On the 21st day of July, 2020, Tom Huffman, agent for property owner City Baptist Church of Albuquerque ("Applicant") appeared before the Zoning Hearing Examiner ("ZHE") requesting a variance of 3 ft to the 3 ft maximum wall height ("Application") upon the real property located at 432 Avenida Cesar Chavez SE ("Subject Property"). Below are the ZHE’s findings of fact and decision:

**FINDINGS:**

1. Applicant is requesting a variance of 3 ft to the 3 ft maximum wall height.
2. The City of Albuquerque Integrated Development Ordinance Section 14-16-6-6(N)(3)(c) Variance for a Taller Front or Side Yard Wall reads: “A variance application for a taller front or side yard wall shall be approved by the Zoning Hearing Examiner, if and only if, the Zoning Hearing Examiner finds all of the following:
   (1) The proposed wall would strengthen or reinforce the architectural character of the surrounding area;
   (2) The proposed wall would not be injurious to adjacent properties, the surrounding neighborhood, or the larger community;
   (3) The wall is proposed on a lot that meets any of the following criteria:
      a. The lot is at least ½ acre;
      b. The lot fronts a street designated as a collector or above in the LRTS guide;
      c. At least 20 percent of the properties within 330 feet of the lot where the wall or fence is being requested have a wall or fence over 3 feet in the front yard.
   (4) The design of the wall complies with any applicable standard in Section 14-16-5-7 (Walls and Fences), including, but not limited to Subsection 14-16-5-7(E)(2) (Articulation and alignment) and Subsection 14-16-5-7(E)(3) (Wall Design), and all of the following:
      a. The wall or fence shall not block the view of any portion of any window on the front façade of the primary building when viewed from 5 feet above ground level at the centerline of the street in front of the house.
      b. The design and materials proposed for the wall or fence shall reflect the architectural character of the surrounding area.
3. The Applicant bears the burden of ensuring there is evidence in the record supporting a finding that the above criteria are met under Section 14-16-6-4(N)(1).

4. Applicant appeared and gave evidence in support of the application.

5. All property owners within 100 feet of the subject property and the affected neighborhood association were notified.

6. The subject property is currently zoned MX-L.

7. Based on evidence submitted by or on behalf of Applicant, there are special circumstances applicable to the Subject Property that are not self-imposed and that do not apply generally to other property in the same zone and vicinity such as size, shape, topography, location, surroundings, or physical characteristics created by natural forces or government action for which no compensation was paid, as required by Section 14-16-6-6(N)(3)(a)(1). Specifically, the surroundings and location characteristics of the site are unique and merit the increased security that a higher wall would provide. No evidence to the contrary was presented.

8. Based on evidence submitted by or on behalf of Applicant, the variance will not be contrary to the public safety, health and welfare of the community as required by Section 14-16-6-6(N)(3)(a)(2). Specifically, evidence was submitted supporting that, if granted approval, the Applicant intends to use the property in a manner that is consistent with the IDO and the Development Process Manual (DPM). No evidence to the contrary was presented.

9. Based on evidence submitted by or on behalf of Applicant, the variance will not cause significant adverse material impacts on surrounding properties or infrastructure improvements in the vicinity as required by Section 14-16-6-6(N)(3)(a)(3). Specifically, the proposed wall is designed to be in harmony and consistency with what currently exists in the neighborhood. No evidence to the contrary was presented.

10. Based on evidence submitted by or on behalf of Applicant, the variance will not materially undermine the intent and purpose of the IDO or applicable zone district as required by Section 14-16-6-6(N)(3)(a)(4). Specifically, Applicant presented evidence that the intent of IDO will still be met in that the subject site will continue the existing use and the proposed wall would merely add to the safety and security of the site. No evidence to the contrary was presented.

11. Based on evidence submitted by or on behalf of Applicant, the variance approved is the minimum necessary to avoid extraordinary hardship or practical difficulties as required by Section 14-16-6-6(N)(3)(a)(5). Specifically, Agent testified that any lower construction of the wall would be ineffective. Thus, the applicants are not requesting more than what is minimally necessary for a variance. No evidence to the contrary was presented.

12. City Transportation submitted a report stating no objection.

13. The proper “Notice of Hearing” signage was posted for the required time period as required by Section 14-16-6-4(K)(3).

14. The Applicant has authority to pursue this Application

DECISION:

APPROVAL of a variance of 3 feet to the 3 feet maximum wall height.
APPEAL:

If you wish to appeal this decision, you must do so by August 20, 2020 pursuant to Section 14-16-6-4(U), of the Integrated Development Ordinance, you must demonstrate that you have legal standing to file an appeal as defined.

Successful applicants are reminded that other regulations of the City must be complied with, even after approval of a special exception is secured. This decision does not constitute approval of plans for a building permit. If your application is approved, bring this decision with you when you apply for any related building permit or occupation tax number. Approval of a conditional use or a variance application is void after one year from date of approval if the rights and privileges are granted, thereby have not been executed, or utilized.
