amendments. PHNA supports Sections 1 & 2 (changing R-1 to two-family and allowing ADU's permissively) with sensible ADDED CONDITIONS and OPPOSES others. D6 and VHNA agree that O-22-54 should not be included in the IDO update, but assuming this Ordinance will be pushed through, then include the protections outline by PHNA!

D6 and VHNA again suggest that the IDO Annual Update process is not the place to make major, substantive changes to the City's zoning code; once something has become Permissive instead of Conditional, it is nearly impossible to walk it back.

• RZ-2022-00055 – Text Amendments to IDO – CPO 9 – North Fourth Street
Upon review this seems like an appropriate change that D6 and VHNA support.

• RZ-2022-00056 – Text Amendments to IDO – VPO-2 – Northwest Mesa
This Small Area Amendment could lead to 4-story buildings in an area where height limitations are a major issue; therefore D6 and VHNA do not support this amendment.

The city website describes the update process as a three-step process; first EPC, then LUPZ, then full City Council. We believe there should be a cut-off deadline after step two and that further changes would go on the list for the following year rather than being introduced as last minute Floor Amendments at Council.

Respectfully submitted,

Dr. Peter M. Belletto, President, D-6 Coalition
Patricia Willson, President, Victory Hills Neighborhood Association

Via email: abctoz@cabq.gov
EPC Chair Timothy MacEachen

Re: RZ-2022-00054 – Text Amendments to IDO – Citywide
RZ-2022-00059 – Text Amendments to IDO – Citywide (Housing Forward)
RZ-2022-00055 – Text Amendments to IDO – CPO 9 – North Fourth Street
RZ-2022-00056 – Text Amendments to IDO – VPO-2 – Northwest Mesa

Chairman MacEachen,

As President of the Victory Hills Neighborhood Association (VHNA), Treasurer of the District 6 Coalition and Representative to the Inter-Coalition Council, I have helped draft several statements regarding the 2022 Annual Update to the Integrated Development Ordinance (IDO).

However, these comments are my own, as practicing professional Architect licensed in the state of New Mexico since 1987. Early in my career, I worked for several major firms in the city, including Hutchinson Brown and Partners, Fanning Bard Larson, Holmes Sabitini and Eeds and Dekker Perich Sabatini. I have operated as a Principal of Willson + Willson Architects since 1990.
https://willsonstudio.com

I am addressing the cases referenced above in reverse order:

• RZ-2022-00056 – Text Amendments to IDO – VPO-2 – Northwest Mesa
This Small Area Amendment could lead to 4-story buildings in an area where height limitations are a major issue; therefore I do not support this amendment. Though I cannot confirm, I understand that this change was proposed by a developer—another reason the source data for amendments is so critical.

• RZ-2022-00055 – Text Amendments to IDO – CPO 9 – North Fourth Street
This is a good example of what a text / textual amendment should be; fixing a simple mistake to recognize that buildings on 4th street could be facing a side street. It is not a substantive change and I would support this amendment.

• RZ-2022-00059 – Text Amendments to IDO – Citywide (Housing Forward)
I am 100% OPPOSED to including O-22-54 as a Text Amendment to the IDO. The Comprehensive Plan's map of Areas of Consistency shows the vast range of the city that would be effectively doubled (or tripled) in density were this to pass. Once something is made Permissive, it never goes back to Conditional. If passed, make it Conditional and hire more planning staff!

• RZ-2022-00054 – Text Amendments to IDO – Citywide
I ask—no, beg—that the Annual Update Process include specific source data, examples, beneficiary information, risk analysis, impact statements and summaries of public comment. Other letters (Parkland Hills NA, for example) have done a more thorough job addressing the spreadsheet of 49 items; I will defer to their comments.

I will address Items 26, 27 and 28, which address Walls & Fences. The Planning Director has repeatedly said a majority of variance requests are for higher walls in the front yard setback—what are the data pertaining to that? Exactly how many requests are we talking about? Last year's comments repeatedly referenced information about 'eyes on the street', higher walls increasing crime rather than deterring crime, etc., etc.. The EPC's Notice of Decision on 12/16/21 said,

Via email: abctoz@cabq.gov
EPC Chair Timothy MacEachen

"Maximum permissive wall height (Wall Permit-Minor) would continue to be 3 feet in residential, mixed use, and non-residential zones." Many community members were greatly relieved by this decision. Yet, at a luncheon presentation to architects the following summer, Director Varela noted that this proposed change would re-appear in the 2022 Annual Update.

The concept of "transparency" is another issue. The requested change proposes a 5' permissive wall: 3' of solid wall topped with 2' of "view fencing". The IDO definition of View Fencing is "A wall that is at most 25 percent opaque to perpendicular view unless specified otherwise in this IDO…" However, there is no definition of the thickness of this view portion—concrete masonry units laid on their side are about 50% open only when viewed straight on. With any move off of perpendicular, the "view" disappears. This also happens with vertical wrought iron bar: a drive through the South Los Altos Neighborhood makes this painfully clear.

The change for 'Options for a Taller Front or Side Yard Wall' changes the distance from "<10 ft." to "<2 ft." from the property line. Many people do not know where their property line is; they think it is at the back of the sidewalk. There is a Variance Request pending in my neighborhood where the homeowner did not give the designer a survey, the designer failed to do due diligence and showed the property line actually in front of the curb, and city plan review failed to catch that error and approved the plans…in my opinion, they all share the blame for this mistake.

In summary: I am opposed to Item 26 and 27. I would support Item 28 ONLY if the definition of View Fencing is clarified to include thickness and if an accurate survey with posted corners is required.

I have included 4 additional PDF pages showing examples. I appreciate the work of the EPC and LUPZ, and hope that in future Annual Updates there could be a deadline after the first two steps of the process. Changes at Council could become the start of the following year's list rather than last minute Floor Amendments.

Thank you.

Respectfully submitted,

Patricia D. Willson, AIA
Willson + Willson Architects, LLC

Final comments for Nov. 28th deadline for Staff Report:

Chair Timothy MacEachen, and fellow Commissioners,

The IDO annual update process is extremely time consuming to everyone involved. Each year there are too many amendments with not enough time to review, not enough explanation to understand all the amendments to address adequately, which can lead to unintended consequences for the community. I feel more research and analysis, explanation, public vetting, and public support is needed, before the substantive amendments go before the EPC for review and approval. The ICC has proposed suggestions to the City to help develop a better process so the public better understands the amendments being proposed. This includes better explanation of the intent of the amendment, the source of the amendment, what are the potential impact risks to community protections, who benefits from the proposal, who does it impact - A pros and cons approach.

The IDO annual amendment update has now just begun again, right after finishing up the last batch of IDO amendments, and right before the Holidays. I recommend starting at the beginning of the year, instead of the end of the year, and just before the Holidays.

This IDO update started with 35 citywide amendments, now it is up to 49 amendments. There are also 2 small area amendments, and the recent introduction of the 0-22-54 Housing Amendment, with not enough time to review or respond adequately. Here are my comments:

For 49 Citywide Amendments: a spreadsheet was offered for public comment. Most of those amendments were substantive and needed better explanation. Many residents have expressed to me that they did not understand most of the amendments and therefore did not comment. I too had a hard time interpreting many of them. I did my best to provide comments on some of them. There has been not been enough public vetting to gain community support before these amendment were submitted. Therefore, I suggest that if the substantive amendments are too difficult to understand or interpret or would have a negative impact on the community they should not be approved.

For the Small Area Amendments: In regards to the Northwest Mesa View Protection Overlay Zone VPO-2 there is absolutely no Community support for this amendment, as it would alter the IDO overlay language, weakening the view protection along the escarpment. Views are extremely important to the Community, below and above the escarpment and on the mesa top near the Petroglyphs. A facilitated meeting took place in October to discuss this amendment. As a result the public learned that Consensus Planning submitted the amendment which would benefit a client of theirs for a particular piece of property on top of the mesa which is now under dispute, and may constitute spot zoning. Note: The Park Service has also expressed that Native American's continue to have religious ceremonies on the mesa and that views are an important component of the religious experience. Therefore, this amendment should not be approved.

For the Housing 0-22-54 Amendment: Was recently submitted, with little to no time to review, therefore there is no Community support as these amendments promote significant changes citywide by increasing the density, removing building height restrictions, and promote parking reductions. These are huge changes that would have negative impacts to the quality of life in Albuquerque, and would be difficult to reverse if approved. Currently there is no support for this Amendment as proposed.

Once amendments are approved or entitlements are given, there usually is no turning back to fix a problem. This is why there needs to be better public engagement to improve the IDO process.

Thank you,
Rene' Horvath
Land Use Director for WSCONA and TRNA

From:	Mike Voorhees
To:	Jones, Megan D.
Subject:	Formal Comments regarding the VPO-2 text amendment to the IDO
Date:	Monday, November 28, 2022 4:56:14 PM

[EXTERNAL] Forward to phishing@cabq.gov and delete if an email causes any concern.

Megan,

Please find my formal comments regarding the VPO-2 text amendment to the IDO.

I oppose them entirely on the following bases:

The proposed change to VPO-2 is contrary to the policies of the Albuquerque/Bernalillo Comprehensive plan and should not be adopted.

Specifically:

POLICY 11.3.6
Volcano Mesa: Preserve open space, natural and cultural landscapes, and other features of the natural environment within Volcano Mesa. [A]

a) Respect Albuquerque's culture and history, including Hispanic and Native American, through ***context-sensitive development***.
b) ***Encourage development that is sensitive to the open, natural character of the area and geological and cultural conditions.***
c) ***Protect important views, vistas, and view corridors from within Volcano Mesa to the Rio Grande basin, across the city of Albuquerque, and to the Sandia Mountains.***

—Comp Plan 11-31

11.1.1 Introduction
This chapter addresses our rural and agricultural heritage, historic resources, archaeological and paleontological resources, and public art and cultural events and programming. Together, these elements contribute to the sense of place in Albuquerque and Bernalillo County, and goals and policies guide how these elements ***should*** be enhanced and preserved.

—Comp Plan 11-2

GOALS & POLICIES
"The Comp Plan is the main policy document used to guide discretionary decisions about changes to zoning and ***the adoption of new plans***...The advantage of policy language is the ability to aspire to outcomes that may not be achievable through individual regulations. ***Where "should" is used in this Comp Plan, it is not merely a suggestion but rather the appropriate language to indicate policy***."

—Comp Plan 1-7, ¶ 3

I was informed during the October 17, 2022 Land Use Facilitation Program Project Meeting regarding the Proposed City Council Amendment to VPO-2, that Councilor Dan Lewis was making this proposal at the behest of Consensus Planning and one or more of its clients, which has issues before quasi-judicial bodies with the City and thus there is a prohibition of ex parte communication between Councilor Lewis and Consensus Planning. Sponsorship of such an amendment to lessen the building height restrictions on portions of lots where restrictions are currently applicable—which is virtually unanimously opposed by the residents and homeowners of the potentially impacted neighborhoods—is itself prima facie evidence that such de facto communication must have occurred. As such, it is incumbent upon Councilor Lewis to recuse himself from participating in all quasi-judicial rulings for all cases involving the enforcement or reduction of view protections and height limitations for any and all development within Volcano Mesa, the escarpment, and nearby land. It is also appropriate for the City of Albuquerque Inspector General to open an investigation into such improper communication between Councilor Lewis and Consensus Planning and/or its clients.

Sincerely,
Michael T. Voorhees

This is to express support for Mayor Keller's update to the "Zoning code" (re: Housing supply and access). I believe Albuquerque has the potential to become one of the truly great cities in the world in which a broad range of people desire to live and visit. Our current zoning code, however, is restricting our evolution toward a more flexible and vibrant community. The proposed changes are consistent with basic organic growth concepts great cities of the world have maintained throughout history, changes which positively encourage the development of active transportation options, diversity, and interesting things to do.

In short, as a retiree, I want to live in a city where I can get around easily without a car, has a lot of things to do and interesting people to meet. To achieve this requires population density and transportation options. The proposed changes to the zoning code make the organic development of those much more likely.

Re: Proposed 2022 IDO Amendments – Northwest Mesa Escarpment – VPO-2

Dear Ms. Schultz:

The purpose of this letter is to transmit a request to City Council to amend the development regulations in the Northwest Mesa Escarpment – VPO-2 contained in the current Integrated Development Ordinance (IDO).

The Northwest Mesa Escarpment – VPO-2 was created based on the Northwest Mesa Escarpment Plan. The purpose of VPO-2 is to protect views looking to and from the Petroglyph National Monument. The Height Restrictions Sub-area limits building and/or structure height to a maximum of 15 feet as measured from the natural grade.

Our request is that the City Council amend Northwest Mesa Escarpment – VPO-2 to limit the applicability of the Height Restrictions Sub-area to the area actually encompassed by the overlay. For instance, the Height Restrictions Sub-area extending west along Paseo del Norte and west of Calle Nortena covers approximately 105 feet of the property to the south and 155 feet to the north of Paseo del Norte right of way. The current language states that if the VPO-2 boundary crosses a lot line, the entire lot is subject to these standards. My understanding behind this provision is that it is based upon the difficulty of Code Enforcement to measure the boundary of the overlay. However, this area of the Height Restrictions Sub-area is rectangular and easily measurable. The unintended consequence of this overly restrictive provision is that these parcels will not be developed with commercial land uses as the underlying zoning intends, or the developer will simply replat the property to isolate the restricted area. It would be reasonable to limit the reach of this restriction to the area it actually covers, particularly when the boundary is easy to measure.

Thank you for your consideration. Please do not hesitate to contact me with any questions you may have in regard to the proposed amendments to Northwest Mesa Escarpment – VPO-2.

Sincerely,
