

CITY OF ALBUQUERQUE
OFFICE OF ADMINISTRATIVE HEARINGS
ZONING HEARING EXAMINER
NOTIFICATION OF DECISION

Richard Asenap and Teresa Brito-Asenap request a permit wall major for a taller court yard wall for Lot 15, Block B, Westpark Addn, located at 2025 Alhambra Ave SW, zoned R-1C [Section 14-16-5-7(D)(3)(g)]

Special Exception No:..... **VA-2022-00031**
Project No: **Project#2022-006554**
Hearing Date: 03-15-22
Closing of Public Record: 03-15-22
Date of Decision: 03-30-22

On the 15th day of March, 2022, property owners Richard Asenap and Teresa Brito-Asenap (“Applicant”) appeared before the Zoning Hearing Examiner (“ZHE”) requesting a permit wall major for a taller courtyard wall (“Application”) upon the real property located at 2025 Alhambra Ave SW (“Subject Property”). Below are the ZHE’s finding of fact and decision:

FINDINGS:

1. Applicant is requesting a Permit-Wall or Fence-Major for a taller courtyard wall.
2. The ZHE finds that the proper “Notice of Hearing” signage was posted for the required time period as required by Section 14-16-6-4(K)(3).
3. The ZHE finds that the Applicant has authority to pursue this Application
4. The City of Albuquerque Integrated Development Ordinance Section 14-16-6-6(H)(3) Permit-Wall or Fence-Major reads: *“An application for a Permit – Wall or Fence – Major for a wall in the front or street side yard of a lot with low-density residential development in or abutting any Residential zone district that meets the requirements in Subsection 14-16-5-7(D)(3)(g) (Exceptions to Maximum Wall Height) and Table 5-7-2 shall be approved if the following criteria are met:*
 - 6-6(H)(3)(a) *The wall is proposed on a lot that meets any of the following criteria:*
 1. *The lot is at least ½ acre.*
 2. *The lot fronts a street designated as a collector, arterial, or interstate highway.*
 3. *For a front yard wall taller than allowed in Table 5-7-1, at least 20 percent of the properties with low-density residential development with a front yard abutting the same street as the subject property and within 330 feet of the subject property along the length of the street the lot faces have a front yard wall or fence over 3 feet. This distance shall be measured along the street from each corner of the subject property's lot line, and the analysis shall include properties on both sides of the street.*
 4. *For a street side yard wall taller than allowed in Table 5-7-1, at least 20 percent of the properties with low-density residential development with a side yard abutting the same street as the subject property and within 330 feet of the subject property along*

the length of the street the lot faces have a street side yard wall or fence over 3 feet. This distance shall be measured along the street from each corner of the subject property's lot line, and the analysis shall include properties on both sides of the street.

- 6-6(H)(3)(b) *The proposed wall would strengthen or reinforce the architectural character of the surrounding area.*
- 6-6(H)(3)(c) *The proposed wall would not be injurious to adjacent properties, the surrounding neighborhood, or the larger community.*
- 6-6(H)(3)(d) *The design of the wall complies with any applicable standards in Section 14-16-5-7 (Walls and Fences), including but not limited to Subsection 14-16-5-7(E)(2) (Articulation and Alignment), Subsection 14-16-5-7(E)(3) (Wall Design), and all of the following:*
1. *The wall or fence shall not block the view of any portion of any window on the front façade of the primary building when viewed from 5 feet above ground level at the centerline of the street in front of the house.*
 2. *The design and materials proposed for the wall or fence shall reflect the architectural character of the surrounding area.*
5. The applicant bears the burden of providing a sound justification for the requested decision, based on substantial evidence, pursuant to IDO Section 14-16-6-4(E)(3).
 6. The applicant bears the burden of showing compliance with required standards through analysis, illustrations, or other exhibits as necessary, pursuant to IDO Section 14-16-6-4(E)(4).
 7. All property owners within 100 feet and affected neighborhood associations were notified of the application.
 8. The subject property is currently zoned R-1C.
 9. City Transportation issued a report stating no objection.
 10. Based on photographs, maps and oral evidence presented by Applicant, at least 20 percent of the properties within 330 feet of the lot where the wall or fence is being requested have a wall or fence over 3 feet in the front yard area.
 11. Based on evidence presented by Applicant, the proposed wall would strengthen or reinforce the architectural character of the surrounding area. Specifically, photographs were submitted showing several walls/fences in the neighborhood. It appears from the evidence that the proposed wall would not be out of character with the surrounding area, but rather would reinforce the architectural character of the neighborhood by being in harmony with the other improvements on the Subject Property.
 12. Based on evidence presented by Applicant, the proposed wall would not be injurious to adjacent properties, the surrounding neighborhood, or the larger community. Specifically, that the wall would enhance the safety of both the subject property and neighboring properties by discouraging trespassers from coming into the community and property.
 13. Based on evidence presented by Applicant, the design of the wall complies with any applicable standard in Section 14-16-5-7 (Walls and Fences), including, but not limited to Subsection 14-16-5-7(E)(2) (Articulation and alignment) and Subsection 14-16-5-7(E)(3) (Wall Design), and all of the following: (a) The wall or fence shall not block the view of any portion of any window on the front façade of the primary building when viewed from 5 feet above ground level at the centerline of the street in front of the house; and (b) The

design and materials proposed for the wall or fence shall reflect the architectural character of the surrounding area.

14. The proposed wall is located approximately 7-feet from the front yard lot line, which requires a variance of 3-feet to IDO section 5-7(D)(2)(g), which requires that courtyard walls be located no less than 10-feet from the lot line abutting the street (see Table 5-7-2).
15. The ZHE finds that the notices provided in connection with the Application are sufficient to put the public and all concerned parties on notice of the proposed wall, such that the ZHE may consider the Application to also encompass a variance request in addition to a request for a Permit-Wall or Fence-Major.
16. The City of Albuquerque Integrated Development Ordinance, Section 14-16-6-6(O)(3)(a) (Variance-Review and Decision Criteria) reads: “... *an application for a Variance-ZHE shall be approved if it meets all of the following criteria:*
 - (1) *There are special circumstances applicable to the subject property that are not self-imposed and that do not apply generally to other property in the same zone and vicinity such as size, shape, topography, location, surroundings, or physical characteristics created by natural forces or government action for which no compensation was paid. Such special circumstances of the property either create an extraordinary hardship in the form of a substantial and unjustified limitation on the reasonable use or return on the property, or practical difficulties result from strict compliance with the minimum standards.*
 - (2) *The Variance will not be materially contrary to the public safety, health, or welfare.*
 - (3) *The Variance does not cause significant material adverse impacts on surrounding properties or infrastructure improvements in the vicinity.*
 - (4) *The Variance will not materially undermine the intent and purpose of the IDO or the applicable zone district.*
 - (5) *The Variance approved is the minimum necessary to avoid extraordinary hardship or practical difficulties.”*
17. Based on evidence submitted by or on behalf of Applicant, it appears that there are special circumstances applicable to the Subject Property that are not self-imposed and that do not apply generally to other property in the same zone and vicinity such as size, shape, topography, location, surroundings, or physical characteristics created by natural forces or government action for which no compensation was paid, as required by Section 14-16-6-6(N)(3)(a)(1). Specifically, Applicant testified and provided written evidence that, the Subject Property has special circumstances because of its location in proximity to the Albuquerque Rapid Transit infrastructure and traffic controls, which have increased traffic down this previously less-trafficked street, and because of the location of this residential property between two commercial uses. These special circumstances create an extraordinary hardship in the form of a substantial and unjustified limitation on the reasonable use or return on the Subject Property, because compliance with the minimum standards would not allow for the reasonably proposed use that otherwise would be in compliance with the IDO
18. Based on evidence submitted by or on behalf of Applicant, the variance will not be contrary to the public safety, health and welfare of the community as required by Section 14-16-6-6(N)(3)(a)(2). Specifically, evidence was submitted supporting that, if granted

approval, the Applicant intends to construct the proposed project in a manner that is consistent with the IDO and the Development Process Manual (DPM).

19. Based on evidence submitted by or on behalf of Applicant, the variance will not cause significant adverse material impacts on surrounding properties or infrastructure improvements in the vicinity as required by Section 14-16-6-6(N)(3)(a)(3). Specifically, the proposal is designed to be in harmony and consistency with what currently exists in the neighborhood, which was supported by written evidence and oral testimony. Photographs were submitted showing the neighborhood. The proposal would not be out of character with the surrounding area, but rather would reinforce the architectural character of the neighborhood by being in harmony with the other improvements existing and proposed for the Subject Property and the area.
20. Based on evidence submitted by or on behalf of Applicant, the variance will not materially undermine the intent and purpose of the IDO or applicable zone district as required by Section 14-16-6-6(N)(3)(a)(4). Specifically, Applicant presented evidence that the intent of IDO will still be met in that the subject site will be in harmony with existing uses and the proposed variance would merely add to the safety and usability of the site.
21. Based on evidence submitted by or on behalf of Applicant, the variance approved is the minimum necessary to avoid extraordinary hardship or practical difficulties as required by Section 14-16-6-6(N)(3)(a)(5). Specifically, Applicant submitted evidence that any smaller variance would be ineffective to provide for the usability of the site. Thus, the applicant is not requesting more than what is minimally necessary for a variance.
22. Neighbors and the affected neighborhood association (West Park Neighborhood Association) submitted written support for the wall as proposed by the Application.

DECISION:

APPROVAL of a Permit-Wall or Fence-Major and of a Variance for a taller courtyard wall.

APPEAL:

If you wish to appeal this decision, you must do so by April 14, 2022 pursuant to Section 14-16-6-4(V), of the Integrated Development Ordinance, you must demonstrate that you have legal standing to file an appeal as defined.

Successful applicants are reminded that other regulations of the City must be complied with, even after approval of a special exception is secured. This decision does not constitute approval of plans for a building permit. If your application is approved, bring this decision with you when you apply for any related building permit or occupation tax number. Approval of a conditional use or a variance application is void after one year from date of approval if the rights and privileges are granted, thereby have not been executed, or utilized.
