Landmarks Commission

Staff Report

Agent: Mike Petersen, Southfork Property Management
Applicant: Locust New Mexico, Inc.
Request: Certificate of Appropriateness for Demolition
Legal Description: Lot 1A1, Block 4, Terrace Addition
Address/Location: 425 Locust St SE
Size: 0.8043 Acres
Zoning: MX-L
Historic Location: Huning Highland Historic Preservation Overlay Zone

Staff Recommendation

APPROVAL of Case # SI-2019-00415, Project # PR-2019-003167, a request for a Certificate of Appropriateness for Demolition of a Non-Contributing building, based on the Findings beginning on page 6 and subject to the conditions on page 7.

Leslie Naji
Historic Preservation Planner

Summary of Analysis

The application for a Certificate of Appropriateness is for demolition of a Non-Contributing gas station located on the edge of the Huning Highland Historic Protection Overlay Zone. The reason this application is coming before the Landmarks Commission is that there are no immediate redevelopment plans for the lot. The property owner wishes to clear the entire site and resell for others to develop.

The architecture of the gas station is a generic 20th Century gas station without architectural style or detailing. The question is whether or not approval should be granted without an approved replacement development plan.

This request was reviewed against the relevant guidelines for the Huning Highland Historic Overlay Zone and the criteria for approval of a Certificate of Appropriateness for demolition.

II INTRODUCTION

Proposal and History

The application for a Certificate of Appropriateness is for demolition of a 2000sq. ft. single story, flat roofed gas station and awning located at 425 L9ocust St SE, in the Huning Highland HPOZ. The structure is in poor condition and of no architectural or historic interest. It is located at the eastern edge of Huning Highland along the I-25 service road and makes no contribution to the distinctive qualities of the Historic District.

The property contains one of four service stations that were constructed along the small stretch of Locust St that serves I-25 southbound. Two have already been demolished while one still remains directly to the south of the site. Neither of the remaining service stations continue to serve as such.

The intention of the property owner is to clear the site, including abatement of the gasoline reservoirs on site, then to sell the property, which has been consolidated with lots 11 and 12, for future development.
Context

Upon the arrival of the Railroad in the Rio Grande Valley in 1880, tracks were laid two miles east of the small Villa de Albuquerque, and a "new town" was established. Rather than the traditional adobe structures of the villa, the brick wood and stone buildings of "new town" reflected the architecture, platting, tastes and lifestyles of the Midwesterners who came along with the railroad. Huning Highland is named for Franz Huning, a German immigrant who made New Mexico his home in the mid-1860s. By 1880 he was a prominent citizen with land holdings east of the town.

Lands that Huning owned east of the railroad were platted and sold as building lots beginning the Huning Highlands Subdivision. The new subdivision east of the railroad tracks became the early home for Albuquerque's many prominent business and professional citizens.

The architectural environment of Huning Highlands, including its streetscape and landscaping, is significant not only for its nineteenth and early twentieth-Century styles of building, but also for the variety and scale of its architecture. It is not a neighborhood of large mansions, but one of a variety of substantial homes and modest cottages. Styles range from the early Victorian to the more modest period revival cottage styles of the early part of this twentieth-century. During the 1920's the California bungalow gained prominence in popularity and examples of this style can also be found in the district.

Many of the houses are of wood frame with horizontal siding and corner trim boards. Other houses are constructed of brick; windows are graced with segmental arches, comers decorated with vertical dentils, adding the soft red color of brick to the streetscape. Cast stone also adds its own color and large textured scale to the variety of materials. Various roof pitches and styles, dormers, leaded windows, broad front porches with Doric columns, tall brick chimneys with a various capping patterns, stucco with Spanish tiles, and an array of decorative frieze boards, gable wall patterns and brick bracketry - most of which came to the area over the railroad from eastern mail order houses - add up to a neighborhood that is a cultural and historical resource of great value to any city and worth conserving. The Huning Highland Historic District was accepted to the National Register of Historic Places in 1978 and the Historic Overlay Zone was created by the City Council in 1980. The historic district continued to grow and develop through the first half of the twentieth-century.

The district contains numerous commercial buildings, concentrated primarily on Broadway and Central Ave, but also found on the east-west arterials of Lead, Coal and Martin Luther King. These commercial buildings include one and two-part commercial block buildings, commercial compounds, service stations, motels, drive-in restaurants and a bank of Modernist design. Institutions such as the St. George Greek Orthodox Church and Immanuel Lutheran Church and School and a former fire station, all contribute to the eclectic mix of buildings in the district. New multi-family buildings on Central Ave, near Old Albuquerque High School and on Silver and High Streets have been added circa 2000. There are additional industrial types of commercial buildings near the southeastern corner of the historic district. Lead Ave. is a two-lane, one-way street that was upgraded as part of an extensive City project completed in the past few years to beautify both Lead and Coal with landscaping and improve conditions for all modes of transportation.
Policies are written in regular text and staff analysis and comment in italic print.

**Integrated Development Ordinance (IDO)**

In May 2018, the Integrated Development Ordinance (IDO) replaced the City’s Zoning Code and the property was zoned R-1C.

The property is located within the Huning Highland Historic Preservation Overlay Zone. The Integrated Development Ordinance Part 14-16-3-5 establishes controls and procedures for Historic Protection Overlay Zones (HPO). Part 14-16-3-5 (I) identifies standards and guidelines for HPO 4: Huning Highland.

**6-6(D)(3) Review and Decision Criteria**

An application for a Historic Certificate of Appropriateness – Major shall be approved if it complies with all of the following criteria:

6-6(D)(3)(a) The change is consistent with Section 14-16-3-5 (Historic Protection Overlay Zones), the ordinance designating the specific HPO zone where the property is located, and any specific development guidelines for the landmark or the specific HPO zone where the property is located.

Those Guidelines state:

- Demolition of non-contributing primary buildings is permitted without a Certificate of Appropriateness if plans for a replacement building have been approved by the LUCC and a building permit has been issued for the new construction.

- Demolition of non-contributing buildings without approved plans for a replacement building shall only be permitted if the LUCC determines, based on evidence from the property owner, that the property is incapable of producing a reasonable economic return as presently controlled and that no mean of preserving the structure has been found.

*The property is a non-contributing building to the HPO. Review by the LC is required because it is the main structure on the site (rather than an accessory building) and there are not immediate plans for redevelopment.*

According to the applicant, the gas station can no longer be used due to the fact that the underground gasoline storage tanks (USTs) were leaking and had to be removed. Without gasoline storage there is no further use for the facility.

*In addition, the vacant building is attracting displaced individuals and creating a safety and health concern.*
6-6(D)(3)(b) The architectural character, historical value, or archaeological value of the structure or site itself or of any HPO zone in which it is located will not be significantly impaired or diminished.

The existing structure has no architectural contribution to the HPO. A new development might better suit the neighborhood.

6-6(D)(3)(c) The change qualifies as a "certified rehabilitation" pursuant to the Tax Reform Act of 1976, if applicable.

Not applicable

6-6(D)(3)(d) The structure or site’s distinguished original qualities or character will not be altered. For the purposes of Section 14-16-3-5 (Historic Protection Overlay Zones) and this Subsection 14-

Not Applicable

16-6-6(D), “original” shall mean as it was at the time of initial construction or as it has developed over the course of the history of the structure.

Not Applicable

6-6(D)(3)(e) Deteriorated architectural features shall be repaired rather than replaced, if possible. If replacement is necessary, the new material shall match the original as closely as possible in material and design.

Not Applicable

6-6(D)(3)(f) Additions to existing structures and new construction may be of contemporary design if such design is compatible with its landmark status (if any) or the HPO zone.

Not Applicable

Resolution – 132-1980 Designating the Huning Highland Historic Overlay Zone

This resolution designated and mapped the Huning Highland Historic Overlay Zone. The District was established and adopted by the Council on June 2, 1980 and development guidelines were adopted with the resolution.

The proposal is consistent with the designation ordinance.

IV NEIGHBORHOOD CONCERNS/COMMENTS

As of the writing of this report, there have been no comments concerning this request.

1. This application is a request for a Certificate of Appropriateness for Demolition of a Non-Contributing building, located at 425 Locust St. SE, described as Lot 1-A-1, Block 4, Hunings Highland Addition, a property in the Huning Highland Historic Protection Overlay Zone, zoned MX-L.

2. The subject site is approximately 0.8043 acres.

3. The application for a Certificate of Appropriateness is for demolition of a 2000 sq. ft. single story, flat roofed building, accessory awning and gas pumps, located in the Huning Highland HPOZ. The secondary structure is in poor condition and of no architectural or historic interest. It makes no contribution to the distinctive qualities of the Historic District.

Removal of the structure will make way for future development of the site.

4. Section 14-16-3-5(D) of the Integrated Development Ordinance states that within the boundaries of an HPO zone, the exterior appearance of any structure shall not be altered, new structures shall not be constructed, and existing structures shall not be demolished until a Certificate of Appropriateness has been duly approved.

5. Section 14-16-6-6(D) of the Integrated Development Ordinance specifies that an application for a Certificate of Appropriateness shall be approved if it complies with several specified criteria. The IDO Section 14-16-6-6(D)(3)(a) states that a Certificate of Appropriateness shall be approved if “The change is consistent with the designation ordinance and specific development guidelines for the landmark or the specific HPO zone where the property is located”.

6. The project is consistent with the designation ordinance R-46-1991. The proposed work does not conflict with the development guidelines for the historic zone that states: Demolition of non-contributing buildings without approved plans for a replacement building shall only be permitted if the LUCC determines, based on evidence from the property owner, that the property is incapable of producing a reasonable economic return as presently controlled and that no mean of preserving the structure has been found.

The property as is, is no longer capable of producing reasonable economic return.

7. The IDO Section 14-16-6-6(D)(3)(b) states that a Certificate of Appropriateness shall be approved if “The architectural character, historical value, or archaeological value of the structure or site itself or of any historic zone or urban conservation overlay zone in which it is located will not be significantly impaired or diminished”.

8. The architectural character, historical value of the Huning Highland Historic Protection Overlay Zone will not be impaired or diminished due to the proposed works.
9. The clearing of the site without immediate redevelopment will not diminish the historic character of Huning Highland as the property is on the eastern edge of the HPO.

RECOMMENDATION

Case SI-2019-00415 / Project # PR-2019-003167, January 8, 2020

APPROVAL of Case SI-2019-00415 / Project # PR-2019-003167, an application for a Certificate of Appropriateness for Demolition of the building, located at 425 Locust St SE, described as Lot 1-A-1 Block 4, Hunings Highland Addition, a property in the Huning Highland Historic Protection Overlay Zone, based on the above nine (9) findings and subject to the following conditions.

Recommended Conditions of Approval

1. Applicant is responsible to acquire, and approval is contingent upon, all applicable permits and related approvals.

Attention: Matt Meyers
Land Mark Commission

Mr. Meyers
We are Applying for the required permits to demolish the building that is located at 425 Locust Street. The property was a gas station that can no longer be used due to the fact that the UST were leaking and had to be removed. The building has numerous deficiencies that make is economically un feasable to be operated in the state it is in. This building is located on the outskirts of the historical overlay zone and has no historical value to the community.
Right now, it is empty and has become a health concern for the community do to the fact the homeless are setting up camps between it and the neighboring wall to the West of it and have continuously broken into it and vandalized the property. Our intent is to raze the building and other equipment to create one lot of property that will be more desirable to a future owner/builder and remove the opportunity for the homeless to gather and create unsanitary conditions in the neighborhood.

Respectfully,

Mike Petersen

WRITTEN CONSENT OF THE MEMBERS
OF
LOCUST NEW MEXICO PROPERTY, LLC

December 10, 2019

The undersigned, being the sole Owner and Member (the “Owner”) of Locust New Mexico Property, LLC, an Idaho limited liability company (the “Company”), does hereby consent and agree to the adoption of the following resolutions, such resolutions to have the same force and effect as a majority vote at a meeting regularly noticed and held.

RECATERS

A. The Owner owns the real property and improvements located at 425 Locust Street SE, Albuquerque, NM and has determined it is in the best interest of the Company to demolish the buildings on the property.

B. The Owner desires to authorize Mike Petersen (of South Fork Property Management, LLC, “SFPM”) to take all steps necessary to demolish the building located at 425 Locust Street SE, Albuquerque, NM.

RESOLUTIONS

1. The Owner authorizes Mike Petersen (of SFPM) to take all steps necessary to demolish the building located at 425 Locust Street SE, Albuquerque, NM.

2. This Consent may be executed in counterparts, each of which shall be deemed an original and all of which together shall constitute one document. Delivery of an executed copy of this Consent by telecopy or other means of electronic communication producing a printed copy will be deemed to be an execution and delivery of this Consent. This Consent may be executed by digital or electronic means through the use of commercially available electronic software and which results in confirmed signatures.

[Signature Page Follows]
IN WITNESS WHEREOF, the undersigned, being the sole Owner and Member of the Company, has executed this Consent as of the date first above written.
