### Staff Recommendation

**APPROVAL of Case SI-2020-00060, Project 2020-003505, a request for a Certificate of Appropriateness for new construction based on the Findings beginning on page 10 and subject to the Conditions of Approval on page 11.**

Leslie Najji, Senior Planner  
Staff Planner

---

### Summary of Analysis

The application is for a Certificate of Appropriateness for an addition to the property; that of three studio apartments to a previous addition to a 1910 adobe house. The earlier addition was approved by the Landmarks Commission. The applicant also proposes a 42” high adobe wall to provide a courtyard space. The form and architectural style of the new buildings are common to the HPO-5 Zone with pitched roofs and corrugated metal roofing material.

The proposal is for three 1-bedroom townhomes extending east from the rear addition of the original adobe house. Units range from approximately 440 square feet to 560 square feet. The architecture is similar to the New Mexico vernacular of the original house on the site, with sash windows, stucco walls and corrugated metal roof. The roof is of the same pitch as the original house. The three townhouses along with the original house create a U-shaped compound with central courtyard.

This request for a Certificate of Appropriateness for new construction has been reviewed against the Old Town Historic Zone Development Guidelines and the criteria for approval of a Certificate of Appropriateness-Major contained in the Integrated Development Ordinance. The applicant’s proposal complies with the development guidelines and is eligible for a Certificate of Appropriateness.

II. INTRODUCTION

Proposal

The request is for a Certificate of Appropriateness for new construction of three one-bedroom apartments in the side yard of a 1910 adobe house. The original house was granted a Certificate of Appropriateness by the Landmarks Commission in 2017 which included restoration of the original portion of the house and reconstruction of a rear addition. In this proposal, the applicant shows three ne-bedroom townhouses connecting to the rear addition of the original house and creating a U-shaped compound with front adobe wall enclosing the front yard.

The proposed units consist of stucco walls, aluminum clad single hung windows with painted wood trim and a corrugated metal roof with side gabled end, pitch to match original structure. The
proposed units also incorporate stucco dormers which define them as separate from the original building.

**Context**

The Historic Old Town Zone encompasses an area roughly between Mountain Road and Central Ave. on the north and south, and Rio Grande Blvd. and the 19th St. on the west and east. The historic zone was created with the adoption of the City’s first zoning Code in 1959 to preserve and promote the educational, cultural and general welfare of the public through the preservation of protection of the traditional architectural character of historic old Albuquerque.

The Spanish Colonial, Territorial or Western Victorian architectural styles of buildings and structures erected prior to 1912 in the area now constituted as the State of New Mexico, comprise the traditional architectural character of the H-1 Zone.

Inside this historic zone is the state registered “Old Albuquerque Historic District”. The Old Albuquerque Historic District is a sub-set of the Old Town Historic Zone. The historic district is the core of the Hispano village of Albuquerque, founded in 1706, and the main village in the area until the arrival of the railroad in 1880. The church and plaza are at the center of the district, as in most Hispanic villages of New Mexico.

Of the buildings in the district, only San Felipe de Neri church can be shown to date to the Spanish Colonial period. A few buildings may be in whole or in part from the early nineteenth century, but the majority of the buildings in Old Albuquerque Historic District were built between 1870 and 1900.

Almost every building has seen some degree of remodeling, resulting from the area’s growth as a tourist-oriented commercial center after 1940. Old Albuquerque became “Old Town”, a district of shops, boutiques, galleries and restaurants. Many buildings acquired Pueblo Revival portals, protruding false vigas and other stylistic elements thought to be conducive to a tourist atmosphere.

**History**

The 1913 Sanborn map first shows the property, labeled as adobe/earth roof. It remains as such until the 1931 Sanborn which shows a covered porch which, by 1942 was shown as an enclosed
addition, that which is to be renovated. The only other changes to the property include the addition of a bathroom, dating to the 1970’s.

In 2017 the Landmarks Commission reviewed and approved a request for a renovation of the original house and the reconstruction of the later rear addition to include a new bathroom, entrance and second floor loft.

Little has changed with the property which has a large side yard enclosed with a chain-link fence. It is the intention of the property owner, with this application, to build three small studio apartments in the side yards and enclose the front yard with a 42’ stucco wall.

**APPLICABLE PLANS, ORDINANCES, DESIGN GUIDELINES & POLICIES**

**III. ANALYSIS**

Policies are written in regular text and staff analysis and comment in bold italic print.

*Albuquerque-Bernalillo County Comprehensive Plan of 2017*

This site is an Historic Asset in terms used in the Comprehensive Plan. The plan sets out goals and policies concerning land use, environmental protection and heritage conservation. Chapter 11, Section 2, Historic Assets (pp. 11-25 – 11-26) states:

“Preserve and enhance significant historic districts and buildings to reflect our past as we move into the future and to strengthen our sense of identity.”

**POLICY 11.2.1 Gentrification:** Balance the objectives of historic preservation and conservation of affordable housing. [ABC]

a) Work to maintain a range of housing options and affordability levels to ameliorate the displacement of low-income households.

b) Encourage renovation and rehabilitation to preserve and enhance the existing housing stock.

*There is a limited housing stock within Old Town. The house on this property is currently vacant. The addition of three new small townhouses and the renovation of the original house will provide four new houses units which will not result in displacement but may provide housing accessible to a variety of incomes.*

**Policy 11.2.3 Distinct Built Environments:** Preserve and enhance the social, cultural, and historical features that contribute to the identities of distinct communities, neighborhoods, and districts.
The project directly addresses the ABC Comprehensive Plan by redeveloping a historic neighborhood while emphasizing the existing architecture. Creating new residential property will assist in creating community beyond tourists in the Old Town district.

Integrated Development Ordinance (IDO)

In May 2018, the Integrated Development Ordinance (IDO) replaced the City’s Zoning Code and the property was changed from H-1 zoning to MX-T.

The property is located within the Old Town Historic Protection Overlay Zone. The Integrated Development Ordinance Part 14-16-3-5 establishes controls and procedures for Historic Protection Overlay Zones (HPO). Part 14-16-3-5 (J) identifies standards and guidelines for HPO 5 Old Town.

3-5(J)(2) Building Height

Building height, maximum: 26 feet, unless the Landmarks Commission (LC) requires a lower height to protect the historic character of the area.

The proposed townhouses have a building height (measured to the center of the roof pitch) of 14 feet, well within the Old Town HPO height restriction.

3-5(J)(3)(a) Parking and Loading, Minimum
None.

No parking is required and none is provided.

6-6(D)(3) Review and Decision Criteria

An application for a Historic Certificate of Appropriateness – Major shall be approved if it complies with all of the following criteria:

6-6(D)(3)(a) The change is consistent with Section 14-16-3-5 (Historic Protection Overlay Zones), the ordinance designating the specific HPO zone where the property is located, and any specific development guidelines for the landmark or the specific HPO zone where the property is located.

The proposed townhouses are of simple, traditional architectural style, with a pitched, gabled roof to complement the principal dwelling.

6-6(D)(3)(b) The architectural character, historical value, or archaeological value of the structure or site itself or of any HPO zone in which it is located will not be significantly impaired or diminished.
The proposal will cause no harm to the significance of the existing house and the distinctive qualities of the Historic District will be undiminished. Although the new construction will connect to the new addition of the historic building, it is visually distinguishable through the change of roof. The roof is higher than the original house as the townhouses have a second floor.

6-6(D)(3)(c) The change qualifies as a "certified rehabilitation" pursuant to the Tax Reform Act of 1976, if applicable.

Not applicable

6-6(D)(3)(d) The structure or site's distinguished original qualities or character will not be altered. For the purposes of Section 14-16-3-5 (Historic Protection Overlay Zones) and this Subsection 14-16-6-6(D), "original" shall mean as it was at the time of initial construction or as it has developed over the course of the history of the structure.

The proposal will cause no harm to the original, distinguishing qualities of the contributing building. Should this new construction ever be removed in the future, the historic building would be unaffected.

6-6(D)(3)(e) Deteriorated architectural features shall be repaired rather than replaced, if possible. If replacement is necessary, the new material shall match the original as closely as possible in material and design.

Not applicable.

6-6(D)(3)(f) Additions to existing structures and new construction may be of contemporary design if such design is compatible with its landmark status (if any) or the HPO zone.

The architectural language of the new structure references historic characteristics of the neighboring contributing buildings and the historic building on-site.

Old Town Historic Preservation Overlay Zone Development Guidelines
Design Guidelines (as amended April, 1998) have been adopted by the Landmarks and Urban Conservation Commission for building projects in the Old Town Historic Preservation Overlay Zone. The guidelines include direction on such issues as building height, massing, proportion and scale, use of materials in new and existing buildings, relationship between buildings, landscaping, roadways, sidewalks, and the overall neighborhood character. Design Standards and Guidelines (amended 2018) also apply to new and replacement signage.

An analysis of the proposal’s conformance with the adopted relevant development guidelines is provided below.

1. Every reasonable effort should be made to provide a compatible use for buildings which will require minimum alteration to the building and its environment.

   Following the restoration one of the few early buildings in Old Town to original standards, the applicant is proposing new construction on the lot with similar architectural style and detailing. The original site use was residential and it will continue to be so.

2. Rehabilitation work should not destroy the distinguishing qualities or character of the property and its environment. The removal or alteration of any historic material or architectural features should be held to the minimum, consistent with the proposed use.

   The proposed construction will place small units on open, unused portions of the site. Their construction will provide housing where there is currently a view of the adjacent school's parking lot.

3. Deteriorated architectural features should be repaired rather than replaced, wherever possible. In the event replacement is necessary, the new material should match the material being replaced in composition, design, color, texture, and other visual qualities. Repair or replacement of missing architectural features should be based on accurate duplications of original features, substantiated by physical or pictorial evidence rather than conjectural designs of different architectural features from other buildings.

   The new construction will reflect the historic detailing of the original house.

4. Distinctive stylistic features or examples of skilled craftsmanship which characterize older structure and often predate the mass production of building materials should be treated with sensitivity.

   Not Applicable

5. Many changes to buildings and environments which have taken place in the course of time are evidence of the history of the building and the neighborhood. These changes may have developed significance in their own right, and this significance should be recognized and respected.

   Not Applicable

6. All buildings should be recognized as products of their own time. Alterations to create an appearance inconsistent with the actual character of the building should be discouraged.
This property makes no pretense of being anything other than a simple adobe house. The proposed townhouses have a similar simplicity.

7. The design and general appearance of any development or alteration in the Old Town Historic Zone should be limited to the range of design options possible and commonly chosen in Albuquerque prior to the opening of the Santa Fe Railroad in April 1880. The design of any alteration to currently existing structures erected between 1880 and 1912 should be limited to the range of design options possible and commonly chosen at the time of the building’s construction.

The new construction of the project is compatible with Old Town architectural styles for residential architecture of the early 1900’s.

8. Contemporary design for new buildings and additions to existing buildings or landscaping in the 300 foot transition zone surrounding the Old Town Historic Zone should not be discouraged if such design is compatible with the size, scale, color, material, and character of the neighborhood, buildings, or its environment.

Not Applicable

9. Wherever possible, new additions or alterations to buildings should be done in such a manner that if they were to be removed in the future, the essential form and integrity of the original building would be unimpaired.

The proposed new construction is not meant to be an addition of the original house. Although the new townhouses will have a shared wall with the reconstructed rear addition of the original house, they are essentially separate. Should the townhouses be removed, the original house would continue to stand on its own, with integrity.

10. Every effort should be made to safeguard the public welfare along vehicular and pedestrian traffic ways. Placement of walls, building projections, fences, planters, shrubs, signs, ramps, steps, etc. should be planned and positioned so that they do not present a potential hazard. Provisions for the handicapped should be planned so that the essential character of the property is not damaged.

The proposed courtyard wall is shown in two different locations. As a projecting wall, there is not sufficient sidewalk clearance and vehicular viewpoints might be obstructed. Placement of the wall flush with the front face of the existing house as was determined in the previous LC hearing, will better address the need of public safety.

11. Any security device that prevents major features of doors and windows such as ornament, panels, glass panes, and Mullions from being seen are prohibited.

Not Applicable

12. Property owners are considering installing security devices are urged to contact LUCC staff for advice and a free handout on how to increase security without detracting from the historic character of a building.

Not Applicable
13. An application for a Certificate of Appropriateness for work which does not require any type of building or construction permit may be approved by staff.

*The new buildings are designed in vernacular styles, with a pitched roof of galvanized metal. The building will have stucco finish exterior and windows with 1/1 lights and wood exterior trim. The design and scale of the new buildings are similar to the majority of buildings in the Old Town Historic Protection Overlay Zone, HPO-5.*

*The drawings submitted for this project are illustrative; heights of major features are not given. The front adobe wall, as previously mentioned, is indicated to be extended towards the street. This would encroach upon the narrow sidewalk area. Subsequent drawings for building permit should be provided for staff review and official LC records.*

*It is worth mentioning that at the time of construction, it will be expected that the front sidewalk be cleared and brought up to code.*

**V. Neighborhood/Public Concerns**

The application was legally advertised in the newspaper. A sign was posted on the property with notice of the application and hearing date. The applicant notified the Historic Old Town Property Owners Association of the request as well as property owners within 100 feet minus right of way. Two comments from neighbors have been received regarding this application, both in support of the project. (See Attachment A)

**Conclusions**

This request for a Certificate of Appropriateness for new construction has been reviewed against the *Old Town Historic Zone Development Guidelines* and the criteria for approval of a Certificate of Appropriateness contained in the *Integrated Development Ordinance (IDO)*. The new construction complies with both.
FINDINGS for APPROVAL of a request for a Certificate of Appropriateness for new construction - Case SI-2020-00060 / Project # 2020-003505 (May 10, 2020)

1. This application is a request for a Certificate of Appropriateness for the property described as Lot 153 of the Old Albuquerque Town site, MRGCD Map 38, in the Old Town Historic Protection Overlay (HPO-5) Zone.

2. The subject property is approximately 0.07 acres and contains an existing building. It is listed as a contributing building in the state registered Old Albuquerque Historic District.

3. The proposal is for three 1-bedroom townhomes extending east from the rear addition of the original adobe house. Units range in size from approximately 440 square feet to 560 square feet.

4. Section 14-16-3-5(D) of the Integrated Development Ordinance states that within the boundaries of an HPO zone, the exterior appearance of any structure shall not be altered, new structures shall not be constructed, and existing structures shall not be demolished until a Certificate of Appropriateness has been duly approved.

5. Section 14-16-6-6(D) of the Integrated Development Ordinance specifies that an application for a Certificate of Appropriateness shall be approved if it complies with several specified criteria. The IDO Section 14-16-6-6(D)(3)(a) states that a Certificate of Appropriateness shall be approved if “The change is consistent with the designation ordinance and specific development guidelines for the landmark or the specific HPO zone where the property is located”.

6. This application is consistent with the specific design guidelines of the Old Town HPO. Materials and details are similar to those of the original house on the site.

7. Subject to conditions of approval, the proposed project is consistent with designation ordinance R-46-1991. The proposed work complies with a number of the relevant development guidelines for the historic zone as described in the staff report.

8. The IDO Section 14-16-6-6(D)(3)(b) states that a Certificate of Appropriateness shall be approved if “The architectural character, historical value, or archaeological value of the
structure or site itself or of any historic zone or urban conservation overlay zone in which it is located will not be significantly impaired or diminished”.

9. The IDO Section 14-16-6-6(D)(3)(d) states that a Certificate of Appropriateness shall be approved if “The structure or site’s distinguished original qualities or character will not be altered. Original shall mean at the time of initial construction or developed over the course of history of the structure.”

10. The architectural style of the new buildings are common to the historic zone and compatible with the surroundings. Traditional exterior details and materials are used throughout. The overall character of the historic area will not be diminished.

RECOMMENDATION - Case No. SI-2020-00060/ Project # 2020-003505

APPROVAL of an application for a Certificate of Appropriateness for new construction located at the 2004 Old Town Road, described as Lot 153 of the Old Albuquerque Town site, zoned MX-T based on the above 10 Findings and subject to the following conditions.

Conditions of Approval Recommended for SI-2020-00060/ Project # 2020-003505

1. Applicant is responsible to acquire, and approval is contingent upon, approval of all applicable permits and related approvals, including but not limited to the additional front wall height requested.

2. Applicant shall provide LC staff with floor plans and elevations as drawn for building permit.

3. Final selection of windows are subject to LC staff review and approval.

4. Front adobe courtyard wall shall be setback to align with front face of the existing house.

*PLEASE NOTE: Approval of signs in the overlay zones may also require a sign permit from Zoning in addition to LC approval.

☐ HISTORIC CERTIFICATE OF APPROPRIATENESS -- MINOR Administrative Decision
   - All materials indicated on the project drawing checklist and required by the Historic Preservation Planner
   - Letter detalling the scope of the proposal and justifying the request per the criteria in IDO Section 14-18-8-5(D)(3)
   - Letter detailing the scope of the proposal and justifying the request per the criteria in IDO Section 14-18-8-6(K)(6)
   - Office of Neighborhood Coordination notice inquiry response and proof of mailed notice to affected Neighborhood Association representatives
   - Sign Posting Agreement

☐ INFORMATION REQUIRED FOR ALL LANDMARKS COMMISSION PUBLIC HEARING APPLICATIONS
   - Interpreter Needed for Hearing? N □ If yes, indicate language:
   - Proof of Pre-Application Meeting with City staff per IDO Section 14-18-8-4(B)
   - Zone Atlas map with the entire site clearly outlined and labeled
   - Letter of authorization from the property owner if application is submitted by an agent
   - Required notice with content per IDO Section 14-18-8-4(K)(6)
   - Office of Neighborhood Coordination notice inquiry response, notifying letter and proof of first class mailing
   - Proof of mailed notice to affected Neighborhood Association representatives
   - Buffer map and list of property owners within 100 feet (excluding public rights-of-way), notifying letter, and proof of first class mailing
   - Sign Posting Agreement

☐ DEMOLITION OUTSIDE OF HPO Requires Public Hearing
   - Proof of Neighborhood Meeting per IDO Section 14-18-8-4(C)
   - Letter detailing, explaining, and justifying the request per the criteria in IDO Section 14-18-8-6(B)(3)

☐ HISTORIC CERTIFICATE OF APPROPRIATENESS -- MAJOR Requires Public Hearing
   - All materials indicated on the project drawing checklist (9 packets for residential projects or 9 for non-residential or mixed-use)
   - Letter detailing the scope of the proposal and justifying the request per the criteria in IDO Section 14-18-8-6(D)(3)

☐ HISTORIC DESIGN STANDARDS AND GUIDELINES Requires Public Hearing
   - Proof of Neighborhood Meeting per IDO Section 14-18-8-4(C)
   - Proposed Design Standards and Guidelines
   - Letter detailing, explaining, and justifying the request per the criteria in IDO Section 14-18-8-6(E)(3)

☐ ADOPTION OR AMENDMENT OF HISTORIC DESIGNATION Requires Public Hearing
   - Proof of Neighborhood Meeting per IDO Section 14-18-8-4(C)
   - Letter detailing, explaining, and justifying the request per the criteria in IDO Section 14-18-8-7(C)(3)

I, the applicant or agent, acknowledge that if any required information is not submitted with this application, the application will not be scheduled for a public meeting or hearing, if required, or otherwise processed until it is complete.

APPLICATION MATERIALS
March 21, 2020

Greetings,

This letter is to notify you of my intention to add on to my structure on 2004 Old Town road. I was approved by the LUCC to renovate the existing structure and lot in 2017, and would now like to get the approval to construct on the remaining part of the property. It is my intention to add three residential structures of about 750sf each which would be consistent with the Historic Protection Overlay Zone and will be in harmony with other historical structural values that have existed in the old town area for generations. The original structure will remain, and will not be impacted by the addition. Its historical condition will be thoughtfully, and carefully preserved.

The proposed construction will be compatible with its historical style and will follow all guidelines outlined by the HPO Zone and will promote an authentic, New Mexico territorial look, with a central courtyard to allow for native landscape and paving. The exterior finish will be stucco to match the original structures material finish, and will contain a corrugated metal roof similar to the historical structure as well as other roofs in the Old Town area. Windows will be double hung clad to closely match the style of the area. It is my intention to develop a site that will blend in with its environment, and showcase the uniqueness of our Old Town Neighborhood. There is no demolition proposed with this application for the addition requested. Demolition was approved during the Initial LUCC hearing in 2017.

The hearing for this matter was scheduled on weds. April 08, 2020 at 3pm. @ 600 2nd st. NW., however with the concerns surrounding the covid-19 virus, the date has been cancelled and will be rescheduled to a later date determined by the City of Albuquerque.

I look forward to contributing to the beauty and uniqueness of our Old Town Plaza.

Please feel free to reach out if you have any questions,

Sincerely,

Kenneth M. Sandoval

SIGN POSTING AGREEMENT

REQUIREMENTS

POSTING SIGNS ANNOUNCING PUBLIC HEARINGS

All persons making application to the City under the requirements and procedures established by the City Zoning Code or Subdivision Ordinance are responsible for the posting and maintaining of one or more signs on the property which the application describes. Vacations of public rights-of-way (if the way has been in use) also require signs. Waterproof signs are provided at the time of application. If the application is mailed, you must still stop at the Development Services Front Counter to pick up the sign.

The applicant is responsible for ensuring that the signs remain posted throughout the 15-day period prior to public hearing. Failure to maintain the signs during this entire period may be cause for deferral or denial of the application. Replacement signs for those lost or damaged are available from the Development Services Front Counter at a charge of $3.75 each.

1. LOCATION
   A. The sign shall be conspicuously located. It shall be located within twenty feet of the public sidewalk (or edge of public street). Staff may indicate a specific location.
   B. The face of the sign shall be parallel to the street, and the bottom of the sign shall be at least two feet from the ground.
   C. No barrier shall prevent a person from coming within five feet of the sign to read it.

2. NUMBER
   A. One sign shall be posted on each paved street frontage. Signs may be required on unpaved street frontages.
   B. If the land does not abut a public street, then, in addition to a sign placed on the property, a sign shall be placed on and at the edge of the public right-of-way of the nearest paved City street. Such a sign must direct readers toward the subject property by an arrow and an indication of distance.

3. PHYSICAL POSTING
   A. A heavy stake with two crossbars or a full plywood backing works best to keep the sign in place, especially during high winds.
   B. Large headed nails or staples are best for attaching signs to a post or backing; the sign tears out less easily.

4. TIME
   Signs must be posted from March 24, 2020 to April 8, 2020

5. REMOVAL
   A. The sign is not to be removed before the initial hearing on the request.
   B. The sign should be removed within five (5) days after the initial hearing.

I have read this sheet and discussed it with the Development Services Front Counter Staff. I understand (A) my obligation to keep the sign(s) posted for (15) days and (B) where the sign(s) are to be located. I am being given a copy of this sheet.

(Applicant or Agent)   (Date)

I issued / signs for this application. (Date) (Staff Member)

PROJECT NUMBER: ________________________________

Rev. 1/11/05
NOTIFICATIONS
March 11, 2020

Greetings,

This letter is to notify you of my intention to add on to my structure on 2004 Old Town road. I was approved by the LUCC to renovate the existing structure and lot in 2017, and would now like to get the approval to construct on the remaining part of the property. It is my intention to add three residential structures of about 750sf each which would be consistent with the Historic Protection Overlay Zone and will be in harmony with other historical structural values that have existed in the old town area for generations. The original structure will remain, and will not be impacted by the addition. Its historical condition will be thoughtfully, and carefully preserved. The proposed construction will be compatible with its historical style and will follow all guidelines outlined by the HPO Zone and will promote an authentic, New Mexico territorial look, with a central courtyard to allow for native landscape and paving. The exterior finish will be stucco to match the original structures material finish, and will contain a corrugated metal roof similar to the historical structure as well as other roofs in the Old Town area. Windows will be double hung clad to closely match the style of the area. It is my intention to develop a site that will blend in with its environment, and showcase the uniqueness of our Old Town Neighborhood. There is no demolition proposed with this application for the addition requested. Demolition was approved during the initial LUCC hearing in 2017.

The hearing for this matter will be held on weds. April 08, 2020 at 3pm. @ 600 2nd st. NW.
I look forward to contributing to the beauty and uniqueness of our Old Town Plaza.
Please feel free to reach out if you have any questions,
Sincerely,

Kenneth M. Sandoval
