Special Exception No: **VA-2023-00383**

 Project No: **Project#2023-009744**

 Hearing Date: 02-20-2024

 Closing of Public Record: 02-20-2024

 Date of Decision: 03-06-2024

On the 20th day of February 2024, Rick Garduno, HIS Construction, LLC (“Agent”) and Sandyeva Martinez (“Applicant”) appeared before the Zoning Hearing Examiner (“ZHE”) requesting variance of 5 ft to the allowed 15 ft front yard setback (“Application”) upon the real property located at 11104 Love AVE NE (“Subject Property”). Below are the ZHE’s finding of fact and decision:

FINDINGS:

1. Applicant is requesting a variance of 5 feet to the allowed 5 feet front yard setback.
2. The ZHE finds that the Applicant has authority to pursue this Application.
3. Applicant has duly authorized Agent to act on Applicant’s behalf regarding the Application.
4. All property owners within 100 feet and affected neighborhood association(s) were notified.
5. The ZHE finds that the proper “Notice of Hearing” signage was posted for the required time period as required by Section 14-16-6-4(K)(3).
6. The City of Albuquerque Integrated Development Ordinance (“IDO”), Section 14-16-6-6(O)(3)(a) (Variance-Review and Decision Criteria) reads: “... *an application for a Variance-ZHE shall be approved if it meets all of the following criteria:*
 - (1) *There are special circumstances applicable to a single lot that are not self-imposed and that do not apply generally to other property in the same zone and vicinity such as size, shape, topography, location, surroundings, physical characteristics, natural forces or government actions for which no compensation was paid. Such special circumstances of the lot either create an extraordinary hardship in the form of a substantial and unjustified limitation on the reasonable use or economic return on the property, or practical difficulties result from strict compliance with the minimum standards.*
 - (2) *The Variance will not be materially contrary to the public safety, health, or welfare.*
 - (3) *The Variance does not cause significant material adverse impacts on surrounding properties or infrastructure improvements in the vicinity.*
 - (4) *The Variance will not materially undermine the intent and purpose of the IDO or the applicable zone district.*

(5) The Variance approved is the minimum necessary to avoid extraordinary hardship or practical difficulties.”

7. Applicant bears the burden of providing a sound justification for the requested decision, based on substantial evidence, pursuant to IDO Section 14-16-6-4(E)(3).
8. The applicant bears the burden of showing compliance with required standards through analysis, illustrations, or other exhibits as necessary, pursuant to IDO Section 14-16-6-4(E)(4).
9. The subject property is currently zoned R-1B.
10. Based on evidence submitted by Applicant, it appears that there are special circumstances applicable to the Subject Property that are not self-imposed and that do not apply generally to other property in the same zone and vicinity such as size, shape, topography, location, surroundings, or physical characteristics created by natural forces or government action for which no compensation was paid, as required by Section 14-16-6-6(N)(3)(a)(1). Applicant confirmed in oral testimony and submitted evidence that, the Subject Property’s layout based on historic platting and development under prior approval regimes, as well as the location of existing public and private improvements on site and on neighboring properties, create special circumstances. These special circumstances create an extraordinary hardship in the form of a substantial and unjustified limitation on the reasonable use or return on the Subject Property, because compliance with the minimum standards would not allow for the reasonably proposed request, which otherwise would comply the IDO.
11. Based on evidence submitted by or on behalf of Applicant, the variance will not be contrary to the public safety, health and welfare of the community as required by Section 14-16-6-6(N)(3)(a)(2). Applicant submitted evidence supporting that, if granted approval, the Applicant intends to construct the proposed project in a manner that is consistent with the IDO and the Development Process Manual (DPM).
12. Based on evidence submitted by or on behalf of Applicant, the variance will not cause significant adverse material impacts on surrounding properties or infrastructure improvements in the vicinity as required by Section 14-16-6-6(N)(3)(a)(3). Applicant submitted evidence that the proposal is designed to be in harmony and consistency with prior approvals, what currently exists in the neighborhood, rights of way and infrastructure
13. Based on evidence submitted by or on behalf of Applicant, the variance will not materially undermine the intent and purpose of the IDO or applicable zone district as required by Section 14-16-6-6(N)(3)(a)(4). Applicant submitted evidence that the intent of IDO will still be met in that the subject site will be in harmony with existing uses and the proposed variance would merely add to the useability of the site in line with prior development in the area.
14. Based on evidence submitted by or on behalf of Applicant, the variance approved meets the minimum necessary to avoid extraordinary hardship or practical difficulties as required by Section 14-16-6-6(N)(3)(a)(5). Evidence supports that any smaller variance would not be practicable.
15. The City Traffic Engineer submitted a report stating no objection to the Application.

DECISION:
